N.-W. F. P. :— Publishes for genl. infn. rules framed under sec. 4 of the Hackney Carriage Act, XVI of 1879, by cantt. comtee. of Nowshera, 718; makes an addn. to Rule II (2) of Rules under Punjab Alienation of Land Act, XIII of 1900, published in Notfn. No. 1381-G., dated 13th July 1904, 722; declrn. under sec. 30 of the N.-W. F. Law and Justice Regn. of 1901, that a certain rule of descent involving devolution of a certain heritable assignment of land revenue to a single heir in the family of Nawab Ghulam Kasim Khan, grandson of Nawab Shah Niwaz Khan and son of Muhammad Akbar Khan of Tonk, Dera Ismail Khan dist., shall prevail in the family of the said assignee, 770; direction that the afore-said rule of descent shall be subject to certain conditions specified in sec. 31 of the N.-W. F. Law and Justice Regn. of 1901, 770; fixes the proportion which the village offr.'s cess shall bear to annual value of land in Abbottabad tahsil and Agror Il'qa, Hazara dist., 810; directs partition of Nowshera sub-dist. into two sub-dists., 833; appoints cantt. magto. of Nowshera *ex-officio* sub-registrar of Nowshera cantt. sub-dist., Peshawar dist., and declares tahsildar of Nowshera to be *ex-officio* sub-registrar of area excluding mily. cantt. of Nowshera, 833; declares that the restrictions enumerated in sec. 7 (a) of the Indian Works of Defence Act, VII of 1903, shall apply with certain provisos to certain specified areas in the vicinity of Fort Edwards, Banna dist., 871; makes corrn. in Rule 22 of revised hackney carriage rules for Peshawar cantt., published with Punjab govt. Notfn. No. 704, dated 14th June 1893, as subsequently amended, 847; cancels Notfn. No. 95, dated 23rd Feb. 1905, relative to acquisition of land for extn. of Dera Ismail Khan cantt., 924; publishes for genl. infn. rules which it is proposed to invite all munplities. to adopt by bye-law regdg. procedure to be followed in dealing with munpl. accts. and taxation, 949; publishes erratum to Notfn. No. 177, dated 31st July 1905, 1108; notifies dates and places of holding next half-yearly exmn. in Pushtu by higher standard, and of exmn. for tahsildars, naib-tahsildars and subordinate offrs. of police and irrign. dept., 1135; extends sec. 192 of Punjab Munpl. Act, XX of 1891, to notified area of Nathiagali and Dungagali, Hazara dist., 1136; sanctions omission of word "Butter" in bye-law No. 2 of bye-laws of munpl. comtee. of Abbottabad, published in Notfn. No. 898-A., dated 18th Aug. 1903, 1136; notifies assumption by court of wards of superintendence of property of Nawab Allahdad Khan, Saddozai, son of Nawab Sarfraz Khan, Saddozai, of Dera Ismail Khan dist., 1164; confirms resolutions of certain munpl. comtees. by which munpl. acct. code published in Notfn. No. 166-H., dated 8th Aug. 1905, has been adopted as a bye-law by each munplty., also declares suspension of Rule 74 thereof for 6 months from date of operation, in the case of certain class B munplities. noted, 1165; publishes for genl. infn. bye-law framed by Kohat munpl. comtee. under sec.

148 (1) (f), Punjab Munpl. Act, XX of 1891, which has been confirmed by chief comr., and will come into force six weeks from date, 1165; publishes for genl. infn. bye-laws made by Kohat munpl. comtee., under sec. 143 (1) (e) (iv), Punjab Munpl. Act, XX of 1891, which have been confirmed by local govt., and will come into force six weeks from date, 1186; declrn. that improved arrangements are required within limits of adjoining areas known as Becketganj, in villages of Hoti and Mardan, Peshawar dist., as defined in annexed boundary sch., in respect to matters mentioned in clauses (a), (b), (g), (h), (i), and (k), sec. 72(2), Punjab Munpl. Act, XX of 1891, and maintenance of suitable force of town watchmen, 1249; extends provisions of noted secs. of Punjab Munpl. Act, XX of 1891, to notified area of Becketganj-Khwajaganj, Peshawar dist., 1249; imposes certain taxes under sec. 211 (1) (a) of same act, in the same notified area, 1250; notifies apptt. of comtee. to provide for recovery and expenditure of taxation levied in same area, and for preparation and maintenance of proper accts. of same, 1250; imposes certain taxes in Mardan cantt., from 1st Jan. 1906, under sec. 17 (1), Cants. Act, XIII of 1889, 1250; applies to the same cantt. the provisions of secs. 49 to 61, 63, 64, and 201 of Punjab Munpl. Act, XX of 1891, regdg. assessment and recovery of taxes in adapted form set forth in annexed sch., 1250; declrn. of persons who have passed naib tahsildar's exmn. held at Lahore on 7th Aug. 1905, and following days, 1253, makes an addendum to bye-law published with Notfn. No. 4653, dated 18th Sept. 1905, 1271; publishes, for genl. infn., list of days to be observed as local holidays by various civil courts, in the province during 1906, 1273; declares the chief comr.'s intention to extend provisions of Vaccination Act, XIII of 1880, to notified area of Tank and requires objections, if any, to be sent in writing before a certain date, 1340; declares the chief comr.'s intention to extend provisions of Vaccination Act, XIII of 1880, to Kulachi munplty., and requires objections, if any, to be sent in writing before a certain date, 1340; declares that the provisions of sec. 93 of the — Law and Justice Regn., VII of 1901, shall cease to have effect with regard to current re-assessment of land reve. and revision of record-of-rights of Dera Ismail Khan dist., 1352; notifies the 2nd Dec. 1905, as a public holiday throughout the province, in honour of visit of T. R. H. the Prince and Princess of Wales, all govt. offices being closed in addn. on 4th Decr., 1378, declrn. under sec. 30 of the N.-W. F. Law and Justice Regn. of 1901, that a certain rule of descent involving devolution of a certain heritable assignment of land reve. to a single heir in the family of Allah Baksh, son of Mir Akbar Khan and grandson of Mir Alam Khan, Mian Khel, in the Dera Ismail Khan dist., shall prevail in the family of the said assignee, 1379; direction that the afore-said rule of descent shall be subject to certain conditions specified in sec. 31 of the N.-W. F. Law and Justice Regn. of 1901, 1379; declares the chief comr.'s intention to extend provisions of

	Page		Page

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JULY 1, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 29th June 1905.

NOTIFICATIONS.

No 2459 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 24th June 1905 :—

- No. 294 of 1905.—Akshoya Kumer Majumder, pleader, Judge's Court, Mymensing, Bengal. *"Charu" cycle or the high speed front wheel driver.*
- No. 295 of 1905.—Chevur Krishnachar Subba Rao, Sub-assistant Director of Agriculture, Madras, Chepauk *Improved gravity pump and general working power.*
- No. 296 of 1905.—James Robinson Hatmaker, gentleman, of 25 Rue de la Faisanderie, Paris, France. *Improvements in cylindrical drying machines.*
- No. 297 of 1905.—Alexander Crawford Chenoweth, engineer, of 7 East 31st street, New York city, United States of America. *Improvements in concrete or like constructions.*
- No. 298 of 1905.—Lester Willis Gill, M.Sc., of 76 Gore street, in the city of Kingston, Province of Ontario, Dominion of Canada. *Improvements in spinning and twisting machines.*
- No. 299 of 1905.—Francis Dillon Bellew, licensed branch pilot, residing at 3 Rawdon street, Calcutta, British India. *An improved releasing gear for boats and other purposes.*
- No. 300 of 1905.—Frank Cotton, gentleman, of Hornsby, in the state of New South Wales, in the Commonwealth of Australia. *An improved apparatus for burning liquid fuel in conjunction with steam.*
- No. 301 of 1905.—John Leck Bruce, engineer, of Kogarah, in the state of New South Wales, in the Commonwealth of Australia. *An improved apparatus for automatically lighting and extinguishing street and other gas lamps from a distance.*
- No. 302 of 1905.—Rudolf Braun, electrical engineer, of Westinghouse Works, Trafford Park, Manchester, England. *Improvements in magnetic brakes for railway and other vehicles.*
- No. 303 of 1905.—John Cuthbert Traill, gentleman, of 34 Mercer road, Malvern, in the state of Victoria, Commonwealth of Australia. *Improvements in safety pins usable for fastening and hanging curtains and drapings and for other purposes.*
- No. 304 of 1905.—Alexander Sommerville Goldie, ironfounder, of Uddingston Foundry, Uddingston, Lanarkshire, Scotland. *Improvements in and relating to the furnaces of steam boilers and the like.*

No. 2460 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 226 of 1904.—Dorabji Merwanji Daboo, commercial agent, residing at 8 Bazaar road, Mahim, Bombay. *Improvements relating to the electric and automatic working of signals, points, and crossing-gates on railways.* (Specification filed 18 March 1905.)

- No. 389 of 1904.—William Frederick Suckling Perry, engineer, in the employ of the Bombay Burmah Trading Corporation, Limited, of Rangoon, British Burmah. *Improvements in punkah pulling systems.* (Specification filed 20 June 1905.)
- No. 485 of 1904.—William Jackson, engineer, of Thorn Grove, Mannofield, Aberdeen, North Britain. *Improvements in apparatus for rolling tea-leaf and the like.* (Specification filed 19 June 1905.)
- No. 486 of 1904.—James Wilson Hall, manager, oil mills, B., B. & C. I. Railway, Sabarmatti, District Ahmedabad. *Improvements in carburettors of internal combustion engines.* (Specification filed 16 June 1905.)
- No. 38 of 1905.—Archibald A. Crawford, engineer, residing at 9 Medows street, Bombay. *Improved methods for supply of electric current to lamps and fans, especially on railway carriages deriving electricity from axle-driven dynamos in combination with storage cells.* (Specification filed 29 May 1905.)

No. 2461 P.—WHEREAS the inventors of the under-mentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

- No. 103 of 1899.—Cecil Gorman May. *An improved slide rule for use by irrigation engineers.* (Specification filed 28 November 1899.)
- No. 186 of 1899.—The Automatic Telephone Company, Limited. *An improved system of automatic telephone exchange.* (Specification filed 27 November 1899.)
- No. 187 of 1899.—John Edward Tenison Woods and William Ascroft Byrom. *Improvements in and connected with the manufacture of calcium carbide and such like compounds, the reduction of metallic oxides and the melting and refining of steel and other metals.* (Specification filed 27 November 1899.)
- No. 214 of 1899.—Alfred Edmond Adie and William Naylor. *A central buffer screw-coupling gear for either 'hook' or 'link' couplings.* (Specification filed 8 November 1899.)
- No. 382 of 1899.—Christopher Rawson. *Improvement of indigo manufacture.* (Specification filed 10 March 1900.)
- No. 421 of 1899.—Henri Desrumaux. *Improvements in apparatus for purifying water and other liquids.* (Specification filed 11 May 1900.)
- No. 138 of 1900.—George Henry Clarkson. *Improvements in and connected with electric signalling on railways.* (Specification filed 23 March 1901.)
- No. 270 of 1900.—John Hamilton Brown. *Improvements in explosive charge for propelling projectiles.* (Specification filed 20 March 1901.)
- No. 309 of 1900.—Henri Weymersch. *Improvements in electric accumulators or secondary batteries.* (Specification filed 20 March 1901.)
- No. 319 of 1900.—Thomas Mackenzie. *Improvements in centrifugal or vacuum pumps.* (Specification filed 22 March 1901.)
- No. 324 of 1900.—Alfred Brake. *Improvements in apparatus for drawing off measured or unmeasured quantities of liquid.* (Specification filed 20 March 1901.)
- No. 411 of 1900.—Frederic Godfrey Hughes. *An improved bandolier or cartridge belt for carrying ammunition for magazine rifles and other small arms.* (Specification filed 20 March 1901.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for each of the above inventions.

- No. 193 of 1897.—Kavasji Kharshedji Mehta and Dinshaw Pestonji Mehta. *Improvements in or applicable to cotton gins.* (Specification filed 18 March 1898.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (d) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification.

The sum of Rs50 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified. or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,

Secretary under the Inventions
and Designs Act, V of 1888.

CIVIL ENGINEERING COLLEGE, SIBPUR.
Agricultural Department.

HIGHER AGRICULTURAL CLASS.

SESSION 1905-1906.

Rules for Admission.

For admission to the Higher Agricultural Class, an applicant must have one of the following qualifications:—

- (i) He must have passed the F. E. examination of the Calcutta University, and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.
- (ii) He must have passed the B. A. examination of the Calcutta University by the B. course, or possess other sufficient educational qualifications; be under 23 years of age, and, in addition, have received a nomination from the Bengal Government.
- (iii) He must have had a general education qualifying him to follow the instruction in the Higher Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural Students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on passed students under rules 12 and 13, even though they should obtain fully-signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application for a nomination, which must be addressed to the Principal, is given in Appendix B. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the first Monday in November. All students are required to join the College on that day. Any student prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs 10. No student will be admitted or re-admitted to the College after the month of November, except by special orders of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

Course of Instruction.

The course of instruction in the Higher Agricultural Class will extend over two academic years.

Scholarships.

Senior scholarships awarded in the Engineer Department are tenable in the Agricultural Department.

One graduate scholarship of Rs 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Appointments.

Two appointments annually are assigned to students holding a fully-signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Entrance and Tuition Fees.

Each student in the higher Agricultural Department will be required to pay an admission fee of Rs 10.

F. E.'s who elect to join the Agricultural Department, immediately after passing the F. E. examination, are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be Rs 8 a month.

Further particulars may be obtained free on application to the Principal.

SIBPUR,
The 7th June 1905.

A. MACDONELL,
Officiating Principal, Civil Engineering College.

**THE HONOURABLE THE AGENT TO THE GOVERNOR-GENERAL AND
 CHIEF COMMISSIONER, NORTH-WEST FRONTIER PROVINCE.**

NOTIFICATIONS.

Peshawar, the 22nd June 1905.

No. 157—On return from leave granted to him in Notification No. 131, dated the 17th May 1905, Munshi Mahbub Alam, Extra Assistant Commissioner and Personal Assistant to the Revenue Commissioner, resumed charge of his duties on the forenoon of the 12th June 1905.

By order,

F. W. JOHNSTON,

Secretary to the Chief Commissioner,
 N.-W. F. Province.

The 22nd June 1905.

No. 158.—Lieutenant C. A. Gill, I.M.S., assumed charge of the civil medical duties of the Sheikh Budin Sanatorium, on the forenoon of the 15th May 1905.

No. 159.—The following rules which have been framed under section 4 of Act XIV of 1879 (The Hackney Carriage Act) by the Cantonment Committee of Nowshera have received the confirmation of the Hon'ble the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province, and are hereby published for general information. They shall have the force of law from the date of this notification:—

Rules.

1. Every hackney carriage owner shall be required to take out a license from the
 All hackney carriages to be licensed. Cantonment Committee.
2. Such license shall be issued from the Cantonment Committee's Office (in Form A)
 Place of issue of the license. on payment of the fee prescribed by Rule 5 after the
 carriage and horses have been examined and approved by
 one or more members of the Cantonment Committee, the Secretary to the Cantonment
 Committee, and the Assistant Commissioner, who shall also jointly determine the class to
 which the carriage shall belong.
3. No license shall be renewed except on payment of the same fee as for the original
 Renewal of license. license.

Classification of carriages.

4. There shall be four classes of hackney carriages as follows :—

1st Class.

Barouches with two horses

Wagonettes ditto.

Phætons ditto.

Intermediate Class.

Palki garis with two horses.

2nd Class.

Tum-tums of superior make.

3rd Class.

Tum-tums of inferior make.

The conditions of license shall be :—

A—1st class and Intermediate class (1) The carriage must be good throughout, of modern design and provided with two good lamps.

(2) The horses must not be under 14 hands in height nor less than 4 years old, and must be in good condition

(3) The harness must be complete, in thoroughly good order and properly fitted.

2nd class Tum-tums

(1) The carriage must be good throughout of modern design and provided with a hood and two good lamps.

(2) The horses must not be under 13 hands in height nor less than 3 years old.

(3) The harness must be complete and in thoroughly good condition.

3rd class Tum-tums

(1) The carriage must be strong and provided with two lamps.

(2) The horses must not be under 13 hands in height nor less than 3 years old, and the harness must be serviceable.

Provided that where the horses are really strong and equal to the draught required of them, the prescribed height need not be rigidly adhered to

B--All Classes.—

When not on hire the licensee shall keep such carriage and horse or horses used for the purpose of such carriage at the gari serai in the Sadr Bazar :

Provided that the temporary removal elsewhere of such carriage or horse or horses for *bonâ fide* purposes of repair or treatment, if notified to the Committee as soon thereafter as is practicable, shall not be deemed to be a breach of this condition.

Fees for licenses.

5. The fees for carriage licenses shall be :—

	R	a.	p.
First class	8	0	0
Intermediate class	6	0	0
Second class	5	0	0
Third class	3	8	0

6. Licenses issued under these rules shall continue in force from 1st October to the 30th September following, but they shall be liable to revocation or suspension within that time by order of the Cantonment Magistrate on proof before him that the proprietor or his agent or driver has been guilty of the infringement of any of these rules, or has been convicted of any offence under the Act, or that the conditions on which the license was granted are not fully maintained.

Period of license.

7. Applications for the renewal of licenses shall be made one month before the expiry of the year of license and the renewed license shall be granted in the same way and by the same officers as provided in Rule 2 and on payment of the same fee as for the original license.

Renewal of licenses.

8. When a carriage is transferred to a new proprietor during the year of license the name of such proprietor shall be duly reported by the transferrer to the Cantonment Office, and shall be substituted in the license for the name of the transferrer without further payment.

Transfer of license.

9. Each license shall bear a serial number, and this number shall be painted in English in a conspicuous place on the carriage, *and in English on the lamps.*
 Numbering of license and vehicle.
10. All licenses shall be produced for inspection when required by any Magistrate or Police Officer or by the Secretary or other officer or member of the Cantonment Committee.
 Production of license.
11. A hackney carriage shall not carry a person suffering from cholera, small-pox, leprosy, or other infectious disease, or the corpse of a person who has died from any such disease.
 Corpses or diseased persons not to be carried.
12. In order to ensure the carrying out of the provisions of these rules it shall be lawful for any of the persons specified in Rule 2, and for any person authorized in this behalf by the Cantonment Committee, to enter premises on which licensed vehicles, animals, harness, and other things used therewith are kept.
 Inspection of premises.
13. No carriage shall wait for hire except at the carriage stands appointed under Rule 26. Drivers found waiting for hire at places other than those appointed shall be liable to forfeit their driver's licenses. The regulation of the order in which hackney carriages shall rank on the stands shall be under the control of the Police.
 Stands for licensed carriages.
14. The driver, agent, or proprietor of a licensed carriage shall at any time of the day or night be bound to give such carriage on hire to any person demanding the same, unless for good and sufficient reason, the burden of proving which shall lie on the driver, agent, or proprietor so refusing.
 Power of owner to refuse a licensed carriage.
15. The maximum number of persons which may be carried by each description of hackney carriage is as follows :—
 Number of persons to be carried by each licensed hackney carriage.

Description of vehicle	Number of persons.
1. By a barouche By a palki gari, wagonette, or phaeton }	Seven persons including syce and driver.
2. By a tum-tum	Four persons including the driver.

Two children under ten years of age shall be reckoned as one adult person.

16. Every hackney carriage driver shall have in his possession, while driving or plying for hire, a list of the fares prescribed. Such list shall be printed in English and in Urdu. One copy shall be provided each year by the Cantonment Committee at the time of licensing free of cost, but the renewal of a list which has been lost, destroyed, or defaced shall rest with the proprietor, who shall renew it at once at his own expense.
 List of fares to be in possession of driver.

17. In the absence of any private agreement between the proprietor, agent, or driver of a licensed carriage and the hirer, the following rates shall be paid for journeys within Cantonment limits and upon all metalled roads outside Cantonment limits up to a distance of 3 miles from the Cantonment boundary —
 Fares.

For 1st class carriages.

	R	a	p.
For a single hour or portion of an hour	1	0	0
For each hour or portion of an hour after the first hour and up to 4 hours, per hour	0	8	0
For more than 4 hours and up to 6 hours	3	0	0
For a whole day of 9 hours	4	0	0

Intermediate class.

(Palki gari.)

	R	a	p.
For a single hour or portion of an hour	0	12	0
For each hour or portion of an hour after the first hour and up to 4 hours, per hour	0	6	0
For more than 4 hours and up to 6 hours	2	0	0
For a whole day of 9 hours	3	0	0

Every carriage of the 1st or intermediate class shall, whenever plying for hire, be accompanied by a syce in addition to the driver.

For 2nd class carriages.

(Tum-tums)

	R	a	p.
For first hour or portion of an hour	0	8	0
For each hour or portion of an hour after the first hour and up to 4 hours, per hour	0	4	0
For more than 4 hours and up to 6 hours	1	8	0
For a whole day of 9 hours	2	8	0

For 3rd class carriages.

	R	a.	p.
For the first hour	0	4	0
For each subsequent hour	0	2	0
For a day of 9 hours	1	0	0

18. The minimum speed at which a carriage hired by time shall be driven shall be 6 miles per hour.

Minimum speed if hired by time.

19. Every licensed vehicle shall, while plying for hire, between sunset and sunrise carry two lights.

Carrying of lights.

20. Property found in a licensed hackney carriage shall be deposited at the nearest Police Station by the proprietor or driver of such carriage.

A list of such property shall be pasted at the Headquarters, Cantonment Police Station, and at such other places as the District Superintendent of Police may direct.

21. No person shall be allowed to act as the driver of a licensed vehicle except under a license in Form B to be granted by the Secretary to the Cantonment Committee. A driver's license is not transfer-

able and shall be current for the same period as a carriage license issued under Rule 6.

Provided that it shall be liable to revocation for cruelly-beating, ill-treating, over-driving, or misusing any horse driven in a licensed vehicle, or for committing a breach of these rules.

22. Drivers of 1st, intermediate and 2nd class carriages shall wear a red turban and khaki kurta when driving or plying for hire.

Drivers of 1st, intermediate and 2nd class carriages to wear red turban and khaki kurtas.

22A. Every licensed driver shall wear, while driving a licensed carriage, a brass badge on his arm. The badge shall show a distinctive number and the words "Hackney carriage driver, Nowshera Cantonment."

23. Prosecution for the breach of these rules may be instituted by any passenger, Police Officer, or the Secretary or any member of the Cantonment Committee.

Fees for driver's license

24. The fees for driver's licenses shall be 12 annas per annum.

25. A driver's license shall not be granted to any person who is not of good character, or who is under 18 years of age, or who is infirm from age.

**NORTH-WEST FRONTIER PROVINCE—DEPARTMENT OF REVENUE
AND AGRICULTURE.**

Agriculture.

NOTIFICATION.

Peshawar, the 24th June 1905.

No. 2697.—In exercise of the power conferred on him by section 25 of the Punjab Alienation of Land Act (XIII of 1900) as modified in its application to the North-West Frontier Province by Regulation I of 1904 and section 17 of the Punjab Land Revenue Act (XVII of 1887), the Chief Commissioner is pleased to make the following addition to Rule II (2) of the Rules published in *Gazette of India* Notification No. 1381-G., dated 13th July 1904.

ADDITION.

"Except in the case of a mortgage which purports to be in form (a) described in Section 6 (1) of the Act, where the only contravention of the Act is as to term of the mortgage. In this case mutation should be allowed subject to the condition attached to the mortgage by law, namely, that its term shall be for 20 years."

M. F. O'DWYER,
Revenue and Financial Secretary to Chief Commissioner,
N.-W. F. Province.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Stolen.

The Government Promissory Notes Nos. B027392, B027399, B027400, B027401, and B027402, of the 3½ % Loan of 1854-55 for Rupees one thousand each, originally standing in the name of the Bank of Bombay, and last endorsed to Sakhubai, widow of Kesheo Ramchandra Bhagat, and Vishnu Chintaman Joshi, a minor, or, either of them, the proprietors, by whom they were never endorsed to any other person, having been stolen, notice is hereby given that payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, and that application is about to be made for the issue of duplicates in favour of the proprietors. The public are cautioned against purchasing or otherwise dealing with the abovementioned securities.

Name of the Advertiser—SAKHUBAI, WIDOW OF KESHEO RAMCHANDRA BHAGAT.
Residence—Sarai Peth, near Post Office Junnar,
Taluka Junnar, District Poona.

NOTICE.

The interest and responsibility of Mr. William Barlas Jameson in our firm ceased as on and from 31st December 1904.

CALCUTTA, 1st July 1905.

KERR, TARRUCK & CO.

SUPPLEMENT TO

The Gazette of India.

No. 26.]

CALCUTTA, SATURDAY, JULY 1, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

EXPLOSIVES.

The 27th June, 1905.

No. 3019-G.—The following draft rules which it is proposed to make in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), are published (as required by section 18 of the said Act and by the notification of the Government of India, Home Department, No. 1964, dated 2nd September 1887) for the information of persons likely to be affected thereby; and notice is hereby given that the draft will be taken into consideration by the Governor General in Council on or after the 1st day of September 1905.

II.—Any objections or suggestions which may be received from any person with respect to the draft before that date will be considered by the Governor General in Council.

DRAFT RULES UNDER THE EXPLOSIVES ACT, 1884, FOR THE MANUFACTURE, POSSESSION AND SALE OF EXPLOSIVES.

In exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), the Governor-General in Council is pleased to make the following rules to regulate the manufacture, possession and sale of explosives in British India.

All rules heretofore made by the Governor General in Council or any Local Government under the said Act, for regulating the manufacture, possession or sale of explosives, are hereby cancelled, except rules of the kind referred to in clause (2) of rule 1 of the present rules.

Preliminary.

1. These rules shall not apply to—

- (1) the manufacture, possession or sale of gunpowder in any of the Agency tracts in the Ganjam, Vizagapatam and Godavari Districts of the Madras Presidency, or
- (2) the possession of any explosive in any port in which special rules made by the Local Government under the Explosives Act, 1884 (IV of 1884), for regulating the possession of explosives, are for the time being in force.*

General exemption

* Further exemptions are made by section 14 of the Indian Explosives Act, 1884 which runs as follows:—

Saving for manufacture, possession, use, sale, transport or importation by Government.

"Nothing in this Act shall apply to the manufacture, possession, use, sale, transport or importation of any explosive—

(a) by order of the Government, or

(b) by any person employed under the Government in the execution of this Act, or as a keeper of a magazine, artisan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer under the Indian Volunteers Act 1869, in the course of his employment or duty as such."

XX of 1869.

ification of
sives.

2. (1) For the purposes of these rules, explosives shall be classified as follows, namely :

Class 1	Gunpowder.
" 2	Nitrate-mixture.
" 3	Nitro-compound.
" 4	Chlorate mixture.
" 5	Fulminate.
" 6	Ammunition.
" 7	Firework.

(2) When any explosive falls within more than one of the said classes, it shall be deemed to belong exclusively to the latest of such classes.

ition of "gun-
ler" (class 1).

3. The expression "gunpowder", as used in these rules, means exclusively gunpowder ordinarily so-called.

ition of
rate-mixture "
s 2).

4. The expression "nitrate-mixture", as used in these rules, means any preparation, other than gunpowder, which is formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

Nitrate-mixture includes, among other explosives,—

Chilworth special powder,	Ripp-Lene,
Fortis explosive,	Safety blasting powder, and
	Westfallite.

ition and sub-
ion of "nitro-
ound "
s 3).

5. (1) The expression "nitro-compound", as used in these rules, means any chemical compound which is possessed of explosive properties or is capable of combining with metals to form an explosive compound, and is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

(2) Nitro-compound shall, for the purposes of these rules, be sub-divided as follows, namely :

(a) Division 1, comprising—

(i) such explosives as—

Amberite No. 1,	Dynamite,
Ballistite,	Gelatine dynamite,
Blasting gelatine,	Gelignite,
Carbonite,	Lithofracteur,
• Cordite,	Nitro-glycerine, and
	Stonite, and

(ii) any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound ; and

(b) Division 2, comprising—

(i) such explosives as—

Amberite No. 2,	Nitrated-gun-cotton,
Ammonite,	Picrates,
Bellite,	Picric powder,
Coopal's powder,	Roburite,
Cotton gunpowder,	Sawdust and gun-cotton powder,
E. C. powder,	Schultz's powder, and
Gun-cotton ordinarily so-called,	Tonite (or cotton powder), and

(ii) any nitro-compound, as hereinbefore defined, which is not comprised in Division 1.

6. (1) The expression "chlorate-mixture", as used in these rules, means any explosive containing a chlorate.

Definition and sub-division of "chlorate-mixture" (class 4).

(2) Chlorate-mixture shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising—

(i) such explosives as—

Horsley's blasting powder, and

Brain's blasting powder, and

(ii) any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound; and

(b) Division 2, comprising—

(i) such explosives as—

Horsley's original blasting powder, | Hochstadter's blasting charges,

Erhardt's powder, | Reichen's blasting charges,

Reveley's powder, | Teutonite, and

Chlorated gun-cotton, and

(ii) any chlorate-mixture, as hereinbefore defined, which is not comprised in Division 1.

7. (1) The expression "fulminate", as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

Definition and sub-division of "fulminate" (class 5).

(2) Fulminate shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter; and

(b) Division 2, comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

8. (1) The expression "ammunition", as used in these rules, means any explosive included in any of the foregoing definitions, when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared, so as to form—

Definition of "ammunition", "percussion-cap", "detonator", "safety fuze" and "safety cartridge," and sub-division of "ammunition" (class 6).

(a) a cartridge or charge for small-arms, cannon or any other weapon, or for blasting, or

(b) a safety or other fuze for blasting or for shells, or

(c) a tube for firing explosives, or

(d) a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or any other contrivance other than a firework.

(2) The expression "percussion-cap", as used in these rules, does not include a detonator.

(3) The expression "detonator", as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(4) The expression "safety fuze", as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(5) The expression "safety cartridge", as used in these rules,—

(i) means a cartridge for small arms, the case of which can be extracted from the small-arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and

(ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i), whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers:

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch.

(6) Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising exclusively—

Safety cartridges,
Safety fuzes for blasting,
Railway fog-signals, and
Percussion-caps, and

(b) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, other than safety cartridges,
Cartridges and charges for cannon, shells, mines, blasting or other like purposes,
Shells and torpedoes containing any explosive,
Fuzes for blasting, other than safety fuzes,
Fuzes for shells,
Tubes for firing explosives, and
War-rockets,

which do not contain their own means of ignition; and

(c) Division 3, comprising any ammunition, as hereinbefore defined, which contains its own means of ignition and is not included in Division 1, such as—

Detonators,
Cartridges for small-arms, which are not safety cartridges,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells, and
Tubes for firing explosives,

containing their own means of ignition.

Explanation.—The expression "ammunition containing its own means of ignition" means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

9. Fireworks shall, for the purposes of these rules, be sub-divided as follows, Sub-division of "firework" (class 7) namely :

- (1) Division 1, comprising firework compositions, that is to say,—
 - (a) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,
 - (b) any star, and
 - (c) (except as declared in the proviso to this rule) any coloured fire composition ; and
- (2) Division 2, comprising manufactured fireworks, that is to say, any explosive of class 1, 2, 3, 4, 5 or 6 and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals :

Provided that a substantially constructed and hermetically closed metal case containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework and not a firework composition."

Licenses when required.

10. (1) An explosive shall not be manufactured except under, and in accordance with the conditions of, a license granted under these rules for such manufacture. License when required for manufacture.

(2) Provided that clause (1) of this rule shall not apply—

- (a) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale ; or
- (b) to the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use, or
- (c) in the case of any person who holds a license under these rules to possess an explosive, and who, in connection with his magazine or licensed premises, fills with the said explosive, for sale or otherwise, cartridges for small-arms ; or
- (d) in the case of any person who holds a license under these rules to possess an explosive, and who, in connection with his magazine or licensed premises, by filling cartridges, making charges, or drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine or quarry or in some excavation or work carried on by him or under his control.

11. (1) An explosive shall not be possessed except under and in accordance with the conditions of a license granted under these rules for such possession. License when required for possession.

(2) Provided that clause (1) of this rule shall not apply to the possession—

- (a) of any explosive by a carrier or other person for the purpose of transport, when the same is being kept or transported in accordance with rule made under the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force for regulating the transport of such explosive ; or
- (b) of any explosive on board any ship in pursuance of the Merchant Shipping Acts for the time being in force, or of any order or regulation for the time being in force thereunder ; or

(c) by any person who is lawfully entitled under the Indian Arms Act, 1878 (XI of 1878), or the rules for the time being in force thereunder, to possess any explosive coming under the head of ammunition as defined in that Act, of such explosives in such quantities as may be prescribed by the said Act or rules, or, when no quantities are so prescribed, in reasonable quantities for his own private use; or

(d) by any person, of fireworks in any quantity not exceeding two hundred pounds,—

when the same are obtained and intended for immediate use and not for sale, and are possessed by such person for a period not exceeding fourteen days, and are kept in a substantial receptacle which is exclusively appropriated to the keeping of explosives and is closed and secured so as to prevent unauthorised persons from having access to the explosives; and

(if such fireworks be kept in a municipality in any quantity exceeding fifty pounds) when they are covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of Assistant District Superintendent of Police.

(3) Provided also that clause (1) of this rule shall not apply to the possession by any person, for his private use and not for sale, of—

- (i) gunpowder in any quantity not exceeding thirty pounds; or
- (ii) safety cartridges made with gunpowder and containing in all not more than one hundred and fifty pounds of gunpowder; or
- (iii) cartridges (non-safety) for small-arms, made with gunpowder and containing in all not more than five pounds of gunpowder; or
- (iv) cartridges for cannon or blasting, made with gunpowder and not containing their own means of ignition, and containing in all not more than thirty pounds of gunpowder; or
- (v) cartridges for small-arms, made with small-arm nitro-compound and containing in all not more than ten pounds of small-arm nitro-compound; or
- (vi) small-arm nitro-compound in any quantity not exceeding ten pounds; or
- (vii) percussion-caps or safety fuzes for blasting; or
- (viii) railway fog-signals, when kept by a Railway company for use on their Railway; or
- (ix) any other explosives in any quantity not exceeding ten pounds (whether or not contained in cartridges), or, in the case of detonators, in any quantity not exceeding one hundred in number; provided that the possession of the explosives is covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of Assistant District Superintendent of Police.

(4) The quantity of any kind of explosive kept by any person for his private use under clause (3) without a license shall be in substitution for the like quantity of any other kind of explosive (whether gunpowder or not) which might otherwise be so kept by him; and the quantity of such other kind of explosive shall be reduced accordingly: provided that, if the explosive so kept is in any other form than that of cartridges for small arms, the explosive of which the quantity is so reduced shall be some explosive other than safety cartridges made with gunpowder.

(5) Notwithstanding any thing contained in clause (3) or clause (4) of this rule, clause (1) shall apply to the possession for private use of explosives of the 5th (fulminate) class in any quantity.

12. Nothing in these rules shall be deemed to authorise the manufacture or possession of any explosive in contravention of any prohibition notified under section 6 of the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force.

13. (1) An explosive shall not be sold except under, and in accordance with the conditions of, a license granted under these rules for such sale. License when required for sale.

(2) Provided that clause (1) of this rule shall not apply to the sale by any person of an explosive, which he is lawfully entitled to possess for his own private use, to any person who is lawfully entitled to possess the same.

Grant of licenses.

14. (1) Licenses to manufacture, possess and sell or to possess and sell, or to possess,— Grant of licenses for manufacture, possession and sale in certain cases.

- (a) an explosive of the 1st (gunpowder) class, or
- (b) small-arm nitro-compound belonging to the 3rd class, or
- (c) an explosive of the 1st division of the 6th (ammunition) class, or
- (d) an explosive of the 7th (firework) class,

may be granted in a Presidency-town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate.

(2) A license granted under this rule shall not entitle the licensee to possess at the same time more than—

- (i) two hundred pounds of gunpowder or small-arm nitro-compound, and five hundred pounds of explosive contained in ammunition of the 1st division of the 6th (ammunition) class, or
- (ii) two hundred pounds of fireworks, or
- (iii) sixty pounds of explosives (including gunpowder, small-arm nitro-compound, and fireworks), and five hundred pounds of explosives contained in ammunition of 1st division of the 6th (ammunition) class, or
- (iv) any such less quantity of any of the said explosives as the licensing officer may think fit to specify in the license.

(3) Every such license shall specify the place in which alone the explosives referred to in it may be kept; and such place must be approved by the licensing authority.

(4) Notwithstanding anything contained in the foregoing clauses of this rule, any Mamlatdar in the Presidency of Bombay who is specially authorized by the District Magistrate in this behalf may grant licenses entitling *bonâ fide* agriculturists residing within the limits of the taluka under the charge of such Mamlatdar to possess at the same time not more than one hundred pounds of gunpowder and not more than ten safety fuses for use with the same.

(5) Every license granted under this rule shall be in Form A, Form B, Form C, Form D, or Form E, in the Schedule hereto annexed, as the case may be, and shall contain the conditions prescribed therein.

(6) The expression "small-arm nitro-compound", as used in this rule, means a nitro-compound adapted and intended exclusively for use in cartridges for small-arms.

15. (1) Licenses to manufacture explosives in cases not provided for by rule 14 may be granted by the Governor General in Council. Grant of licenses for manufacture in cases not provided for by rule 14.

(2) Every such license shall be in such form and shall contain such conditions as may be prescribed by the Governor General in Council:

Provided that the conditions so prescribed in the case of the manufacture of any explosive in any quantity shall comprise all the conditions prescribed in these rules and the Forms hereto annexed in the case of the possession of such explosive in such quantity.

16. (1) Licenses for the possession, at such places as may be approved by the licensing officer, of explosives other than those specified in rule 14 may, if the explosive is not one of the 5th (fulminate) class, and if the quantity to be possessed at the same time does not exceed sixty pounds, be granted in a Presidency-town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate. Grant of licenses for possession in certain cases not provided for by rule 14.

(2) Every such license shall be in Form F in the Schedule hereto annexed, and shall contain the conditions prescribed therein.

Grant of licenses
for possession in,
and sale from, a ma-
gazine in certain
other cases.

17. (1) Licenses for the possession of explosives in, and the sale of explosives from, a magazine in cases not provided for by rules 14 and 16, may, if the explosive is not one of the 5th (fulminate) class, be granted by the Local Government, or by any officer authorized by the Local Government in this behalf.

(2) An applicant for such a license must submit to the District Magistrate, or, in a Presidency-town or any of its suburbs, to the Commissioner of Police, an application in Form G in the Schedule hereto annexed, and shall comply with the conditions embodied therein.

(3) Upon receipt of the said application, the District Magistrate or Commissioner of Police, as the case may be, shall forthwith cause notice to be published of the application and fix a day on which will be heard any persons who object to the establishment of a magazine on the proposed site and who have, not less than seven clear days before the day of hearing, sent to the said District Magistrate or Commissioner of Police, and to the applicant, notice of their intention to appear and object with their name, address and calling, and a short statement of the grounds of their objection.

(4) The day of hearing to be fixed under clause (3) shall be a day following soon after the expiration of a period of one month from the publication and service of the notices prescribed by this rule.

(5) Where the site of the proposed magazine lies within, or within one mile of the limits of the jurisdiction of any Municipal Authority or Port Authority, the applicant shall prepare, for service on such Authority, a notice of the application and of the said day of hearing.

(6) The notice by the District Magistrate or Commissioner of Police under clause (3) shall be published, and the notice under clause (5) shall be served, at the cost of the applicant, by the District Magistrate or Commissioner of Police, not less than one month before the said day of hearing.

(7) On consideration of the application, and on making such inquiry as he may deem necessary, the District Magistrate or Commissioner of Police may dissent altogether from the establishment of the magazine on the proposed site, or may assent thereto, either absolutely, or on any conditions requiring additional restrictions or precautions.

(8) On the completion of the inquiry, the District Magistrate or Commissioner of Police shall forward the application and draft license with his recommendation to the Chief Inspector of Explosives, who shall forward to the applicant a statement in Form H in the Schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine. The table of distances which will ordinarily be followed is that annexed to these rules.

(9) The said Form H shall be returned, with the third column duly filled in, by the applicant to the Chief Inspector of Explosives, who shall submit it to the licensing authority constituted by sub-clause (1) of this rule, with his recommendations, and with the draft license and a statement in Form I showing the distances which, after considering any representation made by the applicant when returning Form H to him, he considers should be kept clear round the magazine.

(10) The licensing authority may thereupon grant the license as applied for, or with such modifications or restrictions as may be deemed proper, or may reject the application.

(11) A copy of each license granted shall be forwarded to the Chief Inspector of Explosives, and the original license shall be forwarded to the District Magistrate or to the Commissioner of Police, as the case may be, if the license has not been granted by him.

(12) The District Magistrate or Commissioner of Police, when satisfied that the magazine is sufficiently completed according to the license to justify the use thereof shall confirm the license; and unless and until so confirmed the license shall not come into force.

(13) If the District Magistrate or Commissioner of Police decides not to confirm any license, he shall forthwith inform the Chief Inspector of Explosives.

(14) Every license granted under this rule shall be in Form J in the Schedule hereto annexed, and shall contain the conditions prescribed therein.

18. (1) With the previous sanction of the Governor General in Council, the Local Government may, in cases of urgency, and for any period not exceeding six months, grant a license for the possession of explosives under rule 17 in a floating magazine. Grant of licenses for possession in a floating magazine.

(2) Notwithstanding anything contained in clause (14) of rule 17 such licenses shall be in Form K in the Schedule hereto annexed, and shall contain the conditions and restrictions prescribed therein and such further conditions and restrictions (if any) as the Local Government may in any case direct.

19. Licenses for the possession of explosives of the 5th (fulminate) class may be granted by the Governor General in Council in such form, and subject to such conditions, as he may in each case prescribe. Grant of licenses for possession of fulminates.

20. (1) Licenses for the sale of explosives in cases not provided for by rules 14 and 17 may be granted, in a Presidency-town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate, to any person licensed to possess the same. Grant of licenses for sale in cases not provided for by rules 14 and 17.

(2) Every such license shall be in Form L in the Schedule hereto annexed, and shall contain the conditions prescribed therein.

Duration of licenses.

21. All licenses granted under any of these rules except rule 18 shall expire on the 31st December of the year for which they are granted. Duration of licenses.

Renewal of licenses.

22. The Local Government may, from time to time, renew, on the same or altered conditions, any license granted by the Governor General in Council under rule 15 for the manufacture of explosives: Renewal of licenses granted under rule 15.

Provided as follows:

(1) no such renewal shall admit of the manufacture of any explosive other than that specified in the original license;

(2) every such renewal shall first be approved by an Inspector of Explosives; and

(3) every such renewal shall be for a period not exceeding one year.

23. (1) Any licensee who desires the renewal of a license granted under rule 17 must, before the expiration of the license, submit the license to the Chief Inspector of Explosives with a written application stating the quantity and description of explosives for the storage of which he desires the license to be renewed. Renewal of licenses granted under rule 17.

(2) On receipt of such application the Chief Inspector of Explosives shall send to the applicant a statement in Form H. in the Schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine.

(3) The procedure prescribed in clauses (9) to (13) of rule 17 shall then be followed, so far as it is applicable.

24. Any license granted under any of these rules other than rule 15 or rule 17 may, unless the circumstances have so changed that the grant of a new license either would not be authorized under the Indian Explosives Act, 1884 (IV of 1884), and these rules, or is deemed objectionable by the licensing authority, be renewed on application made previous to its expiration. Renewal of other licenses.

Duplicate licenses.

25. When a license granted under these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee. Grant of duplicate licenses.

Temporary licenses.

Disposal of stock
and grant of tempo-
rary license on ex-
piration or forfeiture
of license.

26. (1) A person licensed to manufacture, possess or sell any explosives shall, on the expiration or forfeiture of his license, forthwith give notice to the District Magistrate or the Commissioner of Police, as the case may be, of the quantity of such explosives then in his possession, and shall comply with any directions which the said Magistrate or Commissioner may think fit to give in regard to the possession or transport of the same.

(2) On receiving a notice under clause (1) of this rule, the said Magistrate or Commissioner may grant, for a term not exceeding three months, a temporary license for the possession or sale of the actual stock of explosives which is held at the time of the issue of such license.

Fees for licenses.

Amount of fees.

27. The following fees shall be charged for licenses granted under these rules, namely :

A—Each license granted under rule 14—

- (1) to manufacture, possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half ... Twenty rupees ;
- (2) to manufacture, possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth ... Ten rupees ;
- (3) to manufacture, possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity ... Five rupees ;
- (4) to possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half ... Ten rupees ;
- (5) to possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth ... Five rupees ;
- (6) to possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity ... Two rupees and eight annas ;
- (7) to possess explosives ... Eight annas.

B—Each license granted under—

- rule 15 or rule 19 ... Such fee as the Governor General in Council may in each case prescribe.
- rule 16 or rule 20 ... Five rupees.
- rule 17 or rule 18 ... Twenty rupees.

C—Each license on renewal ... The same fee as that charged for the original license.

D—Each duplicate license granted under rule 25 ... Eight annas.

E—Each temporary license granted under rule 26 ... A fee bearing the same proportion to the fee charged for the annual license as the period covered by the temporary license bears to a full year.

F—Each new license granted under rule 37 ... One rupee.

28. Notwithstanding anything contained in rule 27—

Exemptions from payment of fees.

(1) the holder of a license duly granted in Form VI-B, or in Form VII-B, under rule 11 of the rules made under the Indian Arms Act, 1878 (XI of 1878), may, on production of such license before the District Magistrate or in a Presidency-town or its suburbs, before the Commissioner of Police, be granted a license under rule 14 of these rules without payment of any fee, and

(2) no fee shall be charged for licenses granted to contractors, cultivators or other persons to possess gunpowder, fuses or other explosives in reasonable quantities when the same are proved to the satisfaction of the officer granting the license to be required *bond fide*—

(a) in the case of licenses granted to contractors, for blasting purposes, or

(b) in the case of licenses granted to cultivators or other persons for blasting purposes in connection with agricultural works or works of public utility.

29. (1) The fees charged under rule 27 shall be taken in the shape of impressed stamps. Stamps for payment of fees.

(2) Applications for licenses or renewals of licenses must be written on impressed stamps of value equal to the amount of fee chargeable in respect of such licenses or renewals, and the licenses shall be issued on plain paper.

(3) When an application for a license or a renewal of a license is refused, the value of the stamp shall, on application, be refunded to the applicant irrespective of the provisions of Chapter V of the Indian Stamp Act, 1899 (II of 1899).

Supplemental provisions.

30. (1) When any person referred to in clause (c) of rule 10 fills cartridges as indicated in that clause, he must see to the observance of the following regulations, namely: Regulations to be observed by certain persons who are exempted from taking out a license for manufacture.

(a) there shall not be in the room in which such filling is being carried on more than five pounds of gunpowder, or such quantity of any other explosive as is prescribed by the Local Government in this behalf, unless it is made up into safety cartridges;

(b) no work unconnected with the making of the cartridges shall be carried on in the said room while such filling is being carried on;

(c) there shall not be in the said room, while such filling is being carried on, any fire or any artificial light except a light of such construction, position and character as not to cause any danger of fire or explosion;

(d) the said room must be detached from the magazine or licensed premises but must be situated in the immediate neighbourhood thereof, and must be situated at such distance therefrom as may be specified on the license by the authority granting the same; and

(e) the licensee shall give notice to the authority which granted his license that he intends to carry on such filling of cartridges as is allowed by this rule.

(2) When any person referred to in clause (d) of rule 10 adapts or prepares explosives as indicated in that clause, he must see to the observance of the following regulations, namely:

(i) there shall not be in the workshop in which such adaptation or preparation is carried on more than one hundred pounds of gunpowder, or such quantity of any other explosive as is prescribed by the Local Government in this behalf.

- (ii) no work unconnected with such adaptation or preparation shall be carried on in the said workshop while such adaptation or preparation is being carried on;
- (iii) the said workshop must be detached from the magazine or licensed premises, but must be situated in the immediate neighbourhood thereof, and must be situated at such distance therefrom as may be specified on the license by the authority granting the same;
- (iv) an explosive of one description shall not be converted into an explosive of another description, and an explosive shall not be unmade or resolved into its ingredients; and
- (v) the licensee shall give notice to the authority which granted his license that he intends to carry on such adaptation or preparation as is allowed by this rule.

Power to extend
effect of license.

31. Any authority granting a license under these rules may, if such authority thinks fit, direct, by an order written on the license, that it shall have the effect of a like license granted by the like authority under the Indian Arms Act, 1878 (XI of 1878).

Powers of inspection,
search, seizure, etc.

32. (1) Any of the officers mentioned in clause (2) of this rule may, within the areas respectively specified in that clause, but subject to the provisions of the Indian Arms Act, 1878 (XI of 1878), and of any rules for the time being in force thereunder, in cases to which that Act applies,—

- (a) enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed or sold under a license granted under these rules or any prior rules made under the Indian Explosives Act, 1884 (IV of 1884), or in which he has reason to believe that an explosive has been or is being manufactured, possessed or sold in contravention of the said rules or Act;
- (b) search for explosives therein;
- (c) take samples of any explosives found therein, on payment of the value thereof; and
- (d) seize, detain, remove and, if necessary, destroy or otherwise render harmless any explosive found therein in respect of which he has reason to believe that any of the provisions of the said rules or Act have been contravened.

(2) The officers and areas referred to in clause (1) of this rule are :

Officers.	Areas.
The Chief Inspector and Inspector of Explosives.	In all parts of British India.
All District Magistrates.	Within their respective districts.
All Magistrates subordinate to the District Magistrate.	Within the areas respectively subject to their jurisdiction.
The Commissioner of Police, and all Police-officers of rank not below that of Inspector, if specially deputed in this behalf by the Commissioner of Police.	In Presidency towns.
All Police-officers of rank not below that of Inspector.	Within the respective areas over which their authority extends.

(3) Whenever the Chief Inspector or an Inspector of Explosives, or any Magistrate subordinate to the District Magistrate, or any Police-officer seizes, detains or removes any explosive under this rule, he shall report the fact to the District Magistrate or (in a Presidency-town or its suburbs) the Commissioner of Police.

(4) Neither the Chief Inspector nor an Inspector of Explosives, nor any Magistrate subordinate to the District Magistrate, nor any Police-officer

shall under these rules destroy or otherwise render harmless any explosive without the previous sanction of the District Magistrate or (in a Presidency-town or its suburbs) the Commissioner of Police, unless the matter appears urgent and fraught with serious public danger.

(5) Whenever any officer destroys any explosive or otherwise renders it harmless, he shall take and keep a sample thereof, and shall, if required, give a portion of the sample to the person owning the explosive or having the same under his control at the time of seizure; and, whenever any officer other than the District Magistrate or Commissioner of Police so deals with any explosive, he shall report the circumstances to the District Magistrate or (in a Presidency-town or its suburbs) the Commissioner of Police.

33. (1) Every person holding a license, or acting under a license, granted under these rules, shall be bound to produce the same, or an authenticated copy kept at the magazine or place to which the license applies, when called upon to do so by any Inspector of Explosives, any Magistrate, any Police-officer in charge of a police station, or any police-officer of higher rank. Production of license or authenticated copy thereof.

(2) Copies of any such license may, for the purposes of this rule, be authenticated by any of the officers aforesaid or by the authority which granted the license.

34. All Magistrates and other authorities shall, in the exercise of their functions under these rules, be subject to the control of their immediate executive superiors and of the Local Government. Control over officers.

Penalties.

35. Whoever commits any offence mentioned in column 1 of the following table shall be punishable with fine which may extend to the amount mentioned in that behalf in column 2 of that table: Fines.

1	2
Offences.	Fine which may be imposed
Manufacturing an explosive in contravention of rule 10.	Three thousand rupees.
Possessing an explosive in contravention of rule 11.	One thousand rupees.
Selling an explosive in contravention of rule 13.	Five hundred rupees.
Committing a breach of any condition in a license granted under—	
rule 14 or rule 20 	Five hundred rupees.
rule 16, rule 17, rule 18, or rule 19	One thousand rupees.
rule 15 	Three thousand rupees.
Possessing or transporting an explosive in contravention of any direction given under rule 26, clause (1).	One thousand rupees.
Failing to produce a license or an authenticated copy thereof, when called upon to do so under rule 33, clause (1).	Two hundred rupees.

Forfeiture of licenses.

36. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions contained therein.

Exemption from penalties of persons carrying on business of deceased or disabled licensee.

37. If any person licensed to manufacture, possess or sell an explosive dies or becomes bankrupt, or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty under these rules for carrying on the business or acting under the license during such reasonable time as may be necessary to admit of his making an application to the authority which granted the license for a new license in his own name during the currency of the unexpired portion of the original license.

W. L. HARVEY,

Secretary to the Government of India.

5. The number of persons employed in manufacture in any one building or room shall not exceed six, and only persons actually manufacturing or superintending manufacture shall be allowed inside the place of manufacture.

6. No iron or steel implements shall be used in manufacture. Only copper, gun-metal or wooden tools are permissible.

7. All explosives, as manufactured, shall be removed without delay to a safe place of storage, and no explosives shall be allowed to accumulate in the place of manufacture.

8. Manufacture shall only be carried on between sunrise and sunset.

9. No smoking or lights shall be allowed in or near a room where explosives are being manufactured.

10. All sales of explosives under this license must be effected on the premises shown on the face of the license.

11. An explosive shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

12. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes :

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the distances prescribed in condition No. 4 from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives ; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe ; and

(b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fire-proof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

13. The maximum quantity of explosives allowed to be kept at the same time shall be the following :

(1) if the only explosive kept be one or more of the following, namely :

- (a) gunpowder ;
 - (b) small-arm nitro-compound ; or
 - (c) ammunition of the 1st division of the 6th class,
- the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all...	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class ...	Five hundred.	Five hundred.

(2) if the only explosive kept be fireworks
the maximum shall be—

fire works	... Two hundred.	Fifty.
------------	------------------	--------

(3) in any other case the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
mixed explosives, including gun-powder, small-arm nitro-compound and fireworks, etc., in all	Sixty	Fifteen
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class ...	Five hundred	Five hundred.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

14. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,—

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive ;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom ;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same ;

and no person entering any such room or part of a building or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes :

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th (ammunition) class.

15. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding one pound in quantity, shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping ;

and, when publicly exposed for sale or when sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark :

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

16. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows :

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;

(b) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;

(c) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space.

17. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

18. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act (XI of 1878) the following particulars, namely :

(a) the name and address of the person who takes delivery of the articles sold ;

(b) the nature and amount of articles sold ; and

(c) the date of sale ;

and shall append his signature to the endorsement.

* These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

FORM B.

(See rule 14.)

[FEE RUPEES IN STAMPS.]

License to possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class, or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

[Granted in a Presidency-town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate.]

Name, etc., of licensee and place of residence.	Place of business, factory or shop.	Maximum quantity of explosive to be possessed at any one time.	Description and quantity of explosive to be possessed and sold during the year.	Date on which license expires.
				The 31st December 190 .

_____ Town or District, } (Signature)
 _____ 190 . } Seal. _____ of _____

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. All sales of explosives under this license must be effected upon the premises shown on the face of the license.

5. An explosive shall not be sold to any child apparently under the age of fourteen years.

6. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes :—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances,* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe; and

(b) such an excavation must be formed in solid rock or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or under-ground place which is in use for the carrying on of any work or for the employment of any person.

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.
 In the case of an explosive of the 1st division of the 6th (ammunition) class or of the 7th (firework) class, fifty yards.

Mode B, that is to say, in a substantial receptacle (whether or not a fire-proof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

7. The maximum quantity of explosives allowed to be kept at the same time shall be the following :

(1) if the only explosive kept be one or more of the following, namely :

- (a) gunpowder,
- (b) small-arm nitro-compound, or
- (c) ammunition of the 1st division of the 6th class,

the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound in all ...	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class ...	Five hundred.	Five hundred.

(2) if the only explosive kept be fireworks,
the maximum shall be—

fire-works ...	Two hundred.	Fifty.
----------------	--------------	--------

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and fireworks, etc., in all ...	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class ...	Five hundred.	Five hundred.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

8. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,

the interior thereof, and the shelves and fittings therein, shall be so constructed or so lined and covered as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive ;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom ;

and all articles or substances of an explosive or highly inflammable nature, and all lights shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation, or receptacle containing the same ;

and no person entering any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes :

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th class.

9. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class and all other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping;

and, when publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark :

Provided that two samples of each kind of fire-work may be exposed for sale without complying with the foregoing clauses of this Condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

10. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows :

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of class 6 (ammunition), may be kept with each other without any intervening partition or space ;

(b) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;

(c) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space.

11. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act (XI of 1878) and shall post up in his shop a copy of section 28 of that Act.

12. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act (XI of 1878) the following particulars :

(a) the name and address of the person who takes delivery of the articles sold ;

(b) the nature and amount of the articles sold ; and

(c) the date of sale ;

and shall append his signature to the endorsement.

* These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31 by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records to any Magistrate or to any Police officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe;

(b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or under-ground place, which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fire-proof safe) which is closed and secured so as to prevent unauthorised persons

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.
 In the case of an explosive of the 1st division of the 6th (ammunition) class or of the 7th (firework) class, fifty yards.

from having access thereto, and is exclusively appropriated to the keeping of explosives and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

5. The maximum quantity of explosives allowed to be kept at the same time shall be the following, namely :

(1) if the only explosive kept be one or more of the following, namely :

- (a) gunpowder,
- (b) small-arm nitro-compound, or
- (c) ammunition of the 1st division of the 6th class,

the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class ...	Five hundred.	Five hundred.

(2) if the only explosive kept be fireworks,
the maximum shall be—

fireworks	Two hundred.	Fifty.
------------------	--------------	--------

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and fireworks, etc., in all ...	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class ...	Five hundred.	Five hundred.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

6. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive ;

and such interior shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom ;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation, or receptacle containing the same ;

and no person entering any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes :

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th class.

7. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping.

8. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows :—

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of class 6 (ammunition), may be kept with each other without any intervening partition or space ;

(b) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;

(c) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space.

9. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature, namely :

(a) the name and address of the person who takes delivery of the articles purchased ;

(b) the nature and amount of the articles purchased ; and

(c) the date of purchase.

SCHEDULE.

FORM D.

(See rule 14.)

[FEE— RUPEES IN STAMPS.]

License to manufacture, possess and sell, or to possess and sell, or to possess, Fireworks in a village or other rural area.

[Granted by the District Magistrate.]

Name, etc., of licensee, and place of residence.	Place of business, factory or shop.	Maximum quantity of fireworks to be possessed at any one time.	Description and quantity of fireworks to be manufactured during the year.	Description and quantity of fireworks to be possessed and sold during the year.	Date on which license expires.
					The 31st December 190 .

_____ District, } (Signature)
 _____ 190 . } _____ of _____

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all fireworks manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books of manufacture and sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. Fireworks shall be manufactured in such place only as may be approved by the District Magistrate, due regard being had to the public safety.

5. All sales of fireworks under this license must be effected upon the premises shown on the face of the license.

6. Fireworks shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

7. The fireworks possessed by the licensee must be kept in a building approved by the District Magistrate, due regard being had to the public safety:

Provided that any quantity not exceeding fifty pounds may be kept inside any other building, if placed in a receptacle exclusively appropriated to the keeping of fireworks.

8. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

* This condition is to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

_____ of _____

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. The explosive shall be kept in a substantially constructed unflammable building approved by such officer as the Local Government may prescribe, or in a fire-proof safe separated from any dwelling-house, highway, street, public thoroughfare or public place by the prescribed distances,* and made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without :

Provided that 50 lbs. of gunpowder and 10 safety fuze may be kept inside a dwelling-house or in any building other than as last aforesaid in a receptacle exclusively appropriated to keeping explosive.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fire-proof safe, or receptacle containing the same, and no person entering such room or part of any building or such safe or receptacle shall have any iron or steel in his possession or attached to or on his boots or shoes.

4. Neither the building exclusively appropriated for the purpose of keeping the explosive, nor the fire-proof safe or receptacle referred to above, shall have any exposed iron or steel in the interior thereof :

Provided that this condition shall not be obligatory in a building, fire-proof safe, or receptacle in which no explosive other than an explosive of the 1st division of the 6th (ammunition) class is kept.

5. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature :

(a) the name and address of the person who takes delivery of the articles purchased ;

(b) the nature and amount of the articles purchased ; and

(c) the date of purchase.

* In the case of gunpowder, 50 yards.

 _____ 190 . } _____ of _____

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. (1) The explosives shall be kept in a substantially constructed building which is exclusively appropriated for the purpose, and is detached from any dwelling-house, and is situated at a safe distance from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without :

(2) Provided that any quantity not exceeding fifteen pounds of any such explosive may be kept inside any building not conforming to clause (1) of this condition, if the explosive is placed in a receptacle exclusively appropriated to the keeping of explosives.

3. All articles or substances of any explosive or highly inflammable nature shall be kept at a safe distance from the explosives and from any building or receptacle containing the same.

4. No building exclusively appropriated for the purpose of keeping the explosives, and no receptacle in which the explosives are kept shall have any exposed iron or steel in the interior thereof.

5. All explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosive from escaping.

6. Each description of explosive which may lawfully be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other.

7. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature, namely :

- (a) the name and address of the person who takes delivery of the articles purchased ;
- (b) the nature and amount of the articles purchased ; and
- (c) the date of purchase.

FORM G.

[See rule 17 (2).]

THE INDIAN EXPLOSIVES ACT, 1884.

Form of application for a license for possession of explosives (other than fulminates) in, and sale from, a Magazine.

- | | | |
|---------------------|-----|-----|
| 1. Applicant's Name | ... | ... |
| " Calling | ... | ... |
| " Address | ... | ... |

NOTE.—In cases where the application is made on behalf of a company, the name, calling and address of the company, and the name of the manager or agents, should be given.

- | | | |
|--|-----|-----|
| 2. Situation of the proposed Magazine— | | |
| Presidency or Province | ... | ... |
| District | ... | ... |
| Village | ... | ... |

- | | | |
|-------------------------------------|-----|-----|
| 3. Explosive proposed to be stored— | | |
| Class | ... | ... |
| Division (if any) | ... | ... |
| Name and description | ... | ... |

NOTE.—The class and division (if any) stated should be in accordance with the classification in the General Rules to regulate the manufacture, possession and sale of explosives.

4. Draft license containing the terms which the applicant proposes to have inserted, and specifying such of the matters stated below as are applicable.

NOTE.—A draft license must be attached to this application and must be accompanied by a plan of the proposed magazine and of the site, with the boundaries thereof, drawn to scale.

The plan should also show the distance from the proposed magazine of the room (if any) to be used in connection therewith for the filling of cartridges for small arms with explosives, in pursuance of rule 30 (1) of the rules under the Indian Explosives Act, 1884, for the manufacture, possession and sale of explosives, and of the workshop (if any) to be used in connection therewith for the adaptation or preparation of explosives, in pursuance of rule 30 (2) of the said rules; and, if both a room and workshop are to be used, the distance of the room from the workshop.

The matters referred to above, and required (so far as applicable) to be specified, are as follows:—

- (a) the boundaries of the land forming the site of the magazine, and either any belt of land surrounding the site which is to be kept clear, and the buildings and works from which is to be kept clear, or the distance to be maintained between the magazine or any part thereof and other buildings and works (for buildings and works here referred to, see 1st column of table of distances appended to these rules); and
- (b) the situation, character and construction of all the mounds, buildings and works on or connected with the magazine, and the distances thereof from each other; and
- (c) the nature of the work, if any, to be carried on in connection with the magazine, and the place at which such work is to be carried on, and the places in the magazine at which explosives, and any articles liable to spontaneous ignition, or inflammable or otherwise dangerous, are to be kept; and
- (d) the situation of each building forming part of the magazine in which explosive is to be kept, and the maximum amount of explosive to be kept in each such building; and
- (e) any special terms which the applicant may propose by reason of any special circumstances arising from the locality, the situation or construction of any buildings or works, or the nature of any process, or otherwise.

The replies to be written in this column.

Ditto, <i>without</i> such consent
Viceregal Residence

In the case of any building or work above-mentioned which is so screened from the magazine by the natural features of the ground or by good and sufficient artificial mounds of earth as not to be visible from any part of such magazine, the distance assigned above as that to be observed between such building or work and the magazine may be reduced by one-half.

In the case of any building or work above-mentioned which is so screened from the magazine by an intervening hill, that a line drawn from any part of such building or work to any part of such magazine would pass through such hill, the distance assigned by this schedule as that to be observed between such building and work and the magazine may be reduced by three-fourths; but if a Government Inspector notifies in writing that in his judgment the intervening hill, in respect of which such reduction is claimed, is not of a character to justify such reduction, this clause, authorising such reduction, shall be deemed not to apply in respect of the said building or work.

* The distances will be required to be kept clear not merely on the first establishment of the magazine, but during the continuance of the license.

† This Rule also applies to two or more magazines kept on the same premises, when such magazines—

(1) belong to the same occupier, or

(2) are so kept by mutual consent of the respective occupiers

FORM J.

(See rule 17.)

[FEE—TWENTY RUPEES IN STAMPS.]

License to possess explosives other than fulminates in, and to sell explosives from, a magazine.

[Granted by the Local Government or officer appointed by the Local Government in this behalf.]

Name of licensee, and residence.	Boundaries of the land forming the site of the magazine to which the license applies.	Situation, character and construction of the buildings and works connected with the magazine.	Description of explosives to be possessed.	Amount of explosives to be possessed at the same time in the magazine and within the boundaries of the site thereof.	Date on which license expires.
					The 31st December 190 .

_____ } (Signature)
 _____ 190 . } Seal. Secretary or

Conditions.

This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, and of all sales in such form as the Local Government may from time to time direct.

3. There shall not be at the same time in the magazine any quantity of explosives exceeding the quantity specified in the license.

4. The magazine shall be used only for the keeping of the explosives specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives.

5. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel or similar substances in such manner as to come into contact with the explosives; and such interior, benches, shelves and fittings, shall, so far as is reasonably practicable, be kept free from grit and otherwise clean; and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom:

Provided that so much of this condition as relates to precautions against the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

6. The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested at least once during the currency of the license.

7. Before repairs are done to any room or magazine or part thereof, the same shall, as far as is practicable, be cleaned by the removal of all explosives or mixed ingredients thereof, and the thorough washing out of such room, magazine or

part ; and after such cleaning these conditions shall cease to apply to such room, or part of the magazine until any explosive is again taken into it :

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

8. Except after such cleaning, all tools and implements used in, or in making any repairs to, any part of the magazine shall be made only of wood, copper or brass or some soft metal or material, or shall be covered with some safe and suitable material :

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the 1st division of the 6th (ammunition) class is kept.

9. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article likely to cause explosion or fire, or of any grit, iron or steel ; but this rule shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger of fire or explosion :

Provided that so much of this condition as applies to the exclusion of grit, iron or steel shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

10. No person shall smoke in any part of the magazine.

11. No person under the age of fourteen years shall be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person and no explosive shall be sold to any such person.

12. (1) Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine may be possessed in the same magazine if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows :

- (a) the various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound), and 4 (chlorate-mixture), safety fuzes belonging to the 1st division of class 6 (ammunition) and such of the various explosives of the 2nd division of class 6 (ammunition) as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space ;
- (b) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;
- (c) such of the various explosives of the 2nd division of class 6 (ammunition) as contain any exposed iron or steel may be kept with each other without any intervening partition or space ;
- (d) the various explosives of the 3rd division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;
- (e) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space ;

(3) Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine.

13. The licensee, and every person employed in or about the magazine, shall take all due precaution for the prevention of accidents by fire or explosion in the magazine, and for preventing unauthorized persons from having access to the

magazine or to the explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion and is not reasonably necessary for the purpose of the work in such magazine.

14. (1) Blasting gelatine or any of its kindred gelatinous nitro-compounds shall not be kept in the magazine after the expiration of three years from the date of its or their importation into British India, except with the special sanction of an Inspector of Explosives.

(2) When such sanction has been given, a written certificate, showing the period covered by the sanction, must be obtained from an Inspector of Explosives at each inspection, and must be kept by the licensee at the magazine.

FORM K.

(See rule 18.)

[FEE — TWENTY RUPEES IN STAMPS].

License to possess explosives (other than fulminates) in a floating Magazine.

[Granted by the Local Government.]

Name of licensee, and residence.	Description of limits within which the magazine shall be moored or anchored.	Situation, character and construction of the magazine.	Description of explosives to be possessed.	Amount of explosive to be possessed at the same time in the magazine.	Date on which license expires

190 . }

(Signature)

*Secretary.**Conditions.*

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.
2. The whole vessel, barge or craft in or on board which the explosives are stored shall be deemed to constitute the magazine.
3. The magazine shall be used only for the keeping of such explosives as may be specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives.
4. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel in such manner, and the detaching of any grit, iron, steel or similar substance in such manner, as to come into contact with the explosives in such magazine; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean.
5. The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested previous to the storage of explosives.
6. No charcoal, whether ground or otherwise, oiled cotton, oiled rags or oiled waste, and no article whatever which is liable to spontaneous ignition, shall be taken into the magazine.
7. Before repairs are done to or in any part of the magazine, it shall, so far as practicable, be cleaned by the removal of all explosives, and by a thorough washing out. After being so cleaned, it shall not be deemed to be a magazine until explosives are again taken into it.
8. There shall be constantly kept in the magazine, affixed in such manner as to be easily read, a copy of the license, and of any special rules that may be issued from time to time for the keeping of explosives in a floating magazine.

9. All tools and implements used in any repairs to or in any part of the magazine shall be made only of wood or copper or brass or some soft metal or material, or shall be covered with some safe and suitable material.

10. No fires, lights or lucifer matches, and no substance or article which is likely to cause explosion or fire, shall be permitted to be at any time in the magazine.

11. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article which is likely to cause explosion or fire; and for preventing the introduction of any grit, iron or steel, into any part of the magazine where it would be likely to come into contact with explosive; and in any part of the magazine in which any explosive is kept which is liable to be dangerously affected by water, due precautions shall be taken to exclude water from such part; but this condition shall not prevent the introduction of an artificial light of such construction, position, or character as not to cause any danger of fire or explosion; and so much of this condition as relates to the exclusion of grit, iron or steel shall not be obligatory in the case of a magazine in which no explosive other than explosives of the 1st division of the 6th (ammunition) class is kept.

12. No person shall smoke in any part of the magazine.

13. (1) The licensee shall not employ any vessel, barge or craft to carry an explosive to or from the magazine unless the cabin, hold or other part of the vessel, barge or craft in which the explosive is or is to be carried—

(a) is constructed without any exposed iron or steel in the interior thereof,

(b) contains only explosives, and

(c) is closed or otherwise properly covered over :

Provided that clause (a) shall not apply in the case of any vessel, barge or craft which carries no explosive other than explosives of the 1st division of the 6th (ammunition) class, or which is specially exempted by an order of the Chief Inspector of Explosives or by an order of the Local Government endorsed on this license.

(2) The licensee shall see that the explosives to be placed on any vessel, barge or craft so employed are loaded, carried and unloaded with all due diligence and with such precautions and in such manner as will sufficiently guard against any accidental ignition.

14. The licensee shall see—

(a) that no fire, unprotected light or smoking is allowed while any explosive [other than explosives of the 1st division of 6th (ammunition) class] is being received or delivered, or while the hatches or door of the magazine, or the hatches or coverings of any vessel, barge or craft alongside containing any such explosive, are open; and

(b) that no receipt or delivery of explosive is carried on, and that the hatches or door of the magazine are or is kept closed, when any vessel, barge or craft having on board a fire (other than engine-fires properly linked up) or an unprotected light is alongside a magazine containing an explosive other than explosives of the 1st division of the 6th (ammunition) class, or in its immediate vicinity.

15. A person under the age of fourteen years shall not be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person.

16. In the case of the magazine being approachable at low water by carriages, the words "vessel, barge, or craft," in Nos. 13 and 14 of these conditions, shall be taken to include a carriage.

17. (1) Two or more descriptions of explosives, which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in one compartment from extending to another compartment :

(2) Provided as follows :

- (a) the various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound), and 4 (chlorate-mixture), safety fuze belonging to the 1st division of class 6 (ammunition), and such of the various explosives of the 2nd division of class 6 (ammunition), as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space ;
- (b) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;
- (c) such of the various explosives of the 2nd division of class 6 (ammunition) as contain any exposed iron or steel, may be kept with each other without any intervening partition or space ;
- (d) the various explosives of the 3rd division of class 6 (ammunition) may be kept with each other without any intervening partition or space ;
- (e) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space.

(3) Save as aforesaid, two or more descriptions of explosive shall not be kept in the same magazine.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.
2. The licensee shall keep records and accounts of all explosives in stock, and of all sales, in such form as the Local Government may from time to time direct.
3. Explosives shall not be sold to any child apparently under the age of fourteen years.
4. All explosives exceeding one pound in weight, when publicly exposed for sale or sold, shall be in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping; and the outermost receptacle containing such explosives shall have affixed the name of the explosives, with the word "explosive" added thereto in conspicuous characters by means of a brand or securely attached label or other mark.

RAILWAY BOARD.

NOTIFICATIONS.

Simla, the 28th June, 1905.

No. 112.—Mr. C. N. D. Inglis, Assistant Locomotive Superintendent in Class III, Grade 4, of the Superior Revenue Establishment of State Railways, is appointed to officiate as a District Locomotive Superintendent on the Oudh and Rohilkhand Railway, in Class II of that Establishment, with effect from the 1st June 1905, *vice* Mr. E. S. Strong, granted privilege leave.

The 30th June, 1905.

No. 113.—Mr. W. D. McD. Cruickshank, Assistant Engineer, 3rd Grade, State Railways, is, on return from Foreign service, posted, as a temporary measure, to the office of the Consulting Engineer for Railways, Bombay.

The 28th June, 1905.

No. 111.—The following is published for general information :

No. R. T. 66-A., dated Simla, the 20th June 1905.

RESOLUTION—By the Railway Board.

General Rules for working railways under construction.

Read—

Sections 3 (4), 16 (2), 47 and 148 (1) of the Indian Railways Act, 1890 (IX of 1890).

Government of India, Public Works Department, Notification No. 480 $\frac{1}{2}$, dated the 30th October 1890, and the Government of India, Resolution No. 736 R. T., dated the 17th October 1890.

Government of India, Department of Commerce and Industry, Notification No. 801, dated the 24th March 1905.

Letter from the Engineer-in-Chief, Murshidabad Branch and Katihar-Godagari Railways, No. 143, dated the 7th June 1905.

RESOLUTION.—The Engineer-in-Chief of the Murshidabad Branch and Katihar-Godagari railways has recommended the adoption on the Katihar-Godagari railway of the General Rules for working railways under construction and not used for the public carriage of passengers, animals, or goods which have been promulgated under Public Works Department Resolution No. 736 R. T., dated the 17th October 1890, and published under the Government of India, Public Works Department, Notification No. 480 $\frac{1}{2}$, dated the 30th October 1890 (*vide* the *Gazette of India* of the 8th November 1890).

2. In exercise of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, read in the preamble above, the Railway Board are pleased to sanction the application of the General Rules, cited in paragraph 1 above, to the Katihar-Godagari railway which has been sanctioned for construction.

ORDER.—Ordered that this Resolution be published under a Notification in Part I of the *Gazette of India*; also that the General Rules cited in paragraph 1—which have already been published in the *Gazette of India*—be further notified to the railway servants concerned and to the public by a copy thereof being kept open to inspection, free of any charge, in the office of the Engineer-in-Chief in charge of the construction of the Katihar-Godagari railway; and that this Resolution be communicated to the said Engineer-in-Chief, for information and guidance.

NEVILLE PRIESTLEY,

Secretary, Railway Board.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).**Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 29th June 1905, based on the India Daily Weather Reports of the period.**

The Arabian Sea monsoon current has given heavier and more extensive rain over the area fed by it than during the past three weeks. Daily moderate to heavy rain was received at the West Coast stations during the greater part of the week; heavy rain having extended to Ratnagiri and Bombay on the 25th. The principal amounts in this region were 2·52" at Mangalore and 2·51" at Cochin on the 23rd; 2·65" at Mormugao on the 25th; 4·82" at Calicut and 3·13" at Bombay on the 26th; 7·20" at Goa and 6·27" at Mormugao on the 27th; 4·35" at Mangalore on the 28th and 3·02" at Mangalore on the 29th and the total rainfall of the West Coast division for the week was twice as heavy as usual. The rain bearing current extended inland over South India, the Deccan and the West Satpuras on the 25th and showers were received over those areas from the 25th to the end of the week. The heaviest falls in 24 hours reported in these areas were 2·80" at Hanumkonda on the 25th; 2·00" at Hanumkonda on the 26th; 2·30" at Raichur and 2·03" at Khandwa on the 27th; 1·70" at Hanumkonda on the 28th; and 1·70" at Nagpur and 1·32" at Malegaon on the 29th. As a result of these showers the rainfall of the week was generally normal over the Peninsula, but was in some excess over the West Satpuras division and the Hyderabad subdivision. Light rain extended into Gujarat on the 25th and from that date to the close of the week scattered showers were received over that division, but the total fall for the week was small and considerably below the average.

Turning to the opposite side of India daily rain was received on the Burma Coast and over Assam and showers over inland Burma, the Delta of Bengal and North Bengal. The week's rainfall was normal over the Burma Coast, east and north Bengal and Assam, was in excess over inland Burma and in defect over the Calcutta subdivision of Bengal. Moderate showers were received over the north of the East Coast and over the East Satpuras, but except in the Waltair subdivision the week's fall was less than usual. Over the remainder of India there was no rain of any importance during the week under review though scattered thunder-showers were received over the Gangetic Plain and Upper India on the 25th and 26th and over Central India on the 23rd and 29th.

The total rainfall of the season, April 28th to June 29th, is short of the average in all parts of the country except the Burma Coast division, and the Calicut, Bellary, Hyderabad and Madura subdivisions where it is in moderate to slight excess. The deficiency is large over west Bengal, Orissa, the United Provinces and north-west and central India.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
*and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India,

SIMLA;
The 29th June 1905.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).Season and Crop Prospects for the week ending Saturday,
24th June 1905.

Madras.—The rainfall of the week was very heavy in the West Coast districts; good in Kurnool and the Nilgiris; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency except in Trichinopoly, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some in parts of the Circars, Chingleput, Coimbatore and Tanjore require more rain; while those in North Arcot have been benefited by the recent rains. Harvests continue in parts with poor to fair outturn. Pasture is insufficient except in Ganjam, South Arcot, parts of the Central, Southern, West Coast districts and in the Nilgiris. Fodder is scanty except in parts of the Circars, Anantapur, South Arcot, Salem, Trichinopoly, Tinnevely, the West Coast districts and the Nilgiris. The condition of cattle is fair to good. The price of rice is stationary in thirteen districts; and has slightly risen in nine. The prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts; has fallen in four, and has slightly risen in eleven. *Cholam* is stationary in two districts; has fallen in two; and has slightly risen in nine. *Cumbu* is stationary in two districts; has fallen in two; and has slightly risen in ten.

Bombay.—There was heavy rain during the week in parts of Ratnagiri and Kanara; moderate in parts of Thana, Ahmednagar, Sholapur, Satara and Dharwar; slight in parts of Colaba, Khandesh, Poona and Belgaum, and very slight in parts of Broach, Surat, Nasik, Bijapur and Wadhwan. More rain is generally needed for autumn operations. Preparation of lands for autumn cultivation is generally in progress. Sowing of autumn crops continues in parts of Sukkur, the Upper Sindh Frontier, the Konkan, Broach, the Deccan, and the Karnatak, but is retarded in parts of Poona, Satara and Dharwar. Autumn seedlings have been slightly damaged by grass-hoppers in parts of the Upper Sindh Frontier. The fodder-supply is sufficient except in parts of Sukkur, Hyderabad, Thar and Parkar, Surat, Khandesh, Belgaum and Baroda. Agricultural stock is sufficient and cattle in good condition except in parts of Thar and Parkar and Nasik. The water-supply is adequate except in parts of Gujarat, Khandesh, Nasik, Bijapur, Belgaum and Baroda. Prices have fallen in two districts, and are stationary elsewhere. The numbers on relief during the week ending the 17th instant were as follows.—daily average on relief works in Kaira—857; on gratuitous relief—Kaira, 221; Belgaum, 790, total, 1,868. The numbers on the last day of the week on test works were:—Ahmedabad, 1,138; Kaira, 93; the Panch Mahals, 1,813; total, 3,044.

Bengal.—The rainfall during the week was general but light; it was, however, heavy in Dinajpur, Jalpaiguri, Rangpur and Mymensingh. Rain is needed in South-West Bengal, Bihar, Orissa and Chota Nagpur for the standing crops as well as for agricultural operations. Prospects are otherwise good. Fodder and water are generally sufficient. The price of common rice has risen in thirteen districts, and has fallen in three districts.

United Provinces.—Forty-one districts received rain during the week, but more is wanted in twelve districts, including Rampur, where monsoon conditions are reported to have disappeared. Operations for autumn sowings continue in most districts, but are delayed in a few for want of rain. In Partabgarh the millet crop has been slightly damaged by east winds; otherwise the crops are in good condition and prospects are favourable. The condition of agricultural stock is good. Food, fodder and supplies are generally ample, but the water-supply is said to be defective in parts of Banda. Prices are high with a tendency to rise.

Punjab.—Ambala, Jullundur, and Shahpur received rain, and parts of Hissar, Delhi, Amritsar, Rawal Pindi and Sialkot light showers during the week. Prices show a general tendency to rise. Wheat is rising in the Delhi and Rawal Pindi Divisions and in the Amritsar district; and falling in Lahore. The harvesting of spring crops is nearly over and that of extra spring crops is in progress. Sowings of autumn crops are going on. The standing crops are on the whole in good condition. The cotton and sugarcane crops in Sialkot and extra spring crops in Mianwali are in want of rain. *Kiri* (an insect) is attacking sugarcane in Sialkot. Cattle are generally in good condition. Fodder is sufficient except in parts of Shahpur, Mianwali and Multan. There are no complaints about the water-supply.

North-West Frontier Province.—There was no rain during the week, and it is badly wanted everywhere. Autumn sowings are progressing on irrigated land, but rain is required for *barani* (rain-fed lands) sowings. The prospects of the standing crops are average. The canal supply is sufficient except in parts of Peshawar. The Indus is

rising. Agricultural stock is in good condition and fodder is generally sufficient except in the Daman tract of the Dera Ismail Khan district. Prices are rising owing to the general drought. Prices—wheat 15 to 21; gram 18 to 28; maize 20 to 29; and *bajra* 16 to 20 seers per rupee.

Burma.—The rainfall of the week was very heavy in Tavoy; heavy in other coast districts; light in the dry zone tract with none in Kyaukse; and moderate elsewhere. Reaping of dry weather paddy has commenced in Minbu and is completed in Mandalay and Kyaukse. Ploughing for wet-weather paddy has commenced in Katha and is now practically general. Agricultural operations are progressing satisfactorily everywhere. Sowing of hillside paddy continues and is approaching completion in places. Ploughing for early sesamum and cotton is completed in Myingyan and sowing of ground-nuts has commenced in Magwe. The condition of the standing crops is on the whole good. The price of paddy has risen considerably in Pakokku, and slightly at three other centres, but otherwise it is unchanged.

Central Provinces.—Light to moderate rain has fallen in all districts except Narsinghpur, Raipur, Bilaspur, Amraoti and Buldana. Wardha and Nimar received more than two inches, but the rainfall up to date is everywhere far below the average. Cotton sowing has commenced all over the Wardha tahsil and sowing of rice continues, but good rain is needed generally in order that sowings may commence. Locusts have appeared in Wardha and in all districts of Berar except Ellichpur. Fodder and water are scarce in a few districts. The price of wheat has risen by $1\frac{1}{2}$ and $1\frac{1}{2}$ seers in the rupee and that of *juar* by 3 and 2 seers, respectively, in Basim and Buldana; elsewhere prices are steady with a tendency to rise.

Assam.—The weather is rainy in the Surma Valley, Goalpara and the Garo and Khasi Hills and hot in other places. Rain fell during the week in all districts, but more is wanted in Lakhimpur. Planting of sugarcane is in progress. Plucking and manufacture of tea continue; prospects are good in Darrang; have been affected by excessive rain in Cachar and Sylhet; and are fair in other districts. Ploughing for, and sowing of, late rice are in progress. Sowing of early rice is finished in all districts except Cachar, Sylhet, Kamrup and Darrang. Prospects of early rice are good in Goalpara, Nowgong and the Garo Hills and generally fair in other places. Prospects of jute are good. Prices of common rice—Sibsagar, 16; Silchar, Dhubri, Gauhati, Tezpur and Nowgong, 14; Sylhet $13\frac{1}{2}$; and Dibrugarh, 12 seers per rupee.

Mysore.—The rainfall of the week was generally good. Prices are fluctuating slightly. The standing crops are in good condition. More rain is required in parts of the Hassan, Mysore and Chitaldroog districts. The prospects of the season are fair. Water and fodder are available except in parts of the Hassan, Kadur and Chitaldroog districts.

Coorg.—Rainfall—3 inches 57 cents. Sowing of rice continues. The prices of food-grains are stationary. Water and fodder are sufficient.

Hyderabad.—Rainfall 51 cents. Rain has also fallen subsequently in the districts and the weather is now monsoonish. Autumn crops are being sown in twenty-three taluqs. Sowings have been suspended in nine taluqs and rain is wanted in twenty-six taluqs. Young shoots are withering in one taluq. Lands are being prepared for autumn and early rice sowings in some taluqs. Fodder scarcity exists in thirty-five taluqs and water scarcity in twenty-two. Locusts have appeared in fourteen taluqs where there are however no standing crops. Prices—wheat $12\frac{1}{2}$; coarse rice $8\frac{1}{2}$; and *juar* $19\frac{1}{2}$ seers per rupee.

Rajputana.—Rainfall—Bharatpur 10 cents. Preparations for autumn sowings continue in ten States. Cotton sowing is progressing in Jaipur, and in Karauli the cotton and sugarcane crops are flourishing. Except in Jaisalmer agricultural stock is satisfactory and fodder is sufficient. Water for cattle is failing in parts of Merwara and wells are drying up in the hilly tracts of Mewar. Prices are rising in four States; falling in two; fluctuating in three; and are steady in six. The Sonwa test works have been closed. The number of workers on the Kaladet-Titri road and the Ramkhera-Dhanar test works in Merwara on the last day of the week was 1,400.

Central India.—There was slight rain during the week in parts of Indore, Bundelkhand and Bhopawar, but none elsewhere. Agricultural operations are in progress in Indore, Bhopal and Malwa, and have been completed in Baghelkhand. Agricultural stock and pasturage are indifferent to good. Prices are rising in Bundelkhand and Bhopawar; are falling in Piploda; and are high elsewhere.

Kashmir.—The weather is bright and warmer. Prices are almost stationary.

Jammu.—There was slight rain in the Ranbirsinghpura and Riasi tahsils during the week. Prices are fluctuating. Wheat sells from 9 to 24 seers and maize from 29 to 44 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Autumn sowings are in progress.

Nepal.—(Report not received.)

A. R. JACOBSON,
for Secretary, Railway Board.

Simla, the 29th June, 1905.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JULY 8, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA, DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 6th July 1905.

NOTIFICATIONS.

No. 2527 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 1st July 1905:—

No. 305 of 1905.—John George Henrich, mineral water manufacturer, of Milton House, 5 Clifton road, Camden square, London, N., England. *Improvements in stoppers for syphon bottles or vessels and in taps therefor applicable also to fire extinguishers.*

No. 306 of 1905.—The Consolidated Engineering Company, Limited, engineers, of Gotha Works Slough, in the county of Bucks, England. *Improvements in or connected with automatic vacuum brakes.*

No. 307 of 1905.—William Arthur Harley, tea planter, of Halashana Tea Estate, Kullakamby P. O., Nilgiri, South India. *A new or improved machine for rolling tea leaf.*

No. 308 of 1905.—Daniel Francis Sherman, fruit preserver, of New Castle, county of Placer, and state of California, one of the United States of America. *Improvements in process for preserving fruit and preserved fruit product.*

No. 309 of 1905.—James William Cross, engineer, 4 Trafalgar square, in the county of London, England. *Improvements in oil engines.*

No. 310 of 1905.—Johann Wilhelm Riep, chemist, of Ellerstr, 170 Dusseldorf, in the empire of Germany, and Gottfried Heinrich Bauer, merchant, of 35 Hildenerstr, Dusseldorf, aforesaid. *An improved greasing medium for fibrous materials and woven fabrics.*

No. 311 of 1905.—John Lewis Weaver, manufacturer, of Boise, in the county of Ada, state of Idaho, United States of America. *Improvements in and relating to method of and apparatus for placer mining.*

No. 312 of 1905.—Daniel Whitney Houghton, merchant and importer, 37 Apollo street, Fort, Bombay. *An improved protector for taps and valves.*

No. 2528 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 7 of 1905.—George Moore, engineer, of Salt Lake city, Utah, United States of America. *Improved system of and apparatus for filtering liquids.* (Specification filed 23 June 1905.)

No. 510 of 1904.—Nowlson Parham, merchant, of the Cubas, Thames Ditton, in the county of Surrey, England. *Improved means for packing together or parcelling metal plates and the like.* (Specification filed 23 June 1905.)

No. 511 of 1904.—Julius Augustus Perkins, manufacturer, of No. 1418 North 18th street, in the city of Omaha, county of Douglas, state of Nebraska, one of the United States of America. *Improvements in and relating to roller bearings.* (Specification filed 23 June 1905.)

No. 2529 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 12 of 1895.—Jean Reuse. *Improvements in machines for the manufacture of cigars.* (From 26 June 1905 to 26 June 1906.)
- No. 373 of 1895.—Alexander Muirhead. *Improvements relating to transmission of signals through submarine telegraph cables.* (From 3 July 1905 to 3 July 1906.)
- No. 53 of 1897.—Charles James Grist. *Improvements in the manufacture of water-proofing coating compositions for wearing apparel, covers, engine and other packings, acid tank linings, and for other uses.* (From 6 September 1905 to 6 September 1906.)
- No. 54 of 1897.—Charles James Grist. *Improvements in the manufacture of insulating compositions for electrical purposes.* (From 6 September 1905 to 6 September 1906.)
- No. 112 of 1898.—Samuel Cleland Davidson. *Improvements in the construction of trays or sieves of foraminous material, for use in machines for drying tea or other substances.* (From 16 July 1905 to 16 July 1906.)
- No. 153 of 1898.—Samuel Cleland Davidson. *Improvements in apparatus for drying tea, coffee, cocoa, grain, or other substances.* (From 30 July 1905 to 30 July 1906.)
- No. 209 of 1899.—The Westinghouse Brake Company, Limited. *Improvements in buffer and drawbar apparatus.* (From 15 December 1905 to 15 December 1906.)
- No. 312 of 1899.—George Westinghouse. *Improvements in electro-pneumatic controlling apparatus.* (From 15 December 1905 to 15 December 1906.)
- No. 19 of 1900.—Ludwig Weber. *Improvements in roofing tiles.* (From 7 July 1905 to 7 July 1906.)
- No. 108 of 1900.—Sidney George Brown. *Improvements in electric telegraph apparatus.* (From 11 October 1905 to 11 October 1906.)
- No. 121 of 1900.—Henry Marles and George Weller Butt. *Improvements in carving machines.* (From 12 July 1905 to 12 July 1906.)
- No. 444 of 1900.—James Begg. *A rotary leaf spreader and arrangement for withering tea leaf and the like.* (From 2 July 1905 to 2 July 1906.)

No. 2530 P.—WHEREAS the inventors of the under-mentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 133 of 1900.—William Maylor. *A bolt and fastening suitable for railway rail joints.* (Specification filed 27 March 1901.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for the above invention.

- No. 214 of 1895.—The National Opalite Glazed Brick and Tile Syndicate, Limited. *Improvements in connection with fancy or ornamental bricks, tiles, slabs, wallings, ceilings, and the like.* (Specification filed 26 March 1896.)

- No. 232 of 1895.—Robert Rickie. *Improvements in sugar-cane crushing mills.* (Specification filed 25 March 1896.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (f) After the expiration of the eighth year and before the expiration of the ninth year from that date—

The sum of Rs 100 for each of the above inventions.

No. 295 of 1894.—George Alexander Kennedy, William Senior, and Ira Wood. *Improved apparatus for securing card clothing to the flats of carding engines.* (Specification filed 25 March 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (g) After the expiration of the ninth year and before the expiration of the tenth year from the date of the filing of the specification.

The sum of ₹100 for the above invention.

No. 105 of 1892.—Syed Ameer Alec. *Improvements and alterations in the Husaini coffee peeler.* (Specification filed 30 March 1893.)

Fee in respect of the continuance of an exclusive privilege—

4 (i) After the expiration of the eleventh year and before the expiration of the twelfth year from the date of the filing of the specification—

The sum of ₹100 for the above invention.

NOTICES.

“All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta.”

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not “designs” within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

$\frac{1}{4}$ lb "	Rs. 4	" Rs. 4-4.

CIVIL ENGINEERING COLLEGE, SIBPUR.
Agricultural Department.

HIGHER AGRICULTURAL CLASS.

Session 1905-1906.

Rules for Admission.

For admission to the Higher Agricultural Class, an applicant must have one of the following qualifications :—

- (i) He must have passed the F. E. examination of the Calcutta University, and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.
- (ii) He must have passed the B. A. examination of the Calcutta University by the B. course, or possess other sufficient educational qualifications ; be under 23 years of age, and, in addition, have received a nomination from the Bengal Government.
- (iii) He must have had a general education qualifying him to follow the instruction in the Higher Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be

recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural Students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on passed students under rules 12 and 13, even though they should obtain fully-signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application for a nomination, which must be addressed to the Principal, is given in Appendix B. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the first Monday in November. All students are required to join the College on that day. Any student prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs 10. No student will be admitted or re-admitted to the College after the month of November, except by special orders of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

Course of Instruction.

The course of instruction in the Higher Agricultural Class will extend over two academic years.

Scholarships.

Senior scholarships awarded in the Engineer Department are tenable in the Agricultural Department.

One graduate scholarship of Rs 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Appointments.

Two appointments annually are assigned to students holding a fully-signed diploma one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Entrance and Tuition Fees.

Each student in the higher Agricultural Department will be required to pay an *admission fee* of Rs 10.

F. E.'s who elect to join the Agricultural Department, immediately after passing the F. E. examination, are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be Rs 8 a month.

Further particulars may be obtained free on application to the Principal.

A. MACDONELL,

Officiating Principal, Civil Engineering College.

SUPPLEMENT TO
The Gazette of India.

No. 27.]

CALCUTTA, SATURDAY, JULY 8, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

The 8th July, 1905.

No. 148.—In exercise of the powers conferred by sections 4 (1) and 40 of the Indian Electricity Act (III of 1903) and in supersession of the license sanctioned in Notification No. 70, dated the 18th February 1905, the Governor General in Council is pleased to sanction the following amended license, under the aforesaid Act, being granted to Messrs. Begg, Sutherland and Company of Cawnpore, for the supply of electricity for general purposes in respect of the Cantonment of Cawnpore :

CAWNPORE (CANTONMENT) ELECTRIC LICENSE FOR GENERAL SUPPLY, 1905.

For the purposes of General Supply, and of Electric Traction granted by the Governor General in Council, under the Indian Electricity Act, 1903, to Messrs. Begg, Sutherland and Company of Cawnpore, in respect of the Cantonment of Cawnpore.

Short Title.

1. This license may be cited as "The Cawnpore (Cantonment) Electric License, 1905."

Incorporation of the Schedule to the Indian Electricity Act, 1903.

2. (a) The provisions contained in the schedule to the Indian Electricity Act, 1903, are deemed to be incorporated in this license, subject only to the additions, variations, and exceptions hereinafter expressly set forth.

(b) This license shall be read and construed subject in all respects to the provisions of the Indian Electricity Act, 1903, and the several words, terms and expressions to which by that Act meanings are assigned, shall have in this license the same respective meanings provided that in this license—

- (1) The expression "the Act" shall mean the Indian Electricity Act, 1903 ;
- (2) The expression "the licensees" shall mean and include the said Messrs. Begg, Sutherland and Company, and their permitted assigns, and
- (3) The expression "Deposited Map" shall mean the map of the area of supply deposited by the licensees with, and signed by, the Secretary to the Government of India in the Public Works Department.

Area of Supply.

3. The area of supply is the Cantonment of Cawnpore delineated on the deposited map and therein coloured (brown).

Commencement of License.

4. This license shall come into force and have effect upon the day when a notification confirming it is published in the *Gazette of India*, which date is in this license referred to as "the commencement of this license."

5. The option of purchase given by section 7 of the Act shall be exercisable on the expiration of forty-two years from the commencement of this license and at the expiration of every subsequent period of ten years during the subsistence of this license.

Statement of purposes of Supply.

6. The licensees may supply energy within the area of supply for electric traction and to the public for all purposes.

General Description of works and system of Supply.

7. (a) The supply for electric traction and for all other purposes shall be on the continuous system.

(b) The system of distribution of the supply for electric traction shall be the 2-wire system, and for other purposes the 2-wire, 3-wire and 4-wire systems.

(c) The pressure of generation shall be 500 to 575 volts; and the pressure on the distribution shall not exceed the limits of low pressure.

(d) The negative conductor of the 2-wire traction system shall, and the neutral conductor of the 3 and 4-wire systems may, be connected to earth.

(e) The whole of the distributing mains shall be aerial, except in places where it may be found that circumstances will not permit of conductors being erected, in which cases they shall be underground.

(f) All mains shall be erected or laid in accordance with the rules under the Act.

Power to break up Bridges and to cross Canals.

8. The licensees are authorized to cross the canal and interfere with the bridges mentioned in annexure 1.

Maximum Prices.

9. The prices to be charged by the licensees for energy supplied by them shall not exceed those stated in the second annexure to this license.

First Annexure.

List of bridges which may be broken up or interfered with by the licensees in pursuance of the powers granted by this license, and of the canal which the licensees seek power to cross :

(1) The bridges over the Ganges Canal and all bridges under the control of the Cantonment Committee of Cawnpore.

(2) The Ganges Canal.

Second Annexure.

Maximum price that may be charged for energy supplied by the licensees under this license :

(1) Where the licensees charge any consumer by the actual quantity of energy supplied to him, they shall be entitled to charge at the following rate :

For each unit the sum of annas eight only, provided that if in any month the value of the supply to any consumer, at the rates actually charged, does not amount to the equivalent of rupee one per kilowatt installed, with a minimum of one kilowatt, the licensees may charge a sum not exceeding that amount.

(2) Where the licensees charge any consumer by the electrical quantity contained in the supply given to him, they shall be entitled to charge according to the rates set forth above, the amount of energy supplied being taken to be the product of such electrical quantity and the declared pressure at the consumer's terminals, that is to say, such constant pressure at those terminals as may be declared by the licensees under the rules of the Government for securing a regular, constant, and sufficient supply of energy.

(3) Where the licensees charge any consumer (otherwise than by agreement) by some other method approved by the Governor General in Council, they shall be entitled to charge at such rates as the Governor General in Council may determine on approving that method.

SIDNEY PRESTON,

Secretary to the Government of India.

INDIAN EMPIRE.

. NOTIFICATION.

Simla, the 7th July, 1905.

No. 50-1. E.—The following notification which appeared in the *London Gazette* of the 6th June, 1905, is republished for general information :

INDIA OFFICE,
31st May, 1905.

The King has been graciously pleased to make the following appointments to the Most Eminent Order of the Indian Empire in recognition of the services of

the undermentioned in connection with the recent Mission to His Highness the Amir of Afghanistan :

To be a Knight Commander.

Louis William Dane, Esq., C.S.I., Indian Civil Service, Secretary to the Government of India in the Foreign Department.

To be a Companion.

Henry Robert Conway Dobbs, Esq., Indian Civil Service.

S. M. FRASER,

for Secretary to the Most Eminent Order
of the Indian Empire.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 4th July, 1905.

No. 1402-G.—Major C. Archer, an officiating Political Agent of the 1st class, held the appointment of Revenue and Judicial Commissioner in Baluchistan from the 18th March to the 3rd April, 1905, both days inclusive.

(Notification No. 418-G., dated the 3rd March, 1905, is hereby cancelled.)

The 6th July, 1905.

No. 1420-G.—*Corrigendum.*—In notification No. 834-G., dated the 26th April, 1905, for the words "15th May" read "7th June."

No. 2456-F.—Lieutenant H. Lewis, Indian Army, is provisionally appointed to be Adjutant of the Cavalry section of the Zhob Levy Corps, with effect from the date of assuming charge of his duties.

The 7th July, 1905.

No. 2622-I.B.—In exercise of the powers conferred by section 35 of the Court Fees Act, 1870 (VII of 1870), as applied to the Hyderabad Residency Bazaars, the Cantonments of Secunderabad and Aurangabad, and the railway lands in the territories of His Highness the Nizam of Hyderabad (other than the Railway lands in Berar and those referred to in the notifications of the Government of India in the Foreign Department, No. 5464-I., dated the 18th November, 1891, and 2244-I. B., dated the 26th August, 1897) by Foreign Department Notification No. 531-I. B., dated the 4th February, 1904, and in supersession of the notifications of the Government of India in the Foreign Department cited on the margin so far as they apply to those areas, the Governor-General in Council is pleased to make the following reductions and remissions within those areas in the fees chargeable by the 1st and 2nd Schedule of the Act, namely :

¹¹ No. 1244-I., dated the 19th March, 1891, as amended by notification No. 3343-I. dated the 15th August, 1891.

No. 1301-I., dated 18th April, 1894.

No. 1840-I., dated 30th April, 1894.

No. 2591-I., dated 25th September, 1896.

- (1) to remit the fees chargeable on applications presented to a Collector for refund of the amount paid to the Government for stamped paper which has become spoiled or unfit for use or is no longer required for use, and on applications for renewal of stamped paper which has become spoiled or unfit for use,
- (2) to direct that, when a plaint disclosing a reasonable case on the merits is presented to any Civil or Revenue Court in such a form that the presiding Judge or officer, without summoning the defendant, rejects it, not for any substantial defect, but on account of an entirely technical error in form only, and so as to leave the plaintiff free to prosecute precisely the same case in another form against the same defendant or defendants, the value of the stamp on the plaint shall be refunded on presentation of an application to the Collector of the district in which the Court is situated, together with a certificate from the Judge or officer who rejected the plaint that it was rejected in the circumstances above described and that the value of the stamp should in his opinion be refunded,
- (3) to direct that the fee chargeable on appeals from orders under clause (c) of Section 244 of the Code of Civil Procedure, 1882 (Act XIV of 1882), shall be limited to the amounts chargeable under article II of the Second Schedule;

- (4) to remit the fees chargeable on security bonds for the keeping of the peace by or good behaviour of persons other than the executants ;
- (5) to remit the fee payable under article 1, clause (c) of the Second Schedule on an application or petition presented to a Chief Commissioner when the application or petition is accompanied by a petition to the Government of India and contains merely a request that that petition may be forwarded to the Government of India ;
- (6) to remit the fees chargeable under articles 6, 7 and 9 of the First Schedule on copies furnished by Civil or Criminal Courts or Revenue Courts or offices for the private use of persons applying for them.

Provided that nothing in this clause shall apply to copies when filed, exhibited or recorded in any Court of Justice or received by any public officer ;

- (7) to remit the fees chargeable under paragraph 4 of clause (a) and paragraph 2 of clause (b) of article 1 of the Second Schedule on applications for orders for the payment of deposits in cases in which the deposit does not exceed Rs. 25 in amount.

Provided that the application is made within three months of the date on which the deposit first became payable to the party making the application ;

- (8) to remit the fee chargeable on an application made by a person to the Collector under the second paragraph of section 42 of the Indian Stamp Act, 1899 (II of 1899), for the return to that person or to the registration officer who impounded it, of a document impounded and sent to the Collector by a registration officer ;
- (9) to remit the fee chargeable on an application made for transfer of a stock note from one circle to another under paragraph 6 of Resolution No. 2566, dated the 20th August 1885 ;
- (10) to remit the fees chargeable on the following documents, namely :
 - (a) copy of a charge framed under section 210 of the Code of Criminal Procedure, 1898 (Act V of 1898), or of a translation thereof when the copy is given to an accused person ;
 - (b) copy of the evidence of supplementary witnesses after commitment when the copy is given under section 219 of the said Code to an accused person ;
 - (c) copy or translation of a judgment in a case other than a summons case, and copy of the heads of the Judge's charge to the jury, when the copy or translation is given under section 371 of the said Code to an accused person ;
 - (d) copy or translation of a judgment in a summons case, when the accused person to whom the copy or translation is given under section 371 of the said Code is in jail ;
 - (e) copy of an order of maintenance when the copy is given under section 400 of the said Code to the person in whose favour the order is made, or to his guardian, if any, or to the person to whom the allowance is to be paid ;
 - (f) copy furnished to any person affected by a judgment or order passed by a Criminal Code of the Judge's charge to the jury or of any order, deposition, or other part of the record when the copy is not a copy which may be granted under any of the preceding sub-clauses without the payment of a fee but is a copy which on its being applied for under section 548 of the said Code the Judge or Magistrate for some special reason to be recorded by him on the copy thinks fit to furnish without such payment ;
 - (g) copies of all documents furnished under the orders of any Court or Magistrate to any Government Advocate or Pleader or other person specially empowered in that behalf for the purpose of conducting any trial or investigation on the part of the Government before any Criminal Court ;
 - (h) copies of all documents which any such Advocate, Pleader, or other person is required to take in connection with any such trial or investigation for the use of any Court or Magistrate or may consider necessary for the purpose of advising the Government in connection with any criminal proceedings ;
 - (i) copies of judgments or depositions required by officers of the Police Department in the course of their duties ;

(11) to direct that the fee chargeable—

(a) on an application to a Collector, or to any officer or person discharging all or any of the functions of a Collector, with respect either to liability to assessment or to the amount of an assessment under Act II of 1886 (*an Act for imposing a tax on income derived from sources other than agriculture*) and

(b) on a copy of an order passed under section 26 of the same Act, shall be limited to one anna ;

(12) to remit the fee chargeable on an application presented by any person for the return of a document filed by him in any Court or public office ;

(13) to direct that, if the amount of the fee chargeable in any case involves a fraction of an anna, the fraction shall be remitted, except where otherwise expressly provided by this notification ;

(14) to remit the fee chargeable on an application for the grant of a license for the vend of stamps ;

(15) to direct that no Court-fee shall be charged on an application for the repayment of a fine or of any portion of a fine the refund of which has been ordered by competent authority ;

(16) to remit the fees chargeable on copies of documents furnished by a Court of Session or the High Court to a pleader appointed by the Court to defend a person accused of murder ;

(17) to remit the fees chargeable under Schedule II on applications for copies of the documents detailed in clause 10 above.

S. M. FRASER,

Offg. Secretary to the Government of India.

FINANCE DEPARTMENT.

NOTIFICATIONS.

CANTONMENTS.

REGULATIONS.

No. 581—In exercise of the power conferred by section 25 of the Cantonments Act, 1889 (XIII of 1889), the Governor General in Council is pleased to extend to the Cantonment of Agra the provisions of section 102 of the United Provinces Municipalities Act, 1900 (United Provinces Act, I of 1900), in the modified form set forth below :

EXTENDED SECTION.

(1) Should a sweeper who has a customary right to do the house-scavenging of a house or building (hereinafter called the customary sweeper) fail to perform such house-scavenging in a proper way and at reasonable intervals, the cantonment committee may complain to the District Magistrate.

(2) The Magistrate receiving such complaint shall hold an enquiry, and, should it appear to him that the customary sweeper has failed to perform the house-scavenging of the house or building in a proper way or at reasonable intervals, he may impose upon such sweeper a fine which may extend to ten rupees, and upon a second or any later conviction in regard to the same house or building, may also direct the right of the customary sweeper to do the house-scavenging of the house or building to be forfeited, and thereupon such right shall be forfeited accordingly.

H. A. STUART,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).**Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 6th July 1905, based on the India Daily Weather Reports of the period.**

The Arabian Sea monsoon current has been, during the greater part of the week under review, lighter than it was last week. Daily rain has, indeed, fallen at the West Coast stations, but the largest amounts in twenty-four hours were 2.25" at Mangalore on the 30th June; 3.02" at Bombay on 1st July, 3.24" at Bombay on 2nd; 1.11" at Mormugao on 3rd; 1.19" at Bombay on the 4th, 1.45" at Calicut on the 5th, and 1.90" at Bombay on the 6th. These figures show that the rainfall diminished considerably as the week advanced, and the total fall for the period on the West Coast was short of the average. The current gave very little rain over the interior of the Peninsula. In South India light showers were received on the 30th June and the 1st and 2nd July, but the weather was fine at other times, while over the Deccan, though showers fell daily, the only heavy fall was 4.50" at Poona on the 6th. In the south division of the East Coast there was practically no rain throughout the week. The above shows that over the Peninsula generally the week's rainfall was short of the normal. On the other hand, the Arabian Sea monsoon current extended northward well over Gujarat and the west of the Central Provinces and of Central India, where the following heavy falls in twenty-four hours were recorded. On the 30th June Nagpur reported 1.77", on the 1st July Nagpur 3.74" and Amraoti 3.27" on the 2nd Indore 4.31", Veraval 3.05"; and Akola 3.03", on the 3rd Surat 0.73", on the 4th Surat 1.60" and Ahmedabad 1.41", on the 5th Surat 1.73", and on the 6th Surat 1.15". Over Gujarat and the West Satpuras divisions the week's fall exceeded the normal.

On the opposite side of India two cyclonic storms have appeared during the week, causing the weather to be disturbed and rainy, but the rainfall has been irregularly distributed. Heavy daily rain has been received over the Burma coast, the Delta of Bengal, the Brahmaputra Valley and the East Satpuras, while showers have been received over inland Burma and the north division of the East Coast. The heaviest falls were received in connexion with the development of the two cyclonic storms, and Akyab on the 4th reported a fall of 12.34" in twenty-four hours. Showers were reported throughout the week over the Himalayas and Sub-Himalayas and the Gangetic Plain and on the 4th, 5th and 6th heavyish rain was received over these divisions. The largest amounts in twenty-four hours were 4.10" at Darjeeling on the 4th; 4.79" at Allahabad, 4.08" at Darbhanga and 2.94" at Lucknow on the 5th, and 1.65" at Simla and 1.30" at Chakrata on the 6th. Rain has not as yet extended into the North-West Dry Area.

The rainfall table shows that the week's fall exceeded the normal over the Burma coast, the Delta of Bengal, the East Satpuras, Gujarat and the West Satpuras divisions and the Darbhanga, Burdwan, Cawnpore, Cuttack and Bijapur subdivisions, but was less than usual in all other parts of the country.

The seasonal rainfall is short of the normal except on the Burma coast and the Calicut, Bellary and Hyderabad subdivisions, but the deficiency is only large and important over Bihar, upper and central India and the Rajkot subdivision of Gujarat.

At the close of the week a well-marked depression was advancing from the Bay and general rain was falling over the central parts of the country.

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 6th July 1905

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).Season and Crop Prospects for the week ending Saturday,
1st July 1905.

Madras.—The rainfall of the week was very heavy on the West Coast; good in the Circars, Nellore and the Nilgiris, and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout except in Ganjam, Vizagapatam, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some require more rain in parts of Chingleput, Coimbatore, Tanjore and Madura. Harvests continue in parts with poor to fair outturn. Pasture is insufficient except in Ganjam, Kurnool, parts of the Central, Southern and West Coast districts and the Nilgiris. Fodder is scanty except in parts of the Circars, Cuddapah, South Arcot, the Central, Southern and West Coast districts and in the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in nine districts and has slightly risen in fourteen. The prices of millets have fluctuated as follows:—*Ragi* is stationary in four districts and has slightly risen in seventeen. *Cholam* has fallen in one district and has slightly risen in thirteen. *Cumbu* is stationary in two districts; has fallen in two, and has slightly risen in eleven.

Bombay.—There was heavy rain during the week in parts of Surat, the Konkan, Wadhwan, Khandesh and Rajkot; good in parts of Nasik, Ahmednagar, Sholapur and Satara; moderate in parts of Ahmedabad, the Panch Mahals, Kaira, Poona, Belgaum, Dhawar and Baroda, and slight in parts of Broach and Bijapur. More rain is needed, particularly in parts of Kaira, Broach, Ratnagiri, the Deccan and the Karnatak. Preparation of lands continues in parts of Kutch, Hyderabad, Thar and Parkar, Ahmedabad, the Panch Mahals, Broach, Ratnagiri, Ahmednagar, Nasik and Belgaum. Sowing of autumn crops has commenced in parts of Gujarat, Wadhwan and Baroda, continues in parts of Sukkur, Larkana, the Upper Sindh Frontier, Thana, Ratnagiri, Kanara, the Deccan and the Karnatak, and is completed in Colaba. Transplantation of rice has commenced in parts of Sukkur, Larkana, the Upper Sindh Frontier, Ratnagiri and Kanara. Standing crops have been slightly damaged by grass-hoppers in parts of the Upper Sindh Frontier. The fodder-supply is sufficient except in parts of Sukkur, Hyderabad, Thar and Parkar, Surat, Khandesh, Belgaum and Baroda. Agricultural stock is sufficient. Cattle is in good condition except in parts of Thar and Parkar and Nasik. The water-supply is adequate except in parts of the Panch Mahals, Surat, Khandesh, Belgaum and Baroda. Prices have fallen in two districts, have risen in three districts, and are stationary elsewhere. The numbers on relief during the week ending the 24th June were as follows:—daily average on relief works in Kaira, 815, on gratuitous relief—Kaira, 208, Belgaum, 780, total, 1,803. The numbers on the last day of the week on test works were:—Ahmedabad, 1,316, the Panch Mahals, 1,780, total, 3,906.

Bengal.—The rainfall during the week was general and plentiful throughout the Province, except in Bihar, portions of Chota Nagpur and portions of South-West Bengal, where the fall was scanty. More rain is wanted in these tracts for the young paddy and other standing crops, as well as for the progress of agricultural operations. In the tracts where good rain has fallen the prospects of the crops are generally favourable. Weeding of jute is almost complete. Fodder and water are generally sufficient. The price of common rice has risen in thirteen districts, and has fallen in eight districts.

United Provinces.—Rain has fallen in all but eleven districts, Garhwal receiving over two inches and Almora, Bijnor, Muzaffarnagar and Rampur each one inch. More rain is needed generally for the sowings of autumn crops which are being retarded. Prospects are reported to be good except in Bulandshahr, Ballia and Ghazipur, where the sugarcane crop has been damaged by insects and drought. The condition of agricultural stock is poor in Jalaun. Fodder is reported to be scarce in Jalaun and Banda and the water-supply to be diminishing slightly in Bulandshahr, Jalaun and Banda. Prices are still high.

Punjab.—Rain fell during the week in Ambala, Jullundur and parts of Hissar, Amritsar, Sialkot, Shahpur and Rawalpindi. The prices of all food-grains show a tendency to rise. Wheat is rising in Ambala, Jullundur, Ferozepur, Lahore, Amritsar, Mianwali and Lyallpur; and falling slightly in Hissar and Rawalpindi. The harvesting of spring crops continues in Shahpur, Rawalpindi and Multan and of extra spring crops in Lahore. Sowings of autumn crops continue. Rain is urgently wanted for further sowings. The condition and prospects of the standing crops are good to average. The cotton and sugarcane crops in Sialkot and the unirrigated melon crop in Mianwali are withering for want of rain. Sugarcane is being damaged by *kiri* (an insect) in two tahsils of the Sialkot district. The condition of cattle is on the whole good. Fodder is sufficient except in parts of Shahpur and Multan. The water-supply in canals is sufficient in Delhi, Ambala and Mianwali.

North-West Frontier Province.—A severe thunderstorm has given rain to Hazara, but there has been no rain elsewhere to renew the water-supply and for sowings. The

Ismail Khan. Prices are rising slightly in Peshawar and Dera Ismail Khan and are stationary in Bannu. Prices—wheat 16 to 21; gram 18 to 24; maize 19 to 29; and *bajra* 19 to 23 seers per rupee.

Burma.—The rainfall of the week was heavy in coast districts; light in mid-area with none in Shwebo, Pakokku and Sagaing; and moderate elsewhere. Reaping of dry-weather paddy is completed in Minbu. Ploughing for wet-weather paddy is general and sowing has commenced in three more districts. Cultivation of hill-side paddy is progressing. Reaping of sesamum has commenced in Kyaukse and gathering of tobacco and beans is completed in the Pagan township of Myingyan. Sowing of early sesamum continues. Large areas have been left uncultivated in Bassein owing to cattle deaths in the Thaton township of Thaton. Early sowings in low lands have been destroyed by floods in Kyaukse. The supply of water for wet-weather paddy nurseries is scanty in Yamethin. Agricultural operations have been delayed owing to insufficient rain, but crop prospects are on the whole good. The price of paddy has risen largely in Myitkyina, otherwise it is practically stationary.

Central Provinces.—Rain has fallen throughout the Provinces and the falls in some districts were heavy; Nagpur received 9½ inches, Seoni 6½ inches, Chanda and Amraoti 5 inches, Chhindwara 4½ inches and Narsinghpur 4½ inches; elsewhere the falls range between 4 inches in Mandla and 1 inch in Saugor. The rainfall has been sufficient for sowings to begin everywhere except in Damoh. The appearance of locusts is reported from Hoshangabad, Nimar, Chhindwara, Nagpur, Chanda and all districts of Berar except Ellichpur. The prices of wheat have fluctuated slightly, while those of rice and *juar* show a tendency to fall. Prices are still considerably higher than those ruling in the corresponding week of last year.

Assam.—The weather is hot and rainy. Rain fell in all districts during the week. Planting of sugarcane is in progress. Plucking and manufacture of tea continue and prospects are good in Darrang; have been affected by excessive rain in Cachar; and are fair in other districts. Ploughing for, and sowing of, late rice are in progress. Sowing of early rice is finished in all districts except Cachar, Sylhet, Kamrup and Darrang. Prospects of early rice are good in Goalpara and the Garo Hills and are generally fair in other places. The prospects of jute are good. Prices of common rice—Sibsagar, 16; Silchar, Sylhet, Gauhati, Tezpur and Nowgong, 14; Dhubri, 13; and Dibrugarh, 12½ seers per rupee.

Mysore.—Fair rain fell during the week. Prices of food-grains are steady. The standing crops are in good condition. The prospects of the season are fair, except in parts of the Kolar, Hassan and Kadur districts, where the want of rain is felt. Water and fodder are available except in parts of the Kolar, Hassan, Kadur and Chitaldroog districts.

Coorg.—Rainfall—9 inches 84 cents. Sowing of rice is completed and transplanting has commenced in parts. Prices of food-grains are stationary. Water and fodder are available.

Hyderabad.—Rainfall—2 inches 35 cents. Good rain has fallen in almost all districts; Nander, Raichur and Warangal received 4.36, 5.39 and 6.57 inches, respectively. Autumn sowings are in progress in eighty-seven taluks. More rain is wanted in parts. Early rice sowings have begun in parts. Fodder scarcity continues in twenty-five taluks. Locusts appeared in sixteen taluks, where there were no standing crops. Water scarcity exists in fifteen taluks. Prices—wheat 12½; coarse rice 8½; and *juar* 19½ seers per rupee.

Rajputana.—Rainfall in cents—Marwar 7; Sirohi 45; Mewar 2.21; hill tracts of Mewar 76½; Bundi 82; Shahpura 31; Chaoni Jhalrapatan 1.41; Alwar 32; Bharatpur 15; Karauli 14; Dholpur 2; and Ajmer-Merwara 6.78. Slight showers are also reported in parts of Kotah and Kishengarh. Preparations for autumn sowings are in progress in thirteen States. In Karauli the cotton and sugarcane crops are flourishing; in Alwar the cotton crop is thriving; in Jaipur cotton sowings continue, but they have been slightly damaged in parts for want of rain. Except in Jaisalmer agricultural stock is satisfactory, and pasturage or fodder is sufficient. Water for cattle is failing in parts of Merwara, and wells are drying up in the hill tracts of Mewar. Prices are rising in seven States; fluctuating in three; and are steady in seven. The number of workers on test works in Merwara on the last day of the week was 1,874.

Central India.—There was general rain during the week in Indore, Bhopal, Malwa and Bhopawar; partial in Baghelkhand and Bundelkhand; and none in Gwalior. Preparation of land and sowing of autumn crops are in progress throughout the Agency. Agricultural stock is good in Baghelkhand, Bundelkhand, Bhopawar and in parts of Indore; and fair in Bhopal, Gwalior and Malwa. Pasturage is fair to good throughout. Prices are steady in Indore, Gwalior, Bhopawar and parts of Malwa; are rising in Bundelkhand; have fallen in parts of Malwa; and continue high in Bhopal and Baghelkhand.

Kashmir.—The weather is bright and warmer. Prices are almost stationary.

Jammu.—There was slight rain in the Ramnagar, Kathua and Jammu tahsils during the week. Prices are fluctuating. Wheat sells from 9 to 24 and maize 24 to 48 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Autumn sowings are in progress.

Nepal.—(Report not received.)

J. WILSON,
Secretary to the Government of India.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JULY 15, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

- No. 319 of 1905.—Mario Clerici, jute merchant's assistant, care of H. V. Williams and Company, patent agents, No. 14 Hare street, Calcutta. *Improvements in hackles for teasing jute and other like fibre.*
- No. 320 of 1905.—La Societe Anonyme Westinghouse, manufacturers, of 2 Boulevard Sadi-Carnot, Havre, France, and Maurice Leblanc, engineer, of villa Montmorency, Auteuil, Paris, France. *Improvements in refrigerating apparatus.*
- No. 321 of 1905.—N. O. Peters, manager, Jorhat State Railway, Jorhat, Assam, and Rao Shahib Pandit Matadin Sukul, executive engineer, Sibsagar Division, Sibsagar, Assam. *Improved internal privacy iron latrines.*

No. 2615 P.—THE undermentioned design has been registered, under the provisions of the Inventions and Designs Act, 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma. This and other designs are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West), Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 23 of 1905.—Ramnath, cloth merchant, of Delhi. *A disc for necklaces bearing a flower and words on each side.*

No. 2616 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 222 of 1904.—Norbert Ceipek, chemical engineer, of 33 Wahringerstrasse, Vienna, IX, Austria. *Explosive compounds of high shattering power, (Specification filed 30 June 1905.)*

- No. 520 of 1904.—Sebastian Ziani de Ferranti, engineer, of 31 Lyndhurst road, Hampstead, London, N. W., England. *Improvements in or relating to turbine engines.* (Specification filed 30 June 1905.)
- No. 535 of 1904.—Arthur Elphinstone Cummins, engineer, of 6 The Crescent, Queens-town, Ireland. *Improvements in baling presses for cotton and other materials.* (Specification filed 30 June 1905.)
- No. 550 of 1904.—Walter Fair Larkin, clerk, of Wellington, in the colony of New Zealand. *An improved ladies' protector.* (Specification filed 30 June 1905.)
- No. 14 of 1905.—George Finn, company manager, of 11 McFarlane street, Wellington, in the Provincial district of Wellington, in the colony of New Zealand and Arthur Seldon Pike, engineer, of 168 Tinakori road, Wellington, aforesaid. *An improved egg carrier.* (Specification filed 5 July 1905.)
- No. 35 of 1905.—Charles Henry Huff, financier, of 105 Federal street, Boston, state of Massachusetts, United States of America. *Method and apparatus for electrostatic separation.* (Specification filed 5 July 1905.)
- No. 103 of 1905.—The Westinghouse Brake Company, Limited, manufacturers, of 82 York road, King's Cross, London, England. *Improvements in vacuum brake apparatus for railway and like vehicles.* (Specification filed 5 July 1905.)
- No. 127 of 1905.—The Westinghouse Brake Company, Limited, manufacturers, of 82 York road, King's Cross, London, England. *Improvements in vacuum brakes for railway and like vehicles.* (Specification filed 5 July 1905.)
- No. 142 of 1905.—Peter Ross, captain and signal engineer, North Western Railway, Lahore, Punjab. *A combined facing point lock and detector.* (Specification filed 3 July 1905.)
- No. 148 of 1905.—The Westinghouse Brake Company, Limited, manufacturers, of 82 York road, King's Cross, London, England. *Improvements in or relating to automatic vacuum brakes for railway and like vehicles.* (Specification filed 5 July 1905.)
- No. 149 of 1905.—The Westinghouse Brake Company, Limited, manufacturers, of 82 York road, King's Cross, London, England. *Improvements relating to vacuum brakes for railway and like vehicles.* (Specification filed 5 July 1905.)
- No. 170 of 1905.—Alessandro Artom, electrical engineer and professor, of 3 via Venti Settembre, Turin, in the kingdom of Italy. *Improvements in and relating to the transmission of electrical energy through space for the purpose of wireless telegraphy and the like.* (Specification filed 30 June 1905.)
- No. 213 of 1905.—Peter Ross, captain and signal engineer, North Western Railway, Lahore, Punjab. *A combined lever catch block and key lock.* (Specification filed 3 July 1905.)

No. 2617 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

- No. 288 of 1893.—William Alfred Lambert. *An improved hydraulic automatic punkah working apparatus.* (From 26 July 1905 to 26 July 1906.)
- No. 452 of 1896.—Pompeo Garuti and Riccardo Pompili. *Improvements in the apparatus for the production of oxygen and hydrogen by electrolysis.* (From 2 August 1905 to 2 August 1906.)
- No. 180 of 1898.—Khan Bahadur Commodore Dhanjibhoi. *Improvements in tongas and other carriages specially applicable for ambulance purposes.* (From 5 July 1905 to 5 July 1906.)
- No. 447 of 1900.—James Major and Thomas James Wood. *Improvements in apparatus for dyeing, bleaching or otherwise treating cops of spun yarn.* (From 8 July 1905 to 8 July 1906.)
- No. 257 of 1901.—The Diamond Soda Water Machine Company, Limited. *Improvements in drawing-taps for aerated waters and the like.* (From 28 August 1905 to 28 August 1906.)

No. 2618 P.—WHEREAS the inventors of the under-mentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 310 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in alternating current induction motors.* (Specification filed 2 April 1901.)

No. 311 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in systems of electrical distribution.* (Specification filed 2 April 1901.)

No. 435 of 1900.—Claus Peter Carl Muhl and James Beaty Forster. *Improvements in life saving apparatus.* (Specification filed 1 April 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for each of the above inventions.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

No. 138259—3½ per cent. 1865 for Rs144-14-4.

The payment of Warrant has been stopped in the Government Account Department of the Bank of Bengal and application for the duplicate of the warrant is about to be made to the Public Debt Office, Bank of Bengal, Calcutta.

NAME—BHUPENDRA NATH MOOKERJEE,
Deputy Magistrate, Jessore.

SUPPLEMENT TO
The Gazette of India.

No. 28.]

CALCUTTA, SATURDAY, JULY 15, 1905

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

H. A. STUART,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).**Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 13th July 1905, based on the India Daily Weather Reports of the period.**

The Arabian Sea monsoon current has been very feeble, as a rain-giving current, over the Peninsula. Along the West Coast the fall has been very light, the only amounts exceeding 1'00" in twenty-four hours having been:—1'63" in Karwar on the 7th; 1'28" at Calicut and 1'20" at Cochin on the 9th; and 1'15" at Karwar on the 10th. On the remaining days there were no falls even equalling the above and on the 12th there was no fall at the West Coast stations which equalled 0'10". In consequence the total fall for the week for this division was very light, and only about one-fourth of the average. South India, the south division of the East Coast and the Deccan participated in this weakness of the monsoon current and received only scattered rain. At some stations in the south of the Peninsula this rainfall was locally heavy and the week's fall exceeded the normal in the Madura subdivision and the East Coast (South) division, but over the Deccan the rain was everywhere light and in the Hyderabad subdivision only averaged 0'04" for the week. Rain has diminished again over Gujarat, where only about half the normal amount has been received, while in the West Sutpuras, though the week's fall has been heavier than usual, the excess has been small and much less than last week.

The weather and rainfall of the north-east of the Peninsula, of the east of the Central Provinces, of north-east India and of Burma have been largely influenced by two depressions which formed over the Bay and thence moved into central or northern India. The first passed directly through the Central Provinces and the west of Central India to Gujarat between the 7th and the 9th giving very heavy rain in its path, the second passed from the head of the Bay into west Bengal between the 11th and the 13th and occasioned general rain over Burma and north-east India. The total rainfall for the week over these areas was somewhat irregularly distributed. Burma, the Delta of Bengal, Orissa, Bihar, Chota Nagpur and the Jubbulpore subdivision all received more rain than the average, while, on the contrary, Assam, North Bengal and the north division of the East Coast reported less than usual.

In Upper India the weather during the first four days of the week was generally fine, but with scattered thundershowers over parts of the Gangetic Plain and light to heavy rain on the hills. On the 11th however conditions changed. Strong winds had sprung upon the north Bombay coast and penetrating well inland carried moderate to heavy general rain to north-west India with the exception of Rajputana and Sind. The heaviest total falls connected with this advance were 3'46" at Sialkot, 3'42" at Dehra, 3'14" at Simla, 3'45" at Lucknow, 3'50" at Meerut, 3'07" at Lahore, 1'58" at Dera Ismail Khan, 2'42" at Montgomery and 2'41" at Sirsa.

The week's rainfall was above the average in the west Himalayas, the West Gangetic Plain and the North-west dry area, but was short of the normal in the Ludhiana, Jaipur and Jhansi subdivisions.

This general, and in places, heavy, rainfall over upper and central India has had a considerable effect on the seasonal conditions having reduced the deficiency largely in some divisions. The only places reporting any excess in the seasonal rainfall are, however, the Burma coast and the Jubbulpore, Hyderabad and Madura subdivisions and notwithstanding the rainfall of the past week the deficiency of the seasonal rainfall remains considerable over a very large part of the country.

RAINFALL DIVISION WITH REPRESENTATIVE STATION.	Rainfall sub-division named after representative station.	RAINFALL DATA FOR WEEK ENDING ON 13TH JULY 1905.			RAINFALL DATA FROM 28TH APRIL 1905 TO 13TH JULY 1905.			SEASONAL PERCENTAGE DEPARTURE FROM NORMAL.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 13th July 1905.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).Season and Crop Prospects for the week ending Saturday,
8th July 1905.

Madras.—Rainfall *nil* in Guntur, Anantapur, South Arcot, the Southern and parts of the Central districts; good in the Vizagapatam Agency and the West Coast districts; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency except in Vizagapatam, Kistna, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some require more rain in parts of Ganjam, Chingleput, South Arcot, and the Central and Southern districts. Harvests continue in parts with poor to fair out-turn. Pasture is insufficient except in Ganjam, Guntur, Kurnool, North Arcot, Salem, the West Coast districts and the Nilgiris. Fodder is scanty except in parts of the Circars, Salem, Trichinopoly, Tinnevely, the West Coast districts and the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in eight districts and has risen very slightly in fifteen. Prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts; and has slightly risen in sixteen. *Cholam* is stationary in one district; has fallen in four; and has slightly risen in nine. *Cumbu* is stationary in four districts; has fallen in four; and has slightly risen in seven.

Bombay.—There was heavy rain during the week in parts of the Panch Mahals, Kaira, Surat, the Konkan, Khandesh, Ahmednagar, Poona, Satara and Belgaum; good in parts of Ahmedabad; moderate in parts of Broach, Rajkot, Baroda and Dharwar; and very slight in parts of Karachi, Thar and Parkar, Sholapur, Bijapur and Wadhwan. More rain is particularly needed in parts of Broach, Poona, Sholapur, Satara, the Karnatak, Rajkot and Baroda. Sowing of autumn crops is generally in progress, but is retarded in parts of Bijapur and Dharwar. Transplantation of rice has commenced in parts of Thana and Colaba, and continues in parts of Sukkur, Larkana, the Upper Sindh Frontier, Ratnagiri and Kanara. The fodder-supply is sufficient except in parts of Sukkur, Hyderabad, Thar and Parkar, Surat, Khandesh, Bijapur, Belgaum and Baroda. Agricultural stock is sufficient. Cattle are in good condition except in parts of Thar and Parkar. The water-supply is adequate except in parts of Surat, Belgaum and Baroda. Prices have fallen in two districts; risen in two districts, and are stationary elsewhere. The numbers on relief during the week ending the 1st instant were as follows:—daily average on relief works—Kaira, 1,005; on gratuitous relief—Kaira, 232; Belgaum, 789; total, 2,026. On test works—Ahmedabad, 1,114; the Panch Mahals, 449; total, 1,563.

Bengal.—Rain was fairly general and moderately heavy in portions of the eastern half of the province. The fall in Bihar, though not well distributed, has done much good to the standing crops, but more rain is wanted there for transplantation of paddy seedlings and other agricultural operations. The prospects of the crops in other divisions of the province are generally good. Fodder and water are sufficient. The price of rice has risen in ten and fallen in five districts.

United Provinces.—Rain has fallen throughout the Provinces; the south of Oudh and the south-eastern districts receiving the heaviest falls. More rain is wanted in nine districts. The standing crops in the Tehri State are reported to be in an unsatisfactory condition, but prospects have otherwise improved. Autumn sowings are generally well forward, save in the few districts where there has been a want of sufficient rain. The condition of agricultural stock continues poor in Jalaun. Food and supplies are ample, but fodder is reported to be scarce in parts of Hamirpur. Prices still rule high.

Punjab.—There was good rain in Hissar, Ambala, Jullundur, Sialkot and Rawalpindi, and light showers in Delhi, Lahore and Amritsar. The price of wheat is falling in Delhi and Lahore, and rising in Jullundur and Shahpur. The prices of other food-grains are fluctuating. Harvesting of spring crops is finished in Rawalpindi and nearly so in Shahpur. Extra spring crops are being reaped in Delhi and Lahore. Sowings of autumn crops continue. The condition and prospects of the standing crops are good to average, except in Mianwali, where crops on unirrigated lands are withering for want of rain. Sugarcane is being attacked by *kiri* (an insect) in tahsil Daska. Cattle are generally in good condition. Fodder is sufficient except in parts of Shahpur and Multan. There are no complaints regarding the water-supply.

North-West Frontier Province.—There has been continuous rain in Hazara since the 9th instant, but none elsewhere in the Province. Rain is badly wanted in other districts to renew the water-supply and for sowings. The state of the standing crops on irrigated land is fair in Peshawar and average in Bannu and Dera Ismail Khan except in parts of the former district. The condition of cattle is generally good except in the Daman tract of Dera Ismail Khan. Fodder is sufficient except in parts of Peshawar and Dera Ismail Khan. The canal water-supply is normal in Bannu and Dera Ismail Khan and plentiful in Peshawar with a small exception. Prices are almost stationary except in Bannu where *bajra*

has risen from 23 to 30 seers per rupee. Prices—wheat 16 to 21; gram 18 to 27; maize 19 to 29; and *bajra* 16 to 20 seers per rupee.

Burma.—The rainfall of the week was practically general; it was very heavy in Akyab, Sandoway, Thaton and Tavoy; light in the dry zone tract with none in Pakokku; and moderate elsewhere. Ploughing for wet-weather paddy is completed in Bassein and is approaching completion in some other places. Sowings are extending and transplanting has commenced in Henzada, Shwebo and the Northern Shan States. Sowing of sesamum is completed in Magwe. Cultivation of hill-side paddy and of miscellaneous crops continue in Upper Chindwin. Considerable damage has been done to the dry-weather paddy crop by floods. More rain is wanted in Yamethin, Shwebo and part of Sagaing. The crop prospects are good. The price of paddy has risen considerably in Tavoy and slightly at two centres and has fallen slightly at one centre; otherwise it is unchanged.

Central Provinces—General rain has fallen during the week; the falls were heavy in Damoh, Jubbulpore, Mandla, Hoshangabad, near Betul and in Balaghat; and good to moderate elsewhere. In Jubbulpore many embankments have been breached by the heavy rain and in Wardha a little resowing of cotton has been necessitated. Sowings of autumn crops are in rapid progress, but have been retarded by heavy rain in parts of Hoshangabad and Betul. The germination of early sown crops so far as reported is good. Locusts still exist in Betul, Chhindwara, Wardha, Nagpur, Chanda and in all districts of Berar, but the recent heavy rains have killed them to a large extent and no egg-laying is reported. Fodder is scarce in Saugor, Damoh and Narsinghpur. The price of gram has risen by 3 seers per rupee in Chhindwara; elsewhere prices are steady with slight fluctuations.

Assam.—The weather is hot and rainy. Rain fell in all districts during the week, but more is wanted in Kamrup and Sibsagar. Planting of sugarcane is in progress. Plucking and manufacture of tea continue and prospects are good in Darrang; improving in Cachar; and fair in other districts. Ploughing for, and sowing of, late rice seedlings are in progress. Transplanting of late rice has commenced. Sowing of early rice is finished in all districts except Cachar, Sylhet, Kamrup and Darrang. Excessive rain has caused some damage to the early and late rice in parts of Sylhet. The prospects of early rice are good in Goalpara and the Garo Hills and generally fair in other places. The prospects of jute are good. Fodder is insufficient in parts of Sylhet and Kamrup. Prices—common rice—Silchar and Sibsagar, 16; Sylhet, Gauhati, Tezpur and Nowgong, 14; Dhubri, 13; and Dibrugarh, 12½ seers per rupee.

Mysore.—The rainfall of the week was good in the Shimoga district, fair in the Kadur and Hassan districts, but there was practically no rain elsewhere. The prices of food-grains are steady. The crops are generally in fair condition, but are withering in parts and more rain is much wanted everywhere. Water is available. Fodder is getting scanty in parts of the Bangalore, Kolar, Kadur and Chitaldroog districts.

Coorg.—Rainfall—4 inches 72 cents. Transplanting of rice continues. Prices of food-grains are rising slightly. Water and fodder are ample.

Hyderabad.—Rainfall—1 inch. The monsoon is not satisfactory so far. Autumn sowings have commenced and early rice sowings are in progress in parts. More land is being prepared for cultivation. The young autumn crops are withering in six taluks, while in three taluks of the Raichur district sowings have been suspended owing to insufficient rain. Fodder scarcity exists in twenty-two taluks. Locusts have appeared in five taluks, but have done no damage. Prices—wheat 12½; coarse rice 8½; and *juar* 19½ seers per rupee.

Rajputana.—Rain fell throughout Rajputana during the week except in the Bikaner State. The maximum fall was 7 inches 8 cents in Mewar and the minimum 4 cents in Jaipur, and scattered showers in Kishengarh. Agricultural operations are satisfactory, and ploughing and sowing are in progress. In Jaipur the crops are slightly damaged in parts for want of rain. Except in Jaisalmer agricultural stock is satisfactory, and pasturage or fodder is generally sufficient everywhere. Cut fodder is however reported to be dear in Jaisalmer. Prices are rising in five States, fluctuating in three; falling in three; and are steady in six. The number of workers on test works in Merwara on the last day of the week was 1,501.

Central India.—There was partial rain in Gwalior and Bundelkhand and general rain elsewhere during the week. Sowing is in progress throughout the Agency. Agricultural stock is fair in parts of Gwalior and Bhopal and good elsewhere. Pasturage is indifferent to good. Prices continue high in Bhopal and Baghelkhand; have fallen in Jaora and Rutlam; and are steady elsewhere.

Kashmir.—The weather was hot and dry, except during the last day of the week when it was drizzling. The spring crops are being harvested. Prices are stationary.

Jammu.—There was good rain in Jammu, Bhimber, Kotli, Ranbirsinghpura and Akhnoor tahsils. Prices are fluctuating. Wheat sells from 10 to 23 and maize 24 to 42 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. The recent rain has been beneficial to the standing crops. Autumn sowings are in progress.

Nepal.—(Report not received.)

J. WILSON,

Secretary to the Government of India.

No. 21—34-14.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE (REVENUE).

AGRICULTURE.

Simla, the 11th July, 1905.

RESOLUTION.

The Government of India, having had under consideration the subject of the maintenance of avenues of trees along roadsides in India, communicated to Local Governments and Administrations in March 1904 some observations which may be repeated here. The question, they said, is one of real importance, because of the welcome shade afforded thereby to wayfarers, the substantial addition to the beauties of the landscape, and the mitigation of the discomforts of long journeys by road. The practice of planting avenues of this description was in earlier days as much a feature of British administration as the construction of the roads themselves: and some of the older avenues on the main roads of India still supply the most agreeable of memorials to the taste and prevision of their founders. The practice has nowhere died out: and it is still fairly widely, though intermittently and unmethodically, pursued. In recent years, however, great havoc has been caused in some tracts by the mutilation and cutting down of timber in times of famine; and observation tends to show that these ravages have only been partially repaired. In other parts of the country the importance of the matter appears to have been imperfectly kept in view, and, from the want of a sustained policy, money and effort have been wasted, and in many places avenues formerly in existence have been allowed to disappear or to become disfigured by unsightly blanks.

2. The Government of India have now ascertained from Local Governments the arrangements at present in force in the various provinces for the maintenance of roadside avenues. The opportunity is therefore taken to present a brief summary of the results obtained, the systems adopted, and the improvements in those systems now under contemplation.

In Madras the expenditure on the planting and maintenance of avenues is incurred entirely from Local funds, the actual work being done in some districts by the village agency, and in others by the Local Fund engineering department. The total length of roads in charge of the Local Boards is 27,619 miles, and of these 16,566 miles have been provided with avenues, the total number of trees being almost three millions. During the last ten years the length of avenues has increased by 177 miles, and the number of trees by 260,000; the average annual expenditure has been Rs. 96,000, and the average income Rs. 1,17,000, *i.e.*, actually greater than the expenditure. As a general rule, all important roads in the Presidency have been provided with avenues; wherever a road of importance is constructed, it is supplied with avenues in due course, and the place of a withered tree is usually filled by the planting of a new tree as soon as possible. The Local Government have in contemplation the preparation of a Manual for guidance, and intend to give a preference, where the soil admits of it, to fruit-yielding trees, provided that they afford a suitable measure of shade. They have also urged on Local Boards the advisability of paying greater attention to the matter.

In Bombay no detailed statistics are available, but as a rule there are on the existing provincial roads good avenues of trees in places where the soil is good and water conveniently near. Much however remains to be done where the ground is rocky or poor with water-supply distant. The want of funds has interfered with progress in roadside arboriculture, both on provincial and district roads. The Local Government do not hold out hope of much progress unless funds are provided for the purpose.

In the Central Provinces and Berar the total length of roads is about 6,000 miles, of which 1,200 miles pass through forest country and do not need planting; some 1,100 miles have been provided with avenues, 750 have been partially planted and nearly 3,000 miles are still devoid of trees. During the last ten years the expenditure has averaged Rs. 38,000 a year; but the Public Works grant for arboriculture has already been raised to Rs. 46,000 and the Chief Commissioner proposes to gradually raise it to Rs. 90,000, and to arrange that the District Councils should annually spend Rs. 25,000 on this object. He also proposes to have a general stock-taking and revision of programmes every five years.

In Bengal the duty of planting and maintaining roadside avenues devolves upon the district engineering staff. On two occasions recently the subject has been specially before the Local Government, who in 1901 ordered the preparation of five-yearly working-plans which would enable a survey to be made of the progress effected during each quinquennium. During the last ten years 2,600 miles of road have been planted with trees. The average annual expenditure was Rs. 52,973 and the average income Rs. 13,395. No Manual of Arboriculture has yet been prepared, but it is proposed to undertake the compilation of one when the staff of the Agricultural Department has been strengthened. In the meantime a comprehensive programme for each district will be drawn up on the lines adopted in the Central Provinces, and the Local Government will decide the minimum expenditure to be incurred by each District Board in their execution.

In the United Provinces during the last ten years about 1,300 miles have been added to the length planted, which now amounts to some 8,000 miles; but there are still some 20,000 miles of road of all kinds without avenues. The average expenditure was Rs. 81,000 and the average income Rs. 77,000, so that the next expenditure averaged only Rs. 4,000 per annum for the ten years; and for the last five years there was actually an average surplus of Rs. 6,000. Working-plans have been prepared for most districts; arrangements are being made to appoint and train supervisors; and a new Manual of Arboriculture is ready for issue.

In the Punjab the length of roads suitable for avenues, apart from those managed by the Canal Department, is 15,000 miles, of which 8,000 miles are fully planted. During the last ten years the addition made to the length of avenue is 1,200 miles; the average annual expenditure has been Rs. 2,63,000, and the average income Rs. 1,98,000 (but these figures include the results for groves and plantations as well as avenues). For the Canal roads the corresponding figures are, total length of road or canal 8,000 miles; length planted, 4,100 miles; average expenditure Rs. 1,07,000; average income Rs. 85,000. The Province has a useful Manual of Arboriculture, and detailed instructions have recently been issued for systematising operations, for the preparation of working-plans with maps, and for the training of supervisors.

In the North-West Frontier Province good progress has been made since the formation of the province, 90 miles of new avenues having been planted in the last two years and many gaps filled up. The average expenditure has been Rs. 42,000 and the average income Rs. 9,000. The Chief Commissioner hopes to increase the expenditure and to provide for the training of the staff, and has issued instructions for the preparation of proper working-plans, and called on all his officers to take a personal interest in the planting of avenues and in their careful maintenance. In Baluchistan, owing to the arid character of the climate and the indifference of the people, the progress made has as yet been small, but the Chief Commissioner has urged the importance of the subject upon his officers and has directed them to arrange for the planting of avenues by calling on revenue assignees and persons in receipt of allowances to plant a certain number of trees, and by granting rewards and honours to those who distinguish themselves in this useful work. In Ajmer-Merwara an improved system was introduced a few years ago and the results are encouraging. In Assam and Coorg, owing to the dampness of the climate and the well-wooded nature of the country, the provision of avenues on roadsides is of comparatively little importance.

In Burma a certain amount of attention has been given to the growth of roadside trees in some parts of the Province, but no regular system has hitherto been followed. Though in many tracts the need is not felt, the Local Government admits the desirability of planting shade-giving trees in the barren parts of the province and proposes to take systematic steps towards providing them, by arranging for the preparation of a Manual, by drawing up programmes, by fixing a minimum annual expenditure to be incurred on this object, by training men for the work, and by the publication of a triennial report of the results attained.

3. From the foregoing summary it will be seen that the progress made in recent years has varied greatly in different Provinces, and the general impression produced by the Reports appears in some cases to be in excess of the visible results obtained. The Government of India recognise that owing to differences of soil, climate and administration, the planting of roadside trees cannot be expected to proceed on uniform lines throughout India, and that the progress to be made must primarily depend on the initiative and resources of the local officers and bodies concerned. They are however encouraged by the excellent work which has been accomplished in some Provinces, and by the gratifying readiness which most Local Administrations have shown to adopt such measures as may be necessary to supply existing deficiencies in their treatment of the subject, to lay down for guidance certain general principles suggested by the replies received, upon which action should in future be based in order to ensure the maintenance of a continuous and intelligent line of action throughout the country. The attention of Local Governments is accordingly invited to the following observations.

4. The first and in some respects the greatest difficulty in arranging for an extension of the existing operations is the provision of funds. The Government of India however

are of opinion that the authority responsible for the construction and upkeep of any road, upon which the provision of shade is required for the comfort of wayfarers, should consider it almost as much its duty to maintain along the road a line of shade-giving trees as it is to keep the roadway and bridges in proper order, and should allot its available funds accordingly ; and more especially it should not manage these avenues so as to derive from them a net profit, until all the needs of the roads under its charge in the matter of trees have been supplied. It is noticed, for instance, that in the Punjab during the last ten years the Provincial Public Works Department cleared an annual average net profit of nearly Rs. 4,000 a year upon its arboricultural operations, although it has still to provide over 600 miles of road with avenues. In the United Provinces, during the last five years, these operations have for the whole Province resulted in an average surplus of Rs. 6,000 a year, though there are still 20,000 miles of road unplanted. And in Madras the Local Boards realised an average income of Rs. 21,000 a year from their roadside trees, although they have still 11,000 miles to provide with shade. In other Provinces also there must be many District Boards whose income from roadside avenues is greater than their expenditure. The Government of India are far from discouraging all reasonable measures devised in order to make an income from these avenues, which taken as a whole form a very valuable property. Indeed, they are of opinion that in many cases a much larger income might legitimately be secured by more judicious thinning and the felling and replacing of over-mature trees, while steadily keeping in view the main object, which is to provide a continuous row of healthy shade-giving trees, and more especially such trees as give shade in the hot weather, each having ample room to develop its natural shape, such as may be seen in some of the fine old avenues left to us by the far-sighted officers of an earlier generation. But they would suggest that each authority having roads in its charge not yet provided with avenues should be required to keep a separate account of its income from and expenditure on arboriculture, and, until the needful roadside avenues are completed, to spend on arboriculture a sum at least equal to the income derived from the existing roadside trees. Moreover in considering the provision of funds generally for the purpose, Local Governments should look to the net expenditure, rather than to the gross expenditure, on this object. In this connection it is material to observe that the liberal grant recently made to District Boards from general revenues will enable them to make better provision for all their duties, including arboriculture.

5. In most Provinces the responsibility for roadside trees devolves partly on the Public Works Department and partly on Local Bodies. In either case it is essential that effort should be concentrated and properly directed, and that the work of planting and tending the trees should follow a pre-arranged system. As a general rule provision should first be made for filling up gaps in existing avenues ; next for establishing avenues which have been planted, but in which the trees are not yet beyond the reach of danger from drought or cattle ; and, lastly, for planting new avenues. In taking up new work, preference should be given to those roads which are most frequented and where avenues can be established at the least cost, and no more should be attempted at one time than can be thoroughly established by means of the money and supervision available. Care should be taken that the most suitable kind of tree is chosen, preference being given to fruit-trees, where otherwise suitable, and to trees which will give shade, rather than to trees which merely develop a rapid growth. The character of timber must also be selected with special reference to the dryness or moisture of the soil. In some cases it may be possible to provide means for the watering of trees by the utilisation of neighbouring sources of supply. Local Governments are requested accordingly to see that, where this has not already been arranged for, a clear working-plan, similar to those prepared for Government forests, and accompanied by the necessary maps, is prepared for each district or Public Works division concerned. The working-plans should be passed by some responsible officer, such as the Conservator of Forests, or the Director of Land Records and Agriculture, or, in the case of Government roads, the Superintending Engineer ; and arrangements should be prescribed for ensuring that they are not lost sight of by the Local Bodies or officers concerned. The services of the local Forest officer, where available, might be utilized both in the preparation of working-plans, and in inspecting and advising upon the actual operations. Many cases could be cited in which, when gaps occur in an old avenue, trees of a different and often heterogeneous description have been carelessly introduced in the vacant places, both interrupting the uniformity and spoiling the future appearance of the avenue.

6. In order to provide the executive officers with the necessary administrative and technical information, it is suggested that arrangements should be made in each Province, where the want is not already supplied, to issue a Manual containing in a clear and reasonably concise form the information required, and to publish for the guidance of subordinates a vernacular translation or abstract of this Manual, or leaflets dealing with the particular duties entrusted to them.

7. With a view to secure the continuous action so essential to this class of work it may be found advisable in some provinces to arrange for the general supervision, administrative and financial, of the arboricultural work of Local Boards by some central authority, such as the Conservator of Forests or the Director of Land Records and Agriculture ; and the Government of India, without wishing to lay down any rule on the subject, commend this arrangement to the consideration of Local Governments.

8. The subordinates in direct control of arboricultural work, whether under Local Bodies or under the Public Works Department, should, as far as possible, receive a training of some kind in the technical branches of the subject, either at some Government

garden or at a Forest School or plantation. The Government of India are aware that funds cannot always be forthcoming for the entertainment of full-time officials of the 'Forester' class for arboricultural work, and they also recognize that the success of roadside plantings depends far more on strict supervision than on technical details; but they are at the same time convinced that even a few months' training in the technical part of the work will add to the efficiency of the present controlling staff, and every facility will be given in Forest and Agricultural institutions under the control of the Supreme Government to provide a suitable training for such men as may be sent to them for instruction by Local Bodies or the Public Works Department. It is suggested that such facilities should also be arranged for in similar institutions controlled by Local Governments.

9. Good results have been obtained in some tracts by entrusting certain supplementary work, such as the planting of detached pieces of road or the filling up of blanks in avenues, to village or private agency and paying by results, and in others private enterprise has been stimulated by rewards and by revenue-free grants. The encouragement of private tree-planting by these and other means is, in the opinion of the Government of India, worthy of the special attention of the Local Governments, and they are requested to consider whether anything further can be done in this direction than is effected at present.

10. It is essential that, as far as possible, the sympathies of the neighbouring population should be enlisted in the preservation of the roadside trees. In the case of fruit-trees the produce of which is of little value, the cultivators of the adjoining fields should be allowed to take the fruit on condition that they protect the trees from serious damage. And when a fodder famine is prevalent, judicious arrangements should be made to utilise the edible leaves of trees along roadsides as fodder for the cattle at reasonably cheap rates. This does not mean that the trees themselves should be heedlessly mutilated, or cut down, but that a temporary sacrifice of sylvan amenity may be gladly accepted in the interest of saving valuable animal life.

11. There is one practice that calls for particular deprecation. It is that of lopping or otherwise injuring a beautiful avenue, when preparation are being made for the reception of a high Government official. In the anxiety to make proper arrangements for a party or procession proceeding in carriages, it is not an uncommon thing for the district authorities to cut away all the branches from the roadside trees within a certain distance from the ground, serving thereby no purpose whatsoever, and inflicting damage which it may take years to repair. Officers of Government should maintain a vigilant watch in order to prevent this unthinking and regrettable form of depredation.

12. Finally, as regards the means taken by Local Governments to keep themselves informed of the progress made in roadside arboriculture, the Government of India are content to leave them to prescribe such arrangements as they think best, whether these entail separate annual reports, or a special section of some departmental report. They would suggest however the advisability of reviewing the results attained every five years, and at the same time revising all working-plans, so as to keep them up to date and improve them where necessary.

13. The Governor General in Council believes that if regard is paid to the suggestions above put forward and if due advantage is taken of the recent addition made to the resources of District Boards, the planting and maintenance of roadside avenues in this country will be placed on a far more satisfactory and systematic footing than heretofore. He trusts that in consequence of the renewed attention which may now be expected to be devoted to the subject, the ravages caused by neglect and famine will be gradually but surely repaired, and that the advantages which the present generation has reaped from the energy and foresight of its predecessors will be continued in even fuller measure to posterity.

ESTABLISHMENTS.

Appointment of natives of India to the Imperial Service of the Engineer Branch of the Public Works Department.

Extract paragraphs 1 to 5 from Secretary of State's Despatch No. 74-Public, dated 2nd June 1905.

In my Despatch (Public Works), No. 49, dated 4th October 1900, I informed your Excellency's Government that the number of the appointments in the Engineering Branch of the Public Works Department to be open to natives of India from the Royal Indian Engineering College would not exceed two annually.

2. The question has now been raised whether natives of India will be eligible for such appointment after the Royal Indian Engineering College at Cooper's Hill ceases to supply Engineers and recourse is had solely to the open market.

3. After consideration in Council I have decided that natives of India shall thereafter be eligible, under the regulations issued from year to year in this country, subject to the provision that the total number of natives of India recruited under these Regulations shall not at any one time exceed 10 per cent. of the total number of Engineers thus recruited.

4. The appointments will be confined to men of high qualifications who satisfy all the tests which are usually applied to those who are preparing for the Engineering profession.

5. It was open to natives of India to enter the College last year with a view to obtaining appointment to the Engineering Branch at the end of their course, and the foregoing rule will take effect, therefore, for the first time when Engineers are recruited solely from the open market in 1908.

INDIAN PUBLIC WORKS DEPARTMENT

Recruitment in future years.

The Regulations* which were issued in November 1904 apply only to the appointment of Assistant Engineers to the permanent establishment of the Public Works Department in 1905.

It is, however, the intention of the Secretary of State for India in Council, as at present advised, to recruit the permanent establishment of the department in succeeding years on the same general lines as those laid down in the Regulations referred to.

He is unable to give any undertaking that these Regulations will remain unaltered in the future, but he would suggest that any candidates desiring to enter the Department should make their arrangements on the assumption that the information contained in the existing Regulations affords the safest guidance which they can procure.

To the Degrees named in Appendix I of the Regulations the following have now been added :

Victoria University of Manchester (or Victoria University) : B. SC. (with Honours in Engineering).

University of Liverpool : B. Eng. ; provided the degree is obtained by passing the examinations of the University.

† University of Leeds : B. SC. (with Honours in Engineering), in respect of degrees which may be granted on the results of the examinations in June 1905.

University of Birmingham : B. SC. (Engineering) ; provided the Engineering Matriculation examination be passed on entering upon the course of study.

INDIA OFFICE ;

19th May 1905.

† It is understood that the regulations for the degrees of this University may be modified after June 1905.

SIDNEY PRESTON,
Secretary to the Government of India.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Simla, the 13th July, 1905.

No. 14.—The Governor General is pleased to accept the resignation by the Hon'ble Mr. Harvey Adamson, C.S.I., of his office of Additional Member of the Council of the Governor General for the purpose of making Laws and Regulations.

No. 15.—In exercise of the power conferred by section 10 of the Indian Councils Act, 1861 (24 & 25 Vict., c. 67), and section 1 of the Indian Councils Act, 1892 (55 & 56 Vict., c. 14), the Governor General is pleased to nominate Mr. T. Gordon Walker, C.S.I.,

Officiating Financial Commissioner of the Punjab, to be an Additional Member of the Council of the Governor General for the purpose of making Laws and Regulations.

J. M. MACPHERSON,
Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 13th July, 1905.

No. 672.—The services of Mr. J. A. Ross, of the Indian Civil Service, are placed at the disposal of the Government of the Punjab, with effect from the date of the expiration of his present leave.

MEDICAL.

The 10th July, 1905.

No. 803.—The services of Surgeon-General J. P. Greany, M.D., I.M.S. (Bombay), are placed permanently at the disposal of the Government of Bombay, with effect from the 20th June 1905.

The 12th July, 1905.

No. 806.—Lieutenant-Colonel T. E. L. Bate, C.I.E., I.M.S. (Bengal), Inspector General of Prisons, Punjab, is appointed to be Inspector General of Civil Hospitals, Punjab, with effect from the 12th July 1905.

The 13th July, 1905.

No. 814.—The services of Captain J. G. G. Swan, M.B., I.M.S., are placed temporarily at the disposal of the Government of the Punjab for employment on plague duty, with effect from the forenoon of the 11th June 1905.

No. 121.—The following is published for general information :

No. R. T. 184, dated Simla, the 4th July 1905.

RESOLUTION—By the Railway Board.

General Rules for working railways under construction.

Read—

Sections 3 (4), 16 (2), 47 and 148 (1) of the Indian Railways Act, 1890 (IX of 1890).

Government of India, Public Works Department, Notification No. 480½, dated the 30th October 1890, and the Government of India, Resolution No. 736 R. T., dated the 17th October 1890.

Government of India, Department of Commerce and Industry, Notification No. 801, dated the 24th March 1905.

Letter from the Engineer-in-Chief, Nagda-Muttra State railway, No. 2480, dated the 7th June 1905.

RESOLUTION.—The Engineer-in Chief of the Nagda-Muttra State railway has recommended the adoption on the Southern Section of the Nagda-Muttra State railway of the General Rules for working railways under construction and not used for the public carriage of passengers, animals, or goods which have been promulgated under Public Works Department Resolution No. 736 R. T., dated the 17th October 1890, and published under the Government of India, Public Works Department, Notification No. 480½, dated the 30th October 1890 (*vide the Gazette of India of the 8th November 1890*).

2. In exercise of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, read in the preamble above, the Railway Board are pleased to sanction the application of the General Rules cited in paragraph 1 above, to such portions of the Southern Section of the Nagda-Muttra State railway as are situate in British territory and have been sanctioned for construction.

ORDER.—Ordered that this Resolution be published under a Notification in Part I of the *Gazette of India* ; also that the General Rules cited in paragraph 1—which have already been published in the *Gazette of India*—be further notified to the railway servants concerned and to the public by a copy thereof being kept open to inspection, free of any charge, in the office of the Engineer-in-Chief in charge of the construction of the Nagda-Muttra State railway ; and that this Resolution be communicated to the said Engineer-in-Chief, for information and guidance.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th July, 1905 :

NO. 7 OF 1905.

A Bill further to amend the Indian Articles of War.

WHEREAS it is expedient further to amend the

Indian Articles of War; It is hereby enacted V of 1869.
as follows :

1. This Act may be called the Indian Articles of War (Amendment) Act, 1905.
Short title.

2. In article 4, sub-article (1), clause (b), and Amendment of articles 4 in article 161 of the Indian Articles of War, V of 1869.
and 161 of Indian Articles of War, for the words " division or district " the words " division, district or brigade " shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

UNDER the new distribution of the Army (India Army Order No. 768 of 1904), General and other Officers Commanding Brigades are to have the same powers as were formerly exercised by Officers Commanding Districts.

It is therefore necessary to amend Article 4 (1) (b) and Article 161 of the Indian Articles of War, which confer certain powers on Officers Commanding Districts in order to enable Officers Commanding Brigades to exercise the same powers. It is to effect these amendments that the present Bill has been proposed.

The 10th July, 1905.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULA-
TIONS UNDER THE PROVISIONS OF THE INDIAN COUN-
CILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67,
AND 55 & 56 VICT., CAP. 14).

The Council met at the Viceregal Lodge, Simla, on Friday, the 14th July, 1905.

PRESENT :

His Excellency Baron Curzon, P.C., G.M.S.I., G.M.I.E., Viceroy and Governor General of India, *presiding*.
His Honour Sir Denzil Ibbetson, K.C.S.I., Lieutenant-Governor of the Punjab.
His Excellency General Viscount Kitchener of Khartoum, G.C.B., O.M., G.C.M.G., Commander-in-Chief in India.
The Hon'ble Major-General Sir E. R. Elles, K.C.B., K.C.I.E.
The Hon'ble Sir A. T. Arundel, K.C.S.I.
The Hon'ble Mr. H. Erle Richards, K.C.
The Hon'ble Mr. E. N. Baker, C.S.I.
The Hon'ble Sir C. L. Tupper, K.C.I.E., C.S.I.
The Hon'ble Mr. T. Gordon Walker, C.S.I.

NEW MEMBER.

The Hon'ble MR. GORDON WALKER took his seat as an Additional Member of Council.

COURT-FEES (AMENDMENT) BILL.

The Hon'ble SIR ARUNDEL ARUNDEL moved that the Bill further to amend the Court-fees Act, 1870, be referred to a Select Committee consisting of the Hon'ble Mr. Erle Richards, the Hon'ble Mr. Baker and the mover. He said :—
“My Lord, I introduced this Bill at the meeting of this Council in Calcutta on the 10th March. It has been published in the official Gazettes, and comments

and suggestions, chiefly on minor and technical points, have been received from the Local Governments and the High and Chief Courts. These will be for consideration in Select Committee."

The motion was put and agreed to.

INDIAN ARTICLES OF WAR (AMENDMENT) BILL.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved for leave to introduce a Bill further to amend the Indian Articles of War. He said:—"Under the new distribution of the Army (India Army Order No. 768 of 1904), General and other Officers Commanding Brigades are to have the same powers as were formerly exercised by Officers Commanding Districts.

"It is therefore necessary to amend Article 4 (1) (b) and Article 161 of the Indian Articles of War, which confer certain powers on Officers Commanding Districts in order to enable Officers Commanding Brigades to exercise the same powers. It is to effect these amendments that the present Bill has been proposed."

The motion was put and agreed to.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES introduced the Bill.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in English in the Gazette of India and in the local official Gazettes.

The motion was put and agreed to.

The Council adjourned to Tuesday, the 18th July, 1905.

Simla, the 19th July 1905.

RESOLUTION.

In December 1903 the Government of India in letters to several of the Local Governments, which were published in the Official Gazette, announced their desire to consider the redistribution of certain of the territories of the Eastern and North-Eastern Provinces of India, notably of Bengal and Assam. Their attention had been called to the matter by the constantly accumulating evidence of the excessive and intolerable burden imposed upon the Bengal Government by a charge too great for any one administration, and of the consequent deterioration in the standards of Government, notably in portions of Eastern Bengal. Simultaneously the importance of rendering Assam a self-contained and independent administration with a service of its own, and of providing for its future commercial and industrial expansion, was impressed upon them. These considerations suggested a careful investigation of the circumstances, and surroundings of both provinces, and resulted in the formulation of certain proposals for the readjustment of their territorial boundaries. The criticism which was invited, and which was freely and usefully bestowed upon these proposals, justified substantial alterations in the original plan, and led in the end to the abandonment of that portion of the scheme which contemplated the transfer of certain territories from Madras to Bengal, and of the greater part of Chutia Nagpur from Bengal to the Central Provinces. The Government of India were convinced by the arguments placed before them by the Local Governments concerned that in neither case would the transfer promote the end which they had in view. Reasons of administrative expediency, arising out of the peculiar linguistic and racial conditions and the geographical conformation of Ganjam and the Agency tracts of Vizagapatam, were opposed to the transfer of those areas from the Government of Madras. Commercial considerations were mainly responsible for the continued retention of the British districts of Chutia Nagpur under the Government of Bengal.

2. Two changes only have been decided upon in the territories bordering upon Bengal and the Central Provinces. It was proposed by the Lieutenant-Governor, and accepted by the Chief Commissioner, that the five Native States of Jashpur, Sarguja, Udaipur, Korca, and Chang Bhakhar, at present attached to the Division of Chutia Nagpur, and forming a solid block of territory with a Hindi-speaking population, on the west of the districts of Palamau and Ranchi, should be handed over from Bengal to the Central Provinces, and this proposal has been accepted by the Governor-General in Council. Owing to their physical remoteness these States have not hitherto received as much attention as might be desired ; and it is hoped that their administration will be improved, while the status of the Chiefs will be raised, by their being placed under the Political Agent of Raipur, who is already invested with a similar political charge in the Central Provinces.

3. Both the Local Governments similarly recommended, and the Government of India have agreed, that the Sambalpur District (with the exception of the Chandarpur, Padampur estate and the Phuljhar zamindari) and the five Uriya-speaking States of Patna, Kalahandi or Karond, Sonpur, Bamra, and Rairakhol should be transferred from the Central Provinces to the Orissa Division of Bengal. Linguistic considerations are the main reason for this transfer, which it is confidently believed will be beneficial to the interests of the people. It is in contemplation to protect the interests of the Chiefs affected by appointing a European Political Officer to take charge of the entire group of Uriya-speaking States.

4. These proposals are, however, of minor importance compared with the principal changes to which the Secretary of State has given his sanction, and which involve the creation of a new administration of the first class out of certain divisions of Bengal, together with the territories at present administered by the Chief Commissioner of Assam. In their original form these suggestions arose from a proposal which had already on a previous occasion been under the consideration of the Government of India and had then only been postponed by them, namely, to incorporate the Chittagong Division with Assam. It was proposed in the letters of December 1903 to include the districts of Dacca and Mymensingh also, for reasons which were then stated, and which it is not necessary now to repeat. The discussion which was elicited by these suggestions indicated to the Government of India that, large as were their proposals, they were not large enough if satisfaction were to be given to the feelings of those who were alarmed at the possible deprivation of privileges which they had for long enjoyed and to which they attached a not unnatural value. These feelings attracted the earnest attention of the Government of India ; and in February 1904 His Excellency the Viceroy, in a series of speeches delivered in reply to public addresses at Chittagong, Dacca, and Mymensingh, foreshadowed the willingness of Government to consider a wider scheme involving the creation of a Lieutenant-Governorship with a Legislative Council and an independent Revenue authority and the transfer of so much territory as would be required to justify the institution of so highly organised and fully equipped an administration.

5. From that date the efforts of Government were principally directed to a discussion of the areas that could most advantageously be assigned to the new province, and to an examination of the safeguards that were required to secure the legitimate interests of their inhabitants. A scheme was submitted by the Lieutenant-Governor of Bengal for the amalgamation with Assam of the Chittagong and Dacca Divisions, and the districts of Pabna, Bogra, and Rangpur. This proposal did not seem to the Government of India to be proportionate to the scope of the important administration which it was now contemplated to create, nor would it have given to Bengal, whose population would still have exceeded 59 millions, the permanent relief that ought to ensue from an adequate reduction of its existing area and responsibilities. Accordingly it was proposed to increase the transferred area by the districts of Rajshahi, Dinajpur, Jalpaiguri, Malda, and the State of Cooch Behar. These additions were thought by the Government of

India to be justified on the grounds that they would constitute a new province with a population of over 31 millions, while leaving Bengal with a little more than 54 millions; that they would provide a clearly defined western boundary corresponding with well-recognised characteristics, both geographical, ethnological, social, and linguistic; that they would concentrate in a single province the typical Muhammadan population of Bengal, for whom Dacca would furnish a natural capital; that the whole of the tea industry (with the exception of the Darjeeling gardens), and the greater part of the jute tracts, would thus be brought under a single Government, and that long-established divisional areas would thereby remain undisturbed.

6. The enlarged scheme was cordially accepted by the Governments both of Bengal and Assam. The Lieutenant-Governor reported that he had discussed the proposal with the Members of the Board of Revenue and with his most senior officers, and had found that with scarcely an exception there was complete unanimity in accepting it. The Chief Commissioner of Assam attached great value to the future association under a single Government of the tea-growing areas supplied by free labour with those worked by indentured labour, and thought that the gradual substitution of natural for artificial methods of recruitment would be accelerated. He also proposed the creation of a new Commissionership out of the Surma Valley Districts and Manipur, at present under his own direct control. This suggestion was accepted by the Government of India, and will raise the number of Commissionerships in the new province to five.

7. The effect of the proposals thus agreed upon, and now about to be introduced, will be as follows:—A new province will be created, with the status of a Lieutenant-Governorship, consisting of the Chittagong, Dacca, and Rajshahi Divisions of Bengal, the district of Malda, the State of Hill Tipperah, and the present Chief Commissionership of Assam. Darjeeling will remain with Bengal. In order to maintain associations, which are highly valued in both areas, the province will be entitled Eastern Bengal and Assam. Its capital will be at Dacca, with subsidiary head-quarters at Chittagong. It will comprise an area of 106,540 square miles and a population of 31 millions, of whom 18 millions are Muhammadans and 12 millions Hindus. It will possess a Legislative Council, and a Board of Revenue of two Members, and the jurisdiction of the High Court of Calcutta is left undisturbed. The existing province of Bengal, diminished by the surrender of these large territories on the east and of the five Hindi States of Chutia Nagpur, but increased by the acquisition of Sambalpur and the five Uriya States before mentioned, will consist of 141,580 square miles with a population of 54 millions, of whom 42 millions are Hindus and 9 millions Muhammadans. In short, the territories now composing Bengal and Assam will be divided into two compact and self-contained provinces, by far the largest constituents of each of which will be homogeneous in character, and which will possess clearly defined boundaries and be equipped with the complete resources of an advanced administration.

8. The Governor-General in Council is fully aware of the opposition which these proposals have encountered, and has no desire to undervalue the sentiments upon which it has been based. Ties of mutual association grow up so quickly and become so closely interlaced, that territorial redistribution can rarely be accomplished except at the cost of a disruption which is often painful and generally unpopular. On the other hand, when old connections are severed new ones almost immediately take their place, growing with a rapidity that in a very short time is found to invest them with a sanctity scarcely inferior to that of the associations which they have superseded.

9. The Government of India are encouraged by previous experience to hope that such will be the case in the present instance. They will be greatly disappointed if there are not found in the new province elements of cohesion which will speedily endow it with a stability and individuality of its own. In any case the Government that is called upon to decide such cases must regard them from a wider standpoint than that of purely local, and in all probability

transient, considerations. They are bound to keep in view the interests of the Government and of the people as a whole. If they are convinced that owing to arrangements, devised for a different state of affairs and now obsolete, the administration suffers, if they see one Government weighed down with a burden which it cannot properly discharge, and another Government shut out from the development that ought naturally to await it, they cannot permanently remain indifferent to the situation thus produced. Either a remedy must be sought, or the responsibility for a conscious neglect of duty is incurred.

10. Upon two conditions, however, the community has a claim to insist. The first is that the solution ultimately approved shall not be arrived at in haste or until all available alternatives have been fully considered, and its superiority over them conclusively established. This procedure has been followed in the present case. It is now more than 18 months since the first proposals of the Government of India were officially published. In the interval they have been the subject of wide-spread and searching criticism at the hands of those who were directly or indirectly concerned. Representations from an immense number of public bodies or gatherings have reached the Government. These have in every case been attentively examined: many of them have not been without effect upon the course adopted: and the very last charge that could with justice be brought against the Government would be one of undue speed in arriving at a final decision. In the course of this prolonged study of the case, the various suggestions that have at different times been put forward for the relief of Bengal have been exhaustively examined. The idea of creating a new Commissionership or Chief Commissionership out of portions of the Province, the separation from Bengal of smaller areas than those ultimately selected, the transfer of sufficient territory to the Central Provinces to convert the latter administration into a Lieutenant-Governorship, the substitution of administration in Bengal by a Lieutenant-Governor and Council for administration by a Lieutenant-Governor alone—all of these have been duly considered and have not been rejected until they were found to contain flaws or drawbacks which were inconsistent with the essential aim. On the other hand, the scheme which was preferred to them has received the practically unanimous approval of the leading officials of the three administrations whom it directly affects, as well as the final sanction of the Secretary of State.

11. The second condition above referred to is that, as far as possible, an attempt should be made to remove every well-grounded cause of complaint and to satisfy every reasonable demand on the part of those who will be personally affected by the new arrangement. The Government of India have endeavoured throughout to act in accordance with this principle, and to it the majority of the modifications in the original plan are due. The grant to the new province of a Legislative Council and a Board of Revenue, and the retention of the jurisdiction of the High Court are instances of this desire; and the Governor General in Council can confidently state that there is no guarantee for the good government of the transferred populations which he has not been willing, if its merits were satisfactorily demonstrated, to adopt.

12. The result is the creation of a new province, founded upon that which is the secret of all good administration, namely, the close contact—in so far as this is possible in areas of great size—of the governors with the governed. The welfare of the people will be more vigilantly safeguarded, and larger opportunities will open up before the educated classes, when they are the nucleus of a powerful and self-contained administration exclusively devoted to their interests, than when they have been either the appendage of an overgrown and overworked province or the constituents of a relatively backward and arrested organisation. The change may be expected to raise the administrative standards and to revive no small portion of the former prosperity of Eastern Bengal. It will communicate a much desired impetus to the hitherto retarded development of Assam.

13. The Governor-General in Council, in directing that the necessary measures shall now be taken to introduce the scheme, looks forward to the day, as

not far distant, when not merely will the new province of Eastern Bengal and Assam have amply vindicated its creation, as an administrative reform of the first importance, but when it will have acquired a character and influence not inferior to those of any of the older Indian provinces, and will have attracted to itself the spontaneous and devoted loyalty of its sons.

ORDER.—Ordered that a copy of this Resolution be forwarded to all local Governments and Administrations and to the several Departments of the Government of India, for information.

Ordered also that the Resolution be published in the *Gazette of India* for general information.

CALCUTTA, SATURDAY, JULY 22, 1905.

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

No. 3961-A.

Calcutta, the 22nd July 1905.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow four hundred lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December ; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 4,00,00,000 will be received by the Comptroller General from this date to noon of Wednesday, the 2nd August next. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, and Lahore, on account of the Comptroller General, Calcutta, on the 1st August, and up to the local time corresponding to 12 o'clock in Calcutta on the 2nd August ; provided that—

- (a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them),
- (b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank ;

- (c) each tender is for not less than Rs. 10,000;
- (d) the deposit is either a promissory note or a Treasury Receipt from the local Office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;
- (e) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad or Lahore, as the case may be) or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, or Lahore.

NOTE (2).—Tenders made in accordance with these instructions will also be received at all Head and Sub-Post Offices up to a date to be notified at each Post Office. The date will vary according to the distance of the Post Office from Calcutta and will in no case be later than the forenoon of the 31st July. The following conditions must be complied with:

- (a) the tenders must be delivered personally or by messenger at the Post Office, where a receipt will be given for them;
- (b) they must be made on printed forms, to be obtained at the Post Office;
- (c) each tender must be for not less than Rs. 100 and not more than Rs. 2,000;
- (d) the deposit must be a receipt for the amount (which may not exceed Rs. 40 for each tender) from the Post Master of the Post Office at which the tender is made;
- (e) the amount of the tender must be made payable either at the Head Post Office of tender (whether the tender was made at the Head Post Office or at one of its Sub-Offices) or in Calcutta. In the case, however, of a tender made at a Post Office in Calcutta, the amount of the tender must be made payable only at the Bank of Bengal.

The tenders will be transmitted by post by the Post Master to the Comptroller General so as to reach him before 11 A.M. on Wednesday, the 2nd August. The Comptroller General will deal with them as if they had been made direct to him, returning deposits on non-accepted tenders through the Post Master.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, or Lahore, or (c) Government Promissory Notes¹ standing in the name of, or endorsed to, the tenderer or the person making the deposit. In the case of tenders made at Post Offices under note (2) to clause 4, the deposit must be a receipt for the amount from the Post Master of the Post Office at which the tender is made.

¹ It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are

opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Wednesday, the 2nd August next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, and Lahore at the local time corresponding to noon Calcutta time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General¹ as soon as possible after the 2nd August and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad and Lahore.

¹ For tenders received by the Accountant General at Madras, Bombay, Allahabad, or Lahore, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (a)] will be made payable upon the 4th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

Instalment I.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 14th August:

Instalment II.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 1st September:

Instalment III.—The balance payable upon the 2nd October:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by encasement upon the relative certificate. In the case of accepted tenders which were made at Post Offices other than Post Offices in Calcutta under note (2) to clause 4, payment of

allotment-certificates may also be made at the Head Post Office of tender, and the Head Post Master will give a receipt for such payment by enfacement upon the relative allotment-certificate.

Issue of Promissory Notes.

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1905, and he will also receive interest at $3\frac{1}{2}$ per cent. per annum from the dates on which he may have made payment till the 30th December 1905.

(b) Or he may, at his option, by paying interest at the said rate from 30th June 1905 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1905.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the

Promissory Note
No.

Government Rupees

at $3\frac{1}{2}$ per cent.
of 1900-01.

The Governor General of India in Council does hereby acknowledge to have received from the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan by paying the said sum of Government Rupees One Hundred only to the said his Executors, or Administrators, or his or their Order, on demand, at the General Treasury at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this Note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, *A.B.*, hereby tender for Rupees (X) of *The Three-and-a-half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 22nd July 1905, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) Annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt* * for Rupees (XX), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of †*

* Or Cheque or Government Promissory Note.
† Here enter the name of Bank, Branch Bank, or Treasury.

† Here enter the name of Head Post Office at which payment may be desired under clause 15 of the Notification.

(or at the †
of the Bank of †
Treasury at †
Head Post Office at †
may be) — *Branch*
; or into the Public
; or into the
as the case

The first instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 14th August 1905.

The second instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 4th September 1905.

The balance on or before the 2nd October 1905.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 4th September 1905.

* Here insert C. D.'s address which must be in India. This paragraph should only be inserted if A. B. does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

Any allotment made to me may be communicated to C. D. at *

NOTE.—(1) A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount thus "One hundred and two" or "One hundred" or "Ninety-nine"; not "Two per cent. premium" or "Par" or "One per cent. discount."

By order of the Governor General in Council,

W. S. MEYER,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries, and to Head and Sub-Post Offices in India.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay, Allahabad, and Lahore will do likewise in respect of tenders presented to them under note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Tenders made at Post Offices.

(6) Tenders made at Post Offices under note (2) to clause 4 of the Government Notification will be acknowledged by the Post Master or Sub-Post Master concerned in prescribed forms of receipt, and in case of non-acceptance of the tenders, the deposits will be returned to the tenderer or his agent personally on the surrender of the receipt given for the deposit.

Accepted Tenders.

(7) The Comptroller General and the Accountant General at Madras, Bombay, Allahabad, or Lahore (in the case of tenders received by such Accountant General and payable in

Madras, Bombay, Allahabad, or Lahore), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

This is to certify that, in accordance with the terms of Notification No. 3961-A, dated the 22nd July 1905 (Gazette of India, Extraordinary, dated the 22nd July 1905), the above named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from

A. F. COX,
Comptroller and Auditor General.

CALCUTTA;
The 22nd July 1905.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JULY 22, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 20th July 1905.

NOTIFICATIONS.

No. 2745 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 15th July 1905 :—

- No. 322 of 1905.—Mahomed Abdul Kuddus Badsha Sahib, a member of the firm of Messrs. Hajee Mahomed Badsha Sahib & Co., merchants, mica and diamond miners, of No. 16 North Line Beach, Madras. *Manufacture of collapsible mica lamp domes.*
- No. 323 of 1905.—Mahomed Abdul Kuddus Badsha Sahib, a member of the firm of Messrs. Hajee Mahomed Badsha Sahib & Co., merchants, mica and diamond miners, of No. 16 North Line Beach, in the town of Madras. *Manufacture of mica lamp domes specially constructed to be used with any kind of hanging lamp such as hull lamps and particularly with railway station lamps.*
- No. 324 of 1905.—Frederick Hugh Smith, engineer, of Home Works, Datchet, in the county of Buckingham, England. *Improvements in and relating to governors for internal combustion engines.*
- No. 325 of 1905.—James Holden, engineer, of Hermon House, Wanstead, in the county of Essex, England. *Improvements in stays for steam and other boilers.*
- No. 326 of 1905.—Georg Kirkegaard and Fridtjof Jebesen, mechanical engineers, of the Borough of Brooklyn, city and state of New York, United States of America. *Bottle stoppers.*
- No. 327 of 1905.—Society Jules Jean & Co., produced by its manager Jules Jean, chemist, 18 rue de Mogador, Paris, France, and Georges Ravcrat, industrial, 18 rue de Mogador, Paris, France. *A process for condensing the vapours of volatile solvents, either pure or mixed with other gases or vapours, air, aqueous vapour, and so forth.*
- No. 328 of 1905.—Willibald Liedke and Otto Rabenhorst, engineers, both of Charlottenburg, near Berlin, in the empire of Germany. *Improvements in or relating to incandescent vapour lamps.*
- No. 329 of 1905.—Gulam Hyder Gunmaker, electrician and mechanic, having his place of business at 387 Bhindi Bazar, Bombay. *An apparatus for generating carbonic acid gas and aerating beverages.*
- No. 330 of 1905.—John Parker, civil engineer, of 49 Denmark Villas, Hove, Sussex, England. *An improved material for use in making and repairing roadways and the like, and a process of manufacturing same.*
- No. 331 of 1905.—Sidney Prescott Wood, engineer, and McKenzie and Holland, Limited, railway signal engineers, both of Vulcan Iron Works, Worcester, in the county of Worcester, England. *Improvements in electric treadles or contact makers for railway signalling and the like.*
- No. 332 of 1905.—Charles Dutton, engineer, of Tolladine road, Worcester, Courtenay Harold Wish Edmonds, engineer, of Albert road, Worcester, and McKenzie and Holland, Limited, railway signal engineers, of Vulcan Iron Works, Worcester, all in the county of Worcester, England. *Improvements in or relating to railway point and signal apparatus and the like.*
- No. 333 of 1905.—Dr. Karl Geiser, librarian, of 15 Murtenstrasse, and Hans Kehrli, manufacturer, 5 Rosenweg, both in Berne, in the Republic of Switzerland. *Improved composition for inking-rollers or flexible printing-rollers.*
- No. 334 of 1905.—The Morgan Crucible Company, Limited, manufacturers, of Battersea Works, Battersea, London, England. *An improved manufacture of composition or compound for brushes of dynamo-electric machines, for bearings, and for other articles.*

No. 335 of 1905.—Richard John Thomas, engineer, of Mossman, in the state of Queensland, Commonwealth of Australia, and William Francis Seymour Howe, analytical chemist, of Mossman, aforesaid. *Improvements in the defecation or clarifying of juices in the manufacture of sugar.*

No. 336 of 1905.—William Henry Drury, lawyer, of Waltham, in the county of Middlesex, and state of Massachusetts, United States of America. *An improved woven fabric.*

No. 2746 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies* have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 355 of 1904.—B. L. Ghose, carrying on business under the name of B. L. Ghose & Co., mechanical engineers, brass founders, gas fitters, sanitary plumbers, etc., of No. 146 Cornwallis street, in the town of Calcutta. *Ball valve with cocoanut ball which is a model self-closing and opening apparatus for supplying water in tanks and cisterns.* (Specification filed 19 June 1905.)

No. 496 of 1904.—Edgar Arthur Quarrie, civil engineer, mill wright and planter, at present residing at 63 Ripon street, in the town of Calcutta, in the province of Bengal, in British India. *The preservation of the aroma of teas to be called "The Aroma Perfector."* (Specification filed 2 June 1905.)

No. 521 of 1904.—Walter George Crosthwaite, woollen manufacturer, of York Street Mills, York street, Leeds, in the county of York, England. *Improvements in or relating to the furnaces of steam boilers and the like.* (Specification filed 7 July 1905.)

No. 523 of 1904.—Hugo Fischer von Roslerstamm, managing director of the works of the Nesseltdorfer Wagenbau Fabriks Gesellschaft (vormals k. k. priv. Wagen-Fabrik Schustala & Co) of Nesseltdorf, in the province of Moravia, Empire of Austria. *Improvements in vehicles for transporting sick or wounded persons.* (Specification filed 7 July 1905.)

No. 536 of 1904.—Hugh Glass Watson, manager, of 16 Canal street, Coatbridge, Lanarkshire, Scotland, and John Cummock, Junior, chemist, of 109 Sinclair Drive, Langside, Glasgow, Scotland. *Improvements in the method of and means for manufacturing aerated or carbonated liquids.* (Specification filed 7 July 1905.)

No. 542 of 1904.—Carl Olof Lundholm, works manager, of Nobel House, Stevenston, Scotland. *Improvements in explosives.* (Specification filed 7 July 1905.)

No. 26 of 1905.—The Cyani de Vacuum Filter Company, Limited, manufacturers, of 137, 138 and 145 Suffolk House, Laurence Pountney Hill, London, England. *Improved apparatus for the separation of liquids from solids, particularly applicable to the extraction of metals from their ores.* (Specification filed 7 July 1905.)

No. 120 of 1905.—Cosmo Kendall, mining engineer, of Abbotsleigh, Church road, Upper Norwood, in the county of Surrey, England. *Improvements in or pertaining to the separation of graphitic substance from associated rocky matter or gangue.* (Specification filed 12 July 1905.)

No. 123 of 1905.—Noor Din, Sheraj Din, gunsmiths, Lahore city, and William Henry Privett, retired Inspector of Police, also of Lahore. *Facilitating the working of Persian wheels in drawing water from wells.* (Specification filed 7 July 1905.)

No. 147 of 1905.—W. F. Stuart Menteth, civil engineer, of Calcutta, but at present residing at Rownham's Mount Nursling, in the county of Southampton, England. *Improvements relating to bacteriological treatment of sewage particularly with reference to septic tank latrine installations.* (Specification filed 30 June 1905.)

No. 151 of 1905.—Francis Gascoigne Lynde, civil engineer, residing at Bourn End House, Bletsoe, in the county of Bedford, England. *An improved bib cock.* (Specification filed 12 July 1905.)

- No. 199 of 1905.—Jacques Ancel, mechanician, of 12 Rue Cail, Paris, France. *An improved crushing and pulverising machine.* (Specification filed 12 July 1905.)
- No. 265 of 1905.—Donald Murray, telegraph engineer, of 3 Lombard Court, London, E. C., England. *Improved automatic telegraph transmitter.* (Specification filed 10 July 1905.)

No. 2747 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 386 of 1895.—Jules Lemichel. *Improvements in or connected with apparatus for raising liquids.* (From 13 July 1905 to 13 July 1906.)
- No. 357 of 1896.—Andrew Campbell and James Urie. *Apparatus for filling oil tins.* (From 20 July 1905 to 20 July 1906.)
- No. 440 of 1898.—William Henry Drury. *Improvements in the manufacture of yarns and apparatus therefor.* (From 1 September 1905 to 1 September 1906.)
- No. 441 of 1898.—William Henry Drury. *Improvements in machinery for the manufacture of yarns from fibrous materials.* (From 1 September 1905 to 1 September 1906.)
- No. 166 of 1899.—Samuel Beran. *Improvements in carding engines.* (From 24 August 1905 to 24 August 1906.)
- No. 145 of 1900.—The Pneumatic Railway Signal Company. *Improvements in railway switch and semaphore apparatus.* (From 3 August 1905 to 3 August 1906.)
- No. 390 of 1900.—William Chapman. *Improvements relating to electric railways.* (From 21 December 1905 to 21 December 1906.)
- No. 275 of 1901.—Frank Lemont Dodgson. *Improvements in pneumatic railway signalling.* (From 10 January 1906 to 10 January 1907.)
- No. 296 of 1901.—George Crocker Smith. *New or improved grip or fastening apparatus for the windows and louvres of railway carriages, tram cars, and other vehicles, also applicable to doors, drawers, gates and the like.* (From 19 December 1905 to 19 December 1906.)

No. 2748 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 192 of 1900.—Edward Joseph DeCourcy and Robert Crawford. *Improvements in machinery for breaking or scutching flax.* (Specification filed 10 April 1901.)
- No. 193 of 1900.—Edward Joseph DeCourcy and Robert Crawford. *Improvements in machinery for scutching and cleaning flax.* (Specification filed 10 April 1901.)
- No. 325 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements relating to systems of alternating current electrical distribution.* (Specification filed 10 April 1901.)
- No. 326 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in systems of electrical distribution.* (Specification filed 10 April 1901.)
- No. 13 of 1901.—Joseph Arthur Wade. *An improved combination hand tool suitable for use as a ratchet brace, lifting appliance and partly applicable as a spanner.* (Specification filed 11 April 1901.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for each of the above inventions.

No. 482 of 1898.—Uriah Dudley. *Improvements in clips or binders.* (Specification filed 11 April 1899.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs 50 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not " designs " within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

Calcutta, the 18th July 1905.

W. D. CRUICKSHANK,
Secretary and Treasurer.

Balance against India 339 "

THE HON'BLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.**NOTIFICATION.**

Dated Abu, the 11th July 1905.

No. 744—695.—The following rules issued under the Ajmer Land and Revenue Regulation, II of 1877, are republished as required by section 113 of that Regulation:—

The rules made by the Chief Commissioner under sections 73 and 110 of the Regulation and published under his Notification No. 110—695, dated the 6th February 1889, as corrected up to the 1st July 1905.

UNDER SECTION 73.**Payment of Revenue.**

1. The revenue shall ordinarily be paid at the head-quarters of the Tehsil to the Tehsildar, or such subordinate as he, with the sanction of the Collector, may appoint to receive it. With the permission of the Collector the revenue may be paid direct into the head Treasury.

2. The instalments of revenue shall be paid on the dates fixed at settlement, namely, 1st January and 15th June in each year.

3. All money paid into the Tehsil shall be accompanied by an arz-irsal. The arz-irsal shall first be taken to the Wasilbakinavis, who shall, after verifying the correctness of the payment, endorse it for payment to the Tahvildar (Treasurer).

4. No native officer other than the Tahvildar (Treasurer) shall on any account receive or keep any public money whatever.

5. In all cases in which land revenue and cesses are due, the sum paid shall first be credited to cesses and the balance, if any, to land revenue.

6. On receipt of the arz-irsal endorsed by the Wasilbakinavis, the Tahvildar shall take the money, and enter the payment in his own siaha, and endorsing the arz-irsal with his receipt, pass it to the Siahanavis.

7. The Siahanavis shall, on the authority of the Tahvildar's receipt, enter the sum as paid in his siaha, and shall draw out the dakhila or receipt, which, after having been duly signed by the Tahvildar and the Tehsildar, or other officer in charge of the Tehsil, shall be given to the payer.

8. Information of the credit shall then be given to the Wasilbakinavis, who shall note the same in his khatauni (ledger), initialling the siaha to show that he has done so.

9. The dakhila bahis shall be kept in printed counterfoil registers, each book containing one hundred duplicates bound up and pagged.

10. At the end of each day, and before the siaha is sent to the head office, the Wasilbakinavis and the Siahanavis shall compare the siaha with the khatauni, item by item, and the Wasilbakinavis shall number each item in the khatauni with the number borne by such item in the siaha. The Siahanavis and the Tahvildar shall then compare the totals of their siahas, and at once bring to the notice of the Tehsildar, or officer in charge of the Tehsil, any discrepancy they may discover. The dakhila bahi shall then be compared with the siaha by the Wasilbakinavis and the Siahanavis.

11. To each arz-irsal a serial number shall be given, according to the order in which the money is credited in the Tahvildar's roznamcha or daily ledger. The series of these numbers shall commence daily, and the Tahvildar shall number each irsal before passing it to the Siahanavis. The same numbering shall be shown in the daily siaha, in the Wasilbakinavis' khatauni, in the dakhila, and in the record of any payments kept up for special departments.

UNDER SECTION 110 (a).**Assessment of Land Revenue—Lands variably assessed.**

12. Of land variably assessed to revenue there shall be two classes:—

Class I.—The portions of villages lying in the beds of certain tanks which are liable to submergence, and which have been demarcated by the Settlement Officer.

Class II.—Whole villages in which a standard revenue has been assessed on a standard cultivated area by the Settlement Officer.

13. In lands of Class I, the cultivation of each harvest shall be recorded and measured up. The revenue due shall be found by applying to the cultivated area the rate or rates fixed by the Settlement Officer at settlement.

14. In variably assessed villages, Class II, the assessment shall be made by the standard rate assessed at settlement on the cultivated area. This standard rate is the rate for dry cultivation, and to it, as a basis, all other rates in the village must be referred

The other rates are all multiples of the dry rate, and to find the dry unit area, the area under each class of cultivation (chahi, talabi, abi, and dry) must be multiplied by the multiple of its own class.

(NOTE.—When the area actually cultivated exceeds the standard area, the excess of the demand over the standard revenue will be credited to Government. When such area falls below the standard area, the difference between the standard revenue and the amount actually demanded will be remitted.)

15. The area to be assessed shall comprise all cultivation except that of "muafi" and "bhum" lands.

16. The record of measurements for purposes of assessment shall give the necessary details, or—

- (1) Lands assessable at well (chahi) rates.
- (2) Ditto at tank (talabi) rates.
- (3) Ditto at wet (abi) rates.
- (4) Ditto at dry rates.

17. The assessments shall be made under the superintendence and orders of the Collector.

18. The following general rules shall be observed:—

- (a) Lands irrigated from a well, existing as such at Mr. La Touche's settlement, shall be liable to assessment at well (chahi) rates.
- (b) Lands irrigated from a village tank or nadi, existing as such at Mr. La Touche's settlement, shall be liable to assessment at the same rate as lands assessed as irrigated from such tank or nadi.
- (c) Lands cultivated in the beds of village tanks or nadis, existing as such at Mr. La Touche's settlement, shall be liable to assessment at abi rates.
- (d) Lands irrigated from a well or village tank or nadi, not existing as such at Mr. La Touche's settlement, or lying in the bed of such village tank or nadi and cultivated, shall be assessed as dry.
- (e) Lands assessed at settlement as irrigated or as "abi," but growing dry crops only, shall be assessed as dry.

Explanation.—Irrigated includes irrigation from wells, village tanks, and nadis referred to in clauses (a) and (b), but does not include irrigation from variably or permanently assessed tanks.

- (f) Lands assessed as irrigated from a permanently assessed tank shall pay full "talabi" rates, whether irrigated or not.
- (g) Lands assessed as irrigated from a variably assessed tank shall pay "talabi" rates under the rules in force for such tanks.
- (h) Lands irrigated from any stream that feeds or issues from any Government tank that has been permanently assessed, or feeds or issues from any such village tank or nadi as is referred to in clause (b), shall be liable to assessment at "talabi" rates.
- (i) In the case of lands irrigated from different sources in the same harvest, the rate shall be regulated by the source supplying the greatest number of waterings, or where that number is equal, by the source assessable at the highest rate.
- (j) Double-cropped dry lands assessed as such shall only pay the assessment for one harvest.
- ~~(k) Lands growing dry crops or crops assessed as dry in the autumn (kharif) harvest shall pay the dry rate only, and if such lands become liable to assessment as irrigated for the spring (rabi) harvest, the rate for this latter shall be the full irrigated minus the amount collected on account of the autumn harvest. Similarly, lands paying full irrigated rates for the autumn harvest, and growing dry crops or crops assessed as dry in the spring harvest, shall not be liable to assessment for the latter.~~
- (l) Lands paying a higher rate for their position under a variably assessed tank shall be assessed at this higher rate, if cultivated, even though not irrigated during that harvest.
- (m) Lands growing fodder crops for cattle in the hot weather shall not be liable to assessment, and in no case shall lucerne grass grown under wells pay more than a single rate for the whole year. Under each well and cultivated with lucerne grass shall, to the extent of one bigha, be assessed at dry rates only.

Land under lucerne grass in excess of that area shall be assessed at the usual rate.

19. When the total demand of a village for the harvest has been found, the amount payable by each sharer will be found by multiplying the standard rate into the area of his cultivation as shown in the "khatauni."

20. The Commissioner may declare that in any particular village the crop on unirrigated land has been only a three-quarter crop, or half crop, or quarter crop, or *nil*, and may reduce the assessment on such land accordingly. If the crop on such land has only produced the amount of grain required for seed grain, it shall not be assessed.

21. When the actual assessable cultivated area has been found by the above rules, the assessment shall be made in the manner indicated in Rule 14.

Example.—At the time of settlement, the Settlement Officer determined that the assessable area of a village ordinarily cultivated was :—

	Acre.	Rate of assessment per acre.	Total assessment.
		<i>R a. p.</i>	<i>R a. p.</i>
Dry	124	0 10 0	77 8 0
Abi	40	1 9 0	62 8 0
Tank	8	2 13 0	22 8 0
Well	50	3 12 0	187 8 0
TOTAL	222	...	350 0 0

This area is reduced to a multiple of dry units in the following manner :—

The abi rate of *R*1-9 the acre is $2\frac{1}{2}$ times the dry rate.
 The tank rate of *R*2-13 the acre is $4\frac{1}{2}$ times the dry rate.
 The well rate of *R*3-12 the acre is 6 times the dry rate.

The area in terms of dry units will therefore be :—

Dry	$124 \times 1 = 124$ acres.
Abi	$40 \times 2\frac{1}{2} = 100$ „
Tank	$8 \times 4\frac{1}{2} = 36$ „
Well	$50 \times 6 = 300$ „
TOTAL	560 „

This 560 acres is called the standard dry unit area, and when multiplied by the dry rate of 10 annas gives the standard revenue of *R*350.

22. An English register in the following form (No. I) shall be kept up in the Collector's Office, and an opening of two pages shall be assigned to each variably assessed village. In the register the assessment of each harvest shall be recorded.

23. In the column of remarks of the above register, a brief note of any of the remarkable events of the year as affecting the revenue history of the village shall be entered.

24. In villages variably assessed, the Lumberdars' fees shall be five per cent. on the amount actually collected by them, and all the cesses shall be calculated on the annual demand.

25. With his annual Revenue Report, the Collector shall submit three statements in the forms (Nos. II, III, and IV) given below :—

Statement No. I (Form II) refers to the assessment of variably assessed beds of tanks. It shall be prepared separately for each harvest and submitted whether any assessments have been made or not.

Statement No. II (Form III) refers to the assessment of variably assessed villages in the autumn (kharif) harvest.

Statement No. III (Form IV) refers to the assessment of variably assessed villages in the spring (rabi) harvest.

UNDER SECTION 110 (c).

Appointment and removal of village headmen and Patels.

26. The number of Lambardars and Patels, as fixed at Mr. Whiteway's settlement, shall not be altered except by order of the Commissioner.

27. The appointment of Lambardars and Patels shall be made by the Collector after a summary inquiry as to the right of succession in accordance with local custom as recorded in the Wajib-ul-urz. Provided that where no record of such custom exists, the candidate supported by the largest number of those sharers who would have to pay through him shall, if not otherwise disqualified, be elected.

28. The Collector shall notify in the village the name of the person whom he proposes to appoint, or who shall have been elected, as the case may be, as Lambardar or Patel, and shall call on the Khewatdars concerned to state their objections, if any, within the space of one month.

29. No minor or female shall, except for special reasons, be appointed where by the custom of the village another sharer is eligible, and if appointed an adult male agent shall be nominated to represent the minor or female.

30. Subject to appeal to the Commissioner, the Collector may refuse to appoint any person as Lambardar or Patel, or may remove from his appointment any Lambardar or Patel, on any of the following grounds:—

- (a) That he is not a sharer in the village.
- (b) That his share in the village is heavily burdened with mortgages or other encumbrances.
- (c) That he is not in possession of his share in the village.
- (d) That he is incompetent to perform the duties of the office.
- (e) That he has been convicted of an offence which, in the opinion of the Collector, disqualifies him for holding the appointment, or that he is of notoriously bad character.

31. A Lambardar or Patel may be fined by the Collector for neglect of duty, whether such neglect arises from not carrying out orders, or from disobeying any rules laid down for his guidance, or from wilful delay in paying the instalment of the Government demand. The amount of such fine shall not exceed the pay due to him for the harvest in the course of which the fine is inflicted.

32. As soon after the collection of an instalment of land revenue as may be practicable, the Tehsildar shall draw up a list of the Lambardars and Patels in his Tehsil, showing against their names the amount of revenue collected by each, the amount due to each for commission on collections, the sums to be deducted for fines, etc., and the net amount due to each Lambardar and Patel.

33. The list shall be submitted to the Collector, who, after verification of the amounts shall prepare the bill for encashment at the Tehsil in the usual way.

UNDER SECTION 110 (d).

The persons by whom the time, place, and manner at or in which anything to be done under the Land and Revenue Regulation II of 1877, and for which no express provision is made in these respects, shall be done.

34. The following shall be among the duties of a Lambardar under Regulation II of 1877:—

- (a) To represent the village community in all their dealings with Government.
- (b) To collect the Government revenue and cesses for which he is responsible and to pay the same to the Officer or Treasury appointed to receive it.
- (c) To defray in the first instance village expenses, and to reimburse himself in accordance with village custom.
- (d) To supervise the accounts of the village common lands, and to render accounts to the villagers of all receipts, payments, and sources of income.
- (e) To report to the Patwari or the supervisor all changes in the proprietorship of Muafi and Bhum lands, and the death of pensioners.
- (f) To report to the Patwari or the supervisor all encroachments on roads or Government land, all injuries to or appropriations of Nazul buildings in the village, and the destruction or removal of, or injury to, boundary or other marks erected in the village by order of Government.

35. The chief duty of a Patel under Regulation II of 1877 shall be to collect the Government revenue and cesses for which he is responsible, and to pay the same to the Officer or Treasury appointed to receive it.

36. The duties and responsibilities of a Patwari are :—

A.—To reside within his circle, unless specially exempted by a written order of the Collector.

B.—Immediately on the occurrence of any calamity,—as hail, locusts, fire, breaching of any tank, epidemic disease of men or cattle,—to report the same to the Supervisor.

C.—To report to the Supervisor when he visits his circle :—

(a) Cases of encroachment on Nazul or Government property.

(b) The condition of the crops.

(c) Destruction or decay of village or survey boundary marks.

(d) Emigration of cultivators.

(e) Condition of cattle and quantity of fodder available.

(f) All injuries to the embankment of Government tanks.

(g) Death of any zemindar, or muafidar, or pensioner residing in his circle.

D.—To obtain the Supervisor's signature to his diary and books of account.

E.—To keep the following records in such forms and manner as may be prescribed by the Collector, with the previous sanction of the Commissioner :—

(a) Diary or Roznamcha.

(b) Khasra.

(c) Crop statement for the Rabi and Kharif separately.

(d) Khataunis for :—

1. Villages variably assessed.

2. Tanks variably assessed.

3. Tanks paying crop rates.

4. Variably assessed.

(e) Khatabandi.

(f) Register of changes of proprietary right.

(g) Khata bahi.

(h) Accounts of the common fund of the village.

(i) Receipts from grazing fees and house-tax.

(j) The returns required from him under the Irrigation Rules, or any special order.

F.—To file in the Tehsil office copies of the records referred to in the preceding clause on dates determined by the Collector, with the previous sanction of the Commissioner.

G.—To keep in safe custody and good condition the records, papers, and maps in his charge.

H.—At the time fixed for the audit of village accounts, to explain them to the assembled sharers, obtaining their signatures to his account.

I.—To furnish any sharer on demand with a written statement of his account free of cost.

J.—To supervise the work of an Assistant Patwari appointed in his circle.

37. In addition to the ordinary duties and responsibilities hereinafter prescribed for Supervisors, the Head Supervisor is responsible for :—

(a) The custody of the Supervisor's and Patwari's records filed in the Tehsil.

(b) The custody and issue of blank registers and records to the Patwari.

(c) The disbursing of the Patwari's pay and keeping accounts of the same.

(d) The correct preparation of the Tehsil totals from the registers kept by himself and the other Supervisors.

(e) Keeping records of cases of encroachment on Nazul or Government property, condition of crops, destruction or decay of village or survey boundary marks, and emigration of cultivators.

(f) Keeping the Muafi registers and the registers of Imlak-Wakf and Nazul properties.

(g) Completing the general returns of the Tehsil from statistics furnished by the Supervisors.

38. The duties and responsibilities of a Supervisor are:—

- (a) To keep the following registers in such forms and in such manner as may be directed by the Collector, with the previous sanction of the Commissioner:—

I.—Register of proprietary mutations.

II.—Village registers in two parts:—

(1) Revenue.

(2) Area and crops.

III.—Special registers for villages, tanks and beds of tanks variably assessed.

IV.—Registers of Patwaris.

- (b) To generally superintend the out-door work of the Patwaris of his circle, and see that orders are strictly carried out.
- (c) To keep the village maps up to date.
- (d) To make local enquiries under the orders of the collector or the Tehsildar as to the correctness of entries in the Village records, or to collect statistical information relating to land or agriculture.

NOTE.—The Supervisor shall not be appointed a Commissioner for the purpose of local investigation by civil court without the consent of the Collector.

- (e) To verify the life and report the death of any pensioner or life muafidar to the Tehsildar.
- (f) To keep a register of the Lambardars of his circle.
- (g) To supervise the working of the Irrigation Rules, and the irrigation from all Government tanks, and furnish for his own circle the totals of the forms prescribed from time to time for recording the results of irrigation.
- (h) To keep a diary of the work performed by him, and send the same through the Tehsildar to the Collector once a month, any matter requiring special orders being separately reported.

NOTE.—The diary shall show the name of each village visited during the day, and the total number of the fields tested.

- (i) To submit through the Tehsildar to the Collector on the prescribed dates such periodical returns of the various classes of his work as may be called for.
- (j) To see that the Patwaris obey all rules prescribed for their guidance, reporting to the Collector all cases of infringement of orders.
- (k) To get the maps of all villages in his circle corrected and kept up to date by the Patwaris, and apply for appointment of an Amin from the pay of Patwari, if he is incapable of doing his work.

NOTE.—The following correction should be always made: new roads, hamlets, well, nadis, tank and fields; also where field has been permanently divided, or where in the shifting cultivation of Halsara land, any field boundary has become permanent.

- (l) To test from time to time the chains used by the Patwari.

- (m) To apply to the Collector for fresh skeleton survey map of the village, to be filled in by the Patwari, whenever the existing map is worn out or has from any cause become obsolete.

39. The Supervisor shall test the entries of the Khasra on the spot, and see that all fields of the map have been included, and all new cultivation measured up. That the total areas of the Khasra agree with those of the previous year, and with that of the year of measurement, that totals of each page are correct, and that the Khasra statements agree with the Khasra.

40. The Supervisor shall test at least seven per cent. of the Khasra entries in each harvest, initialling each number tested. The testing will extend to all entries against the number, and in such testing at least seven per cent. of the cultivated numbers must be included.

NOTE.—The work of testing the Kharif entries must be completed by November 1st, and the Rabi by March 1st. The extra hot-weather crops must also be tested.

41. On receipt of the report from the Patwari of the death of any sharer, or the change in any proprietary or muafi right in any village the Supervisor shall, after testing the accuracy of the report, forward it for necessary action to the Tehsildar.

42. The Supervisor is responsible that the slips of changes in the village map filed yearly by the Patwari are kept in safe custody, and that the office copy of the same is corrected as may be ordered from time to time by the Commissioner.

43. The following shall be among the duties of a Tehsildar under Regulation II of 1877:—

- (a) To collect the land revenue, cesses, and other items, for the collection of which he receives a regular order, and to check the Tehsil accounts, and see that they are carefully kept.
- (b) To keep in safe custody all Government moneys and property which may be placed in his charge.
- (c) To report to the Assistant Commissioner all cases in which revenue-free grants or other grants or movable property lapse to Government by the death of the holder or otherwise. Also all calamities affecting the crops, and any sickness, epidemic, or mortality among men or cattle.
- (d) To supervise the proceedings of his subordinates, and to see that all rules are observed.
- (e) To see that the Supervisors and Patwaris perform their duties properly, and that their registers and records are correctly kept up to date.
- (f) To collect supplies for troops and Government officers marching through the Tehsil.
- (g) To gauge the rain register and report on the prescribed date to the Assistant Commissioner all falls of rain.
- (h) To act generally as the Executive Officer of Government under the direction of the Assistant Commissioner in all matters connected with the land revenue administration of his Tehsil.

44. The Naib Tehsildar is the assistant of the Tehsildar, and will take over such work as is transferred to him, subject to the orders of the Assistant Commissioner.

UNDER SECTION 110 (d).

To regulate the procedure of Revenue Officers and Arbitrators acting under the Land and Revenue Regulation II of 1877.

45. The procedure of Revenue Officers in compelling the attendance before them of the parties to proceedings and witnesses, the mode of recording evidence, and the production, rejection, and admission of documents, and the issue of commissions for local investigations, etc., shall be regulated as far as practicable by the rules contained in the Code of Civil Procedure.

46. Arbitrators shall ordinarily be chosen by the parties, but in cases of partition and boundary disputes, a Revenue Officer not below the rank of Assistant Commissioner may in his discretion refer matters in dispute to arbitrators appointed by himself.

47. The arbitrators shall submit their award only with reference to the point or points referred to them in the order of reference, a copy of which shall be furnished to each member of the arbitration.

48. The Revenue Officer shall appoint a day for the submission of the award, and may in his discretion extend the time so fixed.

49. In case of difference of opinion the decision of the majority of the arbitrators shall be accepted.

50. The Revenue Officer may remit the award for re-consideration if it is incomplete or defective.

51. The Revenue Officer may, for reasons to be recorded in writing, on sufficient cause shown, decline to accept an award, or may accept it with such modifications as he may think fit to make, but ordinarily he shall pass an order consistent with the award.

52. The Revenue Officer may make such order as he thinks fit respecting the costs of the arbitration.

UNDER SECTION 110 (e).

Investigation by the higher Revenue Officers of charges of misconduct preferred against Revenue Officers of lower grade.

53. The investigation by the higher Revenue Officers of charges of misconduct preferred against Revenue Officers of a lower grade shall be made in conformity with the Government of India Resolution No. ³⁷ ₁₃₈₉₋₁₄₀₁, dated 29th July 1879: Provided that the Assistant Commissioner in charge of the District, instead of dealing with the case departmentally, may, with the sanction of the Commissioner refer it to a Criminal Court for enquiry and trial.

UNDER SECTION 110 (f).

Fees to be charged for the service of process issued under the Land and Revenue Regulation II of 1877, and to regulate the costs in all proceedings before a Revenue Officer.

54. The fees to be charged for the service of process issued under Regulation II of 1877 shall, unless hereinafter expressly provided, be regulated by rules framed under the Court Fees Act, and shall be levied in Court Fee Stamps.

55. The Revenue Officer shall have full power to give and apportion costs in any manner he thinks fit; every order relating to costs may be executed under the rules relating to the execution of decrees for money.

UNDER SECTION 110 (g).

Form of notice or notification required by the Land and Revenue Regulation II of 1877, to be served or published, and the mode in which such notice or notification shall be served or published.

56. A writ of warning and warrant of arrest issued in connection with a default in payment of revenue shall be in the following forms, Nos. V and VI. They shall be issued in duplicate, and shall be signed by the Wasilbakinavis and the Tehsildar. The fee payable on the writ of warning shall be twelve annas, and on the warrant of arrest one rupee eight annas :—

Assistant Commissioner.

The Proclamation and Notification above referred to shall be made known by posting a copy of the same in the village Hatai, and also in the Tehsil office.

The Rules framed by the Chief Commissioner under Section 60 of the Regulation and published under his Notification No. 1265—695, dated the 31st October 1891, for the temporary exemption of improvements from assessment to land revenue in cases when the improvement is made without the aid of a loan under the Land Improvement Loans Act and consists of reclamation of waste land or of the irrigation of land assessed at unirrigated rates.

These rules shall come into force, with effect from the 1st November 1891.

Rule I.—Reclamation of Waste Land.—When land is reclaimed from waste without the aid of a loan granted under Act XIX of 1883, and is brought under cultivation, the increase in value derived from the improvement shall not be taken into account in revising the assessment of land-revenue on the land until the expiration of a period of five years, reckoned from the beginning of the harvest first reaped after such reclamation was effected.

2. Improvement by Irrigation.—When land assessed at unirrigated rates is improved by irrigation without the aid of a loan granted under Act XIX of 1883, the increase in value derived from the improvement shall not be taken into account in revising the assessment of land-revenue on the land—

(a) If the irrigation is provided by the construction of a new well—until the expiration of twenty years, reckoned from the beginning of the harvest first reaped after such improvement was effected ;

(b) If the irrigation is provided by the construction of a distributary—until the expiration of a period of five years, reckoned as in clause (a) of this rule directed ; or

(c) If the irrigation is provided by any means other than those hereinbefore in (a) and (b) specified --until the expiration of a period of ten years, reckoned as in clause (a) of this rule directed.

3. Nothing in these rules shall be understood as limiting the powers of the Chief Commissioner in any case to give more liberal terms to persons who make improvements than are herein detailed, or as depriving any landowner or lessee of any remission or favourable assessment to which he may be entitled under the terms of any existing agreement or unexpired settlement.

The 30th June 1905.

No. 680.—In exercise of the powers conferred on him by section 5 of the Ajmer Courts Regulation, 1877 (I of 1877), the Chief Commissioner of Ajmer-Merwara is pleased, with the previous sanction of the Governor-General in Council, to appoint Munshi Shankar Lal to be a Munsiff in the District of Ajmer-Merwara, with effect from the date of his assuming charge of the office of Naib Tahsildar of Beawar.

By Order,

H. DOBBS,

First Assistant to the Agent to the Governor-General, Rajputana,
and Chief Commissioner of Ajmer-Merwara.

**THE HON'BLE THE AGENT TO THE GOVERNOR-GENERAL
IN BALUCHISTAN.**

NOTIFICATIONS.

Quetta, the 11th July 1905.

No. 3263.—Under section 27 of the Punjab Land Revenue Act, 1887 (XVII of 1887), as applied to the Tahsil of Quetta by the Notification of the Government of India in the Foreign Department, No. 977-E., dated the 17th May 1895, the Hon'ble the Agent to the Governor-General is pleased to confer :—

- (1) upon the Extra Assistant Commissioner or the Native Assistant, for Settlement, the powers of a Collector under the said Act, and to direct that these powers shall be exercised only within the local limits of the Tahsil of Quetta, and only in respect of cases arising under Chapters IV, V, VIII and IX (and under section 149 of Chapter XII of the said Act) ;
- (2) upon the Superintendent of the Settlement, the powers of an Assistant Collector of the 1st grade, under the said Act, and to direct that these powers shall be exercised :—
 - (a) within the local limits of the Tahsil of Quetta ;
 - (b) in respect of cases arising under Chapters IV, V, VIII and IX of the said Act ; and
 - (c) subject to the control of the Extra Assistant Commissioner or the Native Assistant, for Settlement, who has been invested with the powers of a Collector in respect of similar cases.
- (3) upon the Deputy Superintendents of the Settlement the powers of an Assistant Collector of the 2nd grade under the said Act, and to direct that these powers shall be exercised :—
 - (a) within the local limits of the Tahsil of Quetta,
 - (b) in respect of cases arising under sections 34 and 35 of the said Act ; and
 - (c) subject to the control of the Extra Assistant Commissioner, or the Native Assistant, for Settlement, who has been invested with the powers of a Collector in respect of similar cases.

No. 3264.—Under section 136 of the Punjab Land Revenue Act (XVII of 1887), as applied to the Tahsil of Quetta by the Notification of the Government of India in the Foreign Department, No. 977-E., dated the 17th May 1895, the Hon'ble the Agent to the Governor-General is pleased to confer :—

- (a) upon the Extra Assistant Commissioner, or the Native Assistant, for Settlement, for the time being in charge of the Settlement operations, the powers of the Court of the Political Agent, and to direct that the said powers shall be exercised only within the limits of the Quetta Tahsil and only in respect of original suits relating to land or the rent or revenue of land and appeals in such cases ;
- (b) upon the Superintendent of the Settlement, the powers of the Court of the Tahsildar for the purpose of trying such original suits arising within the Quetta Tahsil of value not exceeding two hundred rupees and relating to land or the rent or revenue of land as may, from time to time, be made over to him for trial by the Extra Assistant Commissioner, or the Native Assistant for Settlement, who has been invested with the powers of the Court of the Political Agent in respect of similar cases.

No. 3267.—With the previous sanction of the Governor General in Council, and in exercise of the powers conferred by section 8 (1) of the Provincial Small Cause Courts Act (IX of 1887) and section 9 of the Cantonments Act (XIII of 1889) as applied to the Baluchistan Agency Territories, the Hon'ble the Agent to the Governor-General is pleased to appoint Captain R. H. Palin, Assistant Cantonment Magistrate, Quetta, to be Additional Judge of the Court of Small Causes in the Cantonment of Quetta, with powers to exercise jurisdiction in suits of which the value does not exceed fifty rupees.

NOTIFICATION.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

No. 3961-A.

Simla, the 22nd July, 1905.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor-General in Council has resolved to borrow four hundred lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of the *Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of the *Three-and-a-half Per Cent. Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December ; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 4,00,00,000 will be received by the Comptroller General from this date to noon of Wednesday, the 2nd August next. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

Note (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, and Lahore, on account of the Comptroller General, Calcutta, on the 1st August and up to the local time corresponding to 12 o'clock in Calcutta on the 2nd August ; provided that—

- (a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them) ;
 - (b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank ;
 - (c) each tender is for not less than Rs. 10,000 ;
 - (d) the deposit is either a promissory note or a Treasury Receipt from the local Office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General ;
 - (e) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad, or Lahore, as the case may be) or in Calcutta ;
- and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, or Lahore.

Note (2). Tenders made in accordance with these instructions will also be received at all Head and Sub-Post Offices up to a date to be notified at each Post Office. The date will vary according to the distance of the Post Office from Calcutta and will in no case be later than the forenoon of the 31st July. The following conditions must be complied with :

- (a) the tenders must be delivered personally or by messenger at the Post Office, where a receipt will be given for them ;
- (b) they must be made on printed forms, to be obtained at the Post Office ;
- (c) each tender must be for not less than Rs. 100 and not more than Rs. 2,000 ;
- (d) the deposit must be a receipt for the amount (which may not exceed Rs. 40 for each tender) from the Post Master of the Post Office at which the tender is made ;
- (e) the amount of the tender must be made payable either at the Head Post Office of tender (whether the tender was made at the Head Post Office or at one of its Sub-Offices) or in Calcutta. In the case, however, of a tender made at a Post Office in Calcutta, the amount of the tender must be made payable only at the Bank of Bengal.

The tenders will be transmitted by post by the Post Master to the Comptroller General so as to reach him before 11 A.M. on Wednesday, the 2nd August. The Comptroller General will deal with them as if they had been made direct to him returning deposits on non-accepted tenders through the Post Master.

5. The rate at which each tender is made must be specified in rupees or rupees and annas; a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, or Lahore, or (c) Government Promissory Notes¹ standing in the name of, or endorsed to, the tenderer or the person making the deposit. In the case of tenders made at Post Offices under Note (2) to clause 4, the deposit must be a receipt for the amount from the Post Master of the Post Office at which the tender is made.

¹It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Wednesday, the 2nd August next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, and Lahore at the local time corresponding to noon, Calcutta time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General² as soon as possible

²For tenders received by the Accountant General at Madras, Bombay, Allahabad, or Lahore, and payable at those places, the Accountant General will issue the allotment-certificates.

after the 2nd August and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad and Lahore.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (a)] will be made payable upon the 4th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows :

Instalment I.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 14th August :

Instalment II.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 4th September :

Instalment III.—The balance payable upon the 2nd October :

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations ; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made by encasement upon the relative certificate. In the case of accepted tenders which were made at Post Offices other than Post Offices in Calcutta under note (2) to clause 4, payment of allotment-certificates may also be made at the Head Post Office of tender, and the Head Post Master will give a receipt for such payment by encasement upon the relative allotment-certificate.

Issue of Promissory Notes.

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1905, and he will also receive interest at $3\frac{1}{2}$ per cent. per annum from the dates on which he may have made payment till the 30th December 1905.

(b) Or he may, at his option, by paying interest at the said rate from 30th June 1905 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1905.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the

<i>Promissory Note</i>	<i>Government Rupees</i>	<i>at $3\frac{1}{2}$ per cent.</i>
<i>No.</i>		<i>of 1900-01.</i>

The Governor General of India in Council does hereby acknowledge to have received from the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees one hundred only to the said his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three

Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the _____ at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said _____, his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, *A. B.*, hereby tender for Rupees (X) of *The Three-and-a-half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 22nd July 1905, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) Annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (XX), and engage, if my offer be accepted, to pay to

* Or cheque or Government Promissory Note. the account of the Government at the Bank of †
 † Here enter the name of Bank, Branch Bank or _____ (or at the
 Treasury. _____ Branch of the Bank of † ; or
 ‡ Here enter the name of Head Post Office at _____ into the Public Treasury at † ; or into the
 which payment may be desired under clause 15 of _____ Head Post Office at † as the case may be—
 of the Notification.

The first instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 14th August 1905.

The second instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 4th September 1905.

The balance on or before the 2nd October 1905.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 4th September 1905.

§ Here insert *C. D.*'s address which must be in India. This paragraph should only be inserted if *A. B.* does not reside in India or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

Any allotment made to me may be communicated to *C. D.* at § .

NOTE.—(1) *A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount. thus "One hundred and two" or "One hundred" or "Ninety-nine," not "Two per cent. premium" or "Par" or "One per cent. discount."*

By order of the Governor General in Council,

W. S. MEYER,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements :

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries, and to Head and Sub-Post Offices in India.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay, Allahabad, and

Lahore will do likewise in respect of tenders presented to them under note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Tenders made at Post Offices.

(6) Tenders made at Post Offices under note (2) to clause 4 of the Government Notification will be acknowledged by the Post Master or Sub-Post Master concerned in prescribed forms of receipt, and in case of non-acceptance of the tenders, the deposits will be returned to the tenderer or his agent personally on the surrender of the receipt given for the deposit.

Accepted Tenders.

(7) The Comptroller General and the Accountant General at Madras, Bombay, Allahabad, or Lahore (in the case of tenders received by such Accountant General and payable in Madras, Bombay, Allahabad, or Lahore), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

This is to certify that, in accordance with the terms of Notification No. 3961-A., dated the 22nd July 1905 (Gazette of India, Extraordinary, dated the 22nd July 1905), the above-named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before _____; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from _____.

RESOLUTION.

In December 1903 the Government of India in letters to several of the Local Governments, which were published in the Official Gazette, announced their desire to consider the redistribution of certain of the territories of the Eastern and North-Eastern

Provinces of India, notably of Bengal and Assam. Their attention had been called to the matter by the constantly accumulating evidence of the excessive and intolerable burden imposed upon the Bengal Government by a charge too great for any one administration, and of the consequent deterioration in the standards of government, notably in portions of Eastern Bengal. Simultaneously the importance of rendering Assam a self-contained and independent administration with a service of its own, and of providing for its future commercial and industrial expansion, was impressed upon them. These considerations suggested a careful investigation of the circumstances, and surroundings of both provinces, and resulted in the formulation of certain proposals for the readjustment of their territorial boundaries. The criticism which was invited, and which was freely and usefully bestowed upon these proposals, justified substantial alterations in the original plan, and led in the end to the abandonment of that portion of the scheme which contemplated the transfer of certain territories from Madras to Bengal, and of the greater part of Chutia Nagpur from Bengal to the Central Provinces. The Government of India were convinced by the arguments placed before them by the Local Governments concerned that in neither case would the transfer promote the end which they had in view. Reasons of administrative expediency, arising out of the peculiar linguistic and racial conditions and the geographical conformation of Ganjam and the Agency tracts of Vizagapatam, were opposed to the transfer of those areas from the Government of Madras. Commercial considerations were mainly responsible for the continued retention of the British districts of Chutia Nagpur under the Government of Bengal.

2. Two changes only have been decided upon in the territories bordering upon Bengal and the Central Provinces. It was proposed by the Lieutenant Governor, and accepted by the Chief Commissioner, that the five Native States of Jashpur, Sarguja, Udaipur, Korea, and Chang Bhakhar, at present attached to the Division of Chutia Nagpur, and forming a solid block of territory with a Hindi-speaking population, on the west of the districts of Palamau and Ranchi, should be handed over from Bengal to the Central Provinces, and this proposal has been accepted by the Governor-General in Council. Owing to their physical remoteness these States have not hitherto received as much attention as might be desired; and it is hoped that their administration will be improved, while the status of the Chiefs will be raised, by their being placed under the Political Agent of Raipur, who is already invested with a similar political charge in the Central Provinces.

3. Both the Local Governments similarly recommended, and the Government of India have agreed, that the Sambalpur District (with the exception of the Chandarpur-Palampur estate and the Phuljhar zamindari) and the five Uriya-speaking States of Patna, Kalahandi or Karond, Sonpur, Bamra, and Rairakhol should be transferred from the Central Provinces to the Orissa Division of Bengal. Linguistic considerations are the main reason for this transfer, which it is confidently believed will be beneficial to the interests of the people. It is in contemplation to protect the interests of the Chiefs affected by appointing a European Political Officer to take charge of the entire group of Uriya-speaking States.

4. These proposals are, however, of minor importance compared with the principal changes to which the Secretary of State has given his sanction, and which involve the creation of a new administration of the first class out of certain divisions of Bengal, together with the territories at present administered by the Chief Commissioner of Assam. In their original form these suggestions arose from a proposal which had already on a previous occasion been under the consideration of the Government of India and had then only been postponed by them, namely, to incorporate the Chittagong Division with Assam. It was proposed in the letters of December, 1903 to include the districts of Dacca and Mymensingh also, for reasons which were then stated, and which it is not necessary now to repeat. The discussion which was elicited by these suggestions indicated to the Government of India that, large as were their proposals, they were not large enough if satisfaction were to be given to the feelings of those who were alarmed at the possible deprivation of privileges which they had for long enjoyed and to which they attached a not unnatural value. These feelings attracted the earnest attention of the Government of India; and in February 1904 His Excellency the Viceroy, in a series of speeches delivered in reply to public addresses at Chittagong, Dacca, and Mymensingh, foreshadowed the willingness of Government to consider a wider scheme involving the creation of a Lieutenant-Governorship with a Legislative Council and an independent Revenue authority and the transfer of so much territory as would be required to justify the institution of so highly organised and fully equipped an administration.

5. From that date the efforts of Government were principally directed to a discussion of the areas that could most advantageously be assigned to the new province, and to an examination of the safeguards that were required to secure the legitimate interests of their inhabitants. A scheme was submitted by the Lieutenant-Governor of Bengal for the amalgamation with Assam of the Chittagong and Dacca Divisions, and the districts of Pabna, Bogra, and Rangpur. This proposal did not seem to the Government of India to be proportionate to the scope of the important administration which it was now contemplated to create, nor would it have given to Bengal, whose population would still have exceeded 59

millions, the permanent relief that ought to ensue from an adequate reduction of its existing area and responsibilities. Accordingly it was proposed to increase the transferred area by the districts of Rajshahi, Dinajpur, Jalpaiguri, Malda, and the State of Cooch Behar. These additions were thought by the Government of India to be justified on the grounds that they would constitute a new province with a population of over 31 millions, while leaving Bengal with a little more than 54 millions; that they would provide a clearly defined western boundary corresponding with well-recognised characteristics, both geographical, ethnological, social, and linguistic; that they would concentrate in a single province the typical Muhammadan population of Bengal, for whom Dacca would furnish a natural capital; that the whole of the tea industry (with the exception of the Darjeeling gardens), and the greater part of the jute tracts, would thus be brought under a single Government, and that long-established divisional areas would thereby remain undisturbed.

6. The enlarged scheme was cordially accepted by the Governments both of Bengal and Assam. The Lieutenant-Governor reported that he had discussed the proposal with the Members of the Board of Revenue and with his most senior officers, and had found that with scarcely an exception there was complete unanimity in accepting it. The Chief Commissioner of Assam attached great value to the future association under a single Government of the tea-growing areas supplied by free labour with those worked by indentured labour, and thought that the gradual substitution of natural for artificial methods of recruitment would be accelerated. He also proposed the creation of a new Commissionership out of the Surma Valley Districts and Manipur, at present under his own direct control. This suggestion was accepted by the Government of India, and will raise the number of Commissionerships in the new province to five.

7. The effect of the proposals thus agreed upon, and now about to be introduced, will be as follows.—A new province will be created, with the status of a Lieutenant Governorship, consisting of the Chittagong, Dacca, and Rajshahi Divisions of Bengal, the district of Malda, the State of Hill Tipperah, and the present Chief Commissionership of Assam. Darjeeling will remain with Bengal. In order to maintain associations, which are highly valued in both areas, the province will be entitled Eastern Bengal and Assam. Its capital will be at Dacca, with subsidiary head-quarters at Chittagong. It will comprise an area of 106,540 square miles and a population of 31 millions; of whom 18 millions are Muhammadans and 12 millions Hindus. It will possess a Legislative Council, and a Board of Revenue of two Members, and the jurisdiction of the High Court of Calcutta is left undisturbed. The existing province of Bengal, diminished by the surrender of these large territories on the east and of the five Hindi States of Chutia Nagpur, but increased by the acquisition of Sambalpur and the five Uriya States before mentioned, will consist of 141,580 square miles with a population of 54 millions, of whom 42 millions are Hindus and 9 millions Muhammadans. In short, the territories now composing Bengal and Assam will be divided into two compact and self-contained provinces, by far the largest constituents of each of which will be homogeneous in character, and which will possess clearly defined boundaries and be equipped with the complete resources of an advanced administration.

8. The Governor General in Council is fully aware of the opposition which these proposals have encountered, and has no desire to undervalue the sentiments upon which it has been based. Ties of mutual association grow up so quickly and become so closely interlaced, that territorial redistribution can rarely be accomplished except at the cost of a disruption which is often painful and generally unpopular. On the other hand, when old connections are severed new ones almost immediately take their place, growing with a rapidity that in a very short time is found to invest them with a sanctity scarcely inferior to that of the associations which they have superseded.

9. The Government of India are encouraged by previous experience to hope that such will be the case in the present instance. They will be greatly disappointed if there are not found in the new province elements of cohesion which will speedily endow it with a stability and individuality of its own. In any case the Government that is called upon to decide such cases must regard them from a wider standpoint than that of purely local, and in all probability transient, considerations. They are bound to keep in view the interests of the Government and of the people as a whole. If they are convinced that owing to arrangements, devised for a different state of affairs and now obsolete, the administration suffers, if they see one Government weighed down with a burden which it cannot properly discharge, and another Government shut out from the development that ought naturally to await it, they cannot permanently remain indifferent to the situation thus produced. Either a remedy must be sought, or the responsibility for a conscious neglect of duty is incurred.

10. Upon two conditions, however, the community has a claim to insist. The first is that the solution ultimately approved shall not be arrived at in haste or until all available alternatives have been fully considered, and its superiority over them conclusively established. This procedure has been followed in the present case. It is now more than 18 months since the first proposals of the Government of India were officially published. In

the interval they have been the subject of widespread and searching criticism at the hands of those who were directly or indirectly concerned. Representations from an immense number of public bodies or gatherings have reached the Government. These have in every case been attentively examined; many of them have not been without effect upon the course adopted; and the very last charge that could with justice be brought against the Government would be one of undue speed in arriving at a final decision. In the course of this prolonged study of the case, the various suggestions that have at different times been put forward for the relief of Bengal have been exhaustively examined. The idea of creating a new Commissionership or Chief Commissionership out of portions of the Province, the separation from Bengal of smaller areas than those ultimately selected, the transfer of sufficient territory to the Central Provinces to convert the latter administration into a Lieutenant-Governorship, the substitution of administration in Bengal by a Lieutenant-Governor and Council for administration by a Lieutenant-Governor alone—all of these have been duly considered and have not been rejected until they were found to contain flaws or drawbacks which were inconsistent with the essential aim. On the other hand, the scheme which was preferred to them has received the practically unanimous approval of the leading officials of the three administrations whom it directly affects, as well as the final sanction of the Secretary of State.

11. The second condition above referred to is that, as far as possible, an attempt should be made to remove every well grounded cause of complaint and to satisfy every reasonable demand on the part of those who will be personally affected by the new arrangement. The Government of India have endeavoured throughout to act in accordance with this principle, and to it the majority of the modifications in the original plan are due. The grant to the new province of a Legislative Council and a Board of Revenue, and the retention of the jurisdiction of the High Court are instances of this desire; and the Governor General in Council can confidently state that there is no guarantee for the good government of the transferred populations which he has not been willing, if its merits were satisfactorily demonstrated, to adopt.

12. The result is the creation of a new province, founded upon that which is the secret of all good administration, namely, the close contact—in so far as this is possible in areas of great size—of the governors with the governed. The welfare of the people will be more vigilantly safeguarded, and larger opportunities will open up before the educated classes, when they are the nucleus of a powerful and self-contained administration exclusively devoted to their interests, than when they have been either the appendage of an overgrown and overworked province or the constituents of a relatively backward and arrested organisation. The change may be expected to raise the administrative standards and to revive no small portion of the former prosperity of Eastern Bengal. It will communicate a much desired impetus to the hitherto retarded development of Assam.

13. The Governor General in Council, in directing that the necessary measures shall now be taken to introduce the scheme, looks forward to the day, as not far distant, when not merely will the new province of Eastern Bengal and Assam have amply vindicated its creation, as an administrative reform of the first importance, but when it will have acquired a character and influence not inferior to those of any of the older Indian provinces, and will have attracted to itself the spontaneous and devoted loyalty of its sons.

ORDER.—Ordered that a copy of this Resolution be forwarded to all local Governments and Administrations and to the several Departments of the Government of India, for information.

Ordered also that the Resolution be published in the *Gazette of India* for general information.

No. 80 A. E., dated Simla, the 13th July, 1905.

RESOLUTION—By the Government of India, Department of Revenue and Agriculture (Civil Works).

Departmental examinations for Assistant Examiners of Accounts.

Read—

Letter No. 418-E., dated 26th May 1905, from the Accountant General, Public Works Department.

RESOLUTION.—On the recommendation of the Accountant General, Public Works Department, the Government of India are pleased to sanction a revision of the subjects and rules for the departmental examinations to be passed by Assistant Examiners for

confirmation and promotion. In future, the subjects and the marks assigned to them, shall be as follows :

Lower departmental examination.

	Marks.
Book-keeping (Text books—Ingليس and Carter's Practical Book-keeping)	200
General Public Works rules and accounts (Public Works Department Code, Vol. I, Chapters I to XII)	300
Total	500

To pass, half marks in general Public Works rules and accounts and one-third in book-keeping must be obtained, and also half marks in the aggregate.

Higher departmental examination.

	Marks.
Composition (Précis and draft)	150
Establishment rules and procedure (Civil Service Regulations, Accountant General's Circulars, etc.)	150
Civil Account Code (Volume I, Chapters 10, 17, 24, and Volume II, Chapters 34, 56, 60 and 73)	100
Accounts of Buildings and Roads and Irrigation (Public Works Department Code, Volumes I and II)	300
Total	700

Optional paper.

Accounts of State Railways (Open lines and lines under construction)	100
--	-----

To pass, half marks in accounts of Buildings and Roads and Irrigation and one-third marks in each of the other subjects must be obtained, and also half of the aggregate marks for compulsory subjects; marks in the optional object being allowed to count. No marks will be allowed if less than 30 per cent. is obtained in any subject.

Each of these examinations must be taken up as a whole, and not in instalments; and, as a rule, a candidate failing in one or more of the subjects will be re-examined in the whole. In case, however, of marked excellence in a subject, the Accountant General may exempt the candidate from re-examination in such subject.

2. The chief object of the revision of subjects is to limit the scope of the lower departmental examination, so as to ensure that during the first year of an Assistant Examiner's service, he should have a thorough training in the general principles of accounts. There is also a redistribution of marks in order to give more importance to the departmental subjects in both the examinations. Railway accounts are excluded as a compulsory subject from both examinations, as it is not considered desirable to continue the arrangement of posting Assistant Examiners to the State Railway Accounts Offices after they have passed the lower departmental examination. Under the revised arrangement Assistant Examiners will complete their training in all the subjects now prescribed in the Public Works Accounts Offices and selections of officers required for the Railway Accounts Offices will be made after Assistant Examiners have passed the higher departmental examination.

The optional paper on State Railway accounts in the higher departmental examination is intended to encourage some study of the system of these accounts as laid down in the Codes, by any Assistant Examiners who may desire to be posted to Railway Accounts Offices after they have passed the higher departmental examination.

3. In the case of the lower departmental examination, the revised rules will have effect from the next examination to be held in November 1905, but the change as regards the higher departmental examination will be deferred till that of November 1906. The examination in November 1905 will be conducted in accordance with the former rules, except that Political Economy will be omitted; this arrangement seems suitable because the Assistant Examiners affected are now attached to Railway Offices and have been preparing themselves in the subjects prescribed in the former rules.

4. In supersession of the rules regarding the departmental examinations contained in paragraphs 234 to 237, Volume I, Public Works Code, the following rules are now prescribed:

1. Both the lower and higher departmental examinations must be passed by all Assistant Examiners, whether appointed from England by the Secretary of State or appointed on probation in India. An Assistant Examiner who fails twice in the lower departmental is liable to forfeit his appointment. Similarly, an Assistant Examiner who fails to pass the higher departmental within five years of date of appointment will forfeit his appointment, upon the declaration of the results of the last annual examination falling within the

five years, unless an extension of time is specially granted to him by the Government of India.

II. No Assistant Examiner appointed in India, on probation, is eligible for confirmation and promotion to the higher grades of Assistant Examiner until he has passed the lower departmental examination.

III. No Assistant Examiner is eligible for promotion to the grade of Deputy Examiner until he has passed (1) the higher departmental and (2) the Lower Standard examination in Hindustani, together with an examination in reading native accounts. An Assistant Examiner, however, who has passed the Higher Standard in Hindustani is exempt from the examination in reading native accounts.

ORDER.—Ordered, that this Resolution be communicated to the Local Govern-

The Governments of Madras, Bombay, Bengal, the United Provinces, the Punjab and Burma, Public Works Department.

The Honourable the Chief Commissioners of the Central Provinces, Assam and Coorg.

The Honourable the Resident at Hyderabad.

The Honourable the Agent to the Governor General and Chief Commissioner, North-West Frontier Province

The Honourable the Agents to the Governor General for Central India, Rajputana and Baluchistan

The Accountant General, Public Works Department.

The Director General of Military Works Services.

ments and Administrations noted on the margin, and that it be published in Part I of the *Gazette of India*.

Ordered also that it be communicated to the Department of Commerce and Industry and to the Railway Board.

SIDNEY PRESTON,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 18th July, 1905.

No. 1496-G.—Major T. W. Irvine, Indian Medical Service (Bombay), an Agency Surgeon of the 2nd class, is granted privilege leave for three months, with effect from the 29th June, 1905, combined with special leave for three months, under articles 233 and 316 of the Civil Service Regulations.

No. 1503-G. B.—With the sanction of His Majesty's Government, the Governor General in Council is pleased to recognise provisionally the appointment of Mr. Charles Jenkins, as Consul for the Argentine Republic at Calcutta.

The 20th July, 1905.

No. 2800-E. B.—Mr. J. C. Gaskin, on special duty, is granted privilege leave for three months, with effect from the 16th July, 1905, combined with furlough for five months, under articles 233 and 338 (a) of the Civil Service Regulations.

The 21st July, 1905.

No. 1523 G.—Lieutenant-Colonel J. Crofts, Indian Medical Service (Bengal), an Agency Surgeon of the 1st class, is granted furlough for the period from the 19th June to the 14th July, 1905, both days inclusive, under article 308 (b) of the Civil Service Regulations.

No. 1526-G.—The services of Lieutenant Colonel J. Crofts, Indian Medical Service (Bengal), are replaced at the disposal of His Excellency the Commander-in-Chief in India, with effect from the 15th July, 1905.

No. 2849-I. A.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to apply the provisions, so far as they may be suitable, of the Indian Electricity Act, 1903 (11 of 1903), to the Civil and Military Station of Bangalore, subject to the following modifications.

(a) For the words "Local Government" wherever they occur read the words "Resident in Mysore."

(b) Omit the provisions of sections 4 (1) (a), 4 (1) (b), 11 and 34 (1), (2) and (3), and clauses I, II and III of the Schedule.

(c) In sections 3 and 4 the term "person" shall be deemed to include the person holding for the time being the office of the Chief Electrical Engineer to the Mysore Government or other officer designated from time to time in this behalf by the Mysore Government with the approval of the Resident.

- (d) For the purposes of section 12 the General Officer Commanding the 9th (Secunderabad) Division shall be held to be the occupier of lands and buildings which are in the occupation of Government for military purposes.
- (e) *Prefix* the words "The Governor General in Council or" to clause (2) of section 28, and *omit* the words 'if it thinks fit' in the same section.
- (f) *Insert* the words "the Governor General in Council or" before the words "the Local Government" in section 29 wherever they occur.
- (g) For the words "Part II" in section 40 *read* the words "section 4":

Provided that for the purpose of facilitating the application of the said Act as so applied, any Court within the said Station may construe the provisions thereof with such alterations not affecting the substance as may be necessary or proper to adapt them to the matter before the Court.

No. 2850-I. A.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to apply the provisions, so far as they may be suitable, of the Indian Arbitration Act, 1899 (IX of 1899), to the Civil and Military Station of Bangalore:

Provided that for the purpose of facilitating the application of the said Act as so applied, any Court within the said Station may construe the provisions thereof with such alterations not affecting the substance as may be necessary or proper to adapt them to the matter before the Court.

No. 2851-I. B.—Whereas the Chiefs and Talukdars of Wadhwan, Muli, Sayla, Dhrangadhra and Lakhtar, in Kathiawar, have ceded to the British Government full and exclusive power and jurisdiction of every kind over the lands lying within the said States and Talukas, which are, or may hereafter be, occupied by the Wadhwan to Than metre-gauge section of the Morvi Railway (including the lands occupied by stations, by outbuildings and for other railway purposes), and over all persons and things whatsoever within the said lands:

In exercise of such power and jurisdiction and of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to make the following amendments in the schedule to the notification of the Government of India in the Foreign Department, No. 1083-I.B., dated the 2nd March, 1900:

In column 2, entry No. 5, *add* the word 'Dhrangadhra' before the word 'Dhrol.'

2. In column 1 of the said schedule, entry No. 5, *delete* the word 'State.'

No. 2852-I. B.—Whereas the Chiefs and Talukdars of Wadhwan, Muli, Sayla, Dhrangadhra and Lakhtar, in Kathiawar, have ceded to the British Government full and exclusive power and jurisdiction of every kind over the lands lying within the said States and Talukas which are, or may hereafter be, occupied by the Wadhwan to Than metre-gauge section of the Morvi Railway (including the lands occupied by stations, by outbuildings and for other railway purposes), and over all persons and things whatsoever within the said lands:

In exercise of such power and jurisdiction and of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to make the following amendments in the schedule to the notification of the Government of India in the Foreign Department, No. 3003-I.B., dated the 13th August, 1897, as amended by subsequent notifications:

In column 2, in the entries relating to the Morvi Railway, *add* the word "Dhrangadhra" before the word "Dhrol."

2. In column 1 of the said schedule, in the entries relating to the said railway, *delete* the words "(including the Aji Bridge extension)."

S. M. FRASER,

Offg. Secretary to the Government of India.

No. 124.—It is hereby notified for general information that His Majesty's Secretary of State for India has sanctioned the construction at the expense of the Baroda Durbar of a

line of railway on the metre gauge from Manand Road *via* Chansama to Bechraji with a branch from Chansama to Harij, a total distance of about 39 miles.

No. 125.—It is hereby notified for general information that His Majesty's Secretary of State for India has sanctioned the construction of a railway on the 5' 6" gauge from Hooghly on the East Indian Railway to Katwa, a length of 65.20 miles, as an integral part of the East Indian Railway.

The 19th July, 1905.

No. 126.—It is hereby notified for general information that a survey has been sanctioned for a line of railway between the stations of Lodhran and Khanewal on the North Western Railway, a distance of 55 miles.

2. The survey has been placed under the control of the Manager, North Western Railway, and will be known as the Lodhran-Khanewal railway survey.

The 20th July, 1905.

No. 127.—Mr. A. H. Francis, Deputy Examiner of Accounts, attached to the office of the Examiner of Accounts, Eastern Bengal State Railway, is granted leave on medical certificate for two months, under article 336 of the Civil Service Regulations, with effect from the 16th June 1905.

The 21st July, 1905.

No. 129.—It is hereby notified for general information that His Majesty's Secretary of State for India has sanctioned the construction of a railway on the metre-gauge from Mandapam on the South Indian Railway to Rameswaram, a length of 11.83 miles, as an integral part of the South Indian Railway.

No. 128.—The following is published for general information :

Circular No. R. T. 89-C., dated Simla, the 15th July, 1905.

RESOLUTION—By the Railway Board.

Modification of rule III, Appendix A of the General Rules of 1895 for working open lines of railway.

Read—

Section 47 of the Indian Railways Act, 1890 (IX of 1890).

Government of India, Public Works Department, Notification No. 118, dated the 21st March 1895, and the Government of India Circular No. 6 Railway, dated the 12th March 1895.

Government of India, Public Works Department, Notification No. 432, dated the 26th October 1900, and the Government of India Circular No. XII Railway, dated the 17th October 1900.

Government of India, Department of Commerce and Industry, Notification No. 801, dated the 24th March 1905.

RESOLUTION.—In the circular by the Government of India in the Public Works Department, No. XII Railway, dated the 26th October 1900, the difference between the two classes of matches, *vis.*, "matches, non-safety" and "matches, safety" was explained and certain additions were made to rule III (7) of Appendix A to the open line General Rules regulating the packing of matches, and a note being added to the effect that matches which ignite by simple friction should be considered as coming within the class "matches, non-safety," while those which require to be rubbed on the prepared surfaces of the box which contains them to be ignited should be considered as coming within the class "matches, safety."

2. It has now been represented that Bengal lights (Pyrotechnic matches), though they do not ordinarily ignite by simple friction, should nevertheless be brought under the class "matches, non-safety," inasmuch as the composition, with which the heads of these matches are tipped, is liable under certain conditions to chemical decomposition causing spontaneous ignition.

3. In exercise of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, read in the preamble above, the Railway Board are pleased, under section 47, sub-section (4) of

the Indian Railways Act, 1890 (IX of 1890), to sanction the adoption on all railways whether in British India, in foreign territory or in Native States, to which the General Rules for working open lines of railway apply, of the accompanying *addendum* to the "Note" to rule III (7) (3) of Appendix A to the said General Rules which were promulgated with the Government of India, Public Works Department, Circular No. 6 Railway, dated the 12th March 1895, as modified by the Government of India, Public Works Department, Circular No. XII Railway, dated the 17th October 1900.

ORDER.—Ordered that this circular, with the accompanying *addendum*, be published under a notification in Part I of the *Gazette of India* as required by section 47, sub-section (3), of the Indian Railways Act, 1890 (IX of 1890), and that a copy thereof be kept open for inspection at railway stations, as directed by sub-section (6) of the same section; also that a

[NOTE.—The sections referred to in the margin of the Bill are sections of the Indian Coinage Act, 1870.]

A Bill to consolidate and amend the law relating to Coinage and the Mint.

WHEREAS it is expedient to consolidate and amend the law relating to Coinage and the Mint; It is hereby enacted as follows :

Preliminary.

[s. 1.] I. (1) This Act may be called the Indian Coinage Act, 1905; and
Short title and extent.

(2) It extends to the whole of British India, inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti.

[s. 3.] 2. In this Act, unless there is anything repugnant in the subject or context,—
Definitions.

(a) "the Mint" includes the Mints now existing and any which may hereafter be established;

(b) "prescribed" means prescribed by a rule made under this Act;

(c) "remedy" means variation from the standard weight and fineness; and

(d) "weight" means the standard weight prescribed for any coin.

[s. 28 (8) & (9).] 3. The Governor General in Council may, by
Power to establish notification in the Gazette and abolish Mints. of India,—

(a) establish a Mint at any place at which a Mint does not for the time being exist; and

(b) abolish any Mint, whether now existing or hereafter established.

Silver Coinage.

[s. 6.] 4. The following silver coins only shall be
Silver coins. coined at the Mint for issue under the authority of the Governor General in Council, namely :

(a) a rupee to be called the Government rupee;

(b) a half rupee, or eight-anna piece;

(c) a quarter-rupee, or four-anna piece; and

(d) an eighth of a rupee, or two-anna piece.

[s. 7.] 5. (1) The standard weight of the Government rupee shall be one hundred and eighty grains Troy, and its standard fineness shall be as follows, namely, eleven-twelfths, or one hundred and sixty-five grains, of fine silver, and one-twelfth, or fifteen grains, of alloy.

(2) The other silver coins shall be of proportionate weight and of the same fineness :

Provided that, in the making of silver coins, a remedy shall be allowed of an amount not exceeding the following, namely :

	Remedy in weight.	Remedy in fineness.
Rupee ...	Five-thousandths.	Two-thousandths.
Half-rupee ...		
Quarter-rupee ...	Seven-thousandths.	Three-thousandths.
Eighth of a rupee	Ten-thousandths.	

Nickel Coinage.

6. The following nickel coin only shall be [New.]
Nickel coin. coined at the Mint for issue under the authority of the Governor General in Council, namely :
a one-anna piece.

7. The standard weight of the one-anna piece shall be fifty grains Troy :
Standard weight.

Provided that, in the making of nickel coin, a remedy shall be allowed of an amount not exceeding one-fortieth in weight.

Bronze Coinage.

8. The following bronze coins only shall be [Cf. s. 8, which relates to copper coins.]
Bronze coins. coined at the Mint for issue under the authority of the Governor General in Council, namely :

(a) a pice, or quarter-anna;

(b) a half-pice, or one-eighth of an anna; and

(c) a pice, being one-third of a pice, or one-twelfth of an anna.

9. (1) The standard weight of the pice shall be [Cf. s. 9, which relates to copper coins.]
Standard weight and seventy-five grains Troy, and the other bronze coins shall be of proportionate weight.
composition.

(2) Bronze coins shall be coined from a mixed metal consisting of copper, tin and zinc.

Provided that, in the making of bronze coins, a remedy shall be allowed of an amount not exceeding one-fortieth in weight.

Dimensions and Designs of Coins.

10. (1) The Governor General in Council may, [Cf. ss. 10 & 11.]
Power to direct coining, and to prescribe dimensions and designs. by notification in the Gazette of India,—

(a) direct the coining and issuing of all coins referred to in sections 4, 6 and 8, and

(b) determine the dimensions of, and designs for, such coins.

(2) Until the Governor General in Council otherwise determines by notification under subsection (1), the dimensions and designs of the silver coins coined under this Act shall be those prescribed for the like silver coins under the Indian Coinage Act, 1870, at the time XXIII of the commencement of this Act. 1870.

Legal Tender.

11. Gold coins, whether coined at His Majesty's [s. 12 as substituted by Act XXII of 1899.]
Gold coins a legal tender. Royal Mint in England, or at any Mint established in pursuance of a Proclamation of His Majesty as a branch of His Majesty's Royal Mint, shall be a legal tender in payment or on account at the rate of fifteen rupees for one sovereign :

Provided that such coins have not been called in by any Proclamation made in pursuance of the Coinage Act, 1870, or have not lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the said Statute as the least current weight. 33 & 84 Vict. c. 19

[s. 13.]

12. (1) The rupee and half-rupee shall be a legal tender in payment or on account:

Silver coin when a legal tender.

Provided that the coin—

(a) has not lost more than two per cent. in weight, and

(b) has not been clipped or filed or defaced.

(2) Subject to proviso (b) in sub-section (1), the quarter-rupee and eighth of a rupee shall be a legal tender in payment or on account for any sum not exceeding one rupee.

13. The nickel coin specified in section 6 shall be a legal tender in payment or on account for any sum not exceeding one rupee at the rate of sixteen for a rupee.

Nickel coin when a legal tender.

[s. 14.]

14. The bronze coins specified in section 8 shall be a legal tender in payment or on account for any sum not exceeding one rupee at the following rates, respectively, namely:

Bronze coin when a legal tender.

(a) the pice at the rate of sixty-four for a rupee, or four for an anna;

(b) the half-pice at the rate of one hundred and twenty-eight for a rupee, or eight for an anna; and

(c) the pie at the rate of one hundred and ninety-two for a rupee, or twelve for an anna.

[s. 15.]

15. (1) (a) All silver coin of the weight and standard specified in Acts No. XVII of 1835, No. XXI of 1838, No. XIII of 1862 and the Indian Coinage Act, 1870, and

Coin made under former Acts.

XXIII of 1870

(b) all copper coin of the weight specified in Acts No. XXI of 1835, No. XXII of 1844, No. XIII of 1862 and the Indian Coinage Act, 1870,

which may have been issued since the passing of those Acts respectively, and declared by those Acts respectively to be a legal tender, shall, notwithstanding anything contained in this Act or in any Act hereby repealed, but subject, in the case of silver coin, to the provisos contained in section 12 of this Act in so far as such provisos apply to like coins under this Act, continue to be a legal tender for the amounts for which the like silver and bronze coins are a legal tender under this Act respectively.

(2) All double pice copper coins which may have been issued under the Acts specified in sub-section (1), clause (b), shall continue to be a legal tender at the rate of thirty-two for a rupee or two for an anna.

Diminished and Counterfeit Silver Coin.

[s. 16.]

16. Where any silver coin purporting to be coined and issued under the authority of the Governor General in Council is tendered to any person authorised by the Governor General in Council or by the Local Government to act under this section and such person has reason to believe that the coin—

Power to certain officers to cut certain silver coins.

(a) is counterfeit, or

(b) has been diminished in weight beyond the percentage prescribed as the limit of reasonable wear, or

(c) has been clipped or filed or defaced, he shall, by himself or another, cut or break the coin.

17. (1) Where any coin so cut or broken is counterfeit, the person cutting or breaking the coin shall return the pieces to the person tendering the coin, who shall bear the loss caused by such cutting or breaking.

[s. 17.]

(2) Where any coin so cut or broken has been coined and issued under the authority of the Governor General in Council, the person cutting or breaking the coin shall observe the following procedure, namely:

(a) where the coin has been shroff-marked or has been defaced for the purpose of converting it into an ornament, he shall either return the pieces to the person tendering the coin, or, if such person so requests, receive and pay for the coin at such rates as may be prescribed in this behalf,

(b) where the coin has been clipped or filed or defaced otherwise than as described in clause (a), he shall return the pieces to the person tendering the coin, who shall bear the loss caused by such cutting or breaking, and

(c) where the coin has not been shroff-marked or clipped, or filed or defaced as described in clauses (a) and (b),—

(i) if the coin has not been diminished in weight beyond the percentage prescribed as the limit of reasonable wear, he shall receive and pay for the coin at its nominal value,

(ii) if the coin has been diminished in weight beyond such percentage so prescribed as aforesaid, but not beyond such further percentage as may be prescribed in this behalf, he shall either return the pieces to the person tendering the coin, or, if such person so requests, receive, and pay for, the coin, at such rates as may be prescribed in this behalf, and

(iii) if the coin has been diminished in weight beyond such further percentage so prescribed as aforesaid, he shall return the pieces to the person tendering the coin, who shall bear the loss caused by such cutting or breaking.

Supplemental Provisions.

18. (1) The Governor General in Council may make rules to carry out the purposes and objects of this Act.

[cf. s. 28.]

(2) In particular and without prejudice to the generality of the foregoing power, such rules may—

(a) reduce the amount of remedy allowed by sections 5, 7 and 9 in the case of any coin;

- (b) provide for the guidance of persons authorised to cut or break coin under section 16 ;
- (c) prescribe the rates at which payments shall be made in the case of coins received under clause (a) of sub-section (2) of section 17 ;
- (d) determine in what cases coins shall be held to have been diminished in weight by reasonable wear and the percentage of loss in weight, not being less in any case than two per cent., which shall be the limit of reasonable wear ;
- (e) prescribe the further percentage referred to in sub-clause (ii) of clause (c) of sub-section (2) of section 17, and the rates at which payments shall be made in the case of coins falling under the same sub-clause ; and
- (f) provide for the acceptance at prescribed rates by officers authorised in this behalf of the gold coins described in section 11 where such coins have lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the Coinage Act, 1870, as the least current weight.

(3) Every such rule shall be published in the Gazette of India, and on such publication shall have effect as if enacted in this Act.

[Cf. s. 18, para. two.]

19. No suit or other proceeding shall lie against any person in respect of anything in good faith done or intended to be done, under or in pursuance of the provisions of this Act.

20. Nothing in this Act shall be deemed to prohibit or restrict the making of coins at Mints intended for issue as money by the Government of any territories beyond the limits of British India.

21. The Acts mentioned in the Schedule are hereby repealed to the extent specified in the last column thereof :

[s. 2.]

Provided that copper coins of such descriptions as at the time of the commencement of this Act are being coined at the Mint for issue under the authority of the Governor General in Council, may, notwithstanding the repeal of the said Acts, continue to be so coined until such time as the Governor General in Council may by notification in the Gazette of India otherwise direct, and all copper coins so coined shall be a legal tender in payment or on account for the amounts for which bronze coins of corresponding nominal value are a legal tender under this Act.

THE SCHEDULE.

(See section 21.)

ACTS REPEALED.

Year.	No.	Short title.	Extent of repeal.
1870	XXIII	The Indian Coinage Act, 1870.	So much as is unrepealed.
1893	VIII	The Indian Coinage and Paper Currency Act, 1893.	So much as relates to the Indian Coinage Act, 1870.
1899	XXII	The Indian Coinage and Paper Currency Act, 1899.	So much as relates to the Indian Coinage Act, 1870.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to consolidate the Acts relating to the coinage. The law, as originally formulated in the Indian Coinage Act, 1870 (XXIII of 1870), has been materially modified by two Acts, namely, the Indian Coinage and Paper Currency Act, 1893 (VIII of 1893), which abolished obligatory free coinage, and the Indian Coinage and Paper Currency Act, 1899 (XXII of 1899), which made gold coins a legal tender. The present Bill proposes to repeal both these Acts as well as the main Act of 1870, to reproduce their provisions, so far as they are still required, in a consolidated form, and to provide for the introduction of a nickel one-anna piece and of a bronze coinage.

2. The *Tabular Statement* annexed shows how each provision of the existing law has been dealt with in the process of consolidation, while the *Notes on Clauses* below indicate the more important of the amendments of the existing law proposed in the Bill.

The 17th July, 1905.

E. N. BAKER.

Notes on Clauses.

Clauses 2 (a) and 3.—The definition of the expression "the Mint," as contained in section 3 of the existing law, and the language of the provisions of section 28, clauses (8) and (9), of that law, which give power to establish or abolish Mints, have been generalized, so as to make it clear that it is not obligatory on the Government to maintain any particular Mint.

Clauses 6, 7, 8 and 9.—These clauses relate to the proposed new nickel and bronze coins.

Clause 10.—This reproduces the substance of sections 10 and 11 of the existing Act with a new power to settle the dimensions of coins.

Clause 13 is new, making the nickel one-anna piece a legal tender up to one rupee.

Clause 14.—This clause puts the proposed new bronze coins in the same position as the old copper ones, making them legal tender up to one rupee.

Clause 16.—The language of sub-clause (c) has been slightly expanded, so as to make it clear that the clause gives power to cut all coins described in the proviso to clause 12.

Clause 17.—This clause proposes three changes of substance in the law. Firstly, it provides that coins which have lost weight not otherwise than by reasonable wear shall be received at their full nominal value: under the existing law, coins which have so lost more than two per cent. are receivable at the rate of one rupee per tola. Secondly, it provides that coins which have been shroff-marked or defaced for the purpose of converting them into ornaments, may be received at rates to be prescribed by rule. Thirdly, it provides that coins which have lost weight otherwise than by reasonable wear, but have not been clipped or filed or defaced, may be received at rates to be prescribed by rule, instead of being returned to the tenderer.

Clause 18, which corresponds to section 28 of the existing Act, takes new power to make rules (1) [sub-clause (a) (c), (d) and (e)], prescribing the percentages and the rates of payment required to be fixed for the purposes of clause 17, and (2) [sub-clause (a) (f)] providing for the acceptance at prescribed rates by authorised officers of gold coins which are of less weight than "the least current weight," and are therefore, not legal tender under the provisions of clause 11.

Clause 20 is new and has been inserted with the view to make it clear that the provisions of the proposed Act will relate only to the making of coins to be issued under the authority of the Government of India, and therefore that there is no legal obstacle to the present practice under which coins (as, e.g., Straits dollars) are made at the Mint for issue by other Governments.

Clause 21.—The proviso to this clause, which deals with repeals, provides for the continued coining of the present copper coins, which are to be legal tender as if they were the new bronze coins contemplated by the Act, until such time as the Governor General in Council may otherwise direct. The object of this provision is to enable copper coins to be coined during the period which may elapse before the arrangements for bronze coinage are completed.

TABULAR STATEMENT

SHOWING

Disposal of provisions of Act XXIII of 1870, as amended by Acts VIII of 1893 and XXII of 1899.

Sections of Act.	How disposed of.
1 (Short title)	Bill, clause 1 (1).
2 (Repeals)	Repealed by Act XII of 1873— <i>cf.</i> Bill, clause 21.
3 (Interpretation-clause)	Bill, clause 2. Definition of "Mint-rules" is omitted.
4 } Gold Coinage	Omitted from Bill as obsolete.
5 }	
6 (Silver coins)	Bill, clause 4.
7 (Their standard weight and fineness)	Bill, clause 5.
8 (Copper coins)	Bill, clause 8, as applied to bronze coins.
9 (Their weight)	Bill, clause 9, do. do.
10 } (Devices on coins)	Bill, clause 10.
11 }	
12 (Gold coins a legal tender) (<i>substituted by Act XXII of 1899</i>)	Bill, clause 11.
13 (Rupees and half-rupees a legal tender)	Bill, clause 12.
14 (Copper coin when a legal tender)	Bill, clause 14.
15 (Coins made under former Acts)	Bill, clause 15.
16 (Cutting certain silver coins)	Bill, clause 16.
17 (Return and receipt of cut coin)	Bill, clause 17.
18 first paragraph (Indemnification of public servants)	Repealed by Act XII of 1876.
second paragraph (Bar of suits)	Bill, clause 19.
19 to 26 (Coinage of bullion)	Repealed by Act VIII of 1893.
27 (Rules as to officers and management of the Mint)	Omitted from Bill as unnecessary.
28 (Rules by notification)	Bill, clauses 3 and 18.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULA-
TIONS UNDER THE PROVISIONS OF THE INDIAN COUN-
CILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67,
AND 55 & 56 VICT., CAP. 14).

The Council met at the Viceregal Lodge, Simla, on Tuesday, the 18th July, 1905.

PRESENT :

His Excellency Baron Curzon, P.C., G.M.S.I., G.M.I.E., Viceroy and Governor General of India, *presiding*.
His Honour Sir Denzil Ibbetson, K.C.S.I., Lieutenant-Governor of the Punjab.
His Excellency General Viscount Kitchener of Khartoum, G.C.B., O.M., G.C.M.G., Commander-in-Chief in India.
The Hon'ble Major-General Sir E. R. Elles, K.C.B., K.C.I.E.
The Hon'ble Sir A. T. Arundel, K.C.S.I. ●
The Hon'ble Mr. H. Erle Richards, K.C.
The Hon'ble Mr. E. N. Baker, C.S.I.
The Hon'ble Sir C. L. Tupper, K.C.I.E., C.S.I.
The Hon'ble Mr. T. Gordon Walker, C.S.I.

INDIAN ARTICLES OF WAR (AMENDMENT) BILL.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved that the Bill further to amend the Indian Articles of War be taken into consideration. He said:—"The Bill is of a purely formal and non-contentious character, and I do not propose to say anything further regarding it."

The motion was put and agreed to.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved that the Bill be passed.

The motion was put and agreed to.

INDIAN COINAGE BILL.

The Hon'ble MR. BAKER moved for leave to introduce a Bill to consolidate and amend the law relating to Coinage and the Mint. He said:—
“The present Coinage Act was originally passed in 1870. Some of its provisions, such as that which relates to the coinage of gold mohurs and other gold coins, are obsolete : and some others are not altogether appropriate to the conditions of the present time. It is proposed to make the necessary amendments in respect of these matters in the present Bill.

“In addition to these points, however, which are of minor consequence, there are three matters of importance with which it is proposed to deal in the Bill.

“In the first place, it is desired to take power to coin and issue a nickel coin of the value of one anna. We have already consulted public opinion on this project, and have ascertained that it is entirely favourable. It is therefore unnecessary to dwell at length upon it. If the experiment should prove successful, the question of extending the use of nickel to coins of the denomination of half an anna and two annas respectively will be for consideration hereafter : but this step is not contemplated at present, and no provision is made for it in the Bill.

“Secondly, we desire to take power to substitute bronze coins for the copper subsidiary coinage now in use. Here also, we have already ascertained that public opinion is in favour of the change. We shall take power to continue to coin copper until the Mints have been equipped for the production of bronze coins ; but that will not, I hope, be for more than a comparatively short time.

“The third substantive alteration in the law which it is proposed to make relates to the treatment of light weight silver coins.

“The present law on this subject is contained in sections 16 and 17 of the Act of 1870. These provide that when a genuine coin which has lost more than 2 per cent in weight by reasonable wear is tendered to a Government officer empowered under the Act, he shall cut or break it, and shall pay for it at the rate of one rupee per tola.

“When the Act of 1870 was passed, the Mints were open to the free coinage of silver, and a rupee of full weight was always necessarily worth exactly the same as the silver contained in it. If therefore a person presented a short-weight rupee, the loss he suffered by cutting or breaking was exactly proportionate to the shortage in weight, and it was not inequitable that he should suffer this loss.

“But when the Mints were closed and the rupee became a token coin, the value of the silver contained in it became widely different from, and less than, its face value. If therefore the provisions of the present Act were strictly applied, the result would be to mulct the tenderer of a short-weight rupee not only of the proportion of value due to the shortage, but also of the whole difference between the bullion value and the face value of the coin. This was productive of hardship to innocent holders ; and in order to minimize this, in 1899 Government issued a notification declaring that they would receive rupees which were short weight by not more than $6\frac{1}{4}$ per cent (and had not been tampered with) at their face value, and also that they would receive rupees which were short by more than $6\frac{1}{4}$ per cent but not more than 25 per cent at reduced rates ranging from 14 annas to 12 annas to the rupee.

“Under the Act as it stood, Government had no express authority to do this though its action was perfectly legal, being merely a relaxation in favour of the public of the strict letter of the law. But it is manifestly undesirable to maintain on the Statute Book a provision which is admittedly harsh and inequitable, and which is not enforced in practice. We therefore propose to modify the provisions of the existing law so as to conform to the practice which experience has shown to be appropriate. This is done in clause 17 of the present Bill. We do not in this clause fix the actual percentages corresponding to the $6\frac{1}{4}$ per cent and 25 per cent to which I have referred, but we take power to determine them by rules, subject always to the legal remedy.”

The motion was put and agreed to.

The Hon'ble MR. BAKER introduced the Bill.

The Hon'ble MR. BAKER moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

MILITARY ADMINISTRATION OF INDIA.

His Excellency THE PRESIDENT said :

"The public will desire to be informed of the settlement that has been arrived at of the questions concerning our future military administration that have lately been under discussion between the Home Government and the Government of India. Seven months ago this question was referred to us, upon their own initiative, by His Majesty's Government: and the Government of India submitted their views to the home authorities in March last in papers which have since been published. The reply of His Majesty's Government reached Simla a month ago, and has similarly been made public. Upon receipt of this Despatch the Government of India learned to their regret that the advice which they had all but unanimously tendered to His Majesty's Government had not been so fortunate as to meet with the acceptance of the latter. They were instructed to introduce without delay a form of military administration, of which they learned only for the first time in the Despatch of the Secretary of State, and they may be pardoned if they were somewhat surprised at the manner in which it was thought necessary to convey these orders. With the utmost desire to carry out loyally a policy decided upon by His Majesty's Government, I was unable conscientiously to assume the responsibility of introducing an organisation in the practicability of which I could not bring myself to believe, and as to which I found that my Colleagues were in agreement with myself. In these circumstances it became my duty respectfully to represent this position to His Majesty's Government, and to urge upon them such modifications as might remove the principal drawbacks from which the scheme appeared to us to suffer. These modifications have without exception been accepted by His Majesty's Government, and it is desirable that I should now explain them in some little detail to the Indian public, which is vitally concerned in the form and methods of our military administration, and which has followed every phase of the recent discussion with absorbing interest.

"If a reference be made to the Despatch of 23rd March last, and the accompanying Minutes, in which the views of the Government of India were stated, it will be found that the points to which we attached the greatest importance in any system of Indian military administration were, firstly, that the statutory control over the army of the Governor General in Council should remain unimpaired; secondly, that the Government of India should possess independent expert advice, to enable them to decide upon the merits of the military proposals brought before them; and, thirdly, that the head of the Government should not be placed in a position in which the responsibility of this decision should be shifted from the collective shoulders of the Government on to his. I may refer more particularly to paragraph 11 of our Despatch, in which we wrote as follows :

'The question may be thus stated : is it desirable that the Government of India should possess only a single and supreme Military adviser controlling the entire military organisation, or is it desirable that they should continue, as now, to have a second expert opinion upon matters which, in the ordinary course of administration, come before them for decision? We feel no hesitation in answering this question. We cannot too strongly or emphatically express our conviction that the Military Member is an essential element in the Government of India, and our reasons are the following. As long as the Governor General in Council continues to be responsible for the government of the army, he requires expert advice in order to enable him to deal satisfactorily with the proposals that are submitted to him by the Executive head of the army. It is our experience that successive Commanders-in-Chief enter upon their duties with very different ideas and originate very different proposals. In these circumstances it is of extreme importance that the principles, the history, and the tradition of each case should be presented to the members of the Government before they are called upon to decide.'

"Those were our recorded views, and it was because the scheme sent out to us by the Secretary of State did not appear to us to satisfy these essential conditions that we felt bound to attempt to secure its amendment. We

informed His Majesty's Government that unless modified in important particulars, it would, in our opinion, be unworkable in operation; that it would imperil the control of the Governor General in Council; and that it would impose an undue burden upon the Viceroy while depriving him of indispensable advice.

" The manner in which we sought to remove these evils was as follows :

" In the first place, it seemed to us that the new Military Supply Member, as sketched in the Despatch of the Secretary of State, might be without the authority and experience, and would certainly be without the opportunities, that would enable him to give to the Government of India the independent assistance of which I have spoken. It appeared to us that he would be little more than a purveyor of military stores and supplies; and that his advisory functions on general military questions would not be called into existence until a case was brought before Council, or, in other words, until it might be too late to be of practical use. The language of the Despatch appeared to us further to be ambiguous in respect of his military qualifications and powers, for we were told that his functions were to be essentially those of a civilian administrator with military knowledge and experience—a definition that seemed on the whole to postulate a soldier, for how could a civilian possess military experience?—and yet that his duties were to be more of a civil than a military nature—a phrase that seemed to be not incompatible with the appointment of a civilian—and further that he was specially to advise the Governor General in Council on questions of general policy as distinct from purely military questions—a distinction which seemed to contravene the previous definition of his duties, and which we thought that it would not be possible in practice to maintain.

" We accordingly represented to the Secretary of State that the functions which His Majesty's Government proposed to assign to the Military Supply Member could not properly be performed except by a soldier, and that such, in our opinion, he ought always to be, just as the Military Member has hitherto invariably been. We did not ask that any alteration should be made in the existing law that regulates the appointment of Members of Council, but we represented that the nomination of a civilian would be fatal to the safeguards which we desired to create. His Majesty's Government have not of course the power to bind their successors except by the precedent which they are about to create. The first appointment, however, which will be that of a military officer, will set an example which I venture to think that no future Government will be found to depart from. For from the day that a civilian is appointed to the office the administrative system which is now being set up will, in my judgment, even if it has lasted as long, be fated to disappear.

" Secondly, in order to clear up the ambiguities in the position of the Military Supply Member, and to place the full benefit of his military knowledge and experience at the disposal of the Viceroy and his Colleagues, we proposed that, outside the necessary functions of his department, he should be available for official consultation by the head of the Government on all military questions, without distinction, and not only upon questions of general policy or where cases are marked for Council. We proposed that identical conditions should apply to both Military Departments, and that upon the submission of any case from either department, the Viceroy should, if he considers it necessary, refer it to the head of the other Department for advice. We informed the Secretary of State that we did not anticipate that this would become the general practice in either case; but that the power of reference was required in order to relieve the Viceroy of a burdensome responsibility, and that in our view it would, when resorted to, tend to promote co-ordination. His Majesty's Government informed us in reply that these proposals were consistent with the right of the Viceroy to consult any Member of his Council on any subject, and that there would, therefore, be no objection to concede them, without giving to either Member any special right to be consulted or to note upon the proposals of the other. How important this concession is may be seen by a contrast with the terms of the Secretary of State's Despatch, in paragraph 25 of which we had been informed that in future the Commander-in-Chief would be the sole expert adviser of the Government on purely military questions. I am myself of opinion that with two Military Officers

of distinction upon the Executive Council, nothing could be more unwise than to separate them, so to speak, into watertight compartments and compel each to work in complete detachment from the other. The more they co-operate and know of each other's policy and views, the better it will be both for the Government of India and for the Indian Army.

"It was with the same object in view, namely, to secure complete foreknowledge of all important military questions by both our military advisers and to ensure harmonious co-operation between the two Departments and their heads, that we made a further proposal. The Secretary of State had suggested in his Despatch the revival of the Mobilisation Committee with the Military Supply Member sitting upon it. We proposed to lay down that all important changes in military organisation or conditions of service of all ranks, or in customs affecting the Native Army or its departments, which might originate from either Military Department, must of necessity be submitted for discussion to this Committee or to an analogous Committee with such other more suitable designation as might be decided upon, and that the Commander-in-Chief and Military Supply Member should be essential Members of this Committee. This will mean that no important changes affecting the Native Army, or indeed any portion of the Army, can be put forward without running the gauntlet of a highly competent expert body upon which the principal Military Officers at the Head-Quarters of Government will sit, and at whose meetings both the Military Advisers of the Government of India must be present. This rule will provide for the exhaustive discussion from every point of view of all military proposals, and should relieve the Governor General in Council of a good deal of preliminary work which might otherwise fall either upon the Viceroy or upon his Colleagues.

"Our next proposals were directed to securing that the Government of India should be effectively and powerfully represented in the new Army Department, and that means should be provided by which the head of the Government should be kept in the closest touch with its policy and proceedings. The Secretary of State's Despatch had been silent as to the rank of the new Secretary to Government in this Department. It will be this officer who will be the ordinary channel of communication between the Department and the Viceroy, who will possess the access to the latter enjoyed by all Secretaries to Government, and who will be the custodian inside the Department of the traditions and principles of the Government of India. We thought that it would be invidious if this officer, as the official representative of Government, were of lower rank than his Colleagues at the head of other branches in the Department, and we accordingly proposed that he should be either a Major General or, if a Colonel, that he should have the local rank of Major General. This proposal was agreed to.

"Finally, we proposed to draw up a definite schedule of all cases in the Army Department which it should be the duty of the Secretary to Government in the Department to submit to the Viceroy before orders could be passed upon them. This was intended as an additional safeguard to the full and complete knowledge and control by the Governor General. The idea met with the approval of His Majesty's Government.

"The whole of the above proposals, which were put forward with the concurrence of the Commander-in-Chief, were submitted by us to the Secretary of State as the minimum which in our judgment was necessary in order to render the new organisation practicable. The Secretary of State informed us in his final reply that they did not contravene the provisions of his despatch, and that some of them were in exact fulfilment of the wishes and intentions there conveyed. We were very glad to make this discovery; since while securing points to which we attached the utmost importance, we learned that we were at the same time acting in accordance with the desires of His Majesty's Government.

"Whether the system thus modified will be in any way superior to that with which we have hitherto been familiar, or whether it will possess any permanent vitality, the future alone will show. We have seen so many schemes of military organisation rise and fall in recent years, that prophecy is dangerous. The

new scheme is not of our creation. All that we have been in a position to do is to effect the removal of some of its most apparent anomalies and to place its various parts in more scientific relation to each other. We have converted the position of the Military Supply Member into one of greater efficacy and utility. We have very considerably strengthened the guarantees for civil supervision and control. In the last resort I expect that the new system, like the old, will depend in the main upon the personal equation for its success or failure.

"It is only necessary for me to add, upon the wider aspect of the case, that the sole object which my Colleagues and myself have had in view since the commencement of the present discussion has been the maintenance of the constitutional authority of the Government of India. Individual views or susceptibilities are of minor importance. We hold that it would be incompatible with the proper conduct of Indian Government if the full degree of intelligent and informed control over military matters conceded to the Governor General in Council by the law were to be weakened. No one who has been responsible for the Government as long as I have can be blind to the importance of this consideration; and that Governor General would, in my judgment, be untrue to his office who did not regard it as his bounden duty to sustain the prerogative which was conceded to the Government of India as far back as three-quarters of a century ago."

The Council adjourned to Friday, the 11th August, 1905.

SUPPLEMENT TO
The Gazette of India.

No. 29}

SIMLA, SATURDAY, JULY 22, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

**DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).**

**Rainfall summary for the seven days ending at 8 hrs., on Thursday,
the 20th July 1905, based on the India Daily Weather Reports
of the period.**

The monsoon currents have been generally weak during the week under review and the rainfall has been lighter than usual over the greater part of the Indian land area.

Exceedingly little rain was reported from the West Coast stations on the 14th, but on the 15th the rainfall increased, both in amount and extent, and from the 16th to the 20th there was general daily rain over the division. The rainfall was, however, much lighter than usual along the northern half of the West Coast and the week's fall was only half the normal amount in the Bombay subdivision, though it was slightly heavier than the average in the Malabar coast subdivision. The current penetrated but feebly into the interior and though showers were received over south India, the south division of the East Coast, the Deccan and the west Satpuras the showers were generally light and scattered, and the week's fall was generally considerably short of the normal except in Mysore and the Nizam's dominions.

As mentioned above, the rainfall during the week was exceedingly light along the Bombay coast and this lightness became still more marked on proceeding northward into Gujarat, the average actual fall for the week having been only 0·03" for the Rajkot subdivision instead of the normal 2·30" and only 0·18" in the Ahmedabad subdivision instead of the normal 3·66". Inland over the west of Central India and a large part of Rajputana the weather was practically rainless during the week, though showers occurred in the eastern districts, both of Central India and of Rajputana.

On the opposite side of India conditions have been somewhat more favourable. Two shallow storms have affected the weather over Burma, the Bay and parts of north-east India.

In Burma the week's rainfall was short of the average, more particularly over Upper Burma; but in Assam, the Delta of Bengal and Bihar and Chota Nagpur it exceeded the average. The rainfall relatively to the normal was heaviest in the Burdwan subdivision, but in north Bihar and north and east Bengal the excess was also large.

The weather over the north division of the East Coast and the east of the Central Provinces was also affected by the two depressions, but the rainfall, though general, was not as heavy as usual.

Over Upper India to the west of Bihar only light scattered showers have been received and, over the whole of that area, the week's rainfall has been lighter than usual.

The data giving the condition of the seasonal rainfall show that up to date the monsoon rainfall has been generally light. It has however been about normal (less than 20 per cent. from the average) over Burma, Bengal, Assam, Chota Nagpur, the Jubbulpore division of the Central Provinces, the Calicut subdivision of the West Coast, the Bellary and Hyderabad subdivisions of the Deccan and the south India division, while it has been in more or less important defect elsewhere.

W. L. DALLAS,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA;
The 20th July 1905.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).Season and Crop Prospects for the week ending Saturday,
15th July 1905.

Madras.—The rainfall of the week was heavy in the West Coast districts ; good in South Arcot, parts of the Circars and in the Central districts ; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency except in portions of the Circars, Tinnevely, the West Coast districts and in the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some require more rain in parts of Godavari, Kurnool and the Central and Southern districts. There are no harvests in parts of the Circars, the Deccan and the Southern and West Coast districts, but they continue in parts of other districts with poor to fair outturn. Pasture is insufficient except in parts of the Circars, Kurnool, North Arcot, the West Coast districts and in the Nilgiris. Fodder is scanty except in parts of the Circars, Trichinopoly, Tinnevely, the West Coast districts and in the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in ten districts, has fallen in two and has very slightly risen in eleven. The prices of millets have fluctuated as follows:—*Ragi* is stationary in six districts ; and has very slightly risen in fifteen. *Cholam* is stationary in one district ; has fallen in four, and has very slightly risen in nine. *Cumbu* is stationary in nine districts ; has fallen in two ; and has very slightly risen in seven.

Bombay.—There was heavy rain during the week in parts of the Panch Mahals, Rewa Kantha, Mahi Kantha and Sawantwadi ; good in parts of Ahmedabad, Nasik and Kanara ; moderate in parts of Hyderabad, Thar and Parkar, Broach, the Konkan, Kathiawar, Belgaum and Janjira ; slight in parts of Karachi, Kaira, Surat, Khandesh, Satara and Cambay ; and very slight in parts of Ahmednagar, Poona, Bijapur, Dharwar, Baroda and Aundh. More rain is needed in parts of Broach, Colaba, Ratnagiri, Khandesh, Poona, Sholapur, Satara, the Karnatak, Cutch, Kathiawar, Baroda, Aundh and Sawantwadi. Inundation in Sindh is generally satisfactory. Sowing of autumn crops is generally in progress, but is retarded in parts of Sholapur and the Karnatak. Transplantation of rice has commenced in parts of Kaira and continues in parts of Sukkur, Larkana, the Upper Sindh Frontier and Nasik, but is retarded in parts of the Konkan, Janjira and Sawantwadi. Autumn seedlings have been slightly damaged by recent storm in parts of Hyderabad and Rewa Kantha, by caterpillars in parts of Sawantwadi ; and are suffering from want of rain in parts of the Karnatak. The fodder-supply is sufficient except in parts of Sukkur, Hyderabad, Thar and Parkar, Broach, Nasik, Belgaum and Baroda. Agricultural stock is sufficient, and cattle are in good condition. The water-supply is adequate except in parts of Belgaum and Baroda. Prices have fallen in three districts ; risen in three districts ; and are stationary elsewhere. The numbers on relief during the week ending 8th instant were as follows:—daily average on relief works—Kaira, 658 ; on gratuitous relief—Kaira, 180 ; Belgaum, 692 ; total, 1,530. On test works—Ahmedabad, 823 ; the Panch Mahals, 34 ; total, 857.

Bengal.—Rain was plentiful and fairly general over the Province, including Bihar. Transplantation of winter rice has commenced. The condition of the jute crop is generally reported to be favourable and prospects of other standing crops are good. Fodder and water are sufficient. The price of rice has risen in fourteen and fallen in five districts.

United Provinces.—Rain has been general and sufficient excepting in a few districts, where sowings have been retarded for want of more rain. The standing crops are doing well and germination is satisfactory. In Meerut the sugarcane crop has been slightly damaged by insects. Food and fodder are ample and the water-supply is adequate. Markets are well stocked. Prices continue high.

Punjab.—The rainfall of the week was good and well distributed throughout the Province. The price of wheat has risen slightly in Hissar, Amritsar, Rawalpindi and Mianwali, and has fallen in Jullundur. The harvesting of spring crops is finished in Shahpur. Autumn sowings which were retarded for want of rain have commenced. The condition and prospects of the standing crops are generally good. The indigo crop has been attacked by insects in Tahsil Shujabad of the Multan district. Cattle are in good condition. Fodder is sufficient except in parts of Shahpur and Mianwali. There are no complaints regarding the water-supply.

North-West Frontier Province.—General rain has fallen throughout the Province, having been heavy in Hazara, Dera Ismail Khan and Bannu, and average in Peshawar. The standing crops have been much benefited and the prospects of further sowings have improved. The condition of cattle is generally good. Fodder is sufficient. The canal water-supply is plentiful. The Indus is rising. Prices show a tendency to fall. Prices—wheat 16 to 22 ; gram 18 to 28 ; maize 19 to 29 ; and *bajra* 19 to 22 seers per rupee.

Burma.—The rainfall of the week was generally sufficient with none in Sagaing ; light to moderate in the dry zone tract ; and mostly heavy elsewhere. Ploughing for, and

sowing of, wet-weather paddy are progressing and transplanting has commenced in Sadoway, Thaton and Amherst. Reaping of early wet-weather paddy has commenced in the Southern Shan States and ploughing for *juar* and late sesamum has commenced in the Myingyan township of Myingyan. Sowing of sesamum in Minbu and of ground-nuts in Magwe has been completed. The crops have been slightly damaged by heavy rain in the Maubin township of Katha and a small area of the sesamum crop has been destroyed by floods in the Meiktila township of Meiktila. More rain is wanted in the Tabayin township of Shwebo. The standing crops are generally in good condition. The price of paddy has risen considerably in Mandalay and the Southern Shan States; at four other centres the changes have been slight; elsewhere it is stationary.

Central Provinces.—Light to moderately heavy rain has fallen in all districts except Nimar; the falls were heavy in Sambalpur and Raipur. A partial break has set in over the rest of the Province and has proved beneficial for sowings which are well forward. Germination of the early sown crops is reported good, but more rain is greatly needed for rice in Chanda. Sowings of cotton have almost been completed in the Nagpur Country, Nimar, Chhindwara and in parts of Berar. Weeding has commenced in Saugor, Wardha and Basim. Locusts still exist in small numbers in Hoshangabad, Betul, Chhindwara, Wardha, Nagpur, Chanda and all districts of Berar, but have caused no damage to the crops. Fodder is scarce in a few districts. The price of *juar* shows a tendency to rise; otherwise prices are steady with slight fluctuations.

Assam.—The weather is hot and rainy. Rain fell in all districts during the week. Planting of sugarcane is in progress. Plucking and manufacture of tea continue and prospects are fair. Ploughing for, and sowing of, late rice seedlings are in progress. Transplanting of late rice has commenced. Sowing of early rice is finished in all districts except Cachar, Sylhet and Darrang. Reaping of early rice has commenced in Goalpara, Nowgong and Sibsagar, and is in progress in Kamrup. Excessive water has submerged late rice in low-lying places in Sylhet. The prospects of early rice are good in Goalpara and the Garo Hills and are generally fair in other places. The prospects of jute are good. Fodder is insufficient in parts of Sylhet and Kamrup. Prices of common rice—Sibsagar, 16, Silchar, 15; Sylhet and Tezpur, 14, Gauhati and Nowgong, 13, Dibrugarh, 12½; and Dhubri, 12 seers per rupee.

Mysore.—Rainfall—2 inches 21 cents in the Civil and Military station. Rain also fell in the Bangalore, Kadur and Shimoga districts and there were slight showers elsewhere during the week. Prices of food-grains are steady. The crops are in good condition except in Kolar and in parts of the Mysore, Hassan and Chitaldroog districts. More rain is much wanted generally throughout the State. Cattle are healthy. Water is available. Fodder is getting scanty in parts of the Kolar, Mysore, Hassan, Kadur and Chitaldroog districts.

Coorg.—Rainfall—2 inches 93 cents. Transplanting of rice continues. Prices of food-grains are stationary. Water and fodder are ample.

Hyderabad.—Rainfall—17 cents. The monsoon is holding back. More rain is required for autumn sowings which are suspended in seven taluks. The young crops are withering in sixteen taluks, while in twenty taluks more rain is urgently required. Elsewhere autumn and early rice sowings are progressing and weeding has commenced in places. Insects are damaging the autumn crop in two taluks. Fodder is scarce in seventeen taluks, and water in twelve taluks. Prices—wheat 12¼; coarse rice 8¼; and *juar* 19½ seers per rupee.

Rajputana.—Rain fell during the week throughout Rajputana except in the hill tracts of Mewar. The maximum fall was 8 inches 27 cents in Parbhagarh and the minimum 1 cent in Jaisalmer and scattered showers both in Jaipur and Kishengarh. Rain is badly wanted in Kishengarh and in Ajmer-Merwara. Agricultural operations are satisfactory. Ploughing and sowing are in progress except in Jaisalmer. Agricultural stock is satisfactory, and pasturage or fodder is sufficient. Prices are falling in two States, fluctuating in three, rising in four; and are steady in eight. The number of workers on test works in Merwara on the last day of the week was 1,251.

Central India.—There was partial rain during the week in parts of Gwalior and general rain elsewhere. Ploughing and sowing are in progress throughout the Agency. The condition of agricultural stock and pasturage is fair to good. Prices continue high in Bhopal, Baghelkhand and in parts of Gwalior, are falling in Jaora and Bhopawar; and are steady elsewhere.

Kashmir.—The weather is hot and dry. The spring crops are being harvested. Prices are stationary.

Jammu.—There was good rain in Kishtwar during the week. Prices are fluctuating. Wheat sells from 12 to 24 and maize 24 to 38 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Autumn sowings are in progress.

Nepal.—Report not received.

J. WILSON,

Secretary to the Government of India.

H. A. STUART,
Offg. Secretary to the Government of India

No. R. Stat. $\frac{11}{85}$.

RAILWAY BOARD.

Simla, the 13th July, 1905.

Progress in the introduction of, and results of working, the automatic vacuum brake on railways in India, during the six months ended the 31st December 1904, tables Nos. I and II.

Read again—

Government of India letter No. 62 R. Stat., dated the 19th October 1891.

Government of India letter No. 424 R. Stat., dated the 21st October 1896.

Government of India letter No. 225 R. Stat., dated the 19th June 1903.

ORDER.—Ordered, that tables Nos. I and II be forwarded, for information, to the Local Governments and Administrations, and to the officers noted in the margin.

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab and Burma.
 The Honourable the Chief Commissioners of the Central Provinces and Assam.
 The Honourable the Resident at Hyderabad.
 The Honourable the Resident in Mysore.
 The Honourable the Agents to the Governor General for Rajputana, Central India and Baluchistan.
 The Honourable the Agent to the Governor General and Chief Commissioner of the North-West Frontier Province.
 The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Assam.
 The Managers, North-Western, Oudh and Rohilkhand and Eastern Bengal State Railways.

Ordered, also, that copies be forwarded for the information of His Majesty's Government.

Further that this order, with the tables, be published in the Supplement to the *Gazette of India*.

NEVILLE PRIESTLEY,

Secretary, Railway Board.

Enclosure to the Railway Board's letter No. R. Stat. 71/8 of 1905.

Progress in the introduction of, and results of working, the automatic vacuum brake on railways in India, during the six months ended the 31st December 1904, tables Nos. I and II.

TABLE NO. I.

Statement showing, for the six months ended the 31st December 1904, the railways on which the automatic vacuum brake was in use, the mileage run by trains fitted with the brake, the number and proportion of rolling-stock fitted, and the progress made in fitting stock since the previous half-year.

Railway (including lines worked).	Period.	LOCOMOTIVES.		COACHING VEHICLES (including all brake-gans).			GOODS VEHICLES (excluding all brake-gans and cranes).				Percentage of mileage run by trains fitted on total train mileage.	Total number of instances in which the brake failed to act or caused delay in the working of trains.	Number of miles run by trains fitted.	(15)	(16)	(17)
		Fitted.	Not fitted.	Percentage of fitted on total.	Braked.	Piped.	Not fitted.	Percentage of braked and piped on total.	Braked.	Piped.	Not fitted.	Percentage of braked and piped on total.	Number of miles run by trains fitted.			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)

(a) Includes one hundred 5' 6" gauge coal wagons borne on the Rajputana-Malwa railway rolling-stock list.
(b) Excludes locomotives and vehicles in use on lines under construction.
(c) Brakes not brought into use.
(d) Increase due to sale of 72 wagons to the Bareilly-Soron railway.
(e) The detailed figures in columns 4, 8 and 12 do not work up to the totals, as the latter include stock of railways not detailed in the table.
(f) Excluding the Thaton-Duyanaik Light railway for which no information is available.
(g) Calculated on the train-mileage excluding that run on the Powayan and Thaton-Duyanaik Light railways for which train-mileage statistics are not available.
(h) Calculated on the train-mileage excluding that run on the railways named in note (g) and Dandot Light railway for which train-mileage statistics are not available.

TABLE No. II.

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains.

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure	Instances under the three following heads, separately of— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake; distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" gauge. Bengal-Nagpur	Vacuum, automatic	... 18th July 1904 ... 23rd July 1904 ... 2nd September 1904 2nd October 1904 30th October 1904	(i) and (ii)—Nil. (iii) Failure of machinery.—No. 11 down passenger train worked non-vacuum from Chakardharpore to Khargpur, due to a heavy leak in the train pipe. (iii) Failure of machinery.—No. 4 up mail train lost 26 minutes between Basta and Baripada Road and worked non-vacuum from Baripada Road to Khurda Road, due to a leak in the combination crown valve. (iii) Neglect of servants.—No. 4 up mail train detained 12 minutes at Dantan and 7 minutes at Soro and worked non vacuum from Dantan to Jenapur, due to a defect in the brake of the engine. (iii) Failure of machinery.—No. 5 down passenger train detained 15 minutes at Khargpur, due to two leaks owing to the rubber washers of the hose coupling having perished. (iii) Failure of machinery.—No. 8 up passenger train lost 20 minutes at Chimpura, due to a breach in the internal vacuum exhaust pipe.	761,865
Bombay, Baroda and Central India.	Vacuum, automatic	... 15th July 1904 ... 28th September 1904 16th October 1904 17th October 1904 1st November 1904 8th November 1904	(i) and (ii)—Nil. (iii) Failure of material.—No. 3 down mail train detained 5 minutes at Elphinstone Road, owing to the pipes between the engine and a third class carriage having got disconnected due to the tender screw coupling jumping out and coming in contact with the pipes. (iii) Failure of machinery.—No. 7 down passenger train detained 25 minutes at Mukarpura to release the brake blocks of a carriage which had got jammed on the wheels. (iii) Neglect of servants.—No. 193 down local train lost 16 minutes, owing to the piston of a bogie composite carriage getting jammed. (iii) Failure of machinery.—No. 3 down passenger train detained 7 minutes at Bajura and 16 minutes at Vased to release the brake blocks of two 3rd class carriages which had jammed. (iii) Failure of material.—No. 1 down mail train lost 47 minutes between Goregaon and Virar, owing to the hose pipe on the tender of the engine getting uncoupled due to the tender screw coupling having been jerked off the hook and striking the pipe and damaging it by ripping it open. (iii) Failure of material.—No. 1 down mail train detained 20 minutes at Nadiad, owing to the branch pipe of the vacuum cylinder having broken from the train pipe connections.	See page 1339.

TABLE No. II—*contd.*

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—*contd.*

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 2.	Date of failure.	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake; distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" Gauge— <i>contd.</i>				
Bombay, Baroda and Central India— <i>contd.</i>	Vacuum, automatic	19th November 1904	(iii) Neglect of servants.—No 7 down ordinary train lost 12 minutes at Virar and Saphala, owing to the brake blocks of a road van and a bogie carriage jamming on the wheels.	860,675
		24th December 1904	(iii) Failure of machinery.—No. 6 up local train detained 10 minutes at Navli, due to the brake blocks of a bogie 3rd class carriage not releasing.	
Eastern Bengal State	Vacuum, automatic	...	(i) and (ii) —Nil.	433,229
		3rd August 1901...	(iii) Failure of material.—No. 20 down local passenger train lost 15 minutes between Bolghurrah and Sinti Road, due to the train pipe of the brake van leaking below the top clamp.	
		5th September 1904	(ii) Neglect of servants.—No 14 down local passenger train detained 7 minutes at mile 5-3, due to the hose pipe washer of a 3rd class carriage not having been properly fitted.	
		21st September 1901	(iii) Neglect of servants.—No 34 down passenger train detained 14 minutes at Bhairanara and worked non-vacuum, due to the coupling pipe of a hsh van attached at that station being deficient of a rubber washer.	
		19th October 1904	(iii) Neglect of servants.—No 34 down passenger train detained 10 minutes at Naihati Junction, due to the driver having to lash up the tender universal hose coupling which was torn by the staff while uncoupling a horse box.	
East Indian	Vacuum, automatic	...	(i) and (ii) —Nil.	See page 1341.
		3rd July 1904	(iii) Neglect of servants.—No. 11 up passenger train detained 6 minutes at Gidhaur and worked non-vacuum to Kail, owing to the hose pipe couplings of the coaching stock being deficient of rubber washers.	
		11th July 1904	(iii) Neglect of servants.—No. 6 down passenger train detained 15 minutes at Tundla and worked non-vacuum to Cawnpore, due to the train pipe union nut over the splashers being slack.	
		24th July 1904	(ii) Failure of material.—No. 7 up passenger train lost 12 minutes between Ghaziabad and Tundla, owing to a bad split in the internal steam pipe on the engine.	
		29th July 1904	(iii) Failure of material.—No. 4 down Bombay mail train detained 6 minutes at mile 262, between Simultala and Baidyanath Junction and worked non-vacuum to Madhupur owing to the main vacuum pipe on the engine breaking.	
		5th August 1904	(iii) Neglect of servants.—No. 19 up passenger train detained 19 minutes at down distant signal of Rampore Haut, owing to a rubber washer of the vacuum hose being deficient in an officer's carriage.	

TABLE No. II—*contd.*

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent, (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required, (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" Gauge— <i>contd.</i> East Indian— <i>contd.</i>	Vacuum, automatic	31st August 1904	(iii) Failure of machinery.—No. 11 up passenger train detained 20 minutes at Kunt, owing to the train pipe of a 1st class carriage leaking.	See page 1341.
		1st September 1904	(iii) Failure of machinery.—No. 12 down passenger train detained 35 minutes at Patna, owing to a leak in the pipe of a 1st class carriage.	
		14th September 1904.	(ii) Failure of material.—No. 6 down passenger train detained 15 minutes at Umballa, owing to the vacuum hose pipe of an intermediate class carriage having broken.	
		19th September 1904.	(iii) Failure of machinery.—No. 19 up passenger train worked non-vacuum from Howrah to Burdwan, owing to defective train pipes. No detention.	
		22nd September 1904.	(iii) Failure of material.—No. 8 down passenger train detained 18 minutes at Sarsaul, owing to some defect in the train. Exact cause unknown.	
		4th November 1904	(ii) Failure of material.—No. 6 down passenger train lost 30 minutes between Tundla and Sarsai-Bhopat, owing to a leak from a washer on the hose pipe of the rear brake van.	
		4th November 1904	(iii) Failure of material.—No. 5 up passenger train lost 11 minutes between Kamrauli and Sarsaul, owing to a defective vacuum in a postal composite.	
		4th November 1904	(iii) Neglect of servants.—No. 19 up passenger train detained 18 minutes at Rampore Haut, owing to the vacuum ejector being defective.	
		5th November 1904	(iii) Neglect of servants.—No. 20 down passenger train lost 14 minutes at Jamalpur and 33 minutes between Jamalpur and Sahabganj, owing to the vacuum ejector being defective.	
		8th November 1904	(iii) Failure of material.—No. 20 down passenger train detained 24 minutes at Burdwan, owing to the hose pipe of a 3rd class carriage being defective.	
		19th November 1904.	(iii) Failure of material.—No. 8 down passenger train detained 25 minutes at Madhupur, owing to a leaky hose pipe.	
		21st November 1904	(iii) Neglect of servants.—No. 12 down passenger train lost 1 hour and 8 minutes between Ghaziabad and Tundla, owing to the vacuum ejector being defective.	
		24th November 1904.	(iii) Failure of machinery.—No. 5 up passenger train detained 6 minutes at Pundooah, 4 minutes at Boinchee and 58 minutes at Burdwan, owing to a leakage in an Eastern Bengal State railway 3rd class carriage.	

TABLE No. II—*contd.*

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—*contd.*

1		3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 1.	Date of failure.	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required. (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" Gauge— <i>contd.</i>				
East Indian— <i>concl'd</i>	Vacuum, automatic	24th November 1904.	(iii) Failure of machinery.—No. 16 down Punjab-Bombay mail train lost 14 minutes between Umballa and Kharindwa and worked non-vacuum from Kharindwa to Tundla, owing to the engine train pipe joints leaking.	2,559,198
		10th December 1904	(iii) Failure of material.—No. 16 down Punjab-Bombay mail train detained 10 minutes at mile 808, between Damar and Khurja, and worked non-vacuum to Tundla, owing to the copper train pipe on the engine breaking near the ejector.	
		13th December 1904	(iii) Neglect of servants.—No. 19 up passenger train detained 19 minutes at Nalhuti in fitting a rubber washer which was deficient on the hose pipe of a carriage.	
		22nd December 1904.	(iii) Failure of material.—No. 19 up passenger train detained 7 minutes at Rampore Haut, 32 minutes at Nalhuti and 12 minutes at Sahabgunge, to winch the hose pipe of the rear brake van.	
		25th December 1904	(iii) Failure of material.—No. 19 up passenger train lost 8 minutes between Nalhuti and Tinpahar and 20 minutes at Mirza chowki and worked non-vacuum from Mirza chowki to Jamalpur, owing to the hose pipe between the engine and tender being defective.	
Great Indian Peninsula.	Vacuum, automatic	...	(i) and (ii)—Nil.	See page 1343.
		8th July 1904	(iii) Failure of material.—No. 15 down passenger train detained 2 minutes at Kurla, 3 minutes at Thana, and 1 minute at Khalavli, owing to the driver being unable to create vacuum due to the large ejector back pressure valves being tight and slightly corroded.	
		22nd August 1904	(iii) Failure of material.—No. 10 up mail train lost 50 minutes between Wadi and Gulbarga and worked non vacuum from Gulbarga to Sholapur, owing to a heavy leak in the continuous coupling pipe of a Madras railway postal van.	
		3rd September 1904	(iii) Failure of material.—No. 14 up passenger train started 5 minutes late from Jhansi, owing to a leak in the hose coupling of a road van.	
		9th September 1904	(iii) Failure of material.—No. 24 up passenger train lost 10 minutes between Murtajapur and Katepurna, owing to the brake pistons of two North Western railway 3rd class carriages not releasing.	
		14th September 1904	(iii) Failure of material.—No. 187 down passenger train detained 25 minutes at Vangani, owing to the brake blocks of a bogie composite carriage binding hard on the wheels. The rolling ring being twisted in the cylinder and the joints partly opened.	

TABLE No. II—contd.

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure.	Instances under the three following heads, separately, of:— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake; distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" Gauge—contd.				
Great Indian Peninsula—contd.	Vacuum, automatic	14th September 1904	(iii) Failure of material.—No. 1 down mail train detained 15 minutes at Pulgaon, owing to the left hand vacuum brake piston of the engine being jammed through the rolling rings being twisted and the neck ring badly worn.	See page 1343.
		24th September 1904	(iii) Neglect of servants.—No 21 down passenger train detained 5 minutes at Jalamb, as the driver was unable to recreate vacuum owing to a rubber washer being deficient on one of the Clayton couplings of a gas holder.	
		22nd October 1904	(iii) Failure of material.—No. 16 up passenger train worked non-vacuum from Bina to Bhopal, owing to a heavy leak in the cylinder of the brake van.	
		31st October 1904	(iii) Neglect of servants.—No 15 down passenger train detained 22 minutes at Dadai, as the driver was unable to recreate vacuum owing to several India rubber washers of the universal couplings of three road vans being deficient.	
		6th November 1904	(iii) Failure of material.—No. 32 up passenger train detained 1 hour and 40 minutes at Mohol, as the driver was unable to maintain sufficient vacuum, owing to the Clayton coupling pipe of a 3rd class carriage being split. The leak caused the brake blocks to bind on the wheels.	
		7th November 1904	(iii) Neglect of servants.—No. 14 up passenger train worked non-vacuum from Bina to Bhopal and lost 18 minutes on the journey, owing probably to the hose coupling not being correctly locked and causing a leak.	
		22nd November 1904	(iii) Neglect of servants.—No. 23 down passenger train detained 14 minutes at Akola, owing to four universal couplings of two road vans attached at that station being deficient of rubber washers.	
		23rd November 1904	(iii) Failure of material.—No. 4 up mail train came to a stand and was detained 4 minutes at mile 17, owing to the Clayton couplings between the rear brake van and a composite bogie carriage having the top lugs out of the slots and pressing against the face of the couplings.	
		24th November 1904	(iii) Failure of material.—No. 15 down passenger train detained 30 minutes at Kalyan to release the brake blocks of the engine which were binding hard on the wheels, owing either to one of the pistons sticking up or the shafts being jammed in the brackets.	
		26th November 1904	(iii) Failure of material.—No. 33 down passenger train detained 5 minutes at Ambarnath, the driver being unable to recreate vacuum, owing to a coupling breaking and parting the universal pipes.	

TABLE No. II—contd.

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Bailway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake; distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" GAGE—contd.				
Great Indian Peninsula—contd.	Vacuum, automatic	4th December 1904	(iii) Neglect of servants.—No. 13 down passenger train detained 8 minutes in recreating vacuum, owing to a leak in consequence of the couplings of some foreign railway vehicles attached to the train not being properly closed.	2,879,652
		30th December 1904	(iii) Failure of material.—No. 8 up mail train came to a stand and detained 30 minutes at mile 590, owing to the flexible India rubber pipe of a 3rd class carriage having split. The train worked non-automatic up to Gote-gaon.	
Madra-	... Vacuum, automatic	...	(i) and (ii)—Nil.	679,851
		31st August 1904	(iii) Failure of machinery.—No. 1 down mail train detained 10 minutes at Chinnai Ganjam, due to the piston of the engine drawing air.	
		4th October 1904	(iii) Failure of material.—No. 1 down mail train detained 10 minutes at Kaval and 9 minutes at Udayapul, due to the breakage of the vacuum chamber pipe under the engine.	
		8th October 1904	(iii) Failure of machinery.—No. 87 down mail train detained 10 minutes at mile 392, South-West line, due to the hose pipe of the brake van being defective.	See page 1344.
North-Western State.	Vacuum, automatic	...	(i) and (ii)—Nil.	
		12th July 1904 ...	(iii) Neglect of servants.—No. 3 up passenger train detained 10 minutes at Saharanpur, owing to the universal hose pipe couplings not being properly coupled up.	
		16th July 1904 ...	(iii) Neglect of servants.—No. 8 down mail train detained 6 minutes at Rahimyar Khan, owing to a 3rd class carriage being fitted with a defective universal hose pipe coupling.	
		19th July 1904 ...	(iii) Neglect of servants.—No. 23 up mixed train lost 37 minutes between stations, owing to the universal hose pipe couplings not being properly coupled up.	
		20th August 1904	(iii) Failure of material.—No. 27 up passenger train lost 18 minutes between Butari and Jandiala, owing to both pistons of a bogie carriage jamming, due to the rolling rings of the pistons having twisted.	
		6th October 1904	(iii) Failure of material.—No. 3 up local train detained 10 minutes at Allahdino Sand, owing to the piston of a third class carriage jamming, the rolling ring having twisted.	
		10th October 1904	(iii) Neglect of servants.—A special train lost 45 minutes between Bakrani and Madeji Road, owing to the universal hose pipes of two wagons not being properly coupled.	

TABLE No. II—*contd.*

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—*contd.*

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6" GAUGE— <i>concl.</i>				
North Western State— <i>concl.</i>	Vacuum, automatic	10th October 1904	(iii) Failure of material.—A down special train detained 6 minutes at Dadu, owing to the piston rod packing ring of a 3rd class carriage being defective.	2,637,734
		18th October 1904	(iii) Neglect of servants.—No. 43 up passenger train detained 14 minutes at Kotri, owing to the universal hose pipe couplings of two 3rd class carriages being deficient of rubber washers.	
		19th November 1904	(iii) Failure of material.—No. 4 down mail train detained 4 minutes at Ghaziabad, owing to the ball valve diaphragms of a 3rd class carriage and a composite bogie being defective.	
		19th December 1904	(iii) Failure of material.—No. 1 up Quetta mail train detained 23 minutes at Jacobabad, owing to the piston of one carriage and the hose pipe of another being defective.	
		19th December 1904	(iii) Neglect of servants.—No. 24 down passenger train lost 12 minutes between Khanpur and Rohri, owing to the chamber hose pipe of the engine being badly fitted.	
		20th December 1904	(iii) Failure of material.—No. 3 up passenger train lost 10 minutes between Delhi and Ghaziabad, owing to the piston rod packing ring of a 2nd class carriage drawing air.	
Oodh and Rohilkhand State.	Vacuum, automatic	...	(i) and (ii)— <i>Nil.</i>	943,507
		25th August 1904	(iii) Neglect of servants.—No. 42 down mail train on the Aligarh branch detained 16 minutes at Aligarh, owing to the piston packing ring of a 3rd class carriage blowing.	
		12th September 1904	(ii) Neglect of servants.—No. 48 down mail train on the Delhi branch lost 5 minutes between Delhi and Delhi-Shahdara, owing to the universal coupling of a 3rd class carriage being deficient of rubber washers.	
		11th October 1904	(iii) Failure of material.—No. 42 down mail train on the Aligarh branch lost 8 minutes between Aligarh and Babra, owing to the rolling ring of the brake van having perished.	
		21st October 1904	(iii) Failure of material.—No. 7 up passenger train lost 14 minutes between Mughalpur and Landhaura and 12 minutes at the latter station, owing to the piston rod packing of the brake van drawing air.	
		14th December 1904	(iii) Failure of material.—No. 7 up passenger train detained 12 minutes at mile 420, owing to the piston rod packing of a 3rd class carriage drawing air.	

TABLE No. II—contd.

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
3' 3½" GAUGE. Bengal and North-Western.	Vacuum, automatic	...	(i) and (ii)—Nil. (iii) Neglect of servants.—No. 3 up passenger train started 8 minutes late from Katihar, owing to a washer being deficient from the hose pipe of a 3rd class carriage. (iii) Inexperience of servants.—No. 1 up passenger train started 13 minutes late from Sonopore, due to the inability of the staff to release the brakes. (iii) Inexperience of servants.—No. 2 down passenger train started 5 minutes late from Gonda, due to the inability of the staff to release the brakes. (iii) Inexperience of servants.—No. 1 up passenger train detained 39 minutes at Kursela, due to the inability of the staff to release the brakes of the brake van. (iii) Inexperience of servants.—No. 3 up passenger train started 8 minutes late from Sonopore, due to the inability of the staff to release the brakes. (iii) Inexperience of servants.—No. 1 up passenger train started 10 minutes late from Sonopore, due to the inability of the staff to release the brakes. (ii) Neglect of servants.—No. 2 down passenger train detained 5 minutes at Barauni, owing to some dirt having got between the hose pipe washer and the dummy plug.	140,434
Burma	... Vacuum, automatic	...	(i) and (ii)—Nil. (iii) Neglect of servants.—No. 4 down mail train while running between Pyn and Nyaung-binhtha came to a stand and detained 1 hour and 12 minutes, owing to the brakes going on. The piston gland of the vacuum cylinder of a composite carriage had come down in consequence of the stud nuts slackening back. (iii) Failure of material.—No. 110 down mixed train lost 32 minutes between Haum Hsu and Wetwun, owing to the rubber diaphragm in the brake van valve having perished. (iii) Failure of material.—No. 1 up express train detained 46 minutes at Toungoo, owing to the development of a hole in the hose pipe of a coaching vehicle close up to the swan neck. (iii) Failure of machinery.—No. 42 down local train detained 20 minutes, owing to a defective vacuum on the engine in consequence of grit having been drawn in through the air holes in the casing of the quick acting valve and getting between the ball-valve and seating.	See page 1346.

TABLE No. II—*contd.*

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—*contd.*

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent. (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required. (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake.
3' 3½" Gauge— <i>contd.</i>				
Burma— <i>contd.</i>	Vacuum, automatic	22nd September 1904	(iii) Neglect of servants.—No. 4 down mail train detained 11 minutes at Pyn, owing to the rubber washer of the coupling of the hose pipe on the brake van having been permitted to run in a defective condition through wear and tear.	524,422
		4th November 1904	(iii) Neglect of servants.—No. 108 down mixed train started 20 minutes late from Hsawpaw, owing to a hole in the hose pipe of the engine caused by fire.	
		20th November 1904	(iii) Neglect of servants.—No. 2 down express train detained 20 minutes, owing to the driver being unable to create a vacuum due to a small piece of coal getting between the train pipe washer and universal coupling.	
		9th December 1904	(iii) Neglect of servants.—No. 1 up mail train detained 34 minutes at Yamethin, owing to the engine ejector disc valve drawing air.	
		29th December 1904	(iii) Failure of machinery.—No. 4 down mail train detained 29 minutes, owing to the piston rod of the vacuum cylinder seizing the metal packing ring on the engine.	
Eastern Bengal State	Vacuum, automatic	...	(i) and (ii).—Nil.	184,000
		15th September 1904	(iii) Failure of material.—No. 21 up mail train detained 8 minutes at Nattore, due to the ball valve diaphragm of a 2nd class carriage blowing badly.	
		20th October 1904	(iii) Failure of machinery.—No. 22 down mail train detained 10 minutes at Jalpaiguri, due to a vacuum piston having jammed and the blocks not releasing.	
		28th November 1904	(iii) Failure of material.—No. 15 up Assam mail train lost 1 hour and 38 minutes between Parbatipur Junction and Dhubri, owing to the tender hose pipe of the engine being damaged and leaky.	
Rajputana-Malwa...	Vacuum, automatic	...	(i) and (ii).—Nil.	See page 1347.
		20th September 1904	(iii) Inexperience of servants.—No. 1 up mail train detained 3 minutes at Gurgaon, 2 minutes at Rajgarh, 6 minutes at Jhir and 4 minutes at Jaipur, owing to the brake blocks of a luggage van binding hard on the wheels and jamming the pistons.	
		5th October 1904	(iii) Inexperience of servants.—No. 1 up mail train lost 5 minutes between Rewari and Bawal and 17 minutes at Bawal owing to the piston of the brake van jamming.	

TABLE No. II—*concl'd.*

Statement showing, for the six months ended the 31st December 1904, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—concl'd.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALEUTTA, SATURDAY, JULY 29, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

Rates of subscription

	Per annum.
Subscription for Gazette and Supplement	Rs. 15 0 0
Postage	5 8 0
Subscription for Parts I, II, and III, or any of them	6 0 0
Postage	2 8 0
Subscription for Parts IV, V, and VI, or any of them	4 0 0
Postage	2 8 0
Subscription for Supplement only	5 0 0
Postage	3 0 0
Subscription for Supplement and Part VI	6 0 0
Postage	3 0 0
For a single copy of the <i>Gazette</i> and Supplement	0 8 0
For a single copy of Parts I, II, and III, or IV, V, and VI or Supplement	0 4 0
A special price will be fixed for specially heavy issues of the Gazette or any particular Part.	
Postage on single copies varies according to weight.

A. F. COX,
Comptroller General.

The 26th July 1905.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 27th July 1905.

N O T I F I C A T I O N S.

No. 2824 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 22nd July 1905 :—

- No. 337 of 1905.—William Henry Drury, lawyer, of Waltham, in the county of Middlesex, and state of Massachusetts, United States of America. *An improved woven fabric.*
- No. 338 of 1905.—Marconi's Wireless Telegraph Company, Limited, of 18 Finch lane, in the city of London, England. *Improvements in instruments for detecting and measuring alternating electric currents.*
- No. 339 of 1905.—John Wilbur Tierney, mechanical engineer, of 6 St. Helens Place, in the city and county of London, England. *Improvements relating to pneumatic hammers and similar tools.*
- No. 340 of 1905.—Gustav Berg, managing director, of Fabriksgrand 3, Stockholm, in the kingdom of Sweden. *An improved automatic check-valve for gas and liquid conduits.*
- No. 341 of 1905.—Villupuram Rajaratna Swaminatha Mudaliar, partner, Messrs. T. A. Ponnu & Co., Madras, residing at No. 5 Gangadara Easwarar Coil street, Purasawalkum, Madras. *A self bucket lifting and depositing hand sanitary cart.*
- No. 342 of 1905.—Madame Josephine Marie Louise Fleming, nee Imbert, of Chateau des Ormes sur Voulzie (S et M.) France. *Improvements in and relating to the methods of and means for generating and using hydro-carbon vapours for heating and lighting purposes.*
- No. 343 of 1905.—John Francis Appleby, gentleman, residing at 702 Leland Avenue, Chicago, Cook county, and state of Illinois, United States of America. *Cotton harvesting machines.*
- No. 344 of 1905.—William Grimshaw, weaving manager, Jacob Sassoon Mill, Bombay. *Improvements in the slasher sising machine.*
- No. 345 of 1905.—A. Pile, engineer, c/o of Remfry & Son, solicitors and patent agents, of 8—2 Hastings street, Calcutta. *Improvements in lamps for burning volatile oils.*
- No. 346 of 1905.—Gangadhar Ramchandra Mangrulkar, an employee in the Postal Department, residing in Mahim, Bombay. *An improved Indian water-lift.*

No. 2825 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 517 of 1904.—Frank Conrad, electrical engineer, of 206 Elm street, Edgewood Park, and William Maple Bradshaw, electrical engineer, of 400 Whitney Avenue, Wilkesburg, both in the state of Pennsylvania, United States of America. *Improvements in alternating current wattmeters.* (Specification filed 17 July 1905.)
- No. 518 of 1904.—William Maple Bradshaw, electrical engineer, of 400 Whitney Avenue, Wilkesburg, Pennsylvania, United States of America. *Improvements in bearings for shafts.* (Specification filed 17 July 1905.)

- No. 527 of 1904.—The Badische Anilin & Soda Fabrik, of Ludwigshafen-on-Rhine, in the German Empire. *Improvements in the preparation or manufacture of indigo paste for direct use in the fermentation vat.* (Specification filed 17 July 1905.)
- No. 53 of 1905.—William Bellew Ewin, engineer, of Calcutta, and Gladstone, Wyllie & Co., commission agents, of 101 Clive street, Calcutta, British India. *Improvements in combined railway chairs and sleepers.* (Specification filed 18 July 1905.)
- No. 143 of 1905.—Hugh Myddleton Butler, iron master, of Kirkstall Forge, near Leeds, in the county of York, England. *Improvements in axles for the wheels of road vehicles.* (Specification filed 18 July 1905.)
- No. 227 of 1905.—Jhanda Singh Uberoi, proprietor of the firm of Jhanda Singh Uberoi and Sons, manufacturers of Sporting Gear, Victoria Works, Sialkot city, Punjab. *Improvements in hockey sticks and the like.* (Specification filed 20 July 1905.)
- No. 261 of 1905.—James Earle Cheesman, president of the Cheesman Cotton Gin Company of West Virginia, of 17 South Arlington Avenue, East Orange, New Jersey, United States of America. *Improvements in cotton gins.* (Specification filed 18 July 1905.)
- No. 267 of 1905.—George von Berckefeldt, merchant, of 28 Dalhousie Square, West, Calcutta, and Alexander Talbot, engineer, and manager of the Bally Khal Bone Mills, Bally, in the district of Howrah. *Stoppers for sterilizer vessels, flasks, bottles, jars, and the like.* (Specification filed 20 July 1905.)

No. 2826 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 271 of 1895.—Theodore Guilleaume. *Improved means for insulating electric conductors.* (From 23 November 1905 to 23 November 1906.)
- No. 92 of 1898.—Charles Hodgson. *An improvement in apparatus for interlocking railway points and signals.* (From 25 August 1905 to 25 August 1906.)
- No. 110 of 1898.—George Labram. *A method and apparatus for separating diamonds from earthy matters.* (From 25 August 1905 to 25 August 1906.)
- No. 111 of 1898.—Charles Hodgson. *An improvement in railway signal interlocking apparatus.* (From 25 August 1905 to 25 August 1906.)
- No. 237 of 1898.—Ottmar Kern. *Improvements in incandescent gas burners.* (From 31 August 1905 to 31 August 1906.)
- No. 277 of 1898.—Ottmar Kern. *An improvement in Bunsen gas burners.* (From 31 August 1905 to 31 August 1906.)
- No. 331 of 1900.—Henry Tomkinson Flanagan. *Improvements in drawbars of wheeled vehicles.* (From 24 June 1905 to 24 June 1906.)
- No. 231 of 1901.—The Rowland Telegraphic Company. *Improvements in electric telegraphs.* (From 30 September 1905 to 30 September 1906.)
- No. 290 of 1901.—Oesterreichische Gasgluhlicht and Electricitats, Gesellschaft. *Improved means for supporting the osmium filaments of electric incandescent lamps.* (From 9 September 1905 to 9 September 1906.)
- No. 222 of 1902.—Porter Safety Seal Company. *Improvements relating to implements and devices for sealing bags, boxes, kegs and other articles.* (From 23 July 1906 to 23 July 1907.)

No. 2827 P.—WHEREAS the inventors of the undermentioned invention have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 404 of 1899.—Harry Edward Gresham. *Improvements in or applicable to mechanism for actuating brakes for railway wagons or vehicles.* (Specification filed 20 April 1900.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification.

The sum of Rs50 for the above invention.

No. 39 of 1899.—The Right Honourable Douglas Mackinnon Baillie Hamilton Cochrane, Earl of Dundonald. *Improvements in the coupling and traction of bicycles.* (Specification filed 20 April 1899.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs50 for the above invention.

No. 331 of 1896.—Samuel Holt Sharp. *Improvements in machinery or apparatus for producing patterns or designs on textile and felted fabrics and the like.* (Specification filed 20 April 1897.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (c) After the expiration of the seventh year and before the expiration of the eighth year from the date of the filing of the specification—

The sum of Rs50 for the above invention.

No. 179 of 1891.—Francis Edward Elmore. *Improvements in mandrils for electrolytically deposited tubes.* (Specification filed 19 April 1892.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (j) After the expiration of the twelfth year and before the expiration of the thirteenth year from the date of the filing of the specification—

The sum of Rs100 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

Remarks by the Administrative Medical Officer, North-West Frontier Province, on the general health of the Municipal Towns during the week ending Saturday, the 1st July 1905.

Births and deaths in Municipal Towns.—In the 10 Municipal Towns, 110 births were registered (60 males and 50 females), giving a birth-rate of 35 per mille of population; 82 deaths were registered (44 males and 38 females), giving a death-rate of 26 per mille of population.

Peshawar, the 19th July 1905.

V. HARRINGTON, Lt.-Col., I.M.S.,
Administrative Medical Officer, North-West Frontier Province.

ACCOUNTANT GENERAL, PUNJAB.

Distribution Statement of the Receipts in the North-West Frontier Province for May 1905 and of the Budget Estimate for the year 1905-06.

OFFICE OF ACCT. GENL., PUNJAB,

LAHORE:

The 20th July 1905.

F. ANDERSON,

Offg. Accountant-General, Punjab.

THE HONOURABLE THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 29th July 1905.

No. 4069.—In exercise of the powers conferred by section 33 of the Indian Electricity Act, 1903 (III of 1903), as applied to the Civil and Military Station of Bangalore, the Hon'ble the Resident in Mysore, with the previous sanction of the Governor-General in Council, is pleased to make the following rules applicable to the said Civil and Military Station, to regulate the generation, supply and use of energy, and generally to carry out the purposes and objects of the said Act:—

PRELIMINARY.

Definitions.

1. In these rules, unless there is anything repugnant in the subject or context,—

- (a) the expression "ampere" has the meaning assigned to it in the Order in Council, No. 211 of 1894, made under the Weights and Measures Act, 1889 (52 & 53 Vict., c. 21);
 - (b) the expression "consumer's wires" means any electric conductors on a consumer's premises which are connected with the service lines of the licensee at the consumer's terminals;
 - (c) the expression "current" means an electric current;
 - (d) the expression "cut out" means any appliance for interrupting the transmission of energy through any conductor when the current rises above the amount which the conductor is intended to transmit, and includes a safety fuse or other automatic disconnector;
 - (e) the expression "feeder" means a portion of any main used to convey energy from the source of supply to the point or points where it is distributed for use;
 - (f) the expression "generator" means the dynamo or dynamos or other electrical apparatus used for the generation of energy;
 - (g) the expression "motor" means any electric motor used for the conversion of energy;
 - (h) the expression "pressure" means the difference of electric potential between any two conductors through which a supply of energy is given, or between any part of either conductor and the earth; and the expressions "low-pressure," "high-pressure," and "extra high-pressure" are used in relation to electric supply-lines, conductors, circuits and apparatus according to the conditions of the supply delivered through the same or particular portions thereof; that is to say,—
 - (i) where the conditions of the supply are such that the pressure in any trolley line or other conductor, used in direct electrical and mechanical connection with any tramcar, may at any time or under any condition of the supply exceed 600 volts, but cannot exceed 3,000 volts, the supply shall be deemed to be a "high-pressure supply";
 - (ii) where the conditions of the supply are such that the pressure in any main, used for purposes other than electric traction, may at any time exceed 600 volts, if continuous, or 300 volts if alternating, but cannot exceed 3,000 volts whether continuous or alternating, the supply shall be deemed to be a "high-pressure supply";
 - (iii) where the conditions of the supply are such that the pressure may, on any system, exceed 3,000 volts, the supply shall be deemed to be an "extra high-pressure supply";
 - (i) the expression "ohm" has the meaning assigned to it in the Order in Council referred to in clause (a);
 - (j) the expression "the Act" means the Indian Electricity Act, 1903 (III of 1903), as applied to the Civil and Military Station of Bangalore;
 - (k) the expressions "transformer," "transformed" and "transforming" are used in relation to any appliance by means of which energy of higher potential is converted to energy of lower potential, or *vice versa*; and
 - (l) the expression "volt" has the meaning assigned to it in the Order in Council referred to in clause (a).
2. Where these rules require any metallic body to be "efficiently connected with earth" such body shall be connected with the general mass of earth in such manner as will ensure at all times an immediate and safe discharge of energy.

RULES AS TO THE SUPPLY OF ENERGY TO THE PUBLIC OR FOR ELECTRIC TRACTION UNDER PART II OF THE ACT.

AS TO LICENSES.

3. (1) Every application for a license shall be made in writing and shall be signed by or on behalf of, the applicant and addressed to the Local Government.

Application for license.

- (2) Every such application shall be headed by a short title descriptive of the proposed undertaking, and shall be accompanied by—

- (a) three copies of the draft license as proposed by the applicant, with the annexure or annexures (if any) referred to therein;
- (b) a copy of the map of the district or town published on a scale of not less than six inches to a mile, or, if there is no such published map, then a copy of the best map procurable, showing the boundaries of the proposed area of supply, and the streets and other places in, over or along which it is proposed to place any electric supply-lines or other works;
- (c) a statement describing any lands which the applicant proposes to acquire for the purpose of the license under the provisions of the Land Acquisition Act, 1894, as applied to the Civil and Military Station of Bangalore.
- (d) a list of any local authorities in whose districts the area of supply is situate;
- (e) a list of any canals and navigable rivers which the applicant seeks power to cross;
- (f) if the applicant is a company registered under any of the enactments relating to companies for the time being in force in the United Kingdom, or in any of the Colonies or Dependencies thereof, or in British India, or incorporated by an Act of Parliament or of the Governor General in Council, or by Royal Charter or Letters Patent, a copy of the memorandum and articles of association.

4. The applicant shall also deposit at his own office or at that of his agents, and at the office of every local authority within the proposed area of supply,—

Copies of map and draft license for public inspection.

- (a) a copy of the map referred to in rule 3, sub-rule (2), clause (b), for public inspection, and
- (b) a sufficient number of copies of the draft license to be furnished to all persons applying for them at a price not exceeding one rupee per copy.

5. (1) The draft license shall be in print, printed on one side only of the paper, and each annexure shall begin a new page.

Form of draft license.

- (2) The name and address of the applicant for the license and of his agent (if any) shall be printed on the outside of the draft.

6. The draft license shall contain the following particulars, namely:—

Contents of draft license.

- (a) the address and description of the applicant;
- (b) a description of the proposed area of supply;
- (c) a statement of the purposes for which the proposed supply is to be given;
- (d) a general description of the proposed works and system of supply;
- (e) a list of streets not repairable by the Local Government or by a local authority, and of railways, tramways and bridges, which the applicant seeks power to open, break up or interfere with;
- (f) a list of the canals and navigable rivers which the applicant seeks power to cross;
- (g) the proposed conditions of supply, including maximum prices, nature and amount of supply (if limited), and the like;
- (h) the proposed terms and conditions of purchase by any local authority concerned, and the periods after which the right to purchase is to enure; and
- (i) any proposed modifications of the schedule to the Act to be made, with the previous sanction of the Governor General in Council, under section 4, sub-section (1), clause (f), thereof.

7. Where any person locally interested objects to the grant of a license applied for under these rules, the Local Government shall, if either the applicant or the objector so desires, hold a local enquiry

Local enquiries.

of which due notice shall be given:

Provided that the Local Government may refuse to hold such an enquiry, if, in its opinion, the objection is of a trifling or vexatious nature.

8. Where a local authority, company, or person desires to have any clause inserted or other amendment made in the draft license, a statement of the same shall be delivered to the applicant, and also to the Local Government, within the time limited for objecting.

9. When a license has been granted under section 3 of the Act and delivered to the applicant he shall forthwith deposit printed copies for public inspection in all the offices referred to in rule 4, and shall furnish copies to all persons applying for the same at a price not exceeding one rupee per copy, and shall further publish the same in such manner as the Local Government may direct.

10. Where a licensee desires the written consent of the Local Government under section 12, sub section (1), of the Act to enable him to open or break up any street not repairable by a local authority, or any railway or tramway, application for such consent shall be made in writing, and shall describe accurately the street, railway, or tramway which the applicant seeks power to open or break up, and the extent to which he proposes to open or break up the same.

AS TO THE PROTECTION OF PERSONS AND PROPERTY.

Inspection and Testing.

11. (1) Where a license has been granted under section 3 of the Act, any Electric Inspector appointed under the Act may enter, inspect, and examine any place in which the Inspector has reason to believe that there are any appliances or apparatus, other than meters on consumer's premises, used by the licensee in the generation or supply of energy.

(2) The licensee shall afford at all times all reasonable facilities to any such Inspector to make such examinations and tests as may be necessary to ensure the due observance of the Act, the license and these rules; and shall, if and when required, forward to such Inspector all records of tests made by him under these rules.

12. The licensee shall provide all means for carrying out tests prescribed by or under the Act of the appliances or apparatus used in the generation or the supply and use of energy.

13. The pressure of a supply delivered to any one consumer, other than a tramway company, shall not exceed 250 volts at any two terminals, within reach of one another, and not under the sole control of the licensee, except with the written approval of the Local Government, which shall be given only on the joint application of the consumer and the licensee and subject to such further conditions as the Local Government may prescribe:

Provided that the licensee shall be deemed to have complied with the requirements of this rule so long as the pressure does not exceed the limit laid down in this rule by more than the amount of variation authorized under rule 71.

14. The pressure of a supply delivered to a transforming station, or to a transforming apparatus, on a consumer's premises may exceed 250 volts, but shall not exceed the limits of high-pressure, except with the written approval of the Local Government, which shall be given only on the joint application of the consumer and the licensee, and subject to such further conditions as the Local Government may prescribe.

15. Where the insulating material on any electric supply-line is protected wholly or partly by an external metallic covering, such metallic covering shall be efficiently connected with earth.

16. Every low-pressure main shall be tested by the licensee for insulation after having been placed in position, and before it is used for the purposes of supply, the testing pressure being at least double the maximum working pressure; and the licensee shall record the results of the tests of each main or section of a main or distributing main.

17. Suitable means shall be provided by the licensee for the immediate indication and localisation of leakage, and every leakage shall be remedied without delay.

18. (1) Where any portion of an electric supply-line or any support for an electric supply-line is exposed in such a position as to be liable to injury from lightning, the licensee shall adopt efficient means for protecting it against injury.

(2) Lightning arresters shall be capable of supporting successive discharges without attention.

High-pressure and extra high-pressure supply.

19. (1) No high-pressure circuit shall be brought into use unless the insulation of every part thereof has withstood the continuous application during one hour of pressure equal to, or exceeding, the maximum pressure to which it is intended to be subjected in use to the following extent, that is to say,—

Testing of insulation of high-pressure or extra high-pressure circuit.

(a) in the case of every high-pressure electric supply-line, machine, device, or apparatus, 50 per cent. greater than the said maximum pressure, or,

(b) in the case of extra high-pressure supply, equal to the said maximum working pressure in each case.

(2) The licensee shall make, and record the results of, every test prescribed by this rule.

20. In every case in which a high-pressure supply is transformed for the purpose of supply to one or more consumers, the best available automatic and quick-acting means shall be provided by the licensee to protect the consumer's wires from any accidental contact with, or leakage from, the high-pressure system, either within or without the transforming apparatus

Safety devices for the protection of consumers' wires.

Aërial lines.

21. The sectional area of the conductor, if of copper, in an aërial line shall not be less than the area of a No. 10 wire of the British Standard Wire Gauge, or, if of any other material, of such sectional area as to be of equivalent tensile strength.

Minimum size of conductors of aërial lines.

22. The conductors of every aërial line shall be attached to supports at intervals not exceeding the following spans, namely:—

Maximum intervals between supports.

(i) for a line of copper conductors of total section not exceeding one quarter of a square inch, or equivalent weight of wires of other metals, 200 feet ;

(ii) for a line of copper conductors of total section one-quarter to one-half of a square inch, or equivalent weight of wires of other metals, 175 feet, and

(iii) for a line of copper conductors of total section exceeding one-half of a square inch, or equivalent weight of wires of other metals, 150 feet :

Provided that in any specific instance where, in the opinion of an Electric Inspector appointed under the Act, the circumstances do not admit of it, this rule shall not apply :

Provided, also, that the Local Government may in any license, or by order in writing, modify this rule to such extent as it may think fit.

23. (1) Every support of an aërial line shall be of a durable material, firmly erected and, where necessary, properly stayed against forces due to wind pressure, change of direction of the line, or unequal lengths of span.

Construction and erection of supports.

(2) The factor of safety of the aërial line shall, at the minimum temperature of the locality, be at least four, and the factor of safety of all other parts of the structure at least four under all conditions, the maximum possible wind pressure being taken at 50 lbs. per square foot.

(3) For cylindrical bodies, such as posts and wires, the effective area shall be taken as two-thirds of the total area exposed to pressure.

(4) Every support, if of metal, shall be efficiently connected with earth in so far as the nature of the ground in which the support is fixed makes this practicable.

24. Subject to the provisions of rules 64 and 65, no conductor of an aërial line shall be at a less height from the ground than 20 feet or within 5 feet measured horizontally or 7 feet measured vertically from any building or erection other than a support for the line, unless it has been brought into a building for the purpose of supply :

Height from ground and distance from buildings.

Provided that the Local Government may, by order in writing, permit any modification of this rule which it may consider necessary.

25. Except with the written approval of the Local Government and of the telegraph authority, aërial lines shall be carried along only one side of a street.

One side of street only to be occupied.

26. (1) Aërial service lines shall be led as directly as possible to insulators firmly attached to some portion of the consumer's premises and (unless surrounded or guarded by a suitable metallic guard efficiently connected with earth) at a distance not less than 5 feet therefrom.

Service lines from aërial lines.

(2) Such service lines shall not be accessible to any person without the use of a ladder or other special appliance, and from the point of attachment they shall be enclosed and protected in accordance with rules 42 to 44 as to a licensee's lines on a consumer's premises.

27. (1) Where an aerial line, other than a trolley wire for electric traction, crosses a street, the angle between the line and the direction of the street at the place of crossing shall be not less than 60 degrees, and there shall be no joint in any wire at the place of crossing.

Angle of crossing street.

(2) Where the width of the street exceeds 30 feet, a support shall be erected by the licensee on each side of it and the space between the supports shall be as short as practicable.

(3) This rule shall not apply to service lines protected with a device, approved by the Local Government, for rendering any line harmless in case it breaks: and where the rule applies, the Local Government may, by order in writing, permit any modification of it which it may consider necessary.

28. (1) Where an aerial line crosses, or is in proximity to, an aerial line belonging to another licensee, or to any telegraph wire not protected with a permanent insulating covering, adequate precautions shall be taken by the licensee against the possibility of his line coming into contact with the other line or wire, or of the other line or wire coming into contact with his line, by breakage or otherwise.

Crossing wire.

(2) The guarding of aerial lines shall be carried out in such manner as the Local Government, after consultation with the telegraph authority, may, by general or special order in any case direct.

(3) A licensee shall not commence the supply of energy through any aerial line until it has been guarded and protected, as required by sub-rules (1) and (2), wherever it crosses, or is crossed by, any existing aerial line or telegraph wire.

(4) On receiving notice that a new aerial line or telegraph wire is, or will be, erected across an existing aerial line, the licensee shall arrange to have his line guarded at such place within 15 days of the receipt of the notice, and in such case the actual expense incurred in erecting the guard wires shall be refunded to the licensee by the owner of the new aerial line or telegraph wire.

(5) Where an aerial line crosses, or is liable to be blown on to, a metal roof or other metallic substance, efficient means shall be taken by the licensee to prevent the electrical charging of the same in case of accident; and there shall be no joint in any such span of an aerial line.

29. (1) Except with the written consent of the Local Government, high-pressure and low-pressure aerial lines shall in no case be carried on the same supports, unless when they cross one another.

High pressure and low-pressure aerial lines not allowed on same supports.

(2) Whenever a high-pressure aerial line crosses a low-pressure aerial line, it shall pass above the low-pressure aerial line and in a direction as nearly at right angles as the nature of the case admits, and the provisions of rule 28 shall apply.

30. The following precautions shall be taken by the licensee with regard to high-pressure and extra high-pressure aerial lines, namely:—

High-pressure and extra high-pressure aerial lines.

(a) Arrangements shall be made to prevent any person from climbing up such a support without the use of a ladder or special device.

(b) Where the high-pressure conductors cross over a public road, railway or canal, a suitable device shall be fitted up to render any wire harmless, if it should break.

(c) Stay wires on any such support shall be broken electrically below the line wires by the interposition of suitable strain insulators, unless efficiently connected with earth through a suitable earth-plate.

31. (1) Every high-pressure aerial line, if continuously covered with insulating material, shall be efficiently suspended by means of insulating ligaments to suspending wires, so that the weight of the line may not produce any sensible stress in the direction of its length.

Suspending wires.

(2) All suspending wires, if of iron or of steel, shall be galvanised.

32. Every aerial line, including the supports thereof and all the structural parts and electrical appliances and devices belonging thereto or connected therewith, shall be duly and efficiently supervised and maintained by the licensee as regards both electrical and mechanical conditions.

Maintenance.

33. The licensee shall not leave an aerial line erected after it has ceased to be used for the supply of energy, unless he intends within a reasonable time again to take it into use.

Unused aerial lines to be removed.

Electric supply-lines and apparatus other than aerial lines.

34. Where an electric supply-line crosses, or is in proximity to, any metallic substance precautions shall be taken by the licensee against the possibility of the metallic substance becoming charged.

Crossing metallic substances.

35. Where isolated lengths of metal conduits, pipes or casings are used for the protection of any electric supply-line at road-crossings or in similar positions, special precautions shall be taken by the licensee to prevent the possibility of any electrical charging thereof.

36. (1) Where the conductors of electric supply-lines placed in any conduit are not continuously covered with insulating material, they shall be secured in position, and no unfixed uninsulated material of a conducting nature shall be contained in the conduit, nor shall the pressure in such conductor be higher than 500 volts.

(2) Adequate precautions shall also be taken by the licensee to ensure that no accumulation of gas or water shall take place in any part of the conduit, and to prevent any dangerous access of moisture to the conductors or insulators.

(3) The insulators shall be so disposed that they can be readily inspected.

(4) The restriction in sub-rule (1) as to pressure shall not apply where an aerial line is taken into a conduit for the purpose of passing through an embankment or similar obstruction, but in such a case no low-pressure conductor may be laid in the same conduit with a high-pressure or extra high-pressure one.

37. Every portion of a high pressure electric supply-line (not being an aerial line) placed above the surface of the ground or in any sub-way not in the sole occupation of the undertakers, shall be completely enclosed either in a tube of highly insulating material embedded in brickwork, masonry, or concrete, or in a strong metal casing efficiently connected with earth.

38. Where a high-pressure electric supply-line is laid beneath the surface of the ground, efficient means shall be taken by the licensee to render it impossible that the surface of the ground or any neighbouring electric supply-line or conductor shall become charged by leakage therefrom.

39. (1) Transforming stations which are not on a consumer's premises, shall be established in suitable places in the sole occupation and charge of the licensee.

(2) The covers and frames and other metallic parts (other than parts of the electrical circuit) of all high-pressure and extra high-pressure apparatus of every description shall be either efficiently connected with earth, or, if insulated, so placed and arranged that it is impossible for any person to obtain a shock to earth from them.

40. (1) The cover of every street-boxes and junction pillar shall be so secured that it cannot be opened except by means of a special appliance.

(2) The covers of all street-boxes and junction pillars containing high-pressure apparatus other than cables shall be connected with strips of metal laid immediately beneath the adjacent roadway, and efficient means shall be taken to render it impossible that the covers or other exposed parts of any such street-box, or any adjacent material forming the surface of the street, shall become electrically charged, whether by reason of leakage, defect or otherwise.

(3) Where street-boxes are used as transformer chambers, reasonable means shall be taken by the licensee to prevent, as far as possible, any influx of water either from the adjacent soil or by means of pipes, and, in the case of any such street-box exceeding one cubic yard in capacity, ample provision shall be made, by ventilation or otherwise, for the immediate escape of any gas which may by accident have obtained access to the street-box and for the prevention of danger from sparking.

(4) Every street-box shall be regularly inspected for the presence of gas, and, if any influx or accumulation is discovered, the licensee shall give immediate notice to the authority or company (if any) whose gas mains are laid in the neighbourhood thereof.

Licencees' lines on consumer's premises.

41. The licensee shall be responsible that all electric conductors, fittings, and apparatus belonging to him, or under his control, which may be upon a consumer's premises, are maintained in a safe condition and in all respects fit for supplying energy.

42. (1) A suitable cut-out shall be inserted in each service line within a consumer's premises (not being the neutral wire of a multiple wire system), as close as possible to the point of entry and contained within a suitable locked or sealed receptacle of fireproof construction throughout, and shall be under the sole control of the licensee, except in cases where the service line is protected by fuses at the point of connection with the distributing main.

(2) If the receptacle is of porcelain or some other substance liable to be easily broken, it shall be suitably protected against injury, and such protection shall also be fireproof.

43. So much of any service line as is not an aerial line and is placed on a consumer's premises shall be highly insulated and enclosed either in an electrically continuous metallic covering efficiently connected with earth or in a tube of porcelain or earthenware.

44. Where the general supply of energy is a high pressure supply and transforming apparatus is installed on a consumer's premises, the whole of the high-pressure service lines, conductors, and apparatus, including the transforming apparatus itself, so far as they are on the consumer's premises, shall be completely enclosed in solid walls or in a strong metal casing efficiently connected with earth, and shall be securely fastened throughout.

45. The licensee shall not connect the wires and fittings on a consumer's premises with his mains unless he is reasonably satisfied that the connection will not cause a leakage from those wires and fittings exceeding one five-thousandth part of maximum supply current to the consumer's premises; and, where the licensee declines to make such a connection, he shall serve upon the consumer a notice stating his reasons for so declining.

46. (1) If the licensee is reasonably satisfied, after making all proper examination by testing or otherwise, that a leakage exists at some part of a circuit of such extent as to be a source of danger, and that such leakage does not exist at any part of a circuit belonging to the licensee, then any person authorized in writing by the licensee in accordance with the provisions of the Act in this behalf, or, on the application of the licensee, an Electric Inspector appointed under the Act may, for the purpose of discovering whether the leakage exists at any part of a circuit within or upon any consumer's premises, after giving the consumer reasonable notice in writing, inspect and test the wires and fittings belonging to the consumer and forming part of the circuit.

(2) Where the licensee obtains the services of an Electric Inspector under this rule, he shall pay such fee as the Local Government may fix in this behalf.

(3) If, on testing in the manner referred to in sub-rule (1), the person authorized by the licensee or the Electric Inspector as aforesaid discovers a leakage from the consumer's wires exceeding one five-thousandth part of the maximum supply current to the premises, or if the consumer does not give all reasonable facilities for inspection and testing, the licensee may forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and need not recommence the supply until he is reasonably satisfied that the leakage has been stopped.

47. (1) Where a consumer is dissatisfied with the action of a licensee in refusing to give, or in discontinuing, or in not recommencing, the supply of energy to his premises, the wires and fittings of such consumer may, on his application and on payment of such fee as the Local Government may fix in this behalf, be tested for the existence of leakage by an Electric Inspector appointed under the Act.

(2) This rule shall be endorsed on every notice given under the provisions of rule 45 or rule 46.

Arc lighting.

48. An isolation switch shall be provided for every arc lamp connected with any high-pressure electric supply-line, and the switch shall be of such pattern and construction as will provide—

- (a) that the lamp can by its means be entirely disconnected from the supply circuit;
- (b) that the switch itself can be safely worked in the dark without special precautions;
- (c) that there shall be no danger of any injurious electrical arcing, sparking, or heating being caused by the operation of the switch; and
- (d) that, where the switch is accessible without the use of a ladder or special appliance, it shall be in a locked metallic receptacle efficiently connected with earth.

AS TO ELECTRIC TRACTION (CONTINUOUS CURRENT).

49. Every dynamo used as a continuous current generator shall be of such pattern and construction as to be capable of producing a continuous current without appreciable pulsation.

50. (1) One of the two conductors used for transmitting energy from the generator to the motor (hereinafter referred to as a "line") shall in every case be insulated from earth.

"Line," "return," and "trolley wire."

(2) The other conductor (hereinafter referred to as a "return") may be insulated throughout, or may be uninsulated in such parts and to such extent as is provided in the following rules.

(3) A suspended aerial line from which energy is transmitted into a car, is hereinafter referred to as a "trolley wire."

51. (1) Where any rails on which cars run, or any conductors laid between or within three feet of such rails, form any part of a return, such part may be uninsulated.

Insulation of return.

(2) All other returns or parts of a return shall be insulated, unless of such sectional area as will ensure compliance with rule 55.

52. (1) Where an uninsulated conductor forms any part of a return, it shall be of such section, and the several lengths shall be so connected together, as to ensure compliance with rule 55.

Bonding of return.

(2) Where an uninsulated conductor is laid between, or within three feet of, the rails, it shall be electrically connected with the rails at distances apart not exceeding 100 feet by means of copper strips having a sectional area of at least one-sixteenth of a square inch, or by other means of equal conductivity.

53. (1) Where any part of a return is uninsulated, it shall be connected with the negative terminal of the generator, and in such case the negative terminal of the generator shall also be directly connected, through the current indicator hereinafter mentioned, with two separate earth connections, which shall be placed not less than twenty yards apart :

Return to be negative and earthed.

Provided that in lieu of two such earth connections, the licensee may make one connection with a main for water-supply of not less than three inches internal diameter, with the consent of the owner of the main and of the person supplying the water :

Provided, also, that where, from the nature of the soil or for any other reason, the licensee can show, to the satisfaction of an Electric Inspector appointed under the Act, that such earth connections as are required by this sub-rule cannot be constructed and maintained without unreasonable expense, the provisions of this rule shall not apply.

(2) The earth connections required by sub-rule (1) shall be constructed, laid, and maintained so as to secure electrical contact with the general mass of earth, and so that the resistance from one earth connection to the other through the earth shall not exceed two ohms ; and a test shall be made by the licensee at least once in every month to ascertain whether this requirement is complied with.

(3) No portion of either earth connection shall be placed within six feet of any pipe, other than a main for water-supply of not less than three inches internal diameter which is metallically connected with the earth connections with the consent of the owner of the main and of the person supplying the water.

(4) Where the generator is at a considerable distance from the tramway, the uninsulated return shall be connected with the negative terminal of the generator by means of an insulated return, and the generator shall have no other connection with earth ; and in such case the end of the insulated return connected with the uninsulated return shall be connected also through a current indicator with two separate earth connections or, with the necessary consents, with a main for water-supply, or, with the like consents, with both in the manner prescribed in this rule.

(5) If the current-indicator cannot conveniently be placed at the connection of the uninsulated return with the insulated return, this instrument may consist of an indicator at the generating station connected by insulated wires with the terminals of a resistance interposed between the return and the earth connection or connections. The said resistance shall be such that the maximum current laid down in rule 54, sub-rule (1), clause (1), shall produce a difference of potential not exceeding one volt between the terminals. The indicator shall be so constructed as to indicate correctly the current passing through the resistance when connected with the terminal by the insulated wire above-mentioned.

54. (1) Where the return is partly or entirely uninsulated, the licensee shall, in the construction and maintenance of a tramway,—

Earth return current.

(a) so separate uninsulated return from the general mass of earth and from any pipe, metallic structure or substance in the vicinity,

(b) so connect together, the several lengths of the rail,

(c) adopt such means for reducing the difference produced by the current between the potential of the uninsulated return at any one point and the potential of the uninsulated return at any other point, and

(d) so maintain the efficiency of the earth connections specified in the preceding rules,

as to fulfil the following conditions, namely :—

(1) the current passing from the earth connections through the indicator to the generator, or through the resistance to the insulated return, shall not at any time exceed either two amperes per mile of single tramway line or 5 per cent. of the total current output of the station ; and

(ii) the difference of potential between the uninsulated return and any pipe, metallic structure, or substance in the vicinity shall not exceed five volts, when the return is relatively positive, or two volts, when the return is relatively negative.

(2) In order to provide a continuous indication that the condition specified in sub-rule (1), clause (i), is complied with, the licensee shall provide a suitable recording amperemeter, and shall keep it connected during the whole time that the line is charged.

(3) The owner of any pipe, metallic structure or substance in the vicinity of an uninsulated return may, in respect of the same, require the licensee at reasonable times and intervals to ascertain by test in his presence, or in that of his representative, whether the condition specified in sub-rule (1), clause (ii), is complied with; and, if such condition as aforesaid is found to be complied with, all reasonable expenses of and incidental to the carrying out of the test shall be borne by the owner, but if otherwise, by the licensee.

55. (1) Where the return is partly or entirely uninsulated, a continuous record shall be kept by the licensee of the difference of potential during the working of the tramway between the points of the uninsulated return furthest from and nearest to the generating station.

Difference of potential on return.

(2) If at any time the difference of potential is found to exceed five volts, the licensee shall thereafter make a daily report to the Local Government, or to such officer as the Local Government may appoint in this behalf, of the result of the previous day's test, and, if at any time it exceeds the limit of seven volts, the licensee shall take immediate steps to reduce it below that limit:

Provided that the Local Government may, in its discretion, relax the provisions of this rule in localities where it may consider it unnecessary strictly to enforce them.

56. Except with the written approval of the Local Government, the line wire shall be divided up into sections not exceeding one mile in length, between every two of which there shall be inserted an emergency switch, so enclosed as to be inaccessible to the public.

Isolation of sections.

57. (1) The insulation of the line and of the return when insulated, and of all feeders and other conductors, shall be so maintained that the leakage current shall not exceed one-hundredth of an ampere per mile of tramway.

Leakage on other than conduit system.

(2) The leakage current shall be ascertained daily by the licensee before or after the hours of running when the line is fully charged.

(3) If at any time it is found that the leakage current exceeds one-half of an ampere per mile of tramway the leak shall be localised and removed as soon as practicable, and the running of the cars shall be stopped unless the leak is localised and removed within twenty-four hours.

Provided that this rule shall not apply where both line and return are placed within a conduit.

58. In the construction and working of the cars care shall be taken to provide for as gradual variation of the current as is practicable.

Variations in the current.

59. (1) The licensee shall, so far as may be applicable to his system of working, keep the following records, namely:—

Records.

Daily records.

Number of cars running.

Maximum working current.

Maximum working pressure.

Maximum current from the earth connections, as prescribed by rule 54, sub-rule (1), clause (i).

Leakage current, as prescribed by rule 57, sub-rule (1), and rule 67, clause (d).

Monthly record.

Condition of earth connections as prescribed by rule 53, sub rule (2).

Occasional records.

Any tests made under the provisions of rule 54, sub-rule (3).

Daily fall of potential in return when required by rule 55.

Localization and removal of leakage, together with time occupied.

Particulars of any abnormal occurrence affecting the electric working of the tramway.

(2) These records shall, if and when required, be forwarded for the information of an Electric Inspector appointed under the Act.

60. Passengers shall not have access to any portion of the electric circuit having a greater difference of potential to earth than 100 volts.
Circuit to be inaccessible to passengers.

61. Every electric main, lead, or connection used in or upon a car shall be of ample size and thoroughly insulated and protected by cut-outs which will operate to break the circuit before the current has risen to an amount likely to cause any injurious heating of the conductors, and the length of every safety fuse in the clear shall be not less than two inches, unless an automatic device is provided for interrupting the arc.
Connections on cars.

62. Every electrical conductor fixed upon a car shall be protected wherever it is adjacent to any metal, so as to avoid risk of the metal becoming charged.
Conductors on cars.

63. Every collector standard which is accessible to passengers in a car shall be electrically connected with the wheels of the car in such manner as to prevent the possibility of the standard becoming electrically charged from any defect in the electrical conductors contained within it.
Collector standards.

64. Unless the Local Government otherwise directs,—

(a) the trolley wire shall nowhere be at a less height from the surface of the street than 17 feet, except where it passes under a bridge or other fixed structure, in which case it shall be suspended to the satisfaction of an Electric Inspector appointed under the Act; and
Height of conductors.

(b) the intervals between the supports shall not exceed 120 feet.

65. Where the feeders of a tramway are on the same supports as the trolley wire, the provisions of rule 24 shall not apply.
Height of feeders.

66. An emergency cut-off switch shall be provided and fixed so as to be conveniently reached by the driver in case of any failure of action of the controller switch.
Emergency cut-off switch.

67. Where a conduit system of electric traction is employed, the following conditions shall be complied with in the construction and maintenance of such conduit, namely:—
Conduit system.

(a) The conduit shall be so constructed—

(i) as to admit of easy examination of, and access to, the conductors contained therein and their insulators and supports;

(ii) as to be readily cleared of accumulation of dust or other *débris*, no such accumulation being permitted by the licensee to remain.

(b) The conduit shall be laid to such falls and so connected to sumps or other means of drainage as to clear itself automatically of water without danger of the water reaching the level of the conductors.

(c) Where the conduit is formed of metal, all separate lengths shall be so jointed as to secure efficient metallic continuity for the passage of electric currents; and where the rails are used to form any part of the return, they shall be electrically connected to the conduit by means of copper strips having a sectional area of at least one-sixteenth of a square inch or other means of equal conductivity, at distances not exceeding 100 feet; and where the return is wholly insulated and contained within the conduit, the conduit shall be connected with earth at the generating station through an instrument suitable for the indication of any contact or partial contact of either the line or the return with the conduit.

(d) The leakage-current shall be ascertained by the licensee daily, before or after the hours of running, when the line is fully charged; and, if at any time it is found to exceed one ampere per mile of tramway, the leak shall be localised and removed as soon as practicable, and the running of the cars shall be stopped, unless the leak is localised and removed within twenty-four hours.

AS TO THE SECURING OF A REGULAR AND SUFFICIENT SUPPLY OF ENERGY BY LICENSEES AND THE TESTING THEREOF.

68. Forty-eight hours at least before a licensee is ready to commence to supply energy through a main, he shall serve a notice upon the local authority and upon the Electric Inspector appointed under the Act of his intention to commence such supply.
Notice of intention to supply through mains.

69. From the time when a licensee commences to supply energy through a main, he shall, subject to the provisions of his license in this behalf, maintain a supply of sufficient power for the use
Licensee to provide constant supply.

of all the consumers for the time being entitled to be supplied from such main ; and such supply shall, except in so far as may from time to time be otherwise agreed upon between the local authority and the licensee, be constantly maintained :

Provided that, for the purpose of testing or for any other purpose connected with the efficient working of the undertaking, the Local Government, or such person as it may appoint in this behalf, may give permission to the licensee to discontinue the supply at such intervals of time and for such periods as it may think expedient :

Provided, also, that, when the supply is to be so discontinued, notice of such discontinuance and of the probable duration thereof shall be previously served upon the local authority and upon every consumer likely to be affected thereby.

70. The system of distributing mains shall be so arranged that, if in any case it becomes necessary to discontinue the supply through any portion of a main for more than one hour for the purposes of repairs or for any other reason, the discontinuance shall in no case extend to more than one hundred service lines.

71. Before commencing to supply energy to a consumer, the licensee shall declare to the consumer the constant pressure at which he proposes to supply energy at the consumer's terminals, and the pressure so declared at any pair of the consumer's terminals shall not at any time be altered or departed from, except with the written consent of the Local Government or of the consumer :

Provided that the licensee shall be deemed to have complied with the requirements of this rule so long as the variation of pressure at the consumer's terminals does not, under any conditions of the supply which the consumer is entitled to receive, exceed 4 per cent. from the declared constant pressure, unless changes in pressure recur so frequently as to cause unsteadiness in the supply.

AS TO THE USE OF CERTAIN FORMS.

72. Requisitions made under clause VIII, sub-clause (4), or clause IX, sub-clause (4), as the case may be, of the schedule to the Act shall be in the appropriate form set forth in the annexures to these Rules.

AS TO THE LEVY OF FEES.

73. The following fees shall be payable to the Local Government in respect of the services of Electric Inspectors appointed under the Act, namely :—

- (a) where any difference or dispute arising under section 30, sub-section (7) of the Act is determined by an Electric Inspector, a fee of Rs 16 (in addition to the costs as laid down in the Act) ; and,
- (b) where any meter is certified, or any test is carried out other than those laid down herein, a fee of such amount, and payable by such person, as the Local Government may determine.

GENERAL.

74. Any licensee who commits a breach of these rules shall be punishable for every such breach with fine which may extend to Rs 100, and, in the case of a continuing breach, with a further fine which may extend to Rs 50 for every day after the first during which he is convicted of having persisted in the breach.

75. Where a consumer, in any factory or other such place as is described in section 31 of the Act, uses at a pressure exceeding 130 volts energy supplied to him by a licensee, he shall be bound by the following rules in the same manner as if the energy were not supplied by a licensee.

RULES AS TO THE USE OF ENERGY NOT SUPPLIED UNDER PART II OF THE ACT.

PRELIMINARY.

76. In the following rules, unless there is anything repugnant in the subject or context,—

- (a) the expressions "low pressure," "high pressure," and "extra high-pressure" are used in relation to electric supply-lines, conductors, circuits, and

apparatus according to the conditions of the supply delivered through the same or particular portions thereof; that is to say,—

- (i) where the conditions of the supply are such that the pressure may at any time exceed 600 volts, if continuous, or 300 volts, if alternating, but cannot exceed 3,000 volts, whether continuous or alternating, the supply shall be deemed to be a "high-pressure supply;"
- (ii) where the conditions of the supply are such that the pressure may, on either system, exceed 3,000 volts, the supply shall be deemed to be an "extra high-pressure supply;" and
- (b) the expression "the owner" means any person, other than a licensee, generating or using energy at a pressure exceeding 130 volts.

AS TO THE PROTECTION OF PERSONS AND PROPERTY.

Inspection and testing.

77. (1) When notice has been given by any person under section 31 of the Act the District Magistrate or, in a Presidency-town, the Commissioner of Police, shall forthwith report the circumstance to the Local Government, and thereupon any Electric Inspector appointed under the Act may enter, inspect, and examine any place in which he has reason to believe that there is any appliance or apparatus used in the generation or use of electricity.

(2) The owner shall afford at all times all reasonable facilities to any such Inspector to make such inspections and tests as may be necessary to ensure the due observance of the Act and the following rules, and shall, if and when required, forward to such Inspector all records of tests hereinafter specified to be made and recorded.

78. The pressure of the supply generated by an owner shall not exceed the limits of low-pressure, except with the written approval of the Local Government in each case.

79. The owner shall take reasonable precautions to guard against the liability of any person to shock due to accidental contact with exposed terminals.

80. Where the insulating material on any electric supply-line is protected by an earthing of metallic protection of external metallic covering, the metallic covering shall be insulating materials. efficiently connected with earth.

81. In every case in which a high-pressure supply is transformed for the purposes of use, some suitable automatic and quick-acting means shall be provided to protect the low-pressure wires from any accidental contact with, or leakage from, the high-pressure system, either within or without the transforming apparatus.

82. (1) Where any portion of an electric supply-line or any support for an electric supply-line is exposed in such a position as to be liable to injury from lightning, the owner shall adopt efficient means for protecting it against such injury.

(2) Lightning arresters shall be capable of supporting successive discharges without attention.

Aërial lines.

83. The sectional area of the conductor of an aërial line erected by an owner after the commencement of these rules shall, if of copper, be not less than the area of a No. 10 wire of the British Standard Wire Gauge, or, if of any other material, of such sectional area as to be of equivalent tensile strength:

Provided that, where the span is less than 50 feet, a No. 14 wire of the British Standard Wire Gauge may be used.

84. Every continuously insulated aërial line belonging to an owner shall be attached to supports at intervals not exceeding 100 feet.

85. (1) Every support of an aërial line shall be of a durable material firmly erected and, if necessary, properly stayed against forces due to wind pressure, change of direction of the line or unequal lengths of span.

(2) Every post, if of metal, shall be efficiently connected with earth.

86. (1) No part of an aërial line shall be at a less height from the ground than 15 feet:

Provided that the Local Government may, by order in writing, permit any modification of this sub-rule which it may consider necessary.

(2) Every aerial line shall be so erected as to be inaccessible except by the use of a ladder or other special appliance.

87. Where a metallic roof is crossed by an aerial line, the roof shall be efficiently connected with earth.
Crossing metal roof.

Electric supply-lines other than aerial lines.

88. Where an electric supply-line crosses, or is in proximity to, any metallic substance, precautions shall be taken by the owner against the possibility of the metallic substance becoming charged.
Crossing pipes, etc.

89. Every portion of a high-pressure electric supply-line (not being an aerial line) placed above the surface of the ground shall be completely enclosed, either in a tube of highly insulating material embedded in brickwork, masonry, or concrete, or in a strong metal casing efficiently connected with earth.
High-pressure electric supply-lines laid above ground.

90. Where a high-pressure electric supply-line is laid beneath the surface of the ground, efficient means shall be taken by the owner to render it impossible that the surface of the ground or any neighbouring electric supply-line or conductor shall become charged by leakage therefrom.
High-pressure electric supply-lines laid under ground.

Circuits within buildings.

91. The owner shall maintain all electric conductors, fittings and apparatus belonging to him or under his control, which may be in use upon his premises, in a safe condition and in all respects fit for the use of energy and shall take all due precautions against fire.
Responsibility of owners for their conductors, etc.

92. A suitable cut-out shall be inserted in each main or branch circuit upon the owner's premises (not being the neutral wire of a multiple wire system) at the point of origin of the same.
Fuses or disconnectors to be provided on all circuits.

93. The covers and frames and other metallic parts (other than parts of the electrical circuit) of all high-pressure apparatus of every description shall be either efficiently connected with earth or, if insulated, so placed and arranged that it is impossible for any person to obtain a shock to earth from them.
High-pressure apparatus.

94. An isolation switch shall be provided for every arc lamp connected with any high-pressure electric supply-line, and the switch shall be of such pattern and construction as will provide—
Isolation switch.

(a) that the lamp can by its means be entirely disconnected from the supply circuit ;
 (b) that the switch itself can be safely worked in the dark without special precautions ;

(c) that there shall be no danger of any injurious electrical arcing, sparking, or heating being caused by the operation of the switch ; and

(d) that, where the switch is accessible without the use of a ladder or special appliance, it shall be in a locked metallic receptacle efficiently connected with earth.

95. Every installation to which rules 77 to 94 apply, shall be duly and efficiently supervised and maintained by the owner so as to comply with the said rules.
Maintenance.

AS TO THE LEVY OF FEES.

96. The following further fees shall be payable to the Local Government in respect of the services of Electric Inspectors appointed under this Act, namely :—
Levy of fees.

(a) where any works belonging to an owner are tested or inspected, a fee, payable by such owner, of one rupee for every kilowatt of his electrical plant capacity, or, where the power is supplied by a licensee, of the consumer's specified maximum power subject to a minimum of Rs16 and a maximum of Rs200 ; and,

(b) where any meter is certified, or any test is carried out or work done other than that laid down in clause (a), a fee of such amount, and payable by such person, as the Local Government may determine :

Provided that the Local Government may, if it thinks fit, remit any such fee or any portion thereof.

97. Any owner who commits any breach of rules 77 to 95 shall be punishable, for every such breach, with fine which may extend to Rs100, and, in the case of a continuing breach, with a further daily fine which may extend to Rs50 for every day after the first during which he is convicted of having persisted in the breach.

**FORM OF REQUISITION REQUIRED BY CLAUSE VIII (4) OF THE SCHEDULE
TO THE ACT.**

(See rule 72.)

To _____

_____ (name of licensee).

In the case of six or more owners
or occupiers.

We the undersigned, being owners or occupiers of
premises situated in _____ street,
situated within the "area of supply" defined in the
_____ license 19 , do

In the case of the Local Government
or a local authority.

The Government of _____ (The local authority
of _____) being charged with the public lighting
of _____ street, situated within the area of
supply defined in the _____ license 19 ,

hereby require (s) you to provide and lay down, within six months of the date of this
requisition, distributing mains for the purpose of general
supply throughout the said street*
* or such part of the street as may be specified.
in accordance with the terms and conditions laid down in
clause VIII of the schedule to the Indian Electricity Act, 1903, as applied to the Civil and
Military Station of Bangalore.

Dated at _____

The _____ day of _____ 190 . _____

**FORM OF REQUISITION REQUIRED BY CLAUSE IX (4) OF THE SCHEDULE
TO THE ACT.**

(See rule 72.)

To _____

_____ (name of licensee).

You are hereby requested to provide within _____ weeks of the date of this
requisition, supply of electrical energy at the premises _____

being within one hundred yards of your distributing mains and within the "area of supply" laid down in the _____ license 19____, for the following:

_____ 30 watt lamps (8 C. P.)

_____ 60 watt lamps (16 C. P.)

_____ —watt lamps.

_____ fans.

_____ B. H. P. motors.

The wiring work will be carried out by _____

Dated at _____

The day of 190____ } _____ Signature.

NOTE.— Under clause IX (1) 1st proviso of the schedule to the Indian Electricity Act, 1903, "the cost of so much of any electric supply-line as may be laid for the purposes of the supply upon the property in respect of which the requisition is made, and of so much of any electric supply-line as it may be necessary for the said purposes to lay for a greater distance than one hundred feet from the licensee's distributing main although not on that property shall, if the licensee so requires, be paid by the owner or occupier making the requisition."

In accordance with the foregoing note, the licensee makes the following charges:

The ordinary rate making connections to Consumer's Premises is Rs _____, to which will be added any wiring necessary from the point of service at the rate of _____ rupee per yard, and for (underground services) a rate of _____ annas per inch for cutting away and making good the wall of the house.

The licensee lays all services in the Street free of charge to a distance of _____ feet from their mains.

PROMISSORY NOTES.

Lost or Stolen.

The Government Promissory Notes No. $\frac{020346}{1000}$ and $\frac{031167}{100}$ of 3 per cent. Loan of 1896-97 for Rs. 1,100, originally standing in the name of Shamapodo Sreemany and Benoi Krishna Hazra and last endorsed to Toolsee Dass Seal, the proprietor, by whom they were never endorsed to any other person, having been lost or stolen, notice is hereby given that payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, and that application is about to be made for the issue of duplicates in favour of the administrator. The public are cautioned against purchasing or otherwise dealing with the abovementioned securities.

Name of the Advertiser—TOOLSEE DASS SEAL.
Residence—No. 24, Neemoo Gossami's Lane, Calcutta.

Stolen.

The Government Promissory Notes Nos. B002755, B002756, and B002757 of the 3 per cent. Loan of 1896-97 for rupees one thousand each, originally standing in the name of Gordhandas Bhugwandas, the proprietor, by whom they were never endorsed to any other person but signed by him for sale, having been stolen: Notice is hereby given that payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, and that application is about to be made for the issue of duplicates in favour of the proprietor. The public are cautioned against purchasing or otherwise dealing with the abovementioned securities.

Name of Applicant—GORDHANDAS BHUGWANDAS,
Residence—3rd Bhoiwada Street, Jeewanlalji,
Maharaj's Chawl, Bombay.

ALLAHABAD (CANTONMENT) ELECTRIC LICENSE, 1905.

Referring to the advertisement with the above heading, appearing in the Gazette, dated 17th of June 1905, it is hereby notified that objections and suggestions should be submitted to the Secretary to Government, United Provinces, in the Public Works Department, within a period of three months from the date of the said advertisement, and not two months, as therein erroneously stated.

SUPPLEMENT TO

The Gazette of India.

No. 30.]

CALCUTTA, SATURDAY, JULY 29, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Simla, the 25th July, 1905.

No. 16.—Whereas by Resolution passed by the Secretary of State for India in Council on the 26th day of February, 1886, the provisions of section 1 of the Government of India Act, 1870 (33 Vict., cap. 3), were declared applicable to Upper Burma, with the exception of the Shan States;

And whereas the Lieutenant-Governor of Burma has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft, and the same has received the assent of the Governor General on the 21st day of July, 1905 ;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* :

REGULATION NO. III OF 1905.

A Regulation further to amend the Upper Burma Civil Courts Regulation, 1896.

WHEREAS it is expedient further to amend the Upper Burma Civil Courts Regulation, 1896 ; It is hereby enacted as follows :

Short title and commencement.

1. (1) This Regulation may be called the Upper Burma Civil Courts (Amendment) Regulation, 1905 ; and

(2) It shall come into force on such date as the Local Government may, by notification in the local official Gazette, appoint.

1 of 1896. Substitution of new section for section 15, Regulation I, 1896.

2. For section 15 of the Upper Burma Civil Courts Regulation, 1895, the following shall be substituted, namely :

" 15. (1) The Divisional Court may exercise, as regards the Courts under its control, the same powers of withdrawal, trial and transfer as are conferred by section 25 of the Code

XIV of 1882. of Civil Procedure on a District Court.

(2) In addition to the powers referred to in sub-section (1), a Divisional Court and a District Court may, by order in writing, direct that any case or class of cases which may be instituted in such Court, or in any Court subordinate thereto, shall be disposed of by an Additional Judge of such Court or by any other Court subordinate thereto, or by an Additional Judge of any such subordinate Court, as the case may be :

Provided that no direction under this section shall empower any Court to exercise jurisdiction beyond the pecuniary limits of its jurisdiction.

(3) The Court trying any suit withdrawn under this section from a Court of Small Causes shall, for the purposes of the suit, be deemed to be a Court of Small Causes.

XIV of 1882. (4) When a case has been withdrawn or transferred under section 25 of the Code of Civil Procedure or under this section, any fees payable in such case under the Court-fees Act, 1870, or under rules made under this Act, shall be payable at the rates which would have been applicable in the Court from which the case has been withdrawn or transferred."

3. For sub-sections (2), (3), (4) and (5) of section 17 of the said Regulation the following shall be substituted, namely :

Amendment of section 17, Regulation I, 1896.

" (2) The Judges of the Divisional, District, Sub-divisional and Township Courts shall be appointed by the Local Government."

No. 17.—Whereas the non-official Additional Members of the Council of the Governor of Bombay have, in accordance with the Regulations published with the Notification of the Government of India in the Legislative Department, No. 19, dated 23rd June, 1893, and amended by Notification No. 33, dated the 23rd December, 1902, recommended Mr. Gopal Krishna Gokhale, C.I.E., for nomination as an Additional Member of the Council of the Governor General for the purpose of making Laws and Regulations :

In exercise of the power conferred by section 10 of the Indian Councils Act, 1861 (24 and 25 Vict., c. 67), and section 1 of the Indian Councils Act, 1892 (55 and 56 Vict., c. 14), the Governor General is pleased to nominate the said Mr. Gopal Krishna Gokhale, C.I.E., to be an Additional Member of the said Council of the Governor General.

J. M. MACPHERSON,

Secretary to the Government of India.

S. M. FRASER,

Offg. Secretary to the Government of India.

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

Simla, the 22nd July, 1905.

THREE-AND-A-HALF PER CENT. LOAN.

No. 3961-A—His Excellency the Right Honourable the Governor-General in Council has resolved to borrow four hundred lakhs of rupees for the public service in the following manner:

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of the *Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of the *Three-and-a-half Per Cent. Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December; and the notes are not liable to discharge before the 31st day of December 1910.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 4,00,00,000 will be received by the Comptroller General from this date to noon of Wednesday, the 2nd August next. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

Note (1) — Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, and Lahore, on account of the Comptroller General, Calcutta, on the 1st August and up to the local time corresponding to 12 o'clock in Calcutta on the 2nd August, provided that—

(a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);

(b) they are made on printed forms to be obtained at the same office or at the local Presidency Bank;

(c) each tender is for not less than Rs. 10,000;

(d) the deposit is either a promissory note or a Treasury Receipt from the local Office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;

(e) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad, or Lahore, as the case may be) or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, or Lahore.

Note (2) — Tenders made in accordance with these instructions will also be received at all Head and Sub-Post Offices up to a date to be notified at each Post Office. The date will vary according to the distance of the Post Office from Calcutta and will in no case be later than the forenoon of the 31st July. The following conditions must be complied with:

(a) the tenders must be delivered personally or by messenger at the Post Office, where a receipt will be given for them;

(b) they must be made on printed forms, to be obtained at the Post Office;

(c) each tender must be for not less than Rs. 100 and not more than Rs. 2,000;

(d) the deposit must be a receipt for the amount (which may not exceed Rs. 40 for each tender) from the Post Master of the Post Office at which the tender is made;

(e) the amount of the tender must be made payable either at the Head Post Office of tender (whether the tender was made at the Head Post Office or at one of its Sub-Offices) or in Calcutta. In the case, however, of a tender made at a Post Office in Calcutta, the amount of the tender must be made payable only at the Bank of Bengal.

The tenders will be transmitted by post by the Post Master to the Comptroller General so as to reach him before 11 A.M. on Wednesday the 2nd August. The Comptroller General will deal with them as if they had been made direct to him returning deposits on non-accepted tenders through the Post Master.

5. The rate at which each tender is made must be specified in rupees or rupees and annas; a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, or Lahore, or (c) Government Promissory Notes standing in the name of, or endorsed to the tenderer or the person making the deposit. In the case of tenders made at Post Offices under Note (2) to clause 4, the deposit must be a receipt for the amount from the Post Master of the Post Office at which the tender is made.

¹It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited. ●

(b) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Wednesday, the 2nd August next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, and Lahore at the local time corresponding to noon, Calcutta time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100; preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General² as soon as possible after the 2nd August and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad and Lahore.

²For tenders received by the Accountant General at Madras, Bombay, Allahabad, or Lahore, and payable at those places, the Accountant General will issue the allotment certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (a)] will be made payable upon the 4th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

Instalment I.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 14th August.

Instalment II.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 4th September:

Instalment III.—The balance payable upon the 2nd October:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made by encasement upon the relative certificate. In the case of accepted tenders

which were made at Post Offices other than Post Offices in Calcutta under note (2) to clause 4, payment of allotment-certificates may also be made at the Head Post Office of tender, and the Head Post Master will give a receipt for such payment by encasement upon the relative allotment-certificate.

Issue of Promissory Notes.

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1905, and he will also receive interest at $3\frac{1}{2}$ per cent. per annum from the dates on which he may have made payment till the 30th December 1905.

(b) Or he may, at his option, by paying interest at the said rate from 30th June 1905 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1905.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the
Promissory Note *Government Rupees* *at $3\frac{1}{2}$ per cent.*
No. *of 1900-01.*

The Governor General of India in Council does hereby acknowledge to have received from the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees one hundred only to the said , his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said , his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).*

I, *A. B.*, hereby tender for Rupees (X) of *The Three-and-a-half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 22nd July 1905, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) Annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (XX), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of* †

* Or cheque or Government Promissory Note.
 † Here enter the name of Bank, Branch Bank or Treasury.

‡ Here enter the name of Head Post Office at which payment may be desired under clause 15 of the Notification.

Branch of the Bank of † ; or
into the Public Treasury at † ; or into the
Head Post Office at † *as the case may be—*

The first instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent. on or before the 14th August 1905.

The second instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 4th September 1905.

The balance on or before the 2nd October 1905.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 4th September 1905.

§ Here insert *C. D.*'s address which must be in India. This paragraph should only be inserted if *A. B.* does not reside in India or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

Any allotment made to me may be communicated to *C. D.* at § .

NOTE.—(1) A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus "One hundred and two" or "One hundred" or "Ninety-nine," not "Two per cent. premium" or "Per" or "One per cent. discount."

By order of the Governor General in Council,

W. S. MEYER,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements :

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries, and to Head and Sub-Post Offices in India.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay, Allahabad, and Lahore will do likewise in respect of tenders presented to them under note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Tenders made at Post Offices.

(6) Tenders made at Post Offices under note (2) to clause 4 of the Government Notification will be acknowledged by the Post Master or Sub-Post Master concerned in prescribed forms of receipt, and in case of non-acceptance of the tenders, the deposits will be returned to the tenderer or his agent personally on the surrender of the receipt given for the deposit.

Accepted Tenders.

(7) The Comptroller General and the Accountant General at Madras, Bombay, Allahabad, or Lahore (in the case of tenders received by such Accountant General and payable in Madras, Bombay, Allahabad, or Lahore), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts :—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted ; and the deposit on the tender will be divided among them ; they will be substantially of the following form :

This is to certify that, in accordance with the terms of Notification No. 3961-A., dated the 22nd July 1905 (Gazette of India, Extraordinary, dated the 22nd July 1905), the above-named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1902-03 at the rate above mentioned on or before _____, and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from _____.

CALCUTTA ;

The 22nd July, 1905. }

A. F. COX,

Comptroller and Auditor General.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATION.

RAILWAYS.

Simla, the 26th July, 1905.

H. A. STUART,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).**Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 27th July 1905, based on the India Daily Weather Reports of the period.**

Nearly the whole of the rainfall of the week under review has been connected, either directly or indirectly, with two cyclonic storms which have affected the weather over the Indian area. On the 21st the first storm lay over the east of the Central Provinces and rain was falling over Deltaic Bengal, the central parts of India, the Deccan and the West Coast. The rainfall was heaviest over the Central Provinces in front of the advancing storm. By the morning of the 22nd the storm had reached the neighbourhood of Khandwa and Indore. Rain had diminished over Bengal and the Deccan, but continued over the central parts of the country and along the West Coast. The rainfall area had extended westward with the storm, but the heaviest falls were now reported on the south and west quadrants of the storm where south-westerly winds from the north of the Arabian Sea were feeding into the storm area. The heaviest fall reported was 5.95" at Khandwa. By the 23rd the storm had reached Gujarat. Rain had ceased over the east of the Central Provinces and the Deccan, but continued within the storm area and along the West Coast. Ahmedabad, which station lay close to the storm centre and had a southerly wind, reported 14.27" of rain, while Surat reported 5.49". The storm continued to move slowly westward and lay over Kathiawar on the morning of the 24th. Southerly and south-westerly winds were pouring moisture into the storm area and on this day Ahmedabad reported 12.65" of rain, Rajkot 10.39" and Deesa 7.06". The Deccan, the central parts of the country and the Gangetic Plain were on the contrary practically rainless. The storm still lay over Kathiawar on the 25th. It had begun to fill up and the heaviest rainfall reported was 4.54" at Deesa. The storm entirely filled up during this day, but heavy rain continued to be determined to the region to the north of the Gulf of Cambay, Mount Abu reporting a fall of 8.45" on the 26th and of 4.05" on the 27th.

In the meantime a depression commenced to form over the head of the Bay on the 23rd and gradually developed, without moving much, until the 27th when the centre lay near Barisal and the barometer was 0.20" below the normal. This depression determined general rain to Burma and north-east India, but the rain registered was not very heavy till the 27th when a fall of 5.90" was reported from Calcutta.

Upper India has been but little affected by these two storms and large portions of the Gangetic Plain and the North-west dry area have received little rain, though on and near the hills there have been almost daily showers.

The rainfall table illustrates the concentration of rainfall about the storm centres. In Upper Burma and in the Calcutta subdivision the week's rainfall is in excess owing to the heavy rain due to the second storm and in the west of Central India, in Gujarat and in the west of the Central Provinces is also in excess owing to the heavy rain of the first storm. Practically everywhere else the monsoon rainfall has been lighter than usual and over the west Gangetic Plain, the Jaipur subdivision and the East Coast (South) division there has been practically no rain during the week.

The heavy rainfall over the Indore subdivision and the Gujarat and West Satpuras divisions has reduced the seasonal deficiency over those areas, but in most other places the seasonal deficiency has increased.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 27th July 1905

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).Season and Crop Prospects for the week ending Saturday,
22nd July 1905.

Madras.—Rainfall nil in Madura; heavy in the West Coast districts and the Nilgiris; good in parts of the Circars and Kurnool; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency except in Ganjam, Vizagapatam, Cuddapah, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some require more rain in parts of Godavari, Kistna, Salem, Coimbatore, Tanjore and Tinnevely. There are no harvests in parts of the Circars, Kurnool, Bellary, Tanjore and the West Coast districts, but they continue in parts elsewhere with poor to fair outturn. Pasture is insufficient except in parts of the Circars, Kurnool, North Arcot, Tanjore, the West Coast districts, and the Nilgiris. Fodder is scanty except in parts of the Circars, Trichinopoly, Tinnevely, the West Coast districts and the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in five districts; has fallen in four; and has very slightly risen in fourteen. The prices of millets have fluctuated as follows:—*Ragi* is stationary in three districts; has fallen in three; and has slightly risen in fifteen. *Cholam* is stationary in one district; has fallen in two; and has slightly risen in eleven. *Cumbu* is stationary in four districts; and has very slightly risen in eleven.

Bombay.—There was heavy rain during the week in parts of Gujarat, the Konkan, Nasik, Satara, Belgaum, Baroda, Kathiawar, Rewa Kantha, Mahi Kantha, Janjira and Sawantwadi; good in parts of Khandesh and Poona; moderate in parts of Dharwar and Cambay; slight in parts of Ahmednagar, Sholapur, Bijapur and Aundh; and very slight in parts of the Upper Sindh Frontier and Phaltan. More rain is needed in parts of the Upper Sindh Frontier, Ahmednagar, Poona, Sholapur, Satara, the Karnatak, Baroda, Aundh and Phaltan. Sowing of autumn crops is generally in progress, but is retarded in parts of Ahmedabad on account of the heavy rain, and in parts of Sholapur and the Karnatak for want of sufficient rain. Transplantation of rice has commenced in parts of Ahmedabad, Surat, Rewa Kantha, Poona and Satara and continues in parts of Sukkur, Larkana, the Upper Sindh Frontier, Kaira, the Konkan, Nasik, Janjira and Sawantwadi. Autumn seedlings are slightly damaged by locusts or grasshoppers in parts of Sukkur and the Upper Sindh Frontier; by heavy rain in parts of Ahmedabad, the Panch Mahals, Kaira and Rewa Kantha; and are suffering from want of sufficient rain in parts of the Karnatak. The fodder-supply is sufficient except in parts of Nasik and Belgaum. Agricultural stock is sufficient and in good condition. The water-supply is adequate except in parts of Belgaum. Prices have fallen in one district; risen in two districts; and are stationary elsewhere. The numbers on relief during the week ending the 15th instant were as follows:—daily average on relief works—Kaira, 695; on gratuitous relief—Kaira, 191; Belgaum, 737; total, 1 623. The numbers on the last day of the week on test works were:—Panch Mahals, 185. Test works have been closed in Ahmedabad.

Bengal.—The rain during the week was fairly general and for the most part moderate. Transplantation of winter rice is going on. More rain is wanted in some districts of Bihar and South-West Bengal. The condition of the jute crop is generally reported to be favourable and other standing crops are doing well. Fodder and water are sufficient. The price of common rice has risen in seven and fallen in three districts.

United Provinces.—The rain has been unevenly distributed, and most districts urgently require more rain. In Bijnor, Muttra, Mainpuri and Etawah sowings have not been completed. Germination has been satisfactory and the condition of the standing crops is so far good. Sugarcane has been damaged by insects in Saharanpur. Cattle are in good condition. Fodder and supplies are sufficient. Prices are still high.

Punjab.—Rain has fallen in Jullundur, Shahpur, Rawalpindi, Lyallpur and in parts of Hissar, Ambala, Ferozepore, Lahore, Amritsar, Mianwali and Sialkot. Prices of food-grains show a tendency to rise in the Delhi, Jullundur and Lahore divisions and to fall elsewhere. The price of wheat is rising in Hissar, Delhi, Jullundur, Lahore, Amritsar and Lyallpur and falling in Sialkot, Shahpur, Rawalpindi and Mianwali. Harvesting of extra spring crops is finished in Mianwali. Ploughing and sowing of autumn crops continue, but more rain is wanted. The condition and prospects of the standing crops are generally good. Locusts appeared in Hissar, but did no damage. Irrigated cotton in Delhi and indigo in Multan have been slightly damaged by insects. Cattle are in good condition. Fodder is sufficient and there are no complaints about the water-supply.

North-West Frontier Province.—There was good rain in Hazara and slight rain elsewhere during the week. The condition of the crops on irrigated lands is good. Autumn sowings are proceeding rapidly in Bannu; elsewhere they are nearly completed. The prospects of the autumn and extra spring crops are so far favourable. The condition of cattle is good. Fodder is sufficient. The canal water-supply is satisfactory. The Indus is rising. Prices are almost stationary. Prices—wheat 16 to 22; gram 18 to 27; maize 19 to 29; and *bajra* 17 to 22 seers per rupee.

Burma.—Rainfall light in the dry zone tract with none in Shwebo and Lower Chindwin and moderate elsewhere. Ploughing for wet-weather paddy has commenced in Mergui, Magwe, Yamethin and Myingyan, and is completed in Pyapon and Tavoy. Sowing is in progress and transplanting has begun in Tharawaddy, Maubin and Myaungmya and progresses at other centres. Sowing of hill-side paddy is finished in Katha. Cultivation of *juar* and peas continues in places. Nurseries have been damaged by floods in the Mogaung subdivision of Myitkyina and early sesamum plants are withering for want of rain in the Ava subdivision of Sagaing and in parts of Myingyan and Yamethin. More rain is also needed in parts of Shwebo, Lower Chindwin and Meiktila. Crop prospects are generally favourable. The price of paddy has risen considerably in Myaungmya and fallen similarly in Tavoy; variations are slight for four districts; elsewhere it is stationary.

Central Provinces.—Light to moderately heavy rain has fallen during the week. The heaviest falls were in Nimar 7 inches, Betul 5½ inches and Balaghat 6½ inches. More rain is required in Damoh, Narsinghpur and in parts of Wardha and Chanda. Autumn sowings are in rapid progress; they are unusually late but germination has been good and the crops are thriving. In Raipur late heavy rain has retarded sowings in black soil. Transplanting and thinning operations have commenced in Chanda and Chhattisgarh, respectively. Weeding is in progress in Saugor, Narsinghpur, Betul and in the Berar districts. Locusts still exist in small numbers in Hoshangabad, Betul, Nagpur, Chanda, Amraoti, Basim, Ellichpur and Wun, but have caused no damage to the crops. Fodder is scarce in a few districts. The prices of wheat and gram have risen by 1½ and 2½ seers per rupee, respectively, in Narsinghpur; elsewhere they are steady with slight fluctuations.

Assam.—The weather is hot. Slight to moderate rain fell during the week in all districts except Nowgong. Rain is badly wanted for late rice in the Assam Valley and Manipur. Plucking and manufacture of tea continue and prospects are good in Sylhet and Nowgong and fair elsewhere. Ploughing for and sowing of late rice seedlings are finished in Cachar and Lakhimpur, and are in progress elsewhere. Transplanting of late rice continues. Sowing of early rice is finished in all districts. Reaping of early rice is in progress in the Assam Valley and the Garo Hills, and prospects are good in Sylhet, Goalpara and the Garo Hills and generally fair in other places. Cutting of jute is in progress and prospects are good. Fodder is insufficient in parts of Kamrup. Prices of common rice—Silchar, 15; Sylhet and Tezpur, 14; Dhubri, Nowgong and Sibsagar, 13; Dibrugarh, 12½; and Gauhati, 12 seers per rupee.

Mysore.—The rainfall of the week was good in the Hassan, Kadur and Shimoga districts, fair in Tumkur; and slight elsewhere. Prices of food-grains are steady. The crops are in good condition except in the Kolar and Chitaldrug districts. More rain is much needed generally. Cattle are generally healthy. Water is available. Fodder is getting scanty in parts of the Kolar, Mysore, Hassan, Kadur and Chitaldroog districts.

Coorg.—Rainfall—14 inches 96 cents. Transplanting of rice continues. The prices of food-grains are stationary. Water and fodder are ample.

Hyderabad.—Rainfall—67 cents. Autumn sowings have been suspended in two taluks for want of rain. Young crops are withering in ten taluks and in nineteen more rain is urgently required. Good rain has since fallen in four districts. Insects are damaging the autumn crop in three taluks. Autumn and early rice sowings are progressing everywhere. Weeding has begun in ten taluks. Lands are being prepared for spring sowings in twelve taluks. There is scarcity of fodder in fifteen taluks and of water in seven. Prices—wheat 12½; coarse rice 8½; and *juar* 19½ seers per rupee.

Rajputana.—There was rainfall throughout Rajputana during the week; the maximum fall was 1 inch and 96 cents in Chaoni Jhalrapatan and the minimum 11 cents in Jaipur and scattered showers in Sirohi. Rain is wanted in Marwar, Jaipur, Kishengarh, Alwar, Karauli, Bharatpur, Ajmer and Merwara. Ploughing and sowing are in progress and weeding has commenced in places in Jaipur. Slight damage is apprehended for want of rain in the western districts. In Kishengarh cotton and *juar* which were sown in anticipation of rain have perished. Except in Jaisalmer, agricultural stock is in satisfactory condition. Fodder is dear in Jaisalmer and scanty in places in Ajmer-Merwara. Pasturage is deficient in Jaisalmer and in parts of Kotah, in other places both pasturage and fodder are reported sufficient. Prices are falling in two; rising in four; fluctuating in four; and are steady in seven States. The number of workers on test works in Merwara on the last day of the week was 1,265.

Central India.—There was partial rain during the week in Dhodar and general rain elsewhere. Sowings are in progress throughout the Agency. The condition of agricultural stock and pasturage is bad in parts of Gwalior and fair to good elsewhere. Prices are rising in parts of Gwalior; continue high in Bhopal, Bhilsa and Baghelkhand; low in Malwa; and are steady elsewhere.

Kashmir.—The weather is bright and warm. Prices are almost stationary.

Jammu.—Rain good. Prices are fluctuating. Wheat sells from 11 to 24 and maize 13 to 42 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. Autumn sowings are in progress.

Nepal.—(Report not received.)

J. WILSON,

Secretary to the Government of India.

F

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).

The following special telegraphic Reports, dated 22nd July 1905, on agricultural prospects, are published for general information :

Madras.—Rainfall to 15th July above normal in eight districts ; approximately normal in two districts ; below normal in thirteen districts, namely, Vizagapatam, Godavari, Kistna, Guntur, Kurnool, Anantapur, Cuddapah, Nellore, Chingleput, Madras, North Arcot, Malabar and South Canara. Deficiency is proportionately largest in Madras and Chingleput ; and following defective north-east monsoon water-supplies are generally short. Cultivation figures show a deficiency as compared with five-year average in most districts. Prices are below scarcity rates in all districts, but are approaching scarcity rate in Madras, North Arcot, South Arcot. Second sort rice and three standard dry grains are above or equal to warning rates in all districts. No reason to suppose grain stocks depleted. The standing crops have improved by recent rains, but more rain is generally wanted. Prospects depend on further rainfall. Opening of test works are not at present necessary, but unless well distributed rain falls within next month such works may be required on small scale in parts of South Arcot, Chingleput, North Arcot, Cuddapah and Nellore.

Bombay.—*Sindh.*—Unirrigable area, rainfall sufficient ; elsewhere inundation satisfactory. Early sown crops are flourishing generally. Stocks sufficient. Fodder supply is adequate except in Hyderabad and Thar and Parkar and parts of Kurrachee and Sukkur. Prices are normal and steady. *Cutch, Cambay and Baroda.*—Rainfall generally sufficient, but somewhat short in parts of Baroda and Cutch. Sowing in progress generally and completed in parts. Stocks are sufficient. Prices are normal. Fodder is sufficient except in parts of Baroda. *Kathiawar.*—Rainfall deficient in parts, but sowing in progress generally. Stocks sufficient. Agricultural stock in good condition. Prices are normal. *Gujarat.*—Rainfall good except in Broach where somewhat deficient, but sowing in progress and seedlings in fair condition. Stocks are sufficient. Prices are normal or slightly above. Fodder is sufficient except in Broach where deficient in parts. *Konkan, Sawant-wadi and Kanara.*—Rainfall late and agricultural operations consequently delayed. Sufficient rain since received and transplantation is in progress generally. More rain is wanted. Stocks and fodder are sufficient. Prices are steady. *Deccan.*—Rainfall fair to good in Khandesh, Nasik, Ahmednagar, Poona and West Satara ; elsewhere moderate. Sowing has been retarded in Sholapur, but generally is well advanced or completed, and seedlings in good condition. Stocks and fodder are sufficient. Prices are normal or slightly above. *Karnatak.*—Rainfall generally deficient in greater portion. Sowing retarded and seedlings beginning to wither. Elsewhere sowing continues and seedlings in fair condition. Fodder is scarce. Stocks are sufficient ; prices a little above normal.

Bengal.—In most of the districts in Bengal the rainfall has been above normal. The rainfall from 1st January to 19th July is in considerable defect in the districts of Bankura, Patna, Gaya, Shahabad, Muzaffarpur, Sonthal Parganas, Cuttack and Balasore ; the greatest deficiency occurring in Muzaffarpur. The condition of the crops is fair even in these districts, and there is at present no reason to anticipate any failure of crops. Prospects generally are favourable, and there appears to be no cause for any anxiety regarding the crops throughout the province. Though the last spring wheat and winter rice crops were not very good, there is nothing abnormal in the prices and this seems to indicate a fair reserve of food-grains. ●

United Provinces.—Rainfall sufficient. Agricultural prospects so far good. Grain markets well stocked. Prices above normal.

Punjab.—Sufficient rain for sowing was received in all districts in the second week of July, the heaviest rainfall being in the south-east, including Hissar. Monsoon, although somewhat delayed, is generally in good time for autumn sowings. It is expected that a full area will be placed under autumn crops. Stocks are ample and prices normal.

Burma.—Latest information about monsoon and agricultural prospects as follows :—Rains broke a little later than usual, but have been generally ample and well distributed and about the average. More rain is wanted in parts of Yamethin, Shwebo, Sagaing and Myingyan ; but crop prospects as a whole are very favourable. Stocks of grain are ample. Prices are somewhat above normal in Lower Burma owing to manipulation of speculators ; but below normal in Upper Burma. No distress is apprehended in any part of the province.

Central Provinces.—The rains began very late and on that account the total fall since June 1st is everywhere below the normal and in most places very far below it. But during the last three weeks the fall has, as a general rule, been ample and well distributed, while the continuous cloudy weather has been beneficial and at present moment prospects are nearly everywhere excellent. More rain is required in places and particularly in parts of

the Jubbulpore Division and Chanda, while in Raipur a break would be welcome. Sowings of autumn crops are well advanced; cotton sowings being practically finished. Germination has been good and preparation of land for spring crops has begun. In Chhattisgarh the success of the early rice crop is already assured. The level of prices indicates that stocks of grain are sufficient; prices are considerably higher than at the same period last year, but do not vary much from the average of the last five years, being more frequently below than above it.

Assam.—Agricultural conditions and prospects may generally be considered as normal. The weather has been peculiar and there are areas in which rainfall has been insufficient. The rice crop is somewhat below normal in the Upper Assam Valley and in parts of Sylhet, where prices are rather higher than the average. On the other hand, there are extensive areas in which prospects are very good, and taking the province as a whole there is no present cause for anxiety.

North-West Frontier Province.—Rainfall below average in all districts except Hazara. Autumn sowings postponed in Bannu, but elsewhere they have either commenced or are completed. Acreas sown on unirrigated lands below normal in Peshawar; average elsewhere. Condition of standing crops good and prospects of autumn crops are fair. Stocks of food-grains and fodder sufficient everywhere, except in the Daman tract of Dera Ismail Khan. Prices are average, except in Dera Ismail Khan, where they are above normal. Canals working well and water sufficient.

Coorg.—Rainfall deficient, but deficiency is immaterial, provided later rains are normal. Prices are slightly above average and stocks slightly below, especially in South Coorg, but the variation is not sufficient to warrant any present apprehension.

Central India.—The rainfall, though late and in some parts deficient, has been decidedly favourable. Prospects are distinctly good and there is no present cause for anxiety, even in those areas where deficiency is most marked. Stocks of grain are adequate throughout the province and prices are generally normal or below normal.

Rajputana—Rainfall in considerable defect in Ajmer and in all States except Mewar, Sirohi and Bharatpur. There has been sufficient rain for sowing in nearly all parts of Rajputana, though more is needed in Ajmer-Merwara, Kishengarh and parts of Jaipur and Jodhpur. One further good fall of rain is needed everywhere within next fortnight, failing which crops sown may not germinate and situation will become serious. Prices of cheapest food-grains are higher than normal in Bikaner by 89 seers, in Marwar by 178 seers, in Jaisalmer by 369 seers, in Sirohi by 150 seers, in Tonk by 132 seers, in Karauli by 188 seers, in Ajmer by 272 seers, and in Merwara by 197 seers per rupee; they are slightly lower than normal in Mewar hilly tracts, Mewar, Bundi, Kotah, Jhalawar, Jaipur, Kishengarh, Alwar, Bharatpur and Dholpur. Doubt as to development of monsoon has thus not yet seriously affected prices, but may be expected to do so shortly if rain is much further delayed. Present stocks of grain are reported sufficient for one year's requirements in Bikaner, Kotah, Jhalawar and Bundi; for six months in Jaipur, Bharatpur, Karauli and Dholpur, and for four or five months in other States, except Jaisalmer, where importation of food-grains is sufficient. Stocks are sufficient in Ajmer-Merwara. Grain supply can be supplemented almost everywhere by rail if necessary in spite of stocks held by traders. Staying power of people is exhausted by long series of bad seasons and if rain holds off long famine conditions may be expected to appear at early date.

By order,

J. WILSON,

Secretary to the Government of India.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 5, 1905.

For separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,
Secretary to the Government of India.

Publisher, *Gazette of India*.

GOVERNMENT OF INDIA, DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 3rd August 1905.

N O T I F I C A T I O N S.

No. 2898 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 29th July 1905 :—

- No. 347 of 1905.—James Fleming, electrician, of 170 Dhurumtollah street, Calcutta, and William James Watson, engineer, of Rampur Haut. *An automatic railway brake.*
- No. 348 of 1905.—Jakob Sulzer, mechanical engineer, of 97 Langgasse, Winterthur, Canton of Zurich, Switzerland. *Improvements in or relating to internal combustion engines.*
- No. 349 of 1905.—Jakob Sulzer, mechanical engineer, of 97 Langgasse, Winterthur, Canton of Zurich, Switzerland. *Improvements in or relating to internal combustion engines.*
- No. 350 of 1905.—Charles Frederick Strauss, mine manager, of Railway Hotel, Kalgoorlie, in the state of Western Australia. *An improved lever gripper and attachments for ore feeders and the like.*
- No. 351 of 1905.—James Henry Apjohn, M.I.C.E., of 17 Victoria street, Westminster, in the county of London, England. *Improvements in or connected with compressing tea and the like.*
- No. 352 of 1905.—William Matthew Ducker, manufacturer, of 277 Broadway, New York city, United States of America. *Improvements in and relating to roofs for portable houses.*
- No. 353 of 1905.—Fernand Lalau, manufacturer, of 11 rue La Bruyere, Paris, in the Republic of France. *Improvement in closing receptacles.*
- No. 354 of 1905.—Submarine Signal Company, a corporation organized under the laws of the state of Maine, United States of America, and located at Waterville, in said state, manufacturer of submarine signalling apparatus. *Improvement in apparatus for submarine signalling.*
- No. 355 of 1905.—The National Wire Bound Box Company, a corporation organized and existing under and by virtue of the laws of the state of Indiana, of South Bend, St. Joseph county, state of Indiana, United States of America. *Boxes and means for making blanks therefor.*
- No. 356 of 1905.—Henry Madison Sciple, engineer, of Victoria Hotel, London, England, and Monroe Lee Ross, engineer, of 21 Rue Galilee, Paris, France. *Improvements in and relating to casting.*
- No. 357 of 1905.—Henry Madison Sciple, engineer, of Victoria Hotel, London, England, and Monroe Lee Ross, engineer, of 21 Rue Galilee, Paris, France. *Improvements in and relating to cores or moulds for casting.*
- No. 358 of 1905.—Wilford Arthur Peloquin Cosserat, signal engineer, on the Bengal Nagpur Railway, c/o Messrs. Remfry & Son, solicitors and patent agents, of 8/2 Hastings Street, Calcutta, in British India. *Improvements in railway and other switches.*
- No. 359 of 1905.—Charles Ogilvie Halliday, Captain, R.E., of Hotel Metropole, Simla, c/o Messrs. Remfry & Son, solicitors and patent agents, of 8/2 Hastings Street, Calcutta, in British India. *Improvements in letter and other clips.*
- No. 360 of 1905.—Jacob David Wolf, gentleman, of 17 Throgmorton Avenue, in the city of London, England. *Improvements in or relating to the separation of metals from their ores.*
- No. 361 of 1905.—Albert Henry Bristow, engineer, in the employ of Messrs. Heatly & Gresham, Limited, engineers, of London and Calcutta, residing at 17 Convent Road, Entally, Calcutta, in British India. *An improved apparatus for the better destruction of the smoke which issues from chimneys, boilers and furnaces.*

No. 2899 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 418 of 1904.—Jahar Lal Dhar, an Indian scientist and inventor, of 6 Brindaban Bose's lane, P. O. Simla, Calcutta. *Simplex loom with new picking mechanism.* (Specification filed 6 July 1905.)

No. 531 of 1904.—Roland Hayes Gahagan, of Messrs. Geo. Gahagan and Company, engineers, 271 Bellasis road, Byculla, Bombay. *An improved portable cistern tank or receptacle for the storage or accommodation of water and similar liquids.* (Specification filed 25 July 1905.)

No. 42 of 1905.—George Christian Schmidt, sea captain, of 16 Nordhemsgatan, Gothenburg, Sweden. *Improvements in and connected with appliances for raising and lowering ships' boats.* (Specification filed 25 July 1905.)

No. 255 of 1905.—Cuthbert Harrison Thew, foreman, South Indian Railway, of Negapatam, British India. *Improved means for securing the bayonets of rifles from theft.* (Specification filed 25 July 1905.)

No. 270 of 1905.—James Newbold Gerson, chief carriage examiner, N. W. Railway, Lahore. *A double action automatic door fastener for goods wagons.* (Specification filed 24 July 1905.)

No. 2900 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 66 of 1894.—Samuel Cleland Davidson and Frederick George Maguire. *A machine for packing tea or other substances in chests, cases or other like receptacles.* (From 16 August 1905 to 16 August 1906.)

No. 397 of 1895.—Walter Francis Reid and Edward John Vavasour Earle. *Improvements in nitro-compounds.* (From 4 August 1905 to 4 August 1906.)

No. 172 of 1896.—Samuel Cleland Davidson. *Improvements in tea leaf rolling machines.* (From 20 August 1905 to 20 August 1906.)

No. 486 of 1897.—The Velvriil Company, Limited. *Improvements in the manufacture of machine belting.* (From 1 August 1905 to 1 August 1906.)

No. 258 of 1898.—Tito Livio Carbone. *Apparatus for making sheet metal boxes.* (From 31 August 1905 to 31 August 1906.)

No. 87 of 1899.—Peter Donaldson. *An improved water flush.* (From 12 August 1905 to 12 August 1906.)

No. 62 of 1900.—Darling's Patent Automatic Coupling, Limited. *Improvements in automatically coupling and uncoupling railway carriages, waggon and other vehicles.* (From 31 July 1905 to 31 July 1906.)

No. 70 of 1900.—Eugen Sandow. *Improvements in dumb-bells for physical culture exercises.* (From 31 July 1905 to 31 July 1906.)

No. 485 of 1900.—Frank Shuman and Constantine Shuman. *Improvements in mercerizing machines.* (From 2 August 1905 to 2 August 1906.)

No. 229 of 1901.—Arthur Koppel. *An arrangement for retaining in position the trough shaped body of a tipping wagon.* (From 2 August 1905 to 2 August 1906.)

No. 2901 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive

privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 301 of 1900.—Montague Kelway Bamber and Brown and Company, Limited. *Improvements in green tea manufacture.* (Specification filed 23 April 1901.)

No. 335 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in electric brakes.* (Specification filed 23 April 1901.)

No. 336 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in and relating to lightning arresters.* (Specification filed 23 April 1901.)

No. 337 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in mechanism for generating variable electro-motive force.* (Specification filed 23 April 1901.)

No. 412 of 1900.—The Spink Liquor Company. *Process for treating liquors and liquids.* (Specification filed 22 April 1901.)

No. 29 of 1901.—Frank Clarence Newell. *Improvements in electric brakes.* (Specification filed 23 April 1901.)

No. 31 of 1901.—Frank Clarence Newell. *Improvements in electric brake shoes.* (Specification filed 23 April 1901.)

No. 33 of 1901.—Frank Clarence Newell. *Improvements in electrical brakes for railway cars.* (Specification filed 23 April 1901.)

No. 34 of 1901.—Frank Clarence Newell. *Improvements in electric brakes.* (Specification filed 23 April 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

PURE SULPHATE OF QUININE AND SULPHATE OF CINCHONIDINE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April 1905 the price of these articles will be as follows :—

Quinine 1-pound tin, R16, or post-free, R16-8				
1	"	R8,	"	R8-6
1	"	R4,	"	R4-6
Cinchonidine 1	"	R12,	"	R12-8
1	"	R6,	"	R6-5
1	"	R3,	"	R3-6

Analysis shows these articles to be of the purest manufacture; and they are guaranteed to be free from wilful admixture with the inferior alkaloids. They are for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. Cinchonidine can also be purchased by dealers at the following rates :—

1 lb tin	R16 or post-free	R16-8.
1 lb "	R8	" R8-6.
1 lb "	R4	" R4-4.

TREASURE TROVE.

NOTICE.

It is hereby notified, under section 5 of the Indian Treasure Trove Act, VI of 1878, that, on the 22nd July 1904, treasure consisting of the undermentioned articles and valued at R30-6-0 was found by a cooly named Para Mangalathin in a heap of earth by the side of a wall that was under construction in the garden attached to the house of M. Appaji Reddi, Monigar of Iruwelipattu, in Iruwelipattu village, Tirukkoyilur taluk, South Arcot District, in the Madras Presidency.

Description of treasure.	Number.	value.		
		R	a.	p.
Gold beads of a neck jewel (addigal)	37	7	0	0
Silver rudraksham	1	0	1	0
Silver jewel (tayitu)	1	0	1	0
Gold hair ornament with silver plates below	4	14	0	0
Silver screw with karuappu set with 10 rubies	1	3	0	0
Small silver kalesam, portion of hair ornament (jadaikuchchu)	1	0	4	0
Gold hair ornament with silver plates below	2	6	0	0
TOTAL	47	30	6	0

2. All persons claiming the said treasure, or part thereof, are hereby required to appear personally, or by agent, before the Collector of South Arcot at his office at Cuddalore, on Monday, the 18th day of December 1905, in view to the matter being enquired into or determined according to law.

for Collector.

SOUTH ARCOT COLLECTOR'S OFFICE;
The 22nd July 1905.

DEPARTMENT OF ISSUE OF PAPER CURRENCY.

● Remarks by the Administrative Medical Officer, North-West Frontier Province.

REMARKS by the Administrative Medical Officer, North-West Frontier Province.

Five thousand three hundred and thirty-two births were registered in the Province during the month of June 1905, giving a birth-rate of 33.7 per mille of population. Of the total number of births, 2,940 were boys and 2,392 girls.

The total number of deaths registered from all causes in the Province during the month of June 1905 was 4,098 in the previous month and 4,155 in the corresponding month of the past year, giving an annual death-rate of 28, 24 and 25 per mille of population per annum, respectively.

There was not a single death registered under the head of cholera. From small-pox 38 deaths were registered against 43 in the previous month and 131 in the corresponding month of the past year.

There was not a single death registered from plague.

From fever 2,643 deaths were registered against 3,257 in the previous month and 3,255 in the corresponding month of the last year; dysentery and diarrhoea 47 against 73; respiratory disease 91 against 18; accidents 43 against 41; snake-bite and killed by wild beasts 1 against 2; and from all other causes 745 against 620 in the past month and 531 in the corresponding month of the last year.

**V. HARINGTON, Lt.-Col., I.M.S.,
Administrative Medical Officer, N.W. F. Province.**

Postwar, the 27th July 1905.

SUPPLEMENT TO
The Gazette of India.

No. 31}

SIMLA, SATURDAY, AUGUST 5, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem fit to insert for the Public, and such as may usefully be read by the Members of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

ESTABLISHMENTS.

**PAY OF THE DISTRICT AND SESSIONS JUDGESHIPS IN THE BOMBAY PRESIDENCY
WHEN HELD BY MEMBERS OF THE PROVINCIAL SERVICE.**

NOS. 759-769.

Simla, the 28th July, 1905.

RESOLUTION.

In paragraph 5 of the Home Department Resolution no. 1343 1342^{6--Public} dated the 21st April 1892, the rates of pay for officers of the Provincial Service holding the appointments as District and Sessions Judges in the Bombay presidency which were listed as open to that Service were fixed as follows:

	Rs.
1st grade	1,500
2nd "	1,200
3rd "	1,000

2. The pay of District and Sessions Judges in Bombay who are members of the Indian Civil Service, has recently been raised from Rs. 2,325, Rs. 1,800 and Rs. 1,600 to Rs. 2,500, Rs. 2,325 and Rs. 1,800 respectively. The Governor General in Council is accordingly pleased to decide that the pay of Rs. 1,000 a month for an officer of the Provincial Service holding an appointment in the 3rd grade of District and Sessions Judges shall be raised to Rs. 1,200 a month, and that the existing rate of Rs. 1,600 a month shall be fixed for an officer of that service holding an appointment either in the 1st or 2nd grade. The rates of pay for officers of the Bombay Provincial Service holding listed appointments of District and Sessions Judge in the different grades will accordingly henceforth be as follows:

	Rs.
1st or 2nd grade	1,600
3rd grade	1,200

ORDER.—Ordered that a copy of this Resolution be forwarded to local Governments and Administrations for information and that it be published in the Supplement to the *Gazette of India*.

H. A. STUART,

Offg. Secretary to the Government of India.

II. A. STUART,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).**Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 3rd August 1905, based on the India Daily Weather Reports of the period.**

The principal features of the weather, of the period under review, have been the heavy rainfall which accompanied the barometric depression in north-east India and the general feebleness of the monsoon conditions over the whole of the remainder of the country.

The depression had appeared over the head of the Bay on the 23rd, had travelled gradually northward crossing the coast on the 27th and lay between Berhampore and Bogra on the 28th July, when the period under review commenced. Rain on the 28th had fallen generally over north-east India and the Burma coast and the principal amounts were 11.78" at Burdwan, 7.23" at Calcutta and 4.80" at Jessore. On the 29th the depression was practically unchanged and lay in the same position. It continued to determine general rain to north-east India and the Burma coast, but the amounts were lighter, the heaviest falls reported having been 5.31" at Cherrapoonjee; 4.44" at Burdwan; 3.98" at Chittagong and 3.95" at Jessore. By the morning of the 30th the storm had practically disappeared. Rainfall had diminished both in amount and extent, but was still heavy in places, Chittagong reporting 9.93"; Akyab 7.29"; Cherrapoonjee 6.74"; and Darjeeling 5.39". Between July 31st and August 3rd, though the storm had disappeared, there occurred a fairly steady flow of moist air on to the Burma coast and into north-east India, and fairly general daily rain fell over those regions. The rainfall was irregularly distributed and, though generally light or moderate, was heavy at Bassein (4.16"), Cherrapoonjee (4.92") and Darbhanga (4.65") on the 31st; at Akyab (3.25") on the 1st; at Cherrapoonjee (6.40") and at Tezpur and Darjeeling (each 2.10") on the 2nd; and at Cherrapoonjee (3.33") and Darjeeling (3.08") on the 3rd.

In all other parts of the Indian land area the principal feature of the weather has been the general lightness and feebleness of the monsoon conditions. Along the West Coast the rainfall throughout the week was light and on the 31st of July and the 1st of August the rainfall area contracted to a very small portion of the Malabar coast. Showers were, however, carried into the interior and east of the Peninsula on the 30th and 31st July and the 1st, 2nd and 3rd of August, and along the East Coast the amounts were somewhat heavier than usual.

From the North-west dry area, north Bombay, Rajputana, the southern portions of the Gangetic Plain and the western districts of Central India and of the Central Provinces monsoon conditions have been absent throughout the week, and the weather there has been dry with temperatures considerably above the normal. To the north of this large area, however, *i.e.*, over the submontane regions of the United Provinces and of the east Punjab, as well as over the adjoining hills fairly general daily showers were received throughout the week.

The rainfall table shows that the week's fall exceeded the normal over the Burma coast, Bengal, Assam and Bihar owing to the heavy rainfall connected with the depression of the 28th to 30th July; and over parts of south India and of the East Coast owing to the generally showery weather which prevailed throughout the week. Over the whole of the remainder of the Indian land area the week's fall was short of the normal and over the North-west dry division and the Lahore, Jhansi, Jaipur and Rajkot subdivisions there was actually or practically no rain throughout the period. The deficiency was large and important over the Bombay Presidency, the more central divisions of India and the interior of the Peninsula.

The season's rainfall to date has been more or less deficient, except on the Burma coast, over Bengal, Bihar and part of Gujarat.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 3rd August 1905.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE
(REVENUE).

Season and Crop Prospects for the week ending Saturday,
29th July 1905.

Madras.—Rainfall *nil* in Guntur, Anantapur, Salem, Coimbatore and parts of the Southern districts; heavy in the Vizagapatam Agency and the West Coast districts; good in Ganjam and the Nilgiris; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency, except in Vizagapatam, Cuddapah, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some in parts of Godavari, South Arcot and Tanjore are withering, and some in parts of Kistna, Bellary, the Central districts and Tinnevely require more rain. There are no harvests in parts of the Circars, Kurnool, Cuddapah and the West Coast districts, but they continue in parts elsewhere with poor to fair outturn. Pasture is insufficient except in Ganjam, Vizagapatam, Kurnool, Salem, the West Coast districts and the Nilgiris. Fodder is scanty except in parts of the Circars, Salem, the Southern and West Coast districts and the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in eleven districts; and has very slightly risen in twelve. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts; has fallen in three; and has slightly risen in eleven. *Cholam* is stationary in five districts; has fallen in two; and has slightly risen in seven. *Cumbu* is stationary in three districts; has fallen in five; and has slightly risen in seven. Arrangements have been made for starting one test work near Madavaram in the Chingleput district.

Bombay.—There was heavy rain during the week in parts of Thar and Parkar, Ahmedabad, the Panch Mahals, the Konkan, Khandesh, Nasik, Poona, Satara, Belgaum, Kathiawar, Rewa Kantha, Mahi Kantha and Sawantwadi; moderate in parts of Hyderabad, Kaira, Broach, Surat and Ahmednagar; slight in parts of Karachi, the Upper Sindh Frontier and Dharwar; and very slight in parts of Larkana, Sukkur, Sholapur, Bijapur and Baroda. More rain is needed in parts of Larkana, the Upper Sindh Frontier, Surat, Ratnagiri, Ahmednagar, Poona, Sholapur, Satara, the Karnatak and Baroda. Inundation in Sindh is generally satisfactory. The sowing of autumn crops is nearly completed in Sukkur, Broach, Khandesh and Satara, and continues elsewhere, except in parts of Bijapur and Dharwar, where it is retarded on account of want of sufficient rain. Transplantation of rice is nearly completed in the Upper Sindh Frontier, Sukkur and Satara; continues in parts of Larkana, Gujarat, the Konkan, Nasik, Poona, Rewa Kantha and Sawantwadi, but is retarded in parts of Surat, Thana and Ratnagiri. Autumn seedlings have been slightly damaged by heavy rain in parts of the Panch Mahals, Baroda, Mahi Kantha and Rewa Kantha, and are suffering from want of rain in parts of Sholapur and the Karnatak. The fodder supply is sufficient except in parts of Hyderabad, Belgaum and Dharwar. Agricultural stock is sufficient and in good condition. The water-supply is adequate except in parts of Belgaum. Prices have fallen in two districts and are stationary elsewhere. The numbers on relief during the week ending the 22nd July were as follows:—daily average on relief works—Kaira, 688; on gratuitous relief—Kaira, 181; Belgaum, 726; total, 1,595. The total number on the last day of the week on test works was:—Panch Mahals, 161.

Bengal.—Rain was fairly general all over the Province. The fall was very heavy in South-West Bengal, but moderately light in Orissa and portions of Chota Nagpur; in Bihar the fall was good and sufficient for transplantation of winter rice which is now going on there briskly. Prospects of sugarcane, jute and other standing crops are fair. There is no want of fodder and water. The price of rice has risen in nine districts and has fallen in four.

United Provinces.—The rainfall has been scanty and more rain is required in almost every district. Sowings have been suspended in places and the standing crops are reported to be withering for want of rain in Mainpuri, Etawah, Cawnpore and Hamirpur. Germination has failed in Shahjahanpur, but prospects are otherwise good. Fodder is scarce in Etawah and Hamirpur. Markets are well stocked except in Aligarh. Prices continue high.

Punjab.—All districts received rain during the week except Hissar, Delhi, Lahore and Lyallpur. Prices of food-grains show a tendency to rise. The price of wheat is rising in Ambala, Lahore, Sialkot, Shahpur, Rawalpindi, Mianwali and Multan. Sowings of autumn crops continue. The condition of the standing crops is generally good. Crops on unirrigable lands are suffering from want of rain in the Hissar and Amritsar districts. The crops are being damaged by white ants in parts of Delhi. Cattle are in good condition. Fodder is sufficient except in parts of Mianwali and Multan. There are no complaints regarding the water-supply.

North-West Frontier Province.—There was no rain during the week except in Hazara and Sheikhubudin. More rain is required everywhere. *Bajra* sowings in Bannu have been completed. Autumn sowings have commenced in parts of Dera Ismail Khan. The condition of the crops on irrigated land is generally good and on unirrigated land average. The condition of cattle is good. Fodder is sufficient. The canal water-supply is satisfactory except in parts of Peshawar. Prices are stationary. Prices—wheat 16 to 22; gram 18 to 27; maize 19 to 29; and *bajra* 17 to 20 seers per rupee.

Burma.—The rainfall of the week was general and sufficient in Lower Burma, and agricultural operations are proceeding satisfactorily. Nursery plants are reported to be insufficient in the Thaton township of the Thaton district, owing to previous destruction of nurseries by floods. In Upper Burma more rain is still required in Thayetmyo, parts of the Yeu and Tabayin townships of Shwebo, and in Yamethin and Myingyan; in the latter two districts the sesamum plants are withering for want of it. Recent rain has improved the prospects of early sesamum in Sagaing. Reaping of dry-weather paddy in Magwe is completed. Sowing of hill-side paddy in Bhamo and of early sesamum and maize in Pakokku is completed. Cultivation of late sesamum and *juar* in Sagaing and of *juar* in Myingyan has commenced. The condition of the standing crops is generally satisfactory. The price of paddy has fallen considerably in Myaungmya.

Central Provinces.—Except in Raipur, Sambalpur, Wun and the Hinganghat tahsil of Wardha, where useful rain has fallen, little or no rain was received during the week. The want of rain is delaying the sowing of the important *machowa* rice crop in Jubbulpore; and transplantation of rice which is important in Bhandara, Balaghat, Chanda and Seoni, and *bias* (thinning operations) in Chhattisgarh are also retarded. The standing crops of all sorts are everywhere in good condition at present, but unless rain falls very soon some deterioration may be expected in the Vindhyan districts and in those where transplanted rice is important. The need for rain is probably most urgent in Saugor and in the Chanda rice tracts. Some diminution in the inflated cotton area of last year is reported from Amraoti. Raipur expects a 10 per cent. increase in its rice area. With the exception of transplantation, the agricultural operations usual at this season are in progress. Locusts in small numbers are still seen in a few districts, but damage is reported from Chanda only. Scarcity of fodder exists in several parts of the provinces, and in the Thana tahsil of Saugor cattle are dying for want of grass. Prices show a tendency to rise in Hoshangabad, where prospects are excellent; elsewhere they are steady or fluctuate slightly.

Assam.—The weather is hot. Slight to moderate rain fell in all districts during the week. More rain is wanted for late rice in some districts of the Assam Valley. Plucking and manufacture of tea continue, and prospects are good in Sylhet and Nowgong and fair elsewhere. Transplanting of late rice continues. Reaping of early rice is in progress and prospects are good in Sylhet, Goalpara and the Garo Hills; poor in Kamrup; and fair in other places. Cutting of jute is in progress. Prospects of jute and cotton are good. Fodder is insufficient in parts of Kamrup. Prices of common rice—Nowgong 16; Silchar, 15; Sylhet and Sibsagar, 14; Dhubri and Tezpur, 13; and Gauhati and Dibrugarh, 12 seers per rupee.

Mysore.—The rainfall of the week was good in the Kadur and Shimoga districts; fair in Hassan; and slight elsewhere. Prices of food-grains are steady. The crops are in good condition, except in the Mysore, Kolar and Chitaldroog districts. More rain is much needed generally in the Province. Cattle are generally healthy. Water is available, but fodder is getting scanty in parts of the Kolar, Mysore, Hassan, Kadur and Chitaldroog districts.

Coorg.—Rainfall—5 inches 20 cents. Transplanting of rice continues. Prices of food-grains are stationary. Water and fodder are ample.

Hyderabad.—Rainfall—60 cents. The monsoon is holding off. 1 inch 15 cents of rain has since fallen at Warangal. Autumn sowings have been suspended in four taluks for want of rain. Young crops are withering in eighteen taluks, and more rain is urgently required in fourteen. Insects are damaging the crops in three taluks and locusts in one taluk. Elsewhere autumn and early rice sowings are progressing, and weeding has begun in parts. Lands are being prepared for spring sowings in nineteen taluks. Fodder scarcity exists in nineteen taluks and water scarcity in seven taluks. Prices—wheat, 12½; coarse rice, 8½; and *juar*, 19½ seers per rupee.

Rajputana.—Rainfall in cents—Bikaner Nizamat, 12; Reni Nizamat, 6; Marwar, 1'36; Jaisalmer, 5; Sirohi, 1'52; Mewar, 21; hill tracts of Mewar, 3'07; Partabgarh, 1'70; Bundi, 30; Shahpura, 25; Kotah in six districts from 2'00 to 3'15, in ten districts from 1'00 to 2'00, and in remaining districts below 1'00; Chaoni Jhalrapatan, 9; Alwar, 2; Dholpur, 9; and Merwara, 5. Rain has been generally insufficient and more is urgently wanted. Autumn sowings are retarded in Haraoti and Tonk, Kishangarh, Alwar, Bharatpur and parts of Kotah and Jaipur and in Ajmer-Merwara. Crops are withering in parts of Jaipur, Kishangarh and in Bharatpur and Ajmer-Merwara. Except in Jaisalmer agricultural stock is in satisfactory condition, but emigration of cattle from Kishangarh and Ajmer has commenced. Fodder is dear in Jaisalmer and scanty in Alwar and in parts of Ajmer-Merwara. Pasturage is reported deficient in Jaisalmer and in parts of Kotah, in other places both pasturage and fodder are reported sufficient. Prices are rising in eight; fluctuating in one; and are steady in nine States. The number of workers on test works in Merwara on the last day of the week was 1,818.

Central India.—There was partial rain during the week in parts of Gwalior; *nil* in Bundelkhand and Baghelkhand; and general rain elsewhere. Sowing has been completed in parts of Indore, Malwa, and Bhopal, and is in progress elsewhere. Agricultural stock and pasturage are generally fair to good, though poor in parts of Gwalior. Prices continue high in Bhopal; are rising in Bundelkhand and parts of Gwalior; falling in Bhopawar; and are steady elsewhere.

Kashmir.—The weather is bright and warm. Prices are almost stationary.

Jammu.—There was good rain during the week. Prices are fluctuating. Wheat sells from 11 to 24 and maize 21 to 42 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. Autumn sowings are nearly over.

Nepal.—(Report not received.)

J. WILSON,
Secretary to the Government of India.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 12, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 10th August 1905.

N O T I F I C A T I O N S.

No. 2979 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 5th August 1905:—

No. 362 of 1905.—The Toledo Glass Company, manufacturers, a corporation organized under the laws of the state of Ohio and having its principal office at the city of Toledo, in the county of Lucas, in said state of Ohio, United States of America. *Improvements in glass-shaping machines.*

No. 363 of 1905.—The Monitor Shipping Corporation Limited, engineers, of St. Nicholas' Buildings, Newcastle-on-Tyne, in the county of Northumberland, England. *Improvements in navigable vessels.*

No. 364 of 1905.—William Chamberlain and Arthur Chamberlain, machinists, of Spa Lane Works, Wigston Magna, in the county of Leicester, England. *Improvements in or relating to brakes and free wheel clutches for cycles and the like.*

No. 365 of 1905.—Emile Fourcault, glass manufacturer, of 49 rue du Worchut, Lodelinsart, in the kingdom of Belgium. *Improvements in and apparatus for the manufacture of glass sheets, or plates.*

No. 366 of 1905.—Ernest Frederick Greeff, commission merchant, and Albert Tilt, manufacturer, both of 106 Spring street, New York, state of New York, United States of America, and Charles Cesar Rossire, commission merchant, of No. 80 Greene street, New York, aforesaid. *Process of obtaining caoutchouc from plants belonging to the nettle family.*

No. 367 of 1905.—Frederick James Brown, surgeon, of 3 Lombard street, Newark-on-Trent, in the county of Nottingham, England. *Improvements in rifle range markers.*

No. 368 of 1905.—David Kinloch Michie, engineer, of Colombo Iron Works, Colombo, Ceylon, and George Herbert Golledge, planter of Gikiyanakande, Estate, Neboda, Ceylon. *Improvements in the method of separating or coagulating india-rubber and in appliances therefor.*

No. 2980 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 537 of 1904.—James Holden, engineer, of Hermon Hill, Wanstead, in the county of Essex, England, and Edmund Spenser Tiddeman, engineer, of 14 Elgin road, Seven Kings, in the county of Essex, England. *Improvements in and relating to spark-arresting apparatus.* (Specification filed 28 July 1905.)

No. 543 of 1904.—George Jones Atkins, metallurgical chemist, residing at The Laboratory, Ruskin road, Tottenham, in the county of Middlesex, England. *Improvements in or connected with the pole or electrodes of electrolytic apparatus and the like.* (Specification filed 28 July 1905.)

- No. 544 of 1904.—Alfred Z. Clark, mineralogist, of No. 90 Queen street, Melbourne, in the state of Victoria, and Commonwealth of Australia. *Improvements in apparatus for treating crushed ores, slimes, tailings, and alluvial and other wash dirt, for the recovery of metals or gems therefrom.* (Specification filed 28 July 1905.)
- No. 63 of 1905.—Jennie Kendall, merchant, and Charles Walke, inspector of steam boilers, the town Customs House, both of Bombay. *Cleaning turmeric.* (Specification filed 28 July 1905.)
- No. 128 of 1905.—Henry Holmes Jellett, district engineer, 'Bengal-Nagpur Railway, Kharagpur, British India. *Improvements in centrings for arches and the like.* (Specification filed 28 July 1905.)
- No. 134 of 1905.—George Edward Woodward, engineer, of 37 Gertard street, London, W., England. *Improved process for the production of non-inflammable celluloid.* (Specification filed 31 July 1905.)
- No. 291 of 1905.—William Samuel Morley, retired officer of the Northern India Salt Revenue Department, and George Hamilton, mechanic, both of Myrtle Lodge, Lower Lines, Chunar, in the United Provinces, British India. *Non-conducting or heat-resisting roofing tiles, slabs, and bricks.* (Specification filed 3 August 1905.)

No. 2981 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 56 of 1896.—George Alexander Dick. *Improvements in or connected with means or apparatus for compressing, squeezing, or squirting heated metals.* (From 7 August 1905 to 7 August 1906.)
- No. 434 of 1896.—Guglielmo Marconi. *Improvements in transmitting electrical impulses and signals and in apparatus therefor.* (From 9 August 1905 to 9 August 1906.)
- No. 28 of 1897.—Donald Barns Morison. *Improvements in stamp mills or apparatus for crushing ores and other substances.* (From 9 August 1905 to 9 August 1906.)
- No. 90 of 1897.—Donald Cameron and Frederick James Commin. *Improvements in apparatus for automatically alternating the delivery of liquid to two chambers or receptacles and also its discharge therefrom, particularly applicable to sewage filters.* (From 13 August 1905 to 13 August 1906.)
- No. 92 of 1897.—Donald Cameron and Frederick James Commin. *Improvements in the treatment of sewage, and in apparatus therefor.* (From 13 August 1905 to 13 August 1906.)
- No. 93 of 1897.—Donald Cameron, Frederick James Commin, and Arthur John Martin. *Improvements in apparatus for the treatment of sewage or other liquids.* (From 13 August 1905 to 13 August 1906.)
- No. 156 of 1897.—John Alston Hart. *Improvements in apparatus for ventilating and for purifying, humidifying, and otherwise conditioning air.* (From 3 August 1905 to 3 August 1906.)
- No. 383 of 1901.—Lt.-Col. R. G. Jones. *Starting races.* (From 11 March 1906 to 11 March 1907.)
- No. 384 of 1901.—Lt.-Col. R. G. Jones. *A light training saddle.* (From 11 March 1906 to 11 March 1907.)

No. 2982 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 285 of 1900.—Ella Claudine Spencer. *Damp-protecting cover for an ordinary cigar or cheroot box.* (Specification filed 2 May 1901.)
- No. 340 of 1900.—Francis Dillon Bellew. *Improvements in rail way chairs.* (Specification filed 3 May 1901.)
- No. 347 of 1900.—Francis Dillon Bellew. *A new or improved blender for tea and the like.* (Specification filed 3 May 1901.)

No. 358 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improvements in current collectors for electrical machines.* (Specification filed 1 May 1901.)

No. 359 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited. *Improved method of and installation for operating two-phase electric motors.* (Specification filed 1 May 1901.)

No. 395 of 1900.—James Cockle Cox. *Improvements in rotary ceiling fans.* (Specification filed 3 May 1901.)

No. 463 of 1900.—William James Angus Morrow. *Improvements in the manufacture of brushes.* (Specification filed 2 May 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 301 of 1896.—George Johnston. *Improvements in automatic central buffers and couplings.* (Specification filed 30 April 1897.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the seventh year and before the expiration of the eighth year from the date of the filing of the specification—

The sum of Rs 50 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

* Agents for sale of the Legislative Department publications.

NOTICE—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agents of the particular Government under whose orders they were originally issued.

The amounts within parentheses are for packing and postage.

Name of advertiser—GANENDRA CHANDRA MUKHERJEE.
Residence—Brahmanbaria.

SUPPLEMENT TO
The Gazette of India.

No. 32.} CALCUTTA, SATURDAY, AUGUST 12, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
RAILWAY BOARD.

No. R. Stat. 43, dated Simla, the 26th July 1905.

**RETURN OF ACCIDENTS ON INDIAN RAILWAYS FOR THE TWELVE MONTHS
ENDED THE 31ST DECEMBER 1904.**

READ AGAIN—

Government of India Order No. 256 R. Stat., dated the 1st August 1904.

READ ALSO—

The following particulars of accidents to trains, etc., on the open lines of railway in India for the twelve months ended the 31st December 1904.

I.—Accidents to trains, rolling stock, permanent-way, etc.

Accidents to trains, rolling stock permanent-way, etc., as shown under Abstract No. 4 on pages 1438 and 1439 of the accompanying Abstract return, caused the death of 40 persons and injury to 201 persons, against 77 and 218, respectively, during the previous year.

II.—Accidents to passengers from causes other than accidents to trains, rolling stock, permanent-way, etc., including accidents from their own want of caution or misconduct; accidents to persons passing over level crossings; trespassers, and others.

2. Of the 872 persons killed and 539 injured, as shown under this heading in Abstract No. 1, 105 of the former and 321 of the latter were passengers, the remainder being persons passing over level-crossings, trespassers, suicides and others. Details of the killed and injured will be found in Abstract No. 2.

III.—Accidents to servants in the employ of Railway Companies or Contractors caused by the travelling of trains or the movement of vehicles used exclusively upon railways.

3. Of railways' or contractors' servants 250 were killed and 364 injured, in addition to 23 killed and 103 injured included in the figures in paragraph 1. Details of these will be found in Abstract No. 2.

4. Altogether the number of persons killed and injured on Indian railways in the working of public traffic during the year 1904 was as follows:—

	1904.		PREVIOUS YEAR.		INCREASE.		DECREASE.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
PASSENGERS—								
From accidents to trains, rolling stock, permanent-way, etc.	11	81	50	116	39	33
By accidents from other causes	105	321	93	331	12	10
SERVANTS—								
From accidents to trains, rolling stock, permanent-way, etc.	23	103	15	95	8	8
By accidents from other causes	250	364	275	390	25	26
OTHER PERSONS—								
From accidents to trains, etc.	6	15	12	7	...	8	6	...
Persons passing over railways at level crossings	23	7	16	3	2
Trespassers including suicides	697	188	648	177	49	11
Miscellaneous, not included in the above	41	14	35	22	6	8
TOTAL	1,155	1,030	1,144	1,141	12	52

5. In addition to the above 74 persons are reported to have been killed and 286 to have been injured upon railway premises by causes not connected with the movement of vehicles used exclusively upon railways.

6. Thus the total number of persons reported to have been killed and injured during the twelve months amounted to 1,230 and 1,375, respectively.

IV.—Number of persons killed and injured by accidents to trains, rolling stock, etc., during the year 1904.

7. The following is a summary of the number of accidents, as classified in Abstract No. 4, which occurred on the several railways and which resulted in loss of life or injury to persons:—

Railway.	Number of accidents reported during the year 1904.	PASSENGERS AND OTHERS.		SERVANTS.		TOTAL.

Previous year	83	62	123	15	95	77	218

8. A brief description of some of the accidents resulting in loss of life, injury to persons, or serious damage to rolling stock, is given below :—

- (i) *Assam-Bengal railway*.—On the 19th November, No. 12 down mixed train ran into a slip in the cutting at mile 350½ near Hatikhali station and got derailed. An accident relief train went out to the slip and while returning collided with a second relief special at mile 353½, due to laxity and want of judgment on the part of all concerned. Four railway servants were injured. The rolling stock and permanent-way were damaged.
- (ii) *Bengal-Nagpur railway*.—On the 8th July, No. 4 up Madras mail train was derailed near mile 88—15, between Narayangar and Contai Road stations, due to the derailment of the seventh vehicle (Madras railway first class carriage No. A.-31), owing to a slack in the line. One passenger was killed and fourteen injured. The rolling stock and permanent-way were considerably damaged.
- (iii) On the 7th October, a collision occurred between a ballast engine and wagons of the ballast train at mile 137—2, between Bankura and Ondagram stations, due to the driver not having his engine under proper control when returning after watering. A child was killed and three coolies seriously injured.
- (iv) *Burma railways*.—On the 6th January, ballast train No. 14 was returning from mile 81 B loaded with earth for Letpadan and running brake 'foremost, when it ran over a buffalo, and got derailed. The guard was killed and twelve ballast coolies injured. The rolling stock was damaged.
- (v) *Eastern Bengal State railway*.—On the 8th June, No. 42 down mixed train was derailed at mile 195—6 between Sonali and Katihar, due to the breakage of an axle of a goods wagon. One passenger was killed and three injured. The rolling stock was damaged.
- (vi) On the 4th September, Nos. 35 up mail and 64 down goods trains collided at Machhpara station, due to the non-observance of shunting rules by the assistant station master, and to the driver of the mail train running against signals. Five passengers were killed and six injured. The engines and rolling stock of both trains were considerably damaged.
- (vii) *Indian Midland railway*.—On the 14th July, during shunting operations, the engine and five wagons of No. 400 up goods train collided with a ballast train at Saugor station, owing to points being incorrectly set. Two coolies were killed and six injured.
- (viii) *Kalka-Simla railway*.—On the 6th January, No. 5 up goods train had only gone a mile out of Kalka when the engine wheels began skidding at every attempt to move forward, and it was consequently determined to bring back the train to Kalka in order to reduce the load. When proceeding back the train got out of control. One wagon got derailed, and 2 wagons, the water tank and engine were pulled off the line. The leading wagons ran on through Kalka yard into a loaded truck standing in the dead end. Four men were killed and four injured. The rolling stock was considerably damaged.
- (ix) *North Western State railway*.—On the 23rd June, an up special goods train got out of control between Chhab and Uchhri stations, and running through Uchhri station, ran into and over the slip siding of that station. The fireman and khalassi of the engine were killed and the driver was slightly injured. The rolling stock was considerably damaged.
- (x) On the 24th June, Nos. 144 down and 109 up goods trains collided at Bandhi station, owing to the carelessness of the locomotive and traffic staff. The rolling stock was considerably damaged.
- (xi) On the 3rd October, No. 119 up light engine ran through Reti station without stopping or receiving line clear, and collided with No. 24 down passenger train at mile 407—10, between Reti and Dhandi stations. Two railway servants were killed and two passengers and five railway servants were injured.
- (xii) On the 5th October, No. 10 down passenger train collided with the engine of No. 13 up local train which was shunting and was foul of the crossing of points, at Malakwal station, due to the carelessness of the locomotive and traffic staff. Two passengers were killed and twelve injured. The rolling stock was considerably damaged.
- (xiii) On the 24th October, owing to points being wrongly set, No. 79 up goods train ran into the dead end siding at Delhi, resulting in the engine breaking down the buffer stop and falling into the fort ditch. The fireman and khalassi were killed and the driver seriously injured.
- (xiv) On the 29th November, No. 120 down goods train entered Pano Akil station at high speed and collided at the trailing points with No. 112 down goods train

which was leaving the station at the time, resulting in considerable damage to rolling stock.

- (xv) On the 17th December, a construction train, being pushed, ran away and dashed into an unfinished bridge at mile 64½ on the Quetta-Nushki construction line, due to the brake of the bogie having broken. Eighteen coolies were killed and 22 injured. Rolling stock was considerably damaged.
- (xvi) *South Indian Railway*.—On the 26th December, No. 26 down mixed train collided with No. 69 up goods train, which was fouling the points at Ayyampet station. One fireman was injured. The rolling stock was considerably damaged.

RESOLUTION.

With an increase of 700 miles, or 2·63 per cent. in the mean mileage worked, and of 6,761,000 miles, or 7·05 per cent., in the train-mileage run, the number of train accidents increased by 581, but the total number of persons killed and injured fell from 77 and 218 to 40 and 201, respectively. This is entirely satisfactory.

ORDER.—Ordered that the above note, with the Abstract return and appendices

The Governments of Madras, Bombay, Bengal, United Provinces of Agra and Oudh, Punjab and Burma.
The Honourable the Chief Commissioners of the Central Provinces and Assam.
The Honourable the Chief Commissioner of Coorg.
The Honourable the Resident at Hyderabad.
The Honourable the Resident in Mysore.
The Honourable the Agents to the Governor-General for Rajputana, Central India and Baluchistan.
The Honourable the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province.
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Assam.
The Managers, North Western, Oudh and Rohilkhand and Eastern Bengal State railways.
The Engineers-in-Chief, Murshidabad Branch of the Eastern Bengal State railway and the Nagda-Muttra railway.

thereto, be communicated, for information, to the Local Governments and Administrations, and to the officers noted in the margin.

Ordered, also, that copies be forwarded for the information of His Majesty's Government.

Ordered, further, that this Resolution, with the Abstract return, be published in the Supplement to the *Gazette of India*.

NEVILLE PRIESTLEY,
Secretary, Railway Board.

Documents accompanying.

Abstract return of accidents for the twelve months ended the 31st December 1904.

ABSTRACT No. 1.

GENERAL TOTAL.

NUMBER of PERSONS reported, during the TWELVE MONTHS ended the 31st December 1904, as KILLED or INJURED ON ALL RAILWAYS open for TRAFFIC in INDIA, distinguishing between PASSENGERS, RAILWAY SERVANTS and OTHER PERSONS; and distinguishing also, in the case of the two former classes, between ACCIDENTS caused by ACCIDENTS to TRAINS, ROLLING-STOCK, PERMANENT-WAY, etc., and ACCIDENTS happening otherwise.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 10th August, 1905.

No. 19.—Whereas the Calcutta Chamber of Commerce has, in accordance with the Regulations published in the Notification of the Government of India in the Legislative Department, No. 19, dated 23rd June, 1893, and amended by Notification No. 33, dated the 23rd December, 1902, recommended the Hon'ble Mr. A. A. Apcar, President of the said Chamber, for nomination as an Additional Member of the Council of the Governor General for the purpose of making Laws and Regulations;

In exercise of the power conferred by section 10 of the Indian Councils Act, 1861 (24 and 25 Vict., c. 67), and section 4 of the Indian Councils Act, 1892 (55 and 56 Vict., c. 14), the Governor General is pleased to nominate the said Hon'ble Mr. A. A. Apcar to be an Additional Member of the said Council of the Governor General.

J. M. MACPHERSON,

Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

EXAMINATIONS.

Simla, the 10th August, 1905.

No. 547.—The following regulations respecting the examination of candidates for the Civil Service of India, to be held in August 1906, are published for general information :

[Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.]

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

An open Competitive Examination for admission to the Civil Service of India will be held in London, under the subjoined Regulations, commencing on the 1st August, 1905.

The number of persons to be selected at this examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received on or before the 2nd July, 1906, an application on the prescribed form. No question as to the delay or loss in the post of any such Application Form can be entertained. Candidates, who delay their applications until the last days, will do so at their own risk.

Acknowledgments of such Application Forms are sent, and any Candidate who has filled up and returned the printed Application Form but has not received an acknowledgment of it within four complete days should at once write to the Secretary, Civil Service Commission, Burlington Gardens, London, W. Failure to comply with this provision will deprive the Candidate of any claim to consideration.

The Order for admission to the Examination will be posted on the 18th July, 1906, to the address given on the Form of Application. It will contain instructions as to the time and place at which candidates will be required, to attend and as to the manner in which the fee (£6) is to be paid.

CIVIL SERVICE COMMISSION,

1st July, 1905.

REGULATIONS.

** * The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year.*

1. An Examination for admission to the Civil Service of India, open to all qualified persons, will be held in London in August of each year. The date of the Examination and the number of appointments to be made for each Province will be announced beforehand by the Civil Service Commissioners.

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners :

- (i) That he is a natural-born subject of His Majesty.
- (ii) That he had attained the age of twenty-two, and had not attained the age of twenty-four on the first day of August of the year in which the Examination is held.

[N.B.—In the case of Natives of India it will be necessary for a Candidate to obtain a certificate of age and nationality issued under notification of the Government of India, No. 2252, dated 21st August, 1888, as amended by Notification No. 404, dated 19th May, 1898, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.]

- (iii) That he has no disease, constitutional affection, or bodily infirmity, unfitting him, or likely to unfit him, for the Civil Service of India.
- (iv) That he is of good moral character.

3. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee, will be admitted to the Examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a Probationer.

4. The Open Competitive Examination will take place only in the following branches of knowledge :

	Maximum, Marks.
English Composition	500
Sanskrit Language and Literature...	600
Arabic	600
Greek, not less than two sub-divisions, of which one must be Translation :	
Translation	300
Composition	300
Literature, etc....	300
Latin, not less than two sub-divisions, of which one must be Translation :	
Translation	300
Composition	300
Literature	300
English	600
Italian	600
French	600
German	600
Mathematics	1,200
Advanced Mathematics ..	1,200
Natural Science, & c., any number not exceeding <i>four</i> of the following	
Chemistry	600
Physics	600
Geology	600
Botany	600
Zoology	600
Animal Physiology	600
Greek History (Ancient, including Constitution)	500
Roman History (Ancient, including Constitution)	500
English History, either or both sections may be taken :	
I. to A. D. 1485	400
II. to A. D. 1485 to 1848	400
General Modern History	500
Logic and Psychology	600
Moral and Metaphysical Philosophy	600
Political Economy and Economic History	600
Political Science	500
Roman Law	500
English Law	500

Candidates are at liberty to name any of these branches of knowledge with the proviso that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000. If this maximum is exceeded by a candidate's selection he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction under Clause 6.

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (b) in order to secure that no credit be allowed for merely superficial knowledge.

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the branches in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A Candidate entitled to be deemed a selected Candidate, but declining to accept the nomination as such which may be offered to him, will be disqualified for any subsequent competition.

9. Selected Candidates, before proceeding to India, will be on probation for one year, at the end of which time they will be examined, with a view of testing their progress in the following subjects (c) :

Compulsory—

	Marks.
1. Indian Penal Code	400
2. Code of Criminal Procedure	200
3. The Indian Evidence Act	200
4. Indian History	400
*5. The principal Vernacular Language of the Province to which the Candidate is assigned	400

Optional. [Not more than one of the following subjects.]

	Marks.
1. Hindu and Muhammadan Law	450
†2. Sanskrit	400
†3. Arabic	400
4. Persian	400
5. Chinese (for Candidates assigned to the Province of Burma only)	400

* The principal Vernacular Language prescribed for each Province to which Candidates are assigned is as follows :

For the United Provinces of Agra and Oudh,	
the Punjab, and the Central Provinces	... Hindustani.
For Burma	... Burmese.
For Bombay	... Marathi
For Madras	... Tamil or Telugu
For the Lower Provinces of Bengal	... Hindustani or Bengali
	} At the option of the Candidate.

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagari character; and in the case of the last two Provinces mentioned above, a Candidate whose Vernacular Language is either of the languages shown against his Province, must offer the other for examination.

† These subjects may not be offered by any Candidate who has offered them at the Open Competition.

In this Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination*."

If any Candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

10. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

(a) A Syllabus, defining the character of the Examination in the various subjects, may be obtained on application to the Secretary, Civil Service Commission, Burlington Gardens, London, W.

(b) No deduction will be made from the marks assigned to Candidates in Mathematics or English Composition.

The examinations in riding will be held as follows :

- (1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.
- (2) Again at the time of the Final Examination. Candidates who may then fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback will be awarded from 100 to 200 marks, according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who fail to obtain 100 marks, but are reported by the Civil Service Commissioners to have reached a minimum standard of proficiency in riding, and are certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, will, on their arrival in India, be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A Candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of Selected Candidates.

11. The selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

12. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary, Civil Service Commission, London, W.," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st July (or, if that date should fall upon a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the Examination is to be held, an application, in the handwriting of the Candidate, on the prescribed form.

The Civil Service Commissioners are authorised by the Secretary of State for India in Council to make the following announcements :

- (i.) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes, but the requirements of the Public Service will rank before every other consideration.*
- (ii.) *An allowance amounting to £100 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews, and Aberdeen; Victoria University, Manchester, University College, London, and King's College, London, provided such Candidates shall have passed the Final Examination to the satisfaction of the Civil Service Commissioners, and shall, in the opinion of the Secretary of State, have conducted themselves well and complied with such rules as may be laid down for the guidance of Selected Candidates. The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.*
- (iii.) *The allowance of £100 will not be paid to any Selected Candidate until he has been certified by the Civil Service Commissioners to be entitled to be appointed to the Civil Service of India; and every Certificated Candidate must, before receiving his allowance, give a written undertaking to refund the amount in the event of his failing to proceed to India.*
- (iv.) *All Candidates obtaining Certificates will be also required to enter into covenants by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*
- (v.) *The seniority in the Civil Service of India of the Selected Candidates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*
- (vi.) *Selected Candidates will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*
- (vii.) *Candidates rejected at the Final Examination held in any year will in no case be allowed to present themselves for re-examination.*

N.B.—A Manual of Rules and Regulations applicable to members of the covenanted Civil Service of India has been compiled by permission of the Government of India and may now be procured either from Messrs. A. Constable and Co., 16, James Street, Haymarket, S. W., or from Mr. E. A. Arnold, 37, Bedford Street, Covent Garden. Price 2s. 6d.

The Commissioners have been requested by the Secretary of State for India to draw the attention of Selected Candidates to the prefatory note attached to this manual, as it is considered important that it should be clearly understood that this compilation is not to be regarded in any other light than that of a collection, made for facility of reference, of certain information and rules, that it is by no means exhaustive, and that it is liable to such modifications as may from time to time be sanctioned by competent authority.

[Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.]

CIVIL SERVICE OF INDIA ; CLERKSHIPS (CLASS I) IN THE HOME CIVIL SERVICE ; AND EASTERN CADETSHIPS.

SYLLABUS showing the extent of the Examination in certain subjects.

English Composition.—An Essay to be written on one of several subjects specified by the Civil Service Commissioners on their Examination Paper.

English Language and Literature.—The Examination will be in two parts. In the one the Candidates will be expected to show a general acquaintance with the course of English Literature, as represented (mainly) by the following writers in verse and prose, between the reign of Edward III. and the accession of Queen Victoria :

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied the chief productions of the greatest English writers *in themselves*, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature. Candidates will also be expected to show that they have studied in these authors the history of the English Language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other year by year in the order indicated.

1. A.D. 1700 to A.D. 1800.
(1906) [Pope to Cowper.]
2. A.D. 1800 to A.D. 1832.
(1907) [Nineteenth Century writers to the death of Scott.]
3. A.D. 1360 to A.D. 1600.
(1908) [Chaucer to Spenser.]
4. A.D. 1600 to A.D. 1700.
(1909) [Shakespeare to Dryden.]

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners.* The names

* The books for 1906 are .

Young : Poems.

Pope : Rape of the Lock. Moral Essays.

Gray : Poems

Chatterton : Poems.

Goldsmith : Vicar of Wakefield. Citizen of the World.

Burke : Sublime and Beautiful. Regicide Peace.

Bolingbroke : Dissertation upon Parties. Letters on Patriotism.

Walpole : Anecdotes of Painting.

placed under the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700; all the works of Swift within the period 1700 to 1800; all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832.

Italian Language and Literature.—Translation and Composition. Critical questions on the Italian Language and Literature. Conversation.

French Language and Literature.—Translation and Composition. Critical questions on the French Language and Literature. Conversation.

German Language and Literature.—Translation and Composition. Critical questions on the German Language and Literature Conversation.

Latin Language and Literature.—Translation from Latin into English, Composition in Prose and Verse, or (as an alternative for Verse-Composition) an original Prose Composition in Latin. Critical questions on the Latin Language (including questions on Philology) and Literature.

Greek Language and Literature.—Translation from Greek into English, Composition, Prose and Verse, or (as an alternative for Verse-Composition) an original Prose Composition in Greek. Critical questions on the Greek Language (including questions on Philology) and Literature.

Sanskrit Language and Literature.—Translation from Sanskrit into English, and from English into Sanskrit. History of Sanskrit Literature (including knowledge of such Indian history as bears upon the subject); Sanskrit Grammar; Vedic Philology.

Arabic Language and Literature—Translation as in Sanskrit; History of Arabic Literature (including knowledge of such Arabic History as bears upon the subject); Arabic Grammar; Arabic Prosody.

English Law.—Under the head of "English Law" are included the following subjects, *vis.* :—(1) Law of Contract; (2) Law of Evidence; (3) Law of the Constitution; (4) Criminal Law; (5) Law of Real Property; and of these five subjects Candidates are at liberty to offer any four, but not more than four.

English History.—The subject will include (a) the Political History of Great Britain, Ireland, and the Colonies, (b) the Constitutional History of the United Kingdom. Candidates should be acquainted with the following authorities :

PERIOD I.

Stubbs Select Charters.

PERIOD II.

Prothero Statutes and Constitutional Documents.

Gardiner Documents of the Puritan Revolution.

All published by Clarendon Press, Oxford.

General Modern History.—Candidates may, at their choice, be examined in any one of the following periods :

1. From the accession of Charlemagne to the Third Crusade.
[A.D. 800 to A.D. 1193.]
2. From the Third Crusade to the Diet of Worms.
[A.D. 1193 to A.D. 1521.]
3. From the Diet of Worms to the death of Louis XIV.
[A.D. 1521 to A.D. 1715.]
4. From the accession of Louis XV to the French Revolution of 1848.
[A.D. 1715 to A.D. 1848.]

Periods 3 and 4 will include Indian History.

Candidates should be acquainted with the following authorities :

PERIOD 1.

800—1193.

Einhard : Vita Caroli Magni, from 800 A.D.	Ed. :	Pertz. Scriptores Rerum Germanicarum.
Lambert of Hersfeld	Ed. :	Pertz.
Suger : Vita Ludovici VI	Ed. :	(1) Migne. (2) Société de l'Histoire de France, 1868.
Otto of Freising : De gestis Frederici I.	Ed. :	Pertz.

PERIOD II.

1193—1521.

- Joinville : St. Louis Ed. : (1) Petitot.
 (2) Michaud et Poujoulat.
 (3) Buchon.
 (4) Société de l'Histoire de France, 1868.
- Philippe de Comines : Mémoires Ed. : (1) Petitot, (2) Michaud et Poujoulat, (3) Buchon, (4) de Mandrot, Picard, Paris, 1901, 3.
- Machiavelli : The Prince.
 English translation by Thompson : Clarendon Press.

PERIOD III.

1521—1715.

- La Noue : Mémoires Ed. : Petitot, Michaud et Poujoulat, Buchon.
- Sully : Economies Royales, up to the Treaty of Vervins. Petitot, Michaud et Poujoulat.
- Torcy : Mémoires " " "

PERIOD IV.

1715—1848.

- Frederick II. Histoire de mon Temps, and La Guerre de Sept Ans.
 Ed. : Boutaric; or in Œuvres de Frédéric II. Decker, Berlin, 1846.
- Malmesbury Diaries and Correspondence. London, Bentley, 1844, Vol. II. Mission to the Hague, Pp. 66—443. Vol. III. Mission to Lisle. Pp. 369—599.
- Metternich Aus Metternich's nachgelassenen Papieren. Autorisirte Original-Ausgabe. Vienna, 1880. Up to 1815.
 Or in English translation—Autobiography of Prince Metternich. Translated by Mrs Napier, London, Bentley, 1880—1881.

Greek History.—Questions (a) on the General and (b) on the Constitutional History of Greece to the death of Alexander.

Roman History.—Questions (a) on the General and (b) on the Constitutional History of Rome to the death of Vespasian.

In Greek and Roman History candidates will be expected to show a knowledge of the original authorities.

Mathematics.—Algebra, Geometry (Euclid and Geometrical Conic Sections), Plane Trigonometry, Plane Analytical Geometry (less advanced portions), Differential Calculus (Elementary), Integral Calculus (Elementary), Statics, Dynamics of a Particle, Hydrostatics, Geometrical Optics.

Candidates may use the methods of the Differential and Integral Calculus in any other division of the subject, but the questions will be such as can be solved without the aid of these methods.

Advanced Mathematics.—Higher Algebra (including Theory of Equations), Plane and Spherical Trigonometry, Differential Calculus, Integral Calculus, Differential Equations, Analytical Geometry (Plane and Solid), Statics including Attractions, Dynamics of a Particle, Rigid Dynamics, Hydrodynamics, the Mathematical Theory of Electricity and Magnetism.

Logic and Psychology.

Moral and Metaphysical Philosophy.

} In both cases the history of the subject will be included.

Political Economy and Economic History.—Candidates will be expected to possess a knowledge of economic theory as treated in the larger text books, also a knowledge of the existing economic conditions, and of statistical methods as applied to economic inquiries, together with a general knowledge of the history of industry, land tenure and economic legislation in the United Kingdom.

Political Science.—The Examination will not be confined to Analytical Jurisprudence, Early Institutions, and Theory of Legislation, but may embrace Comparative Politics, the History of Political Theories, &c.

Candidates will be expected to show a knowledge of original authorities.

CIVIL SERVICE COMMISSION,
1st July, 1905.

[Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.]

CIVIL SERVICE OF INDIA.

OPEN COMPETITION OF 1906

FORM TO BE FILLED UP BY CANDIDATES FOR EXAMINATION.

****** The order for admission to the Examination will not be issued unless this Form, filled up by the Candidate himself, is received by the Secretary of the Civil Service Commission on or before the 2nd July 1906.

SIR,

I beg to inform you that I wish to be a Candidate at the Examination for the Civil Service of India, which is appointed to commence in London on the 1st of August, 1906.

Candidates not born within the British Dominions should state this fact in a separate letter. I am a natural-born subject of His Majesty.

I hereby declare that I was born on the _____ day of _____ 18____, and that therefore I shall have attained the age of 22 years and shall not have attained the age of 24 years on the 1st of August, 1906; I also declare that I have no disease, constitutional affection, or bodily infirmity unfitting me, or likely to unfit me, for the Civil Service of India; and that I am of good moral character, and otherwise eligible under the Regulations; and I undertake that, if I am successful, I will conform, during my period of probation, to such rules respecting the conduct of Public Servants as have been laid down, or may hereafter be laid down, by the Secretary of State for India in Council.

Candidates who are not Natives of India should strike out this paragraph.

III. on the next page.

* If you have never been examined, insert here the word "never"

† If you have been examined, give the date, &c., of the last occasion.

I send herewith a Certificate of age and nationality issued in accordance with the rule respecting Natives of India printed in paragraph

I beg to inform you that I was* _____ examined before the Civil Service Commissioners in the month of† _____ in the year 1_____, as a Candidate for the situation of _____

I am, SIR,

Your obedient Servant,

Name in full _____

‡ If a London address, state the postal district, if a country address, state the post town.

Address to which it is desired that the Order for Examination should be sent‡ _____

Date _____

The Secretary,

Civil Service Commission.

This application form relates only to the competition for the Civil Service of India, and does not entitle a candidate to compete also for the Home or Colonial Civil Service.

Certificates of age (except as mentioned above), health, and character, should not be supplied until after the result of the Examination is known.

N.B.—*Attention is drawn to the annexed Form, which must be filled up by every Candidate.*

EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE OF INDIA.

I. Every Candidate born in the United Kingdom should be prepared to produce, when required, a Certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his provincial Officers. This Certificate may be obtained from the Registrar-General in London, Dublin or Edinburgh, or from the Superintendent Registrar of the District in which the birth took place.

II. A Candidate born of European parents in India should be prepared to produce, when required, a Certificate of Baptism from the district in which he was baptised. If this does not also mention the date of birth it should be accompanied by a statutory declaration by one of the Candidate's parents, stating the date and place of birth. When such certificates are not in the possession of the candidates an Extract from the Registers kept at the India Office will probably be obtainable.

III. A Candidate who is a Native of India must, *before he can be admitted to the Competition*, produce a certificate of age and nationality issued under Notification of the Government of India, No. 2252, dated 21st August, 1888, as amended by Notification No. 404, dated 19th May, 1898, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides. *No other Certificates will be accepted for this Competition.*

Except as noted in paragraphs II and III, every Candidate who proves to be successful is expected to produce a Certificate of *Birth*. The Civil Service Commissioners will not in ordinary cases accept a certificate of Baptism, or other testimony, unless they are first satisfied that a Certificate of Birth cannot be procured.

Official Certificates of Birth may generally be obtained as follows .

- (a) *For persons born in England or Wales.*—From the Registrar-General, Somerset House, London, or from the Superintendent Registrar of the district in which the birth took place.
- (b) *For persons born in Scotland.*—From the General Register Office, Edinburgh ; or from the Registrar of the parish or district in which the birth took place.
- (c) *For persons born in Ireland.*—From the General Register Office, Dublin ; or from the Superintendent Registrar of the district in which the birth took place.
- (d) *For persons of English, Scottish, or Irish parentage born on board British ships.*—From the General Register Office, London, Edinburgh, or Dublin, according to parentage.
- (e) *For persons born in India of European parents.*—From the Director of Funds, India Office, London, S.W. [These are Certificates of *baptism*, but they usually furnish the date of birth, and are then accepted as Certificates of *birth*.]

Any Candidate who cannot produce a Certificate of Birth from one of the authorities named should, if possible, procure a Certificate of Baptism, and should then apply to the Secretary, Civil Service Commission, for further instructions.

To be filled up by the Candidate himself, and returned with the Form of Application.

CIVIL SERVICE OF INDIA.

OPEN COMPETITIVE EXAMINATION COMMENCING 1st AUGUST, 1906.

**** THIS FORM MUST BE RECEIVED AT THE OFFICE OF THE CIVIL SERVICE COMMISSION ON OR BEFORE THE 2ND JULY, 1906.**

In addition to the Written Examination there will be an Oral Examination in each of the subjects marked thus †, and a Practical Examination in each of the subjects

marked thus †. For the Practical Examination in Chemistry candidates may bring any standard books on Analysis, and, for the Practical Examination in Botany, any standard Flora. All books brought must be submitted to the Presiding Examiner for his approval. No written notes of any kind will be allowed.

The Oral Examinations in Modern Languages being intended as colloquial tests, no marks will be given at them to Candidates who are not able to converse.

Any Candidate who wishes to decline the Oral Examination or the Practical Examination in any of the subjects selected by him, should state this in the blank space below.

To the Secretary,

Civil Service Commission,

London, W.

N.B.—Attention is drawn to the annexed Form, which must be filled up by every Candidate.

Extract from Clause 4 of the Regulations :

“ Candidates are at liberty to name any of these branches of knowledge with the proviso that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000. If this maximum is exceeded by a candidate's selection he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction under Clause 6.”

[Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.]

NOTE.

If Open Competitive Examinations for the following services, viz. :

Eastern Cadetships in the Colonial Service ;

Clerkships (Class I) in the Home Civil Service ;

should be held in 1906 concurrently with the Open Competitive Examination for the Civil Service of India, candidates duly eligible in respect of age will be admitted to compete for any two or all three of these Services, subject to the following conditions :

(1) That they fill up and return to the Secretary, Civil Service Commission, an application on each of the prescribed forms, within the time limited by the respective regulations.* (NOTE.—A separate form of application is required for each of the three services.)

(2) That it is distinctly understood that every successful candidate who may have been admitted to compete for either the India or the Colonial Service, as well as for the Home Service, will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the India or Colonial Service or on the list of candidates for Clerkships in the Home Civil Service, and that the name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for Clerkships in the Home Civil Service.

(3) That it is distinctly understood that every successful candidate who may have been admitted to compete for both the India and Colonial Services will be called upon to declare, after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the Civil Service of India or on the list of candidates for Eastern Cadetships in the Colonial Service, and that the name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for Eastern Cadetships.

(4) That all declarations of choice are irrevocable.

Candidates admitted to compete for all three or any two of these classes of appointments will be required to pay a consolidated fee of £6.

CIVIL SERVICE COMMISSION,

1st July, 1905.

* Candidates who may desire to enter the competitions for the Home and Colonial Services should apply about the middle of January next to the Secretary, Civil Service Commission, Burlington Gardens, London, W., for the prescribed forms of application.

SEPARATE REVENUE.EXCISE.*The 9th August, 1905.*

No. 4494-Exc.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor General in Council is pleased to apply the Excise Act, 1896 (XII of 1896), so far as it is suitable and subject to the modifications set out below, to Berar.

1. For the purpose of facilitating the application of the said Act, any Court in Berar may construe its provisions with such alterations, not affecting the substance, as may be necessary or proper to adapt them to the matter before the Court.

2. All references to the 'Local Government' shall be construed as referring to the Chief Commissioner of the Central Provinces.

3. For section 2, sub-section (1), the following shall be substituted, namely:

"2. (1) The Berar Excise Law, 1897, and the Berar Hemp Drugs Law, 1897, are hereby repealed."

4. For clause (e), section 3, sub-section (1), the following shall be substituted, namely:

"(e) 'Import' includes removal from a Province in British India, or from a Native State, into Berar."

5. After section 11 the following section shall be added, namely:

"11-A. (1) The Chief Commissioner may, by notification in the official Gazette, prohibit, within any local area, the tapping of any tree for *tari* or the drawing of *tari* from any tree, except under a license granted by the Collector or by a person authorized by the Collector to grant such licenses and in accordance with the conditions (if any) contained therein.

(2) Within any such local area as aforesaid a tax at such rates as the Chief Commissioner may fix shall be levied on each tree from which *tari* is drawn, and such tax shall be payable by such persons and in such instalments and for such periods as the Chief Commissioner may direct". and

6. After section 46, sub-section (1), clause (d), the following clause shall be added, namely:

"or (e) in contravention of a notification under section 11-A. taps any tree for *tari* or draws *tari* from any tree."

W. S. MEYER,

Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATION.

POST OFFICE.

 MEDICAL DEPARTMENT.

No. 694.—The Governor-General in Council is pleased to direct the publication of the following Royal Warrant, dated 28th June 1905, amending the rules for promotion, etc., of officers of the Indian Medical Service which were published in Military Department Notification No. 117 of 1904.

EDWARD R. & I.

Whereas we deem it expedient to amend the rules for the promotion and precedence of Our Indian Medical Service :

Our Will and Pleasure is that Our Warrant of the 28th November 1903 shall be amended in accordance with the following provisions :

1. The following shall be added to Article 1 :

"The Director-General of Our Indian Medical Service shall hold the substantive rank of Surgeon-General, but may rank as Lieutenant-General when approved by Our Secretary of State for India in Council."

2. The following shall be substituted for Articles 3 and 4 :

"3. Except as otherwise herein provided, a Captain shall be promoted to the rank of Major on completing twelve years' full pay service, but this period may be reduced by six months in the case of an officer who produces satisfactory evidence of progress in any branch of knowledge which is likely to increase his efficiency.

"4. Except as otherwise herein provided, a Major shall be promoted to the rank of Lieutenant-Colonel on completing eight years' full pay service in the rank of Major."

3. The following shall be added to Article 10 :

"An officer below the rank of Colonel, who may be appointed as Our Honorary Physician or Surgeon after retirement from the Service, shall be granted the honorary rank of Colonel."

4. The following shall be inserted in Article 12 at the head of the Table of Ages at which officers shall be placed on the retired list :

"Director-General 62"

Given at Our Court at St. James's this twenty-eighth day of June 1905, in the Fifth year of Our Reign.

By His Majesty's Command,
(Signed) ST. JOHN BRODRICK.

PENSIONS.

No. 695.—Conductor Henry Ferguson, Supply and Transport Corps, has been transferred to the pension establishment.

Indian Subordinate Medical Department.	Senior Assistant Surgeon and Lieutenant Joaquim Emanuel DeSouza.	29th July 1905 .	Hyderabad .	..	

H. B. B. WATKIS, *Colonel,*
Offg. Secretary to the Government of India.

RAILWAY BOARD.

NOTIFICATIONS.

Simla, the 8th August, 1905.

No. 139.—The combined privilege leave and special leave on urgent private affairs granted to Mr. J. L. P. Hogan, Superintending Engineer, 1st Class, State Railways, in Railway Board Notification No. 19, dated the 14th March 1905, has been commuted by His Majesty's Secretary of State for India, to combined privilege leave and furlough and extended by six months.

The 9th August, 1905.

No. 140.—The promotion of Captain A. Adams, R.E., to Class II, Grade 1, supernumery, of the Superior Revenue Establishment of State Railways, Traffic Department, ordered in Public Works Department Notification No. 202-Railways, dated the 3rd June 1904, is hereby cancelled.

No. 141.—It is hereby notified for general information that His Majesty's Secretary of State for India has sanctioned the construction as a State Railway on the 5' 6" gauge of the Nagda-Mutra Railway, a length of 343.98 miles.

The line has been placed under the control of the Director of Railway Construction.

This notification is in supersession of Public Works Department Notification No. 308, dated the 1st December 1904.

NEVILLE PRIESTLEY,

Secretary, Railway Board.

GOVERNMENT OF INDIA.
H O M E D E P A R T M E N T .

PUBLIC.

RESTORATION OF THE DESIGNATION OF THE PUBLIC WORKS DEPARTMENT.

NOS. 2669-2701.

Simla, the 9th August, 1905.

R E S O L U T I O N .

In the Home Department Resolution no. 539—69, dated the 1st March 1905, regarding the formation of the Department of Commerce and Industry and the consequent re-allotment of business of some of the other Departments of the Government of India, it was ordered that such establishments and business belonging to the Public Works Department as were not transferred to the Department of Commerce and Industry or to the Railway Board should be administered under the direction of the Revenue Member of the Governor General's Council by a Secretary who would be designated the "Secretary to the Government of India in the Department of Revenue and Agriculture (Civil Works)," and that the title "Public Works Department" should cease to exist as the title of a Department of the Government of India. The Governor General in Council is now advised that this arrangement is open to certain technical objections, and he therefore directs, with the concurrence of the Secretary of State, that the designation of the Public Works Department shall be restored. The Secretary to the Government of India in the Department of Revenue and Agriculture (Civil Works) will accordingly be styled "Secretary to the Government of India in the Public Works Department," and the word "(Revenue)" will in future be omitted from the designation of the Department of Revenue and Agriculture (Revenue).

ORDER.—Ordered that a copy of this resolution be communicated to the several Departments of the Government of India for information and communication to subordinate officers and Departments, to all local Governments and Administrations, and to the officers named on the margin for information and guidance.

Ordered also that the resolution be published in the *Supplement to the Gazette of India* for general information.

H. A. STUART,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.

PLAGUE.

H. A. STUART,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 10th August 1905, based on the India Daily Weather Reports of the period.

The Arabian Sea monsoon, as a rain giving current, has been very feeble during the week under review. On August the 4th local rain from this source was received over parts of the West Coast, of the Deccan and of the central parts of the country, but the heaviest amounts reported were only about $\frac{3}{4}$ ths of an inch. On the 5th there was some improvement, the Central Provinces and Central India having received fairly general rain and Pachmarhi and Raipur reporting over 2". On the 6th rainfall conditions were little changed and falls of between 1" and 2" were reported from Karwar, Mormugao and Indore, but on the 7th rain decreased and between that day and the close of the period the rainfall area steadily contracted, so that by the 9th and 10th rain from the Arabian Sea current was confined to the West Coast and to one or two places in the Deccan.

The Bay of Bengal monsoon current has been more vigorous, but its influence has been practically confined to Burma, Assam, Bengal and the east and submontane districts of the United Provinces. Within these areas the principal falls in 24 hours have been 4.70" at Cherra Poonjee on the 4th; 2.44" at Cherra Poonjee on the 5th; 10.67" at Chittagong; 4.19" at Cherra Poonjee and 3.06" at Tezpur on the 6th; 10.48" at Tounghoo; 4.32" at Patna; 4.25" at Cherra Poonjee and 3.05" at Tezpur on the 7th; 8.46" at Cherra Poonjee and 3.04" at Chittagong on the 8th; 6.79" at Cherra Poonjee and 5.22" at Chittagong on the 9th; and 5.55" at Darbhanga and 5.19" at Cherra Poonjee on the 10th.

On the 4th and 5th the Bay current extended along the hills as far as the Punjab and local rain was received at the hill and submontane stations, but on the 6th the easterly and south-easterly winds retreated again and from that date till the close of the week only scattered showers were received at the hill and submontane stations of Upper India.

The above shows that very little rain from the Arabian Sea current was received over the east of the Peninsula and that large portions of north-west India remained outside the influence of both the Arabian Sea and Bay of Bengal monsoon currents. The rainfall table shows that actually or practically no rain was received during the week over the North-West Dry and the East Coast (south) divisions or over the Lahore, Jaipur, Rajkot and Mysore sub-divisions, while over practically the whole region served by the Arabian Sea branch of the monsoon the week's rainfall was from 40% to 90% short of the average. On the other hand, the rainfall over the area served by the Bay branch was in excess of the average except in the case of the Burma Coast division and the Burdwan subdivision where it was in some defect. In east Bengal and north Bihar the excess was very large.

The seasonal figures exhibit a large deficiency of rain over north-west and part of central India and a considerable deficiency over the east of the Peninsula. The general lightness of the rainfall of the present monsoon season is shown by the fact that the Burma Coast and the Delta of Bengal are the only divisions, and Darbhanga, Burdwan and Ahmedabad, the only subdivisions, recording any seasonal excess.

RAINFALL DIVISION WITH REPRESENTATIVE STATION.	Rainfall sub-division named after representative station.	RAINFALL DATA FOR WEEK ENDING ON 10TH AUGUST 1905.			RAINFALL DATA FROM 28TH APRIL 1905 TO 10TH AUGUST 1905.			SEASONAL PERCENTAGE DEPARTURE FROM NORMAL.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 10th August 1905.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
5th August 1905.

Madras.—Rainfall *nil* in Tinnevely; good to heavy in the Circars, Kurnool, the Carnatic, Tanjore, the West Coast districts and in the Nilgiris; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency, except in Ganjam, Vizagapatam, Cuddapah, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some in parts of Cuddapah and Tanjore are withering and some in parts of Kistna, Bellary, Anantapur, the Central districts and Tinnevely require more rain. There are no harvests in progress in parts of the Circars, Kurnool and the West Coast districts, but they continue in parts elsewhere with poor to fair outturn. Pasture is insufficient except in Ganjam, Vizagapatam, Kurnool, the West Coast districts and the Nilgiris. Fodder is scanty except in parts of the Circars, Tinnevely, the West Coast districts and the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in nine districts; has fallen in three; and has very slightly risen in eleven. Prices of millets have fluctuated as follows:—*Ragi* is stationary in three districts; has fallen in seven; and has slightly risen in eleven. *Cholam* is stationary in two districts; has fallen in four; and has slightly risen in eight. *Cumbu* is stationary in two districts; has fallen in three; and has slightly risen in ten. A test work opened near Madavaram in the Chingleput district on the 7th instant attracted only fifteen persons.

Bombay.—There was heavy rain during the week in parts of Colaba, Ratnagiri, Kanara and Savantwadi; good in parts of Thana, Nasik and Belgaum; moderate in parts of Poona and Bijapur; slight in parts of Surat, Ahmednagar, Sholapur, Satara, Dharwar, and Mahi Kantha; and very slight in parts of Ahmedabad, Kaira, Broach, Khandesh, Kathiawar and Rewa Kantha. More rain is needed in parts of Surat, the Konkan, the Deccan, the Karnatak, Baroda and Savantwadi. Inundation in Sindh is generally satisfactory. Sowing of autumn crops is nearly completed in Sukkur, Thar and Parkar, Nasik, Kathiawar, Baroda, Savantwadi and Rewa Kantha, and continues in parts of Karachi, the Upper Sindh Frontier, Gujarat, Ahmednagar, Poona, Sholapur, the Karnatak, Palanpur and Mahi Kantha. Transplantation of rice is nearly completed in Satara, continues in parts of Larkana, Gujarat, the Konkan, Nasik, Poona, Rewa Kantha and Mahi Kantha, but is retarded in parts of Surat, Thana, Ratnagiri and Belgaum. Autumn seedlings have been slightly damaged by crabs, rats or tortoises in parts of Karachi. The fodder supply is sufficient except in parts of Hyderabad, Nasik, Sholapur, Belgaum and Dharwar. Agricultural stock is sufficient and generally in good condition. The water-supply is adequate except in parts of the Karnatak. Prices have risen in one district and are stationary elsewhere. The numbers on relief during the week ending the 29th July were as follows:—daily average on relief works—Kaira, 149; on gratuitous relief—Kaira, 120; Belgaum, 780; total, 1,049. The number on the last day of the week on test works in the Panch Mahals was only 4. Test works have been closed.

Bengal.—The rainfall during the week was fairly general, the fall was good in Bihar, moderate to heavy in North and East Bengal, but light in Orissa, Chota Nagpur and South-West Bengal. The heavy rainfall of the previous week in South-West Bengal caused floods, and some damage to the standing crops is reported from Burdwan and Howrah. Transplantation of winter rice is in progress. Harvesting of early rice has begun in places. The prospects of the standing crops are generally favourable. Fodder and water are sufficient. The price of rice has risen in nine districts and fallen in seven.

United Provinces.—The rainfall has been general, though very scanty. In the Doab districts and in Bundelkhand the want of rain has in places retarded sowings. The standing crops are suffering from drought in the Jhansi, Jalaun, Cawnpore, Unao, Meerut and Aligarh districts, and in the Agra division and Tehri State except in tracts irrigated by canals. Irrigation is being undertaken where possible in other districts. Prospects are fair or good. Fodder is scarce in Agra, Jhansi and Hamirpur. Supplies are adequate, but prices remain high.

Punjab.—Ambala, Jullundur, Sialkot, Rawalpindi and parts of Hissar, Delhi and the Ferozepore districts received rain during the week. The price of wheat is rising in the Lahore, Sialkot, Rawalpindi and Lyallpur and falling in Ambala, Mianwali and Multan districts. There are slight fluctuations in the prices of other food-grains. Extra spring

crops are being harvested in Mianwali. Sowings of autumn crops continue. The condition and prospects of the standing crops are good generally and average in Rawalpindi and Lyallpur. The want of rain is felt in most districts. The sugarcane crop has been attacked by *kiri* (an insect) in parts of Sialkot. Fodder is sufficient except in the Delhi, Amritsar, Shahpur and Mianwali districts. There are no complaints regarding the water-supply.

North-West Frontier Province.—There was slight rain in parts of Peshawar and Bannu during the week; more rain is required for crops on unirrigated lands. Harvest prospects and the probable outturn of autumn crops are so far favourable. The condition of cattle is generally good except in the Marwat tahsil of the Bannu district. Fodder is sufficient. The canal water-supply is satisfactory. Prices are stationary. Prices—wheat, 16 to 21; gram, 18 to 27; maize, 19 to 29; and *bajra*, 17 to 21 seers per rupee.

Burma.—In Lower Burma the rainfall of the week was general and sufficient. Ploughing for wet-weather paddy is completed in most districts and sowings and transplanting are progressing satisfactorily. Prospects are favourable. In Upper Burma moderate to slight rain has fallen everywhere, but more is needed in the Yenangyaung township of Magwe, in Mandalay, Yamethin and Myingyan and in parts of Sagaing and Lower Chindwin and also in the parts of Shweb; previously reported. Reaping of dry-weather paddy is completed in Katha. Ploughing for wet-weather paddy has commenced in Magwe and is completed in the Northern Shan States and transplanting has commenced in parts of Kyaukse and in Yamethin and has been completed in the Southern Shan States. Sowing of early sesamum and cotton is completed in Myingyan and is approaching completion in Lower Chindwin. Early wet-weather paddy has suffered from ravages of rats in Mandalay; in parts of the Myinmu subdivision of Sagaing paddy nurseries are failing for want of rain and sowing of *juar* and sesamum is delayed from the same cause; sesamum plants are withering in places and have failed in others in Myingyan owing to want of rain; prospects of late wet-weather paddy harvest in Mandalay are unfavourable owing to continued drought. The general prospects of crops are fair to good. The price of paddy has risen considerably in Prome, otherwise it is practically stationary.

Central Provinces.—All districts except Basim, Buldana and Wun report useful rain during the week. *Biasi* (thinning operations) is well forward in the Chhattisgarh division, and in Bhandara and Balaghat where the fall was much heavier in some parts than at head-quarters. Transplantation is proceeding vigorously, but in Seoni and Chanda want of rain still delays the commencement of this operation; in Chanda tanks have not filled and seedlings will soon be too old for transplantation. Berar, Chanda and parts of Wardha require early rain to prevent deterioration of cotton and *juar*. The standing crops in Saugor and Damoh which had been endangered by the long break have been saved for the present, but it is estimated that the area sown with the important rice and *til* crop is 30 to 40 per cent. short of last year's area. In districts not named above prospects are good. The week's rain will do much to relieve the scarcity of water and fodder previously reported from several quarters. Adult locusts have died off in the ordinary course; hatching of hoppers is reported from one circle in Nagpur, but these insects have caused no damage as yet. The price of wheat has fallen by $1\frac{1}{2}$ seers per rupee in Raipur; in Chanda gram, rice and *juar* have cheapened by $1\frac{1}{2}$, 2 and 5 seers per rupee, respectively; elsewhere prices have been steady or have fluctuated slightly, but they are still considerably higher than those ruling at the same time last year.

Assam.—The weather is seasonable. Rain fell in all districts during the week. Plucking and manufacture of tea continue, and prospects are good in Nowgong and fair elsewhere. Transplanting of late rice is continuing and reaping of early rice is in progress, prospects being good in Sylhet, Goalpara and the Garo Hills, poor in Kamrup, and fair in other places. Cutting of jute is in progress and prospects of jute and cotton are good. Fodder is insufficient in parts of Sylhet and Kamrup. Prices of common rice—Silchar, 15; Sylhet, $14\frac{1}{2}$; Sibsagar, 14; Dhubri, Tezpur and Nowgong, 13; and Gauhati and Dibrugarh, 12 seers per rupee.

Mysore.—There was moderate rain during the week in Kadur and Shimoga and slight elsewhere. Prices of food-grains are generally steady. The standing crops are in good condition except in the Bangalore, Kolar, Mysore and Chitaldroog districts. More rain is much needed generally in the Province. Cattle are generally healthy. Water is generally available, but fodder is getting scanty in parts of the Bangalore, Kolar, Hassan, Kadur and Chitaldroog districts.

Coorg.—Rainfall—3 inches 21 cents. Transplanting of rice continues. Prices of food-grains are stationary. Water and fodder are ample.

Hyderabad.—Rainfall—66 cents. Good grain has since fallen in two districts. Autumn crops are reported to be withering in twelve taluks and insects are damaging the crops in five more. Rain is urgently required in twenty taluks for the standing autumn and early rice crops. Elsewhere autumn crops are in good condition and weeding is in progress. Early rice-sowings continue in parts. Lands for spring crops are being prepared in

thirty-one taluks and sowings have begun in one taluk. Fodder scarcity exists in twenty-six taluks and water scarcity in eleven. Prices—wheat, 12½; coarse rice, 8½; *juar*, 19½ seers per rupee.

Rajputana.—There was no rain during the week except in Marwar at Bali, 19 cents; Jalor, 41; Sachore, 74; Partabgarh, 17; Alwar, 5; Bharatpur, 24; and Dholpur, 8. Rain has been generally insufficient and more is wanted. Wells are failing in Kishengarh. Autumn sowings are retarded in Ajmer-Merwara and in all States except Sirohi, Mewar, Partabgarh and the hilly tracts of Mewar. Agricultural operations are suspended in Jaipur, Kishengarh and Alwar. The standing crops are good in Partabgarh and Dholpur, fair in Jhalawar and withering elsewhere. The condition of agricultural stock is fair to good except in Jaisalmer. Emigration of cattle has begun from Kishengarh and Ajmer. Fodder is dear in Jaisalmer and deficient in Karauli and Tonk, Alwar and in parts of Ajmer-Merwara. Pasturage is reported deficient in Kishengarh, Jaisalmer and in parts of Kotah. Elsewhere both pasturage and fodder are reported sufficient. Prices are rising in Ajmer-Merwara and in all States except in Sirohi, the hill tracts of Mewar, Karauli, Tonk, Alwar and Dholpur where they are steady, and in Karauli where they are falling. The number of workers on test works in Merwara on the last day of the week was 3,605.

Central India.—The rainfall of the week in Gwalior was partial and insufficient, and was also insufficient throughout Baghelkhand and Bundelkhand and in the outlying parganas of Indore; sufficient in Malwa except in parts of Sitamau and in Bhopal, but more rain is wanted. Sowing is in progress in Gwalior and Baghelkhand; has been stopped for want of rain in parts of Gwalior and Bundelkhand; and is finished elsewhere, where weeding is in progress. Agricultural stock and pasturage are bad in parts of Gwalior and fair or good elsewhere. Prices are rising in Bundelkhand and parts of Gwalior; are high in Baghelkhand, Bhopal, Sitamau and parts of Gwalior; have fallen in Jaora and Rutlam and are steady elsewhere.

Kashmir.—The weather is bright and extremely warm. The crops are withering for want of rain. Prices are almost stationary.

Jammu.—There was good rain during the week. Prices are stationary. Wheat sells from 12 to 24 and maize 21 to 42 seers per rupee. The condition of the standing crops is generally fair. Fodder is sufficient. Autumn sowings are nearly over.

J. WILSON,

Secretary to the Government of India.

Simla, the 10th August, 1905.

A. R. JACOBSON,
for Secretary, Railway Board.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 19, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,
Secretary to the Government of India.

Rates of subscription.

	Per annum.
Subscription for Gazette and Supplement	Rs. 15 0 0

No. 118 of 1901.—Thomas James Clarke Drewett. *Improved flong for stereo-moulds.* (Specification filed 10 May 1901.)

No. 124 of 1901.—Vincenz Macku. *Improvements in wire healds for looms.* (Specification filed 11 May 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing of the specification.

The sum of Rs 50 for each of the above inventions.

No. 301 of 1899.—Robert Henry Cave. *Improved silicate process of indigo manufacture.* (Specification filed 9 May 1900.)

No. 344 of 1899.—Arthur Clayton Dulcken. *A new and improved method or process and also its machine for producing "yellow or boiled rice" commonly known as "shidha rice" and also "chyra rice" from paddy.* (Specification filed 7 May 1900.)

Fee in respect of the continuance of an exclusive privilege—

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification.

The sum of Rs 50 for each of the above inventions.

No. 115 of 1893.—Charles Cheers Wakefield. *Improvements in sight feed lubricators for steam engines.* (Specification filed 9 May 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the tenth year and before the expiration of the eleventh year from the date of the filing of the specification.

The sum of Rs 100 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not " designs " within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at *Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,

Secretary under the Inventions
and Designs Act, V of 1888.

EDUCATIONAL DEPARTMENT.

NOTIFICATION.

Dated the 22nd July 1905.

No. 391—XV—450-2.—Whereas the Lieutenant-Governor is satisfied, by an inquiry held under section 40 of the Land Acquisition Act, 1894 (I of 1894), that the acquisition of the land more particularly delineated in the schedule annexed to the agreement hereinafter set forth is needed for the construction, by a company registered under the Societies Registration Act, 1860 (XXI of 1860), under the name of the Meerut Collegiate Association, of works necessary for the housing in a permanent building of an educational institution known as the Meerut College and that such works are likely to prove useful to the public.

And whereas, upon such a report as is referred to in section 41 of the said Land Acquisition Act, 1894, he has required the said company to enter into an agreement with the Secretary of State for India in Council and the agreement hereinafter set forth has been executed accordingly:

Now, under and by virtue of the power conferred by section 42 and with reference to the provisions of section 39 of the said Land Acquisition Act, 1894, the Lieutenant-Governor is pleased to publish the agreement so set forth for the information of all persons likely to be affected thereby.

By order, etc.,

S. H. BUTLER,

Secretary to Government, United Provinces.

An Agreement entered into this 15th day of June 1905 between the Secretary of State for India in Council (hereafter called the Secretary of State) on the one part and the Meerut Collegiate Association of Meerut a Company registered under the Societies Registration Act XXI of 1860 on the other part.

Whereas the aforesaid Meerut Collegiate Association has made an application to the Government of the United Provinces of Agra and Oudh to acquire under the provisions of the Land Acquisition Act (I of 1894) land and premises in Meerut Town for the purposes of such Company amounting to 63 bighas 3 biswas $\frac{84}{5}$ biswansis or thereabouts as detailed and described in the Schedule annexed hereto and for the sake of greater clearness delineated or shewn on the plan hereto annexed and thereon with its boundaries coloured.

And whereas the aforesaid Local Government is satisfied that the said Meerut Collegiate Association is a Company within the meaning of section 3 (e) of the aforesaid Land Acquisition Act of 1894 (*vide* G. O. No. $\frac{645}{XV-450(2)}$ dated 30th September 1904 Educational Department to the (Commissioner Meerut Division).

And whereas the aforesaid Local Government after making and holding such enquiry as is required and prescribed by law is satisfied that the acquisition of the aforesaid land required by the Meerut Collegiate Association is needed for the construction of some work and that such work is likely to prove useful to the public.

And whereas under section 41 of the aforesaid Land Acquisition Act of 1894, the Meerut Collegiate Association is required to enter into an agreement with the Secretary of State for India in Council regarding matters laid down in the aforesaid section 41 of the said Act.

It is hereby agreed and declared as follows :—

1. That the aforesaid Meerut Collegiate Association will pay to the Local Government of the United Provinces of Agra and Oudh or to such person or persons whom the Local Government may appoint in this behalf all such sum or sums of money as shall be awarded under the provisions of the aforesaid Land Acquisition Act of 1894 as compensation to any person or persons who may be found on enquiry held under the provisions of the said Act, to be interested in the land hereinbefore mentioned as required by the Meerut Collegiate Association.

2. That the Meerut Collegiate Association will defray and pay to the Local Government from its funds the charges of and incidental to and the cost of the acquisition of the aforesaid land under the provisions of the Land Acquisition Act of 1894.

3. That upon the Meerut Collegiate Association having made the payments mentioned in the foregoing paragraphs Nos. 1 and 2 of this Agreement the Local Government will forthwith in consideration of the repayment of the compensation money and costs of acquisition aforesaid convey and grant to the Meerut Collegiate Association all that aforesaid piece of land containing by admeasurement 63 bighas 3 biswas $\frac{84}{5}$ biswansis situate in Meerut Town and described and shown in the Schedule and plan annexed hereto free from all incumbrances and occupancy rights and together with all rights easements and appurtenances thereto in fact or by reputation belonging or now or heretofore enjoyed therewith to hold the premises unto and to the use of the Meerut Collegiate Association.

4. That the Meerut Collegiate Association will perpetually hold and enjoy the aforesaid land and premises and use the said land and premises for the purposes hereby agreed upon.

5. That the Meerut Collegiate Association will use the aforesaid land and premises for the purposes of housing in a permanent building of their own the educational institution known as the Meerut College which the aforesaid association manages conducts and maintains with the object of promoting and facilitating the education and instruction of youths of all castes and creeds especially of Meerut and the neighbouring districts of erecting new buildings on the aforesaid land and premises as boarding-houses for students of the aforesaid Meerut College as dwellings and quarters for professors lecturers teachers clerks menials and servants of constructing scientific laboratories and observatories and gymnasia and also a building for a school to be known as the 'Nanak Chand Anglo-Sanskrit School' to be built at the cost of the Nanak Chand Trust Endowment

whose trustees and the Meerut Collegiate Association are agreed with a view to mutual advantage and convenience that the aforesaid school shall be affiliated to the said Institution of the Meerut Collegiate Association and be constructed on the grounds of the Meerut College Association of extending modifying demolishing or altering the present buildings existing on the aforesaid land in accordance with the requirements and needs of an Educational Institution of the kind which the aforesaid Association manages conducts and maintains of providing for a future new building for classes of students and lecture rooms for professors and like purposes of providing for play grounds for the students of the Meerut College aforesaid and of keeping the College aforesaid free from insanitary or otherwise undesirable surroundings.

6. That the Meerut College Association will immediately on being put in proprietary possession of the land aforementioned start executing the construction of two most important of the projected buildings *viz.* a boarding-house for students and a building for the 'Nanak Chand Anglo-Sanskrit School' mentioned above which two buildings shall be completed within the time required by the nature of the works.

7. That the Meerut Collegiate Association will at once on being put in possession of the land aforesaid provide suitable play-grounds for the students of the Meerut College and School affiliated to it in addition to or in alteration of those at present existing upon the aforesaid land, and may extend alter or add to them from time to time to meet exigencies in the future.

8. SUPPLEMENT TO
The Gazette of India.

No. 33.} CALCUTTA, SATURDAY, AUGUST 19, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

SIDNEY PRESTON,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 14th August, 1905.

No. 1723-G. B.—With the sanction of His Majesty's Government, the Governor-General in Council is pleased to recognise provisionally the appointment of Mr. S. Stoner, as Consul-General for the United States of America at Calcutta.

The 16th August, 1905.

No. 3321-I. A.—In exercise of the powers conferred by the first schedule of the Indian Extradition Act, 1903 (XV of 1903), the Governor-General in Council is pleased to declare the offence of enticing or taking away or detaining with criminal intent a married woman, as defined in section 498 of the Indian Penal Code, to be an extradition offence within the meaning of the Indian Extradition Act, 1903, in the case of the Khairpur State.

No. 3341-I. C.—Captain B. P. Ellwood, Indian Army, Squadron Officer, 31st Lancers, temporary additional Assistant Inspecting Officer, Central India Imperial Service Cavalry, is appointed to be Assistant Inspecting Officer, with effect from the 16th November, 1904, the date from which the services of Captain A. H. O. Spence were replaced at the disposal of His Excellency the Commander-in-Chief in India.

The 17th August, 1905.

No. 1741-G.—Captain S. H. L. Abbott, M.B., Indian Medical Service, Medical Officer, 37th Dogras, held charge of the current duties of the office of Agency Surgeon in Bundelkhand, in addition to his own duties, for the period from the 15th to the 24th February, 1905, inclusive.

The 18th August, 1905.

No. 3377-I. C.—Captain A. H. Buist, Indian Army, Queen's Own Corps of Guides (Infantry), Officiating Deputy Assistant Adjutant General for Musketry, Imperial Service Troops, is confirmed in his appointment, with effect from the 14th August, 1905.

No. 3381-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to order that within the limits of the Bundelkhand Political Agency, the Cantonment Magistrate of Nowgong, being an Assistant to the Political Agent in Bundelkhand, shall in all cases in which such powers may be lawfully exercised by the Governor-General in Council within such limits exercise the powers of a Magistrate of the first class as described in the Code of Criminal Procedure, 1898 (Act V of 1898): provided that the said Cantonment Magistrate shall not commit any accused person for trial to the Political Agent in Bundelkhand acting as a Court of Session within the limits of the said Agency.

2. All criminal powers which may, before the date of this notification, have been exercised by the said Cantonment Magistrate within such limits shall, so far as they are consistent with this notification, be deemed to have been exercised in accordance with law.

3. The provisions of this notification shall apply to all criminal proceedings, except proceedings against European British subjects, or persons jointly charged with European British subjects.

4. Nothing in this notification shall be deemed to extend to the Cantonment of Nowgong, or to any Railway lands situate within the Bundelkhand Political Agency.

No. 3160-E.C.—The following order of His Majesty in Council, which was published in the *London Gazette*, dated the 12th May, 1905, is republished for general information:

ORDER IN COUNCIL.

APPLYING THE EXTRADITION TREATY WITH CUBA OF THE 3RD OCTOBER, 1904.

Buckingham Palace, 10th May, 1905.

AT the Court at *Buckingham Palace*, the 10th day of May, 1905.

PRESENT:

The KING'S Most Excellent Majesty.
Lord President.
Lord Steward.
Earl of Kintore.
Sir H. Aubrey-Fletcher.
Sir Savile Crossley.

WHEREAS by the Extradition Acts, 1870 to 1895, it was amongst other things enacted that, where an arrangement has been made with any Foreign State with

respect to the surrender to such State of any fugitive criminals, His Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State ; and that His Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of His Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient ;

And whereas a Treaty was concluded on the third day of October, one thousand nine hundred and four, between His Majesty and the President of the Republic of Cuba for the mutual extradition of fugitive criminals, which Treaty is in the terms following :

His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Emperor of India and His Excellency the President of the Republic of Cuba, having determined, by common consent, to conclude a Treaty for the extradition of criminals, have accordingly named as their Plenipotentiaries :

His Majesty the King of the United Kingdom of Great Britain and Ireland, Lionel E. G. Carden, Esq., Minister Resident of Great Britain in Cuba, and His Excellency the President of the Republic of Cuba, Carlos E. Ortiz y Cofigny, Secretary of State and Justice ; who, after having exhibited to each other their respective full powers and found them in good order and due form, have agreed upon the following Articles :

ARTICLE I.

The High Contracting Parties engage to deliver up to each other, under certain circumstances and conditions stated in the present Treaty, those persons who, being accused or convicted of any of the crimes or offences enumerated in Article II, committed in the territory of the one Party, shall be found within the territory of the other Party.

ARTICLE II.

Extradition shall be reciprocally granted for the following crimes or offences :

1. Murder, or attempt or conspiracy to murder.
2. Manslaughter.
3. Administering drugs or using instruments with intent to procure the miscarriage of women.
4. Rape.
5. Carnal knowledge or any attempt to have carnal knowledge of a girl under the age of puberty according to the laws of the respective countries.
6. Indecent assault.
7. Kidnapping and false imprisonment, child-stealing.
8. Abduction.
9. Bigamy.

Su Majestad el Rey del Reino Unido de la Gran Bretaña é Irlanda y de las Posesiones Británicas de Ultramar, Emperador de la India, y Su Excelencia el Presidente de la República de Cuba, habiendo resuelto por mutuo convenio, celebrar un Tratado para la extradición de criminales, han convenido en nombrar por sus Plenipotenciarios :

Su Majestad el Rey del Reino Unido de la Gran Bretaña é Irlanda, al Sr. Lionel E. G. Carden, Ministro Residente de la Gran Bretaña en Cuba, y Su Excelencia el Presidente de la República de Cuba, al Sr. Carlos E. Ortiz y Cofigny, Secretario de Estado y Justicia ; quienes después de haberse exhibido sus respectivos plenos poderes y encontrarlos en buena y debida forma, han convenido en los siguientes artículos :

ARTICULO I.

Las Altas Partes Contratantes se obligan á entregarse mutuamente, en las circunstancias y con las condiciones estipuladas en el presente Tratado, las personas que, procesadas ó condenadas por alguno de los crímenes ó delitos enumerados en el artículo II y cometidos en el territorio de una de las Partes, sean encontradas en el territorio de la otra Parte.

ARTICULO II.

La extradición se concederá recíprocamente cuando se trate de los siguientes crímenes ó delitos :

1. Asesinato, parricidio, infanticidio ; ó la tentativa de cualquiera de estos delitos.
2. Homicidio.
3. El empleo de drogas ó instrumentos con el propósito de hacer abortar a una mujer.
4. Violación.
5. Acceso carnal ó la tentativa de acceso carnal con una menor impuber según las leyes de los respectivos países.
6. Abusos deshonestos.
7. Detención ilegal y sustracción de menores.
8. Rapto.
9. Bigamia.

10. Maliciously wounding or inflicting grievous bodily harm.

11. Assault occasioning actual bodily harm.

12. Threats, by letter or otherwise, with intent to extort money or other things of value.

13. Perjury or subornation of perjury.

14. Arson.

15. Burglary or house-breaking, robbery with violence, larceny, or embezzlement.

16. Fraud by a bailee, banker, agent, factor, trustee, director, member, or public officer of any Company.

17. Obtaining money, valuable security, or goods by false pretences; receiving any money, valuable security, or other property, knowing the same to have been stolen or unlawfully obtained.

18. (a) Counterfeiting or altering money or bringing into circulation counterfeited or altered money.

(b) Knowingly making without lawful authority any instrument, toll, or engine adapted and intended for the counterfeiting of the coin of the realm.

(c.) Forgery, or uttering what is forged.

19. Crimes against bankruptcy law.

20. Any malicious act done with intent to endanger the safety of any persons travelling or being upon a railway.

21. Malicious injury to property, if such offence be indictable.

22. Piracy and other crimes or offences committed at sea against persons or things which, according to the laws of the High Contracting Parties, are extradition offences, and are punishable by more than one year's imprisonment.

23. Dealing in slaves in such manner as to constitute a criminal offence against the laws of both States.

Extradition shall also be granted for participation in any of the aforesaid crimes, provided such participation be punishable by the laws of both Contracting Parties.

Extradition may also be granted at the discretion of the State applied to in respect of any other crime for which, according to the law of both the Contracting Parties for the time being in force, the grant can be made.

10. Heridas ó golpes que ocasionen graves lesiones, unas y otros dados intencionalmente.

11. Agresión violenta contra las personas que ocasione lesión corporal.

12. Amenazas en cartas ó hechas en otra forma con el fin de obtener dinero ú otros objetos de valor.

13. Perjurio ó soborno para que se cometa perjurio.

14. Incendio.

15. Allanamiento de morada, robo, hurto, ó estafa.

16. Fraude cometido por un depositario, banquero, agente, factor, administrador, director, miembro ó empleado público de alguna compañía.

17. Obtener con engaño dinero, documentos de valor ó efectos muebles; ocultación ó aprovechamiento de dinero, documentos de valor ó efectos muebles robados u obtenidos ilegalmente sabiéndolo.

18. (a.) Falsificación ó alteración de la moneda ó poner en circulación moneda falsa ó alterada.

(b) Fabricar á sabiendas sin autorización legal algún instrumento, utensilio ó máquina adaptada y destinada conocida-mente á la falsificación de moneda acuñada del Estado.

(c.) Falsificación ó poner en circulación lo falsificado.

19. Delitos relacionados en la ley de quiebras.

20. Cualquier acto criminal ejecutado con el propósito de poner en peligro la seguridad de alguna persona que viaje ó esté en un ferrocarril.

21. Daños intencionales causados á la propiedad, si el hecho fuere penable.

22. Piratería y otros crímenes ó delitos cometidos en el mar contra las personas ó cosas que, según las leyes de las Altas Partes Contratantes, estén sujetos á extradición y sean penables con más de un año de prisión.

23. Tráfico de esclavos en términos que constituyan delito contra las leyes de ambos Estados.

También se concederá la extradición de los cómplices de cualquiera de los expresados delitos con tal que la participación sea punible, conforme a las leyes de ambas Partes Contratantes.

Y podrá también concederse la extradición á arbitrio del Estado á quien se pida por cualquier otro delito respecto del cual se puede conceder la extradición conforme á las leyes de ambas Partes Contratantes, vigentes en la época en que sea pedida.

ARTICLE III.

Neither party is obliged to surrender its own subjects or citizens to the other party.

ARTICLE IV.

Extradition shall not take place if the person claimed on the part of His Majesty's Government, or of the Government of Cuba, has already been tried and discharged or punished, or is awaiting trial in the territory of the United Kingdom or in the Republic of Cuba respectively, for the crime for which his extradition is demanded.

If the person claimed on the part of His Majesty's Government, or of the Government of Cuba, should be awaiting trial or undergoing sentence for any other crime in the territory of the United Kingdom or in the Republic of Cuba respectively, his extradition shall be deferred until after he has been discharged, whether by acquittal or on expiration of sentence, or otherwise.

ARTICLE V.

Extradition shall not be granted if exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the State applying or applied to.

Neither shall it be granted if, according to the law of either country, the maximum punishment for the offence charged is imprisonment for less than one year.

ARTICLE VI.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he proves that the requisition for his surrender has, in fact, been made with a view to try or punish him for an offence of a political character.

ARTICLE VII.

A person surrendered shall in no case be kept in prison or be brought to trial in the State to which the surrender has been made, for any other crime, or on account of any other matters, than those for which the extradition shall have taken place, until he has been restored, or has had an opportunity of returning to the State by which he has been surrendered.

This stipulation does not apply to crimes committed after the extradition.

ARTICLE VIII.

The requisition for extradition shall be made through the Diplomatic Agents of the High Contracting Parties respectively.

ARTICULO III.

Ninguna de las Partes Contratantes queda obligada á entregar á sus propios súbditos ó ciudadanos á la otra Parte.

ARTICULO IV.

La extradición no se efectuará si la persona reclamada de parte del Gobierno de S. M., ó del de Cuba, ha sido ya juzgada y puesta en libertad, ó ha cumplido su pena, ó está pendiente de juicio, en el territorio del Reino Unido ó en el de la República de Cuba, respectivamente, por el delito en cuya virtud se pide la extradición.

Si la persona reclamada, por parte de Gobierno de S. M., ó por el Gobierno de Cuba, estuviere pendiente de juicio, ó sufriendo condena por algún otro delito en el territorio del Reino Unido ó en el de la República de Cuba, respectivamente, su extradición se diferirá hasta que sea puesto en libertad ya por absolucíon, ya por extincíon de condena, ó por otra causa.

ARTICULO V.

No se concederá la extradición si por razón del tiempo transcurrido, ha prescrito la acción judicial, ó la pena con arreglo á las leyes del Estado que solicite la extradición, ó las del que haya de concedala.

Tampoco se concederá si, con arreglo á las leyes de cada país, el máximo de la pena que corresponder al delito de que se trate, es menor de un año de prisión.

ARTICULO VI.

Un criminal prófugo no será entregado, si el delito, en cuya virtud se pide la extradición, es de carácter político, ó si prueba que la petición de su entrega se ha formulado, de hecho, con el fin de juzgarlo, ó castigarlo, por un delito de carácter político.

ARTICULO VII.

Una persona entregada, en ningún caso será detenida en prisión, ni será juzgada, en el Estado, á quien se concedió la extradición, por otro delito, ó en virtud de otras causas, que aquellos en cuya virtud se concedió dicha extradición, hasta que la referida persona haya sido devuelta ó haya tenido la oportunidad de regresar al Estado que la entregó.

Esta condición no comprende los delitos cometidos después de la extradición.

ARTICULO VIII.

La petición de extradición se hará por conducto de los Agentes Diplomáticos de las Altas Partes Contratantes respectivamente.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

If the requisition relates to a person already convicted, it must be accompanied by a copy of the Judgment passed on the convicted person by the competent Court of the State that makes the requisition for extradition.

ARTICLE IX.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

ARTICLE X.

A criminal fugitive may be apprehended under a warrant issued by any competent authority in either country, on such information or complaint, and such evidence, or after such proceedings, as would, in the opinion of the authority issuing the warrant, justify the issue of a warrant if the crime had been committed or the person convicted in that part of the dominions of the two Contracting Parties in which the said authority exercises jurisdiction; provided, however, that in the United Kingdom the accused shall, in such case, be sent as speedily as possible before a Police Magistrate. In the Republic of Cuba the Government will decide by Administrative procedure on everything connected with extradition until a special procedure on the subject be established by law.

ARTICLE XI.

The extradition shall take place only if the evidence be found sufficient, according to the laws of the State applied to, either to justify the committal of the prisoner for trial, in case the crime had been committed in the territory of the same State, or if extradition is claimed in respect of an offence of which the fugitive has been already convicted, to prove that the prisoner is the person convicted, and that the crime of which he has been convicted is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to.

ARTICLE XII.

In the examination which they have to make in accordance with the foregoing stipulations, the authorities of the State applied to shall admit as valid evidence the sworn de-

La petición de extradición de un procesado debe ir acompañada de un mandamiento ó auto de prisión expedido por la autoridad competente del Estado que pida la extradición, y de aquellas pruebas que, conforme á las leyes del lugar en que se encuentre dicho procesado, justificarían su detención, si el delito se hubiese cometido en dicho lugar.

Si la petición se refiere á persona que haya sido ya condenada, deberá ir acompañada de una copia de la sentencia dictada contra dicha persona, por el Tribunal competente del Estado que pida la extradición.

ARTICULO IX.

Si la demanda de extradición se hiciere, de conformidad con las precedentes estipulaciones, las autoridades competentes del Estado de quien se solicite, procederán á la detención del fugitivo.

ARTICULO X.

Se podrá aprehender á un reo prófugo en virtud de un mandamiento librado por autoridad competente en uno ú otro país, fundado en los informes ó quejas y en las pruebas ó diligencias que, en opinión de la autoridad que expida el mandamiento, justificarían este acto si el delito hubiese sido cometido, ó condenada la persona, en aquella parte de los dominios de ambas Partes Contratantes, en la cual referida autoridad competente ejerce jurisdicción; con tal, sin embargo, que en el Reino Unido el acusado sea consignado, en este caso, tan pronto como sea posible, á un Magistrado de Policía. En la República de Cuba el Gobierno decidirá administrativamente sobre todo lo concerniente á la extradición hasta que las leyes establezcan un procedimiento especial sobre la materia.

ARTICULO XI.

Sólo tendrá lugar la extradición si, conforme á las leyes del Estado al cual se pide aquélla, se consideran suficientes las pruebas, para que el detenido hubiera sido sometido á juicio en caso de haberse perpetrado el delito en el territorio del mismo Estado; ó si la extradición ha sido pedida en virtud de un delito por el cual el fugitivo ha sido ya condenado, que el preso es la misma persona condenada por los tribunales del Estado que hace el requerimiento, y que el delito por el que fué condenado es de aquellos en punto á los cuales el Estado, á quien se pidió la extradición podía conceder ésta en la época de la condenación.

ARTICULO XII.

Las autoridades del Estado al que se pida la extradición, en el examen que deben hacer conforme á las precedentes estipulaciones, admitirán como pruebas

positions or the affirmations of witnesses taken in the other State, or copies thereof, and likewise the warrants and sentences issued therein, and certificates of, or judicial documents stating, the fact of a conviction, provided the same are authenticated as follows :

1. A warrant must purport to be signed by a Judge, Magistrate, or officer of the other State.

2. Depositions of affirmations, or the copies thereof, must purport to be certified, under the hand of a Judge, Magistrate, or officer of the other State, to be the original depositions or affirmations, or to be true copies thereof, as the case may require.

3. A certificate of, or judicial document stating, the fact of a conviction must purport to be certified by a Judge, Magistrate, or officer of the other State.

4. In every case such warrant, deposition, affirmation, copy, certificate or judicial document must be authenticated, either by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of the other State ; but any other mode of authentication for the time being permitted by the law of the country where the examination is taken may be substituted for the foregoing.

ARTICLE XIII.

If the individual claimed by one of the High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other Powers on account of other crimes or offences committed upon their respective territories, his extradition shall be granted to the State whose demand is earliest in date.

ARTICLE XIV.

If sufficient evidence for the extradition be not produced within two months from the date of the apprehension of the fugitive or within such further time as the State applied to, or the proper Tribunal thereof, shall direct, the fugitive shall be set at liberty.

ARTICLE XV.

All articles seized which were in the possession of the person to be surrendered at the time of his apprehension shall, if the competent authority of the State applied to for the extradition has ordered the delivery of such articles, be given up when the extradition

válidas las deposiciones ó declaraciones de testigos tomadas en el otro Estado bajo juramento ó bajo protesta de decir verdad, conforme lo prevenga su legislación, ó las copias de estas deposiciones ó declaraciones é igualmente los mandamientos librados y sentencias pronunciadas en el Estado que pide la extradición, y los certificados del hecho de la condenación ó los documentos judiciales que lo comprueben, con tal que estén legalizados en la forma siguiente :

1. Un mandamiento debe expresar que está firmado por un Juez, Magistrado ó funcionario del otro Estado.

2. Las deposiciones ó declaraciones, ó sus copias, deben expresar que están certificadas por un Juez, Magistrado ó funcionario del otro Estado, y que son las deposiciones ó declaraciones originales, ó copias exactas de las mismas, según lo exija el caso.

3. Un certificado del hecho de la condenación ó un documento judicial que lo compruebe, debe expresar que está certificado por un Juez, Magistrado ó funcionario del otro Estado.

4. En todo caso, este mandamiento, deposición, declaración, copia, certificado ó documento judicial, ha de ser legalizado, ó por el juramento de algún testigo, ó sellándose con el sello oficial del Ministro de Justicia ú otro Ministro del otro Estado ; pero cualquiera otra forma de legalización, permitida por la ley en la época y en el Estado donde se haga el examen, puede ser substituida por la precedente.

ARTICULO XIII.

Si el individuo reclamado por una de las dos Altas Partes Contratantes, en virtud del presente Tratado, lo fuere también por una ó por varias otras Potencias, por razón de otros delitos cometidos en sus respectivos territorios, se concederá su extradición al Estado cuya demanda sea primera en fecha.

ARTICULO XIV.

Se pondrá en libertad al reo prófugo si no se produce prueba suficiente para la extradición, en el término de dos meses contados desde la fecha de su aprehensión, ó dentro del término que además de estos dos meses señale el Estado á quien se pide la extradición ó el Tribunal competente del mismo.

ARTICULO XV.

Todos los objetos secuestrados que, al tiempo de la aprehensión, estaban en poder del individuo á quien se ha de entregar, también serán entregados cuando la extradición tenga lugar, si la autoridad competente del Estado al que aquélla se ha

takes place ; and the said delivery shall extend not merely to the stolen articles, but to everything that may serve as a proof of the crime.

ARTICLE XVI.

All expenses connected with extradition shall be borne by the demanding State.

ARTICLE XVII.

The stipulations of the present Treaty shall be applicable to the Colonies and foreign possessions of His Britannic Majesty, so far as the laws in such Colonies and foreign possessions respectively will allow.

The requisition for the surrender of a fugitive criminal, who has taken refuge in any of such Colonies or foreign possessions, shall be made to the Governor or chief authority of such Colony or possession by the chief Consular officer of the Republic of Cuba in such Colony or possession.

Such requisition may be disposed of, subject always, as nearly as may be, and so far as the law of such Colony or foreign possession will allow, to the provisions of this Treaty, by the said Governor or chief authority, who, however, shall be at liberty either to grant the surrender or to refer the matter to his Government.

His Britannic Majesty shall, however, be at liberty to make special arrangements in the British Colonies and foreign possessions for the surrender of Cuban criminals who may take refuge within such Colonies and foreign possessions, on the basis, so far as the law of such Colony or foreign possessions will allow, of the provisions of the present Treaty.

Requisitions for the surrender of a fugitive criminal emanating from any Colony or foreign possession of His Britannic Majesty shall be governed by rules laid down in the preceding Articles of the present Treaty.

ARTICLE XVIII.

The present Treaty shall come into force ten days after its publication, in conformity with the forms prescribed by the laws of the High Contracting Parties. It may be terminated by either of the High Contracting Parties by a notice not exceeding one year, and not less than six months.

It shall be ratified, after receiving the approval of the Senate of the Republic of Cuba, and the ratifications shall be exchanged at Havana as soon as possible.

In witness whereof the respective Plenipotentiaries have signed the same, and affixed thereto their respective seals.

pedido ordena la entrega de los mencionados objetos ; dicha entrega se extenderá, no sólo á los objetos robados, sino á todo lo que pueda servir de prueba del delito.

ARTICULO XVI.

Todos los gastos originados de la extradición serán por cuenta del Estado que la haya pedido.

ARTICULO XVII.

Las estipulaciones del presente Tratado se aplicarán á las Colonias y posesiones extranjeras de Su Majestad Británica, en cuanto lo permitan las leyes respectivas de dichas Colonias y posesiones extranjeras, vigentes en la época en que se pida la extradición.

La demanda para la entrega de un reo prófugo que se haya refugiado en alguna de estas Colonias ó posesiones, se hará al Gobernador ó principal autoridad de la Colonia ó posesión, por el principal Agente consular de la República de Cuba en la Colonia ó posesión.

La demanda puede ser resuelta, sujetándose siempre, tan exactamente como sea posible y en cuanto lo permitan las leyes de esta Colonia ó posesión extranjera, á las prevenciones de este Tratado, por el Gobernador ó autoridad principal, los cuales, sin embargo, estarán en libertad de conceder la entrega ó de someter el negocio á su Gobierno.

Su Majestad Británica, no obstante, estará en libertad para hacer arreglos especiales en las Colonias británicas y posesiones extranjeras, á efecto de entregar los reos cubanos que se refugian en esas Colonias ó posesiones, sobre la base, en cuanto lo permitan las leyes de la Colonia ó posesión extranjera, de las prevenciones del presente Tratado.

Las demandas para la entrega de un reo prófugo, emanadas de alguna Colonia ó posesión extranjera de Su Majestad Británica, se regirán por las reglas establecidas en los anteriores artículos del presente Tratado.

ARTICULO XVIII.

El presente Tratado comenzará á regir diez días después de su publicación, hecha conforme á las reglas prescritas por las leyes de las Altas Partes Contratantes. Una ú otra de las Altas Partes Contratantes puede ponerle término dando noticia á la otra, con una anticipación que no exceda de un año ni sea menor de seis meses.

Será ratificado, después de su aprobación por el Senado de la República de Cuba y las ratificaciones se canjearán en la Habana, lo mas pronto posible.

En fé de lo cual, los respectivos Plenipotenciarios lo han firmado y sellado, con sus sellos oficiales.

Done in duplicate at Havana the third day of October, nineteen hundred and four.

Hecho en dos originales, en la Habana, el día tres de Octubre de mil novecientos cuatro.

And whereas the ratifications of the said Treaty were exchanged at Havana on the tenth day of January, one thousand nine hundred and five :

Now, therefore, His Majesty, by and with the advice of His Privy Council, and in virtue of the authority committed to him by the said recited Acts doth order, and it is hereby ordered, that from and after the twenty-second day of May, one thousand nine hundred and five, the said Acts shall apply in the case of Cuba and of the said Treaty with the President of the Republic of Cuba :

Provided always that the operation of the said Acts shall be and remain suspended within the Dominion of Canada so long as an Act of the Parliament of Canada passed in one thousand eight hundred and eighty-six, and entitled "An Act respecting the Extradition of Fugitive Criminals," shall continue in force there, and no longer.

A. W. FitzRoy.

No. 3161-E. C.—In continuation of the Notification by the Government of India in the Foreign Department, No. 1340-E. P., dated the 23rd June, 1881, the following extract from the *London Gazette*, dated the 30th May, 1905, is republished for general information.

ORDER IN COUNCIL.

APPLYING THE EXTRADITION CONVENTION OF THE 29TH JUNE, 1904.

Buckingham Palace, 29th May, 1905.

AT the Court at *Buckingham Palace*, the 29th day of May, 1905.

PRESENT.

The KING'S Most Excellent Majesty.

Lord President.

Lord Steward.

Mr C. B. Stuart-Wortley.

Sir W. H. Walrond.

Sir A. Nicolson.

Sir W. E. Goschen.

WHEREAS by the Extradition Acts, 1870 to 1895, it was amongst other things enacted that, where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, His Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State ; and that His Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of His Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient ;

And whereas a Treaty was concluded on the twenty-sixth day of November, one thousand eight hundred and eighty, between Her late Majesty Queen Victoria and the Swiss Federal Council for the mutual extradition of fugitive criminals, in the case of which Treaty the Extradition Acts of 1870 and 1873 were applied by Order in Council of the eighteenth May, one thousand eight hundred and eighty-one ;

And whereas a Supplementary Convention was concluded on the twenty-ninth day of June, one thousand nine hundred and four, between His Majesty and the Federal Council of the Swiss Confederation, amending Article XVIII of the said Treaty of the twenty-sixth of November, one thousand eight hundred and eighty, for the mutual extradition of fugitive criminals, which Supplementary Convention is in the terms following :

Convention supplementing Article XVIII of the Extradition Treaty concluded between Great Britain and Switzerland, November 26, 1880.

THE Government of His Majesty the King of the United Kingdom of Great Britain and Ireland and the Federal Council of the Swiss Confederation, having deemed it necessary to extend, so far as regards the relations of Switzerland with the British Colonies and foreign possessions, the periods of thirty days and two months respectively fixed by Article III, paragraph 3, and Article VIII of the Treaty concluded on the 26th November, 1880, between Her late Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, &c., and the Swiss Federal Council respecting the extradition of persons accused or condemned, the Undersigned, duly authorized to that effect by their respective Governments, have agreed as follows:

The following stipulation is added to the first paragraph of Article XVIII of the Treaty of Extradition:

"Nevertheless, so far as regards the relations of Switzerland with these Colonies and foreign possessions, the period of time fixed by Article III, paragraph 3, within which the requisition for extradition is to be made through the diplomatic channel, shall be six weeks; and that provided by Article VIII for the production of proof sufficient to warrant the extradition shall be three calendar months."

The present Convention shall come into force from the date when the ratifications shall be exchanged. It shall have the same force and duration as the Treaty of Extradition of the 26th November, 1880, to which it relates.

It shall be ratified, and the ratifications shall be exchanged at London as soon as possible.

In witness whereof the undersigned have signed the present Convention, and have affixed their seals thereto.

Done at London in duplicate, the 29th day of June, 1904.

(L.S.) LANSDOWNE.

And whereas the ratifications of the said Supplementary Convention were exchanged at London on the twenty-ninth day of March, one thousand nine hundred and five;

Now, therefore, His Majesty, by and with the advice of His Privy Council, and in virtue of the authority committed to Him by the said recited Acts, doth order, and it is hereby ordered, that from and after the ninth day of June, one thousand nine hundred and five, the said Acts shall apply in the case of Switzerland, under and in accordance with the said Treaty, as amended by the said Supplementary Convention above set forth.

Provided always that the operation of the said Acts shall be and remain suspended within the Dominion of Canada so long as an Act of the Parliament of Canada passed in one thousand eight hundred and eighty-six, and entitled "An Act respecting the Extradition of Fugitive Criminals," shall continue in force there, and no longer.

A. W. FestsRoy.

S. M. FRASER,

Offg. Secretary to the Government of India.

Convention relative à un Complément de l'Article XVIII du Traité d'Extradition conclu entre la Grande-Bretagne et la Suisse, le 26 Novembre, 1880.

LE Gouvernement de Sa Majesté le Roi du Royaume-Uni de Grande-Bretagne et d'Irlande et le Conseil Fédéral de la Confédération Suisse, ayant jugé nécessaire de prolonger les délais de trente jours, respectivement de deux mois, prévus, pour les rapports de la Suisse avec les Colonies et possessions étrangères de la Grande-Bretagne, par l'Article III, alinéa 3, et par l'Article VIII du Traité conclu le 26 Novembre, 1880, entre feu Sa Majesté la Reine du Royaume-Uni de Grande-Bretagne et d'Irlande, Impératrice des Indes, &c., et le Conseil Fédéral Suisse concernant l'extradition de personnes accusées ou condamnées, les Soussignés, dûment autorisés à cet effet par leurs Gouvernements respectifs, sont convenus de ce qui suit:

Est ajoutée au premier alinéa de l'Article XVIII du Traité d'Extradition la disposition suivante:

"Toutefois, dans les rapports de la Suisse avec ces Colonies et possessions étrangères, le délai prévu par l'Article III, alinéa 3, pour la demande d'extradition par voie diplomatique, sera de six semaines; et celui prévu par l'Article VIII pour la production des preuves permettant d'accorder l'extradition, sera de trois mois de calendrier."

La présente Convention entrera en vigueur dès que les ratifications en auront été échangées. Elle aura la même force et la même durée que le Traité d'Extradition du 26 Novembre, 1880, auquel elle se réfère.

Elle sera ratifiée, et les instruments de ratifications en seront échangés à Londres aussitôt que possible.

En foi de quoi les Soussignés ont apposé leurs signatures et leurs sceaux à la présente Convention.

Fait à Londres, en double expédition, le 29 Juin, 1904.

(L.S.) CARLIN.

MILITARY DEPARTMENT.

NOTIFICATION.

Simla, the 18th August, 1905.

Under clause 53 of the Regulations appended to the Regimental Debts Act, 1893, it is notified that a report of the death of the undermentioned warrant officer on the date specified was received in the Military Department between the 13th and 18th August 1905:

Corps.	Rank and name.	Date of decease.	Place of decease.	Testate or intestate.	REMARKS.
Indian Miscellaneous List.	Conductor William Edward Bain.	7th August 1905	Poona	...	

H. B. B. WATKIS, *Colonel,*
Offg. Secretary to the Government of India.

RAILWAY BOARD.

NOTIFICATIONS.

Simla, the 16th August, 1905.

No. 142.—Mr. W. Chadwick, Superintending Engineer, 1st Class, temporary rank, and officiating Consulting Engineer to the Government of India for Railways, Assam, is granted combined leave for two years (privilege leave for three months and furlough for one year and nine months), under Articles 233 (i) and 308 (b) of the Civil Service Regulations, with effect from the 1st August 1905.

This cancels Railway Board Notification No. 75, dated the 22nd May 1905.

No. 143.—Mr. P. B. McGowan, probationary Traffic Inspector, North Western Railway, is appointed to officiate as Assistant Traffic Superintendent, until further orders.

No. 144.—Mr. H. B. Taylor, Officiating Superintending Engineer, State Railways, is appointed Deputy Engineer-in-Chief, Eastern Bengal State Railway, with the temporary rank of Superintending Engineer, 3rd Class, with effect from the 23rd May 1905.

Mr. Taylor will continue to officiate as Engineer-in-Chief of the Eastern Bengal State Railway, until further orders.

No. 145.—The leave on medical certificate granted to Mr. A. H. Francis, Deputy Examiner of Accounts, in Railway Board Notification No. 127, dated 20th July 1905, is extended up to 5th September 1905.

No. 146.—Mr. R. C. Williams, District Traffic Superintendent, in Class II, Grade 3, of the Superior Revenue Establishment of State Railways, is permitted to retire from the service of Government, under the provisions of Article 650 of the Civil Service Regulations, with effect from the 3rd September 1905.

The 17th August, 1905.

No. 147.—Mr. J. Izat, Assistant Engineer, 2nd Grade, is transferred from the Murshidabad Branch, Eastern Bengal State Railway, to the Nagda-Muttra Railway.

No. 148.—With reference to Railway Board Notification No. 36, dated the 11th April 1905, Mr. H. B. Taylor will, while officiating as Engineer-in-Chief of the Eastern Bengal State Railway, hold the temporary rank of Superintending Engineer, 2nd Class, with effect from the date of the expiry of Mr. Moyle's privilege leave.

NEVILLE PRIESTLEY,

Secretary, Railway Board.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 17th August 1905, based on the India Daily Weather Reports of the period.

There has been very little change in the general monsoon conditions during the past week. The Arabian Sea current has been generally feeble and has given less rain than usual over almost the whole of its field. On the 11th the only rainfall from this source was a few showers at the West Coast stations; on the 12th there was some extension of rainfall and light rain was received at some central stations as well as at a few places in the east of the Peninsula; on the 13th these conditions were maintained, while at the same time the rainfall on the West Coast increased, Mangalore reporting a fall of 6·16" and Karwar a fall of 1·75"; on the 14th showers became slightly more general over the Central Provinces and the interior and east of the Peninsula, but the rainfall had become lighter again along the West Coast; and on the 15th, 16th and 17th showers, varying in amount from a few cents to over two inches, were received over the interior and east of the Peninsula and the central parts of the country, though along the West Coast the amounts remained light and the rainfall partial.

Over Burma (except Upper Burma), Assam, Bengal and the east of the United Provinces rain has fallen daily and fairly generally, and the total rainfall of the week has exceeded the normal over the greater part of the above areas. The principal amounts reported, were 8·53" at Akyab, 4·17" at Cherra Poonjee, 3·60" at Gorakhpur, 3·28" at Purnea, and over 2" at Toungoo, Barisal, Sibsagar, Tezpur, Gauhati and Darjeeling on the 11th; 2·38" at Burdwan and 2·10" at Moulmein on the 12th; 6·66" at Cherra Poonjee, 2·95" at Jalpaiguri and 2·73" at Burdwan on the 13th, 4·82" at Jalpaiguri and 4·23" at Cherra Poonjee on the 14th; 4·60" at Jalpaiguri and 2·25" at Dinajpur on the 15th; 5·54" at Cherra Poonjee and 4·37" at Jalpaiguri on the 16th; and 2·76" at Purnea and 1·96" at Benares on the 17th.

Over Upper and North-West India, including therein the centre and west of the United Provinces, the Punjab, the North-West Frontier Province, Sind, Rajputana, Gujarat and the west of Central India, the rainfall throughout the week was exceedingly scanty. There were showers on and near the hills on several days, the largest amounts reported having been 2·68" at Chakrata, 1·42" at Ranikhet, 1·40" at Dehra Dun and 1·26" at Murree on the 12th; there were also occasional showers over the United Provinces, of which the heaviest were 1·70" at Meerut on the 14th and 0·68" at Allahabad on the 12th; but over Rajputana, the whole of the Punjab (except the submontane districts), the North-West Frontier Province (except Peshawar), Sind and Gujarat, the weather was actually or practically rainless throughout the week.

The rainfall table shows that the week's rainfall has been heavier than usual over the Brahmaputra Valley and Gangetic Plain (east) divisions, and the Calcutta, Dinajpur, Darbhanga, Waltair, Calicut and Bellary subdivisions, but has been lighter than usual in all other places.

The seasonal deficiency which, as noticed last week, prevails in all parts of the country except a few divisions in the north-east, has been still further increased by the deficient rainfall of the past week.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 17th August 1905.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
12th August 1905.

Madras.—Rainfall *nil* in Anantapur and Tinnevely; good in Ganjam, the Vizagapatam Agency, the West Coast districts and in the Nilgiris; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency, except in Vizagapatam, Cuddapah, the West Coast districts and in the Nilgiris. Ploughing, sowing and transplanting are in progress in parts. The standing crops are generally fair, but some in parts of Kistna, Bellary, Anantapur, North Arcot, Salem, Tanjore and Tinnevely require more rain, and some in parts of Cuddapah, Coimbatore, Trichinopoly are drooping or withering. There are no harvests in progress in Kistna, Guntur, Kurnool, South Canara, but they continue in parts elsewhere with poor to fair outturn. Pasture is insufficient except in parts of the Circars, Kurnool, North Arcot, the West Coast districts and the Nilgiris. Fodder is scanty except in parts of the Circars, Tinnevely, the West Coast districts and the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in nine districts; has fallen in one; and has very slightly risen in thirteen. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in five; and has slightly risen in eight. *Cholam* is stationary in three districts; has fallen in four; and has slightly risen in seven. *Cumbu* is stationary in six districts; has fallen in five; and has slightly risen in four. Numbers relieved on the last day of the week on the test work near Madavaram in the Chingleput district *nil*; number on relief in poor-houses, 449. The opening of test-works at Tiruvellore and Ponneri taluks in the same district has been ordered.

Bombay.—There was heavy rain during the week in parts of Savantwadi; good in parts of Ratnagiri, Kanara, Nasik and Belgaum; moderate in parts of Thana, Colaba and Dharwar; slight in parts of Surat, Khandesh, Poona, Satara and Bijapur; and very slight in parts of Gujarat, Ahmednagar, Sholapur, Baroda, Palanpur and Mahi Kantha. More rain is needed in parts of Gujarat, the Konkan, the Deccan, the Karnatak, Baroda, Mahi Kantha and Palanpur. Inundation in Sindh is generally satisfactory. Sowing of autumn crops is completed in Sukkur and Thar and Parkar, is nearly over in the Upper Sindh Frontier, Satara and Kathiawar; and continues in parts of Karachi, Hyderabad, Gujarat, Nasik, the Karnatak, Baroda, Mahi Kantha, Palanpur, Cutch and Savantwadi. Transplantation of rice is nearly completed in Colaba; continues in parts of Larkana, Ahmedabad, Kaira, Thana, Ratnagiri, Nasik, Poona and Kanara; but is retarded in parts of Surat and Thana. Autumn seedlings have been slightly damaged by crabs, rats or tortoises in parts of Karachi; by locusts in parts of Larkana; by duststorms in parts of Hyderabad; and are suffering from want of rain in parts of Ahmednagar, Poona, Sholapur, Satara, Belgaum and Dharwar. The fodder-supply is sufficient except in parts of Hyderabad, Satara, Belgaum and Dharwar. Agricultural stock is sufficient and in good condition except in parts of Satara. The water-supply is adequate except in parts of the Karnatak. Prices have risen in six districts; fallen in one district; and are stationary elsewhere. The numbers on relief during the week ending the 5th instant were as follows:—daily average on gratuitous relief—Kaira, 156; Belgaum, 776; total, 932. Relief works have been closed in Kaira.

Bengal.—Rain was general and plentiful, except in Orissa, and portions of Chota Nagpur, where the fall was scanty. The fall in Bihar was very heavy, and in some districts the standing crops have suffered. Harvesting of jute and early rice has commenced. Transplantation of winter rice still continues. The outturn of the sugarcane crop may be estimated at 93 per cent. The prospects of the crops are generally favourable. Fodder and water are plentiful. The price of common rice has risen in eight districts and fallen in two.

United Provinces.—The rainfall of the week, though general, was unequally distributed. Rain is very urgently needed in the districts of the Agra Division and in Jalaun and Jhansi, where the standing crops are withering and agricultural operations are suspended, except where artificial irrigation is available. In Jalaun there is most ground for anxiety; the remaining districts of Bundelkhand, Cawnpore, Unao and Budaun are also in urgent need of rain, and more rain is wanted for rice in Rohilkhand and in districts of the Meerut Division; elsewhere prospects are favourable and the standing crops are doing well. The condition of agricultural stock is good. Fodder is scarce in Agra, Jalaun, Jhansi and in parts of Etawah and Cawnpore. Markets are sufficiently stocked. Prices are high, but are on the whole stationary, though rising in a few districts.

Punjab.—Parts of Ambala, Jullundur, Amritsar and Rawalpindi districts received rain during the week. The price of wheat is rising in Hissar, Jullundur, Lahore, Amritsar and Lyallpur. Prices of other food-grains show a steady upward tendency. Sowings of autumn crops continue in Jullundur, Amritsar, Shahpur, Mianwali, Lyallpur and Multan. Ploughings for next spring crops have commenced in Jullundur and Shahpur. The crops on unirrigated lands generally throughout the Province need rain badly; irrigated crops are in fair condition. The condition of cattle is good. Fodder is sufficient except in Delhi and parts of Amritsar, Shahpur and Mianwali. There are no complaints regarding the water-supply.

North-West Frontier Province.—There were slight showers in all districts, except Dera Ismail Khan, where rain is badly wanted. The condition of the crops on irrigated lands are good in Peshawar and Bannu, but only fair in Dera Ismail Khan, while on unirrigated lands condition is average in Peshawar and Dera Ismail Khan and fair in Bannu. Fodder is sufficient. The condition of cattle is generally good except in the Daman tract of Dera Ismail Khan. Deaths of cattle reported last week from Bannu due to heat, while a few deaths from sunstroke are reported this week from the Marrat tract. The canal water-supply is sufficient. Prices are stationary. Prices—wheat, 15 to 21; gram, 18 to 27; maize, 19 to 29; and *bajra*, 17 to 18 seers per rupee.

Burma.—The rainfall of the week was mostly light in the dry zone tract, with none in Pakokku, Shwebo, Magwe and Kyaukse; and was generally sufficient elsewhere. More rain is much needed in Sagaing and Myingyan and also in Lower Chindwin and parts of Magwe and Shwebo. Transplanting for wet-weather paddy has commenced in four more districts and is now practically general and approaches completion in places. Reaping of dry-weather paddy has commenced in Pakokku and of early wet-weather paddy in Kyaukse. Reaping of early sesamum has commenced in the Myingyan township of Myingyan, and sowing of early sesamum and cotton is completed in Upper Chindwin. The prospects of the late wet-weather paddy harvest have slightly improved in Mandalay owing to recent rains. Cotton plants are withering in parts of the Sagaing and Ava subdivisions of Sagaing and sowing of *juar* has been delayed in Yamethin. Floods have also caused some damage to the crops in the Yindaw township. The condition of the standing crops is excellent in Lower Burma and fair in Upper Burma. The price of paddy has altered slightly at four centres; otherwise it is unchanged.

Central Provinces.—Rain fell in all districts, but the fall was too light to be of much service in Chhindwara, Raipur, Wardha, Ellichpur, Wun, Akola and Amraoti. Good rain fell in Damoh, Jubbulpore, Mandla, Hoshangabad, Nagpur, Chanda, Balaghat, Bilaspur and Sambalpur; in the remaining eight districts the fall, though useful, was light. The noteworthy effects of the short rainfall up to date are shortage of the rice area in Damoh and Jubbulpore; serious retardation of transplantation of rice in Chanda, Seoni and parts of Bhandara and Balaghat; deterioration of young plants on light soils in Saugor, Damoh, Chanda and parts of Basim and Buldana; appearance of caterpillars in rice and *kodon* crops in Jubbulpore and Chanda and of the *juar* (*sorghum*) borer in Akola and Buldana; shortage of fodder and water in several districts, notably in Saugor, where there has been mortality amongst decrepit stock on this account. More rain is required everywhere, the need being probably most urgent in Saugor, Damoh, Seoni and Chanda. Sowings, except of *til*, *jaghi* and late millets, are complete. Weeding is in progress and transplantation is in full swing in Bhandara and Balaghat and *biayi* (thinning operations) in Bilaspur and Sambalpur. Prices are steady, except in Chanda, where there is a sharp rise in the price of all staples and in Wardha and Akola which show a small rise.

Assam.—The weather is rainy. Rain fell in all districts during the week. The Brahmaputra is in very high flood, and floods are damaging crops in parts of Sylhet. Plucking and manufacture of tea continue, and prospects are good in Nowgong and fair elsewhere. Transplanting of late rice continues. Reaping of early rice is in progress, and prospects are good in Sylhet, Goalpara and the Garo Hills, poor in Kamrup and fair in other places. Cutting of jute is in progress. Prospects of cotton are good; of jute generally good; and of sugarcane fair. Fodder is insufficient in parts of Sylhet and Kamrup. Prices of common rice—Silchar, 15; Sylhet, 14½; Sibsagar, 14; Tezpur and Nowgong, 13; and Dhubri, Gauhati and Dibrugarh, 12 seers per rupee.

Mysore.—There was light general rain during the week. More rain is badly wanted. The prices of food-grains are steady. The crops are in fair condition except in the Kolar, Tumkur and Chitaldroog districts. The season prospects are uncertain. Cattle are generally healthy. Water and fodder are getting scarce in parts.

Coorg.—Rainfall—5 inches 9 cents. Transplanting of rice continues. Prices of food-grains are stationary. Water and fodder are sufficient.

Hyderabad.—Rainfall—60 cents. Autumn crops are reported to be withering in nineteen taluks and insects are doing harm to the crops in six more. Rain is urgently required in twenty-one taluks; elsewhere the standing autumn and early rice crops are in good condition, and weeding continues. Early rice sowings still continue in parts, and more lands are being got ready. Lands are under preparation for spring cultivation in

thirty-four taluks, and sowings have commenced in four. Fodder scarcity is increasing and is felt in thirty-two against twenty-six taluks in last week. Water scarcity is reported from fifteen taluks. Prices—*juar*, 19½; wheat, 12; and rice, 8½ seers per rupee.

Rajputana.—There was no rainfall during the week except in the hill tracts of Mewar, 3 cents; Partabgarh, 9; Shahpura, 24; Kotah in seven districts from 25 to 50 and in two districts, 14; Chaoi Jhalrapatan, 26; Alwar, 10; Karauli, 10; Dholpur, 16; and scattered showers in Sirohi. Rain has been generally very insufficient. Agricultural operations are absolutely suspended throughout Ajmer-Merwara and all States, except Mewar, Sirohi, Partabgarh, the hill tracts of Mewar, Jhalawar and Dholpur. Rain is also badly wanted for rice in the hill tracts of Mewar. The standing crops are good in Sirohi; surviving in Dholpur; fair in Partabgarh and Jhalawar; and are withering elsewhere. Maize has been attacked by insects in one district of Kotah. The condition of agricultural stock is fair to good. Emigration of cattle continues from Kishengarh and Ajmer. Fodder is scanty in Haraoti, Tonk, Kotah, Jhalawar, Jaipur, Alwar and in parts of Ajmer-Merwara. Pasturage is generally insufficient in Jaipur, Haraoti and Tonk, Shahpura and in Kotah and Jhalawar; elsewhere both pasturage and fodder are reported insufficient. Prices are rising in Merwara and in all States, except in Bikaner, Sirohi, the hill tracts of Mewar, Jhalawar, Jaipur, Karauli and Ajmer, where they are steady. The number of workers on test works in Merwara on the last day of the week was—5,959. The pinch of scarcity is beginning to be felt in Ajmer, and orders have been issued for opening test works.

Report subsequently received for Dungarpur and Banswara is as follows:—Dungarpur—rainfall 16 cents; agricultural operations in fair condition; standing crops and agricultural stock good; pasturage or fodder sufficient; prices wheat 13, gram 16½, maize 20 and barley 21 seers per rupee. Food-stocks sufficient. Banswara—rainfall nil, sowing completed and standing crops are in good condition, but rain is wanted, agricultural stock fair; pasturage or fodder sufficient; prices—wheat 11½ and maize 30 seers per rupee.

Central India.—The rainfall of the week was partial and insufficient in Gwalior and the outlying parganas of Indore, sufficient in the remainder of Indore and in Bhopawar; general and sufficient in Bhopal and Baghelkhand; insufficient in parts of Bundelkhand; sufficient in Jaora and Rutlam, but more rain is wanted in Sitamau and Sailana. Sowing is stopped for want of rain in parts of Gwalior and Bundelkhand. Weeding is in progress throughout the Agency. The standing crops are withering for want of rain in parts of Gwalior, Bundelkhand and in the outlying parganas of Indore and are fair or good elsewhere. Agricultural stock and pasturage are normal to good throughout except in parts of Gwalior, Indore and Malwa. Prices are rising in Bundelkhand, Malwa and in parts of Gwalior, are steady in Indore and Bhopawar; and continue high elsewhere. There was good rain over a large area in Bundelkhand on the 14th and a fairly general fall round Gwalior on the 11th.

Kashmir.—The weather is bright and extremely warm. Crops are withering for want of rain. Prices are almost stationary.

Jammu.—There was slight rain during the week. More rain is urgently required in the Kundi tract. Prices are fluctuating. Wheat sells from 14 to 25 and maize 21 to 40 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Autumn sowings are nearly over.

J. WILSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
MILITARY DEPARTMENT.

PENSIONS.

No. 2270-F.

Simla, the 8th August, 1905.

RESOLUTION.

Read—

Government of India Resolution No. 2773-F., dated the 6th October 1904.

In their Resolution above cited the Government of India promulgated a scheme for granting pensions or raising the rate of pensions already granted in the case of Mutiny Veterans, domiciled in India, who might be shewn to be in straitened circumstances.

The scope of the scheme was limited to relieving from indigence soldiers or Volunteers (European, Eurasian or Native) who were in possession of the Mutiny Medal and were not less than 65 years of age. In furtherance of the object in view, the Government of

* G. O. G. G. No. 115, March 17th, 1848.
The following classes were, subject to certain restrictions, eligible to receive the medal :—

Gun lascars.
Ordnance drivers.
Bhisties.
Ammunition camel drivers.
Artillery syces.
Staff syces.
Dooly bearers.
Tent lascars.
Store lascars.

India are now pleased to decide that the term "soldier" should be read as including a native follower of the army who under the rules* in force at the time was eligible for, and was actually awarded, the Mutiny Medal.

ORDER.—Ordered that a copy of the Resolution be forwarded, in continuation of Resolution No. 2773-F., dated the 6th October 1904, to the Foreign Department, the Home Department, the Finance Department, all Local Governments and Administrations, the Adjutant-General in India, all Lieutenant-Generals Commanding, all Controllers of Military Accounts, and the Accountant-General, Military Department, for information, and that the Resolution be published in the Supplement to the *Gazette of India*.

Separate pricing is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 24th August 1905.

N O T I F I C A T I O N S.

No. 3134 P.—APPLICATIONS in respect of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 19th August 1905:—

No. 382 of 1905.—Alfred Hale, locomotive foreman, Bengal-Nagpur Railway, care of H. V. Williams & Co., patent agents and engineers, 14 Hare street, Calcutta. *Improvements in ferrule extractors for boiler and condenser tubes and the like.*

No. 383 of 1905.—Harvey Ezra Brown, consulting engineer, of Beechcroft, London road, Norbury, in the county of Surrey, England. *Improvements relating to brake mechanism for railway and other vehicles.*

No. 384 of 1905.—Joseph Perrin, manufacturer, of Paris, France. *Improvements in and relating to drawing apparatus for textile fibres.*

No. 385 of 1905.—William Tice, engineer, of the firm of Messrs. Bird and Company, of 101/1 Clive street, Calcutta, British India. *Improvements in oriental latrine seats for the use of the natives of India.*

No. 386 of 1905.—Joseph David Anthony, sanitary inspector, Jubbulpore Municipality, Civil Lines, Jubbulpore. *A special smokeless fuel, to be called "Anthony's smokeless fuel."*

No. 387 of 1905.—Govind Karsan Ramji, potter, of Kalian, Thana District, in the Bombay Presidency. *An improved method of working kilns for burning bricks by means of a single chimney fixed in the centre of kiln.*

No. 388 of 1905.—Captain A. Gardiner, R.E., executive engineer, Indian State Railway, Lucknow. *A wireless system of train working by means of signals conveyed continuously to the drivers in their engine cabs.*

No. 389 of 1905.—Walter Henry Kemp, Major (late) Army Veterinary Department, Rockcliff, Mussoorie. *A Mussack and Pakkal for carrying water for domestic and other purposes.*

No. 3135 P.—SPECIFICATIONS of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M. at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 1 of 1905.—Arthur Boyd Price, partner in the firm of Messrs. Marsland, Price & Co., engineers and contractors, of Nesbit road, Mazagon, Bombay, British India. *Improvements in taps which may be used for water closets or as ordinary bib cocks and the like.* (Specification filed 15 August 1905.)

No. 3 of 1905.—The Champion Seal Company, a corporation duly organized and existing under the laws of the state of New York, and having a place of business at 310 Hudson street, in the city, county, and state of New York, United States of America. *Improvements in and relating to bottle sealing devices.* (Specification filed 15 August 1905.)

No. 4 of 1905.—Hallack Abbey Penrose, manufacturer, residing at 310 Hudson street, in the city, county and state of New York, United States of America. *A shipping package or case for storage and transportation of bottled liquids.* (Specification filed 15 August 1905.)

- No. 5 of 1905.—Edward Daniel Schmitt, contracting engineer, residing at 362 Union street, in the Borough of Brooklyn, city and state of New York, United States of America. *An improved bottle seal or stopper.* (Specification filed 15 August 1905.)
- No. 12 of 1905.—Paul Martyn Lincoln, electrical engineer, of 6830 Thomas street, Pittsburg, Pennsylvania, United States of America. *Improvements in systems of electrical distribution.* (Specification filed 17 August 1905.)
- No. 16 of 1905.—Frederick William Gordon, surgeon, of the city of Auckland, in the provincial district of Auckland and colony of New Zealand. *An improved wash hand basin.* (Specification filed 11 August 1905.)
- No. 31 of 1905.—Sir W. G. Armstrong, Whitworth and Company, Limited, manufacturing engineers, of Elswick Works, Newcastle-on-Tyne, England. *Improvements in appliances for shipping or transferring coal and the like.* (Specification filed 11 August 1905.)

No. 3136 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 280 of 1893.—George Batchelder. *Combined traffic and dump wagon.* (From 20 August 1905 to 20 August 1906.)
- No. 130 of 1896.—Harry Dain Hinks. *Improvements in tubular or hurricane lanterns.* (From 21 August 1905 to 21 August 1906.)
- No. 76 of 1897.—Friedrich Hermann Schule. *Improvements in and relating to the oscillating supports of shaking sieves.* (From 31 August 1905 to 31 August 1906.)
- No. 194 of 1898.—Samuel Cleland Davidson. *Improvements in apparatus for drying tea or tobacco leaves, coffee, fruits, cloths and other substances and for the baking of tobacco stems and other substances.* (From 25 August 1905 to 25 August 1906.)
- No. 9 of 1899.—Wynford Brierley. *Improvements in and connected with apparatus for signalling on railways.* (From 21 August 1905 to 21 August 1906.)
- No. 31 of 1899.—Charles Henry Stearn. *Improvements in the manufacture and production of a filamentary material and fabrics therefrom.* (From 30 August 1905 to 30 August 1906.)
- No. 32 of 1899.—Charles Henry Stearn. *Improvements in the manufacture and production of a material in film, sheet, or web form.* (From 30 August 1905 to 30 August 1906.)
- No. 89 of 1900.—Edward William Mackenzie Hughes. *Improvements in the manufacture of axle boxes.* (From 22 August 1905 to 22 August 1906.)
- No. 99 of 1900.—John William MacGillivray and Herbert Amos Hobson. *The production of a concentrated hopped wort.* (From 15 August 1905 to 15 August 1906.)
- No. 25 of 1901.—Shamboo Nath. *Shamboo gold testing balance.* (From 19 August 1905 to 19 August 1906.)
- No. 53 of 1901.—James Henry Apjohn. *A new or improved hydraulic weigh-bridge.* (From 20 September 1905 to 20 September 1906.)

No. 3137 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fee hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 332 of 1900.—Charles Stuart Bivar. *The instantaneous withering of leaf for the manufacture of tea whether green or black or for any other purpose for which such a system of withering may be suitable.* (Specification filed 13 May 1901.)
- No. 397 of 1900.—The British Westinghouse Electric and Manufacturing Company Limited. *Improvements in or relating to electric railways operated on the conduit system.* (Specification filed 18 May 1901.)

No. 418 of 1900.—Carl Jost. *An improved apparatus for pulling punkhas.* (Specification filed 13 May 1901.)

No. 425 of 1900.—Birger Ljungstrom. *Improvements in or connected with balanced rotary steam engines.* (Specification filed 18 May 1901.)

No. 428 of 1900.—Charles Daniel Horgan and John Hernan. *Improvements in car couplings.* (Specification filed 17 May 1901.)

No. 38 of 1901.—Augustine John Madden. *Improved automatically cleansing filter.* (Specification filed 18 May 1901.)

No. 45 of 1901.—William Walker and Joseph Thomas Freestone. *Improvements in metallic drums and cans for oil and similar substances.* (Specification filed 17 May 1901.)

No. 54 of 1901.—Ram Charan Karmakar. *An improved Indian hand plough.* (Specification filed 13 May 1901.)

No. 56 of 1901.—A. Simon & Co. *A new and improved arrangement for fastening leggings or gaiters.* (Specification filed 16 May 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of Rs 50 for each of the above inventions.

No. 460 of 1899.—Henry James Sydney Gilbert-Stringer and Frederick Wicks. *Improvements in justifying set types and apparatus for that purpose.* (Specification filed 15 May 1900.)

Fee in respect of the continuance of an exclusive privilege—

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification.

The sum of Rs 50 for the above inventions.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not " designs " within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d Postage extra To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions,
and Designs Act, V of 1888.

**OFFICE OF REVENUE AND FINANCIAL SECRETARY TO THE CHIEF
COMMISSIONER, NORTH-WEST FRONTIER PROVINCE.**

NOTIFICATION.

Dated Nathiagali, the 8th August 1905.

No. 166-H.—The following rules, which it is proposed to invite all Municipalities to adopt by bye-law, regarding the procedure to be followed in dealing with Municipal Accounts and Taxation, are published for general information :—

CHAPTER I.—GENERAL PRINCIPLES AND RULES.

GENERAL RULES.

1. (1) These rules may be called the Municipal Account Code.
- (2) In these rules, unless there is something repugnant in the subject or context,—
 - (a) "Government" means "Local Government";
 - (b) "committee" means "Municipal Committee";
 - (c) "the Act" means the Punjab Municipal Act, 1891;
 - (d) "the treasury" means a Government treasury or sub-treasury, or a bank to which the Government treasury business has been made over: and includes a banker, or person acting as a banker, with whom a municipal fund is deposited under section 74 (2) of the Act.
 - (e) "Treasury Officer" includes a banker, or person acting as a banker with whom a municipal fund is deposited under section 74 (2) of the Act;
 - (f) "head of the office" means—
 - (i) in the case of police and medical establishments under the committee, the District Superintendent of Police and Civil Surgeon, respectively;
 - (ii) when a Municipal Engineer is employed by the committee, that officer for the departments of which he is in charge;
 - (iii) in all other cases, the Secretary to the committee;
 - (g) "goods" includes animals;
 - (h) "security" includes cash, Government paper or other stock, and a bond hypothecating property;
 - (i) "last day of the month" and "end of the month" mean the last day or end of a calendar month and not the account month of the treasury;
 - (j) the following eight municipalities are of the first class:—Delhi, Simla, Dharmasala, Multan, Lahore, Amritsar, Dalhousie and Murree. All the rest are second class.
 - (k) "Importer" and "exporter" includes a firm or company.
- (3) Wherever in these rules the appointment of an inspector or muharrir for any specific duty is prescribed or implied, that duty may be imposed by the committee on any officer otherwise employed under it, who shall thereupon be deemed to be the inspector or muharrir referred to. The term may also include an inspecting officer.
- (4) The powers conferred by these rules on an inspector may be exercised by a member of the committee or by the Secretary and by any other officer authorized in this behalf; and in the case of octroi, also by the Octroi Superintendent or, in the case of any other tax, by the Tax Superintendent.
- (5) Wherever in these rules, with reference to the Municipal Office or Head Octroi Office, any act or proceeding is directed or allowed to be done or taken on a certain day, then if the office is closed on that day, the act or proceeding shall be considered as done or taken in due time if it is done or taken on the next day afterwards on which the office is open.
- (6) Wherever, in rules 141 to 187, a tax inspector is directed to submit periodical statements of any facts, he is not thereby relieved from the duty of reporting those facts as soon as they come to his knowledge.

RECEIPT AND CREDITING OF MONEY.

2. All money transactions to which any member, officer or servant of a committee in his official capacity is a party shall without any reservation be brought to account, and all the money received shall be lodged in full in the treasury, to be credited to the appropriate account.

3. Moneys pertaining to the municipal fund, with the exception of authorized advances, shall not be kept apart from the general balance at the credit of the municipality, but shall at once be credited to the appropriate head of account.

4. All sums paid into the treasury on account of the municipality, and all payments made on cheques, shall be entered in a pass-book, which shall be periodically sent to be written up at the treasury. At the close of each month, the entries on each side of the pass-book shall be totalled and a balance struck under the signature of the Treasury Officer. In no circumstances shall any entries be made in the pass-book except by the treasury clerk.

PAYMENT OF MONEY.

5. Subject to the provisions of the following rule, money shall not be paid from the municipal fund except on a cheque, signed by the President or Vice-President and one member of the committee.

6. Sums for amounts less than Rs 10 and refunds of octroi shall ordinarily be paid in cash from the permanent advances.

GENERAL INSTRUCTIONS.

7. The registers and forms prescribed in these rules provide for all classes of transactions usually occurring in municipalities. No addition to or modification of these forms, and no new form connected with the matters referred to in section 184 of the Act, shall be made by the committee of its own motion.

In the matter of details connected with accounts, the committee shall be guided by the instructions of the Accountant-General in the Local Audit Department.

8. Save as provided in rule 4—

(1) a person employed in the business of a treasury, or

(2) a banker or other person with whom the municipal fund is deposited,

shall not be requested or permitted to assist in any way in collecting municipal revenue or in posting the municipal books.

9. Figures in the accounts shall be in English characters, and in the case of receipts, in vernacular characters also; and accounts and registers shall, as far as possible, be maintained in English. Books of accounts and registers shall be substantially bound and paged before being brought into use.

10. Corrections and alterations in accounts shall be neatly made in red ink, and attested by the initials of the President, Vice-President, or Secretary; or in the case of purely octroi accounts, by the initials of the Octroi Superintendent. Alterations and corrections in a voucher shall be authenticated by the payee. Erasures shall on no account be permitted in registers, statements, cheques, vouchers or accounts of any description.

AUDIT OF ACCOUNTS.

11. The accounts of the committee shall be audited, as far as possible, once a year by, or under the orders of, the Accountant-General in the Local Audit Department.

12. To meet the cost of the audit of its accounts, the committee shall pay a fee calculated at the rate prescribed by Government.

13. The committee shall at the time of audit cause to be produced all accounts, registers, documents and subsidiary papers which may be required by the Audit Officers to assist them in their investigation.

14. After each audit of its accounts by the Local Audit staff, the committee shall deal promptly with the objection statement which is appended to the printed audit note. The President shall also, as soon as possible after the receipt of the note, convene a special meeting of the committee to consider the objections and suggestions made by the Examiner, and to decide upon the action to be taken in regard thereto. The action so taken shall be indicated on an interleaved copy, or on the margin, of the audit note; and this annotated copy shall be kept and produced for the information of Inspecting Officers at their next visit; a copy of the annotated note shall also be sent to the Examiner, Local Fund Accounts, for information.

EMBEZZLEMENT.

15. Whenever an embezzlement of municipal moneys is discovered, inquiry shall at once be instituted by the President, and the fact of the embezzlement shall be immediately reported by him direct to the Deputy Commissioner and the Accountant-General in the Local Audit Department, who shall, if necessary, investigate the matter. Intimation may also be sent, at the discretion of the Deputy Commissioner, to the Commissioner. When the matter has been fully enquired into, the Commissioner shall, if he deems it necessary, submit a complete report to the Government, showing the total sum of money

misappropriated, the method in which the embezzlement was effected, and the steps taken to recover the money and punish the offenders.

16. Whenever in any circumstances an irregularity likely to be connected with an embezzlement or the fraudulent loss of money or property is discovered, a report shall be immediately sent direct to the Accountant-General in the Local Audit Department and the Deputy Commissioner. It shall be at the discretion of the Deputy Commissioner in these cases to proceed further under rule 15.

CHAPTER II.—BUDGETS.

ORIGINAL BUDGETS.

17. The committee shall annually, on or before the 1st December, prepare in duplicate and submit to the Commissioner, with a brief memorandum explaining the budget figures, an estimate of income and expenditure for the twelve months commencing on the 1st April following; with the budget, a memorandum in duplicate shall be submitted showing—

- (1) The estimated opening balance.
- (2) The estimated total receipts.
- (3) The estimated total expenditure.
- (4) The estimated closing balance.

One copy of the memorandum shall be sent by the Commissioner to Government and the other to the Accountant-General.

18. The budget shall be drawn up in Form 1, and shall be considered and passed by the committee at a special meeting.

19. The budget shall be accompanied by a statement in Form 2 showing the original works which the committee proposes to execute during the year.

20. The committee's invested funds shall not be shown in the opening and closing balances; but a detail of such funds shall be given as a foot-note to the budget.

21. The Commissioner shall pass orders on the budget. If the municipality is one of class I or has taken a loan from the Government, he shall forward a copy of his orders to the Government.

22. When the budget has been passed by the Commissioner, the committee shall not incur any expenditure under any of the heads of the budget in excess of the amount passed under that head without making provision for such excess either by a transfer under proper sanction from some other head under which there are savings, or by re-casting the estimates and obtaining the Commissioner's sanction to a revised budget in supersession of the original budget. Where the transfer is between two minor heads of the same major head, the sanction of the Deputy Commissioner shall be obtained to the re-appropriation. If the transfer is between two major heads or between minor heads of two separate major heads, the Commissioner's sanction shall be obtained to the re-appropriation:

Provided that claims for refund of octroi must on no account be left unpaid merely by reason of the temporary exhaustion of the budget allotment under this head. Such claims shall be promptly met, by exceeding the budget provision if necessary. But in such case report must be made at once to the Commissioner, and his sanction to a transfer of funds obtained without delay.

23. When the budget has been passed by the Commissioner, the committee shall not employ the allotment for original works otherwise than as proposed in Form 2, without the previous sanction of the Commissioner.

REVISED BUDGETS.

24. If the committee has taken a loan from the Government or raised one in the open market, it shall submit a revised budget to the Commissioner after six months' accounts have been made up. In other cases Commissioners shall use their discretion in the matter of calling for revised budgets. The Government may from time to time call for revised budgets.

The Commissioner shall forward to the Government, with a copy of his orders thereon, the revised budget of an indebted municipality, unless the revised budget is substantially the same as the original budget. The Commissioner shall use his discretion in forwarding to Government a revised budget called for by himself under the preceding rule. It shall be forwarded, in the case of a municipality of class I, if the Commissioner's orders on it convey sanction to a total expenditure much in excess of that provided for in the original budget, or if the balance is likely, for any reason, to be reduced below the prescribed minimum.

25. A revised budget shall be submitted in Form 1 with the following modifications :—

- (i) Column 2 shall contain the actuals for the last financial year of which the accounts have been made up.
- (ii) Column 3 shall contain the original estimate for the current year in which the revised budget is prepared.
- (iii) Column 4 shall contain the actuals of the current year up to the end of the last month for which they may be complete.
- (iv) Column 5 shall contain the revised estimate.

CHAPTER III.—OCTROI.

CLASSIFICATION OF ARTICLES.

26. Subject to the exceptions contained in the proviso below, octroi shall ordinarily be levied on commodities included in the following list, *vis.* :—

Class I.—Articles of food or drink for men or animals ;

Class II.—Animals of a class usually slaughtered ;

Class III.—Articles used for lighting, for fuel, or for washing ;

Class IV.—Articles used in the construction of buildings ;

Class V.—Drugs, spices, gums, perfumery ;

Class VI.—Tobaccos, manufactured and unmanufactured ;

Class VII.—Piece-goods and other textile fabrics, and manufactured articles of clothing or dress ;

Class VIII.—Metals and articles made of metal ;

Provided that octroi shall not be levied on any of the following articles, *vis.* :—

- (1) Salt.
- (2) Opium.
- (3) Petroleum.
- (4) Exciseable liquor manufactured in India and drugs liable to excise duty.
- (5) Arms for whatever purposes imported.

27. The following articles, on which octroi would be otherwise leviable, shall be exempt from the payment of such octroi :—

- (1) Gold and silver when imported in the form of bullion.
- (2) Coin.
- * (3) Goods the property of which is vested in the Government, if accompanied, at the time they pass the octroi barrier, by a certificate from an officer (who should ordinarily be a gazetted officer) authorized in this behalf by the head of the importing department, to the effect that they are the property of the Government, and are not imported for the purpose of being sold

Explanation I.—The certificate shall be given on the reverse of a pass in Form 14 : see rule 69.

Explanation II.—Goods the property of which is not vested in the Government at the time they pass the octroi barrier, but which are imported with a view to the fulfilment of a Government contract, or otherwise intended for the use of the Government, shall, on passing the barrier, be declared in writing as intended for the use of the Government, *e.g.*, in fulfilment of a certain (specified) contract. The duty on them shall then be paid ; and subsequently, if they actually do become the property of the Government, the duty shall be refunded on a certificate to that effect ; provided that the certificate be signed by the departmental officer in charge ordinarily at the time the goods become the property of Government, and in any case within 30 days of that time ; and provided also that the application be made within 14 days of the date of that certificate and be supported by the original octroi receipt on which the duty was paid. This explanation also applies to stores imported into the octroi limits of any municipality by the East Indian Railway Company for the purposes of the undertaking.

Explanation III.—Government does not include a District Board.

- (4) Goods the property of which is vested in the municipal committee, if accompanied, at the time they pass the barrier, by a certificate from the Secretary that they are the property of the committee and are not imported for the purpose of being sold.

Explanation.—The certificate shall be given on the reverse of a pass in Form 14 : see rule 69.

- (5) Necessaries (not being articles of food or drink), equipments, and clothing procured by officers in command of troops for the use of their men and followers.
 - (6) Grain and green fodder imported by troops for consumption by horses, mules, and other animals maintained as part of their military equipage: provided that it is certified by the Commanding Officer to be imported for *bona fide* public purposes.
 - (7) Articles imported for manufacturing purposes into a jail situated within octroi limits, provided that the goods into which they are manufactured are used in the jail itself or supplied to other departments of the Government.
- But manufactures sold by a jail to the public are liable to octroi. At the close of the month the committee shall demand from the Superintendent of the jail a statement showing the amount of dutiable materials used in the articles sold to the public during the month, and the Superintendent shall pay the octroi leviable thereon.
- (8) *Gúz* and *shira* used for the manufacture of country liquor in distilleries;
- Explanation.*—If these articles are on the octroi schedule, octroi shall be levied on them at their entrance into the octroi limits. But refund shall be granted on the quantity actually used within distillery, the amount due being paid to the distillers on the authority of monthly statements furnished by the Excise Officer.
- (9) *Bona fide* personal and household effects imported by a person on the occasion of his coming to take up his residence in the municipality or by a traveller.
 - (10) Machinery liable to customs duty and the component parts thereof.
 - (11) Headloads of cow-dung, fuel, grass, and brushwood.
 - (12) Goods on which the octroi amounts to less than one pie.

Goods imported under classes (3) (if they are the property of Government at the time of import), (4) (5), (6) and (7) shall be brought within the octroi limits of the municipality on a pass in Form 14 signed by the officer in charge, who should ordinarily be of gazetted standing, and the procedure laid down in rule 69 shall be observed.

28. The goods on which, and the rates at which octroi has been imposed by the committee shall be entered in a schedule; and the committee shall collect octroi only on such goods or at any rates as are so entered.

ASSESSMENT AND COLLECTION.

29. Goods imported into the octroi limits of the municipality which are liable to the payment of octroi shall be dealt with in one of the following ways:—

- (a) the goods may be assessed at the barriers;
- (b) they may be taken to the Head Octroi Office and assessed there;
- (c) they may be assessed under the rules laid down for goods imported by railway; or
- (d) the octroi may be compounded for.

30. In a municipality where it is necessary in the interests of trade, by reason of the distance between the Head Octroi Office and the outposts or railway barriers, the committee may, with the previous sanction of the Commissioner, establish a Branch Octroi Office. This office shall be placed in the direct charge of an Assistant Octroi Superintendent, but the Octroi Superintendent shall remain responsible for the efficiency of its working.

When such a Branch Octroi Office has been established, the procedure in rules 30 to 59 and 73 to 92 so far as it relates to the Head Octroi Office, shall (except where the contrary is stated) apply also to the Branch Octroi Office; and the functions imposed on the Octroi Superintendent in the same rules shall (except where the contrary is stated) be exercised also by the Assistant Octroi Superintendent.

BARRIERS.

31. Octroi barriers shall be placed at such points on, or in the immediate vicinity of, the octroi limits as shall from time to time be determined as being the most suitable for intercepting the import traffic. Besides these outpost barriers, there shall also, if necessary, be such other barriers as are prescribed in these rules, and octroi on animals for slaughter may under a resolution of the committee be collected at the slaughter-house instead of at the outpost barriers. In this case the following rules for the collection and assessment of octroi shall, *mutatis mutandis*, apply.

32. A copy in English, and vernacular, both of the octroi schedule and of the prices current for the month shall be posted in a conspicuous place at each barrier.

33. Each barrier shall be under the charge of a staff of muharrirs and peons, according to a standard sanctioned by the committee. Besides any other duties prescribed by the committee, it shall be the duty of the staff to see that all goods liable to octroi are stopped at the barrier, and to assess and collect the octroi on such goods or to deal with them otherwise as prescribed in these rules.

34. The committee shall appoint inspectors or other responsible officer or officers to supervise the working of the barriers. Besides any other duty prescribed by the committee or under these rules, these inspecting officers shall see that the general working of the staff at the barriers is in accordance with rules laid down for their observance.

35. It shall be the duty of the members of the committee to periodically visit the barriers, and inspect and check the muharrir's accounts.

At each barrier an inspection book shall be kept up in Form 3. Members, inspectors, or other officers inspecting the barrier shall note the results of their inspection in this book, making their notes as full and detailed as possible.

36. (1) The committee shall provide a suitable set of scales and weights at each barrier. These shall be kept in proper working order by the muharrir, and tested once every quarter by such member or officer as the committee may direct.

(2) All maundage rates shall be levied according to the Government maund of 40 seers, the seer being of 80 tolas.

ASSESSMENT AND COLLECTION AT OUTPOST BARRIERS.

37. On the import of goods liable to octroi, the muharrir in charge of the outpost barrier shall call upon the importer to declare whether they are intended—

- (1) for consumption or use within the octroi limits of the municipality; or
- (2) for immediate export; or
- (3) for temporary detention within the octroi limits, and eventual export.

38. If the goods are declared to be imported for consumption or use within the octroi limits of the municipality, the muharrir shall assess the octroi as prescribed in the schedule.

39. (1) Articles on which octroi is leviable *ad valorem* shall be assessed according to their market value in the town of import if that value can be ascertained from the prices current for the month. If the article is not entered in the price current, and the value is less than Rs. 8, the muharrir shall calculate its market value on the information at his disposal and with due regard to the value declared by the importer.

(2) If the market value of the consignment cannot be ascertained from the price current and is not less than Rs. 8, the articles shall be sent on by the muharrir to the Head Octroi Office, where the Octroi Superintendent, or the member in charge of octroi, shall make the assessment after such inquiry as he may think necessary, including an examination of the invoice if produced.

(3) But an importer of goods which have come into India by sea or of such articles included in classes IV, V, VII, and VIII of rule 26 as the committee may, by resolution, prescribe in this behalf, may claim an assessment according to the invoice value of his goods. In this case, the articles shall be sent to the Head Octroi Office, where the importer shall produce his invoice (*bisfak*). The Octroi Superintendent, or the member in charge of octroi, shall examine the invoice and assess on it if there is no good reason to the contrary. The invoice shall then be stamped with a municipal stamp, and returned to the importer.

(4) If the importer be dissatisfied with an assessment under this rule, he shall pay the octroi assessed, but may appeal to the committee, provided he lodges his appeal within seven days from the date of payment.

40. If the importer dispute the assessment or calculations of the barrier muharrir, the muharrir shall send the goods on to the Head Octroi Office with a brief report (of which he shall keep a copy in a memorandum book) for the decision of the Octroi Superintendent.

If the importer be dissatisfied with the decision, he shall pay the octroi, but may appeal to the committee, provided he lodges his appeal within seven days from the date of payment.

41. The committee shall fix a limit up to which an outpost barrier muharrir may collect octroi on a single consignment, and above which the octroi shall be collected at the central barrier. This limit shall not be less than Rs. 5 in the case of a municipality of class I and Rs. 2 in the case of a municipality of the second class.

42. If the octroi exceeds this limit, the muharrir shall be guided by the provisions in rule 51 (1).

43. If the octroi does not exceed the limit prescribed under rule 41, the muharrir shall fill up a receipt, with its counterfoil, in Form 4. The importer shall then, on the

demand of the muharrir, pay the octroi, which immediately on receipt, the muharrir shall drop into the cash-box, handing the receipt, with the coupon attached, to the importer. The progressive totals of the octroi received shall be kept in each page in the place provided at the foot, as the pages are completed. The totals shall be taken at once, and not put off till the end of the day. At the end of the day, the progressive total of the money received for the day shall be taken up to the last counterfoil used, and shall be entered thereon.

The inspector visiting a barrier shall see that these totals are taken regularly as directed in this rule, and shall initial the pages which he checks.

44. Under a special resolution of the committee, face-value tickets may be issued in Form 5 for headloads of *dhūsa*, fruit and vegetables in place of the ordinary octroi receipts prescribed in the preceding rule. The tickets shall be on coloured paper, and the value shall be 1 pie, 1½ pies, 2 pies, 3 pies, 6 pies and one anna.

45. (i) An inspector meeting an importer is authorized to demand his octroi receipt, and verify the entries therein by inspection of the goods. An importer who is called upon for his receipt under this rule shall produce it, and permit the inspector to inspect his goods.

(ii) If after checking the calculations of the octroi, the inspector finds that all the items in the receipt are correct, he shall fill up the columns in the coupon, which he shall tear from the receipt and keep for comparison with the counterfoil at the barrier. He shall then endorse his name on the back of the receipt and return it to the importer.

(iii) If the inspector finds reason to believe that the full amount of octroi has not been paid on the goods, he is authorized to take the importer to the Head Octroi Office, where he shall immediately report the facts of the case. The importer shall accompany the inspector to the Head Octroi Office when called upon to do so under this rule.

(iv) When the inspector arrives at the barrier, he shall verify the coupons he has collected with the counterfoils, and initial each counterfoil in token of his having made the check. He shall then drop the coupons in the cash-box, for the information of the Head Octroi Office when the cash-boxes are sent in.

(v) The inspector's check here prescribed is applicable to Forms 4 and 5.

Explanation.—The words "Head Octroi Office" in this rule do not include a Branch Octroi Office, where such is established: *vide* rule 30.

46. The name of municipality shall be printed or stamped on the receipt and counterfoil in Forms 4 and 5, and a consecutive book and form number shall be printed on each receipt and counterfoil, thus:—

Bk. No. 40.
1249

Bk. No. A.
1340

47. At the close of the working day the muharrir shall classify the octroi he has received in *Jinswār* to be compiled in Form 6.

In the *Jinswār* (Form 6) the classification of octroi to be followed is printed at the top of the columns. The muharrir shall enter the items from his counterfoils for the day one after the other, quoting the serial number of the receipt in column 1, and entering the quantity, number or weight of the goods and the amount of the octroi in the appropriate columns. After classifying the items from Form 4 the muharrir shall enter the number of face-value tickets (Form 5) if any issued during the day, showing separately the numbers (No. to No.) of each class of tickets issued. The columns shall then be totalled.

48. To prevent delay, and to ensure that all moneys, as received by the muharrir, are immediately placed under lock and key, the committee shall provide a double set of books and two cash-boxes at each barrier, so that while one set is at the Head Octroi Office (*vide* rule 61), the other shall be available for use. The *Jinswār* shall be on loose forms.

This rule shall apply to all barriers.

Explanation.—The words "Head Octroi Office" in this rule do not include a Branch Octroi Office, where such is established: *vide* rule 30.

CENTRAL BARRIER.

49. The Central Barrier shall be at the Head Octroi Office, and shall be used for the collection of octroi when—

(1) the assessment has been made by the Octroi Superintendent or a member of the committee—

(a) under rule 39 (2), or

(b) in settlement of a dispute under rule 40;

(2) the octroi exceeds the limits fixed under rule 41.

50. In cases coming under clause (1) of the preceding rule, the methods of collection and account shall be in accordance with the procedure prescribed in rules 37 to 48 for outpost barriers.

51. In cases coming under clause (2) of rule 49, the procedure shall be as follows:—

(1) *At the outpost barrier, where the goods are imported.*—The muharrir shall assess the goods, and fill up and initial the receipt and counterfoil in Form 4, except column 8 in the counterfoil, and column 6 in the foil, in which he shall write the words "to be paid at the central barrier." The forms for this purpose shall be kept in a separate book, and may, if necessary, be on differently coloured paper from the ordinary forms. The receipt with coupon attached, shall be handed to the importer, who shall take it to the central barrier, and pay the octroi within the time (not to exceed sixteen hours) prescribed by the committee for this purpose. These transactions shall not be shown in the *Finswars* of the outpost barriers.

(2) *At the central barrier.*—The importer on arrival shall hand over the receipt to the muharrir, who shall calculate and receive the octroi, and enter the amount paid in both receipt and coupon, striking out under his own signature the entry made at the outpost barrier in column 6 of the receipt. He shall then enter and classify the octroi in his *Finswár*, sign both receipt and coupon, and hand the receipt to the importer; but he shall keep the coupon in his cash-box. The coupon shall subsequently be pasted at the Head Octroi Office on to its appropriate counterfoil in the outpost barrier book when that is submitted. The central barrier muharrir shall total his *Finswár* (Form 6) in the same way as is done at other barriers and send it with his cash-box to the Octroi Superintendent at the Head Octroi Office at the same time as the daily accounts are received from other barriers.

(3) *Duties of inspector.*—An inspector meeting an importer with his goods covered by one of the receipts provided for in this rule, is authorized to demand his octroi receipt and verify the entries therein by inspection of the goods.

An importer who is called upon for his receipt under this rule shall produce it and permit the inspector to inspect his goods. If he finds the receipt correct, the inspector shall endorse his name on the back of the receipt, which he shall return with the coupon to the importer. He shall not retain the coupon for comparison at the barrier in these cases, as it will be checked at the Head Octroi Office and kept there under clause 2.

If the inspector finds that the goods have not been adequately assessed, he is authorized to take the importer and his goods to the Head Octroi Office, where he shall immediately report the facts of the case. The importer shall accompany the inspector to the Head Octroi Office when called upon to do so under this rule.

Explanation.—The words "Head Octroi Office" in clauses (2) and (3) of this rule do not include a Branch Octroi Office, where such is established (*vide* rule 30); and the words "Octroi Superintendent" in clause (2) do not include Assistant Octroi Superintendent.

GOODS IMPORTED BY RAILWAY.

52. There shall be a barrier (or barriers) near the railway premises.

When there is a railway agency within the octroi limits of a municipality, this agency shall be deemed to be railway premises for the purposes of these rules.

Explanation.—Goods brought into a railway agency office from outside the octroi limits of a municipality by road shall be passed from the barrier to the agency office under the Transit Pass System (rules 93 to 98) and treated, in all other respects, as if they had been brought into the agency by rail.

53. (1) When imported by railway, fresh fruit, *pán*, and vegetables, and goods on which the octroi does not exceed Rs. 2, shall be dealt with at the railway barrier in accordance with the rules laid down for observance at outpost barriers, and the registration of the railway receipts shall not be required.

(2) In the case of large municipalities where an adequately paid staff is employed at the railway barrier, goods other than those specified in the preceding clause may, with the previous sanction of the Commissioner, be dealt with in accordance with the rules laid down for observance at an outpost barrier, but the registration of the railway receipt and invoice or declaration shall in such cases be made at the barrier and checked in a manner similar to that prescribed for the Head Octroi Office (rules 54 and 55).

(3) Goods other than those specified in the two preceding clauses shall be assessed at the Head Octroi Office in accordance with the following rules.

54. When an importer receives the railway receipt of goods consigned to him by railway, he shall take or send it with the invoice, or in the absence of the latter, with a written declaration of the details of the consignment, to the Head Octroi Office, where, if the goods are found to be liable to the payment of octroi, the receipt and the invoice or declaration shall be abstracted into a Railway Receipt and Invoice Register, to be kept up in Form 7. The date shall be written across the page of the register before each day's entries are begun. The railway receipt and the invoice shall be stamped with a

municipal stamp, and returned to the importer, to enable him to obtain his goods from the railway. The declaration shall be stamped and filed.

55. The Railway Receipt and Invoice Register shall be examined and checked periodically by one of the members of the committee who shall at the same time compare some of the declarations with it.

56. The registration of the consignment having been completed as laid down in rule 54, the Octroi Superintendent shall determine the octroi leviable and note it on a memorandum which he shall send to the central barrier. The importer shall pay the octroi at the central barrier, the muharrir checking the calculations of the memorandum. On receipt of the octroi, the muharrir shall grant a pass to the importer in, Form 8, leaving the coupon and the third foil blank.

The *Finswār* shall be prepared in the usual manner, and sent with the counterfoils to the Head Octroi Office with the cash-box.

Explanation.—The words "Head Octroi Office" in this rule do not include a Branch Octroi Office, where such is established: *vide* rule 30.

57. On the arrival of the goods at the railway barrier, the importer shall present the pass obtained under the previous rule, and the muharrir shall, after satisfying himself that the goods agree with the details entered in the pass, fill up the third foil of the pass, tear it off and retain it to be sent to the Head Octroi Office at the end of the day. He shall hand back the second foil, with the blank coupon attached, to the importer.

58. If a consignment which should have been registered at the Head Octroi Office arrives at the railway barrier without a pass in Form 8, the muharrir shall send the importer with his goods, accompanied by a peon and a memorandum (of which he shall keep a copy), to the Head Octroi Office. The Octroi Superintendent shall deal with the case as if it were a dispute under rule 40.

59. When the third foils are received at the Head Octroi Office under rule 57, they shall be checked with their respective counterfoils and pasted on to them. In the event of a third foil not being received at the office within a reasonable time, investigation shall be made by the Octroi Superintendent, and the importer, if necessary, required to produce his railway receipt to show that his goods have not arrived.

Explanation.—The words "Octroi Superintendent" in this rule do not include an Assistant Octroi Superintendent: *vide* rule 30.

60. An inspector meeting a consignment which has passed the railway barrier is authorized to demand the importer's pass, and verify the entries therein by inspection of the consignment. An importer who is called upon for his pass under this rule shall produce it and permit the inspector to inspect his goods. The inspector shall see that the third foil has been torn off and if he finds the pass correct, he shall fill up the columns in the coupon, which he will tear from the foil and keep for comparison with the third foil at the barrier. He shall then endorse his name on the back of the pass and return it to the importer. If the inspector has reason to believe that the full amount of octroi has not been paid on the goods, he is authorized to take the importer to the Head Octroi Office, where he shall immediately report the facts of the case. The importer shall accompany the inspector to the Head Octroi Office when called upon to do so under this rule.

When the inspector arrives at the barrier, he shall verify the coupons he has collected with the foils at the barrier, and initial each foil in token of his having made the check. He shall then drop the coupons in the cash-box, for the information of the Head Octroi Office when the cash-boxes are sent in.

Explanation.—The words "Head Octroi Office" do not include a Branch Octroi Office, where such is established: *vide* rule 30.

REMITTANCE OF COLLECTIONS AT HEAD OFFICE. •

61. The muharrir of each barrier shall send daily to the Head Octroi Office, at an hour to be fixed by the committee, his cash-box, books of receipts and counterfoils, transit passes and *Finswārs*.

62. The cash-boxes shall be opened at the Head Octroi Office by the Secretary; but if the committee by resolution so direct this duty may be performed by the Octroi Superintendent or, where there is a municipal treasurer, by that officer in presence of the Octroi Superintendent. The committee should ordinarily depute a member, other than the Secretary, to supervise this proceeding in the latter cases.

63. (i) After the money in each cash-box has been counted, the amount shall be endorsed by the receiving officer at the foot of the last counterfoil of the day for the barrier concerned, as well as on the barrier *Finswār*. The aggregate contents of all the cash-boxes shall then be brought to account as prescribed in rule 64.

(ii) When the money in a cash-box has been counted, the counterfoils from the barrier concerned shall be examined by the Octroi Superintendent. He shall check at least two per cent. of them in detail, and see that progressive totals in the books are

correct. If the total for the day agrees with the total endorsed on the counterfoil and *Jinswár* under clause (i) of this rule, the last counterfoil on which the total for the day has been entered shall be signed by the Octroi Superintendent and by the member deputed under rule 62.

(iii) The coupons found in the boxes from the outpost barriers shall be examined as a check on the work of the inspectors, and then kept for such time as the committee may determine. The coupons received from the central barrier shall be compared with and pasted on to their respective counterfoils. If any coupon due from the central barrier is not found in the cash-box in which, with reference to rule 51, it should have come, the Octroi Superintendent or Secretary shall make immediate inquiries.

(iv) The books shall be returned with the empty box to the barrier without delay. The *Jinswárs* shall be retained at the Head Octroi Office.

64. The cash shall be brought to account as follows :—

(i) If the Secretary, himself or through the municipal treasurer, receives the collections, he shall bring them to account direct in his General Cash-Book (Form 67) and remit them to the treasury in the usual way.

NOTE.—See rule 304.

(ii) If the Octroi Superintendent receives the collections and if the Head Octroi Office is in the same building as the office of the Secretary, the procedure shall be similar to that laid down in clause (i) of this rule. If the Octroi Superintendent receives the collections and if the Head Octroi Office is at a distance from the office of the Secretary, he shall enter them, under the appropriate head, in columns 1 to 4 of the cash-book to be kept up by him in Form 9. In column 5 he shall show the amounts remitted to the treasury or Municipal Office, as the practice may be. The book shall be closed daily and the money remitted with a *chálán* in Form 10 or 11, as the case may be.

(iii) If the Octroi Superintendent remits the money direct to the treasury, one of the foils of the *chálán* (Form 10) returned from the treasury shall be filed by him in a guard file as his receipt and the other shall be sent to the Secretary, with a statement in Form 12, as laid down in the next rule. On receipt of the *chálán* the Secretary shall enter the amount shown therein in his General Cash-Book (Form 67).

(iv) If the Octroi Superintendent remits the money to the Municipal Office, he shall send it with a *chálán* in Form 11; and the Secretary shall receive it and bring it to account in his General Cash-Book (Form 67). One foil of the *chálán* shall be returned to the Octroi Superintendent as a receipt, and the other kept by the Secretary as a voucher for his entry in the General Cash-Book.

(v) If the Octroi Superintendent receives the collections under the latter part of clause (ii) above, the Secretary shall check his cash-book (Form 9) once a month, and sign it in token of his having done so.

65. The basis of classification of octroi at the Head Octroi Office is the *Jinswárs* received from the barriers. These shall be compiled into one statement in Form 12, the name of the barriers being entered in the first column and the total of the *Jinswárs* appertaining to each barrier being entered in the other columns opposite the name of that barrier. The total amount of octroi under all heads for the day shall be entered in the last column. The total and cross total of the vertical columns each day will then give the whole amount of octroi collected for the day. The statement shall be signed daily by the Octroi Superintendent. It shall be sent to the Secretary, who shall compare its total with the amount entered in his General Cash-Book (Form 67) under rule 64.

To obtain the classified totals for the monthly accounts the progressive totals shall be taken at the Head Octroi Office in Form 12. Similar procedure shall be adopted for the annual statement (Form 75).

66. The *Jinswárs* (Form 6) received from barriers shall be kept in a guard file in the Head Octroi Office. The Head Octroi Office *Jinswár* (Form 12) shall be filed in the Municipal Office.

COMPOSITION FOR OCTROI.

67. With the previous sanction of the Commissioner a committee which is either of the first class, or is situated at the head-quarters of a district, may, by resolution passed at a meeting, permit private residents or traders to compound for octroi and the Commissioner may prescribe as a condition of his sanction that each composition shall receive the previous approval of the Deputy Commissioner. Such a resolution, however, shall only be passed in favour of well-known persons or traders who, in the opinion of the committee, may be trusted not to abuse the concession, and it shall state specifically the persons or traders in respect of whom permission to compound for the tax is granted. The period for which permission to compound is granted shall not, except for special reasons and with the sanction of Government, exceed one year.

The committee may at any time by a similar resolution, for reasonable cause, withdraw the permission to compound, after due notice has been given to the persons or traders affected thereby.

68. The committee shall maintain a list, in Form 13, of all persons, whether traders or individuals, allowed to compound for the payment of octroi. A second part of the list shall be kept for persons who are permitted to compound on the basis of their net imports. This list shall be kept corrected up to date; and a copy of the list, signed by the Secretary, shall be kept in bilingual form at each barrier.

69. (i) To persons who compound for octroi, books of free passes in counterfoil shall be given in Form 14. When such a person wishes to bring his goods within the octroi limits of the municipality, he shall fill up a pass and send it to the barrier.

(ii) On receipt of the pass the barrier muharrir shall see that the person who has signed it is named on his list; and if so, he shall, after satisfying himself that the goods agree with the details entered in the pass, fill up the certificate at the foot thereof as well as the coupon. He shall then tear off the coupon, deliver it to the person who presents the pass, and admit the goods named in the pass.

(iii) He shall send the passes with his cash-box to the Head Octroi Office, where they shall be examined to see that the certificate covers the details of the pass; and they shall then be filed separately under the name of each compounder. These passes shall form the basis of composition when the terms are next revised by the committee.

70. (i) To persons who are permitted to compound on the basis of their net imports, a book of export passes shall be given in Form 15. When such a person wishes to export his goods from the octroi limits of the municipality, he shall fill up a pass and send it with his goods to the barrier of export.

(ii) On receipt of the pass the barrier muharrir shall see that the person who has signed it is named on the second part of his list; and if so, he shall, after satisfying himself that the goods exported agree with the details entered in the pass, fill up the certificate at the foot thereof as well as the coupon. He shall then tear off the coupon and deliver it to the person who presents the pass.

(iii) He shall send the passes with his cash-box to the Head Octroi Office, where they shall be examined to see that the certificate covers the details of the pass, and shall then be filed separately under the name of each compounder.

71. In the cases provided for in rule 70, the composition shall be based on the total amount of the imports as shown by the import passes (Form 14) prescribed in rule 69 less the total amount of exports as shown by the passes in Form 15 prescribed in rule 70. Exports not supported by a pass in Form 15 shall not be taken into account in fixing the composition.

72. Payments by persons who compound shall be made strictly in advance; and at the expiry of his period of composition, the name of the person compounding shall be immediately struck off the list (Form 13) unless the payment for the following period has been previously made.

REFUND OF OCTROI.

73. A person who exports, from the octroi limits of a municipality any goods on which if they were being imported, octroi would be leviable shall be entitled to receive payment of a sum equivalent to that octroi. This payment shall be described as a refund.

Provided that—

(a) in a municipality where octroi is newly imposed, refunds shall not be given for such period after the imposition of the tax as the Government may prescribe;

(b) no refund of less than eight annas shall be given;

(c) the refund on exported goods which have been manufactured within the octroi limits from imported raw material liable to pay octroi shall not exceed the octroi payable on the raw material.

74. No proof whatever of the previous payment of octroi shall be demanded. The fact that the goods are within the octroi limits and that octroi would be leviable on them if they were being imported, shall be accepted as sufficient proof that a refund is admissible.

75. Claims for refunds shall be promptly dealt with, and when a claim has been admitted, the payment of the refunds shall be made on demand, even at the risk of exceeding the budget allotment.

76. The committee shall have notices printed and kept at the Head Octroi Office for free distribution, showing the manner of obtaining refunds.

77. Such officer or members as the committee may appoint in this behalf shall have charge of the payment of refunds. For this purpose he shall attend the Head Octroi Office daily at such hours as the committee may prescribe.

78. A permanent advance for the payment of refunds shall be allowed to the officer or member appointed under the last rule. The committee shall determine the amount of this advance, which shall ordinarily be equivalent to the average monthly amount paid as refunds.

79. In order to obtain payment of a refund, the exporter shall get an application free of charge in Form 16 from the Head Octroi Office. He shall fill up columns 1 to 10 of the application, signing and dating the same, and shall then present it at the Head Octroi Office. No application for a refund shall be received unless it is made by the exporter himself or his representative authorized in writing in this behalf.

A separate application shall be made by each exporter for his own goods and refunds shall not be paid to more than one exporter on a single application, nor shall consignments be lumped together to bring the amount of the refund above the limit of eight annas laid down in rule 73 (b).

Explanation.—One application shall be sufficient for a single consignment whether it contains one or more descriptions of goods. If the consignment contains goods of different descriptions they shall be separately detailed on the application. The exporter, however, will not be entitled to a refund on any single description of goods on which the octroi would be less than eight annas.

80. On receiving an application under the preceding rule, the verifying officer appointed by the committee in this behalf, after satisfying himself that the goods agree with the details in the application, shall calculate the refund to be paid. After filling up columns 11 to 15 he shall sign the certificate at the foot of his portion of the application, being careful to insert the exact hour and date of examination in the place provided.

The verifying officer shall be a member or responsible officer of the committee, and not a muharrir or clerk.

81. The refund clerk shall then enter the application, in columns 1 to 5 of the Refund Ledger (Form 17), note the serial number in the places provided at the top of the application and of the coupon, and hand the form to the exporter, who shall take it with his goods to the barrier for export.

82. The application, with the goods to which it relates, shall be presented at the export barrier within such interval from the hour of examination as the committee may prescribe. This interval shall be fixed with regard, among other things, to the distance of the outposts from the Head Octroi Office, but shall in no case exceed twelve hours.

83. The muharrir at the barrier of export shall see that the goods actually exported agree with those mentioned in the application, and that they are presented for export within the time limit fixed by the committee under the preceding rule. If satisfied on both points, he shall fill up and sign the certificate on the reverse of the application, as well as on the coupon. He shall then tear off the coupon and give the application back to the exporter. He shall send the coupons received during the day to the Head Octroi Office daily.

84. If the goods are not presented at the barrier for export within the time limit, the muharrir shall refuse to give the certificate. The importer, however, may in such case get the goods re-verified by the verifying officer, who shall enter the hour of his second examination in his endorsement in red ink. No fresh application shall be required; and if the re-verified goods are presented at the barrier with the application within the time limit allowed after the re-verification of the goods, the procedure laid down in rule 83 shall be followed.

85. The exporter or person authorized on the application to receive payment shall present the application at the Head Octroi Office, where it shall be checked by the refund clerk with the original entry in the Refund Ledger, and the report on the reverse of the form shall be filled up and signed by him. The Officer or member in charge of refunds shall then pass the order for payment and make the refund to the payee, whose acknowledgment of the money shall be taken in the space provided. The application shall then be stamped "paid," and each payment shall be entered in the order in which it occurs, into columns 7 to 10 of the Refund Ledger. The date of payment shall at the same time be entered in column 6 of the Ledger against the original entry. When the full amount claimed is not paid, the amount short paid shall be entered in red ink in column 9 immediately below the name of the payee, with a note of the cause of its non-payment.

86. (1) On the arrival from the barrier of the coupons which have been filled up, as laid down in rule 83, the following check shall be applied:—

(a) If the claim has been paid, the details of the coupon shall be verified with the application and the coupon pasted to it. If the details do not agree, investigation shall at once be made.

(b) If the claim has not been paid, the coupon shall be kept until the application is presented, when it shall be dealt with under clause (a) above.

(2) If in any case a claim has been paid and the coupon relating thereto is not received from the barrier when the cash-boxes next arrive, special investigation shall at once be made.

87. If an application for refund is not presented for payment within one month after the close of the month of registration of the application in the Refund Ledger, the claim shall be considered to have lapsed.

88. The Refund Ledger shall be closed at the end of every month and signed by the Octroi Superintendent and the member in charge of refunds.

89. The method of closing is as follows :—

(i) Columns 4 and 10 shall be totalled.

(ii) The items which have lapsed (rule 87) during the month and have not already been written off, shall be marked L in column 6, and totalled on a separate piece of paper. The aggregate shall then be entered under the total on the payment side in column 10 in the same manner as if it were a payment.

(iii) The aggregate of the short payments noted in column 9 shall be entered below the lapses on the payment side in column 10 in the same manner as if it were a payment.

(iv) The balance shall then be struck by deducting the total of column 10 (including the aggregate lapses and short payments) from the total of column 4.

(v) This balance will be the opening balance for the next month.

Explanation.—The words "Octroi Superintendent" in this rule do not include an Assistant Octroi Superintendent; *vide* rule 30.

90. When the ledger is thus closed, or at such intermediate periods as may be necessary, the permanent advance shall be recouped on a bill in Form 64, supported by all the applications in hand which have been paid up to date. The amount of the bill will correspond with the total payments up to date in column 10 of the ledger. Before despatching the bill the refund clerk shall enter the date and amount thereof in columns 12 and 13 of the ledger; and on receipt of the cheque he shall fill up column 14.

The bills, with the applications in support of them, shall, after recoupment of the advance be filed for audit purposes.

91. The refund payments made each day shall be compiled into a *Jinswar* in Form 6, a line being given to each application paid, and daily and progressive totals being taken at the foot of the statements.

REFUNDS ON GOODS EXPORTED BY RAIL.

92. When goods are exported by rail, the exporter, or his authorized representative, shall produce, at the Head Octroi Office, the railway receipt as well as the application bearing the certificate of the export barrier muharrir, and the Refund Clerk shall check the application with the Refund Ledger, and also file a copy of the railway receipt on a guard file, to be kept for audit purposes. He shall then stamp the railway receipt with a municipal stamp, and enter the number of this receipt in the report which he makes on the reverse of the application. The procedure prescribed in this rule shall be in addition to that already described in the rules for refunds as laid down above.

Exception.—In the case of perishable goods despatched by passenger train and goods exported as personal luggage accompanying the exporter, the exporter may produce a written declaration of the details of the consignment in place of the railway receipt.

TRANSIT PASS SYSTEM.

93. The following rules shall be observed in the case of goods which, at import, are declared as intended for immediate export, and are therefore merely in transit through the octroi limits of the municipality.

The same rules shall also apply in the case of goods removed from an intra-municipal railway agency office for immediate export from the octroi limits.

94. Subject to the provisions of rules 99 to 108 below, no octroi shall be levied on goods merely in transit through the octroi limits. Such goods shall be permitted to go free through the octroi limits under the supervision as far as possible of a municipal peon and covered by a transit pass in Form 18. Two sets of counterfoil books in Form 18 shall be kept at each barrier.

95. No money or other security shall be deposited and subsequently refunded upon a transit pass.

96. When goods are declared as for immediate export, the muharrir at the barrier of import shall fill up Form 18. He shall then hand the pass over to the importer and send the goods under supervision if possible of a peon to the barrier of export. The muharrir of that barrier after verifying all the items in the pass presented by the importer shall fill up the certificate and hand the whole pass to the peon, who shall return with it to the barrier of import, where the muharrir shall check the certificate with the original entries in his book and paste it on to the counterfoil.

When it is impossible to send a peon with the goods, the muharrir at the barrier of export shall fill up the certificate, and shall send it in the evening with his cash-box to the Head Octroi Office, where it shall be pasted on to the counterfoil in the book received from the barrier of issue.

97. The committee shall prescribe the number of hours within which the goods must pass through the export barrier; but such number of hours shall in no case exceed sixteen. It may also prescribe the routes which the goods shall take from barrier to barrier.

If the importer fails or refuses to export the goods within the prescribed number of hours, the matter shall be immediately reported to the Octroi Superintendent.

98. The counterfoil book (with passes pasted on when goods are sent under a peon's supervision) shall be sent by the muharrir every day with the cash-box to the Head Octroi Office for check. The Octroi Superintendent shall initial each counterfoil in token of his having examined it, and in any cases in which the pass with certificate is not found attached to the counterfoil by the evening of the second day following its issue, special investigation shall at once be made.

TRANSIT REFUND SYSTEM.

99. By *special bye-law* made by the committee and confirmed by the Local Government, the following rules may be observed for the transit through municipal octroi limits of goods declared on import as intended for immediate export.

100. The limit of time for the transit of goods under these rules shall be that prescribed in rule 97, and, if this is exceeded, refunds shall only be given under the ordinary refund rules.

101. When goods are imported into the octroi limits of a municipality to which these rules have been applied, and the importer declares that he intends to export them within the time allowed, the muharrir at the barrier of import shall assess the goods, and if the octroi does not exceed the limit, if any, fixed under rule 99, he shall fill up Form 4 in his ordinary counterfoil receipt-book in the same manner as if the goods were intended for consumption within the town; but he shall, in addition, endorse the reverse of both receipt and counterfoil with a stamp or slip in Form 19 and fill up the columns of the stamp or slip and sign it. These stamped endorsements shall be consecutively numbered in the place provided therein. The numbering shall run serially for each receipt-book, and shall be independent of the numbers on the face of the counterfoil.

102. The muharrir shall then collect the octroi, drop it in the cash-box, hand the receipt to the importer, and allow him to proceed to the barrier of export. In filling up the *Jinswār* (Form 6) at the barrier of import, the muharrir shall treat these stamped counterfoils in exactly the same way as the ordinary counterfoils which are in the same book.

103. On arrival at the barrier of export the person in charge of the goods shall hand his receipt to the barrier muharrir, who shall verify the entries therein with the goods. If the time allowed for the refund has not been exceeded, he shall pay the refund from his imprest and certify on the back of the receipt that the goods have actually been exported, and that he has made a refund on them specifying the amount. Then after taking the acknowledgment of the exporter in the form in the place provided, he shall put the receipt in his imprest bag and pass the goods out of the barrier.

104. For the payment of refunds under this system, the committee shall give a small imprest to the barrier muharrirs. The inspectors on their rounds shall check this imprest by seeing that the cash in hand plus the value of the receipts is equal to the total amount of the muharrir's imprest.

105. At the end of the day the muharrir shall verify his imprest by seeing that the cash in hand plus the value of stamped receipts is equal to the total amount of his imprest. He shall then drop the receipts with a covering memorandum into the cash-box to be sent to the Head Octroi Office.

106. On arrival of the cash-boxes at the Head Octroi Office the officer authorized to open them under rule 62 shall take out the receipts, check them with the original counterfoils found in the book from the barrier of import, and initial each counterfoil in token of his having carried out the check. He shall then send the equivalent value of the receipts from the Refund Permanent Advance to the barrier muharrir.

107. The aggregate of the amount paid on these stamped receipts for all the barriers shall be entered on both sides (columns 4 and 10 of the Refund Ledger). The receipts shall be treated as ordinary refund vouchers, and posted into the Refund *Jinswār* (Form 6). They shall afterwards be put up as vouchers with the ordinary refund applications in support of the bill for the recoupment of the Refund Permanent Advance, and shall be finally filed with them.

108. The ordinary check prescribed in rule 45 shall also be applied by the Inspector to these cases.

TRADE WAREHOUSE (TAJARAT GANJ).

109. The committee may maintain a general trade warehouse. The warehouse shall contain rooms which may be rented by the owners of the goods deposited, as well as accommodation for carts and cattle.

110. The warehouse shall be available, primarily as a wholesale trade convenience,

to any importer who, at import, declares his goods as intended for temporary detention within the octroi limits and eventual export [*vide* rule 37 (3)].

111. The importer may either—

(a) keep his goods in a separate room, if available; or

(b) retain them in the common room of the warehouse.

In the former case he shall be liable to pay rent, if so required by the committee for the whole period of occupation. In the latter case he shall be allowed the accommodation free for the first three days, and after that period he shall pay a rent, if so required by the committee.

Separate account-books need not be kept for the two methods.

112. A table of the rents, if any, fixed by the committee for accommodation in the warehouse shall be hung up in a conspicuous place in the warehouse.

113. At the gate of the warehouse there shall be a barrier, the procedure at which shall be governed by the rules already prescribed for outpost barriers. The inspectors shall visit it and inspect goods coming in and going out, in the same manner as they do in the case of other barriers.

114. When goods are to be taken to the warehouse under rule 110 or rule 128 (i), a transit pass (Form 18) shall, unless the Transit Refund System is adopted, be issued to the importer at the barrier of import exactly in the same manner as if his goods were going to pass out of the town at another barrier, the name of the warehouse being written in the column "Barrier from which to be exported" in the form. The muharrir at the warehouse barrier shall receive the foils, and observe exactly the same procedure as has been laid down above for an export barrier under the system adopted.

115. Goods taken out of the warehouse for *bonâ fide* export from the octroi limits of the municipality shall pass out of the warehouse free.

Goods taken into the town shall be assessed at the barrier gate of the warehouse, where the octroi shall be paid if it does not exceed the limit fixed under rule 41; otherwise the procedure laid down in rule 51 shall be observed.

116. When a trader wishes to take his goods or any part of them out of the warehouse, he shall bring them to the warehouse barrier, where he shall declare to the muharrir whether he wishes to export them from the octroi limits of the municipality, or to take them into the town.

117. When the goods are to be exported from the octroi limits, the muharrir shall, unless the Transit Refund System is adopted, fill up a transit pass in Form 18; and the trader, having received his pass, shall take his goods to the barrier of export, where the ordinary procedure shall be observed.

118. When the goods are to be taken into the town, the muharrir shall assess them and fill up a receipt, with its counterfoil, in Form 4, collect the octroi if it does not exceed the limit fixed under rule 41, and allow the goods to pass out.

The octroi shall be classified in the *Jinswar* (Form 6) in the same manner as is done at an ordinary barrier.

119. The muharrir at the warehouse barrier shall send his barrier cash-box and accounts to the Head Octroi Office daily where they shall be checked and treated exactly in the same manner as if received from any other barrier.

120. Traders may occupy the warehouse as a convenience for conducting daily business in the town. Such traders shall be allowed, from day to day, to remove portions of their goods from the warehouse free, and to bring back what they have not disposed of, the octroi payable by them being levied on their actual sales in accordance with rules 121 to 123 below.

121. For every such trader an account shall be kept in the Warehouse Ledger (Form 20), in which (columns 1 to 4) shall be entered the goods which he brings with him on his first arrival. Below this entry sufficient space shall be left to provide for the transactions which are likely to occur during his stay in the warehouse. On each occasion of a portion of the trader's goods being removed from the warehouse under the preceding rule, the muharrir shall make the necessary entries in columns 2, 4 and 5 of the ledger. On the trader's return the quantity of goods he brings back shall also be entered in the same columns, and the difference between this and the goods taken out in the morning will be the quantity, value or weight of the goods disposed of in the town and on which duty is leviable. This duty shall then be assessed and collected on Form 4 in the usual way and entered in column 6 of the ledger, and the balance of goods still remaining in the warehouse shall be struck.

122. Ledger accounts shall be settled on the last day of every month. The muharrir shall satisfy himself that the balance of goods shown in the account, against each trader's name, corresponds with his goods in the warehouse.

123. When a trader finally leaves the warehouse, his account in the ledger shall be closed. The balance of his goods shall be dealt with under rules 121 or 117 according as they are taken into the town or exported from the municipality.

124. The balances struck under rule 123 above at the end of March shall be verified with the trader's stock in the warehouse by the officers appointed to check the municipal stock.

125. Collections of warehouse rent levied under rule 111 shall be brought to account in column 7 of the ledger when the trader removes all his goods from the warehouse and at least once a month during his stay. A receipt shall be given in Form 68 for all rents, and the progressive total for the day shall be taken at the foot of counterfoils. The money shall be remitted to the Head Octroi Office, with the receipt book for verification daily at the same time as the other collections under rule 119.

126. In the case of large mills to which the committee consider that the concession may safely be granted, a warehouse barrier may be set up on the mill premises on the condition that it is in a position to control all entries into and exits from the mill. In these cases the accounts of the barrier shall be kept strictly in the same form as those of the ordinary trade warehouse, and the mills shall provide proper accommodation, and pay to the municipality an annual sum equivalent to the whole cost of maintenance. This barrier shall be in charge of a muharrir belonging to the municipal staff, and both he and all his accounts shall be entirely under the control of the committee.

127. Committees which grant these concessions shall send a list annually to the Commissioner on the 1st of January for approval.

128. In the trade warehouse accommodation shall also be provided for the following purposes, apart from those prescribed in the foregoing rules :—

- (i) Importers of goods who are unable or unwilling to pay at the import barrier shall take their goods under supervision to the warehouse, there to be detained till the octroi is paid or until the goods are released for immediate removal from the octroi limits of the municipality.
- (ii) If there is reason to believe that any person, including ordinary travellers whose *bond fide* baggage is exempt under rule 27 (9) above, is evading the payment of octroi upon any goods which are being brought in the octroi limits, such goods may be detained and a report submitted without delay to the committee or such member as the committee may appoint in this behalf. If it is then decided that octroi is payable upon such goods, and the person bringing them into the municipality does not forthwith pay the amount declared to be due, the goods shall be sent to the warehouse until the case is disposed of.

EXTRAORDINARY PASSES.

129. If any person desires to take out goods from the octroi limits of the municipality and then to bring them in again without getting a refund on export and paying octroi on import on the said goods, he shall apply to the Octroi Superintendent for a free pass. The pass, if given, shall be in Form 21.

Explanation.—The functions of the Octroi Superintendent in this rule may be imposed by the committee on another official not below the rank of Octroi Superintendent. In municipalities where a Branch Octroi Office is established, the words "Octroi Superintendent" include the Assistant Octroi Superintendent; *vide* rule 30.

130. The goods shall as far as possible be sent to the barrier of export under the supervision of a peon, and shall be presented there within such interval from the time of issue of the pass as the committee may prescribe having due regard to the distance from the Head Octroi Office to the outpost barrier.

131. On arrival at the barrier of exit of goods covered by a pass in Form 21, the muharrir shall verify them with the pass and, after signing the certificate on the exit coupon, return the pass to the exporter, and send the coupon to the Head Octroi Office, where it shall be pasted on to the original counterfoil.

Explanation.—The words "Head Octroi Office" in the rule include a Branch Octroi Office where such is established; *vide* rule 30.

132. When the exporter returns to the town with his goods, the barrier muharrir shall demand the pass, see that the articles imported are covered by it and, if so, allow them to proceed. He shall then return the pass to the importer after endorsing the return of the goods on the reverse and filling up the entrance coupon, which he shall tear off and send to the Head Octroi Office to be pasted on to the counterfoil with the first coupon.

Explanation.—The words "Head Octroi Office" in this rule include a Branch Octroi Office where such is established; *vide* rule 30.

133. When octroi is collected at the outpost barriers on cattle, a pass for cattle which go beyond the octroi limits of the municipality for grazing shall be used in Form 22; but this form is intended for daily use for a month or more if necessary. The pass shall be printed on stout paper, and shall be kept in the possession of the person who grazes the cattle. When the cattle go out each morning, the muharrir at the barrier shall fill up the first three columns, and when they return, the pass shall be again presented for his

signature in column 4, which he shall give after counting the cattle and seeing that the number agrees with those taken out in the morning.

134. The Inspector shall from time to time demand these passes—Forms 21 and 22—and check the items with the goods, initialling and dating the pass in token of his having done so.

CHAPTER IV.—COLLECTION OF TOLLS (OTHER THAN MOORING FEES) IMPOSED UNDER SECTION 42 (i) (d) OF THE ACT.

TOLL-BARS AND RATES.

135. The committee shall place a toll-bar, with such establishment as it may deem necessary, at each point where the collection of a toll has been sanctioned. The committee shall provide a double set of books and two cash-boxes at each bar, so that if one set is sent to the Municipal Office (*vide* rule 139) the other shall be available for use.

Explanation.—These rules shall not apply when the collection of the tolls is farmed.

136. A table of toll rates printed in English and vernacular shall be posted up at each toll-bar. The table shall show definitely—

- (a) the vehicles or animals on which,
- (b) the rates at which, and
- (c) the authority under which

the toll is leviable; and no person shall pass the toll-bar with any vehicles or animals mentioned in the table without paying the appropriate toll thereon.

137. The tax shall be collected by means of tickets in Form 23. The person who pays the toll shall receive a ticket, with coupon attached, to enable him to pass the bar. The progressive totals of the tolls received shall be kept in each page of the book of tickets in the place provided at the foot, as the pages are completed. The totals shall be taken at once, and not put off till the end of the day. At the end of the day the progressive total of the money received for the day shall be taken up to the last counterfoil used, and shall be entered thereon.

The inspector visiting a toll-bar shall see that these totals are taken regularly as directed in this rule, and shall initial the pages which he checks.

138. (i) The committee shall appoint inspectors or other responsible officer or officers to supervise the working of toll-bars. An inspector meeting a person coming from the toll-bar is authorised to demand his ticket, examine it, and tear off the coupon for check at the bar. A person who is called upon for his ticket under this rule shall produce it and allow the inspector to take the coupon.

(ii) Having checked the calculations of the toll and seen that all the items in the ticket are correct, the inspector shall fill up the columns in the coupon which he shall tear from the receipt and keep for comparison with the counterfoil at the toll bar. He shall then endorse his name on the back of the ticket and return it to the toll-payer.

(iii) When he arrives at the toll-bar, he shall verify the coupons he has collected with the counterfoil and initial each counterfoil in token of his having made the check. He shall then drop the coupons in the cash-box, for the information of the Municipal Office when the cash-boxes are sent in.

139. The money received for the tickets shall be dropped into the cash-box, which shall be sent daily to the Municipal Office. The cash-boxes shall be opened by the Secretary; but if the committee by a resolution so direct, this duty may be performed by the Tax Superintendent or where there is a municipal treasurer, by that officer in the presence of the Tax Superintendent. The committee shall ordinarily depute a member other than the Secretary to supervise this proceeding in the latter cases.

(i) The cash-box shall be opened, by the Secretary or the Tax Superintendent and member, as the case may be, who shall verify the money in it by actual counting, and shall endorse the amount received at the foot of the last counterfoil of the day for the toll-bar concerned. The aggregate contents of all the boxes shall then be brought immediately to account as follows:—

(a) When the Secretary, or the Tax Superintendent in the office of the Secretary, receives the collections, in the General Cash-Book (Form 67).

(b) When the Tax Superintendent in an office separate from that of the Secretary receives the collections, in his cash-book (Form 9) pending remittance by him to the treasury or the Municipal Office.

(ii) When the money in a cash-box has been counted, the counterfoils from the toll-bar concerned shall be examined by the Tax Superintendent. He shall check at least 2 per cent. of them in detail, and see that the progressive totals in the books are correct. If the total for the day agrees with the total endorsed on the counterfoil under clause (i) of this rule, the last counterfoil on which the total for the day has been entered shall be signed by the Tax Superintendent.

have been included in the Demand and Collection Register of the current year. The demand shall be entered in column 6, according to the instalments prescribed for payment, and the total brought forward in each case in column 7. The arrears, if any, shall be brought into column 5 from the previous year's register.

145. Every change made in the demand, and registered as provided in rule 143, shall be brought from the Register of Increases and Decreases into the Demand and Collection Register by a *plus* or *minus* entry before the end of each quarter. The net alteration to be made in the total demand is arrived at by taking the difference of the total increases and decreases in the Register of Increases and Decreases, and adding it to, or deducting it from, the total of column 6 of the Demand and Collection Register as the case may be.

COLLECTION THROUGH TAX-COLLECTORS.

146. In a municipality where the tax is collected through tax-collectors, the bills and receipts shall be in counterfoil in Form 68, and shall be made over to the tax-collector, ready signed by the Secretary, but with the date of payment and the spaces for signature of tax-collector left blank. The tax-collector shall be required to acknowledge the receipt of all bills thus made over to him in column 4 of a bill-book (Form 27) prescribed in rule 151.

147. In a municipality where there is a special Tax Superintendent under the Secretary, the bills may be made over in the first instance to that officer by the Secretary, who shall take a receipt from him in the bill-book. The Tax Superintendent shall then distribute the bills to the tax-collectors.

148. The tax-collector shall present the bills to the tax-payers for payment. On receipt of the money from the tax-payer, the tax-collector shall make an entry of the payment in a Collection *Chálán* in Form 28, and after entering the date of payment in the bill, he shall sign the bill and its counterfoil, and hand the signed bill over as a receipt to the person who makes the payment. The bill shall not be a valid receipt for any tax until it has been signed by the tax-collector.

149. The tax-collector shall tender his collections daily at the Municipal Office, where his Collection *Chálán* shall be totalled, and, the amount having been agreed with the cash he produces, the *chálán* shall be signed by the Secretary or other person empowered by the committee to receive the money. A receipt for the amount shall be given to the tax-collector in a receipt book to be kept in his possession in Form 29. The amount will then be at once brought to account in the General Cash Book (Form 67).

150. The clerk in charge of the Demand and Collection Register shall check the realizations shown in the *chálán* with the counterfoil of the bills paid, and at the same time initial the counterfoils. He shall then post each item from the *chálán* into its proper place in the Demand and Collection Register. The *chálán* shall be filed in a guard file to be kept for the purpose of audit.

151. A bill-book (Form 27) shall be kept up at the Municipal Office for each tax-collector. At the time of issue to the tax-collector the bills in detail shall be entered in columns 1 to 3, the acknowledgment of the tax-collector being taken in column 4. Columns 5 and 6 shall be filled up daily, in the manner prescribed in the following rule when the tax-collector returns with his collections to the Municipal Office. This shall be done by, or under the direct supervision of, the Secretary or other person empowered by the committee to receive the collections who shall place his signature in column 7.

152. In the case of a bill that has been paid, the letter "P" and the date of payment shall be entered in column 5 of the bill-book.

153. In the case of a bill returned unpaid, which the Secretary decides not to re-issue the bill and its counterfoil shall be enfaced "cancelled" under the signature of the Secretary. The letter "C" and the date of cancellation shall then be entered against the bill in column 5 of the bill-book. The items in columns 2 and 5 of the bill-books shall be totalled weekly in red ink, and the number of bills still with each tax-collector worked out in column 6, and verified by actually counting the bills, in his hands.

This weekly totalling being merely for the verification of the bills left at the end of each week in the hands of the tax-collectors, does not constitute a formal closing of the bill-books, and the figures shall be entirely neglected in the transactions for the next week.

154. At the end of each month, the outstanding bills in each bill-book (Form 27) shall be verified as above with the bills actually in the hands of the tax-collector, and a certificate of verification, in the following form, shall in addition be signed by the Secretary in the bill-book of each tax-collector:—

Certified that, out of bills amounting to R ——— issued to tax-collector ———, bills for R ——— have been paid or cancelled, and that bills for the balance R ———, remain with the collector, and have been verified by me.

When the period on account of which the tax or other demand was due has expired, each bill-book shall be formally closed and balanced, in black ink, under the signature of

the Secretary, the outstanding bills being verified with those in the hands of the tax-collector, and brought forward in detail on a fresh page.

155. When the Secretary cancels a bill he shall take such steps in regard thereto as may be within his powers, or report the matter to the committee for orders. In either case he shall note his action in column 8 of the bill-book (Form 27).

156. When under section 201 of the Act, a distress warrant is issued for the recovery of the tax, a reference shall be made in the remarks column of the Demand and Collection Register (Form 26). By way of receipt the original cancelled bill may be used, provided that it is enfaced with a stamp, "R paid under distress on ," and the enfacement is signed by the Secretary.

COLLECTION BY DIRECT PAYMENT AT THE MUNICIPAL OFFICE.

157. In a municipality where the tax is paid by the tax-payers at the Municipal Office, a receipted bill shall be granted for each payment in Form 68, signed by the Secretary or by such other responsible officer as the committee may, by resolution, appoint in this behalf.

158. Immediately on receipt the money shall be brought to account in the General Cash-Book (Form 67) and posted in its proper place in the Demand and Collection Register (Form 26).

159. When, under section 201 of the Act, a distress warrant is issued for the recovery of the tax a reference shall be made in the remark column of the Demand and Collection Register (Form 26).

MISCELLANEOUS.

160. In case of refund ordered by the committee, the original collection shall be traced in the Demand and Collection Register (Form 26), and a note made in the remarks column against it of the refund, and the number and date of the payment voucher. The actual payment of the refund will, in ordinary course, be brought to account directly in the General Cash-Book (Form 67).

161. To enable the committee to watch the progress of collections, and to serve as a basis for all periodical statements on account of the tax, a Progress Statement in Form 30 shall be laid before the committee at such intervals as they may determine. It shall be prepared in two parts—one for the current year's assessment, and the other for arrears from previous years.

The method of compilation of this statement is as follows :—

(i) In column 3 (a) shall be entered the total of column 6 of the Demand and Collection Register (Form 26).

(ii) In column 3 (b) shall be entered the portion of the total annual demand which is due up to the date of the statement.

Example.—If the statement is for the period ending 30th November, and the tax is payable quarterly in advance, and the annual demand is R200, then three instalments being due, the amount to be shown in column 3 (b) will be $R \frac{200 \times 3}{4} = R150$, and not $R \frac{200 \times 8}{4}$.

(iii) Column 4 shall be filled up from the Classified Abstract (Form 69).

TAXES, OTHER THAN HOUSE-TAX, ASSESSED AT REGULAR INTERVALS.

162. The assessments for a tax assessed at regular intervals other than a house-tax, shall be entered, as for the house-tax, in an Assessment List. This list shall follow Form 24, with the modifications prescribed below in the case of each tax. The demand shall then be collected in accordance with the procedure laid down for the collection of the house-tax in rules 144 to 161.

TAXES FOR WHICH THE DEMAND IS CONTINUALLY VARYING, INCLUDING TAXES ON SERVANTS, VEHICLES AND ANIMALS.

163. The demand for the taxes on servants, vehicles and animals, such as horses, dogs, etc., shall ordinarily be based on declarations furnished under section 55 of the Act.

164. From the declarations and such other information as may be necessary the details of the demand shall be entered in columns 1 to 8 of the Demand and Collection Register to be kept up in Form 26. The entries shall be checked by the Secretary or such member or responsible officer as the committee may appoint in this behalf, who shall place his initials in column 9 against each item of demand. If any alteration is made in the demand, the information or order in accordance with which it has been made shall be noted in column 18.

165. Each tax-inspector appointed for the supervision of the tax shall submit quarterly statements showing all vehicles and animals newly brought into his circle. These

statements shall be compared with columns 1 to 4 of the Demand and Collection Register (Form 26); and, before the statements are submitted for such comparison, the inspector shall be required to certify on them: "No servants, vehicles or animals have been newly brought into circle No. , except as noted in the statement."

Explanation.—The wording of this certificate shall be altered according to the nature of any other tax collected in accordance with the procedure laid down in this rule.

165. The demand shall then be collected in accordance with the procedure laid down for the collection of the house-tax in rules 146 to 161.

CONSERVANCY OR HOUSE-SCAVENGING TAXES.

167. Conservancy or house-scamenging taxes are levied—

(a) as a capitation tax;

(b) as a tax on private latrines; or

(c) with reference to the annual value of houses and buildings, or to the charges incurred in the conservancy thereof.

168. In the case of a capitation tax, the demand and collection shall be made in accordance, so far as may be with the procedure laid down for the collection of *tehbázari* in rules 196, 197 and 199—202, except that the word "*Tehbázari*" in the heading of the ticket and register shall be changed to "Conservancy," and the heading of column 3 of the ticket and its counterfoil shall be changed to "Name and Class of ticket-holder."

169. In the case of a tax on private latrines, the demand and collection shall be made in accordance with the procedure laid down in rules 163—166, except that in column 4 of the Demand and Collection Register (Form 26), shall be entered the "*Number and Description of Latrines.*"

170. In the case of a tax levied as described in clause (c) of rule 167, the whole account procedure shall follow that prescribed for the house-tax in rules 141 to 161.

WATER-RATE AND OTHER CHARGES FOR WATER.

General.

171. (1) On the commencement of the supply of water from the water-works, it shall be the duty of the officer in engineering charge of the water-works to inform the Secretary to the committee of—

(i) the location of all stand-pipes;

(ii) the existence of all house connections, with the necessary details regarding taps, ferrules, etc.;

(iii) the location of all meters.

(2) He shall thereafter be required to submit a quarterly statement of all additions and alterations made in the above during the quarter, and of the reading of the meters.

172. It shall be the duty of the committee to appoint one or more inspectors, to see that every person who is liable to the payment of water-rate or of charges for water supplied to him, has been assessed, and to report at once to the committee all cases in which such persons have escaped the tax or are under-assessed. An inspector may be specially appointed in this behalf, or the duty may be imposed on an officer otherwise employed under the committee.

Water-rate.

173. The accounts and records to be kept for water-rate shall be similar to those prescribed for the house-tax, and the demand shall be collected in accordance with the procedure laid down for the collection of the house-tax in rules 141 to 161.

Other Charges for Water.

174. When the committee supplies water and charges for it on the basis of the number of taps or size of ferrules through which it is supplied, the accounts and records shall be similar to those prescribed in the preceding rule, and in column 4 of the Demand and Collection Register shall be entered the number of taps or size of ferrules, as the case may be.

When the committee supplies water and charges for it according to the quantity registered by a meter, the accounts and records to be kept up shall be the same as prescribed by the preceding rule; but in this case the number of gallons supplied shall be shown in column 4 of the Demand and Collection Register.

CHAPTER VI.—LICENSES.

GENERAL.

175. The following general rules shall apply to all licenses prescribed by the Act or rules made thereunder.

176. The committee shall appoint one of its members or other suitable person to be a licensing officer for the purposes of rules 175 to 187.

LICENSE INSPECTORS AND QUARTERLY STATEMENTS.

177. The committee may appoint inspectors and require quarterly statements to be submitted in the case of licenses under this chapter in a manner similar to that prescribed in rules 142 and 165.

178. The licensing officer shall, immediately on receipt of the statement submitted under the preceding rule, compare them with the Register of Licenses prescribed by rule 182 below; and in each case in which a license is required to be taken out, but has not been applied for, suitable action shall be taken.

PERIOD OF LICENSES AND FEES.

179. Except where otherwise made permissible by the Act, a license shall not be issued for a longer period than one year. Nor shall it be issued for a shorter period than one month. Between those limits a license may be given for any period that the licensee may desire; but it shall ordinarily be terminable on the 31st of March following. No person shall be compelled to take out a license for a whole year at once.

180. The fee for a license shall be paid at once at the time the license is granted. If the fee cannot be paid immediately, the license shall not be granted until the money is tendered.

FORM FOR LICENSES.

181. A license shall be granted in Form 31 or 32, according to the nature of the license; but Form 32 shall be kept primarily for licensing vehicles which ply for hire.

REGISTER OF LICENSES.

182. Every licensing officer shall maintain a Register of Licenses in Form 33. A separate volume of this register shall be kept for each kind of license, and shall be so arranged that the names of the licensees may be entered in alphabetical order.

APPLICATIONS FOR AND GRANT OF LICENSES.

183. (1) Any person who wishes for a license under the Act and every person who is required to take out a license by rules made under the Act, shall apply to the licensing officer and tender the fee prescribed. The licensing officer shall receive the fee, fill up a license with its counterfoil in Form 31 or 32, as the case may be, and issue the license. The progressive totals of the license fees received for each day shall be entered at the foot of each counterfoil, as the counterfoils are filled up and the licenses issued. These totals shall be entered at once and shall not be put off till the end of the day. The licensing officer shall also enter the details of the license in its appropriate volume of the register in Form 33.

No separate receipt shall be given to the licensee for the fee. Where the fee exceeds Rs 20, the one-anna stamp required by the Indian Stamp Act, 1899, shall be affixed to the license.

(2) In the case of a license applied for under Chapter VII of the Act, the licensing officer, before receiving the fee, shall make such enquiries or inspection as he may deem necessary or as may be prescribed by the committee. He shall then report the case to the committee, unless he is empowered to deal with it himself.

CREDIT OF FEES.

184. The progressive totals of the fees paid having been entered as laid down in rule 183, the cash, which should agree with the last total on the counterfoils for the day, shall be dealt with in the following manner:—

(i) If the Secretary is the licensing officer, he shall bring the cash to account direct in his General Cash-Book (Form 67) and remit it to the treasury in the usual way.

(ii) If the licensing officer is other than the Secretary, he shall remit the cash with a *chulán* to the treasury or Municipal Office, as the practice may be.

(iii) If the licensing officer under clause (ii) remits the cash to the treasury, one of the foils of the *chulán* (Form 10) returned from the treasury shall be retained and pasted by him in a guard file, and the other shall be sent to the Secretary.

(iv) If the licensing officer under clause (ii) remits the cash to the Municipal Office, the Secretary shall receive it and bring it to account in his General

Cash-Book (Form 67). One foil of the *chálán* (Form 11) shall be returned to the licensing officer as a receipt and the other kept by the Secretary as a voucher for his entry in the General Cash-Book.

CHECK OF LICENSES.

185. At the end of each month the licensing officer shall examine his Register of Licenses and shall take such action as may be within his power with regard to every person whose license may have expired up to date, and who has not taken out a fresh license; or he may, if necessary, report the case to the committee for orders. At the end of the year the licensing officer shall cause the details of all unexpired licenses to be carried forward into the register for the following year.

CONDITION OF LICENSES.

186. Licenses shall be granted exclusively in the name of the licensee and are not transferable.

No license shall be re-issued when its term has expired or be endorsed for a continuance of the term. At the expiry of the period for which a license is granted, the licensee shall, if a license is still required, apply for a new license in accordance with rule 183 above. The expired license shall be stamped or endorsed as cancelled.

187. The conditions, if any, under which a license is granted shall be clearly intimated to the licensee when the license is issued.

CHAPTER VII.—OTHER REVENUE.

188. The committee shall maintain a register in Form 34 of all immoveable property (including trees), whether vested in it or placed under its management by the Government.

189. *Nasúl* property shall be recorded separately from other property vested in the committee; and for this purpose the register shall be in two volumes—Volume I for other property vested in the committee, and Volume II for *nasúl*.

In Volume II of the register, one page shall be given to each piece of property, and a plan of the property shall be given on the opposite page.

190. Property held by the committee on lease (e.g., for trenching-grounds) shall be recorded in Volume I of the register, but on separate pages.

191. The committee shall, periodically, but not less than once a year, cause the register to be examined; and the examining officer shall be required to certify that the record is correct.

Volume II of the register must be compared annually with the *nasúl* registers maintained by the district authorities.

RENTS AND SALE PROCEEDS OF IMMOVEABLE PROPERTY.

192. The demand for rents, other than *tchbásári*, shall be based on the Register of Immoveable Property (Form 34) prescribed by the previous rule, and shall be entered in a Demand and Collection Register (Form 26). Columns 1 to 8 of the latter shall be filled up with reference to the entries in the Register of Immoveable Property.

Explanation.—Rents include lease money.

193. If the practice of the committee is to collect the demands through the agency of a tax or rent collector, the procedure shall follow that laid down for the collection of the house-tax in rules 146 to 155.

If it is the practice to require the demands to be paid at the Municipal Office, then for each payment so made the receipt shall be signed by the Secretary or such other responsible officer as the committee may appoint in this behalf. Immediately on receipt, the money shall be brought to account in the General Cash-Book (Form 67), and posted in its proper place in the Demand and Collection Register (Form 26).

SALE OF IMMOVEABLE PROPERTY.

194. When any property recorded in the Register of Immoveable Property is sold, the necessary entry shall be made in column 15 thereof. If the sale money is realized in one lump payment, it shall be brought to account direct in the General Cash-Book (Form 67). If the sale money is to be paid in instalments, the details of the instalments payable shall be entered in columns 1 to 6 of a Demand and Collection Register (Form 26), under the signature of the Secretary; when the amounts are paid, the particulars of the payment shall be entered in columns 9 to 13 of this register, and the cash received brought to account in the General Cash-Book (Form 67).

* *Explanation.*—When, under the rules in force, the ground rent of a plot of *nasul* property is allowed to be commuted, the transaction shall be brought to account as if it were a sale.

TEHBÁZÁRI.

195. *Tehbászári* shall include dues collected by committees for the use by shopkeepers, pedlers, or others, of plots of municipal ground as sites for shops or stalls, or for the use of booths and stalls belonging to the committee. The rates of those dues, as fixed by the committee, and the places at which the shops or stalls, etc., may be set up, shall be entered in a schedule, copies of which shall be posted up in conspicuous places in the markets, roads, or other suitable places throughout the municipality.

196. When the dues are not farmed, the committee shall appoint a muharrir, whose duty it shall be under the direct supervision of the Secretary to collect all *tehbászári* dues. The muharrir shall be given a locked cash-box, in which he shall place, without delay or reservation, all fees as soon as they are received. The key of the box shall remain in charge of the Secretary or of a member appointed by the committee in this behalf.

197. *Tehbászári* dues shall be collected by means of a *tehbászári* ticket, with counterfoil and coupon, in Form 35. The ticket shall be neither transferable nor renewable.

The muharrir shall keep the progressive totals of the dues received on each page of the counterfoil-book (Form 35) in the place provided at the foot as the pages are completed. The totals shall be taken at once, and not put off till the end of the day. At the end of the day, the progressive total of the money received for the day shall be taken up to the last counterfoil used, and shall be entered thereon. The inspecting officer shall see that these totals are taken regularly as directed in this rule, and shall initial the pages which he checks.

No separate cash-book shall be maintained by the muharrir.

198. The *tehbászári* ticket shall ordinarily be available only for the day of issue. But if a stall-holder intends to occupy his site for a week or for a longer period, he may take out a ticket either weekly, monthly, or for the whole period.

199. On receipt of a *tehbászári* due, the muharrir shall fill up the ticket and counterfoil and hand the former, with the coupon attached, to the stall-holder. If the ticket is for a week or more, he shall at the same time make the necessary entries in a *Tehbászári* Register to be kept up in Form 36. In filling up the register, the muharrir shall carefully enter the date of expiry of the ticket in column 6, and leave sufficient space in the case of each person to provide for the entry of future tickets in case they are taken out after the expiry of the current one.

200. The *Tehbászári* Register shall be frequently examined by the muharrir, in order to prevent the expiry of any ticket from passing unnoticed. When an inspection of the entries under the current month in column 6 shows that a ticket is about to expire the muharrir shall take steps at once for the issue of a new ticket. Inspecting officers on their rounds shall review this register, and satisfy themselves that the muharrir has taken action under this rule.

201. The Secretary, or other inspecting officer appointed by the committee in this behalf, is authorized, on his rounds, to demand his *tehbászári* ticket from any stall-holder, and the stall-holder shall produce the ticket when so-called upon for it. After such examination as he may think necessary, the inspecting officer shall fill up the coupon, which he shall keep for comparison with the counterfoil in the book of the muharrir, and shall return the ticket to the stall-holder after initialling it. The coupon he shall drop, after the comparison, in the cash-box of the muharrir.

Remittance of dues to Municipal Office.

202. At the end of the day, or at such other time as may be prescribed by the committee, the muharrir shall take his cash-box to the Municipal Office, where it shall be opened by the Secretary or a member appointed by the committee in this behalf. The Secretary or member shall verify the cash in the box with the progressive total of the counterfoils of the *tehbászári* tickets issued, and if they agree, he shall initial the last counterfoil in token of verification. He shall also examine and check some of the counterfoils, initialling those which he checks. He shall then give a receipt for the amount to the muharrir in Form 29, and the cash shall be brought to account in the General Cash-Book (Form 67) in the usual way.

FAIRS.

203. When a committee collects fees for permission to set up shops or stalls at a fair, the fees shall be collected in the same manner as if they were *tehbászári* dues.

NIGHTSOIL AND CITY SWEEPINGS.

204. When nightsoil is disposed of—

(a) by the right to collect it being leased out on contract, or

(b) by the fields of cultivators being trenched by the committee on payment or,

(c) by its being sold outright direct from the latrines,

and the purchase or contract-money is paid in one lump sum, the amount shall be brought to account at once in the General Cash-Book (Form 67). When the money is paid in instalments, the payments shall be brought to account through a Demand and Collection Register (Form 26), as prescribed in rules 241-242 below.

The same procedure shall be followed in the case of city sweepings, if they are disposed of in the manner described at (a) or (b) above.

205. When nightsoil or city sweepings are trenched and the land trenched is let out to cultivators, the demands shall be treated as rents, and accounted for in accordance with the procedure laid down for the collection of rents in rule 193.

206. When nightsoil is deposited in trenches or pits and the contents of these are sold, the trenches or pits shall be of uniform depth, to enable their contents to be dealt with according to superficial area, for purposes of record and sale.

207. The following rules, 208 to 214, shall not have effect in any municipality until they have been specially applied thereto by the Commissioner.

208. The committee shall appoint a muharrir to be in charge of the trenching-ground and the arrangements connected therewith. This officer shall be under the direct supervision of the Secretary or of the committee's special Health Officer, if any, or of a member, as the committee may direct, and he shall file adequate security to protect the committee from loss by illicit sales.

209. The muharrir shall keep up a Stock-Book of Trenches and Bins in form 37. In this register separate pages shall be allotted for each trenching-ground. The balance in this book shall be worked out after each entry, and shall be verified by a member or such officer as the committee may appoint in this behalf, at such intervals as the committee may determine, but not less than once a month.

210. At least once every month the muharrir shall bring his Stock-Book (Form 37) to the Municipal Office. There it shall be examined under the supervision of the Secretary, and the additions made to the trenches shall be posted into columns 1 to 4 of a Trenching-Ground and Sweepings Account, to be kept up at the Municipal Office in Form 38.

211. No sale shall be made, nor shall cash be received, by the muharrir. Any person who wishes to purchase soil from the trenches shall apply to the Municipal Office, where he shall pay the money, according to the quantity of soil applied for and the rate of sale fixed by the committee.

On receipt of the purchase-money, the Secretary shall draw up a permit with its counterfoil, in Form 39, and hand the permit to the applicant, to enable him to obtain the soil from the muharrir in charge of the trenches. No soil shall be removed from a trench in the absence of a permit. The cash received shall be brought to account in the General Cash-Book (Form 67) in the usual way; and at the same time the details of the sale shall be entered in columns 5 to 11 of the Trenching-Ground and Sweepings Account (Form 38).

212. The purchaser shall take the permit to the muharrir, who shall allow him to remove the quantity of soil shown therein. The muharrir shall then date and sign the permit in the place provided. He shall also make the necessary entries in column 5 of his Stock-Book of Trenches and Bins (Form 37), taking therein the signature of the person removing the soil, strike the balance in column 6, and sign the entry in column 7. He shall return the permit to the purchaser.

213. When in accordance with rule 210 above, the muharrir brings his Stock-Book (Form 37) to the Municipal Office, the entries in columns 5 and 6 thereof shall be compared with those of columns 5, 6 and 9 of the Trenching-Ground and Sweepings Account (Form 38). The date of removal of the soil shall at the same time be entered in column 12 of the latter account.

214. When the committee sell the city sweepings according to bins or loads, the general procedure prescribed for nightsoil in rules 208 to 213 shall be observed, so far as may be except that the columns in the registers prescribed for the 'area' will be left blank.

POUNDS.

225. On admission of cattle to a municipal pound, the pound-keeper shall fill up columns 1 to 8 of a Pound Register to be kept up in Form 40 taking the signature or mark of the person impounding the cattle in column 7 of the register. He shall at the same time give a receipt in Form 41. Entries in the register shall be made separately for each head of cattle.

216. On the release of cattle, the pound-keeper shall make the necessary entries in columns 9 to 16 of the Pound Register (Form 40) and fill up a Release Pass, with its counterfoil in Form 42. Immediately on receipt of the fines and charges due from the person releasing the cattle, he shall hand him the pass, as a receipt for the payment, and take his signature in column 17 of the Pound Register.

The progressive total of the sums received shall be entered at foot of each counterfoil of the Release Pass, at the time the counterfoil is filled up and the pass issued. The total shall be entered at once and not put off till the end of the day.

217. When impounded cattle are sold, the pound-keeper shall enter the details of the sale in a Register of Impounded Cattle Sold to be kept up in Form 43, and give to the purchaser of such cattle a receipt in Form 44. He shall also fill up columns 11 to 15 of the Pound Register (Form 40), and note in column 18 the serial number of each item of the Register of Impounded Cattle Sold. If the sale is one that the pound-keeper has not attended, he shall, immediately on the receipt of a memorandum showing the necessary details of the sale from the officer conducting it, send the receipt to the purchaser by registered post, and paste the post office receipt for the latter on to the counterfoil.

218. When impounded cattle have been sold under the authority of section 16 of the Cattle-trespass Act the account to be delivered to the owner, as required by that section, shall be drawn up by the pound-keeper. It shall be a memorandum in Form 45; and the receipt prescribed by the final clause of the section shall be taken in the last column of the counterfoil.

219. When cattle impounded otherwise than under Chapter III of the Cattle-trespass Act have been sold, the pound-keeper shall fill up a memorandum in the same manner as prescribed in the preceding rule; but the sale-proceeds, after deduction of the fines leviable, the expenses of feeding and watering, and the expenses of sale, if any, shall be made over to the Court or office under whose authority the sale was ordered. In this case, in Form 45 the words "authorizing officer or his agent" shall be read for "owner" wherever the latter occurs; and in Form 43 the next sale proceeds shall be shown in the column of remarks.

220. The pound-keeper shall, immediately on receipt, add to the last progressive total entered in the counterfoils of release passes (Form 42) all sums received by him on behalf of the committee on account of impounded cattle sold.

Explanation.—Charges for feeding and watering appropriated by the pound-keeper, the "balance of the purchase-money" under section 16 of the Cattle-trespass Act, and the net sale-proceeds under rule 219, are not received on behalf of the committee.

221. At such time as may be fixed by the committee, but at least once a week, the pound-keeper shall remit his collections (which should agree with the last total on the counterfoil of the release pass issued up to the time of the remittance) to the Municipal Office, with a *chálán* in Form 11; and the Secretary shall bring the money to account in his General Cash-Book (Form 67). One foil of the *chálán* shall be returned to the pound-keeper, who shall paste it in his Release Pass-Book as evidence of the remittance having been made; and the other foil shall be kept by the Secretary as a voucher for his entry in the General Cash-Book.

222. The *chálán* submitted under the preceding rules shall specify :—

- (1) net sale-proceeds of unclaimed cattle;
- (2) other receipts.

Explanation.—The amount shown under head (1) shall be the sums entered in column (11) (d) of Form 43 as "Surplus—Credited to account."

223. When a claim is preferred under section 17 of the Cattle-trespass Act to any sum credited as the net sale-proceeds of unclaimed cattle, the original credit shall be traced in the Register of Impounded Cattle Sold (Form 43). If, on investigation, the claim is established, the amount repayable shall be paid under the written orders of the President, and the payment shall be brought to account direct in the General Cash-Book (Form 67). The fact of the payment, and the number and date of the payment voucher, shall be noted in the remarks column of the Register of Impounded Cattle Sold against the entry of the original credit.

224. The pound accounts shall be examined at the pound at least once a month by the Secretary or a member of the committee. The inspecting officer shall check (initialling in token of having done so) the entries in at least 2 per cent. of the counterfoils of the receipts for impounded cattle (Form 41), and trace the corresponding entries through the other registers and forms until the final disposal of the cattle. He shall also check the totals of the money columns in the Pound Register (Form 40) and in the Register of Impounded Cattle Sold (Form 43), and see that the progressive totals of the receipts have been correctly entered in the Release Pass-Book (sums on account of sales of impounded cattle sold being also included) and that the amount shown as received on behalf of the committee agrees with the total of the amounts remitted to the Municipal Office (as shown by the *cháláns*) and the cash in the hands of the pound-keeper.

Explanation.—In the case of pounds which are managed by the Police Department, these duties shall be performed by the District Superintendent or some responsible officer deputed by him in this behalf, but this shall not affect the powers of the District Magistrate or the audit officers as regards inspection of pounds.

SLAUGHTER-HOUSES.

225. The fees leviable at the municipal slaughter-house, as fixed by the committee shall be entered in a schedule, to be posted up at the door of the slaughter-house.

226. When the fees are not farmed they shall be collected by the muharrir or other officer appointed by the committee to be in charge of the slaughter-house. This officer shall be given a locked cash-box in which he shall place, without delay or reservation, all fees as soon as they are received. The key of the box shall remain in charge of the Secretary or of a member appointed by the committee in this behalf.

227. When the fee is levied at so much per head on the cattle brought for slaughter, it shall be collected by means of a ticket, with counterfoil and coupon, in Form 46. A ticket is available only for the animals specified therein. The officer in charge shall keep the progressive totals of the fees received in each page of the counterfoil book (Form 46) in the place provided at the foot, as the pages are completed. The totals shall be taken at once and not put off till the end of the day. At the end of the day, the progressive total of the money received for the day shall be taken up to the last counterfoil used and shall be entered thereon. The inspecting officer, on his visits to the slaughter-house, shall see that these totals are taken regularly as directed in this rule, and shall initial the pages which he checks.

No separate cash-book shall be maintained by the muharrir.

228. When the fee is levied, not by a rate on each animal brought for slaughter but as a payment for the use of the slaughter-house, it shall be collected by means of a ticket, with counterfoil and coupon in Form 35, with the heading modified from "*Tehbāsāri Ticket*" to "*Slaughter-house Ticket*." The ticket shall be neither transferable nor renewable.

It shall be used in accordance with the procedure laid down for the collection of *tehbāsāri* dues in rules 197—203; the heading of the register in Form 36 being changed to "*Slaughter-house Register*."

229. The Secretary, or other inspecting officer appointed by the committee in this behalf, is authorised on his visits to the slaughter-house to demand from any butcher the ticket given under rules 227 and 228, and the butcher shall produce the ticket when so called upon for it. After such examination as he may think necessary, the inspecting officer shall fill up the coupon, which he shall keep for comparison with the counterfoil in the book of the official in charge, and shall return the ticket to the butcher after initialling it. The coupon he shall drop, after the comparison, in the cash-box of the official in charge.

230. The fees collected under these rules shall be remitted to the Municipal Office in accordance with the procedure laid down for the remittance of *tehbāsāri* dues in rule 202.

231. When the fees are farmed, and the lease money is paid in a lump sum, it shall be brought to account direct in the General Cash-Book (Form 67). If paid in instalments it shall be brought to account as a Miscellaneous Demand in accordance with the procedure laid down in rules 241 and 242 below.

GARDENS.

232. These rules deal with receipts derived from the sale of garden produce which has not been let to a contractor. They apply to gardens with an annual normal income of Rs500 or over; but may, by resolution of the committee, be extended to any other garden.

233. Every order for *dālis*, etc., given by a customer shall be noted in an order-book in Form 47. This book shall be an authority for ledger entries of the produce supplied. The book shall be kept in two parts,—one for standing orders for supplies to regular customers, and the other for ordinary orders received from time to time, which are not accompanied by the price of the supplies.

234. All produce supplied, which is not paid for at the time, shall be entered in a ledger in Form 48 under the account of the purchaser. The ledger shall be closed and accounts rendered once a month.

235. Every payment made shall be immediately brought to account in a Garden Cash-Book to be maintained in Form 49 and a receipt shall be given for it in Form 68.

236. At such intervals as the committee may determine, the cash received shall be remitted to the Municipal Office with a *chālān* in Form 11; and the Secretary shall bring it to account in his General Cash-Book (Form 67). One foil of the *chālān* shall be returned

to the person in charge of the garden, who shall paste it in a guard file, and the other shall be kept by the Secretary as a voucher for his entry in the General Cash-Book.

237. No expenditure shall be incurred by the person in charge of the garden from money received by him for articles sold from the garden. All receipts must be at once brought to account and remitted intact to the Municipal Office, as laid down in the preceding rules.

238. The person in charge of the garden shall hold a permanent advance for petty contingent expenses. He shall maintain a Garden Contingent Register in Form 50, in which the details of all contingent expenditure shall be entered. The advance shall be recouped by means of ordinary contingent bills (Form 64).

239. All garden property, including tools, etc., shall be recorded in a stock-book, to be maintained in Form 83. The balance shall be struck and verified annually by the officer appointed by the committee under rule 358 below to check the municipal stock.

PARAOS AND SARAI.

240. When fees for the use or occupation of a *paráo* or *sarái* are collected by the committee direct, they shall be collected and brought to account in accordance with the procedure laid down for the collection of *tehbásári* dues in rules 195–202 above; the term "*tehbásári*" being changed to "*paráo*" or "*sarái*" in all these rules, and in the forms applicable.

When the right to collect these fees is farmed, the lease-money shall be collected in accordance with the procedure laid down for the collection of Miscellaneous Demands in rules 241–242.

MISCELLANEOUS DEMANDS.

241. For demands not otherwise provided for in these rules, the committee shall keep up a Demand and Collection Register in Form 26, in columns 1 to 8 of which the demands shall be posted as they occur. When a payment is made on account of any such demand, the necessary entries shall be made in columns 9 to 13 of the register, and the money shall be then brought to account in the General Cash-Book (Form 67) in the usual way.

242. Payments on account of such miscellaneous demands shall ordinarily be made in cash direct at the Municipal Office, in which case the procedure laid down in the preceding rule shall be observed. If, however, the demands are collected through the agency of a tax-collector, the procedure laid down for the collection of the house-tax in rules 146–155 shall be followed.

CHAPTER VIII.—PUBLIC WORKS (EXPENDITURE).

GENERAL.

243. The maintenance of accounts is strictly the duty of the Secretary; and the Engineer, or officer in executive charge of public works, shall not as such be required to perform any part of this duty.

244. Works to be executed through the agency of the Government Public Works Department shall be paid for in advance on the demand of that department after the terms on and the cost for which the work is to be undertaken have been settled. The payment shall be made by cheque as laid down in rules 305 to 307.

For works executed by the committee the following rules shall apply :—

REGISTER OF PUBLIC WORKS.

245. The estimate for each work undertaken by the committee, as soon as it has been sanctioned by the competent sanctioning authority, shall be entered in a Register of Public Works to be kept up in Form 51 by the Engineer or other officer in charge of public works. A separate page in this register shall be given for each work.

CONSTRUCTION REGISTER.

246. (1) A Construction Register in Form 52 shall be maintained for works carried out by the engineer establishment of the committee under the direct supervision of the Sanitary Engineer in accordance with paragraph 12 (b) of the rules for construction of sanitary works (*vide* P. G. Circular No. 1020, dated the 10th August 1901) and for such works only. In this case the details of the estimate shall be entered in the Construction Register at the same time as in the register in Form 51.

(2) The Engineer, or officer in executive charge of the work, shall, at the end of every quarter, prepare a statement from the Construction Register showing the progressive expenditure for each work up to date, and submit it direct to the Sanitary Engineer. This statement shall be in the same form as the register (Form 52).

WATER-WORKS ACCOUNTS.

STOCK-BOOK OF STORES.

252. All stores for water-works, as they are received, shall be entered in a stock-book to be kept up in the same form as the Stock-book (Form 55) prescribed for other public works. In the case of stores in regard to which it is necessary to state where they came from, these particulars shall be entered in the remarks column of this register.

DAY-BOOK FOR STORES.

253. When any particular class of stores is issued frequently during the day, *e.g.*, coal, the issues shall be noted as they occur in a Day-book to be kept up in Form 56. At the end of the day, the daily totals shall be taken and carried into the issue side of the Stock-book.

254. The Stock-book shall be balanced at least once a month, and the balance verified by the officer or member who keeps up the book. He shall sign the register in token of his having made the verification.

MONTHLY STORE RETURN.

255. From the Stock-book a Monthly Store Return shall be prepared in Form 57 and shall be laid before the Engineer for his information.

ANNUAL MAINTENANCE ACCOUNT.

256. At the close of the financial year, an Annual Maintenance Account shall be prepared by the Secretary in Form 58 and shall be submitted to the Sanitary Engineer. It shall be compiled from the Classified Abstract (Form 69) maintained at the Municipal Office, in which separate pages are provided for the printed headings of Form 58.

257. Rules 258—260 below shall apply to a workshop maintained in connection with water-works.

WORKSHOP.

258. The Engineer, or officer in charge of the workshop, shall keep up a Stock-book in Form 55, of stores, apparatus, fittings, etc., received for use in the shop. This register shall be balanced once a month, and the stock in hand verified by the officer in immediate charge of the shop. The stock shall also be verified annually by the officer appointed by the committee to check the municipal stock.

259. To enable a check to be kept upon the work done in the workshop, the officer in charge shall keep up a Work Register in Form 59. He shall also keep up a Master-roll, in Form 54, of the workmen.

260. The Workshop Stock-book and the Work Register shall be examined not less often than once a month by the Municipal Engineer, or other officer in charge of public works, who shall sign the register in token of his having made this examination. This officer shall also, at frequent and unexpected intervals, check the Muster-rolls.

CONSERVANCY.

261. Such articles as conservancy carts, bullocks, etc., shall be entered in the Register of Tools and Plant (Form 83) prescribed by rule 349 below. Articles not entered in this register, such as implements, *bhusa*, disinfectants, etc., used in the operations of the department, shall be shown in a Stock-book to be kept up in Form 55. This Stock-book shall be closed, and the balance verified, once a month by the officer in charge of conservancy. The stock shall also be verified annually by the officer appointed by the committee to check the municipal stock.

262. The Conservancy Stock-book shall be examined not less than once a quarter by the Secretary or member in charge of conservancy, or, if the committee so direct, by its special Health Officer, who shall sign the register in token of his having made the examination.

LIGHTING.

263. Such articles as lamps, lamp-posts, ladders, etc., shall be entered in the Register of Tools and Plant (Form 83). Articles not entered in that register such as oil, wicks, chimneys, etc., shall be shown in a Stock-book to be kept up in Form 55 by the officer in charge of lighting. The procedure laid down for the Conservancy Stock-book in rules 261 and 262 above shall be observed for the Lighting Stock-book.

264. To enable the committee to exercise a check upon the quantity of oil consumed, a scale shall be prepared, showing the quantity of oil consumed in a given time by lamps

of the different patterns in use in the municipality. A copy of the sanctioned scale shall be kept in each oil godown. The Secretary or member in charge of lighting shall periodically check the consumption of oil by comparison with this scale.

265. When the lighting of the municipality is done by contract, the contract deed shall, in addition to any other provisions required by law, specify—

- (i) the description and quantity of the articles which the contractor is to supply ;
- (ii) the rates at which they are to be supplied, unless the contract is given for a lump sum ;
- (iii) the hours during which the lamps are to be kept alight.

CHAPTER IX.—ESTABLISHMENT.

GENERAL.

266. In rules 267 to 288, parts of an establishment which are to be charged under different major heads shall be regarded as distinct departments, *e.g.*, the Secretary's collection department shall be treated, for account purposes, as distinct and separate from the Municipal Office department.

267. For the purposes of pay, the departments shall be understood to consist of sections. These sections shall follow the minor heads of the Monthly Account (Form 71) prescribed by rule 313 below.

268. No new establishment shall be entertained, and no change, temporary or permanent, shall be made in a department, except with the written sanction of the committee. The officer applying for such sanction shall submit a statement showing the present and proposed scale, and explaining the reason for the revision :

Provided that, to meet a special emergency, the head of the office may employ temporary assistance ; but he must without delay apply for sanction as required by this rule.

269. The whole establishment of the municipality shall be recorded in the Establishment Check Register prescribed in rule 331 in which every appointment as made shall be entered under its appropriate section : *vide* rule 267. When any revision of the establishment is made the details of the revision shall be noted in the register, the number and date of the committee's resolution or order being quoted in column 1 thereof. Every entry in this register shall be initialled by the Secretary.

DATE OF PAYMENT.

270. Unless in case of dismissal, transfer, resignation, or death, pay shall not be drawn except on the first working day of the month following that by the labour of which it is earned.

MONTHLY PAY BILLS.

271. The pay and allowances of the Secretary, Municipal Engineer and Special Health Officer, where such salaried officers are entertained, shall be drawn on a bill in Form 60 and shall be entered in separate pages of the Establishment Check Register (Form 75) prescribed by rule 331 below.

Pay bills for the rest of the establishment shall be prepared in Form 61, with full details of names, and shall show separately in column 3 the salary or leave allowance claimed for each person for the month, whether drawn or not, and in column 4, any amount not drawn but held over for subsequent payment. Column 6 shall be used to show the amount actually drawn for each section. When salary is drawn for a portion of a month only, the rate at which it is drawn, and the number of days for which it is claimed, shall be stated either against the name of the *employee* in the body of the bill, or in a note at the foot of the page ; the salaries of the persons included in each section shall be marked off in it, and the total of each section be entered in red ink.

272. The pay of all temporary *employees* who are entertained under sanction shall be billed for separately in the same form, the sanction being quoted.

273. The names of officials, whose pay does not exceed Rs 10 per month, may be omitted from the pay bill, provided that a certificate in the following form is attached to the pay bill : "Certified also that all persons on pay not exceeding Rs 10 for whom pay has been drawn in this bill have actually been entertained during the month."

LEAVE.

274. Officials absent on leave or deputation or under suspension shall be clearly shown as such in the monthly pay bills, and any acting arrangements that may have been made shall also be clearly noted therein.

Explanation.—Octroi muharrirs are superior servants.

DISTRIBUTION OF SALARIES.

275. From each bill, before it is presented for payment, an acquittance roll in Form 62 shall be drawn up; and, when the pay is distributed to the staff, the receipt of each person shall be taken in the proper column, the receipt stamp required for amounts over Rs 20 being affixed to the roll when necessary.

276. The head of the office is personally responsible for every salary drawn on a bill signed by him until he has paid it to the person entitled to receive it, and has had the acquittance-roll signed and, if necessary, stamped by the payee. If the payee does not present himself before the end of the month, the amount drawn for him shall be refunded by short drawal in the next bill; and his salary can be drawn anew, under rule 278 below, when he presents himself to receive it. Pay shall not, in any circumstances, be placed in deposit.

277. The head of the office shall not re-adjust the salaries of the establishment by giving one officer more, and another less, than the sanctioned pay of his post, nor shall he distribute the pay of an absentee otherwise than as provided by any general or special orders of the committee.

ARREAR BILLS.

278. Arrear pay shall be drawn, not in the ordinary monthly bill, but in a separate bill, with a quotation of the bill from which the charge was omitted or withheld, or on which it was refunded by deduction. Any special order granting new or increased emoluments shall also be referred to. Such bills may be presented at any time and may include as many items as are necessary.

TRAVELLING ALLOWANCE.

279. When in any circumstances a municipal officer is required to make a journey for which travelling allowance is given him, the amount allowed shall not exceed that admissible to officers of Government of a similar standing.

The allowances shall be drawn on a contingent bill (Form 64) in which the following details shall be given:—

- (a) Name of officer with designation.
- (b) Maximum pay of appointment.
- (c) Dates and hours of journeys and halts.
- (d) Route, from—to—.
- (e) Purpose of journey.
- (f) By railway or otherwise.
- (g) If by road, the number of miles.

SERVICE-BOOKS.

280. Service-books shall be kept up for the permanent *employés* of a committee other than *bhistis*, lamp-lighters, sweepers and conservancy cart-drivers. The book shall be maintained in the form prescribed in Form 23 of the Civil Service Regulations (4th edition).

281. A service-book shall be supplied at his own cost to every such *employé* on his first appointment. It shall be kept in the custody of the head of the office in which the *employé* is serving, and transferred with him from office to office. It may be given up to the *employé* if he resigns or is discharged without fault, an entry being first made therein to this effect.

282. It shall be the duty of every *employé* to see that his own service-book is properly kept up.

283. Personal certificates of character shall not, unless the committee so directs, be entered in column 13. When, however, an *employé* is reduced to a lower substantive appointment, the cause of the reduction shall always be briefly stated, thus: "Reduced for inefficiency," "Reduced owing to revision of establishment," etc.

284. Every period of suspension from employment, and every other interruption in service, shall be noted, with full details of its duration, by an entry written across the page, and attested by the head of the office or other attesting officer. The head of the office shall see that these entries are made with regularity. The duty shall not be left to the officer concerned.

SECURITY.

285. Every *employé* entrusted with the receipt, expenditure, or custody of municipal money or property shall be required to furnish security, to an amount to be fixed by the committee in each instance with due regard to the responsibility of the office.

This rule shall not apply to a Municipal Engineer, Health Officer, Honorary Secretary, or, if the Commissioner so direct, a paid Secretary.

286. In the case of every *employé* affected by the preceding rule, a security bond in Form 63 shall be executed. Such security bonds shall be kept in the same custody as the other valuables belonging to the committee.

287. The detail of all securities taken under the two preceding rules shall be recorded in the Deposit Register in Form 84, prescribed by rule 350 below.

288. Securities shall be examined and verified by the 1st of April in each year, a certificate to the effect that this has been done being given by the Secretary against each item in the remarks column of the register.

CHAPTER X.—CONTINGENT EXPENDITURE.

CONTINGENT BILLS.

289. Contingent expenditure includes all charges other than those for establishment. All contingent charges shall be drawn on a bill in Form 64.

PERMANENT ADVANCES.

290. To an officer whose duties cause him to incur petty expenses which require to be paid at once before money can be obtained on a contingent bill, a permanent advance may be allowed. The sum to be allowed shall be fixed on the supposition that recoupments will be made at least once a month.

291. All permanent advances shall be recorded in a Demand and Collection Register (Form 26) under the direct supervision of the Secretary in the manner prescribed in rule 342.

292. Each officer who has obtained a permanent advance shall, on the 1st of April in each year, sign an acknowledgment that the amount is due from, and to be accounted for by himself. In case of transfer of charge of an office a similar acknowledgment for the full amount shall be signed by the relieving officer. These acknowledgments shall be kept on a guard file at the Municipal Office.

Explanation.—Permanent advances shall not be multiplied unnecessarily. An officer having subordinates who require petty sums shall rather spare a small portion of his own advance for their use than apply for separate advances for them, taking acknowledgments from them in the same form as he himself furnishes, and retaining them in his office.

293. Each officer holding a permanent advance shall keep up a Permanent Advance Account in Form 65, in columns 1 to 6 of which shall be entered the items of expenditure from the advance as they occur. The headings of the columns shall follow the heads of the Budget Statement (Form 1) or of the Water-Works Maintenance Account (Form 58), as the case may be.

Exceptions.—The person in charge of the garden (rule 238); the member or officer in charge of octroi refunds; octroi barrier muharrirs; and pound-keepers.

294. When the cash in hand is running low, the advance shall be recouped as follows:—

A line shall be ruled across the page of the Permanent Advance Account (Form 65) the several columns shall be added up, and the totals posted into a contingent bill in Form 64. The bill supported by vouchers, shall then be laid before the officer responsible for the permanent advance, who shall compare the entries in the bill with his Permanent Advance Account (Form 65), initial the grand total given therein, and sign the bill. This shall then be sent to the Municipal Office for payment, the date of despatch and the amount of the bill being entered in columns 7 (a) and 7 (b) of the account (Form 65). On receipt of the cheque from the Municipal Office column 7 (c) of the account shall be filled up.

Explanation.—The officer who holds the advance must himself initial the entries in the Permanent Advance Account (Form 65), and shall not delegate the duty to his subordinates.

STAMPS AND POSTAGE.

295. Stamps and postage charges shall ordinarily be met from the permanent advance. But, in order to enable a check to be kept upon the number of stamps expended by each department using stamps upon the business of the committee, a Stamp Register shall be maintained in Form 66. This register is intended primarily for postage stamps; but the same register shall be used for receipt or other stamps, separate pages being allotted for each description, and columns 5 and 6 being modified as required.

Explanation.—This register may serve also as the committee's Despatch Register.

296. The balance of stamps in hand shall be verified once a month by the responsible officer in charge of the department, who shall make a note of the verification in the remarks column under his signature. Stocks of stamps shall also be verified annually by the officer appointed by the committee to check the municipal stock.

CHAPTER XI.—MUNICIPAL OFFICE ACCOUNTS.

GENERAL PRINCIPLE AND GENERAL CASH-BOOK.

297. All money received or spent at the Municipal Office shall be *immediately and without any reservation brought to account in the General Cash Book*, to be kept up in Form 67 under the direct supervision of the Secretary.

RECEIPT OF MONEY.

298. Money is paid into the municipal fund in two ways—

- (1) either direct into the treasury on behalf of the municipality ;
- (2) or into the Municipal Office, whence it is remitted to the treasury.

DIRECT PAYMENT INTO TREASURY.

299. When money is paid direct into the treasury, it shall be accompanied by a *chálán* in Form 10. The original shall be retained at the treasury. Of the two foils signed, one shall be retained as his receipt by the person paying in the money, and the other shall be sent to the Municipal Office, where the amount entered therein shall be brought to account in the General Cash-Book (Form 67), the foil being retained as a voucher.

PAYMENT AT MUNICIPAL OFFICE.

300. When money which has been received by a municipal servant on behalf of the committee is paid into the Municipal Office, it shall be accompanied by a *chálán* in Form 11. The procedure shall follow that laid down in the next clause, but in place of the receipt, the *chálán* shall be signed in foil and counterfoil, the former being given to the person paying in the money as his receipt.

When money is paid into the Municipal Office by the public, it shall be accepted by the Secretary or other person appointed to receive municipal dues, and a receipt in Form 68 shall be made out. The money with the receipt (and counterfoil) shall then be taken to the municipal treasurer, who shall receive it, enter the amount in his own book (if he keeps one) and sign the counterfoil in token of his having done so. The receipt book shall then be taken to the officer in charge of the General Cash-Book (Form 67) for entry of the amount therein and this having been done, it shall be laid before the Secretary or other officer appointed under rule 302 below for signature. The signed receipt shall be made over to the payer.

If there is no separate municipal treasurer, the Secretary, or other officer appointed in this behalf by written order of the committee shall himself receive the money, bring it to account in the General Cash-Book, and sign the receipt (Form 68), which he shall give to the person paying the money.

301. The *chálán* or receipt counterfoil referred to in rules 299 and 300 shall be used as a voucher for the entry in the General Cash-Book (Form 67).

302. Each receipt given under rule 300 shall be signed by the Secretary himself unless the committee has formally delegated this duty to some other officer.

303. The vouchers referred to in rules 299 and 301 shall be filed together in consecutive order in the Municipal Office in the municipality according to the sequence of the entries to which they relate in the General Cash-Book (Form 67), the vouchers of rule 299 shall not be kept separately from the vouchers of rule 301.

REMITTANCE FROM MUNICIPAL OFFICE TO TREASURY.

304. Money received in the Municipal Office under rule 300 above shall be remitted to the treasury at regular intervals, to be fixed by the committee. The money shall be accompanied by a *chálán* in Form 11 and the remittance shall be entered in column 8 of the General Cash-Book (Form 67) under the initials of the Secretary. The duplicate foil of the *chálán*, when received back signed from the treasury, shall be used as a voucher for the remittance, and shall be filed in a guard file.

Cheques drawn on the treasury for credit to the municipal fund shall be endorsed "Received payment by transfer credit to the———Municipal Fund."

When money is paid direct into the treasury and not through the Municipal Office (*vide* rule 299), a note shall be made in column 8 of the General Cash-Book (Form 67).

EXPENDITURE.

305. The bill or other voucher presented as a claim for money shall be received and examined by the Secretary or by the member or other officer appointed by the committee in this behalf; and, if the claim be admissible, the authority good, the signature

true and in order, and the receipt a legal quittance, he shall make an order for payment at the foot of the voucher, and sign it. The officer making a payment order is personally responsible that the voucher is complete and affords sufficient information as to the nature of the payment being made.

PAYMENT ORDERS.

306. After the order to pay has been entered on the voucher and passed, a cheque shall be drawn up in the name of the actual payee, and an entry shall be made in the General Cash-Book (Form 67); the voucher shall then be stamped "Paid by cheque No. , , " and filed for purposes of audit.

307. *Payment orders shall on no account be made on Misls.*—Each payment order shall be made on a bill, a note being made in the Misl concerned referring to the number and month of the guard file in which the voucher is filed. A reference shall also be made on the back of the bill to the Misls to which it appertains.

CLOSING OF GENERAL CASH-BOOK.

308. The General Cash-Book (Form 67) shall be closed and balanced daily and shall be signed by the Secretary. At the end of each month it shall be compared and agreed with the Treasury Pass-Book in the manner prescribed by rule 329 below, and any differences shall be explained and accounted for in a foot-note in the General Cash-Book (Form 67). The Book shall then be laid before the President for review and signature.

In any month in which he is absent from the municipality, the President may delegate the duty of review and signature to a member of the committee by name; but he shall himself review and sign the book at his next visit to the municipality.

Explanation.—In the case of outlying municipalities a separate delegation need not be made every month.

CLASSIFICATION AND CLASSIFIED ABSTRACT.

309. For the purpose of classifying the income and expenditure, a Classified Abstract in Form 69 shall be kept up, separate parts of the volume being allotted,—one for income and one for expenditure. A separate page shall be opened for each head of account; and the items appertaining to those heads for each day shall be taken, either as they occur or in the aggregate for the day, from the General Cash-Book, or from the vouchers, and entered in the appropriate columns of the abstract. At the end of each month the totals and progressive totals shall be made under each of the heads of the abstract, any transfer entries which may have been made in accordance with rule 311 or 312 being taken into account.

Explanation.—Except in the case of octroi, "head of account" in this rule means (a) the minor head or, where there is no minor head, the major head in columns 1 and 6 of the Budget Statement (Form 1); and (b) the printed headings of Form 58. In the case of octroi, "head of account" in this rule means (a) octroi proper; and (b) proceeds of composition. No head of account other than these shall be opened without the sanction of the Accountant-General in the Local Audit Department.

LOAN FUNDS.

310. When a committee has obtained any funds on loan, or incurred any expenditure from loan funds, or has any loan funds included in its balance at credit with the treasury, separate pages in the Classified Abstract shall be set apart for loan receipts and charges met from loans. Such items shall be kept entirely distinct in the Classified Abstract from those of the ordinary revenue accounts of the committee.

TRANSFER ENTRIES AND ADJUSTMENTS.

311. (1) Transfer entries, that is, entries intended to transfer an amount from one head of account to another, shall be made when it is necessary—

(a) to correct an error of classification in the original accounts;

(b) to account, by debit or credit to its proper head, for inter-departmental and other transactions in which cash does not actually change hands.

(2) Adjustments shall be made when it is necessary to adjust a portion of an advance unused and repaid, or the recovery of an over-payment.

312. (1) When a transfer entry is required to be made, the details thereof shall be entered in a List of Transfer Entries in Form 70. At the end of the month the adjustments shall be made under the heads concerned in the place provided at the foot of the Classified Abstract (Form 69), the amounts being deducted from the head from which, and added to the head to which, they are transferred.

(2) When an item has to be adjusted, the money, on receipt, shall be brought to account in the General Cash-Book (Form 67) in the usual way as a miscellaneous receipt

and the item carried in to the Classified Abstract of Receipts (Form 69). It shall also be entered in the List of Transfer Entries (Form 70), the head "Miscellaneous" and the head to which the payment was originally debited both being entered in column 2. At the end of the month, the adjustment shall be made by deducting the amount from both these heads in the Classified Abstract.

Explanation.—Neither transfer entries nor adjustments can be made in the accounts of a year after those accounts have been finally closed.

MONTHLY ACCOUNT.

313. At the close of each month an account in Form 71 shall be drawn up under the signature of the Secretary and President, and laid before the committee.

In the preparation of this account the following instructions shall be observed :—

- (i) The figures for columns (2) and (8) shall be taken from the Budget Estimate (Form 1).
- (ii) The figures for columns (3), (4) and (5), and for columns (9), (10) and (11), shall be taken direct from the totals and progressive totals of the Classified Abstracts (Form 69) made in accordance with rule 309.
- (iii) The balance shall then be struck and agreed with the closing balance shown in the General Cash-Book (Form 67) for the last day of the month to which the account appertains. In the case of a committee to which rule 310 applies, the balance of loan (shown in Form 72 under rule 314), must be added to the balance shown in the Monthly Account. (Form 71), in order to effect the agreement.
- (iv) The grand totals of columns 4 and 10 of the Monthly Account, together with (in municipalities to which rule 310 applies) the totals of the corresponding columns in the Balance Sheet for Loans, after account is taken of any transfer entries (*vide* Form 70) and of any deduction entries referred to in rule 326 will agree with the grand totals of the General Cash-Book (Form 67) on the receipt and expenditure sides respectively.
- (v) Income on account of loans, and expenditure met from loan funds, shall not be included in the ordinary Monthly Account (Form 71). Such items are provided for by rule 314.
- (vi) The committee's invested funds shall not be shown in the opening and closing balances; but a detail of such funds shall be given as a foot-note to the account.

Explanation.—When expenditure has exceeded the budget allotment, the items in question shall be posted in red ink.

314. A committee to which rule 310 above applies shall cause a separate Monthly Account to be drawn up in Form 72, showing the income on account of loans and the expenditure met from loans. It shall be compiled from the separate pages kept in the Classified Abstract under the rule quoted, and shall be submitted together with the ordinary Monthly Account (Form 71).

315. No new head of account shall be opened in the Monthly Account without the sanction of the Accountant-General in the Local Audit Department.

ANNUAL BALANCE SHEET.

316. At the close of the year an Annual Balance Sheet shall be prepared in Form 73. It shall be signed by the Secretary and President, and laid before the committee. The provisions of rule 315 and the explanation to rule 309 shall apply to the Annual Balance Sheet.

In the preparation of this account the following instructions shall be observed :—

- (i) Columns 2 and 6 shall be filled up from the last year's Annual Balance Sheet; columns 3 and 7 from the latest sanctioned budget and columns 4 and 8 from the last progressive totals of the Classified Abstract.
- (ii) The amount of refunds on account of octroi duty shall be deducted from the total expenditure shown before the percentage of actual expenditure of each major head (column 9) on the total expenditure is calculated. A note shall be made opposite "Refunds of octroi" of the percentage the refunds bear to the gross octroi receipts.
- (iii) Income on account of loans, and expenditure met from loan funds, shall not be included in this Balance Sheet. Such items are provided for in the next rule.
- (iv) The committee's invested funds shall not be shown in the opening and closing balances; but a detail of such funds shall be given as a foot-note to the Balance Sheet.

317. A committee to which rule 310 above applies shall cause a separate Annual Balance Sheet to be drawn up in Form 74, showing the income on account of loans and the expenditure met from loans. It shall be compiled from the separate pages kept in the Classified Abstract under the rule quoted, and shall be submitted together with the ordinary Annual Balance Sheet (Form 73).

318. The Balance Sheet shall be supported by a certificate signed by the Treasury Officer showing the amount at the credit of the committee in the treasury at the close of the year. Any difference on account of cheques outstanding or otherwise, between the amount shown in this certificate and the aggregate balance shown in the Balance Sheets (Forms 73 and 74), shall be explained at the foot of the Balance Sheet concerned.

CHEQUES.

319. Cheque-books are supplied free of cost by the treasury. Every book shall be kept under lock and key in the personal custody of the drawing officer, who shall notify to the treasury upon which he draws, the number of the cheque-book which he from time to time brings into use.

320. When the drawing officer receives a cheque-book, he shall cause the cheques to be counted and a note to be recorded on the back of each cheque-book that "This cheque-book contains — cheques."

321. The drawing officer shall be personally responsible for the safe custody of the cheque-books. When he is relieved of his office, he shall take a receipt for the correct number of cheques made over to the relieving officer, a specimen of whose signature shall be forwarded to the treasury concerned by the relieved officer.

322. No cheque shall, except for very special reason, be signed unless required for delivery without delay to the person to whom the money is to be paid.

323. When a cheque is being prepared for signature, an amount, a little in excess of the sum for which the cheque is drawn, shall be written across it and its counterfoil, as a preventive against fraud.

Example.—Across a cheque drawn, for Rs. 50-8-0 will be written "Under rupees fifty-one."

324. Cheques issued by a committee, which are not cashed within three months of the date of issue, shall not be presented for encashment without being re-dated. The alteration of date shall be initialled by the drawing officer: a note of the fact of re-dating shall be entered in the General Cash-Book against the original transaction and upon the counterfoil of the cheque itself. The alteration will in no way affect the accounts, and no further entries shall be made.

CANCELLATION OF CHEQUES.

325. When a signed cheque is cancelled, it shall be enfaced or stamped "Cancelled" by the drawing officer. The fact of cancellation shall be noted in red ink, under the initials of the drawer of the cheque, upon the counterfoil, and also across the order of payment which has been enfaced upon the voucher.

326. When a cheque is cancelled before the General Cash-Book (Form 67) has been closed for the day of issue of the cheque, the entry in the cash-book and also in the Classified Abstract (Form 69) shall be struck out in red ink under the initials of the Secretary. When the cheque is cancelled after the cash-book has been closed, the amount of the cheque shall be entered in the Cash-Book of the day of cancellation as a miscellaneous receipt and carried into the Classified Abstract (Form 69). In this case an adjustment shall be made at the end of the month, as laid down in rule 312 (2).

327. Cancelled cheques shall be carefully retained until the accounts for the period to which they relate have been audited, when they shall be destroyed by, or in the presence of, the audit officer, who shall certify upon the counterfoil that the cheque has been so destroyed.

PASS-BOOK.

328. The committee shall have a Treasury Pass-Book which is obtainable free of cost from the treasury. *No entry and no mark of any kind shall be made in the pass-book by any Official whatsoever of the committee. The entries shall be made in the treasury only.*

The Pass-Book shall be kept under lock and key in the personal custody of the President, Vice-President or the Secretary of the Committee.

329. At the end of each month the receipts and expenditure shown in the Pass Book shall be checked, item by item, with the General Cash-Book (Form 67), and cheques outstanding shall be noted in detail at the foot of the General Cash-Book in accordance with rule 308. If any cheque appears to be unduly long outstanding, inquiries regarding it shall be made; and, if it cannot be traced, payment shall be stopped by order of the drawing officer, and the charge it represents cancelled and adjusted in accordance with the procedure of rule 326 as if the cheque had been cancelled.

SCRUTINY OF BILLS.

330. In addition to merely accounting for all the expenditure incurred, it is also the duty of the Municipal Office to see that no charge is paid twice over, and also that the budget allotments are not exceeded. For this purpose the Establishment Check Register has been prescribed.

Explanation.—For contingent expenditure, the Classified Abstract (Form 69) shall serve the purpose of a check register.

ESTABLISHMENT CHECK REGISTER.

331. The Establishment Check Register shall be in Form 75. In this register every establishment bill shall be entered at once at the time of issue of the cheque for it. The register shall be current for three years, and shall be kept up in accordance with the following rules.

Explanation.—This register is merely a Check Register, in which the payments are recorded under the month *for* which they are due (*vide* rule 338 below). From this it follows that this register always remains open for future charges. It shall not be confused with the Classified Abstract (Form 69), in which the actual payments are recorded according to the *date of payment*, and which is closed at the end of the year.

332. A separate page of the register shall be set apart for each section of each department of the establishment; the different sections shall be entered consecutively, and a page for the total charge of the department shall be left immediately after them when the number of sections exceeds one. The sections in the register shall exactly correspond with those in the pay-bill. The department shall be arranged in the order of the major heads of account, and a few pages shall be left blank after each major head for the entry of any additions to the permanent establishment that may be subsequently sanctioned.

333. When the register is first opened, the detail of each section shall be entered in the first three columns. When the register is opened for a subsequent year, the scale of each section shall be brought forward from columns 2 and 3 of the register of the preceding year. All entries of amounts in the money columns shall be initialled by the Secretary.

When the space in column 2 of the Establishment Check Register (Form 75) is insufficient for all the details of a section, they shall be recorded on a fly-leaf in the following form, which shall be inserted between the pages of the register:—

Detail of appointments and Pay in

of.

—	Minimum.	Maximum.	Actual on 1st April 19 .	Income-Tax.	REMARKS.
	<i>R</i>	<i>R</i>	<i>R</i>	<i>R a. p.</i>	
Total .					

The minimum and maximum columns in the fly-leaf shall be used only when the pay, or part of it, is progressive; and in this case each increment, as it is admitted, shall be added to the total of the "Actual" column, and the pay of the appointment affected shall be altered in red ink, a note in each case being made in the remarks column of the month with effect from which the increment is granted. Corresponding alterations shall also be made in the register itself (Form 75) in column 3 for the sanctioned pay of the section, the order sanctioning the increment being quoted in column 1.

Changes due to revision of establishment shall be neatly made in red ink in the columns concerned under the initials of the Secretary, the order for the revision being invariably quoted in column 1.

CHECK OF ESTABLISHMENT BILLS.

334. On receipt of an establishment bill, the figures shall be checked, and at the same time an examination shall be made in order to see that no inadmissible charge is included in the bill in consequence of any absence on leave.

POSTING OF ESTABLISHMENT BILLS.

335. The bill, thus checked, shall then be posted into the Establishment Check Register. The amount shown in the column "Net charge for each section" in the bill shall be entered against each section. Below this shall be written in red ink any amount due, but remaining undrawn, by reason of absence, for the purpose of checking bills for arrears

of pay subsequently submitted (*vide* rule 339). The amount of fines shown in the bill shall similarly be noted in red ink, to allow of check in the case of bills for refunds of fines subsequently remitted. A subsequent claim not covered by the last two entries shall not be admitted without full explanation of the circumstances in which it was omitted from the monthly bill, which is expected to exhibit the full claim for the month.

The entries shall always be begun from the top of the allotted space, in order that there may be room for the record of subsequent bills, and the number and month of the bill shall be quoted in the entry as shortly as possible; thus, "4—7" will indicate bill No. 4 of July.

336. When the payments have been recorded against the sections, the amounts entered shall be totalled and agreed with the total of the bill, which shall then be posted, without detailing the section again on the page left, in accordance with rule 332 above, for the total charge of the department.

337. The order for payment shall then be written, and the bill, together with the register, laid before the Secretary, who shall check the totals, make such comparison of the bill with the register as he may deem necessary, pass the bill, and initial the register.

338. The Establishment Check Register shall run from April to March, and pay shall be recorded under the month *for* which it is due, and not under that *in* which it is disbursed (*vide* Explanation to rule 331 above).

Examples.—(i) Pay for March is drawn in April. It will be entered in the register under the month of March in the past year.

(ii) A clerk is absent on six weeks' privilege leave from 25th September, and his pay for September is not drawn in the bill for that month. But the pay is claimed and drawn in November or some subsequent month. Such part of the bill as refers to September and October will be entered in the register under the months of September and October, respectively.

(iii) From the pay bill for April (paid in May) is deducted the pay for March of a man who happened to be absent when the pay bill for March was drawn, and, taking leave, did not return in April to receive his pay for March. The refund in this case will be noted in the register under March, and, when a bill for the amount is subsequently submitted, it will be posted in the same column.

BILL FOR ARREARS OF PAY.

339. A bill for arrears of pay shall, subject to the provision of the next rule, be dealt with in the same manner as laid down for ordinary bills in rules 335 to 338, but the amount shall also be checked with the red ink entry made under rule 335 above, and then added to the total of the bills previously recorded in the same column. Care shall in all such cases be taken to see that the aggregate total of the column does not exceed the sanctioned pay of the section or department shown in column 3 of the Establishment Check Register (Form 75).

TEMPORARY ESTABLISHMENT.

340. Temporary establishment shall be entered in the Establishment Check Register at the end of the space allotted for the permanent establishment, and shall not be mixed up with it. The period for which the temporary establishment is sanctioned shall be distinctly specified in the second column below the details of the appointments sanctioned and lines shall be drawn across the columns of the months previous and subsequent to such period, so as to prevent admission, by oversight, of pay for a period in excess of sanction.

OTHER RECURRING CHARGES.

341. When the committee incurs recurring charges (other than loans) on account of scholarships, contributions, rents, etc., payments on account thereof shall be recorded and checked in the same manner as establishment charges. The Establishment Check Register (Form 75) shall be used for this purpose, separate pages being opened therein for these charges.

ADVANCES.

342. When an advance, *e.g.*, a permanent advance or an advance to enable some public work to be undertaken is made, it shall be entered under the direct supervision and the signature of the Secretary as a demand in the Demand and Collection Register (Form 26) kept for Miscellaneous Demands. When the advance is adjusted, the particulars of the transaction shall be entered on the collection side of the register, a note being made in the remarks column to show whether the adjustment was by repayment in cash or by work bill. Separate pages of the Demand and Collection Register shall be set apart for advances under this rule.

343. The amounts of the advances outstanding at the end of each quarter, shall be abstracted on to a list of outstandings, and shall be laid before the committee.

ANNUAL RETURNS.

344. With his Annual Administration Report of the municipalities in his district, the Deputy Commissioner shall submit to Government the following (statements showing

the accounts for the year under report, statements, 1 to 5 being compiled in the municipal office and Nos. 6 and 7 for the district as a whole by the Deputy Commissioner :—

- (1) Statement in the form of the Annual Balance Sheet (Form 73) with fractions of a rupee compounded for.
- (2) Statement in the form of the Annual Balance Sheet for Loans (Form 74), with fractions of a rupee compounded for.
- (3) Octroi Statement, in Form 76.
- (4) Statement of Expenditure on Original Works, in Form 77.
- (5) Statement of Loans, in Form 78.
- (6) Statement showing the Income during the year, in Form 79.
- (7) Statement showing the Expenditure during the year, in Form 80. *

345. When any of the returns enumerated in the preceding rule are blank, a certificate to that effect shall be submitted with the Annual Administration Report in lieu of the forms themselves.

346. In the preparation and submission of these statements, the following instructions shall be observed :—

(a) To the statements submitted in Forms 73 and 74 shall be attached a certificate signed by the Treasury Officer, showing the amount at the credit of the committee in the treasury at the close of the year. For this purpose the certificate required by rule 318 shall be obtained in duplicate.

(b) The classification of goods liable to octroi in Form 76 is that of the *Finswars* (Forms 6 and 12) prescribed in rules 47 and 65. To obtain the figures in columns 2—4, the directions in rules 65, 66, and 91 shall be followed. From the figures thus obtained the details for the remaining columns shall be worked out.

(d) For the statement in Form 77 the information required shall be abstracted from the Register of Public Works (Form 51) prescribed by rule 245.

(e) The statement in Form 78 shall be prepared from the Register of Loans in Form 81 prescribed by rule 347.

(f) In the preparation of Forms 79 and 80, attention shall be had to the following points :—

Form 79.

Column 4.—The amount entered in this column shall include (1) all unadjusted deposits of previous year, *e.g.*, sums lodged by muharrirs and other municipal servants and by contractors as security, except in the case of amounts deposited in Post Office Savings Banks; (2) all salaries remaining unpaid; and (3) the cash balance absolutely at the disposal of the committee for expenditure.

Columns 5—22.—In the sub-columns here shall be entered *net* receipts only, *i.e.*, after deducting refunds and taxes collected for other bodies (head 3 expenditure.)

Column 15 corresponds to head IV and column 16 to head III of Form 73; column 17 corresponds to head V and column 20 to the aggregate of head VI and head VII (1) of Form 73. Fines for evasion of these taxes shall be shown in column 36.

Columns 23—27.—The income derived under the Cattle-trespass Act, 1871, and the Hackney-carriage Act, 1879, shall be shown in columns 23 and 24, respectively. Realizations under the Police and Gambling Acts shall be shown in column 36.

Column 28 corresponds to head X (1 to 3) of Form 73, and column 29 to heads XI and XIX (1) and shall include such miscellaneous receipts as sale of grass, fruits, fire-wood, etc., shown under head XVIII (9).

Column 30 corresponds to head XVIII (2) and (3) of Form 73.

Column 33 corresponds to heads X (4) and XVIII (1) and (4) of Form 73, and in column 36 shall be entered all fines except those entered in columns 23—27.

• *Column 35* provides for head XII of Form 73.

Columns 37—39 correspond to head XVIII (7) of Form 73.

Column 52 corresponds to head XVIII (6) of Form 73.

Column 53 includes such items in XIX (2) as do not find a place elsewhere.

Columns 57—58.—These columns correspond to the entries on the receipt side of Form 74.

Columns 60—61.—In these columns shall be entered all sums, not partaking of the nature of a loan, advanced to a municipality for execution of public works or other special purposes, for the due expenditure of which the municipality is responsible.

Column 62.—See instructions (1) and (2) under column 4 above, which, *mutatis mutandis*, apply also to this column.

In the column of remarks a note shall be added, showing all invested funds.

Form 80.

Column 4.—See foot-note to the statement. In this column shall be entered all expenditure connected with the general establishment (*e.g.*, cost of postage, receipt

stamps, furniture for the Municipal Office, and contingent charges) which does not find a place elsewhere. It shall include heads 1 (7) and (8) and 4 and probably some of the items entered in head 14 (11) of Form 73.

Column 5 corresponds to heads 1 (1) to (4) and (6), 14 (3), and so much of head 5 (6) of Form 73 as refers to the repair of octroi outposts and of trade warehouses.

Column 6 corresponds to head 1 (5) of Form 73.

Column 8 shall show all refunds of fines and of receipts other than municipal rates and taxes: see instruction under Form 79.

Column 14 corresponds to head 6, and so much of head 5 (8) of Form 73 as refers to the repair of police stations and outposts.

Column 17.—In this sub-column the capital outlay on water-works including cost of construction of new wells and tanks, shall be shown; also cost of land taken up for the same. It corresponds with head 5 (3) and so much of (9) and (10), of Form 73 as refers to water-works.

Column 18.—All expenditure on establishments, contingencies, and maintenance and repair of works connected with the water-supply of the municipality, including tanks and wells, except wells attached to any public gardens [column 28], shall be shown here; see heads 5 (4) and so much of (1) and (8), of Form 73 as refers to water-works.

Column 19.—The cost of construction of sewers and other drainage works, as also of culverts for drains, shall be entered here.

Column 20.—All expenditure on establishment, contingencies, and maintenance and repair of works connected with the sewerage of the municipality shall be shown here.

Column 21 corresponds to head 9 of Form 73, and shall include the cost of construction and repairs of latrines and cost of rent of the land taken up for the purpose, and for trenching or disposing of night-soil.

Column 22 corresponds to head 8 (1), (3), (4) and (6) of Form 73.

Column 25.—This column shall show the cost of all special establishments maintained for markets and slaughter-houses, and shall include so much of head 5 (6), (8) and (9), of Form 73 as refers to the construction or repair of these buildings, and the cost of land taken up for such purposes.

Column 27 corresponds to head 14 (4); column 28 to head 11 (1), and so much of head 5 (9) as relates to land taken up for public gardens; and column 30 to head 14 (5).

Columns 31—34.—See foot-note to the statement. The cost of the public works establishment shall be divided among the different heads in proportion to the cost of the works executed under each head. In the case, however, of a municipality entertaining an Engineer entirely for any particular purpose, his pay shall be wholly entered under that head.

Columns 36—39 correspond to heads 7 and 11 (2) of Form 73.

Column 45.—All expenditure which cannot appropriately be entered in any of the other columns of this form shall be shown here, a detailed statement of the larger items entered being given in the body of the Annual Administration Report.

Columns 53—54.—In these columns shall be shown all advances made by the municipality for any object; and in 55 all refunded security deposits of the municipal establishment and of contractors.

Column 58 shall correspond to the actual balance at the credit of the municipality, exclusive of invested funds.

CHAPTER XII.—MISCELLANEOUS.

REGISTER OF LOANS.

347. All loans received by the committee shall be recorded in a Register of Loans in Form 81, each portion of the loan, as it is taken, being recorded in column 4. Each entry in the register shall be attested by the Secretary. A separate page shall be opened for each loan; and loans from Government shall be kept distinct from loans received from other sources.

REGISTER OF INVESTMENTS.

348. A record of all investments shall be maintained in a Register of Investments in Form 82. Each entry therein shall be attested by the Secretary. Government securities shall be kept distinct from other investments.

REGISTER OF TOOLS AND PLANT.

349. All property which is not recorded in the municipal stock-books or in the Register of Immoveable Property (Form 34), e.g., tools and plant, conservancy or water-carts, lamps, lamp-posts, ladders, etc., shall be recorded in a Register of Tools and Plant in Form 83, in columns 1—5, under the signature of the head of the department

concerned. When property is subsequently disposed of, by sale or in any other manner, the details of the disposal shall be entered in columns 7—10 under the signature of the officer aforesaid. This officer shall be responsible that the register is a complete record of the municipal tools and plant which should be shown therein. The stock in hand shall also be verified annually by the officer appointed by the committee to check the municipal stock.

DEPOSIT REGISTER

350. All deposits made with a committee, whether in the form of cash, Government paper, or other stock, or of security bonds, shall be recorded in a Deposit Register in Form 84. Separate pages shall be allotted for bonds deposited.

In the case of bonds, if property is hypothecated, a brief description of the property shall be given in the remarks column, and the heading of column 10 shall be changed to "Name of depositor."

ANNUAL VERIFICATION OF SECURITIES.

351. Securities shall be examined and verified by the 1st of April of each year; and a certificate of verification shall be given by the Secretary in the remarks column of the register against each entry therein. On the 1st of April all deposits which have not lapsed or been returned shall be carried forward, in detail of names, into the next year's register.

STATEMENT OF FINES AND ARREARS OF TAXES REALIZED BY COURTS.

352. Courts realizing fines, which under any Act in force are credited to the municipal fund, or arrears of a municipal tax, submit, under the orders of competent authority, a monthly statement in Form 85 to the committee. Fines, or arrears of a tax, paid into the treasury for which a statement in Form 85 has not been received by the committee by the end of the month, shall be brought to account direct from the Pass-Book into the General Cash-book (Form 67) before the latter is closed for the month. The fines and arrears statement when received shall be checked both with the Pass-Book and with the General Cash-Book.

If a refund is ordered to be made, it shall be carefully traced in the original statement (Form 85) and an entry shall be made therein against the items concerned that the refund has been made. The payment shall then be made in the ordinary manner.

STOCK-BOOK OF FORMS.

353. For all forms used by the committee a Stock-Book in Form 55 shall be maintained. Each kind of form shall have its own page. The Secretary shall be responsible for the correct maintenance of this Stock-Book: the balance of forms in hand shall be verified annually by the officer appointed by the committee to check the municipal stock.

OFFICE ORDER-BOOK.

354. An Office Order-Book shall be kept by the committee in which all appointments, promotions, leave, suspensions, fines and office arrangements and orders generally shall be noted. The Secretary shall be responsible that this Order-Book is kept up in a correct and complete manner.

FILEING OF VOUCHERS AND ACQUITTANCE-ROLLS.

355. Vouchers shall be numbered serially for each month, and shall be filed with the sub-vouchers in support of them, *in the Municipal Office of the committee*, in guard files separate from the misls.

356. Acquittance-rolls, being the receipts of the payees given to the disbursing officer who is personally responsible for the distribution of the salaries, shall be retained and filed by the officer concerned, or if he so desire, shall be sent to be filed in the Municipal Office. At the time of audit these rolls shall be placed at the disposal of auditors for purposes of check.

DESTRUCTION OF VOUCHERS AND REGISTERS.

357. Vouchers, registers and other forms prescribed by these rules shall not be weeded or destroyed otherwise than in accordance with the rules for regulating the retention or destruction of municipal records and correspondence as laid down in Appendix A to this code.

ANNUAL VERIFICATION OF PROPERTY.

358. The whole of the municipal property shall be verified once a year by a member of the committee specially appointed on each occasion by the committee for this purpose. If the work of verification is excessive, two members may be appointed. The same officer or officers shall not be appointed on two consecutive occasions.

359. The verifying officer shall personally satisfy himself that the balances are correct, and shall sign a certificate that the figures given in the Register of Immoveable Property, the Register of Tools and Plant, and in the Stock-Books have been agreed by actual counting with the articles themselves.

360. When for any reason it is not possible to verify the whole of a balance of tools and plant or stock in one day, the verifying officer shall verify a portion each day and take precaution that the portion so verified is secured from interference until he has verified the whole. The balances to which he certifies shall, as far as possible, be those on the evening of the 31st of March in each year; but when heads of property or stock are numerous, the books shall be closed on such days as he actually verifies the articles, so that the certificates may represent the actual balances counted.

Example.—For example, the verifying officer takes up the stock of forms for octroi on the 25th of March, and finishes them that day. The books will then be closed on the 25th of March, and the verifying officer will certify that the balance of that day was found correct by actual counting. Similarly, on the 26th of March he takes up the conservancy stock and finishes it the same day. In this case the Stock Register will be closed on the 26th of March and the certificate given.

INDENT FOR FORMS.

361. The committee shall obtain all the forms prescribed by these rules from the "Civil and Military Gazette" Press, Lahore. On or about 1st of November in each year an indent in Form 86 shall be sent direct to the Press for the forms likely to be required during the following financial year. The cost of the forms supplied shall be paid immediately on receipt of advice from the Press of the amount due.

The committee shall not print at any Municipal Press or obtain from any other source, except the "Civil and Military Gazette" Press, Lahore, any of the forms prescribed by these rules.

CUSTODY OF VALUABLES.

362. Government Promissory Notes shall, if they are not likely to be returned within 12 months, be sent for safe custody to the Accountant-General. In all other cases, valuables belonging to committees shall be kept in the treasury in a strong box, the keys of which shall remain with such person as the committee may direct.

MINIMUM WORKING BALANCE.

363. The actual cash balance of the committee shall not at any time be less than one-tenth of its annual income, subject to a maximum of Rs. 20,000. Such sum shall not include invested funds.

PENALTIES.

A breach of any such provision of any of the rules of this Code as is mentioned in the schedule appended shall be punished with fine which may extend to fifty rupees.

SCHEDULE.

1	2
Rules.	Provision, breach of which is an offence.
39	Failure to pay the octroi assessed in accordance with clause (1), (2) or (3) of the rule referred to.
40	Failure to pay the octroi assessed by the Octroi Superintendent.
43	Refusal to pay the octroi on demand of the muharir.
45	Refusal to produce the octroi receipt when called upon by the inspector to do so; or to permit the inspector to inspect the goods; or to accompany the inspector to the Head Octroi Office when called upon to do so.
51 (1)	Failure to take the octroi receipt to the central barrier, and to pay the octroi within the time prescribed.
51 (3)	Refusal to produce the octroi receipt when called upon by the inspector to do so; or to permit the inspector to inspect the goods; or to accompany the inspector to the Head Octroi Office when called upon to do so.
60	Refusal to produce the pass when called upon by the inspector to do so; or to permit the inspector to inspect the goods; or to accompany the inspector to the Head Octroi Office when called upon to do so.
116	Taking goods out of the warehouse without bringing them to the warehouse barrier, and making the declaration required by the rule.
128 (i)	Refusal to take goods to the warehouse when required to do so in accordance with the rule.
134	Refusal to produce the octroi pass when called upon by the inspector to do so; or to permit the inspector to check the items with the goods.
136	Passing the toll-bar, with any vehicles or animals mentioned in the table referred to in the rule, without paying the appropriate toll thereon.
138	Refusal to produce the ticket when called upon by the inspector to do so; or to allow the inspector to take the coupon.
201	Refusal to produce the ticket when called upon by the inspector to do so; or to allow the inspector to take the coupon.
229	Refusal to produce the ticket when called upon by the Secretary or other inspecting officer to do so; or to allow either officer to take the coupon.

SECURITY BOND.

[RULE 286.]

Whereas the municipal committee of

_____ has agreed to appoint

{ me
A B
A B } son of _____ resident of _____

[The preamble should be varied according as the bond is for A, personal security, B, personal security with sureties, C, sureties only.]

in the district of _____ to be a

or

in the _____ Department

on { my giving security
our giving security
our becoming sureties }

for the faithful and diligent performance of

{ my duties
his duties
his duties } as _____

[A, B, and C are alternative clauses : one of which should be used according to the circumstances]

A. Be it known that I (A B) am held and firmly bound to the said committee in the sum of rupees _____ to be paid to the said committee, for which payment I bind myself and my heirs, executors and administrators firmly by these presents and to further secure which payment I hereby (mortgage or assign by way of mortgage) unto the said committee as set out in the schedule hereto attached.

Or B. Be it known that or we (A B, C D, and E F) are held and firmly bound to the said committee in the sum of rupees _____ to be paid to the said committee, for which payment we bind ourselves jointly and severally and our heirs, executors and administrators firmly by these presents and to further secure which payment we hereby (mortgage or assign by way of mortgage) unto the said committee as set out in the schedule hereto attached.

Or C. Be it known that or we (C D and E F) are held and firmly bound to the said committee in the sum of rupees _____ to be paid to the said committee for which payment we bind ourselves jointly and severally and our heirs, executors and administrators firmly by these presents and to further secure which payment we hereby (mortgage or assign by way of mortgage) unto the said committee as set out in the schedule hereto attached.

The condition of the above-written bond is such that if { AB } shall faithfully and diligently { my } duties as a _____ and perform { his } shall from time to time and all times when required so to do account for, render, and deliver to the said committee or as may be directed by the said committee, all moneys, securities for money and property whatsoever for or with which { AB } may be accountable or chargeable { AB } may receive or be entrusted or which { AB } hold, destroy or in anywise injure any such money securities for money and property as aforesaid, then the above-written bond shall be void otherwise it shall remain in full force.

Provided always that if the said (obligor) shall at any time or from time to time be transferred to any other municipal committee or committees within the said district of _____ then and in that case these presents shall be read and construed as if instead of the municipal committee of _____, under which the said (obligor) the name of such municipal committee within the district of _____ may be at any time serving were therein written and the condition of the above written bond shall apply in the case of any such municipal committee within the district of _____.

And so that any forgiveness or forbearance on the part of the said committee towards A B in respect of his failure to perform his duties or otherwise comply with the condition of this bond shall not in anywise exonerate the said or either of them or their heirs, executors or administrators or the property hereby mortgaged from liability under the above-written bond.

[This clause is not to be used where there are no sureties.]

SCHEDULE.

Signed by the above-named _____
in the presence of _____

[Two witnesses are required.]

NOTE.

- (1) Where immoveable property is mortgaged the bond must be registered.
- (2) Where the name of the office to be held by the *employé* is mentioned in the bond the bond will hold good only in respect of that office. If the *employé* is likely to serve in more than one capacity either on promotion or otherwise, the form will require alteration.

(i) It must be clearly understood that under these heads only such general charges are to be shown as cannot be properly shown under any of the other heads. Wherever establishment is employed, or works are constructed for a particular purpose only, the charge should be shown under the head to which that purpose belongs, and not under these heads.

(ii) If the Public Works Establishment be employed partly upon works connected with any of the other heads, the share of the charges debitable to these heads should be shown under these heads and not under this head.

(iii) Cost of buildings erected or stores used for special works, e.g., for water-works, should be charged to those works; cost of such buildings or stores only will be shown here as cannot properly be shown under any of the other heads.

The appointment will be temporary but will certainly last not less than a year and probably more. Applications stating age, etc., to be addressed to Settlement Commissioner, Central Provinces.

B. P. STANDEN,
Commissioner of Settlements and Land Records, Central Provinces.

HIGH COURT—ORIGINAL SIDE.

NOTIFICATIONS.

Calcutta, the 24th August 1905.

The Honourable the Chief Justice of the High Court of Judicature at Fort William in Bengal has appointed Howard Rumney, Esquire, of Nos. 17 and 18, Basinghall Street in the City of London, Solicitor, a Commissioner within all parts of England to take affidavits or affirmations or declarations in all suits, matters and proceedings in the Calcutta High Court and also the acknowledgments of married women in respect of property in India.

The Honourable the Chief Justice of the High Court of Judicature at Fort William in Bengal has appointed Frank Brinsley Harper, Esquire, a member of the firm of Lumley and Lumley of Old Jewry Chambers in the City of London, Solicitor, a Commissioner within all parts of England to take affidavits or affirmations or declarations in all suits, matters and proceedings in the Calcutta High Court and also the acknowledgments of married women in respect of property in India.

RULES.

The 24th August 1905.

It is ordered that the following Rules be read and passed as the Rules and orders of the High Court of Judicature of Fort William in Bengal in its Original Jurisdiction to take effect from the first day of September 1905 :

513C. That Rule 10, Bel. R. and O., be amended by striking out the words "Chief Clerk" and inserting in lieu thereof the words "Master or Deputy Registrar,"

that Rule 11, Bel. R. and O., be amended by striking out the words "Chief Clerk" and inserting in lieu thereof the words "Master, Deputy Registrar"

that Rule 16, Bel. R. and O., be amended by striking out the words "Chief Clerk" and inserting in lieu thereof the words "Deputy Registrar" and by altering the words "Assistant Registrar or other officer" to the words "Assistant Registrars or other officers,"

that Rule 19, Bel. R. and O., be amended by adding the words "Registrar or" before the word "Master" where the said word "Master" occurs in line 2 and in line 6 and by striking out the words "the Master" in line 13 and inserting in lieu thereof the words "a Judge" and by striking out the words "in Equity" in line 20 and inserting the words "Registrar or" before the word "Master" and by striking out the words "for want of any other proper person who is willing to undertake any such duty" in lines 8, 9 and 10 and by striking out the word "name" in line 10 and inserting in lieu thereof the word "appoint" and by striking out the word "officer" in line 11 and inserting in lieu thereof the words "Receiver of the Court" and by striking out the words "who shall have been nominated by the Court" in lines 11 and 12 and by striking out the word "estates" and inserting in lieu thereof the words "any estate and property" and by striking out the word "officer" in line 12 and inserting in lieu thereof the words "Receiver of the Court" and by striking out the word "ought" in line 15 and inserting in lieu thereof the words "is required" and by striking out the words "Accountant General and Sub-Treasurer of the Company" in lines 18 and 19 and in lieu thereof inserting the words "Comptroller General of Accounts for the time being of the Government of India and the Secretary and Treasurer for the time being of the Bank of Bengal" and by striking out the words "by the 197th Rule" in line 22, and by striking out the words "once in the year" in line 15,

that Rule 21, Bel. R. and O., be amended by striking out the words "the Master" in lines 6, 7, 12 and 19 and inserting in lieu thereof the words "a Judge" in line 6 and the words "the Judge" in lines 7, 12 and 19 and by striking out the last four lines of the said Rule from the words "And the Master" to the words "paid in their balances" and by striking out the words "except in cases where the officer of the Court is appointed the Receiver as mentioned in the 193rd rule" in lines 1, 2 and 3 and by striking out the words "once in every year" in lines 6 and 7 and by adding after the word "oath" in line 6 the words "half-yearly" and by striking out the word "annual" in line 9 and inserting in lieu thereof the words "the half-yearly" and by striking out the word "annual" in line 18 and inserting in lieu thereof the words "half-yearly,"

that Rule 455, Bel. R. and O., be amended by striking out the words "Chief Clerk" and inserting in lieu thereof the words "Master, Deputy Registrar,"

that Rule 529, Bel. R. and O., be amended by adding thereto the words "or by the Master"

that Rule 531, Bel. R. and O., be amended by inserting after the word "Registrar" the words "or Master," and

that Rule 20, Bel. R. and O., be repealed and the following Rule be passed in substitution therefor:—

In every order directing the appointment of a Receiver of immoveable property there shall be inserted a direction that the Receiver shall have all powers provided for in Section 503, Clause (d) of the Code of Civil Procedure except that he shall not without the leave of the Court (1) grant leases for a term exceeding three years, or (2) bring suits in a District Judge's Court or a Subordinate Judge's Court except suits for rent, or (3) institute an appeal in any Court (except from a decree in a rent suit) when the value of appeal is over Rs. 1,000 or (4) expend on the repairs of any property in any period of two years more than half of the nett annual rental of the property to be repaired, such rental being calculated at the amount at which the property to be repaired would let when in a fair state of repair.

The said rules as amended are as follows:—

Rule 10.—All writs, orders, summonses and other judicial process, issued or made in the exercise of the ordinary original civil jurisdiction of this Court, shall be signed by the Prothonotary, Registrar, Master or Deputy Registrar of the Court and sealed with the seal of the Court; but the Sealer shall not affix the seal to any writ of *habeas corpus* or injunction, unless the same shall be countersigned by a Judge of the Court.

Rule 11.—The seal may be affixed on the authority of the signature of the Registrar, Prothonotary, Master, Deputy Registrar, or Sealer, to all writs, orders, summonses and other judicial process, issued or made in the exercise of the original jurisdiction of this Court, or on appeal from the Original Jurisdiction, in the same manner as the same is now affixed on the signature of the Sealer.

Rule 16.—The office copies of deposition, of witnesses, which are furnished by the Court to parties for the purposes of appeals pending or about to be instituted, being usually very inaccurate and frequently unintelligible it is ordered that, in future, the Deputy Registrar, Assistant Registrars, or other officers by whom any depositions may have been taken down of which an office copy is required for the purposes of an appeal, shall himself settle and be responsible for the accuracy and legibility of one fair copy of the deposition; and all office copies shall be made from the fair copy so settled.

Rule 19.—In all cases in which it shall be referred to the Registrar or Master to enquire and report who is a fit and proper person to be the Receiver of any estate and property or Guardian of the property of any infant, or manager of any estate or property, for the purpose of the giving effect to any charitable bequest, the Registrar or Master shall also inquire and report what will be a proper commission or salary to be allowed. And whenever it shall become necessary to appoint the Receiver of the Court to be Receiver of any estate and property the said Receiver of this Court shall pass his accounts half-yearly before a Judge in such manner as any other Receiver, Manager, or Guardian is required to do; and in like manner as other Receivers are required to do upon passing their accounts, he shall pay all monies into the hands of the Comptroller General of Accounts for the time being of the Government of India and the Secretary and Treasurer for the time being of the Bank of Bengal with the privy of the Accountant General of this Court; and the Registrar or Master is required to report any default of the officer in these respects, in like manner as he is required to report the default of other Receivers.

Rule 21. All receivers of estates, and committees of the estates of idiots, lunatics, and managers of any estate or property for the purpose of giving effect to any charitable bequest, shall pass their accounts upon oath half-yearly before a Judge; but the Judge shall be at liberty, upon the appointment of any such receiver, committee or manager, at any time subsequent thereto in the place of the half-yearly periods for the passing of such accounts to fix either longer or shorter periods at his discretion. And the Judge shall, upon the passing of such accounts, fix the days on which such receiver, committee, and manager shall pay the balances appearing due on their accounts into Court. And with respect to such receiver, committee, ~~or~~ managers, as shall neglect to pass their accounts or to pay the balances thereof at the ordinary half-yearly periods, or at such other period as shall be by virtue of this rule fixed for that purpose, the Judge shall, from time to time, when their subsequent accounts are produced to be examined and passed, not only disallow the commission or salaries therein claimed by such receivers, committees, or managers, but also charge interest at six per cent. per annum upon the balances so neglected to be paid by them during the time the same shall appear to have remained in their hands respectively.

Rule 455.—In case of the temporary absence of the Registrar, the Master, Deputy Registrar, or other qualified officer, may be authorised by the Chief Justice to perform the duties usually performed by the Registrar, whether in connection with sales or otherwise.

Rule 529.—The issuing of (a) summonses as to Chamber applications and (b) summonses to witnesses shall be deemed to be non-judicial Acts within the meaning of Section 637 of the Code, and such Acts, unless otherwise ordered by the Court or a Judge, shall be done by the Registrar, Original Jurisdiction, or by the Master.

Rule 531.—Any acts done by the Registrar or Master under these rules may be modified or disallowed by the sitting Judge in Chambers, and any such act shall, at the request of either party, be referred to such Judge.

It is ordered that the following rules be read and passed as the Rules and Orders of the High Court of Judicature at Fort William in Bengal in its Original Jurisdiction to take effect from the 20th day of November 1905 :—

294A. For the purpose of interlocutory applications in Court prior to the hearing, every suit shall be marked with the name of one of the Judges, for the time being, to be ascertained by order of rotation ; and for such purposes only shall be assigned to that Judge, but so that it shall be lawful at any time for the Chief Justice to transfer all or any number of suits from any one Judge to another. All interlocutory applications in a suit shall be made to the Judge to whom the suit has been assigned or transferred.

294B. * * * * *
if the Judge to whom the suit is assigned as aforesaid is absent or not sitting on the Original Side any motion therein, if urgent, may be made before any other Judge sitting on the Original Side.

294C. When the Judge of any of the Courts is holding the Criminal Sessions, or is absent from any cause, motions in suits standing for hearing in his Court, if urgent, may be made in any other Court on the Original Side.

515A. All applications of the description specified here under shall be made to the Registrar or Master whose orders thereon shall be final, provided that the Registrar or Master shall refer any such application to be heard and determined by a Judge in Chambers upon its appearing either that both parties so desire and their consent is endorsed upon the Summons, or that one of the parties or, in the case of uncontested applications, that the applicant so desires and the Registrar or Master is satisfied that the matter is a fit and proper one, by reason of its importance or difficulty or novelty or by the reason of the order to be made thereon being appealable, to be referred to a Judge in Chambers. All acts done by the Registrar or Master under this Rule shall be deemed quasi-judicial acts within the meaning of Section 637 of the Code of Civil Procedure.

515B. All applications referred to a Judge in Chambers under the last preceding Rule shall be made to the Judge on a day to be endorsed by the Registrar or Master on the Summons or Petition.

1. Applications for admission of plaints.
2. Applications for leave to verify plaints or written statements.
3. Applications for the special leave of the Court to file a plaint, when such leave is necessary.
4. Applications for leave to sue under clause 12 of the Charter.
5. Applications under section 30 of the Code of Civil Procedure for leave to sue or defend on behalf of all in the same interest.
6. Applications for leave to reserve a right to sue as to part of a cause of action under section 43 of the Code of Civil Procedure.
7. Applications under section 44, rule 2 of the Code of Civil Procedure, to join causes of action in a suit for the recovery of immoveable property or to obtain a declaration of title to immoveable property.
8. Applications for orders for substituted service of summons.
9. Applications by a party in default for further time to file written statement or Affidavit of documents.
10. Applications against a party in default to compel filing of written statement or Affidavit of documents—including applications to dismiss suit for want of prosecution or to strike out defence or to transfer to the undefended list of causes.
11. Applications arising from death, marriage or insolvency of parties to suits or appeals or from the assignment, creation or devolution of any interest, estate or title *pendente lite*.
12. Applications for orders for discovery and for orders concerning the admission production and inspection of documents.
13. Applications to amend plaint or subsequent proceedings where the amendment asked for is purely formal.
14. Applications for Commissions to examine witnesses under section 383, Code of Civil Procedure.
15. Applications for leave to sue or defend in *forma pauperis*.
16. Applications relating to the conduct or frame of suits previous to the hearing unless the suit is in one of the Peremptory Lists of Causes for the day.

17. Applications for admission of a next friend of an infant to bring a suit or make an application.
18. Applications for removal of a next friend under Rule 625, Belchambers' Rules and Orders or for leave to a next friend to retire under rule 626, Belchambers' Rules and Orders.
Applications for removal of guardian-ad-litem under Rule 641, Belchambers' Rules and Orders.
20. Applications for appointment of a new next friend under Rule 627, Belchambers' Rules and Orders, or of a new guardian-ad-litem on removal or death of a guardian-ad-litem.
21. Applications for orders for production of prisoners and others under the Prisoner Act, 1900.
22. Applications for short date Summonses.
23. Applications for order requiring a party to a suit or matter to produce and leave in the Translator's Office any document not in the English language in his possession for the purpose of being officially translated.
24. Applications for leave to deliver interrogatories.
25. Applications for time to file affidavits in answer to interrogatories.
26. Application for order for production of documents.
27. Consent applications for change of Attorneys.
28. Consent applications for discharge of an Attorney from further acting on behalf of his Client.
29. Consent applications for order permitting the withdrawal of a suit, appeal, application or matter.
30. Applications for order for execution of a decree or order for arrest, attachment, sale or otherwise *with power to order issue of notice under section 248, C. P. C., where such notice is necessary.*
31. Applications for order for withdrawal of an attachment, or for return of a warrant.
32. Applications for order confirming a sale in execution of a decree and for certificate of sale to purchaser of immoveable property.
33. Applications for possession under Sections 318 and 319 of the Code of Civil Procedure.
34. Applications for order for the transmission of a decree with the prescribed certificate to another court for execution.
35. Applications for order for production of records before any Court or Officer (should be by the Registrar only.)
36. Applications for order for issue of notice or *Subpoena* to a Court, or Public Officer to produce a public Record or Register.
37. Applications for order directing a Registrar of Assurances to transmit a will to the High Court.
38. Applications for order for issue of citation to any person to bring any Testamentary document or other paper into Court.
39. Such other matters as are not expressly required to be disposed of in Court.

515C. In the case of an order permitting the withdrawal of a suit, appeal, or matter the Registrar or Master shall, unless the parties otherwise agree, insert in the order a direction that the plaintiff is to pay to every defendant, or respondent who has filed a Written Statement, or a memorandum of appearance, his costs of the suit, appeal, or matter, when taxed.

515D. Unless the Court or a Judge otherwise orders (or the Registrar or Master otherwise directs), the costs of all orders passed by, and of all proceedings before the Registrar, or Master shall be costs in the cause.

515E. If it is necessary to enforce payment of costs under a direction of the Registrar or Master an order for that purpose must be obtained from a Judge sitting in Chambers. Applications for such order may be made, without notice, by petition supported by a certificate of the Officer whose direction is sought to be enforced.

515F. All orders made by the Registrar shall be drawn up and signed by the Registrar and all orders made by the Master shall be drawn up and signed by the Master.

513. *For the more convenient despatch of the business of the Court the Registrar or the Master will every day, unless notice to the contrary be previously given, sit to dispose of applications which are of course (as specified in Rule 515 A) or of such a nature as not to require legal argument or examination of witnesses except in support of an application to sue as a pauper. In the event of the absence of both the Registrar and the Master such applications, if of an urgent nature, may be made to the sitting Judge in Chambers.

Applications and matters which do not fall within this description will not be taken in Chambers, and in particular applications or matters of the following kind will not be taken by the Judge in Chambers or by the Registrar or Master.

- (1) The trial of any suit or the settlement of issues.
- (2) The examination of witnesses, whether in a pending suit or proceeding before the hearing, or under a Commission or Mandamus to the Court.
- (3) A motion for, or to dissolve, an injunction for a stay of proceedings, or for affecting in any other way the status of a suit, not being undefended which is already in the Peremptory Board of the day for hearing; for the appointment of a Receiver; for the attachment before judgment of either the person or property of a defendant; to vary a decree, or to vary or discharge an order, or a certificate or report also all cases in which cause is shown against an application of the forgoing class.
- (4) An application to take a plaint of the file.
- (5) An application for an order to wind up a company, and any proceeding subsequent there to in the matter of the winding up, except—
 - (a) For leave (under Rule 4 of the Rules made pursuant to the Indian Company's Act) for a person other than a Petitioner to verify the petition;
 - (b) for an order (under Rule 7 of the said Rules) to proceed with the winding up and fixing a time for the appointment of an official liquidator.
 - (c) for directions under Rules 9, 14, 20, 33 and 50 of the said Rules.
- (6) Any step or proceeding in Lunacy.
- (7) An application to take money out of Court, except where it has been realized in execution
- (8) An argument upon a special case.
- (9) An application for review.

513 A. One Judge will, on dates to be notified, sit in Chambers to dispose of applications which may have been referred by the Registrar or Master to a Judge in Chambers and of applications or matters which do not fall within the description of those specified in Rule 515 A.

513 B. In any case which the signature of the Judge, who has made an order in Chambers, cannot be obtained by reason of his absence or other cause, such order may be signed on his behalf by any other Judge adding thereto the date of signing.

269 A: Notice requiring the production of documents under Section 131, Civil Procedure Code, shall be in the following form with such variations as the circumstances of the case may require :—

Form of Notice to produce documents. Section 131 of the Code of Civil Procedure.

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL,
ORDINARY ORIGINAL CIVIL JURISDICTION.

SUIT No. OF

A. B. *versus* **C. D.**

Take notice that the plaintiff (or defendant) requires you to produce for his inspection the following documents referred to in your plaint (or written statement, or affidavit:—

Dated the day of

Describe documents required.

X. Y.

Attorney for the Plaintiff (or the Defendant).

To

Z.,

Attorney for the Defendant (or Plaintiff).

269B. Two copies of every such notice shall be delivered to the Registrar, who, on being satisfied that the case is not likely to come on for hearing within the next ten days, shall file one of such copies, and shall deliver the other copy for service to the Attorney of the party tendering the notice, or if there be no Attorney, then to the Sheriff, after adding at foot thereof his signature and official designation after the words—

"Let this be served by the Plaintiff's Attorney (or the defendant's Attorney, or the Sheriff, as the case may be)."

By order of the Court.'

269C. On the copy of the notice filed under the last preceding rule shall be endorsed the date on which it was filed, and also the date on which the other copy was delivered out for service.

269D. Any party may, by notice in writing, at any time not later than ten days before the day for which the hearing has been fixed call on any other party to admit, for the purposes of the suit, matter, or issue only, any specific fact or facts mentioned in such notice. And in the case of refusal or neglect to admit the same within six days after service of such notice, or within such further time as may be allowed by the Court or a Judge, the costs of proving such fact or facts shall be paid by the party so neglecting or refusing, whatever the result of the suit, matter or issue may be, unless at the hearing the Court or a Judge certify that the refusal to admit was reasonable, or unless the Court or a Judge shall at any time otherwise order or direct : Provided that any admission made in pursuance of such notice is to be deemed to be made only for the purposes of the particular suit, matter or issue, and not as an admission to be used against the party on any other occasion or in favour of any person other than the party giving the notice : Provided also that the Judge may at any time allow any party to amend or withdraw any admission so made on such terms as may be just.

269E. Notice to admit facts shall be in the form No. 269E (1) and such admissions of facts shall be in the form No. 269E (2) with such variations as circumstances may require.

Form No. 269E (1).

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL,
ORDINARY ORIGINAL CIVIL JURISDICTION.

SUIT No. OF

Plaintiff,

versus,

Defendant.

Take notice that the plaintiff (or defendant) in this cause requires the defendant (or plaintiff) to admit, for the purposes of this suit only, the several facts, respectively, hereunder specified ; and the defendant (or plaintiff) is hereby required, within six days from the service of this notice, to admit the said several facts, saving all just exceptions to the admissibility of such facts as evidence in this suit.

Dated 190

Attorney for the plaintiff (or defendant).

To

Attorney for the defendant (or plaintiff).

The facts, admission of which is required, are (here set out the facts).

Form No. 269E (2).

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL, ORDINARY
ORIGINAL CIVIL JURISDICTION.

SUIT No. OF

Plaintiff,

versus,

Defendant.

The defendant (or plaintiff) in this suit, for the purposes of this cause only hereby admits the several facts, respectively, hereunder specified, subject to the qualifications or limitations, if any, hereunder specified, saving all just exceptions to the admissibility of any such facts, or any of them as evidence in this cause :

Provided that this admission is made for the purposes of this suit only, and is not an admission to be used against the defendant (or plaintiff) on any other occasion, or by any one other than the plaintiff (or defendant or party) requiring the admission.

Delivered, etc.

Attorney for the defendant (or plaintiff).

To

Attorney for the plaintiff (or defendant).

269F. If a notice to admit or produce comprises documents which are not necessary the costs occasioned thereby shall be borne by the party giving such notice.

269G. A party may at any stage of a suit or matter, where admissions of fact have been made either on the pleadings or otherwise apply to the Court or a Judge on motion for such decree or order as upon such admissions he may be entitled to, without waiting for the determination of any other question between the parties; and the Court or a Judge may upon such application make such order or upon the suit or matter being set down for hearing in the Peremptory List of Causes pass such decree as the Court or Judge may think just.

A. 502. Except where according to the existing practice any order may be made *ex parte* absolute in the first instance and except where a motion or application may be made for a rule *nisi* or order to shew cause only, no motion shall be made without previous notice to the parties affected thereby.

502 (a). When a rule *nisi* or order to shew cause is granted by the Court a day shall be fixed for the hearing thereof, and the rule shall, unless the Court or a Judge shall otherwise specially order, be served at least four clear days before the day fixed for the hearing. The rule together with the affidavit or affidavits of service thereof shall be filed in the Registrar's office immediately after service.

Affidavits in answer shall be filed in the Registrar's office not later than 4 o'clock on the day preceding the day fixed for the hearing.

504 (a). Every notice of motion and every rule issued by the Court shall be entered by the Registrar in a list for hearing on the day for which such notice is given or rule is made returnable (being a day appointed for the hearing of motions) and shall be called on in its order in the list. If when the motion or rule is called on, neither party appears the motion or rule shall be passed over until the list has been gone through. The motions and rules passed over shall then be called on a second time in their order. If neither party appears to a motion or rule so called on it shall be dismissed.

504 (b). If the opposite party does not appear at the hearing of a motion or rule, the Registrar shall not draw up the order thereon unless it shall appear in the officer's note of the application that service of the notice of motion or rule has been proved to the satisfaction of the Court or Judge hearing the motion or rule.

504 (c). If the party giving notice or obtaining the rule does not appear, but the opposite party does appear, the Court may dismiss the motion or rule or make such other order as to the Court may seem fit.

504 (d). If a rule or notice of motion is not entered in the list owing to non-compliance with the provisions of rule 502 (a) as to the filing of the rule and affidavit or affidavits of service, or owing to non-compliance with the provisions of rule 504, as to the filing of the affidavits and grounds of the party moving the Court may on the application of any party who has been duly served with such rule or notice and who appears to show cause or oppose, make such order as to the costs of his appearance and the entering in the list and the hearing of the rule or motion as to the Court may seem fit.

504 (e). No adjournment of a motion or rule in the list shall be granted except upon affidavit shewing sufficient grounds for such adjournment; provided that the Court may on the first day of hearing of a motion or rule grant an adjournment (for the convenience of counsel) if all parties consent thereto, and no grounds further than the statement of counsel shall in such case be required.

A motion or rule so adjourned shall be marked "adjourned" and shall take precedence of other motions and rules on the list which are not so marked.

646 (a). All proceedings under the Guardians and Wards Act, 1890, in these rules called "the said Act," shall be entitled in the matter of the minor.

646 (b). An application for the appointment of a guardian, or for a declaration that a person is the guardian, of a minor, shall be by original petition.

646 (c). The application shall, in addition to the particulars required by section 10 of the said Act, state whether the minor is entitled to any property absolutely, or subject to the rights or interests of any other person, and whether any property is subject to any, and what incumbrances; and shall specify all persons of the same degree of relationship as, or of nearer degree than, the proposed guardian, and where a female is proposed as guardian, the nearest male relation of the minor.

Where the father of the minor is living, and is not proposed as guardian, the application shall also state any facts relied on as shewing that he is unfit to act as guardian of the minor, or that he consents to the application.

646 (e). Where it is proposed to deal with any property of the minor in manner mentioned in section 29 of the said Act, the grounds of the application, and the relief prayed, shall be stated shortly in the original petition, and it shall not be necessary to present a separate petition or application.

646 (f) The declaration of the willingness of the proposed guardian to Act may be written at the foot of, or annexed to, or exhibited with, the petition.

646 (g) Notice of the application shall be issued and served in manner prescribed for summons to a defendant. The Court may also direct the petitioner to publish the notice in such newspaper or newspapers as it thinks fit, and shall direct such publication in any case in which the petitioner is not a relation of the minor.

646 (h). Unless the Court otherwise orders, a person appointed, or declared to be, guardian of the property of the minor, shall give security, in the Bond of himself and two or more sureties, for the amount or value of the moveable property, and of the annual rents, profits or other income of the moveable and immoveable property, to be received or accounted for, by the guardian; and shall furnish the statement of the property and debts mentioned in sub-section (b) of section 34 of the said Act, and shall pass his accounts once in every year.

646 (i). If the Court think fit to appoint a guardian without giving security unless otherwise ordered, the order shall direct that an undertaking shall be given by the guardian to furnish the statement above mentioned and to keep a full and correct account of all monies and property of the minor, received or expended by the guardian on his behalf, and to file and prove the same in Court, whenever so required.

646 (j). At the hearing, the Court may determine the amount to be allowed for the maintenance and education of the minor, and the amount, if any, to be allowed to the guardian as his remuneration, and may also give any special directions as to the power to be exercised by the guardian.

646 (k). If any person is entitled to maintenance out of the property or to reside in any house of the minor, the Court may fix the amount to be paid to such person for maintenance, or in respect of maintenance and residence, or give such directions with respect thereto as it thinks fit.

9 A. The officers of the Court shall not receive any pleading, petition, affidavit or like document on the file (except original exhibits), unless the same shall be fairly and legibly transcribed on durable paper, foolscap size, and all office copies shall be transcribed in like manner.

26 A. An Attorney or a party in person shall, as soon as practicable, send to the translator's office for translation any vernacular documents on which he may rely. If he fail to do so or send the same so late that the translation is not ready for use when the case is called on, the Court or Judge may disallow the costs of such translation.

26 B. Whenever an Attorney or a party in person sends any documents for translation, he shall, so far as he can, state in the præcipe the probable date of the hearing of the suit or matter in which the translation is to be used.

26 C. No vernacular document shall be accepted in evidence unless officially translated except that private translations may be accepted subject to official translation, if good and satisfactory reason is given why the document was not lodged in the Translator's Department in time for translation.

26 D. Translations of documents in the French, German, or other foreign language, shall be made by special Translators (if any) appointed by the Court. Applications for such translations shall be made to the Registrar, who shall forward them to the said special Translators.

26 E. Where translation of a document or entry or entries in the vernacular in the possession of one party, is required by the other party for the hearing of the suit, the former, on the application of the latter, shall immediately send the originals to the Translator's Department for translation, or allow the latter to take copies thereof, and after examination of such copies, without any delay certify them to be correct copies. Translations of such certified copies shall be admissible at the hearing. In dealing with the costs of the suit the Court or a Judge shall have regard to any failure to comply with the provisions of this Rule.

26 F. The Registrar on good cause being shewn, may sanction the immediate translation of any documents on payment of double the usual fee.

26 G. An Attorney who shall obtain a translation of any document to be used for the purposes of a suit or matter shall, if required, furnish a copy of such translation to the opposite party or his Attorney, on payment of half the translation charges.

26 H. The Court or a Judge may, at any time, require a party to the suit or matter to produce, and leave in the Translator's office any document not in the English language in his possession for the purpose of being officially translated, and may order that the translation when made shall be filed with the proceedings in the suit.

51 A. Any Judge of the High Court may, subject to any rules of Court, exercise in Court or in Chambers all or any part of the jurisdiction vested in the High Court on its Original Side.

142 A. An Attorney when he has taxed his bill of costs against his client, may apply in Chambers on summons for an order against his client or the legal representatives of such client for payment of the sum allowed on taxation or such sum as may then remain due. The Judge on hearing the summons may make such order or refer the parties to a suit, such order if made may be executed under Chapter XIX of the Code of Civil Procedure as a decree for money.

238 A. The Judge to whom the plaint is presented may, if he shall think fit, require a translation of any document not in the English language to be filed with the plaint

* * * * *

* * such translation must be official and the non-delivery thereof when required shall have the same effect as if the original document had not been produced.

308A. When an order has been made giving leave to defend a suit filed under Chapter XXXIX of the Code of Civil Procedure if the defendant does not file the order granting leave to defend and complete his security (if any) within the time limited in the order, the plaintiff shall be at liberty to put the suit down for hearing forthwith, as if no such order has been made.

492A. In the event of the appellant failing to apply for, take out and deliver to the Sheriff the notice of Appeal for service on the Respondent within 14 days from the filing of the appeal the Registrar may set down the appeal before the Court of Appeal, if then sitting, or if not sitting before the Senior Judge sitting on the Original Side, for dismissal.

619A. When a suit is brought on behalf of a minor, the next friend shall make an affidavit, to be presented to the Judge with the plaint in the suit, that he has no interest directly or indirectly adverse to that of the minor, and that he is otherwise a fit and proper person to act as such next friend. The age of the minor shall also be stated. No order appointing the next friend by whom the suit is to be instituted will be drawn up.

739A. No proceedings filed in Court shall be produced in Courts other than the High Court without the order of the Judge in Chambers, and no original will filed in Court shall be produced in any place beyond the limits of the High Court except in the custody of one of the Registrar's Clerks and under a like order.

168A. Where a plaint or a written statement has been drafted or settled by an Advocate or an Attorney his name shall appear at the foot thereof: but for the purposes of this rule no pleadings shall be deemed to be drawn or settled by an Advocate if subsequently altered without his consent.

168B. When the Advocate General is a party to a suit in his official capacity he shall be named and described in the pleadings by his official title only. Before the name of any person shall be used in any suit as relator such person shall sign a written authority to the Attorneys for that purpose and such authority shall be filed in the Registrar's office.

BENARES (CANTONMENT) ELECTRIC LICENSE, 1905.

APPLICATION FOR A LICENSE.

It is hereby notified for information that application has been made by Montague Churchill-Shann, whose present address is care of the Agent of the Bank of Upper India, Limited, Allahabad, for a license under the Indian Electricity Act, 1903, and the rules authorised thereunder, to the Government of India through the Local Government, United Provinces, to provide a general supply of Electric Energy for Electric Traction and Light and Power purposes within the boundaries of the Cantonment of Benares.

Every local or other public authority, company, or person desirous of making any representation to the Government of India, or of bringing before it any objection respecting the application may do so by letter addressed to the Secretary to Government, United Provinces, in the Public Works Department, within three months from the date of the issue of this advertisement.

The address of the applicant is care of the Agent of the Bank of Upper India, Allahabad.

The name of the Applicant is Montague Churchill-Shann, an Electrical Engineer.

The area of supply is the area within the limits of the Cantonment of Benares.

The supply is to be for all purposes of Electric Supply (including traction and general purposes of supply for light and power).

The supply for general purposes is to be on the continuous system within the limits of low pressure.

The common return may be earthed.

The licensee shall also be empowered by virtue of this license, subject to the powers and conditions contained in the Electricity Act, 1903, to open, break up or interfere with—

(a) All streets or public or open spaces within the boundaries of the Cantonment of Benares, whether reparable by the Cantonment Committee or by any other public authority.

(b) All places owned by or worked by or in the occupation of the Oudh and Rohilkhand Railway and any other Railway that runs into Benares or that may hereafter come into Benares.

Copies of the proposed license, a map of the district showing the streets where it is proposed to lay Trams and Supply Mains can be seen at the Office of the Cantonment Committee of Benares, and at the Office of the Bank of Upper India, Limited, Allahabad. Copies of the draft license can be had post-free on payment of Rupee one per copy at the Bank of Upper India, Limited, Allahabad.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

The following special telegraphic reports on agricultural prospects are published for general information :

Madras.—Rainfall from 1st April to 19th instant above normal in Ganjam, Vizagapatam littoral, Kurnool, Bellary, Cuddapah, Anantapur, South Arcot, Trichinopoly, Madura, Tinnevely, the Nilgiris ; almost normal in Nellore, North Arcot ; slightly below normal in Vizagapatam Agency, Guntur, Salem, Coimbatore, Tanjore ; between two and four inches below normal in Godavari, Kistna, Chingleput ; between four and seven inches below normal in Madras, Malabar, Kanara. Cultivation figures for April to July show deficiency as compared with five years' average except in Vizagapatam, Godavari, Kistna, Kurnool, South Arcot, Tanjore and the Nilgiris. Prices :—Rice below warning rate in Kurnool, Anantapur, touched warning rate in Kanara. *Ragi* and *cumbu* below warning rate in Vizagapatam ; elsewhere rice and other staples are above warning rates. Scarcity rate nowhere reached except *ragi* in North Arcot and *cumbu* in Madura. General rise of prices in Madura in recent years accounts for high price of *cumbu* there. Condition of labouring classes good and public and private employment available. Test work opened on 7th instant near Madavaram in Saidapet taluk, Chingleput District, since closed as it failed to attract labourers. Two test works just opened in Ponneri taluk and arrangements made to open test works in Tiruvallur taluk in same District. Condition of cattle generally fair and improving with increasing pasture. General prospects much improved by recent rainfall. Collector, North Arcot, states cause of apprehension in his District removed thereby. Rainfall still deficient in Chingleput District, but extensive distress not now probable.

Bombay.—Good to heavy rain during second fortnight of July in greater part of the Presidency and Sindh. Sowing nearly completed. Other conditions unchanged. *Cutch, Cambay and Baroda*—Very little rain during current month ; rainfall still somewhat short in parts of Baroda and Cutch ; sowing continues in parts ; the standing crops in good condition. *Kathiawar*—Rainfall sufficient ; sowing nearly completed. *Gujarat*—Rainfall nearly sufficient, but more needed in two talukas each of Kaira and Broach and five of Surat ; sowing continues ; standing crops in good condition. *Konkan, Savantwadi and Canara*—Rainfall generally sufficient except in coast talukas of Konkan and one of Kanara ; transplantation nearly completed but still continues in parts ; standing crops in fair to good condition. *Deccan*—Rainfall sufficient in Khandesh and generally in western portions of other districts, but insufficient in eastern parts of these and especially in Ahmednagar and Sholapur ; more rain needed everywhere except in Khandesh where standing crops in good condition, crops beginning to wither in parts of Ahmednagar, Poona and Sholapur. *Karnatak*—Rainfall deficient ; sowing continues in parts ; standing crops in fair condition, though suffering for want of rain, other conditions unaltered since my telegram of 21st ultimo.

United Provinces.—Except in the hills, the eastern districts and in Oudh, where prospects are generally satisfactory, the rainfall has so far been markedly insufficient. The deficiency most serious in Jalaun and Jhansi where the standing crops are withering and in the Agra Division where late sown *jwar* has gone. In these districts unless rain falls soon crop failure is certain. Latest accounts speak of showers in Western Bundelkhand. The river Betwa has risen and the situation may improve, but unless it improves test works will shortly be opened in Jalaun. Rain is also urgently needed in rest of Bundelkhand, Cawnpore and Budaun and more rain is wanted for rice in Rohilkhand and the Meerut Division. Fodder is scarce in the affected tracts and prices which have remained high since the frost are rising. Markets sufficiently stocked.

Punjab.—The monsoon current has been extremely feeble in the Punjab since the 2nd week in July. Rain has been confined to the submontane Districts where it has been scanty. Unirrigated crops sown in other parts of the Province have withered. It is now too late for further sowings in the event of a fresh advance of the monsoon. Inundation canals on which large areas depend in the south-west have thus far worked well. The autumn harvest will be much below the average. Agricultural stock is however ample as the last two years have been prosperous. Prices have risen, but food-stocks are not dear. September rains for spring sowings will be awaited with anxiety ; having regard however to the experience gained in 1901-02 when both harvests failed after a bumper year, the Province should now be able to face two bad harvests without being reduced to actual famine conditions.

North-West Frontier Province.—Rainfall insufficient and below average in all districts, except Hazara. Condition of standing crops good on irrigated land, but more rain required for crops on unirrigated land. Areas sown average on irrigated land, but below average everywhere on unirrigated land. Stocks of food-grains and fodder sufficient and prices normal. Canals working well.

Burma.—Upper Burma—Rain at present much needed in Sagaing and Myingyan, in parts of which cotton and sesamum withering for want of it. Sowing of *juar* delayed in Sagaing from same cause. Rain also required in Lower Chindwin and parts of Magwe and Shwebo. Elsewhere normal. No reason at present to anticipate any serious failure. With more rain shortly any cause for possible anxiety should be removed. **Lower Burma—**Prospects good except in Toungoo and Karen Hill tracts, where some scarcity is reported, owing to partial failure of last year's crop.

Central Provinces.—Rainfall to date except in one district is below normal, and some parts of Provinces have received only one-half or one-third of usual quantity. Area of rice in northern districts has been restricted in consequence. The early rice crops have suffered in places, and transplanting and thinning operations have been retarded. But taking Provinces as a whole the autumn crops have germinated well and are healthy and with good rain in next week or ten days the outturn of rice should be fair and of cotton and *juar* very good, provided there is no failure of rains in September. The shortness of rain has caused serious deficiency of fodder in some parts. Prices are higher, but not so high as to indicate any serious deficiency of supplies or any general apprehension for future.

Assam.—During the past month agricultural prospects have improved throughout the Province. The tea outturn will probably be below normal. Rice promises well, but heavy floods in the Assam Valley may endanger crop in riverain areas.

Coorg.—Rain wanted in East and South Coorg, but no present ground for serious apprehension. Prices slightly above normal. Stocks below.

Rajputana.—There has been practically no rain in Rajputana or Ajmer-Merwara since 22nd July. Crops are withering and prices rising in most parts of Rajputana and in Ajmer-Merwara and situation is now serious. Severe distress for three or four months is certain, and if there is no rain soon there will be severe famine aggravated by water famine which is most serious feature of situation. Emigration of cattle has begun in Ajmer-Merwara, Jaipur and Kishengarh. Test works are attracting large numbers in Merwara and have been opened in Ajmer and are about to be opened in some Native States. Area at present threatened with famine embraces Marwar, Bikaner, parts of Kotah, Tonk, Bundi, Shahpura, Bharatpur, Karauli, Dholpur, Jaipur, Kishengarh, Alwar and Ajmer-Merwara. Some rain was reported from Jaipur and Udaipur on 18th August, but amount received at present still quite insufficient.

Central India.—Timely rain during past ten days has greatly improved the situation in those parts of Central India, where scanty previous falls were causing anxiety. In Western and Northern Gwalior where situation appeared specially serious there is now no fear of extensive famine, provided a fair additional quantity of rain is received not later than a fortnight hence. Crop will inevitably be poor, but if future rain is favourable may suffice. Sufficient grass is available in forest reserves which Maharajah Scindia has opened to free grazing. In remainder of Gwalior State prospects are good. There was good seasonable rain throughout nearly whole of Bundelkhand last week, and there is no present anxiety for this Agency. Crops will be generally fair to good if adequate further rain is received. The outlying parganas of Indore near Neemuch have received rain in last few days, and prospects in that quarter are much improved. In remainder of Indore, in Bhopal, Bhopawar, Baghelkhand and greater part of Malwa the crops are excellent, though grass is deficient in some places.

Secretary to the Government of India.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, SEPTEMBER 2, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

Fee in respect of the continuance of an exclusive privilege—

4 (f) After the expiration of the eighth year and before the expiration of the ninth year from the date of the filing of the specification—

The sum of Rs 100 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not " designs " within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at *Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

~~The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.~~

H. G. GRAVES,

* Secretary under the Inventions,
and Designs Act, V of 1888.

* Agents for sale of the Legislative Department publications

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agents of the particular Government under whose orders they were originally issued.

The amounts within parentheses are for packing and postage.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.

Accompaniment to P. W. D. Review No. 1126-I., dated 24th August 1905.

Note by R. N. Burn, Esq., Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure of Irrigation Works in India for 1903-1904.

(The figures in the statements embodied in this note are taken from the Finance and Revenue Accounts of the Government of India Administrative Accounts of Irrigation Works and the statement of Financial results of Irrigation operations in India.)

1. Irrigation Works in India are divided into Major and Minor Works; Major Works being further sub-divided into Productive, or those which are expected to pay the cost of up-keep and also interest on Capital outlay, and Protective, which are calculated to guard against a probable future expenditure in relief of distress. For the purposes of this note Minor Works are sub-divided into—

- (a) Works for which Capital and Revenue Accounts are kept.
- (b) Works for which Capital Accounts are not kept.

Works for which Capital and Revenue Accounts are kept.

2. The general financial result of all works—both Irrigation and Navigation—for which Capital and Revenue Accounts are kept is as follows :—

	Productive Works.	Protective Works.	Minor Works.	TOTAL.
	Rs.	Rs.	Rs.	Rs.
CAPITAL OUTLAY—	(a)		(b)	
During 1903-1904 . . .	90,24,022	11,31,319	13,37,737	1,14,93,078
To end of 1903-1904 . . .	37,28,02,660	2,48,98,066	5,84,95,095	45,61,95,821
REVENUE ACCOUNT, 1903-1904 —				
Gross Revenue . . .	4,07,61,660	10,88,016	51,09,614	4,69,59,290
Maintenance and working . . .	1,30,42,536	3,65,676	19,36,150	1,53,44,362
Net Revenue . . .	2,77,19,124	7,22,340	31,73,464	3,16,14,928
Interest . . .	1,39,96,673	9,16,839
Net profit after paying interest on Capital . . .	1,37,22,451	—1,94,499
Percentage of net revenue of the year on the Capital outlay to end of the year . . .	7.43	2.90	5.42	6.93
Against in 1902-1903 . . .	7.37	2.61	5.28	6.85
" " 1901-1902 . . .	6.72	2.56	5.83	6.38

(a) Includes Rs. 7,43,259, Expenditure on the Indus Inundation canals, which has been transferred from the category of Minor Works to that of Productive Works from the 1st April 1903.

(b) Excludes Rs. 7,43,259, Expenditure on the Indus Inundation canals [*vide (a) ante*].

PRODUCTIVE WORKS.

3. There are 44 works so classed, one of which, the Hijili Tidal canal in Bengal, is a purely navigation work. The Secretary of State in his Despatch No. 31 P. W., dated 7th November 1904, has classed the Indus Inundation canals previously classed under Minor Works as Productive of the Indus Inundation canals.

4. Of the 44 Works classed as Productive, three* were not open for irrigation by the end of 1903-1904, and thirteen, that is, all the canals in Bengal and in the Deccan and Gujarat, as also the Kurnool canal and Barur tank in Madras, have failed to fulfil the conditions of Productive Works.

* Shwebo canal.
Mon
Naulakhi "

5. The Capital invested on the construction of Productive Works at the end of 1903-1904 amounted to Rs. 37,28,02,660, and the net revenue derived from them during that year was Rs. 2,77,19,124, or a return of 7.43 per cent. on the Capital outlay, against 7.37 per cent. in the previous year. The increase was due to the development of irrigation from the canals in the Punjab and the Jamrao canal in Bombay, and to the transfer of the Indus Inundation canals to the category of Productive Works.

6. The Nasrat canal was opened for irrigation during the year. As the irrigation from it and the other canals under construction becomes fully developed, the net profit from Productive Works may be expected to show a considerable increase.

7. At the end of 1903-1904 there were 34,707 miles of open Productive Irrigation canals, against 32,550 miles open at the end of the previous year, the increase being chiefly in the Punjab, due to the transfer of the Indus Inundation canals. The acreage irrigated during 1903-1904 amounted to 12,623,687 acres against 11,461,990 acres in the previous year.

8. Statements I and II show in detail the financial results of individual Productive Works, the irrigated area, and the mileage open. It will be seen from Statement No. I that the net revenue from these works up to the end of 1903-1904 exceeded the accumulated interest charges by Rs. 12,81,69,765, the highest net profit during 1903-1904 was obtained from the projects in the Punjab; next follow Madras, the United Provinces and Sind. The works in the other Provinces have not yet paid off the interest charges.

PROTECTIVE WORKS.

9. As the term implies, canals, tanks, etc., so classed are constructed on a consideration of the protection they give against famine without any expectation of a return sufficient to pay interest and working expenses. There are 23 works so classed, 16 of which are still under construction.

10. The capital expenditure on these works to the end of 1903-1904 amounted to Rs. 2,48,98,066, or to Rs. 2,22,45,025 on the six works earning revenue and exclusive of the expenditure on the Gokak canal. These works gave a net revenue of Rs. 7,22,340, of which the Nira canal in Bombay accounted for Rs. 1,91,194 and the Swat River canal in the North-West Frontier Province for Rs. 4,57,334, the latter canal having paid the maintenance and interest charges of the year and returned a net profit of Rs. 2,96,620, equal to 7.11 per cent. on the capital invested in it.

11. At the end of the year there were 1,403 miles of open protective canals, against 1,327 miles at the end of the previous year. The area irrigated during the year amounted to 383,990 acres, of which 176,346 acres were irrigated by the Swat River canal. The acreage irrigated during the year was in excess of that irrigated in 1902-1903 by 13,969 acres.

12. Statements III and IV show in detail the financial results of individual Protective Works, the irrigated area, and the mileage open of each.

MINOR WORKS.

Works for which Capital and Revenue Accounts are kept.

13. There were 90 works so classed in 1903-1904, 38 of which are in Bombay and 33 in Madras. Of these 90, six are purely navigation works, four being in Madras and two in Bengal.

14. The expenditure incurred on the construction of Irrigation Works alone amounted to Rs. 3,69,61,607 at the end of 1903-1904, and the net revenue during that year to Rs. 31,26,421, or a return of 8.46 per cent. on the Capital outlay, against 8.05 per cent. in the previous year, despite the fact that the Indus Inundation canals were transferred to the category of Productive Works during the year. This improvement is mainly due to the net revenue from Irrigation Works in Bombay exceeding that of 1902-1903 by Rs. 2,69,700. Although these works are constructed for the general improvement of the country, and not as remunerative works, yet many of them are paying considerably over 4 per cent. on the Capital invested in them; and one, viz., the Ghar canal in Sind, has paid 117.02 per cent. during the year under review.

15. Excluding the area shown under Burma, viz., 453,123 acres, which is not under irrigation, but represents the area of cultivation on lands reclaimed by river flood embankments, the area irrigated by Minor Irrigation Works during 1903-1904 was 1,734,169 acres, against 1,818,448 acres in the previous year, or a decrease of 4.63 per cent. This is accounted for by the transfer of the Indus Inundation canals, vide paragraph 14.

16. The Capital outlay to end of 1903-1904 on the six navigation canals amounted to Rs. 2,15,33,488, and the net revenue during that year to Rs. 47,043. The whole of this was brought in by the Calcutta and Eastern canals, which gave a return of 1.68 per cent. on the Capital outlay. All the other navigation canals worked at a loss.

17. Statements V and VI show the financial results, the irrigated area, and the open mileage of individual works.

Works for which Capital Accounts are not kept.

18. The works under this head are numerous and are all small works, many of which were constructed at the time of the Native rule in India. The cost of their construction cannot now be ascertained, and separate Capital and Revenue accounts are not therefore kept for them. The enhanced land revenue due to these works is assessed and collected along with the ordinary land revenue, and accounted for in the Civil Accounts.

19. The following statement shows the direct receipts from and expenditure on works of this class and compares the transactions of the year 1903-1904 with those of the previous four years:—

	IMPERIAL.		PROVINCIAL.		LOCAL.		TOTAL.	
	Direct receipts.	Expenditure.	Direct receipts.	Expenditure.	Direct receipts.	Expenditure.	Direct receipts.	Expenditure.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Madras	52,047	37,81,603	...	10,598	52,047	37,92,201
Bombay	56,337	20,37,247	56,337	20,37,247
Total for 1903-1904	5,26,638	20,83,406	4,91,873	63,62,486	69,638	57,598	10,88,149	94,03,490
1902-1903	2,49,888	29,95,190	4,61,164	82,14,185	66,484	66,053	7,80,536	92,75,431
1901-1902	2,74,919	22,25,721	4,54,966	56,56,120	94,641	46,351	8,24,526	79,28,192
1900-1901	1,40,638	22,57,968	5,17,276	52,86,000	49,483	15,830	7,07,297	75,59,807
1899-1900	67,686	17,17,665	6,90,998	50,28,394	47,762	20,782	8,06,446	67,66,841

20. The receipts during 1903-1904 were better than those of the previous year by Rs. 8,07,613. The increase occurs chiefly under Imperial, and is mainly due to the abolition of the Chher system of labour and the introduction of water rates on certain canals in the Punjab. The expenditure during 1903-1904 exceeds that of the previous year by Rs. 1,28,059, and occurs under Provincial. It is due to a larger outlay on tanks in the Central Provinces.

General.

21. The surveys and investigations which were commenced in 1901-1902, under the orders contained in Government of India, Revenue and Agricultural Department, Resolution No. 8—61-1-F., dated 13th March 1901, with the object of obtaining information to place before the Commission appointed to enquire into the scope for further irrigation in each Province, were continued during 1903-1904. The

	Rs.
* Surveys and Investigations	10,44,711
Irrigation Commission	47,733
TOTAL	10,92,444

cost of these surveys and investigations, as well as of the Commission itself, was charged to the head "35.—Construction of Protective Irrigation Works," as in the previous year, and a sum of Rs. 10,92,444* was debited on these accounts

against Rs. 7,15,348 in 1902-1903.

22. The General result of Irrigation Works for which Capital and Revenue Accounts are kept, exclusive of purely navigation canals, is brought out in Statement VII. At the end of 1903-1904 the State had spent Rs. 43,20,47,179 on the construction of these works and received a net revenue of Rs. 3,15,50,488 during the year, which is equivalent to 7.30 per cent. on the Capital invested. The area irrigated and the area of cultivation on lands reclaimed by river flood embankments in Burma amounted to 15,194,960 acres, or 23,742 square miles.

R. N. BURN,

Accountant General, P. W. Dept.

GOVERNMENT OF INDIA.
FOREIGN DEPARTMENT.

TRADE REPORT FOR THE PROVINCES OF SEISTAN AND KAIN FOR THE YEAR
ENDING THE 18TH FEBRUARY 1905.

(1) *Increase in Imports and Exports.*—It will be seen from the attached copy of a trade return furnished by the Director of Customs in Seistan that, somewhat contrary to expectations, the imports and exports of foreign trade to and from Seistan during the past year have shown a satisfactory increase, the figures for the year under reference, as noted below, being exactly double what they were for the previous year :—

N.B.—The figures are calculated at kran 4=Re 1, which I roughly estimate to be the average rate during the past year.

	1904-05.	1903-04.
	R	R
Exports . . .	2,81,855	1,61,705
Imports . . .	1,06,171	27,309
TOTAL .	3,88,026	1,89,014

(2) *Increase in Imports.*—The principal increases under imports appear under the heads of "cotton tissues" and "indigo," the former having risen from R27,857 to R73,073, and the latter from R34,680 to R99,320.

The large amount of material (wood and iron), valued at something like R30,000, imported for the construction of the premises of the branch of the Imperial Bank of Persia, has also helped to raise the value of the imports.

(3) *Increase in Exports.*—In exports increases appear under practically all heads, but noticeable under that of "silk tissues," in which a trade has sprung up from nothing at all to over R43,000. This silk, which is a kind of imitation Bokhara silk, is manufactured in the environs of Meshed and Sabzawar, and apparently now commands a ready sale in India.

(4) *Decrease in the import of tea.*—The only serious decrease to be noted under any head during the year is under that of "Tea" under "Imports." This has fallen from R45,453 in 1903-04 to R10,833 in the present year.

(5) *Weight of Merchandise.*—The actual weight of merchandise carried in the past year works out as follows :—

Imports	6,892	Indian maunds.
Exports	2,924	" "
TOTAL .	9,816	" "

In English weight approximately 350 tons.

(6) *Return includes duty-free goods.*—It is to be noted that the statistics furnished by the Director of Customs for the past year include movements of foreign trade only, i.e., trade passing between India and Persia *via* Koh-i-Malik Siah, whether duty-free or otherwise, and between Seistan and Afghanistan as far north as Duroh (to the south-east of Birjand on the Perso-Afghan Frontier).

All foreign trade other than the above, e.g., imports of the Russian Bank from Transcaspia into Seistan, is reckoned as trade pertaining to Khorasan, and is included in the trade returns of that province.

Goods exported to India from Khorasan, *via* Seistan, which have paid duty at Meshed, have been included this year in the trade statistics of Seistan.

(9) *Reasons for the poor sales in Seistan.*—In spite of the general increase in imports and exports during the past year, our traders complain that the market here has seldom been duller than it has during the past six months, and that their monthly takings during this period have only averaged about a half what they did at this time last year.

This is believed to be due to the following causes :—

- (i) The more extensive operations of the Russian Bank.
- (ii) The system of long credits given by it.
- (iii) The present ruinous rate of exchange between India and Persia.
- (iv) The fact that the Russian Bank sells certain goods, such as tea, at a rate far below what they fetch in Russia.

As regards (i), exact information is not available, but approximately 170 camel-loads of goods, consisting chiefly of sugar, kerosene oil, cloth, and cotton prints, have been imported into Seistan during the year by the Russian Bank, as against 120 camel-loads during the preceding year. Branch shops have also been opened at Deh Dost Muhammad and Sehkoah.

As regards (ii), the Russian Bank are now selling most of their goods on credit which extends from three to six months. This operates very hardly against our traders who cannot afford to conduct business on such speculative lines. The result is that they are losing a considerable number of their former clients, who, dazzled by the more attractive terms, are gradually transferring their patronage.

As regards (iii), the Government rate of exchange this time last year was krans 375 = R100: it is now krans 420 = R100. The loss suffered on this account is considerable, as practically all money earned has to be remitted to India, and to make good this loss the prices of goods have naturally to be largely increased, which is not conducive to their ready sale.

(10) *Birjand Trade Returns*.—In addition to the trade returns furnished by the Director of Customs, certain statements, marked A to M, are also attached, giving statistics of the local trade of Birjand. These have been prepared by Dr. Abbas Ali, British Agent at Birjand, from enquiries made by him from local merchants. I have had no opportunity of verifying these, and cannot, therefore, vouch for their accuracy. The information contained in them may be summarised as follows:—

Imports into Birjand.

From	Camel-loads.	Value in rupees.	Description of merchandise.
(1) Bandar Abbas	218	45,135	Cloth, iron, sugar, spices, and matches.
(2) Afghanistan	270	18,125	Ghi, pistachios, wool, carraway, seed, and cotton.
(3) Khorasan and Russia	476	47,125	Sugar, kerosene oil, cotton prints, iron, and bronze.
(4) Kerman	145	52,750	Long-cloth, matches, opium, and spices.
(5) Isfahan	85	80,000	Long-cloth, chintz, and opium.
(6) Yezd	129	56,250	" " shoes, and copper.
(7) Shahrud	96	6,615	Rice, iron, copper, steel.
• TOTAL	1,419	3,06,000	

Exports from Birjand.

To	Camel-loads.	Value in rupees.	Description of merchandise.
(1) Bandar Abbas	317	34,625	Wool, pitch, pistachios, assafoetida and dried fruits.
(2) Afghanistan	57	3,875	Chintz, red dyes (mujeth).
(3) Khorasan and Russia	874	1,47,250	Carpets, woollen cloth (barak), skins, zirishk.
(4) Kerman	142	21,000	Wool and water melon seed.
(5) Isfahan	162	22,000	Wool, kuruk (cloth), dried fruits.
(6) Yezd	237	39,375	Wool, kuruk, and sesame.
• TOTAL	1,789	2,68,125	

(11) Reasons for the decline of the trade of the Kainat during the past year. The decline in the imports between Birjand and the other parts of Persia was due chiefly to the cholera epidemic of last year. From July till December all travellers coming from Khorasan or Yezd were stopped and turned back, while the people of Birjand deserted the town in large numbers and sought asylum in the hill villages off the main routes.

(12) Absence of British traders from Kain. No British traders are established in Kain, although the purchasing power of that province is much larger than that of Seistan, and return loads for the camels that have brought merchandise from India are easier to obtain.

F. NOËL-PATON

Director-General of Commercial Intelligence

W. L. HARVEY

Secretary to the Government of India

Calcutta, September 1, 1905

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, SEPTEMBER 9, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 7th September 1905.

N O T I F I C A T I O N S.

No. 3344 P.—APPLICATIONS in respect of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 2nd September 1905:—

- No. 400 of 1905.—Sir W. G. Armstrong, Whitworth and Company, Limited, manufacturing engineers, of Elswick Works, Newcastle-upon-Tyne, England. *Improvements in means for operating small arms as machine guns.*
- No. 401 of 1905.—Hans Siegwart, architect, of Sempacher strasse, Lucerne, in Switzerland. *Improvements in or relating to machines for manufacturing hollow artificial stone beams or girders.*
- No. 402 of 1905.—Tracey Gavin Jones and William Jeffers Craig, engineers of Messrs. Gavin Jones & Son, Cawnpore, c/o Messrs. Remfry & Son, solicitors and patent agents, 8/2 Hastings street, Calcutta. *Improvements in latrines and the like.*
- No. 403 of 1905.—Edward Jacob Hill, engineer, of 11 Victoria street, in the city of Westminster, London, England. *Improvements in hand-lever brake-gear for railway waggons.*
- No. 404 of 1905.—Andrew MacDougall, foreman blacksmith, Rajputana-Malwa Railway, Ajmer. *A combined automatic screw coupling and buffer with safety coupling gear.*
- No. 405 of 1905.—Samuel Telford Dutton, signal engineer, of the East Indian Railway, Calcutta. *An improved apparatus for the exchange of tokens used as "Line clears" on railways.*
- No. 406 of 1905.—The Muir Mills Company, Limited, manufacturers, a company incorporated under the Indian Companies Act and having its registered office at Cawnpore, British India, and Captain Archibald Hugh Arbuthnot, 59th Scinde Rifles, Bannu, c/o Messrs. Remfry & Son, solicitors and patent agents, 8/2 Hastings street, Calcutta. *An improved valise tent.*
- No. 407 of 1905.—His Highness Major General Sir Pratap Singhji Bahadur, Chief of Idar State, Mahikantha. *A pair of bridles and martingales.*
- No. 408 of 1905.—Frederick George Carter, managing brewer and distiller, Dyerton, Simla, Punjab, India. *Facilitating the opening of closed or sealed envelopes or other paper or thin cloth coverings of letter papers, documents or other packets.*
- No. 409 of 1905.—Charles Walke, Inspector of steam boilers, The Town Customs House, Fort, Bombay. *Improvements in punching machines.*
- No. 410 of 1905.—William Tice, engineer, in the employ of Messrs. Bird & Co., as superintendent of the Civil and Sanitary Engineering Company, 101/1 Clive street, Calcutta. *An improved direct-acting latrine flush.*
- No. 411 of 1905.—William John Sharland, engineer, at present of Charbagh, Lucknow, British India. *A self-closing carriage door handle, for use on railway carriages and other conveyances.*
- No. 412 of 1905.—William John Sharland, engineer, at present of Charbagh, Lucknow, British India. *An automatic door catch for railway carriage doors and other conveyances.*

No. 3345 P.—SPECIFICATIONS of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces. These and other specifications are open to public inspection,

from 11 A.M. to 3 P.M. at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 449 of 1904.—Frederick Albert Sheehan, engineer and proprietor of the firm of F. A. Sheehan & Co., of 26 South road, Entally, and 1/1 Corporation street, Calcutta. *Improvements in pakhals or water carriers.* (Specification filed 25 August 1905.)
- No. 27 of 1905.—Edward Daniel Schmitt, contracting engineer, a citizen of the United States of America, residing at 362 Union street, Borough of Brooklyn, New York city. *Improvements in machines for applying seals to bottles.* (Specification filed 29 August 1905.)
- No. 32 of 1905.—James Ormond, a member of the firm of James Service and Company merchants, of Nos. 460-462 Collins street, Melbourne, in the state of Victoria and Commonwealth of Australia. *An improved bag spreader for tea packing machines and the like.* (Specification filed 25 August 1905.)
- No. 39 of 1905.—Josef Kudlicz, manufacturer, of Prague VII, Bohemia, Austria, Adolf Carl Friedrich Von Andre, gentleman, of 81 Piccadilly, London, England, and Hans Rudolph Otto Friederici, gentleman, of 58 Lombard street, London, England. *Improvements in or relating to mechanical stokers.* (Specification filed 25 August 1905.)
- No. 48 of 1905.—Benjamin Garver Lamme, electrical engineer, of 230 Stratford Avenue, Pittsburg, Pennsylvania, United States of America. *Improvements relating to the distribution of electric energy to apparatus capable of being operated by direct and also by alternating currents.* (Specification filed 29 August 1905.)
- No. 54 of 1905.—Robert Cooke Sayer, engineer, of 11 Clyde road, Redland, Bristol, England. *Improvements in means for trolleys or vehicles to pick up and return electric current from and to conductors they traverse, and obtain motion.* (Specification filed 28 August 1905.)
- No. 62 of 1905.—Alfred Walter Anderson, secretary, and William Forster, works manager, both of Blackness Foundry, Dundee, in the county of Forfar, Scotland. *Improvements in and connected with the driving mechanism of looms for weaving textile fabrics.* (Specification filed 29 August 1905.)
- No. 66 of 1905.—Frederick Hugh Smith, engineer of Home House, Datchet, in the county of Buckingham, England. *Improvements in and relating to means for controlling the supply of vapour to internal combustion engines.* (Specification filed 29 August 1905.)
- No. 67 of 1905.—Thomas Henry Mapp, engineer, of 381 Riley street, Surry Hills, Sydney, in the state of New South Wales, in the Commonwealth of Australia. *Improved means for treating forage preparatory to compressing same.* (Specification filed 29 August 1905.)
- No. 68 of 1905.—William John Sharland, engineer, at present of No. 1 Isaac street, near Round Tap, Park Town, Madras, British India. *Improvements in sealing devices for use with locks and the like and in indicators to show if an attempt has been made to open a lock.* (Specification filed 30 August 1905.)
- No. 71 of 1905.—Dr. Karl Kaiser, professor of physiology, at Berlin, 10 Meierottos-trasse, Germany. *Process for producing ammonia.* (Specification filed 29 August 1905.)
- No. 74 of 1905.—William Chalmers Forbes, master mariner, of S.S. "Edina," Queen's Wharf, Melbourne, in the state of Victoria, Australia. *Improvements in and relating to distance and course recorders for ships.* (Specification filed 29 August 1905.)
- No. 78 of 1905.—Louis Brennan, civil and mechanical engineer, of Woodlands, Gillingham, in the county of Kent, England. *Improvements in and relating to the imparting of stability to otherwise unstable bodies, structures or vehicles.* (Specification filed 29 August 1905.)
- No. 82 of 1905.—The Empire Oil Engine Syndicate, Limited, manufacturers, of 34 Great St. Helena, in the city and county of London, England. *Improvements in or connected with the production of combustible mixtures, or petroleum spirit therefrom, for use in internal combustion engines, and other heating purposes.* (Specification filed 28 August 1905.)

- No. 84 of 1905.—Augustus Rosenberg, engineer, of 259 High Holborn, London, England. *Improvements in and connected with apparatus for the generation of acetylene and other gas.* (Specification filed 28 August 1905.)
- No. 104 of 1905.—Thomas Leopold Willson, manufacturer, of 188 Metcalf street, in the city of Ottawa, in the county of Carleton, province of Ontario, Dominion of Canada. *Improvements in automatic gas buoys.* (Specification filed 30 August 1905.)
- No. 105 of 1905.—Pierre Robin, doctor of medicine, 71 Rue de Provence, Paris (Seine), France. *Improved apparatus for deadening mechanical shocks experienced by moving vehicles.* (Specification filed 30 August 1905.)
- No. 106 of 1905.—Ernest Gustav Meyer, gentleman, of Leeds, England, and Arthur John Mudford, gentleman, of Sheffield, England. *Improved lever transmission gear.* (Specification filed 30 August 1905.)
- No. 107 of 1905.—Ernest Gustav Meyer, gentleman, of Leeds, England, and Arthur John Mudford, gentleman, of Sheffield, England. *Improved mechanism for converting reciprocating into rotary motion.* (Specification filed 30 August 1905.)
- No. 108 of 1905.—Ernest Gustav Meyer, gentleman, of Leeds, England, and Arthur John Mudford, gentleman, of Sheffield, England. *Improvements in or relating to motor car and the like mechanism.* (Specification filed 30 August 1905.)
- No. 109 of 1905.—Ernest Gustav Meyer, gentleman, of Leeds, England, and Arthur John Mudford, gentleman, of Sheffield, England. *Improved adjustable mechanism for lever transmission systems with variable stroke.* (Specification filed 30 August 1905.)
- No. 126 of 1905.—Henry Colbeck Michell, manufacturer, of 35 Queen Victoria street, in the city of London. *Improved manufacture of non-conducting coverings, blocks and slabs suitable for covering steam pipes, boilers, and the like, and for other purposes.* (Specification filed 30 August 1905.)
- No. 139 of 1905.—Alfred Smallwood, metallurgist, of 52 Gracechurch street, in the city of London, in the county of Middlesex, England. *Improvements in means for generating and applying heat for steam boilers, furnaces, and other purposes.* (Specification filed 29 August 1905.)
- No. 153 of 1905.—Lawrence William Smith, merchant's assistant, of 19 Chowringhee road, Calcutta, in British India. *Improvements in the manufacture of plaster or cement which may be used for ceilings, walls and floors, and for other purposes.* (Specification filed 29 August 1905.)
- No. 186 of 1905.—William Bellew Ewin, master mariner, and James Fleming, Electrician both of 170 Dhurumtola street, Calcutta. *A bottle for carrying water or any other liquid to be known as Captain Ewin's sanitary filter bottle.* (Specification filed 24 July 1905.)
- No. 198 of 1905.—The International Oxy-Generator Syndicate, Limited, manufacturers, and Augustus Rosenberg, engineer, both of 259 High Holborn, London, England. *Improvements in and connected with illuminating apparatus more especially designed for use in flash signalling.* (Specification filed 28 August 1905.)
- No. 209 of 1905.—Roland Harrington, engineer, of 80 Bright street, Wolverhampton, in the county of Stafford, England, and Walter Martineau, gentleman, of 4 South road, Clapham Park, in the county of London, England. *Improvements in locknuts for screw-bolts.* (Specification filed 28 August 1905.)
- No. 211 of 1905.—The Empire Oil Engine Syndicate, Limited, manufacturers, of 34 Great St. Helens, in the city and county of London, England. *Improvements in and connected with internal combustion engines.* (Specification filed 28 August 1905.)
- No. 245 of 1905.—Percy Hulburd, engineer, of the Hulburd Engineering Company, 150 Leadenhall street, London, England. *Improvements in locks for railway carriage and other doors.* (Specification filed 28 August 1905.)
- No. 257 of 1905.—Alfred Launcelot James Tait, electrician, No. 137 Napier street, South Melbourne, in the state of Victoria, Australia. *A method or process of and apparatus for treating and dressing flax and other fibres.* (Specification filed 25 August 1905.)

No. 263 of 1905.—William Richard Sumption Jones, civil engineer, of Whitehall Court, Whitehall, in the county of London, England. *Improvements in or relating to coupling apparatus for railway vehicles.* (Specification filed 30 August 1905.)

No. 264 of 1905.—William Richard Sumption Jones, civil engineer, of Whitehall Court, Whitehall, in the county of London. *Improvements in coupling apparatus for railway vehicles.* (Specification filed 30 August 1905.)

No. 3346 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 192 of 1894.—Sidney Straker and The Central Cyclone Company, Limited. *Improvements in machines for grinding, crushing, or disintegrating grain and other materials.* (From 3 September 1905 to 3 September 1906.)

No. 148 of 1901.—Carl Louis Gocht *New or improved means for securing bolt and screw nuts.* (Specification filed 30 May 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of Rs 50 for each of the above inventions.

No. 287 of 1899.—Alexander Atkinson. *Improvements in sugar-cane crushing mills, to be called "The Lahore Mills."* (Specification filed 28 May 1900.)

Fee in respect of the continuance of an exclusive privilege—

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification.

The sum of Rs 50 for the above invention.

No. 86 of 1899.—Reginald Belfield *Improvements in electric brakes.* (Specification filed 26 May 1899.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification.

The sum of Rs 50 for the above invention.

No. 203 of 1890.—Frederick Grinnell. *Improvements in automatic fire extinguishers* (Specification filed 20 May 1892.)

Fee in respect of the continuance of an exclusive privilege—

4 (d) After the expiration of the eleventh year and before the expiration of the twelfth year from the date of the filing of the specification—

The sum of Rs 100 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

The 27th August 1905.

TREASURE TROVE.**NOTICE.**

It is hereby notified, under Section 5 of the Indian Treasure Trove Act VI of 1878, that on 30th July 1905, the marginally noted treasure was found in the gutter between the Poona-Nasik road and survey No. 342 of Ghulowadi, a hamlet under Sangamner Budruck, Taluka Sangamner of the Ahmednagar District.

2. All persons claiming the said treasure, or any part thereof, are required to appear either in person or by agent before the Mamledar of Sangamner on 5th January 1906 and to assert their claim, if any, to the said treasure, so that the matter may be enquired into and determined by the Mamledar in accordance with the provisions of the Act.

J. P. ORR,
Collector.

AHMEDNAGAR,
The 30th August 1905.

**IN THE COURT OF THE RESIDENT IN MYSORE.
CRIMINAL SIDE.**

RULE OF PRACTICE.

Dated Bangalore, the 29th August 1905.

No. 7.—Under section 554 of the Code of Criminal Procedure, Act V of 1898, as applied to the Civil and Military Station of Bangalore, the Resident hereby directs that the following rule be observed in his Court and in the Courts subordinate thereto in regard to the disposal of property produced before the said Courts or in their custody or regarding which any offence appears to have been committed :—

When a Court is of opinion that it cannot try any case brought before it by reason of the offence complained of having been committed beyond its jurisdiction, any exhibits produced in the case should not be returned to the parties at once but retained in its custody for the period of two months, to allow of proceedings being taken in the proper Court.

“ By Order of the Court,”

H. CHENNAYA,

Registrar.

In the matter of, the Supply and Transport Corps Benevolent Fund
and

In the matter of the Indian Companies Act, 1882.

The above Court has by an order dated the 30th day of June 1905 ordered that the said Supply and Transport Corps Benevolent Fund be wound up by the said Court under the provisions of the Indian Companies Act, 1882, and appointed William Alves, a Captain in the Supply and Transport Corps, residing at No. 3, Store Road, Ballygunge, in the suburbs of Calcutta, the Official Liquidator of the said Fund.

Dated the 14th day of August 1905.

LESLIE AND HINDS,
Attorneys for the Liquidator.

W. R. FINK,
Registrar.

SUPPLEMENT TO

The Gazette of India.

No. 36.} . CALCUTTA, SATURDAY, SEPTEMBER 9, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

The 8th September, 1905.

No. 3432-E.C.—The following Convention between the United Kingdom and the Republic of France, for the extension to India of the French minimum tariff on certain colonial produce, is published for general information :

CONVENTION.

His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Emperor of India, and the President of the French Republic, desiring to facilitate the commercial relations between France and India, have resolved to conclude a convention to that effect, and have named as their respective Plenipotentiaries :

His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Emperor of India, the Most Honourable Henry Charles Keith Petty Fitzmaurice, Marquess of Lansdowne, Principal Secretary of State for Foreign Affairs, and

The President of the French Republic, Monsieur Paul Cambon, Ambassador of the French Republic at London ;

Who, having reciprocally communicated their full powers, found in good and due form, have agreed as follows :

ARTICLE I.

The following colonial products : coffee, cocoa, pepper, pimento, amomums and cardamoms, cinnamon, cassia lignea, nutmegs, mace, cloves, vanilla, and tea, produce of India, shall enjoy, on importation into France, Algeria, French Colonies and Possessions, and

Sa Majesté le Roi du Royaume-Uni de Grande-Bretagne et d'Irlande et des Territoires Britanniques au delà des Mers, Empereur des Indes, et le Président de la République Française, désirant faciliter les relations commerciales entre la France et les Indes, ont décidé de conclure une Convention à cet effet, et ont nommé pour leurs Plénipotentiaires respectifs :

Sa Majesté le Roi du Royaume-Uni de Grande-Bretagne et d'Irlande et des Territoires Britanniques au delà des Mers, Empereur des Indes, le Très Honorable Henry Charles Keith Petty Fitzmaurice, Marquis de Lansdowne, Principal Secrétaire d'Etat de Sa Majesté au Département des Affaires Étrangères ; et

Le Président de la République Française, Monsieur Paul Cambon, Ambassadeur de France à Londres ;

Lesquels, après s'être communiqué leurs pleins pouvoirs, trouvés en bonne et due forme, sont convenus de ce qui suit :

ARTICLE I.

Les denrées coloniales de consommation suivantes : café, cacao, poivre, piment, amomes et cardamomes, cannelle, cassia lignea, muscades, macis, girofles, vanille, et thé, originaires des Indes, bénéficieront, à leur importation en France, en Algérie,

the Protectorates of Indo-China and Tunis, the lowest customs duties applicable to similar products of any other foreign origin.

ARTICLE II.

Reciprocally, the natural and manufactured products of France, Algeria, French Colonies and Possessions, and the Protectorates of Indo-China and Tunis shall enjoy, without restriction or reserve on importation into India, the lowest customs duties applicable to similar products of other foreign origin.

Further, the duties on vinegar in casks and copperas produced in France, Algeria, French Colonies and Possessions, and the Protectorates of Indo-China and Tunis, and imported into India, shall not exceed 2½ per cent. *ad valorem*.

ARTICLE III.

The certificates of origin which may be required for the admission of goods to the preferential conditions stipulated in the present Treaty shall be *visé* by French Consuls and by British Consuls without levying Consular fees.

ARTICLE IV.

The privileges and engagements comprised in this Convention shall extend to Native States of India which, by Treaty with His Britannic Majesty or otherwise, may be entitled to be placed with regard to the stipulations of the Convention on the same footing as British India.

His Majesty's Government will communicate from time to time to the Government of the Republic a list of these States.

ARTICLE V.

The present Convention shall be ratified by the two Governments as soon as possible, and the ratifications shall be exchanged at London. It shall come into effect immediately after the exchange of ratifications, and shall remain in force until the expiration of a year from the day on which one of the High Contracting Parties shall have announced the intention of terminating it.

In witness whereof the under-mentioned Plenipotentiaries have signed the present Convention and have affixed thereto their seals.

Done in London, in duplicate, the 19th day of February, 1903.

dans les Colonies et possessions Françaises, dans les pays de Protectorat de l'Indo-Chine, et de la Tunisie, des taxes de douane les plus réduites applicables aux produits similaires de toute autre origine étrangère.

ARTICLE II.

Réciproquement, les produits naturels et fabriqués, originaires de France, d'Algérie, des Colonies et possessions Françaises, des pays de Protectorat de l'Indo-Chine et de la Tunisie, bénéficieront, sans aucune restriction ni réserve, à leur importation dans les Indes, des taxes de douane les plus réduites applicables aux produits similaires de toute autre origine étrangère.

En outre, les droits sur le vinaigre en fûts et la couperose verte, originaires de France, d'Algérie, des Colonies et possessions Françaises, des pays de Protectorat de l'Indo-Chine et de la Tunisie, importés dans les Indes n'excéderont pas 2½ pour cent *ad valorem*.

ARTICLE III.

Les certificats d'origine qui seraient exigés pour l'admission des marchandises aux régimes de faveurs stipulés par la présente Convention seront visés par les Consuls Français et par les Consuls Britanniques en gratuité des taxes Consulaires de Chancellerie.

ARTICLE IV.

Les privilèges et engagements compris dans cette Convention seront étendus aux Etats indigènes des Indes qui, en vertu de leurs accords par Traité ou autrement avec Sa Majesté Britannique, auraient le droit d'être placés quant aux stipulations de la Convention sous le même régime que les Indes Britanniques.

Le Gouvernement de Sa Majesté Britannique communiquera au fur et à mesure une liste de ces Etats au Gouvernement de la République.

ARTICLE V.

La présente Convention sera ratifiée par les deux Gouvernements aussitôt qu'elle se pourra, et les ratifications en seront échangées à Londres. Elle entrera en vigueur immédiatement après l'échange des ratifications, et demeurera exécutoire jusqu'à l'expiration d'une année à partir du jour où l'une des Hautes Parties Contractantes aura notifié son intention d'en faire cesser les effets.

En foi de quoi les Plénipotentiaires mentionnés ci-dessus ont signé la présente Convention et y ont apposé leurs cachets.

Fait, en double exemplaire, à Londres, le 19 Février, 1903.

L. S. LANSLOWNE.
L. S. PAUL CAMEON.

No. 3668-I. A.—*Erratum.*—In the last column of the Notification of the Government of India in the Foreign Department, No. 2339-I. A., dated the 16th June, 1905, published at page 415 of the *Gazette of India*, Part I, against Mr. K. L. Paonaskar's name, for "7th December, 1903," read "13th July, 1903."

No. 1898-G.—Lieutenant R. L. Birdwood, Indian Army, a probationer for the Political Department, is appointed to be a Political Assistant of the 3rd class, with effect from the date on which he relinquished charge of his duties as Supernumerary Assistant Commissioner in the Punjab.

Lieutenant Birdwood is posted as an Assistant to the Agent to the Governor General in Rajputana.

S. M. FRASER,

Offg. Secretary to the Government of India.

FINANCE DEPARTMENT.

NOTIFICATIONS.

W. S. MEYER,

Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

EXPLOSIVES.

Simla, the 4th September, 1905.

No. 4694—3-12.—The Governor General in Council is pleased, in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), to make the following amendments in the rules to regulate the transport and importation of

explosives published by the notification in the Home Department No. 5528, dated the 11th October 1901, as amended by notifications in the Home Department No. 620-Public, dated the 21st February 1902, and No. 2346-Public, dated the 11th June 1903.

AMENDMENTS.

I.—In rule 1, Class 6, *Ammunition class*, after the words "Division 1 comprises exclusively—safety cartridges, safety fuzes for blasting" omit the words—"Fuzes for shells, and tubes friction for guns, provided there be no more than five fuzes or 25 tubes in one package, and that the package be a hermetically sealed metal cylinder."

II.—For rule 2 substitute the following, namely :

" 2. The following general rules shall be observed with respect to the packing of explosives for conveyance :

(1) Unless the context otherwise requires,—

the expression "outer package" means a box, barrel, case or cylinder, of wood, metal or other solid material, of such strength, construction and character that it will not be broken or accidentally opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape ;

the expression "inner package" means a substantial case, bag, canister or other receptacle, made and closed so as to prevent any explosive from escaping ;

the expression "authorized explosive" means exclusively an explosive included in a List of Authorized Explosives prepared by the Chief Inspector of Explosives with the Government of India, and published annually in the *Gazette of India*, and in force for the time being ;

the expression "propellant" means an authorized explosive of Class 3, adapted and intended exclusively for use as a propelling charge in cannon or small arms, and

the expression "special authority" means a written authority granted by the Chief Inspector of Explosives, to which may be attached such conditions as may, in the opinion of the Chief Inspector of Explosives, be necessary to meet the special requirements of the case.

(2) The interior of every package shall be free from grit and otherwise clean.

(3) Save as hereinafter provided, there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel.

(4) Every package when actually used for the packing of one explosive shall not be used for the packing of any other explosive or any other article or substance :

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or another propellant :

Provided also that this rule shall not prevent the packing of any article which is not of an inflammable or explosive nature, or liable to cause fire or explosion, in the same package as an explosive of the 1st Division of the 6th (Ammunition) Class.

(5) Subject to the foregoing provisions, the following shall be the method of packing authorized explosives of the various classes, respectively, and the maximum amounts which may be in any one package :

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Class 1	When the quantity in any one consignment does not exceed 5 lbs. in amount, a single outer package; otherwise A double package, the inner and outer packages being as above defined.	100 lbs. Provided that where gunpowder and propellant are packed together the amount shall not exceed— 50 lbs.	100 lbs. 25 lbs.
Class 2	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 1, other than propellants	As for Class 1, provided that either the outer or inner package shall be thoroughly waterproof, and both shall be without metal in the construction thereof.	50 lbs.	5 lbs.
Class 3, Division 1, propellants.	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 2, other than Picric Acid and Wet Gun-cotton.	As for Class 1	50 lbs.	50 lbs.
Picric Acid	As for Class 1	Unlimited.	Unlimited
Gun-cotton so wetted with water as to be absolutely unflammable.	As for Class 1, provided that the inner or outer package, or both of them, shall be of such a nature, and so closed, as to prevent any material loss of moisture during conveyance.	Unlimited	Unlimited.
Class 4	As for Class 1	50 lbs.	50 lbs.
Class 5	Packed in water. A treble package, the innermost package being a bag permeable to water, enclosed in a case containing sufficient water to ensure the explosive being kept constantly wet; and the outer package containing sufficient water constantly to surround the case. Both the case and the outer package shall be of such construction as will not allow water to escape. If the explosive is of such character that it cannot be picked in a thoroughly wet condition, it shall be packed in accordance with conditions set forth in a special authority.	200 lbs	25 lbs.
Class 6, Division 1, other than Pin-fire cartridges for pistols.	A single outer package : Provided that the above general rule (3) shall not apply to explosives of this Division. Provided also that bullet cartridges of a calibre exceeding 0.5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge.	Unlimited
Pin-fire cartridges for pistols.	(a) Not exceeding 50 in number in any one consignment :—So packed in a single package that the bases lie alternately in opposite directions. The bases and pins shall be so fitted into perforations in millboard or other suitable material as to prevent the firing of any one of the said cartridges by an explosion in any other of the said cartridges.	50 in number

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
	(b) Exceeding 50 in number :—In an inner and outer package, the cartridges being packed in inner packages with millboard as above required.	2,500 in number	50 in number.
Class 6, Division 2	Explosives made up into cartridges or charges for cannon, shells, torpedoes, mines, blasting or other like purposes, shall be packed in such manner and in such quantity as is required for the same explosive when not so made up; provided that, where a double package is required, the enclosing case of such cartridges or charges may, if it satisfies the conditions required for an inner package, be held to be such inner package.
	Other ammunition of this Division :—A single outer package.	100 lbs.
Class 6 Division 3, other than Detonators and Electric Detonators	As for Class 1	50 lbs.	2 lbs. or 10 in number, whichever be the greater.
	Provided that bullet cartridges of a calibre exceeding 0.5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge.		
Detonators	(a) Not exceeding 1,000 in any one consignment :—As for Class 1, provided that the detonators and the spaces between the same and between the sides of the inner package and the said detonators shall all be filled, as far as practicable, with fine sawdust or other similar material; a layer of felt or other soft yielding material shall be placed between both ends of all the detonators and the interior of the inner package in which the same are placed, in such manner, and so secured, that both ends of the detonators will rest upon the said cotton wool or other material; every inner package, if of metal, to be lined throughout with paper or other soft material; and	1,000 in number	100 in number
	(b) Exceeding 1,000 detonators : The detonators shall be packed in inner packages, with sawdust and cotton wool as above described. Such inner packages shall be placed inside a substantial case of wood or metal, made and closed so as to prevent any of the inner packages escaping therefrom, and such case shall be placed inside an outer package in such manner and so secured as to leave a clear space of not less than three inches between the case and every part of the interior of the said outer package, notwithstanding that such clear space may if preferred, be filled with sawdust, straw, or other similar material, or may contain a light framework or battens of wood to keep the case aforesaid in position in the outer package; and	10,000 in number	100 in number
	(c) where the number of detonators exceeds 5,000, such outer package shall be provided with handles or other contrivance by means of which it can be safely and conveniently carried.		

Class	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Electric Detonators	As for Class 1, provided that where the number in any outer package exceeds 3,000, such outer package shall be provided with handles or other contrivance, by means of which it can be safely and conveniently carried.	5,000 in number	100 in number.
Class 7, Division 1	Double package, the inner package being hermetically closed, and contained in an outer package as above defined.	20 lbs.	1 lb.
Class 7, Division 2	Single outer package, provided that the above general rule (3) shall not apply to explosives of this Division.	100 lbs.

(6) Nothing in this rule shall be deemed to prohibit the use of an additional package, whether inner or outer, provided that such additional package shall not be of such character as shall have been prohibited in writing by the Chief Inspector of Explosives.

(7) An explosive which is not an authorized explosive shall be packed in such manner as may be directed by a special authority with reference to such explosive.

(8) On the outermost package there shall be affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the word "Explosive," the name of the explosive, the number of the class and division to which it belongs, and the name of the manufacturer or sender.

In the case of explosives of Classes 3 and 4, there shall be added the date of manufacture or issue from the factory, or such sign indicating such date as may be approved by the Chief Inspector of Explosives.

Provided that in the case of cartridges or charges for cannon, shells, mines, blasting or other like purpose, which do not contain their own means of ignition, the marking shall be as for the explosive when not so made up.

Provided also that in the case of explosives of Class 6, Division I (Safety Fuzes excepted), there shall be added the words "Not liable to explode in bulk."

Provided also that in the case of Pin-fire cartridges for pistols there shall be added the words "Pin-fire cartridges."

Provided also that in the case of Safety Fuzes or Gunpowder the word "Explosive" and the number of the class and division may be omitted.

Provided also that, where an outer package contains more than one explosive, the marking above required shall be affixed separately in respect of each explosive so contained.

(9) To meet special cases exemption may be granted by special authority from the observance of any one or more of the conditions imposed by this rule."

III.—For rule 8 *substitute* the following, namely :

" 8. An explosive shall not be imported by sea or land into British India, except under and in accordance with the conditions of a license to import the explosive granted under these rules .

Provided that any explosive other than an explosive specified in rule 11 may, previous to the grant of an importation license, if it is included in a list published under clause (1) of rule 2 and for the time being in force, and if it is certified to be of British manufacture or, if not of British manufacture, if it is imported from the United Kingdom and covered by the certificate granted by one of His Majesty's Inspectors of Explosives in England, be landed in accordance with such regulations as the local Government may prescribe in this behalf, and be stored in a place set apart by the local Government for this purpose, or in any of such private magazines as the said Government may have notified as being suitable for this purpose. Any such explosive of British manufacture may also be transported by rail to any of such private magazines previous to the grant of an importation license. The Governor General in Council may extend to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision the privilege of landing granted by this proviso, but such explosives may not be transported by rail until an importation license has been granted.

Before any explosive is landed under the proviso to this rule, the consignee shall give to the Chief Customs Officer of the Port such undertaking, with or without security, as the said officer thinks sufficient, to obey, in the event of the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the local Government may see fit to prescribe.

If samples are taken by an officer deputed by the Chief Customs Officer on board the ship on its arrival the procedure shall be that prescribed in rule 15."

IV.—For rule 14 *substituted* the following, namely :

"14. No license shall be granted for the importation of any explosive of the description referred to in rule 13, unless it is an explosive authorized for manufacture in or importation into the United Kingdom for general sale and unless its importation is recommended by the Chief Inspector of Explosives with the Government of India and, if it is an explosive for which a test or examination has been prescribed by or under the orders of the Government of India unless samples of the explosive taken as hereinafter provided are certified by the Chemical Examiner or some other officer appointed by the local Government in this behalf to have passed the test or examination from time to time prescribed."

TELEGRAPH ESTABLISHMENTS.

The 5th September, 1905.

No. 4746—43-2.—Mr. Ha i Pada Bhaumik and Mr. Sarat Chandra Mitra, passed students of the Thomason Civil Engineering College, Roorkee, are appointed to the Provincial Service of the Superior Establishment of the Indian Telegraph Department as apprentices.

H. B. B. WATKIS, Colonel,
Offg. Secretary to the Government of India.

RAILWAY BOARD.

NOTIFICATIONS.

Simla, the 5th September, 1905.

No. 162.—Mr. W. D. McD. Cruickshank, Assistant Engineer, 3rd Grade, is, on return from privilege leave, posted to the Nagda-Muttra Railway.

The 6th September, 1905.

No. 163.—Mr. G. S. Bocquet, Assistant Traffic Superintendent in Class III, Grade 3, of the Superior Revenue Establishment of State Railways, is promoted to Class III, Grade 2, of that establishment, with effect from the 28th June 1905.

Mr. Bocquet will continue to officiate as District Traffic Superintendent, Eastern Bengal State Railway, as notified in Railway Board Notification No. 56, dated the 4th May 1905.

The 8th September, 1905.

No. 165.—Captain H. A. Cameron, R.E., District Traffic Superintendent in Class II, Grade 2, of the Superior Revenue Establishment of State Railways, is appointed to officiate as Deputy Traffic Superintendent, North Western Railway, in Class I, Grade 3, of that establishment, during the absence of Mr. L. C. D. Bean on leave, or until further orders.

No. 166.—Lala Devi Das, Sub-Engineer, 3rd Grade, is appointed as Assistant Engineer, 3rd Grade (Provincial Service), State Railways, and posted to the North Western Railway.

No. 167.—Mr. David Cardew is appointed, under covenant, Assistant Locomotive Superintendent in Class III, Grade 4, of the Superior Revenue Establishment of State Railways, and is posted to the Eastern Bengal State Railway.

No. 168.—Mr. C. E. Holloway, Honorary Assistant Traffic Superintendent, North Western Railway, is appointed to officiate as District Traffic Superintendent on that Railway, with effect from the 31st July 1905, and until further orders.

No. 164.—The following is published for general information :

Circular No. R. T. 173, dated Simla, the 30th August 1905.

RESOLUTION—By the Railway Board.

Amendments in rule 14, Chapter III, Part II of the General Rules for working open lines of railway—Rules to regulate the packing and carriage by railway in India of certain compressed gases.

Read—

Section 47 of the Indian Railways Act, 1890 (IX of 1890).

Government of India, Public Works Department, Notification No. 118, dated the 21st March 1895, and the Government of India, Public Works Department, Circular No. 6 Railway, dated the 12th March 1895.

Government of India, Public Works Department, Circular No. X Railway, dated the 11th June 1898.

Government of India, Public Works Department, Circular No. VI Railway, dated the 12th August 1902.

Government of India, Department of Commerce and Industry, Notification No. 801, dated the 24th March 1905.

Letter, dated the 27th April 1905, from the Pulsometer Engineering Company, Limited, of Reading, England, and its enclosures.

RESOLUTION.—Liquefied Anhydrous Ammonia or Compressed Ammonia Gas, while it comes under the denomination " Dangerous goods ", is not an explosive. The substance has not been classified by name amongst dangerous goods mentioned in rule 14, Chapter III, Part II of the General Rules referred to, but the rules regarding its carriage by railway are to be found in Government of India, Public Works Department, Circular No. VI Railway, dated the 12th August 1902. Owing to difficulties which have been experienced recently in connection with the forwarding of Anhydrous Ammonia by railway, it is considered necessary to revise the rules relating to it, and the opportunity is taken to include in the accompanying regulations other substances with which it should be classified. The Railway Board accordingly direct that the rules promulgated with the Circulars of the Government of India in the Public Works Department, Nos. X Railway and VI Railway, dated, respectively, the 11th June 1898 and 12th August 1902, referred to above, be cancelled, and, in exercise of the powers conferred by the notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, read in the preamble above, they also sanction, under section 47, sub-section (4) of the Indian Railways Act, 1890 (IX of 1890), as in force in British India or as locally applied, the adoption by the administrations of the railways concerned, whether in British India, in foreign territory or in Native States, to which the General Rules for working open lines of railway, promulgated with the Government of India, Public Works Department, Circular No. 6 Railway, dated the 12th March 1895, apply, of the accompanying amendments in rule 14, Chapter III, Part II of the General Rules referred to.

ORDER.—Ordered that this Circular with its enclosure be published under a notification in Part I of the *Gazette of India* as required

The Governments of Madras, Bombay and Burma, Public Works Department, Railway Branch.

The Government of Bengal, Public Works and Marine Departments.

The Honourable the Chief Commissioner of Assam.

The Honourable the Resident at Hyderabad.

The Honourable the Agent to the Governor General for Rajputana.

The Consulting Engineers to the Government of India for Railways, Calcutta and Lucknow.

The Managers, North-Western, Oudh and Rohilkhand and Eastern Bengal (State) Railways.

Governor General for Central India and Baluchistan, the Honourable the Agent to the Governor General and Chief Commissioner of the North-West Frontier Province, and to the Accountant General, Public Works Department, for information.

by section 47, sub-section (3) of the Indian Railways Act, 1890 (IX of 1890), and that a copy thereof be kept open for inspection at railway stations as directed by sub-section (6) of the same section; also that a copy of this Circular and of its enclosure be communicated to the Local Governments and Administrations and to the officers noted in the margin, for information and guidance; also to the Governments of the United Provinces and the Punjab, the Honourable the Chief Commissioner of the Central Provinces, the Honourable the Agents to the

[Enclosure to the Railway Board's Circular No. R. T. 173, dated the 30th August 1905.]

From rule 14, Chapter III, Part II, *expunge* the item "Gas, compressed, other than liquid carbonic acid gas secured in wrought iron cylinders or solid drawn steel flask without seam or join, certified by competent authority to withstand a pressure of 250 atmospheres (3,750 lbs.)..... D" and *substitute* the following :

Gas, compressed, viz. :—..... G

Compressed Oxygen.

Compressed or liquefied Carbonic Acid Gas (Carbon Dioxide).

Compressed Coal Gas.

Compressed Hydrogen.

Liquefied Anhydrous Ammonia or Compressed Ammonia Gas.

Liquefied or Compressed Nitrous Oxide.

Liquefied or Compressed Sulphurous Acid Gas (Sulphur Dioxide).

1. These gases must be packed in cylinders.
2. Cylinders must be made of wrought iron or mild steel of the best quality, containing not more than 0.25 per cent. of carbon thoroughly annealed after manufacture, of sufficient strength and efficiently tested and must not exceed 8 feet in length and 10 inches in diameter.
3. Cylinders must be separately and securely packed in a strong wooden case, or in a covering made of closely plaited 1 inch (circumference) hemp or coir; except that several small cylinders not exceeding 18 inches in length and 4 inches in diameter may be packed in one box, provided each cylinder is contained in a separate compartment or is separately encased in closely plaited 1 inch (circumference) hemp or coir. Each box must not contain more than 25 cylinders and the gross weight of each box and contents must not exceed 3½ maunds.
4. Cylinders containing Atmospheric Air, Coal, Gas, Hydrogen or Oxygen, must not be charged to a greater pressure than 1,800 lbs. per square inch.
5. No cylinder may contain, per pound of water capacity, more than ½ lb. of Carbon Dioxide (Carbon Acid Gas); ¼ lb. of Anhydrous Ammonia, ¾ lb. of Nitrous Oxide; or 1½ lbs. of Sulphur Dioxide (Sulphurous Acid Gas) respectively.
6. Cylinders must be carefully handled, and must not be exposed to the rays of the sun, nor to the heat of a fire, stove or other source of heat.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Court-fees Act, 1870, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th September, 1905.

We, the undersigned, Members of the Select Committee to which the Bill further

From Registrar, High Court, Calcutta No. 1050, dated 29th March, 1905, and enclosure [Papers No. 1].

From Chief Commissioner, Assam, No. 1442-J, dated 5th April, 1905 [Paper No. 2].

From Agent to Governor General and Chief Commissioner, North-West Frontier Province No. 1024 G, dated 10th May, 1905, and enclosure [Papers No. 3].

From Chief Commissioner, Ajmer-Merwara, No. 491-69, dated 18th May, 1905 [Paper No. 4].

From Chief Commissioner, Coorg, No. 780, dated 15th May, 1905 [Paper No. 5].

From Off-Sitting Agent to Governor General and Chief Commissioner in Baluchistan, No. 2268, dated 20th May, 1905 [Paper No. 6].

From Government, United Provinces, No. 703-VII-293 C, dated 5th June, 1905 [Paper No. 7].

From Government, Bombay, No. 2708-Judicial, dated 2nd June, 1905, and enclosures [Papers No. 8].

From Government, Burma, No. 91-2-S.-1, dated 5th June, 1905 [Paper No. 9].

From Government, Bengal, No. 2080-J.-D., dated 14th June, 1905, and enclosures [Papers No. 10].

From Government, Madras, No. 993-Judicial, dated 19th June, 1905, and enclosures [Papers No. 11].

From Chief Commissioner, Central Provinces, No. 6850, dated 15th June, 1905, and enclosure [Papers No. 12].

From Government, Punjab, No. 920-S., dated 1st July, 1905, and enclosures [Papers No. 13].

to amend the Court-fees Act, 1870, was referred, have considered the Bill and the papers noted on the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. No alteration in the substance of the measure seems to us to be called for; but, in deference to the criticisms of, in particular, the Hon'ble the Chief Justice and Judges of the Bombay High Court, we have redrafted the new clause which it is proposed to insert in section 7, sub-head xi, of the Act of 1870, clause 2 of the Bill.

and have at the same time combined sub-clauses (2) and (3) of clause 2 of the Bill.

3. The publication ordered by the Council has been made as follows :

No. II.

A Bill further to amend the Court-fees Act, 1870.

WHEREAS it is expedient further to amend the Court-fees Act, 1870; It is hereby enacted as follows:

1. This Act may be called the Court-fees (Amendment) Act, 1905.
Short title.

2. In section 7, sub-head xi, of the Court-fees Act, 1870,—
Amendment of section 7, Act, 1870,—
Act VII, 1870.

(1) after clause (e), the following clause shall be inserted, namely:

"(cc) for the recovery of immoveable property from a tenant including a tenant holding over after the determination of a tenancy", and

(2) for the word "land", in both places in which it occurs, the words "immoveable property" shall be substituted.

H. W. C. CARNDUFF,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th September, 1905.

NO. 9 OF 1905.

A Bill to make certain provisions regarding the application of the law in force in the Province of Eastern Bengal and Assam and in certain territory transferred from the Central Provinces to Bengal.

WHEREAS by Proclamation No. 2832, dated the 1st September, 1905, the Governor General, with the sanction of His Majesty, has been pleased to constitute the Province of Assam, being the territories mentioned in Schedule A, to be, for the purposes of the Indian Councils Act, 1861, a Province to which the provisions of that Act touching the making of laws and regulations for the peace and good order of the Presidencies of Fort St. George and Bombay shall be applicable, and to direct that the said Province shall be called the Province of Eastern Bengal and Assam, and further to appoint a Lieutenant-Governor of that Province;

And whereas by the said Proclamation the Governor General in Council, with the like sanction, has been pleased to declare and appoint that, upon the constitution of the said Province of Eastern Bengal and Assam, the districts mentioned in Schedule B shall cease to be subject to or included within the limits of the Bengal Division of the Presidency of Fort William and shall be subject to and included within the limits of the Lieutenant-Governorship of the Province of Eastern Bengal and Assam;

And whereas, by Proclamation No. 2833, dated the 1st September, 1905, the Governor General in Council has been pleased to declare and appoint that the territory mentioned in Schedule C shall cease to form part of the Central Provinces and shall be subject to and included within the limits of the Bengal Division of the Presidency of Fort William,

And whereas it is expedient to make certain provisions regarding the application of the law in force in the territories affected by the said Proclamations,

It is hereby enacted as follows:

1. (1) This Act may be called the Bengal and Assam Laws Act, 1905;
Short title and commencement. and

2) It shall come into force on the sixteenth day of October, 1905.

2. The Proclamations referred to in the pre-Saving of territorial application of enactments.amble shall not be deemed to have effected any change in the territorial application of any enactment, notwithstanding that such enactment may be expressed to apply or extend to the territories for the time being under a particular administration.

3. All enactments, and all notifications, orders, schemes, rules, forms and by-laws issued, made or prescribed under enactments, which, immediately before the commencement of this Act, were in force in, or prescribed for, any of the territory mentioned in Schedule A, B or C, shall, in their application to that territory, be construed as if references therein to the authorities, territories or Gazettes mentioned in column 1 of Schedule D were references to the authorities, territories or Gazettes, respectively, mentioned opposite thereto in column 2 of that Schedule. [Cf. Reg. VII of 1901, s. 6.]

III of 1822 4. (1) There shall be a Board of Revenue
XLIV of Constitution and for the Province of Eastern
1850. powers of Board of Bengal and Assam, to which
the provisions of the Ben-
Bengal and Assam gal Board of Revenue Regu-
lation, 1822, and the Bengal Board of Revenue
Act, 1850, shall, so far as may be, apply.

(2) The said Board of Revenue shall discharge in respect of the territory mentioned in Schedule B all the functions which, immediately before the commencement of this Act, were vested in or exercisable by the Board of Revenue for the Lower Provinces of the Presidency of Fort William in Bengal, and in respect of the whole or any portion of the territory mentioned in Schedule A such of the functions which at the same date were vested in or exercisable by the Chief Commissioner of Assam as the Local Government may, with the previous sanction of the Governor General in Council, delegate to it.

[Cf. Reg.
VII of 1901,
s. 7.]

5. For the purpose of facilitating the appli-
cation to any of the terri-
tory mentioned in Schedule
A, B or C of any enact-
ment passed before the
commencement of this Act, or of any noti-
fication, order, scheme, rule, form or by-law
made under any such enactment—

(a) any Court may, subject to the other
provisions of this Act, construe the en-
actment, notification, order, scheme,
rule, form or by-law with such altera-
tions, not affecting the substance, as
may be necessary or proper to adapt
it to the matter before the Court,
and

(b) the Local Government may, by notifica-
tion in the local official Gazette,
direct by what officer any authority
or power shall be exercisable, and
any such notification shall have
effect as if enacted in this Act.

[Cf. Reg.
VII of 1901,
s. 94.]

6 Nothing in this Act shall affect any pro-
ceeding which, at the com-
mencement thereof, is
pending in or in respect of any of the territory
mentioned in Schedule A, B or C; and every
such proceeding shall be continued as if this
Act had not been passed.

7. The enactments specified in Schedule E
are hereby repealed to the
extent mentioned in the
fourth column thereof.

SCHEDULE A.

THE PROVINCE OF ASSAM.

The Districts of Goalpara, Kamrup, Darrang,
Nowgong, Sibsagar, Lakhimpur, Sylhet, Cachar,
Garo Hills, Khasia and Jaintia Hills, Naga
Hills, and Lushai Hills.

SCHEDULE B.

TERRITORY TRANSFERRED FROM BENGAL TO THE PROVINCE OF EASTERN BENGAL AND ASSAM.

The Districts of Dacca, Mymensingh, Farid-
pur, Backergunge, Tippera, Noakhali, Chittagong,
the Chittagong Hill Tracts, Rajshahi, Dinajpur,
Jalpaiguri, Rangpur, Bogra, Pabna and Malda.

SCHEDULE C.

TERRITORY TRANSFERRED FROM THE CENTRAL PROVINCES TO BENGAL.

The Sambalpur District (except the Chandar-
pur-Padampur Estate and the Phuljhar Zamin-
dari).

SCHEDULE D.

(See section 3.)

PART I.

*Construction of enactments, etc., in force in
territories mentioned in Schedules A and B.*

1	2
I.—The Local Government of Bengal.	The Local Government of the Province of Eastern Bengal and Assam.
II.—The Local Government of Assam.	
III.—The Board of Revenue of Bengal.	(a) The Local Government of the Province of Eastern Bengal and Assam in the territories mentioned in Schedule A, and
IV.—The Chief Controlling Revenue authority or the Chief Revenue authority.	(b) the Board of Revenue of the Province of Eastern Bengal and Assam in the territories mentioned in Schedule B.
V.—All officers and official bodies not mentioned in the foregoing clauses I to IV (except the Treasurer of Charitable Endowments, whose authority extended, immediately before the commencement of this Act, over the Province of Bengal generally, inclusive of the territory mentioned in Schedule B.	(c) The respective officers who, immediately before the commencement of this Act, exercised similar functions in the Province of Assam, or
VI.—The Chief Commissioner-ship of Assam.	(d) such other officers, respectively, as the Local Government of the Province of Eastern Bengal and Assam may, by notification in the local official Gazette, appoint in this behalf.
VII.—The local official Gazettes (English or Vernacular, as the case may be) of the Government of Bengal.	The territory mentioned in Schedule A.
VIII.—The local official Gazettes (English or Vernacular, as the case may be) of the Government of Assam.	The local official Gazettes (English or Vernacular, as the case may be) of the Government of the Province of Eastern Bengal and Assam.

PART II.

Construction of enactments, etc., in force in the territory mentioned in Schedule C.

1	2
I.—The Local Government of the Central Provinces.	The Local Government of Bengal
II.—The Court of Wards of the Central Provinces.	
III.—The Superintendent of Government Wards in the Central Provinces.	
IV.—The Chief Controlling Revenue-authority, or the Chief Revenue-authority, of the Central Provinces.	The Board of Revenue of Bengal.
V.—The Judicial Commissioner of the Central Provinces.	The High Court of Judicature at Fort William in Bengal.
VI.—All officers and official bodies not mentioned in the foregoing clauses I to V (except the Treasurer of Charitable Endowments) whose authority extended, immediately before the commencement of this Act, over the Central Provinces generally inclusive of the territory mentioned in Schedule C.	(a) The respective officers who, immediately before the commencement of this Act, exercised similar functions in the Province of Bengal, or (b) such other officers, respectively, as the Local Government of Bengal may, by notification in the local official Gazette, appoint in this behalf.
VII.—The local official Gazettes (English or Vernacular, as the case may be) of the Government of the Central Provinces.	The local official Gazettes (English or Vernacular, as the case may be) of the Government of Bengal.

SCHEDULE E.

ENACTMENTS REPEALED.

(See section 7.)

1	2	3	4
Year.	No.	Subject or short title.	Extent of repeal.
1874	VIII	The Assam Chief Commissionership Act, 1874.	The whole Act.
1874	XII	The Sylhet Act, 1874.	The whole Act.
1875	XX	The Central Provinces Laws Act, 1875.	The second sentence of section 3 and column 4 of Schedule A in so far as they apply to the territory mentioned in Schedule C.

STATEMENT OF OBJECTS AND REASONS.

IN consequence of the constitution of the Province of Eastern Bengal and Assam, of the transfers of territory made by the Proclamations cited in the preamble to this Bill, and of the extension of the jurisdiction of the High Court of Judicature at Fort William in Bengal by the Notification of the Government of India in the Home Department No. 1363, dated the 1st September, 1905, to the territory mentioned in Schedule C to this Bill, it has become necessary to make provision for the adaptation and application of the laws hitherto in force in the territories affected. The Bill has been framed to effect this. It has no other object. All existing laws are maintained in their entirety, and the Bill merely provides for their administration by the new authorities constituted under the Proclamations and Notification referred to above.

2. The single substantive provision which the Bill contains—the constitution of a Board of Revenue for the Province of Eastern Bengal and Assam—provides for the continuance of the existing Revenue law in the territory transferred to that Province from Bengal.

The 2nd September, 1905.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULA-
TIONS UNDER THE PROVISIONS OF THE INDIAN COUN-
CILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67,
AND 55 & 56 VICT., CAP. 14).

The Council met at the Viceregal Lodge, Simla, on Friday, the 8th September, 1905.*

PRESENT :

His Excellency Baron Curzon, P.C., G.M.S.I., G.M.I.E., Viceroy and Governor General of India, *presiding*.
His Honour Sir Denzil Ibbetson, K.C.S.I., Lieutenant-Governor of the Punjab.
The Hon'ble Major-General Sir E. R. Elles, K.C.B., K.C.I.E.
The Hon'ble Sir A. T. Arundel, K.C.S.I.
The Hon'ble Mr. H. Erle Richards, K.C.
The Hon'ble Mr. J. P. Hewett, C.S.I., C.I.E.
The Hon'ble Mr. E. N. Baker, C.S.I.
The Hon'ble Sir C. L. Tupper, K.C.I.E., C.S.I.
The Hon'ble Mr. T. Gordon Walker, C.S.I.

COURT-FEES (AMENDMENT) BILL.

The Hon'ble SIR ARUNDEL ARUNDEL presented the Report of the Select Committee on the Bill further to amend the Court-fees Act, 1870. He said :—
“Only two slight alterations of an unimportant character have been made in the Bill. I have nothing further to add.”

BENGAL AND ASSAM LAWS BILL.

The Hon'ble MR. RICHARDS moved for leave to introduce a Bill to make certain provision regarding the application of the law in force in the

* NOTE.—The Meeting of Council which was fixed for the 11th August, 1905, was subsequently postponed to the 8th September, 1905.

Province of Eastern Bengal and Assam and in certain territory transferred from the Central Provinces to Bengal. He said :—"By a recent proclamation, the Chief Commissionership of Assam has been created a Lieutenant-Governorship under the title of the Province of Eastern Bengal and Assam. At the same time certain territories have been transferred from Bengal to the new Province, and the district of Sambalpur with some small exceptions has been transferred from the Central Provinces to Bengal. Under the provisions of the Indian Councils Acts, the existing law continues in force in the new Province until repealed or altered, and in order to make that law applicable to the changed conditions some modifications and adaptations are required. It is for this purpose that the Bill which I have the honour to introduce has been framed. It is little more than formal and follows the precedent of the Acts passed on the severance of Assam and Sylhet from Bengal in 1874.

"The Bill consists of seven clauses and some Schedules. The first and last of these clauses are entirely formal. They deal with the short title, date of commencement and repeal. The second is a purely drafting clause. The third provides for the substitution of the authorities of the new Province for the existing authorities in the construction of Statutes and other enactments. The fourth creates a Board of Revenue for the portions of Bengal transferred to the new Province corresponding in all respects to the Board which at present exercises jurisdiction over the territory transferred. The fifth clause gives powers to the Courts and to the Local Government to make minor modifications in the construction of enactments if any such are found necessary. The sixth clause saves pending proceedings.

"It will be observed that the Bill makes no change of substance in the law, except in so far as it creates a new Board of Revenue for the part of Bengal transferred to the new Province. But in doing that it only sets up a Board corresponding in every particular to the Board of Revenue which at present exercises jurisdiction over those territories. In fact the scope of the Bill is confined, as its title implies, to the application as distinct from the amendment or alteration of the existing law."

The motion was put and agreed to.

The Hon'ble MR. RICHARDS introduced the Bill.

The Hon'ble MR. RICHARDS moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in English in the Gazette of India, the Calcutta Gazette, the Central Provinces Gazette and the Assam Gazette.

The motion was put and agreed to.

The Council adjourned to Friday, the 29th September, 1905.

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
2nd September 1905.

Madras.—The rainfall of the week was heavy in South Canara, the Vizagapatam Agency and Malabar; light to fair in Tinnevely, Kurnool, Bellary, Anantapur, Coimbatore, Kistna and Guntur; and good elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency, except in portions of the Circars, Cuddapah, North Arcot, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress. The standing crops are generally fair, but some in parts of Ganjam, Salem, Coimbatore, Trichinopoly, Madura and Tinnevely require more rain. There are no harvests in progress in Guntur, Kurnool and South Canara, but they continue in parts elsewhere; with fair to normal outturn. Pasture is rapidly improving, but is still insufficient, except in parts of the Circars, Kurnool, Cuddapah, the Carnatic, Malabar, South Canara and the Nilgiris. Fodder is scanty except in Vizagapatam, Tinnevely, Malabar, South Canara and the Nilgiris. The condition of cattle is generally good. The price of rice is stationary in thirteen districts, has fallen in four and has very slightly risen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in six districts; has fallen in eleven; and has slightly risen in four. *Cholam* has fallen in ten districts and has slightly risen in four. *Cumbu* is stationary in four districts; has fallen in seven; and has very slightly risen in four. The general improvement in prospects has continued; the rainfall in fifteen districts being up to or above the average of thirty years. The number of workers on the last day of the week at test works were as follows:—Melmadalambedu, Ponneri taluk, nil; Nagar, Ponneri taluk, 1; Neiveli, Tiruvallur taluk, 130. The numbers relieved at poor houses were as follows:—Madavaram, Saidapet taluk, 193; Ponneri, Ponneri taluk, 295; Uttukkottai, Tiruvallur taluk, 331; all in the Chingleput district.

Bombay.—There was good rain during the week in parts of Kanara and Savantwadi; moderate in parts of Ratnagiri, Colaba, Bijapur, Dharwar and Kathiawar; slight in parts of Belgaum; and very slight in parts of the Panch Mahals, Surat, Thana and the Deccan. More rain is generally needed. Transplantation of rice continues in parts of Nasik, but is retarded in parts of the Panch Mahals and Thana. Sowing of cotton continues in parts of Ahmedabad, the Karnatak and Palanpur. The standing autumn crops have been slightly damaged by crabs, rats or tortoises in parts of Karachi; by a disease in parts of the Upper Sindh Frontier; by locusts in parts of Hyderabad; and are suffering from want of sufficient rain in parts of Gujarat, Ratnagiri, the Deccan, the Karnatak, Kanara, Baroda, Rewa Kantha and Mahi Kantha. Lands are being prepared for spring cultivation in parts of Sindh, Broach, Ahmednagar, Sholapur and Satara. The fodder-supply is sufficient except in parts of Karachi, Hyderabad, Satara, Belgaum, Dharwar and Baroda. Agricultural stock is sufficient and cattle are in good condition except in parts of Satara. The water-supply is adequate except in parts of Hyderabad and Surat. Prices have risen in six districts; fallen in one district; and are stationary elsewhere. The numbers on relief were as follows:—daily average number on gratuitous relief during the week ending the 26th August:—Belgaum, 844; Bijapur, 1,175; total, 2,019.

Bengal.—Rain was fairly general all over the Province during the week, the fall being heavy in parts of North and East Bengal and Bihar and light to moderate in Orissa and Chota Nagpur. The recent rain has slightly improved the state of the standing crops in Orissa, but more rain is still wanted there. Some damage by floods is reported from some districts of Bihar and from the 24-Parganas, Bogra and Mymensingh. Transplantation of winter rice is approaching completion and the harvesting of jute and early rice is still going on. The prospects are generally favourable. Fodder and water are sufficient. The price of common rice has risen in eleven and fallen in five districts.

United Provinces.—Rain has fallen almost throughout the Province, though in many districts merely local showers of insufficient amount were received. More rain is urgently required, more especially in the Agra and Meerut Divisions and Bundelkhand. Hot west winds prevailed in the Upper Doab and in the Agra Division and in Bundelkhand, and have proved very injurious to the surviving crops. Test works are being started in Jalaun where a large portion of the autumn crops has definitely failed. Prospects are generally less favourable than they were last week. Irrigation continues where practicable, and fields are being prepared for the spring crops. The condition of agricultural stock is poor in Etawah and Jalaun. Fodder continues scarce in the districts of the Agra Division and in Meerut, Aligarh, Cawnpore, Jalaun and Hamirpur. Supplies are adequate. Prices continue to rule high and have risen in most districts.

Punjab.—Slight and unevenly distributed rain fell during the week in ten of the thirteen reporting districts; Delhi, Amritsar and Lyallpur received no rain. The prices of food-grains have risen considerably in all districts. Maize and other crops are being sown in Lahore and ploughings for the next spring crops continue in Jullundur, Ferozepore, Sialkot, Shahpur and Multan. The condition of the irrigated autumn crops is good to average, except in Delhi. The crops on unirrigated areas are everywhere withering for want of rain. Insects are damaging the cotton crops in Ferozepore and Lahore and maize and other crops in Lahore and Amritsar. Cattle are generally in good condition. Fodder is sufficient, except in Delhi, Amritsar, Shahpur and in parts of Mianwali. Cattle from Shahpur and Hissar are being removed to other grazing grounds. There are no complaints regarding the water-supply.

North-West Frontier Province.—There were slight showers during the week in all districts and a slight hailstorm in the Marwat tahsil of the Bannu District, but no damage was done. More rain is badly wanted everywhere. The condition of the crops on irrigated lands, except sugarcane which requires rain, is good in Peshawar and Bannu and average in Dera Ismail Khan. The crops on unirrigated lands are still withering for want of sufficient rain. The water-supply is normal. The condition of cattle is generally good, except in the Daman tract of Dera Ismail Khan. Fodder is sufficient. Prices are rising.

Burma.—The rainfall of the week was general and mostly sufficient. Timely rain has fallen in Sagaing and Lower Chindwin, but more is wanted in Magwe and Shwebo. In Lower Burma ploughing for wet-weather paddy is completed in nearly all districts; sowing and transplanting are completed in some districts and are progressing satisfactorily in others. Much damage has been done to crops in parts of Tharrawaddy by flood waters of the Irrawady, but they are now slowly subsiding. A considerable area in the Padaung, Shwedaung and Hmawza townships of the Prome District has also suffered from floods. In Upper Burma ploughing and sowing for wet-weather paddy are completed in Lower Chindwin and Magwe; transplanting is progressing and is approaching completion in some districts. Reaping of early sesamum has commenced in Pakokku, Magwe and in the Yinmabin subdivision of Lower Chindwin, and ploughing for late sesamum has commenced in the Kanbalu subdivision of Shwebo. In Sagaing the reaping of early sesamum is nearly completed and sowing of *juar* is in progress. Some damage has also been done by floods to the standing crops in Thayetmyo, Kyaukse and Yamethin and early wet-weather paddy has suffered from inundation and ravages of rats in Mandalay. The state of the standing crops is on the whole good. The price of paddy has altered slightly at six centres; otherwise it is unchanged.

Central Provinces.—The rainfall of the week was heavy in Sambalpur, in the Murwara tahsil of Jubbulpore and in the Hinganghat tahsil of Wardha, and fairly heavy in the Rehli tahsil of Saugor. The falls in Mandla and Raipur amounted to 3 inches each and in Betul, Bhandara and Bilaspur 2 inches each. Over the rest of the Province there was little or no rain. Transplantation of rice is progressing satisfactorily in Seoni, is nearing completion in Raipur and, except in parts of the Baihar tahsil and Katangi circle, is completed in Balaghat. This operation is retarded in the Chanda, Brahmapuri, and Warora tahsils owing to the long break. Thinning operations are progressing in Bilaspur, Sambalpur and Raipur; in the latter district nearly three-fourths of the rice area has been completed. More rain is required in Damoh, Chhindwara, Chanda and Raipur; in the latter district tanks have not yet filled and unless they fill within another fortnight the outturn of rice will be very poor; in Damoh where the area sown with autumn crops is 25 per cent. larger than last year, rice is estimated to yield with more rain about 80 to 100 and *juar* and *til* 100 to 120; cotton and *til* are expected to give a full crop in Nimar with rain till September; Betul expects bumper crops. Weeding is in progress in all districts except in Mandla where its progress is hampered by want of labourers. The damage by caterpillars has much diminished in Jubbulpore, and the heavy rain in Resri is said to have destroyed them, but they are reported to be doing damage in Mandla, Seoni and Hoshangabad. Some damage is reported by the *juar* borer from parts of Akola and by insects from parts of Bhandara, otherwise the standing crops continue generally to be very promising. Scarcity of fodder and water continues in parts of Amraoti and Buldana. The prices of wheat and *juar* have fallen further in Chanda; rice has risen slightly in Raipur and Bilaspur; elsewhere prices are steady or fluctuate slightly; they are still however higher than those ruling in the corresponding week of last year.

Assam.—The weather is seasonable and rain fell in all districts during the week. The rice crop and jute are partially damaged in some districts. Plucking and manufacture of tea continues and prospects are good in Nowgong and fair elsewhere. Transplanting of late rice continues; reaping of early rice is nearly finished; the outturn being poor in Kamrup and fair in other places. Cutting of jute is in progress, and prospects of jute and sugarcane are generally fair. Fodder is sufficient in parts of Sylhet. Prices:—common rice—Silchar, 15; Sylhet, 14½; Gauhati and Trzpur, 12; Sibsagar and Dibrugarh, 11; and Duubri and Nowgong, 10 seers per rupee.

Mysore.—There was good rain during the week in Bangalore, Mysore, Kadur and Shimoga and fair rain elsewhere. Prices are generally steady. The crops are thriving and prospects are fair, but more rain is needed in parts of Hassan and Kadur. Cattle are healthy, and water and fodder are generally available.

Coorg.—Rainfall—2 inches 83 cents. Transplanting of rice is almost completed. Prices of food-grains are stationary. Water and fodder are sufficient.

Hyderabad.—Rainfall—1 inch 94 cents. The rainfall of the week was good in two districts; fair in four; and light in the remaining nine. More rain is generally required and especially in three districts. The autumn crops are withering in two taluks; and have been damaged by insects in one; elsewhere the autumn and early rice crops are in good condition and weeding is progressing. Early rice sowings are going on in parts. Lands are being prepared for spring crops and sowings have begun. Fodder scarcity exists in one taluk only. The price of *juar* has fallen from one to three seers per rupee in nine taluks and has risen from one to two seers in three. Prices—wheat, 12½; coarse rice, 8½; *juar*, 19½ seers per rupee.

Rajputana.—The rainfall of the week was as follows:—Kotah and Jhalawar varying from 43 to 3·39 cents; Sambhar in Marwar 43; Bhanswara 27; Partabgarh 94; Bundi 34; Alwar 39; Karauli 83; Bharatpur 51; Dholpur 75; and Shahpura 1·43; no rain or practically none elsewhere. Agricultural operations are fair in South Merwar, Bhanswara, Partabgarh, Sirohi, Kotah and Jhalawar; in the last two States land is being prepared for spring crops. Elsewhere irrigated crops are being weeded and watered. Unirrigated crops are withering except in Sirohi, the southern parts of Merwar, Partabgarh, Kotah and Jhalawar; they are now lost in other States except in Dholpur and parts of Merwar and Alwar. Cattle are losing condition in Jaisalmer, the northern parts of Mewar, Alwar, Bhartpur and Ajmer-Merwara. Pasturage and fodder are generally insufficient except in South Rajputana; pasturage is improving in Kotah, Jhalawar and parts of Bundi. Cattle emigration has begun from Jaisalmer, Marwar and Bakaner and continues from Ajmer-Merwara and Kishengarh. Prices are rising in Ajmer-Merwara and all States except the Hill tracts of Mewar, Shahpura, Partabgarh, Kotah and Jhalawar, where they are steady. The numbers on test and relief works were as follows:—Marwar 863; Shahpura 571; Bharatpur 1,641; Ajmer 622. Total 3,697. The Merwara test works were converted into regular relief works towards the close of the week and the number of workers on the last day of the week was 9,268; Grand total on relief 12,965.

Central India.—The rainfall of the week was general and sufficient in Isagarh; insufficient and partial in the remainder of Gwalior; partial and insufficient in Indore, Bundelkhand, Malwa and parts of Bhopawar; and general and insufficient elsewhere. Agricultural operations have been suspended in parts of Gwalior, but are in progress throughout the rest of the Agency. The probable outturn will be *nil* in parts of Gwalior and poor in the out-lying parganas of Indore and average to good elsewhere in the Agency. The condition of agricultural stock and pasturage is bad in parts of Gwalior; and indifferent to good elsewhere. Prices are rising in parts of Gwalior; continue high in Bhopal and Baghelkhand; and are fairly steady elsewhere.

Kashmir.—The weather is bright. Prices are stationary. The fruit crop is being gathered.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 14 to 24 and maize 18 to 40 seers per rupee. The condition of the standing crops is fair, except in Jammu, Samba, Mirpur, Ranbirsinghpura and Jasmargarh where it is poor. Fodder is sufficient. Rain is badly wanted in Kandhi tracts where the wheat crop is withering.

J. WILSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 7th September 1905, based on the India Daily Weather Reports of the period.

During the greater part of the week under review monsoon rainfall over India was exceedingly light.

Between the 1st and the 4th of September the only rainfall from the Arabian Sea current consisted of light local rain along parts of the Malabar and Kanara Coasts, and over the Deccan and the Madras Coast districts. The rainfall exceeded 1" in twenty-four hours only at one or two stations and in most places was very much less. On the 5th some improvement took place owing to a shallow depression over the north-east of the Peninsula and rain, though still very light along the West Coast and over the Peninsula, increased and became general over the Central Provinces. On the 6th the rainfall, owing to the filling up of the abovementioned depression again fell off and was restricted to light local rain over the west and south of the Peninsula, but on the 7th owing to the appearance of a fresh and deeper depression over the head of the Bay rain again increased over the Central Provinces, Pachmarhi reporting a fall of 6·84" in the preceding twenty-four hours, Amraoti of 2·77", Sambalpur of 2·02", Nagpur of 1·85", Hoshangabad of 1·49" and Chanda of 1·35".

More or less similar conditions have prevailed on the opposite side of India. The Bay monsoon current gave very little rain except to Burma during the 1st and 2nd. On the 3rd rain increased in north-east India, Narayanganj reporting 5·83" and on the 4th light to moderate rain was reported from a large part of Bengal. This rainfall extended into the United Provinces on the 5th, but on the 6th and 7th owing probably to the concentration of rain within the depression area over the head of the Bay only light to moderate local rain was received over Bengal and the Gangetic Plain.

Rain extended along the hills as far as Dehra Dun, Ranikhet and Simla and over the plains as far as Cawnpore and Lucknow, but the west of the United Provinces, the Punjab plains (except for a local duststorm at Montgomery), the North-West Frontier Province, Sind, Rajputana and Gujarat were rainless throughout the week.

The rainfall table shows that the week's fall exceeded the normal over Burma—more especially Upper Burma—Orissa, the Circars, the east of the Central Provinces and Chota Nagpur, as well as over the south of the Peninsula, but was more or less deficient in all other parts of the Indian area. In the Lahore, Jaipur, Ahmedabad and Rajkot subdivisions and the North-West dry division the fall was actually or practically nil.

There has been no important change in the seasonal conditions.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 7th September 1905.

No. 5001-Exc.

GOVERNMENT OF INDIA.
FINANCE DEPARTMENT.

SEPARATE REVENUE.
Excise.

Simla, the 7th September, 1905.

RESOLUTION.

The Governor General in Council has decided to convene a strong Committee, representative of the principal Provinces, to consider the progress of Excise administration in respect of intoxicating liquors and to promote reforms therein.

2. The general principles upon which the action of the Government in respect to the consumption of liquor should be based have already been laid down in the Government of India's Excise Despatch of the 4th February 1890, No. 29, and more recently in the Finance Department's circular letter to Local Governments and Administrations, of the 21st April 1904, No. 2455-S.R. The general lines of policy there laid down may be summarised as follows:

The Government of India have no desire to interfere with the habits of those who use alcohol in moderation; this is regarded by them as outside the duty of the Government, and it is necessary in their opinion to make due provision for the needs of such persons. Their settled policy, however, is to minimise temptation to those who do not drink and to discourage excess among those who do; and to the furtherance of this policy all considerations of revenue must be absolutely subordinated. The most effective method of furthering this policy is to make the tax upon liquor as high as it is possible to raise it without stimulating illicit production to a degree which would increase instead of diminishing the total consumption, and without driving people to substitute deleterious drugs for alcohol or a more for a less harmful form of liquor. Subject to the same considerations, the number of liquor shops should be restricted as far as possible and their location should be periodically subject to strict examination with a view to minimise the temptation to drink, and to conform as far as is reasonable to public opinion. It is also important to secure that the liquor which is offered for sale is of good quality and not necessarily injurious to health.

3. There is no intention to modify the general lines of policy thus enunciated, and that their practical application has already been attended with a very considerable degree of success is shown by the facts and figures in connection with country spirit quoted by the Hon'ble Financial Member in his speech in the Budget Debate of March 1905. It is also recognised that the detailed application of this policy in the various Provinces depends so much not merely upon local administrative conditions, but upon the character and habits of the people concerned that any approach to general uniformity is neither attainable nor desirable.

4. But it appears to the Government of India that the diversities of system which now prevail are greater than can be justified by the above considerations, and that the experience of one Province might with advantage be utilised elsewhere to a greater extent than has hitherto been the case. It will suffice to note here, as instances of matters in which reform is specially required in some Provinces,

the large areas still supplied by outstills, the crude and unsatisfactory character of some of the local distillery systems, and the low rate of taxation of country spirit.

5. The duty of the Committee will be to examine the Excise administration of each Province with reference to the above remarks and to those which follow; to consider how far it is calculated to give the fullest practical effect to the general policy which has been laid down; and to suggest, in consultation with the Local Governments, such alterations as may seem desirable in view of local conditions and in the light of what has been found successful elsewhere.

6. The three principal branches of the Excise administration to which the attention of the Committee is directed are:

- (1) Country liquor;
- (2) 'Foreign' spirit, whether imported from abroad or manufactured in India; and
- (3) *Tari*.

7. As regards country liquor, the Committee will, in the first place, consider to what extent the outstill system where it now obtains can be replaced by an efficient distillery system. Considerable progress has been made in this direction during the last 20 years; but the outstill areas are still very extensive in Bengal, the Central Provinces and the United Provinces, and as yet cover the whole of Assam and Baluchistan. The Bengal Government has, however, already proposed to bring a large proportion of its outstill areas under distilleries, and the Chief Commissioner of the Central Provinces is taking action in the same direction, while the Assam Administration is about to start a distillery in the Sibsagar district. In dealing with this, as with other matters, the Committee will take as their starting point the reforms already contemplated by Local Governments.

8. In regard to areas where local circumstances may make it necessary to retain the outstill system for the present, the Committee will consider how far the evils to which it is subject can be minimised by measures of the following character:

- (1) By bringing the quantity of the outturn under stricter control.
- (2) By making the incidence of taxation bear a more definite proportion to the outturn.
- (3) By improving the quality and regulating the strength of the liquor.
- (4) By preventing the smuggling of outstill liquor into distillery areas.
- (5) By prohibiting the sale of liquor to children or to drunken persons.
- (6) By checking the occurrence of drunkenness in the neighbourhood of shops or stills.
- (7) By securing a reasonable degree of conformity with local public opinion as to the location of shops.

With reference to clause (3) above, it may be noted that Major C. H. Bedford, I.M.S., is at present engaged in an enquiry as to the best methods of procuring an improvement in the quality both of outstill and of distillery liquor, and the Committee should refer to him where necessary.

9. Turning now to the distillery areas, the system adopted in the various Provinces should be carefully compared with a view to effecting improvements in those which are more backward. The objects in view should be to concentrate manufacture as far as possible, to improve the process of distillation, to regulate the strength of the liquor, and, if possible, to impose definite standards of purity. Here again Major Bedford, who has already furnished a useful preliminary note on the subject of his deputation, should be consulted whenever the Committee deem it advisable.

10. Of the Provinces in which the primitive system of central distilleries which are mere collections of native pot-stills in Government enclosures has hitherto prevailed, Bengal and the Central Provinces have already proposed to substitute more efficient distillery arrangements, and the Government of the United Provinces is ready to move in the same direction. The attention of the Committee is also invited to this Department's Resolution of the 6th April 1905, No. 1975-Exc., in which the Government of India have advised that in Provinces in which plain spirit manufactured by European processes has not yet been admitted into the country spirit market this should now be done, thus affording a starting point for the provision of "country spirit" by large and well equipped distilleries. The Committee should take up this matter and report with reference to these considerations as to the possibility of introducing improved distillery arrangements. They should also deal with the questions which necessarily arise under a system of manufacture concentrated in a few centres, *e.g.*, the provision to be made for the distribution of liquor by means of bonded warehouses, and for the export in bond of liquor from one Province to another, a matter in regard to which there has hitherto been some difficulty under the existing Northern India Excise Act.

11. The Committee should likewise consider the fiscal system to be adopted with reference to the improved distillery arrangements contemplated. Apart from the central distilleries already referred to, there are three typical systems now at work in India, *viz.* :

- (a) The Contract Distillery system of Madras, as worked there since 1901, which has now been adopted as a model in Bengal and the Central Provinces. Under this system the monopoly of supply in a district or other selected area is given out on contract, the contractor issuing his liquor at the rate of excise duty in force and supplying vendors at a fixed rate determined by tender over and above this duty, while the right of vend is generally disposed of by auction for each shop sanctioned.
- (b) The Punjab system, where the vendor can procure his liquor from any one of a limited number of licensed distilleries. Here too the shops are as a rule separately sold by auction.
- (c) The District Monopoly system of Bombay. Here the monopoly granted extends to vend as well as to supply; the contracts are given not by competition but by selection; the rates of duty are low, and, subject to payment of a minimum guarantee which is ordinarily covered by the amount of duty paid on issues, the contractor pays nothing for the privilege of retail vend.

12. The Committee should also consider the possibility of enhancing the present taxation on country liquor produced in distilleries. The average provincial rate of taxation is considerably below the general average for India in Bombay and, in the United Provinces, the two Provinces in which consumption is largest. It is also low in the Central Provinces; but here the measures of reform devised by a local Excise Committee and approved by the Government of India will eventually give an increase. In the other Provinces the incidence of taxation of distillery liquor is relatively high, and in some localities already exceeds that on imported spirits. It should be borne in mind that the primary justification for increase of taxation is that, as observed above, this is the most efficient method of discouraging consumption.

13. The instructions contained in clauses (5), (6) and (7) of paragraph 8 will also apply in regard to shops and vend arrangements for distillery liquor. The Committee should likewise consider—

- (a) Whether drunkenness might not be discouraged by forbidding the sale of country liquor above a fixed low strength, and whether such a general prohibition would be open to objection.
- (b) What measures can be adopted to discourage the clandestine purchase of liquor by members of classes whose religion or caste forbids the use of alcohol.

14. The expansion of distillery areas and the concentration of manufacture at a few centres must necessarily afford temptations to the illicit production of liquor or to its transport from outstill areas. The Committee should therefore consider whether the preventive arrangements in the various Provinces are adequate, having regard both to present circumstances and to those which may prevail in the future, and should submit such recommendations for reform as they may consider necessary. Assuming that preventive arrangements can be best carried out by a special Excise agency, the Committee should also consider what the relations between that agency and the police ought to be. On the other hand, the extraordinarily high proportion of prosecutions and departmental cases in Madras, where special preventive agencies have been highly developed, has attracted the attention of the Government of India, and the Committee should consider whether this evil is an inevitable feature of the local system of administration, or whether it cannot be remedied by suitable arrangements.

15. The Committee should also consider what explanation can be afforded of the fact that the consumption of liquor per head of population is greater in the Bombay Presidency than elsewhere; whether this fact is connected with the operation of the Bombay District Monopoly system above referred to; and whether it can be remedied by appropriate modifications of that system.

16. As regards foreign liquor, the Committee should consider the following questions:

- (1) Is there any foundation for the common allegation that this class of intoxicant, or any particular variety of foreign spirit, is more deleterious than country liquor?
- (2) Do the rates of taxation on this class of liquor (taking into account the fact that the vend fees charged thereon are as a rule light), or the nature of the regulations under which it is sold, tend to undue stimulation of its sale in preference to that of country spirit, and if so, to what extent?
- (3) Is the consumption of foreign spirit increasing out of proportion to the increase of population, and if so, is any change of system necessary to bring it under better control?
- (4) Are there any classes of the population to whom it offers special attractions, and whose use of it should be discouraged?

17. As regards *tari* (or toddy), the Committee should consider whether the tree-tax system, which from a revenue point of view has been very successful in Madras, or any similar system can or should be extended to other parts of India, due regard being paid everywhere to local conditions. In this connection it should be carefully borne in mind that, so far as present information goes, *tari* is the least noxious of all the forms of alcohol in common use in India, and that it would be a grave evil to discourage its use if this result should be purchased at the cost of driving the people to more deleterious intoxicants. No considerations of revenue could be permitted to justify such a course. Another most important consideration is whether such a change of system, if held to be desirable in itself, can be effected without inquisitorial and harassing interference with the people and the employment of a large staff of low paid preventive officers. The Government of India are disposed to regard such a result as an evil only less serious than excessive drinking, and it must be justified, if at all, by other considerations than those of revenue.

18. The Committee should also enquire into the following general matters:

- (a) Whether the instructions conveyed in paragraph 4 of the circular letter from this Department No. 2455-S.R., dated the 21st April 1904, that the growth of Excise revenue is to be regarded as satisfactory only when it results from the substitution of licit for illicit manufacture and sale, or (it may be added) from higher taxation of licit consumption, and not from a general increase of consumption, are duly observed in all Provinces. In this connection the Committee should bring to notice any regulations of the local Excise

systems which may tend to encourage the consumption of intoxicating liquors, such, for example, as the imposition of a minimum guarantee on shop-keepers and the fixation of maximum selling prices. They should also direct their attention to any cases in which there may seem to be a tendency to press increase of Excise revenue for its own sake, and not merely as a means of reducing consumption.

- (b) Whether the instructions conveyed in the above circular, with a view to ensure that the number of places at which intoxicating liquors can be purchased should be strictly limited with regard to the circumstances of each locality, are adequate, and whether they are being properly carried out.
- (c) Whether there is sufficient co-ordination and co-operation between the various Provinces in the matter of Excise work, and if not, in what direction any improvement in this respect can be made.
- (d) Whether special measures are required to cope with the smuggling of liquor from Native States.

19. Lastly, the Committee should consider whether the various defects which have been brought to notice in the Northern India Excise Act (XII of 1896) make a complete repeal and re-enactment of that Act desirable; and if so, they should indicate the main lines on which fresh legislation is required. They should also report whether it would be preferable to have one new Act for the Provinces to which the existing Act extends, or whether Provinces with Legislative councils might not preferably have local Acts of their own as is already the case in Madras, Bengal and Bombay. It is desired that the Committee should in either case prepare a skeleton Bill on which, if it is found preferable to have separate local Acts for the various Provinces, each of these will be able to frame its own measure with the necessary local modifications, in regard to which the Committee's advice will be very valuable. A draft Bill of this nature has recently been drawn up by the Central Provinces Excise Committee, and will doubtless be found of considerable use to the Committee in this respect.

20. It is not intended that the above enumeration of the points for enquiry should be exhaustive, and the Committee will have full liberty to raise and consider any other questions of importance that may occur to them in the course of their proceedings. It is believed, however, that the foregoing summary embraces most of the principal features in respect of which investigation and reform are likely to be desirable.

21. The Committee's investigations will not extend to Burma, where the principal Excise problems are connected with opium and not with liquor; but they should visit all the other Provinces in view to investigation of the local Excise arrangements and conditions.

22. The Committee will be constituted as follows :

President :

The Hon'ble Sir J. Thomson, K.C.S.I., I.C.S. (Madras).

Members :

The Hon'ble Mr. K. G. Gupta, I.C.S. (Bengal).

The Hon'ble Mr. R. A. Lamb, C.I.E., I.C.S. (Bombay).

The Hon'ble Mr. J. M. Holms, I.C.S. (United Provinces).

Major C. G. Parsons (Punjab Commission).

Secretary :

Mr. C. G. Todhunter, I.C.S. (Madras).

23. The Committee will assemble at Madras about the middle of October next to arrange their programme of tour and settle other preliminaries; and they will, it is hoped, be able to submit their report by the end of April 1906.

Ordered that the Resolution be published in the Supplement to the *Gazette of India*.

W. S. MEYER,

Secretary to the Government of India.

No. 1—52-5.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

EMIGRATION.

Simla, the 7th September, 1905.

RESOLUTION.

Clause (m) of Section 3 of the Australian Immigration Restriction Act, 1901, exempts from the category of "prohibited immigrants" a wife accompanying her husband, if he is not a prohibited immigrant, and all children apparently under the age of eighteen years accompanying their father or mother, if the father or mother is not a prohibited immigrant; but it is provided that these exceptions shall not apply if suspended by proclamation. The Government of India have now been informed that the Government of the Commonwealth have, by a proclamation issued on the 28th March 1903, suspended the operation of the clause. The admission into the Commonwealth of the wives and children of Indians, who have acquired an Australian domicile, is therefore, under the operation of this proclamation, prohibited unless these persons do not themselves fall within the category of "prohibited immigrants".

ORDER.—Ordered, that a copy of the above Resolution be forwarded to all Local Governments and Administrations, and to the Home and Foreign Departments, for information.

Ordered, also, that a copy be published in the Supplement to the *Gazette of India* for general information.

W. L. HARVEY,
Secretary to the Government of India.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 14th September 1905.

NOTIFICATIONS.

No. 3541 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 9th September 1905 :—

No. 413 of 1905.—Herbert Wilfred Perry, lately executive engineer and now district traffic superintendent, in the employ of the South Indian Railway Company, and residing at Trichinopoly in the Madras Presidency. *An improved roller box goods vehicle for railways.*

No. 414 of 1905.—Arthur Bernard Gill, electrical engineer, of 27 Whitehall Court, London, England. *Improvements in the method of and means for electrically lighting railway carriages and the like.*

No. 415 of 1905.—Mahomed Abdul Kuddus Badsha Sahib, a member of the firm of Messrs. Hajee Mahomed Badsha Sahib and Company, merchants, and mica and diamond miners, of No. 16 North Line Beach, Madras. *An improved method of joining together sheets of mica,*

No. 416 of 1905.—A. R. Perumalchettiar, merchant and commission agent, Trichinopoly. *An improved press ink.*

No. 417 of 1905.—Peter Smith Swan, broker and commission agent, of 12 Clive Row, Calcutta. *Improvements in roofs for shed buildings such as mills and factories.*

No. 418 of 1905.—Charles Walke, Inspector of Steam Boilers, The Town Customs House, Fort, Bombay. *Improvements in cotton gin rollers.*

No. 3542 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 134 of 1904.—Henry Hart, merchants' assistant of Mangalore, South Canara India. *Improved apparatus for husking or peeling coffee berries and the like.* (Specification filed 25 February 1905.)

No. 154 of 1904.—Akshaya Kumar Majumdar, pleader, Judge's Court, Mymensingh, Bengal. *Saraswat colours.* (Specification filed 7 September 1905.)

No. 390 of 1904.—Frank George Price, engineer, of 31 Dalhousie square, Calcutta (at present absent from British India). *Improvements in washers for waterproofing bolt holes in corrugated metal sheeting.* (Specification filed 4 September 1905.)

No. 445 of 1904.—Allan Mowbray Dissent, teacher of mathematics, Doveton College, residing at 15 McLeod street, Calcutta. *An incandescent lamp to be known as the record lamp.* (Specification filed 6 September 1905.)

- No. 446 of 1900.—Harry Vaughan Rudston Read. *Improved means to be employed in charging gas into liquids contained in bottles and the like.* (Specification filed 4 June 1901.)
- No. 452 of 1900.—Harry Vaughan Rudston Read. *Improved means to be employed in charging gas into liquids contained in bottles or the like.* (Specification filed 4 June 1901.)

No. 137 of 1901.—Harry Walker Abbott and Thomas Inlow Porter. *Machines for counting coins, disks, etc.* (Specification filed 4 June 1901.)

No. 168 of 1901.—Arthur William James. *An improved exhaust steam automatic surface condenser.* (Specification filed 4 June 1901.)

No. 171 of 1901.—Ludwig Grote. *Improvements in or relating to machinery for manufacturing glass, bottles, or the like.* (Specification filed 8 June 1901.)

No. 172 of 1901.—Fred Ford Dow. *Improvements in burners for heating purposes.* (Specification filed 8 June 1901.)

No. 173 of 1901.—Fred Ford Dow. *Improvements in tree felling machines.* (Specification filed 8 June 1901.)

No. 187 of 1901.—Fred Ford Dow. *Improvements in vapour lamps or burners.* (Specification filed 8 June 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 385 of 1897.—Edward Charles Ludwig Kressel and Thomas Hill-Jones. *The manufacture of an improved alimentary extract.* (Specification filed 6 June 1898.)

Fee in respect of the continuance of an exclusive privilege—

4 (d) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification—

The sum of Rs 50 for the above invention.

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

THE HON'BLE THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 7th September 1905.

No. 5082.—Whereas by the Notification of the Government of India in the Foreign Department, No. 2252-I., dated the 7th August 1883, the Indian Christian Marriage Act, 1872, was, with certain modifications, declared to apply to the Civil and Military Station of Bangalore, so far as regards marriages between persons, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian British subject.

In exercise of the powers conferred by sections 6 and 9, respectively, of the Act, the Hon'ble the Resident in Mysore is pleased—

- (a) to grant a license to the Reverend Sampson David of the London Mission, to solemnise marriages within the territories included in the Civil and Military Station of Bangalore; and
- (b) to grant a license to the said Reverend Sampson David to grant certificates of marriage within the territories included in the Civil and Military Station of Bangalore between Native Christians, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian subject of His Majesty.

No. 5083.—In exercise of the powers conferred by sections 6 and 9, respectively, of the Indian Christian Marriage Act, 1872 (XV of 1872, as modified by Act II of 1891), and which have been delegated to him by the Governor-General in Council under section 86 of the Act by Foreign Department Notification No. 3747-I.B., dated the 1st October 1897, the Hon'ble the Resident in Mysore is pleased:—

- (a) to grant a license to the Reverend Sampson David of the London Mission to solemnise marriages within the territories of Mysore including the Civil and Military Station of Bangalore; and
- (b) to grant a license to the said Reverend Sampson David authorizing him to grant certificates of marriage between Native Christians within the said territories.

The powers hereby conferred are to be exercised only so far as regards Christian subjects of His Majesty.

By Order,

R. C. M. KING,

First Assistant to the Resident in Mysore.

THE HON'BLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.

CALCUTTA UNIVERSITY.

NOTICE.

The Senate will proceed in the month of August 1906 to the election of a Tagore Professor of Law for the term of one year, to commence on the 1st of August 1907.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects:—

- (1) The principles of Muhammadan Jurisprudence according to the Hanifaite, Malikite, Shafeite, and Hanbalite Schools of Muhammadan Law.
- (2) Customs and Customary Law in British India.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st May 1906, stating on which of the abovenamed two subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will be expected to commence his lectures in August 1907, to complete the delivery thereof in the following January, and to hold an examination of the students who have attended his lectures. He will be further required to send to the Registrar a complete manuscript copy of his lectures before the commencement of the delivery thereof, failing which his appointment shall be liable to be cancelled by the Senate on the recommendation of the Faculty of Law.

K. C. BANURJI,
Registrar, Calcutta University.

SENATE HOUSE;
The 9th September 1905.

IN THE COURT OF THE MUNSIF AT FATEHABAD, DISTRICT AGRA.

*Present :*BABU JOTINDRA MOHAN BOSE, B.A., L.L.B., *Munsif*.

NOTICE UNDER SECTION 82 OF CIVIL PROCEDURE CODE.

Peary Lal, son of Ramcharan Agrwal, of Fatehabad, District Agra, *Plaintiff*.*versus*Sumera, son of Ojha, Het Singh, son of Pooran, Heera Singh and Teeka Ram, heirs of Het Singh, residents of Rasoolpur, Pargana Fatehabad, District Agra, *Defendants*.

To Het Singh, wherever you are :—

Whereas a suit for ₹69-9-0 has been instituted in this Court against your heirs and since the defendants have raised an objection that you are still alive, it is hereby notified and published that you, if you are alive, do appear and defend the suit on the 22nd of September 1905, the date fixed for the hearing of the suit. In case of your non-appearance the suit will be heard against your heirs you being treated as dead.

Given under my hand and seal of the Court,

JOTINDRA MOHAN BOSE,
Munsif.

SUPPLEMENT TO
The Gazette of India.

No. 37.} CALCUTTA, SATURDAY, SEPTEMBER 16, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
FINANCE DEPARTMENT.

REPORT UPON THE OPERATIONS OF THE PAPER CURRENCY DEPARTMENT
DURING THE YEAR 1904-05.

No. 151, dated Calcutta, the 31st July 1905.

From—A. F. Cox, Esquire, Head Commissioner of Paper Currency, Calcutta,

To—The Secretary to the Government of India, Finance Department, Simla.

I have the honour to submit a report upon the operations of the Paper Currency Department during the year 1904-05.

2. The Statement No. I in the Appendix gives a general view of the progress made during the last three years in the circulation of Currency notes. It shows what it has been usual to call the *gross*, the *net*, and the *active* circulation on the last day of each month of those years, and also the average of each year. By *gross* circulation is meant the value of all notes that have been issued and not yet paid off: the *net* circulation is this sum less the value of notes held by Government in its treasuries: and the *active* circulation is the *net* reduced by the value of notes held by the Presidency Banks at their head offices, which is subject to large variations dependent upon the condition of trade. Of these three kinds of circulation the *active* is the most important, for it shows to what extent paper money is used by the people in their pecuniary transactions. It is satisfactory to find that the annual average *active* circulation has increased from 23,49 lakhs in 1902-03 to 26,34 lakhs in 1903-04 and 28,11 lakhs in 1904-05. The progress has been rapid and regular, and contrasts favourably with the slower and rather variable advances made during the preceding eight years as shown in the margin.

1894-95	18,50
1895-96	20,24
1896-97	19,87
1897-98	18,03
1898-99	19,00
1899-00	21,27
1900-01	22,05
1901-02	21,19

The gross circulation distributed among the Currency Circles.

3. The variations in the gross circulation of Currency notes are in the following statement distributed among the various Circles in thousands of rupees:—

LAST DAY OF	Calcutta.	Allahabad.	Lahore.	Bombay.	Karachi.	Madras.	Calicut.	Rangoon.	TOTAL.
April 1904 .	14,88,81	1,52,35	2,84,54	9,86,21	1,06,38	4,30,98	15,88	1,45,91	36,11,05

October " .	16,55,46	1,71,39	2,97,38	11,81,64	87,99	3,81,61	22,76	1,46,65	39,44,98
November " .	16,45,91	1,64,76	2,74,15	12,52,44	77,82	4,02,83	20,79	1,41,22	39,79,92
December " .	16,26,70	1,62,87	2,71,29	11,50,28	76,93	4,22,14	14,56	1,43,84	38,78,61
January 1905 .	16,32,26	1,50,10	2,58,47	10,64,93	92,00	3,94,01	13,48	1,57,11	37,62,36
February " .	16,64,23	1,40,48	2,49,28	9,81,25	80,28	4,43,93	12,71	2,01,05	37,73,21
March " .	17,01,67	1,65,83	2,77,12	10,71,42	86,77	4,36,04	14,60	1,74,15	39,17,60
Average for last twelve figures .	16,31,74	1,97,09	2,87,90	11,33,09	88,00	4,07,76	19,09	1,55,46	39,20,13
Average of 1903-04 .	14,77,27	1,96,98	2,70,01	10,19,89	1,09,58	3,92,86	16,66	1,57,66	36,40,91
1902-03 .	13,79,88	2,12,46	2,45,95	9,36,59	98,31	3,73,06	16,62	1,11,14	33,74,01

All the Circles except Karachi and Rangoon have contributed towards the increase, the largest contributions being those of Calcutta and Bombay. In the Calcutta Circle the rise was chiefly in ₹10 notes.

4. The details of the gross circulation as on 31st March 1905 for each denomination and in each Circle are as follows:—

Details of gross circulation according to denomination of notes for each Circle.

	NUMBER OF NOTES FOR RUPEES								TOTAL.	
	5	10	20	50	100	500	1,000	10,000	Pieces.	Value.
Calcutta . . .	115,988	4,718,424	53,467	47,425	376,260	29,527	31,743	3,483	5,376,317	17,01,67,270
Allahabad . . .	31,836	94,421	30,453	22,510	41,757	4,847	3,226	392	229,442	1,65,83,150
Lahore . . .	85,112	210,954	102,093	30,895	85,685	11,486	4,519	176	530,920	2,67,12,210
Bombay . . .	638,267	1,326,658	192,376	114,297	154,035	12,129	28,364	3,129	2,469,255	10,71,42,285
Karachi . . .	4,754	174,058	26,304	13,480	14,487	1,609	2,059	140	236,891	86,76,630
Madras . . .	150,441	283,656	58,293	31,948	252,034	3,956	2,130	794	783,252	4,36,03,423
Calicut . . .	46,684	18,148	4,550	2,551	5,303	114	39	20	77,409	14,59,750
Rangoon . . .	12,234	257,685	19,109	7,069	118,030	189	1,174	97	415,587	1,74,15,150
TOTAL . . .	1,085,316	7,084,004	486,645	270,175	1,047,591	63,857	73,254	8,231	10,119,073	39,17,59,870
Percentage of increase . . .	+ 10.8	+ 7.4	+ .4	- 1.4	+ 4.9	+ 5.5	- 6.8	+ 3.4
Total for 31st March 1904 . . .	979,224	6,591,758	484,402	274,114	998,706	60,497	78,230	7,956	9,474,887	38,21,16,540
Percentage of increase . . .	+ 12.2	+ 10.6	+ 4.6	+ 3.9	+ 11.1	+ 7.3	+ 19.1	- 0.5
Total for 31st March 1903 . . .	872,414	5,960,226	462,052	263,866	898,724	56,348	65,653	8,712	8,588,895	35,72,36,070

5. Dividing the gross circulation between notes of ₹500 and upwards, and notes below ₹500, the values at the end of each of the last three years have been in thousands of rupees:—

	Notes of ₹100 and under.	Percentage of total.	Notes of ₹500 and upwards.	Percentage of total.	TOTAL.
	Value. ₹		Value. ₹		Value. ₹
1902-03 . . .	17,62,89	49	18,09,47	51	35,72,36
1903-04 . . .	19,40,78	51	18,80,39	49	38,21,17
1904-05 . . .	20,42,67	52	18,74,93	48	39,17,60

The increase in the percentage of notes of the lower values must be attributed to the more general use of paper money by the ordinary public and to the special privilege newly given to Rs 5 notes.

6. The varying proportions in which notes of each denomination have circulated in the various Circles during the last two years are shown below :—

Denomination of Notes.			CALCUTTA.		ALLAHABAD.		LAHORE.		BOMBAY.		MADRAS.		TOTAL OF ALL CIRCLES.	
			1903-04.	1904-05.	1903-04.	1904-05.	1903-04.	1904-05.	1903-04.	1904-05.	1903-04.	1904-05.	1903-04.	1904-05.
Rupees	5	.	1'85	2'15	12'62	13'90	13'90	16'03	24'60	25'50	17'51	19'80	10'34	10'75

TOTAL			100	100	100	100	100	100	100	100	100	100	100	100

7. Except in the case of Rs 5 notes the variations in the percentages of the two years are so small as to be evidently accidental. It is remarkable how year after year each Circle shows the same preference for particular denominations of notes. The average value during the last four years of the notes in circulation in each Circle on the last day of the year is given in the margin, notes of Rs 10,000 being excluded, as their high value and irregular use only tend to mislead.

	1901-02.	1902-03.	1903-04.	1904-05.
Calcutta Circle	25	25	25	25
Allahabad "	55	55	54	51
Lahore "	47	51	55	51
Bombay "	31	33	30	23
Karachi "	31	31	30	30
Madras "	45	44	44	41
Calicut "	16	20	21	21
Rangoon "	39	43	51	49
All India	30	32	31	30

8. It is not possible to bring out by the method employed in Statement No. I of the Appendix the *active* circulation of each Circle during the year, because both Treasuries and Presidency Banks hold notes issued in Circles other than their own. The Reserve Treasuries, however, hold practically the whole of their balances in home-circle notes, and in the following table the *gross* circulation is accordingly reduced by the note balances of the Reserve Treasuries, and is compared with the corresponding figures of the two previous years, in lakhs of rupees :—

LAST DAY OF	CALCUTTA.			BOMBAY.			MADRAS.			OTHER CIRCLES.			TOTAL.

AVERAGE	11,49	12,63	14,33	8,05	9,02	9,75	3,21	3,60	3,72	6,85	7,51	7,48	29,61	32,76	35,33

The increase appears in the three large Circles but mainly in Calcutta, where it occurred in every month of the year. In Bombay there was a falling off in October and February as compared with those months in the previous year, and in Madras in September October, November and January.

9. The table in paragraph 4 shows that the largest increase that has taken place in the Circulation of the universal five-rupee note, last two years in the circulation of any particular denomination occurs in the case of the

five-rupee note. The circulation of these notes on 31st March 1905 was about 25 per cent, more than what it was on 31st March 1903. As these small value notes are not held in any large quantities in the balances of treasuries or Presidency Banks, the increase represents an expansion of their *active* circulation among the public. This increase must be due to a great extent to the legislation of March 1903, making five-rupee notes of any circle except Rangoon legal tender throughout India, except Burma, and encashable accordingly. The growing popularity of the universal five-rupee note is also apparent from a comparison of the average *gross* circulation of five-rupee notes of the several circles excepting Rangoon during the past four years. The figures are given in the margin in lakhs of rupees. In the earlier months of 1904-05 a somewhat embarrassing use was made

1901-02	37.1
1902-03	40.7
1903-04	40.7
1904-05	52.3

of the universal note for trade remittances of funds particularly between Bombay, Karachi and Lahore during the wheat season. In order to have some idea of the extent to which these notes might be used for remittance purposes, a record was ordered to be kept at the Currency Offices, of all issues in parcels of 2,000 notes or more which were avowedly taken for this purpose. The records show that universal notes of the value of about 26 lakhs of rupees were taken for that purpose in the nine months, April to December 1904, the greater portion of the issues having taken place at Bombay for remittance to the Punjab. It was decided during the year to extend to the Currency Offices at Allahabad, Lahore and Karachi the system which prevailed in the case of the three Presidency towns of issuing telegraphic transfers on one another at low rates to all applicants who wanted to remit Rs. 50,000 and upwards; and with effect from 1st January 1905 such transfers have been sold—

(1)	Between Calcutta and Allahabad	at a premium of	$\frac{3}{8}\%$	per cent.
(2)	" " and Lahore	" " "	$\frac{1}{8}\%$	"
(3)	" Bombay and Allahabad	" " "	$\frac{3}{8}\%$	"
(4)	" " and Lahore	" " "	$\frac{1}{8}\%$	"
(5)	" " and Karachi	" " "	$\frac{1}{8}\%$	"
(6)	" Karachi and Lahore	" " "	$\frac{3}{8}\%$	"

The experience of the three months, January to March 1905, seems to indicate that the introduction of this system of universal transfers has to some extent checked the use of the universal note for remittance purposes. During this period transfers to the extent of 26 and 41½ lakhs were taken between Bombay and Karachi, and Bombay and Lahore, respectively, while the issue of notes in bundles of 2,000 and over, for purposes of remittance, during the same period amounted only to about 3½ lakhs of rupees.

Gold transactions.

The year 1904-05 opened with a stock of gold in the Currency Reserve and Treasuries valued at £10,916,537 2, and the closing balance was worth £10,949,639 1. The monthly transactions are shown below together with those relating to the Gold Reserve Fund :—

GRAND TOTAL	10,916,954'2	+ 5,632,687'2	...	—5,600,002'3	10,949,639'1

Except in October the receipts of gold from the public at the Currency Offices and Treasuries exceeded the issues in every month of the year. In addition to the usual receipts of imported sovereigns at each of the Presidency towns in the winter months, when the export trade is very brisk, large amounts of these coins were received at Bombay, in May and June, in connection with the heavy exports of wheat from Karachi, and at Calcutta during the jute season in September. The gross receipts in the year from the public of sovereigns believed to have been imported from abroad amounted to about 7·8 million sterling. Of these receipts about 5·6 millions were exported by Government, while about 2·2 millions were absorbed by the country, having either passed into circulation or hoards, or been used in the manufacture of articles of jewellery. The Government stock at the end of the year was practically the same as at its beginning.

There has been in the last two years a marked increase in the demand at the Currency Offices and treasuries for sovereigns required for local absorption. The figures for the last four years are given in the margin. The largest increase in the absorption has taken place in the United Provinces.

Of the £5,600,000 in gold exported by Government during the year £4,500,000 were spent in the purchase of silver required either for immediate coinage into rupees or for the formation of a reserve stock, while the remaining £1,100,000 represented a remittance of the Gold Reserve Fund for investment in sterling English Securities.

The details of the gold held in India on the last day of the year are as follows :—

	Currency.	Treasury and Mint.	Total.
	£	£	£
Current weight sovereigns and half-sovereigns	10,736,443 5	179,263 0	10,915,708 5
Light weight sovereigns and half-sovereigns	2,695 5	22,819 2	25,514 7
Bazar gold and miscellaneous	...	8,415 9	8,415 9
TOTAL	10,739,139 0	210,500 1	10,949,639 1

11. The balance of the Gold Reserve Fund at the beginning of the year stood at The Gold Reserve Fund.
£6,544,095 made up as follows :—

	£
Purchase value of Sterling Securities	6,376,520
Gold held in India	417
Outstanding debt from treasury balances	167,158
	6,544,095

The net profit on the new rupee coinage of the year amounted to £1,700,373 so that the amount available during the year for remittance to England for the purchase of Securities amounted to £1,957,951. Of this sum £1,100,001 was actually remitted in gold and £700,395 by Council Bills; £5,558 went towards meeting remittance charges, and £152,000 remained due to the Fund from treasury balances on 31st March 1905. Out of the total of £1,800,396 remitted from India to England during the year £914 was required for the payment of insurance and other charges in connection with the specie remittances; and the remainder together with the income in England (£200,523) arising from dividends on investments and the discount obtained on the purchase of Treasury Bills was invested in sterling securities of the nominal value of £2,023,568.

The balance of the Fund held in England at the end of the year was therefore £8,376,631 1s. 9d. which was invested as follows :—

	Nominal Value.			Cost of Investment.		
	£	s.	d.	£	s.	d.

Invested in Government Securities . . . 9,99,99,945 10 0

TOTAL . 39,17,59,870 0 0

On the corresponding date in 1904 the silver coin balance amounted to R11,49,75,648, and the gold coin and bullion to R16,18,43,503. There has, therefore, been a decrease of

13 lakhs in the silver coin balance, and of 7 lakhs in the gold balance, but there was an increase of 1,17 lakhs in the silver bullion.

14. One of the noticeable features of the year was the formation of an Ingot Reserve of silver. The reasons which led to its formation were described in paragraph 59 of the Financial Statement for 1905-06. It is intended to be a visible reserve from which a supply of rupees can be speedily obtained in the event of there being an unforeseen demand. The amount of silver to be ordinarily kept in the Ingot Reserve has been fixed at 300 lakhs of tolas of standard fineness, but it will be held as security for the encashment of notes equal only to its purchase value, about 188 lakhs of rupees. Two-thirds of the Reserve is held at Bombay and the remainder at Calcutta. The Reserve was brought up to its full strength by the end of November. It was temporarily drawn upon in December and March to meet heavy rupee demands, but was restored to its prescribed strength by the 22nd January and 22nd April respectively.

The Ingot Reserve of Currency Silver

15. Another important change in the constitution of the currency reserve was made during the year. Under the old law this reserve was intended to provide for the encashment of all outstanding currency notes however old they might be. The Indian Currency Act, passed on the 22nd March 1905, now provides that all Currency notes of any value not exceeding 100 rupees which have not been presented for payment for 40 years with effect from the first of April following the date of their issue, and notes of higher values which have not been so presented for 100 years, are to be deemed not to be in circulation, and that no reserve is to be maintained in the Currency Department for the encashment of such notes, but that if they are subsequently presented for encashment, payment is to be made from the revenues of the Government of India. The first writing off of notes under the above law will take place in the accounts of 1905-06, but an idea of the amount which will be written off during the first year may be obtained from the following table. The first issues were made in 1862 in Calcutta, Bombay and Madras; in 1884 in Allahabad and Lahore; in 1865 in Karachi and Calicut; and not until 1883 in Burma.

Writing off of old notes.

„ 20	101,100	4	706	63,100	2	329	109,998	5	544
„ 50	78,600	2	336	34,550	1	116	71,650	8	200
„ 100	89,285	2	313	35,150	2	75	86,265	3	277

16. The nominal value of the investment stood as at the close of the previous year at Rs. 10,20,81,500, which is held at a book-value of Rs. 99,99,945-10-0. Of the nominal value, Rs. 8,15,95,000 consist of 3½ per cent. and Rs. 2,04,86,500 of 3 per cent. securities. The interest realised and credited under the head "Profits on Note Circulation" during the year is Rs. 34,70,420, of which Rs. 28,55,825 is the amount realised on 3½ per cent. investments and Rs. 6,14,595 on the 3 per cent. portion.

The Currency Investment.

It was decided during the year in view of the large increase in the circulation to raise the invested portion of the Reserve from ten to twelve crores and to make the additional investments wholly or partly in Securities of the United Kingdom or in Securities issued by the Secretary of State for India in Council, under the authority of Act of Parliament, and charged on the revenues of India. This decision has been incorporated in the Act passed on the 22nd March 1905.*

Issue and Receipt
of Notes.

17. The following have been the issues and receipts of notes during the year :—

ISSUES.		RECEIPTS.	
	R		R
Circulation† 1st April 1904.	38,81,88,670	Over the Counter . . .	1,35,72,55,915
Over the Counter . . .	1,43,84,42,035	At Agencies . . .	40,65,645
At Agencies . . .	69,64,495	From other Currency Circles . . .	10,44,60,200
<i>In Remittance Transactions—</i>		<i>In Remittance Transactions—</i>	
Between Head Offices and Agencies . . .	22,99,65,170	Between Head* Offices and Agencies . . .	20,89,14,940
Between Circles . . .	30,02,45,500	Between Circles . . .	29,08,10,265

	1,97,56,17,710		39,82,99,415
TOTAL . . .	2,36,38,06,380	TOTAL . . .	2,36,38,06,380

The issues of notes over the Counter were greater than those of the previous year by 4,42 lakhs and the receipts by 3,48 lakhs. The transactions between Head Offices and Agencies were more by 1,20 lakhs in the case of issues, and by 2,86 lakhs in the case of receipts. These transactions vary with the amount of telegraphic transfers made between Treasury and Currency for Resource purposes.

The total issues and receipts for the last three years are as follows :—

	Issues.	Receipts.
	R	R
1902-03	1,64,64,86,310	1,60,38,44,685
1903-04	1,88,50,20,465	1,86,17,78,030
1904-05	1,97,56,17,710	1,96,55,06,905

The issues have increased by about 9,06 lakhs, and the receipts by 10,37 lakhs as compared with the previous year, the difference being made up as follows :—

	Issues.	Receipts.
	R	R
Over the Counter	+ 4,42	+ 3,48
Remittance transactions	+ 4,61	+ 6,38
From other Currency Circles	+ 54
Other heads	+ 3	— 3
	<u>9,06</u>	<u>10,37</u>

18. The following table gives the circulation of the six larger circles, and the mean value of their receipts and issues during the year, with the percentage of the former to the latter during the last three years. As usual the transactions in Burma are very high,

* The additional investment of two crores in sterling securities was completed by the 14th August 1905.

† Including notes which have been paid off in some other Circle than their own.

compared with the average circulation, because of the larger operations there during about three months of each year in connection with the export of rice:—

NAME OF CIRCLE.	IN LAKHS OF RUPEES.		PERCENTAGE OF AMOUNT IN COLUMN 2 ON THAT IN COLUMN 3.		
	Average circulation on last day of month.	Mean value of Receipts and Issues.	1904-05.	1903-04.	1902-03.
Calcutta	16,32	77,77	21	20	22
Allahabad	1,97	9,46	21	21	25
Lahore	2,88	13,95	20	20	19
Bombay	11,33	47,99	23	22	26
Madras	4,08	22,25	18	17	18
Rangoon	1,55	22,25	7	8	6

19. The aggregate issues and receipts of the several denominations of notes, both at offices of Issue and at Agencies during the year were as follows:—

	NUMBER OF NOTES FOR RUPEES								TOTAL.	
	5	10	20	50	100	500	1,000	10,000	Number.	Value.
Issues	2,751,458	9,231,488	1,080,097	430,492	2,630,155	196,725	412,031	105,301	16,837,747	1,97,56,17,710
Receipts	2,651,479	8,747,407	1,081,215	435,368	2,575,768	192,922	416,920	105,039	16,206,188	1,96,55,06,965
More Issues	99,979	484,081	54,387	3,733	...	262	631,559	1,01,10,745
„ Receipts	1,118	4,876	4,889

The average number of notes passed over the Counters at each Head Office on each working day during the past three years, and the daily average of cancellations, are given in the following table:—

	NOTES CASHED.			NOTES ISSUED.			NOTES CANCELLED.		
	1902-03.	1903-04.	1904-05.	1902-03.	1903-04.	1904-05.	1902-03.	1903-04.	1904-05.
At Calcutta	17,867	18,621	20,005	20,177	22,412	23,889	14,879	13,959	16,099
„ Bombay	11,047	12,114	14,902	11,657	12,787	14,894	6,144	5,937	9,082
„ Madras	6,365	7,210	8,031	6,793	7,351	8,062	5,941	6,381	8,460
„ Rangoon	3,372	4,011	4,777	3,742	4,252	5,228	2,735	3,783	4,722

The proportion of cancellations continues high, the withdrawals of notes which have been at all soiled being regarded as an important safeguard against forgery. The numbers of the total issues and cancellations for the year, in thousands of pieces, are given below:—

	CIRCLES.								
	Calcutta.	Allahabad	Lahore.	Bombay.	Karachi	Madras.	Calicut.	Rangoon.	TOTAL.

The total encashments of Foreign Circle Notes were more than those of the last year by about 89 lakhs, the increase being the net result of increases of 7 lakhs at Calcutta, 29 lakhs at Allahabad, 50 lakhs at Lahore, 22 lakhs at Karachi and one lakh at Madras against a decrease of 20 lakhs at Bombay.

The most important variations from the preceding years occurred in the Foreign encashment of Bombay Notes, the increase in which amounted to 33 lakhs at Calcutta, 33 lakhs at Lahore and 20 lakhs at Karachi. Elsewhere the variations were not so marked. Their cause is to be found in the varying trade demand in various years, which leads to the transfer of funds from those provinces in which trade is comparatively dull to those in which

it is brisk. The following statement shows in lakhs of rupees the net transfers by means of Foreign Circle Notes between each of the circles during the last two years. The plus figures indicate that transfers to the circle exceeded those from it, and the minus figures represent an opposite movement:—

	1903-04.	1904-05.	Difference.
Calcutta	+ 1,12	+ 06	— 16
Allahabad	— 84	— 27	+ 57
Lahore	— 99	— 46	+ 53
Rangoon	— 10	— 8	+ 2
Bombay	+ 1,02	— 12	— 1,14
Karachi	+ 99	+ 1,25	+ 26
Madras	— 1,11	— 1,19	— 8
Calicut	— 7	— 8	— 1

22. The transactions in coin and bullion have been as follows:—

	87,30,23,297	0 0	Balance on 31st March 1905	29,17,59,924	6 0			
TOTAL	1,15,51,39,891	6 0	TOTAL	1,15,51,39,891	6 0			

The receipts and issues for the past three years are given below:—

	Receipts.			Issues.		
	R	a.	p.	R	a.	p.
1902-03	68,84,77,320	4	0	64,78,54,195	4	0
1903-04	89,79,38,699	0	0	87,30,58,229	0	0
1904-05	87,30,23,297	0	0	86,33,79,967	0	0

The net result was an increase in the coin and bullion reserve of 96 lakhs. This increase exactly corresponds with the increase in the circulation, there having been no addition to the investment of the reserve during the year. The receipts and issues were less than those of the previous year by 2,49 lakhs and 97 lakhs, respectively, the decrease being made up as follows:—

	Lakhs of Rupees.	
	Receipts.	Issues.
Over the Counter	+ 2,40	— 3,41
Remittance transactions	+ 2,41	+ 4,44
Other items	— 7,30	— 2,00
	— 2,49	— 97

Withdrawal of
uncurrent coin.

1	2	3	4	5
PROVINCE.	Shroff- marked coin.	Uncurrent coin.	Coin of 1835 mintage.	Coin of 1840 mintage.
India	1,19	2,31	39,60
Central Provinces and Berar	12	18	7,14
Burma	3	50	11,25
Assam	36	40	5,57
Bengal	40	3,05	41,99
United Provinces of Agra and Oudh	1	1,45	4,87	91,86
Punjab and North-West Frontier Province	2	2,20	3,15	52,62
Madras	5,07	1,08	32,54
Bombay	1	1,49	1,01	32,84
TOTAL	4	12,31	16,55	3,15,41

23. The withdrawals of shroff-marked and uncurrent coin and of rupees bearing the dates 1835 and 1840 are shown in the margin in thousands of rupees. The receipts of shroff-marked coin have dwindled to a few thousands but the withdrawals of uncurrent coin have increased by about three lakhs. The total amount of 1835 coins withdrawn to the end of the year is about 2,67 lakhs, and that of 1840 coins 17,41 lakhs.

Cutting of light-
weight coin.

24. The light-weight coins cut and broken during the year in the several provinces are shown below: Madras still heads the list by a long way.

NAME OF PROVINCE.	RUPEES AND HALF RUPEES.				Small Silver coin reduced in weight otherwise than by reasonable wear.	
	Reduced in weight not more than 25 per cent.		Reduced in weight more than 25 per cent.			
	R	½R	R	½R	½R	¼R
India	37,325	7,770	2,041	...	900	841
Central Provinces and Berar	7,716	1,006	84	4	4	2
Burma	216	190	643	1	2	...
Assam	20,067	266	91
Bengal	15,378	663	642	7	3	2
United Provinces of Agra and Oudh .	15,649	34,632	518	9	96	92
Punjab and N.-W. Frontier Province .	12,050	7,516	3,616	61	15	11
Madras	3,10,123	44,296	415	17	5	2
Bombay	71,776	27,849	390	12	39	41
TOTAL .	4,90,965	1,24,208	8,440	111	1,064	991

The figures in the above statement relate to the official instead of as hitherto to the calendar year. The headings have also been changed so as to accord with the present rules on the subject of the receipt of light-weight coin at Currency offices and Treasuries. Under these rules, rupees and half-rupees which have lost in weight more than 25 per cent. are rejected, while those which have lost less are accepted at certain prescribed rates. Full nominal value is allowed when the reduction in weight is not more than 6½ per cent., but beyond this limit payment is made at proportionate rates only. During the past year the Government of India took into consideration the desirability of making these terms less liberal as it seemed possible that they tended to encourage the sweating of coin. It was suggested that full value should be given only for coins which had lost not more than 4 per cent. and that those more than 10 per cent. under-weight should be cut and returned to the tenderer; but the Banks represented that such a change would impede business and subject them to considerable loss. It was therefore decided for the present to maintain the existing rules unaltered. Though the total amount of light-weight coins received and paid for during the year was about two lakhs more than in the previous year, the amount withdrawn still forms a very small proportion of the total number, upwards of two crores, which Colonel Baird concluded, as the result of his investigations made in 1896, must become light weight every year. It cannot therefore be doubted that, owing to the carelessness of treasury subordinates the withdrawal of light-weight coins is much less complete than it might be. An attempt has been made since 1st April 1903 to enforce a stricter observance of the rules on the part of the treasury staff. As a result there was a large increase in the number of light weights withdrawn from circulation in 1903-04 and there has been a further increase in the amount withdrawn in 1904-05, but even so no less than 60 treasuries in India, and 30 in Burma out of a total of 250 for all India and Burma, reported that they had not cut a single light weight coin during the year while in a still large number of cases the number so cut was insignificant. By far the largest amount of the withdrawals take place at the principal Currency Offices and at treasuries such as Trichinopoly, Dharwar, Gorakhpur and

Lucknow where railway earnings are paid in ; and it is possible that the large increase in the amount of these earnings last year may have contributed to the increase in the number of light weight coins withdrawn during the year.

Although in face of the facts described it is impossible to avoid charging treasury staffs with carelessness it must be admitted that anything like a perfect separation of light from legal-tender rupees is a tedious and difficult task necessitating the individual weighment of many doubtful coins. In order to test the work done at the five large Currency offices, a considerable sum, supposed to have been properly examined, was sent from each to the Mints for further examination with the assistance of automaton balances. The results are shown below :—

Amount examined.	Calcutta.		Bombay.		Madras.		Allahabad.		Lahore.	
	₹10,00,000.		₹10,00,000.		₹3,38,000.		₹3,46,612.		₹1,82,000.	
	Discovered by		Discovered by		Discovered by		Discovered by		Discovered by	
	Office.	Mint.	Office.	Mint.	Office.	Mint.	Office.	Mint.	Office.	Mint.
Counterfeits	93	64	124	61	38	7	12	12	63	11
Lost between 2 % and 6½ % .	183	16,402	4,914	5,886	2,223	1,299	14	7,769	...	3,039
„ „ 6½ % „ 12½ % .	112	278	48	110	4	52	7	51	19	48
„ „ 12½ % „ 18½ % .	24	20	15	5	2	5	1	3	5	5
„ „ 18½ % „ 25 % .	2	1	1	1
Total .	414	16,765	5,102	6,063	2,267	1,363	34	7,835	87	3,153

It is obvious that even in our Currency offices only an insignificant proportion of rupees which ought by law to be cut and reminted, are detected. By far the greater number are reissued and the excuse is that without mechanical assistance it is impossible to examine perfectly the enormous sums which pass through each office. The matter has been engaging the attention of the Government of India.

1904	56,385	2,032	1,930	1,853

25. The tables in the margin give the numbers of counterfeit coins cut and broken in the different provinces during the calendar year 1904 and the usual comparative statistics for the past ten years. They show that the number of counterfeit rupees discovered in 1904 in the Treasuries, Currency offices and Railway cash offices in course of examination of coin received by them is somewhat higher than the number similarly discovered in 1903 but is about the same as the figure for 1902. Out of the total number of 56,285, 23,080 were detected in railway cash offices, 5,449 being found on the North Western railway alone. The number of counterfeit rupees received at the Mints for examination during the year was 2,526, of which 253 were struck from dies and the rest were castings. Most of the former were well executed, but most of the latter consisted of palpable counterfeits made of base metal. The Bombay Mint received from the Bombay, Baroda and Central India and the Rajputana-Malwa railways 226 exceptionally well executed coins of which 136 were struck from dies and the rest were castings.

26. The usual examination of rupees with the object of arriving at some idea of the percentage of counterfeits in the circulation was made in May 1905 and the result is given in the table below :—

1	2	3	4
Currency office.	No. of coins examined.	Total number of counterfeits detected during examination.	PROPORTION OF COUNTERFEITS PER LAKH.
Calcutta	10,00,000	145	14.50
Allahabad	3,46,612	24	6.92
Lahore	1,82,000	74	40.66
Bombay	10,00,000	185	18.50
Madras	3,38,000	43	12.72
TOTAL	28,66,612	471	16.43

The average figure for the five offices is about the same as in the last two years. The percentage in the case of the Punjab is abnormally high being much higher than it was last year. On the other hand, there has been a large decrease in the Madras percentage; but the Commissioner of Paper Currency, Madras, ascribes it to the fact that a larger proportion of the rupees examined during the year consisted of receipts from the Exchange Banks which must have been more or less shroffed at the Banks before they were tendered at the Currency office. In the other offices also, and particularly in Calcutta and Bombay, the coins examined appear to have included receipts of more or less shroffed coin from the Banks, so that the results can hardly be taken as a correct index of the number of counterfeits present in the circulation.

al Coinages.

27. Statement II of the Appendix gives by calendar years the number of whole rupees coined in the Indian Mints from 1835 to 31st March 1905.

The rupee coinage of the year amounted to 10.88 lakhs. Of this Bombay coined 6.81 lakhs of which 5.72 were from purchased silver bullion, 2 from local coins of the Sirohi State received for conversion into British rupees, and the balance, 1.07 from withdrawn and uncurrent coins. Calcutta coined 4.07 lakhs, of which 2.06 were made from purchased silver and 2.01 from withdrawn and uncurrent coin. The number of rupees, therefore, which formed an addition to the circulation through the purchase of bullion was 7.78 lakhs. The net profit on rupee coinage amounted, as stated in para. 11, above, to 2,68½ lakhs.

rupee census.

28. The usual examination of the rupee circulation was made in May 1905, when 253 Government treasuries each sorted 10,000 rupees according to the dates borne by each. The result is given below with those of the previous fifteen years. Details by Provinces appear in Statement IX of the Appendix.

TOTAL	100	100	100	100	100	100	100	100	100	100	100	100	100	100	100	100

Six treasuries included in their returns 55 rupees with impossible dates and admitted afterwards that they had made mistakes.

If the results of the last census be correct, rupees of 1840 form nearly 3 per cent. of the circulation. A few years ago the circulation was estimated to be about 1,30 crores, but this must have been increased by the large coinages of the last three years. If we suppose that the present circulation amounts to from 1,40 to 1,50 crores, the number of these rupees still in circulation appears to be about 4½ crores which added to the withdrawals up to date, 17,41 lakhs, gives a total of about 22 crores.

29. The receipts and issues of small change at the Currency Offices during the year were as follow :—

	Receipts.		Issues.		Net Issues.	
	R	a.	R	a.	R	a.
Half Rupees	11,74,897	8	19,34,287	0	+ 7,59,389	8

One-eighth Rupees	13,17,011	12	21,07,467	6	+ 7,90,455	10
TOTAL	44,69,034	0	67,77,143	2	+ 23,08,109	2
TOTAL 1903-04	42,02,189	6	65,61,198	4	+ 23,59,008	14

30. The Currency Agencies in all provinces, except the Punjab and at Mandalay in Burma, are strictly Currency chests opened for resource purposes, whereas at the Agencies proper exchanges with the public take place. The chests permit of the transfer of Treasury funds from one place to another without actual movement of coin, and thus supply a very speedy means of withdrawing Treasury surpluses to head-quarters. On 31st March 1905 the number of Currency chests was 186, and they contained balances amounting to 6,26 lakhs, or 1,20 lakhs more than on the corresponding date in the previous year. The increase occurs in the Calcutta, Madras and Rangoon Circles and was due to the necessity of speedily withdrawing treasury surpluses to the Presidency towns to meet the payment of heavy Council bills.

The following table distributes the totals in details of Agencies :—

	1902-03.			1903-04.			1904-05.		
	R	a.	p.	R	a.	p.	R	a.	p.

" 1902-03	67	859	125	168	914	96	28	...	2,257	1,87,225

32. The increase as compared with last year occurs only under half notes. Notes lost by theft are not included in the above statement as no claim lies against the Department on their account. Payment of stopped notes cannot be refused, but if the presenter is not known he is pointed out to the Police who enquire into the circumstances connected with his possession of the note. There were 1,133 stopped notes on the Calcutta list at the close of the year ; during the year 348 were presented and 255 persons were pointed out to the Police, of whom only eight were prosecuted, a conviction being the result in seven cases. Notes proved to have been wholly destroyed are not paid off at once, but only after 20 years, when their value, which has been invested is paid together with the accrued interest. The number of destroyed notes and the investments made on their account are shown below. There was a considerable increase in such cases during the year, though the amount was less than in 1902-03.

	5	10	20	50	100	500	1,000	10,000	Total Pieces.	Value.
Calcutta	9	4	3	...	16	5,900
Lahore	3	3	1	7	950

" 1903-04	1	1	2	10	...	2	...	16	3,130
" 1902-03 .	1	10	...	4	30	...	10	...	55	13,305

Forgeries.

33. The forged notes presented during the year have been the following :—

Circle in which presented.	5	10	20	50	100	500	1,000	10,000	TOTAL.
Calcutta . . .	2	26	1	29
Allahabad . . .	1	1	2
Lahore	3	3
Bombay . . .	24	35	1	...	60
Karachi
Madras	1	1
Calicut
Rangoon . . .	4	1	5
TOTAL . . .	31	66	2	...	1	...	100

There were only six new forgeries during the year. Three were of the Calcutta Circle Notes of R10 bearing serial numbers $\frac{R}{40}$, $\frac{A A}{92}$ and $\frac{O A}{56}$, respectively ; two of the Bombay Circle notes of R5 with serial No. $\frac{C A}{92}$ and of R10 with serial No. $\frac{M A}{9}$ and one of the Madras Circle notes of R100 bearing $\frac{T A}{5}$ as serial No.

The forgery of the Calcutta Circle Rs notes was a poor pen and ink production, and that of Rs10 notes was a photograph on ordinary bromide paper. The forgery of the Bombay Circle Rs notes was a clumsy imitation, and that of Rs10 notes was on tracing paper which had no watermark besides many other defects. The forged Madras Circle Rs100 note was only a photographic print.

The case of forgery of the Calcutta Circle Rs10 notes of the $\frac{O}{35} A$ series was tried during the year, the accused being acquitted. That of forgery of the two Rs1,000 notes, referred to in last year's report as under enquiry, also ended in an acquittal. In Bombay the two utterers of the note for Rs10 were sentenced to four years' rigorous imprisonment, and seven years' transportation, respectively. There was another prosecution there for uttering a note for Rs1,000 of the $\frac{AA}{83}$ series in which the accused was acquitted. There were no prosecutions elsewhere and nothing remarkable about the forgeries. The case of forgery of two Rs1,000 notes mentioned in last year's report was disposed of during the year, the accused being acquitted. In one of three incomplete cases of 1902-03 a conviction was secured, and the result in the remaining two cases is not yet known.

34. All the fraudulent claims, except one which was in respect of an altered note, were of the usual kind in which presenters of half notes falsely declared that they had recently lost or accidentally destroyed the corresponding halves although they had already been deposited with the Currency Department or were subsequently presented by other claimants. Fraudulent claims.

35. A singular case of fraud which was attempted upon the Calcutta office in 1902 was disposed of during the year. A mercantile firm having reported the loss at one of its up-country branches of the first halves of certain notes were asked to surrender the second halves, but this was never done and the Currency office took no action because a telegram, purporting to have been sent by the firm, was received stating that the lost halves had been found. This proved to be a bogus telegram as was also another sent to the firm from Howrah, as though from the Currency office, acknowledging the receipts of the second halves of the notes. After some delay the firm's head office in Calcutta made enquiries and produced the receipt for a registered letter signed by the Currency officer, which ought to have contained the half notes. If it had contained them the Currency officer would have entered the receipt in a register kept by himself; it must, therefore, have contained one of the unimportant communications received at that time, but which one it is impossible to say. The judge who tried the suit decided in favour of the Currency office.

36. The following are the usual details of the remittances of whole and half rupees made during the year :— Remittances of Silver.

Through Circle Offices—

	R
Calcutta to Allahabad	14,00,000
„ to Lahore	25,00,000

„ to Bombay	6,31,000

Treasury remittances—

	Current.	Withdrawn and uncurrent.
India Reserve	+47,00,000	+1,77,00,000
„ other Treasuries	+8,00,000	—10,00,000
Central Provinces	—49,00,000	—8,00,000
Burma	—1,00,000
Assam	+1,00,000	—6,00,000
Bengal	—7,00,000	—47,00,000
United Provinces	+1,00,000	—1,02,00,000
Punjab	+1,00,000	—11,00,000
Madras	—13,00,000	—39,00,000
Bombay	+11,00,000	+48,00,000

The total volume of the year's remittances was about 70 lakhs in excess of that in the previous year. The amount of whole rupees supplied to the Punjab alone was about 1½ crores more than in 1904-05, and there was some increase also in the amounts supplied to Karachi and Rangoon. But on the other hand there was a decrease in the amounts received by the other circles; particularly Madras and Bombay.

In April 70 lakhs of whole rupees were supplied from Bombay to the United Provinces, and 60 lakhs to the Punjab to meet opium payments, and the trade demands in Upper India in connection with the wheat traffic. As, however, there was during the month a good demand for coin at Bombay itself to finance the export trade there, the Bombay coin reserve had to be strengthened by a remittance of 50 lakhs from Rangoon. Further remittances to the amount of 52 lakhs were made to the Punjab later on in the first quarter in connection with the disposal of the good spring harvests; 20 lakhs were sent from Ajmer, and the remaining 72 from Allahabad agencies after the surplus collections of Land Revenue had been gathered in the United Provinces. Madras also had to be supplied with 30 lakhs from Calcutta and 30 lakhs from Bombay in May and June, respectively. During this quarter 50 lakhs were sent from Calcutta to Gwalior in repayment of the temporary loan taken in January 1904.

The only important currency remittance in the second quarter was one of 50 lakhs from Bombay to Calcutta in September to meet coin requirements in connection with the jute trade. Thirty lakhs were also withdrawn to Calcutta during the month from the treasuries in the Central Provinces for the same purpose.

In the third quarter 71 lakhs were supplied to the Punjab from Ajmer and Indore, and 40 lakhs from Bombay, to meet the demands in connection with the autumn crops. Of the amount sent by Ajmer and Indore 50 lakhs were obtained from the Indore Durbar which paid the rupees into the Indore Treasury for the issue of bills in its favour in Calcutta where it wanted funds for investment in Government and other securities. Sixty-six lakhs were also sent during this quarter from Bombay to Karachi to finance the heavy wheat exports from that port.

In the fourth quarter further remittances aggregating 75 lakhs had to be made to the Punjab from Bombay and Calcutta, and 36 lakhs to Karachi from Bombay. The other important remittances during the quarter consisted of a supply of 1,50 lakhs from Calcutta to Rangoon to meet the demands in connection with the rice trade, and of 70 lakhs from Calcutta to Allahabad and its agencies in March in anticipation of the requirements of the next two months.

Distribution and absorption of Silver.

37. The absorption of whole and half-rupees during the year as compared with the previous year is shown below :—

39. The exports of Indian Merchandise during the year were about 4½ crores more than in 1903-04. The value of the raw cotton exported decreased by 7 crores, but there was an equal increase in the value of the wheat exports while important increases also took place in the exports of other cereals, of jute and of cotton and jute manufactures. There was, however, a large increase of 12 crores in the value of the imports also, and the net exports of merchandise in 1904-05 were in consequence about 7½ crores less than in 1903-04. The demand for rupees in 1904-05, though heavy, was therefore not quite as large as in the previous year. The total absorption during the year amounted to about 7½ crores against 11 crores in 1903-04. Of the total amount absorbed Bombay again took the largest portion, *vis.*, 4 crores, the greater portion of which was required in the last six months in connection with the cotton exports at Bombay and the heavy wheat exports at Karachi. The Punjab absorbed about three crores in connection with the excellent harvests of wheat and seeds. Bengal absorbed about a crore chiefly in connection with the jute trade. The year's totals for the other provinces are not important and do not require any special notice.

In the first quarter there was a net absorption of 98 lakhs in Bombay, and 101 lakhs.88 Madras, to finance the export trade in cotton and cereals, while the Punjab absorbed in lakhs in connection with the traffic in wheat and seeds. These were, however, greatly

counterbalanced by large receipts into treasuries in Bengal and Burma in payment of Government revenue and the total absorption during the quarter amounted to 37 lakhs.

The main feature of the second quarter was the large net issue of 3,86 lakhs in Bengal to meet the requirements of an excellent jute crop.

In the third and fourth quarters, large net issues to the extent of 3,62 and 2,24 lakhs, respectively, took place in Bombay and the Punjab in connection with the exports of cotton and wheat. Burma absorbed 2,06 lakhs during the last quarter in connection with the financing of the rice crop. But as in previous years large sums were returned into the Government treasuries, particularly in Madras, Berar and Bengal, during this period in the shape of revenue.

40. The following statement compares, in lakhs of rupees, the distribution of whole rupees in the hands of Government at the end of 1904-05 with that at the end of the two previous years :—

	1ST APRIL 1903.			1ST APRIL 1904.			1ST APRIL 1905.			PERCENTAGE.

TOTAL	10,93	7,81	18,74	11,49	7,70	19,19	11,36	7,28	18,64	100'00	100'00	100'00

The statement shows that at the end of the year almost all the Provinces were fairly well supplied with rupees. There was a small deficiency in Upper India generally against an accumulation in Burma and Madras and a surplus at Bombay. In view, however, of the further coinages from purchased silver it has not been considered necessary to order any remittances from Madras or Burma, but arrangements have been made to meet the requirements in Northern India out of the new rupees supplied by the Mints.

41. The transactions in notes, at the several Government Treasuries during the past Treasury Statistics. three years, have been as follows :—

	1902-03.	1903-04.	1904-05.
Receipts from the Public in payment of Government dues	<i>R</i> 18,71,61,965	<i>R</i> 22,29,11,440	<i>R</i> 23,72,63,805

Issues to the Public in exchange for silver	5,23,24,965	4,89,70,585	4,79,04,145
Issues to the Public for other notes	44,23,935	52,56,755	44,53,820
TOTAL ISSUES	14,64,16,555	15,05,97,455	16,02,39,710

The receipts in payment of Government dues and the issues have both risen slightly, except in the case of issues in exchange for silver.

42. The total Treasury transactions in notes during the three years are shown below in lakhs of rupees:—

	1902-03.	1903-04.	1904-05.
Government of India	3,75	4,17	4,22
Central Provinces and Berar	83	1,00	1,15
Burma	1,48	1,97	1,94
Assam	1,16	1,20	1,24
Bengal	5,69	7,65	8,33
United Provinces of Agra and Oudh	3,91	3,96	4,56
Punjab and North-West Frontier Province	7,19	7,20	7,61
Madras	6,10	6,54	6,51
Bombay	6,53	7,57	7,82
TOTAL	36,64	41,26	43,38

43. The following statement gives information as to the ability of Treasuries to cash notes during the past three years:—

	1902-03.	1903-04.	1904-05.
Number of Treasuries.			
Where encashment of notes was not refused on any day in the year	163	174	175
Where encashment was rarely refused	50	40	35
Where encashment was generally refused	16	16	23
TOTAL	229	230	233

Treasuries at branches of the Presidency Banks are excluded from this statement. It is not to be understood from the above figures that a majority of Treasuries could have cashed large values of notes, but merely that they did so in the case of small quantities presented by the ordinary non-trading public. Traders, knowing that it would be useless to ask for large sums in silver in exchange for notes, do not make the attempt.

44. Statement VIII in the Appendix shows the proportions of Treasury and Bank balances which, in each Province, were held in the form of Currency notes. Excluding Reserve Treasuries, the percentage of balances held in notes was:—

	1903 Balance in		1904 Balance in		Percentage of notes.	
	Notes.	Cash.	Notes.	Cash	1903.	1904.
	In thousands of rupees.				Per cent.	
Calcutta Circle	45,09	1,01,79	43,35	1,21,98	30	26
Bombay „	29,17	60,74	20,49	96,41	32	17
Madras „	19,04	65,95	17,13	77,08	22	18

45. The figures of receipts and expenditure in Statement VI of the Appendix are only approximate, as the accounts of 1904-05 are not yet closed. The charges of the year are more than those of 1903-04 by Rs. 1,47,500, chiefly owing to increases in the cost of note forns and of Chubb's Safes for the Storage in the Fort Vaults of gold held by the Calcutta Currency Office. Receipts and expenditure.

No. I.

Statement of *Active* Note Circulation during 1904-05 and two previous years.

J. WILSON,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 12th September, 1905.

No. 1907-G.—Major M. A. Tighe, an officiating Political Agent of the 2nd class, is granted privilege leave for two months, with effect from the 3rd September, 1905, combined with furlough for one year, two months, and twenty-seven days, under Articles 233 and 308 (b) of the Civil Service Regulations.

No. 1908-G.—Captain A. B. Dew, an officiating Political Agent of the 4th class, is posted temporarily as Political Agent and Deputy Commissioner in Quetta and Pishin.

No. 3461-E.A.—Captain T. S. B. Williams, Indian Medical Service, was placed on special quarantine duty on the Turko-Persian border from the 9th July, 1904, to the 4th May, 1905, both days inclusive.

The 15th September, 1905.

No. 3764-I.A.—Whereas the provisions of the Administrator-General's Act, 1874 (II of 1874), apply as a personal law only to British subjects in the Civil and Military Station of Bangalore, and whereas it is deemed expedient that better provision should be made for the recognition in the said Station of the representative title of the Administrator-General of Madras, against all debtors of, and all persons holding property belonging to, deceased British subjects in the aforesaid Station;

In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to make the following rules, and to direct that they shall have effect in the Civil and Military Station of Bangalore :

1. So far as regards the Administrator-General of the Presidency of Madras, as defined in the Administrator-General's Act, 1874 (II of 1874), the High Court of Judicature at Madras shall be deemed to be a Court of competent jurisdiction within the meaning of Sections 187 and 190 of the Indian Succession Act, 1865 (X of 1865), as applied to the Civil and Military Station of Bangalore by Foreign Department notification No. 2252-I., dated the 7th August, 1883.

2. The Administrator-General of Madras shall be deemed by all the Courts in the Civil and Military Station of Bangalore to have a right to letters of Administration in preference to that of any person merely on the ground of his being a creditor, a legatee other than an universal legatee, or a friend of the deceased.

3. Probate or letters of Administration granted by the High Court of Judicature at Madras to the Administrator-General of the said Presidency, shall have effect over all the property and estate, moveable or immovable, of a deceased British subject in the Civil and Military Station of Bangalore, and shall be conclusive as to the representative title against all debtors of the deceased, and all persons holding property therein which belongs to him, and shall afford full indemnity to all debtors paying their debts and all persons delivering up such property to the said Administrator-General.

4. All suits and other proceedings commenced by or against the Administrator-General of Madras in his representative character in respect of property belonging to a deceased British subject in the Civil and Military Station of Bangalore, may be brought by or against him by his name of office in the Courts of the said Station, and no suit or other proceeding heretofore or hereafter commenced by or against any person as the Administrator-General of Madras either alone or jointly with any other person, shall abate by reason of the death, resignation or removal from office of the said Administrator-General, but the same may by order of the said Courts, and upon such terms as to the service of notices or otherwise as the Courts may direct, be continued by or against his successor immediately upon his appointment, in the same manner as if no such death, resignation or removal had occurred :

Provided that nothing hereinbefore contained shall render any such successor personally liable for any costs incurred prior to the order for continuing the suit against him

5. If any suit be brought in the Courts of the Civil and Military Station of Bangalore by a creditor against the Administrator-General of Madras in his representative character, the plaintiff shall be liable to pay the costs of the suit down to and including the decree, unless upon proof by affidavit or otherwise that not less than one month previous to the institution of the suit he had applied in writing to the said Administrator-General stating the amount and other particulars of the claim, and supporting the same by such evidence as, under the circumstances of the case, the Administrator-General was reasonably entitled to require, and that the Administrator-General had refused or neglected to register the claim according to the practice of his office.

If in any such suit judgment is pronounced in favour of the plaintiff, he shall, nevertheless, be only entitled to payment out of the assets of the deceased equally and rateably with the other creditors

No. 3279-P.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to apply the provisions of the Cantonments (House Accommodation) Act, 1902 (II of 1902), to the territories administered by the Agent to the Governor-General in Baluchistan as such Agent.

No. 3765-I.B.—Whereas the Chief of Miraj (Senior) has ceded to the British Government full and exclusive power and jurisdiction of every kind over the lands lying within the said State, which are, or may hereafter be, occupied by the Barsi Junction-Pandharpur extension of the Barsi Light Railway (including the lands occupied by stations, by out-buildings, and for other railway purposes), and over all persons and things whatsoever within the said lands.

In exercise of such power and jurisdiction and of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to make the following amendments in the schedule to the notification of the Government of India in the Foreign Department, No. 3063-I. B., dated the 13th August, 1897, as amended by subsequent notifications :

In column 2, against the entry relating to the Barsi Light Railway, *add* the words " Miraj (Senior) " *after* and *below* the word " Hyderabad " and in column 3, against the words so added, *insert* the words " The villages of Rople and Tolmalal ".

No. 3766-I. B.—Whereas the Chief of Miraj (Senior) has ceded to the British Government full and exclusive power and jurisdiction of every kind over the lands lying within

the said State, which are, or may hereafter be, occupied by the Barsi Junction-Pandharpur extension of the Barsi Light Railway (including the lands occupied by stations, by out-buildings, and for other railway purposes), and over all persons and things whatsoever within the said lands :

In exercise of such power and jurisdiction and of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to direct that the following addition shall be made to the notification of the Government of India in the Foreign Department, No. 1082-I.B., dated the 2nd March, 1900, as amended by the like notification No. 1432-I.B., dated the 12th April, 1901, namely :

In the schedule *after* the entries relating to the Anand-Petlad-Cambay Railway, *insert* the following :

• Barsi Light Railway.	Miraj (Senior).	Sholapur.	Superintendent of Police, Great Indian Peninsula Railway.
------------------------	-----------------	-----------	---

• *Note.*—The arrangements made in regard to the lands occupied by this railway in Hyderabad territory are described in the notification of the Government of India in the Foreign Department, No. 3244-I B., dated the 26th August, 1897

No. 1946-G.—Rai Bahadur Navagopal Sarkar, an Extra Assistant Commissioner in Berar, is placed on temporary special duty in the Foreign Department Secretariat, with effect from the 28th August, 1905, and until further orders.

No. 3280-F.—The services of Lieutenant C. A. Milward, Indian Army, are placed at the disposal of the Hon'ble the Chief Commissioner and Agent to the Governor-General in the North-West Frontier Province, with effect from the 27th September, 1905, for employment with Frontier Militia.

RAILWAY BOARD.

NOTIFICATIONS.

Simla, the 13th September, 1905.

No. 169.—It is hereby notified for general information, that the Railway Board have sanctioned a survey being made by the Agency of the Eastern Bengal State Railway, of a line of railway from Rangya, a station on the Gauhati Extension of the Eastern Bengal State Railway, to Tezpur, a distance of 78 miles.

2. This survey will be known as the Rangya-Tezpur Railway Survey.

The 15th September, 1905.

No. 170.—*Corrigendum.*—In clause 4 of the enclosure to the Railway Board's Circular No. R. T. 173, dated the 30th August 1905, which was published in Part I of the *Gazette of India*, dated the 9th September 1905, under Railway Board's Notification No. 164, dated 8th September 1905, *delete* the comma between the words "Coal" and "Gas".

No. 171.—Mr. F. C. Little is appointed an Assistant Traffic Superintendent (on probation) in Class III, Grade 1 of the Superior Revenue Establishment of State Railways, with effect from the 1st July 1905, and posted to the Eastern Bengal State Railway.

No. 172.—Mr. F. C. Little, Assistant Traffic Superintendent (on probation), in Class III, Grade 1 of the Superior Revenue Establishment of State Railways, is appointed to officiate as District Traffic Superintendent on the Eastern Bengal State Railway, in Class II of that Establishment, with effect from the 1st July 1905 and until further orders.

NEVILLE PRIESTLEY,

Secretary, Railway Board.

MINISTRY OF INDIA.

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 14th September 1905, based on the India Daily Weather Reports of the period.

The depression which was noticed last week as developing at the head of the Bay of Bengal has formed the principal feature of the weather of the past week.

The storm was central over Orissa on the morning of the 8th. It was influencing the winds and weather over Burma, north-east India and the central parts of the country and rain was reported except over the east and centre of the Peninsula and north-west India. The largest amounts were 3·40" at Pachmarhi, 3·17" at Gopalpur, 2·80" at Tezpur, 2·71" at Hoshangabad and 2·65" at Raipur. By the morning of the 9th the storm, advancing nearly due west, lay between Raipur and Nagpur in the Central Provinces, and rain had increased over the west of the Peninsula and had extended north-westward as far as Kotah and Mainpuri. The heaviest falls over India were 4·54" at Hoshangabad and 4·28" at Pachmarhi. The storm moved quickly west-north-westward during this day, and by the morning of the 10th lay near Neemuch. The rainfall area had advanced westward with the storm and now included the whole of Rajputana. The heaviest falls in India were 2·89" at Pachmarhi and 2·82" at Neemuch. The storm continued to move in the same general direction during the 10th, and at 8 A.M. on the 11th the centre lay over south-west Rajputana. Monsoon winds were flowing freely into Rajputana and the Punjab and general and in places heavy rain was falling over the greater part of north-west India. The principal amounts were 7·26" at Mount Abu, 4·13" at Sirsa, 3·02" at Udaipur, 2·24" at Montgomery, 2·18" at Lahore and 2·16" at Sialkot. During this day, the 11th, the storm recurved on its path moving north-north-eastward and on the morning of the 12th was shown between Lahore and Sialkot. The flow of monsoon winds into north-west India had continued unabated, so that Murree reported 8·05" of rain, Lahore 6·61", Sialkot 4·35" and Rawalpindi 3·22". The storm broke up during the 12th, but the reports of the 13th showed a large amount of rain over northern India, more particularly in the neighbourhood of the Hills. The rainfall area contracted quickly during the 13th, but the reports on the morning of the 14th showed general rain over north-east India as far west as Bihar, and over the central parts of the country, though there was comparatively little over the Peninsula and north-west India.

The rainfall table shows that the fall of the past week was more or less deficient over the Burma Coast, the Himalayas and Sub-Himalayas (East), the East Coast (north), the Deccan and the East Coast (south) divisions and the Rajkot and Mysore subdivisions and was in excess elsewhere. In the Lahore subdivision the fall was nearly nine times, in the north-west dry division nearly eight times and in the Simla subdivision five times the normal amount.

The fall has in several parts of the country considerably diminished the seasonal deficiency.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 14th September 1905

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
9th September 1905.

Madras.—The rainfall of the week was heavy in Ganjam, the Vizagapatam Agency, Malabar, South Canara, the Nilgiris, Travancore and the Vizagapatam Littoral; good in Godavari, Kistna, Nellore, Trichinopoly and Tanjore; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency, except in parts of the Circars, Kurnool, Cuddapah, North Arcot, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress. The standing crops are generally fair, but some in Salem, Coimbatore, Madura and Tinnevely require more rain. There are no harvests yet in Guntur and South Canara, but they continue in parts elsewhere with fair to normal outturn. Pasture is rapidly improving, but is still insufficient, except in the Deccan, parts of the Circars, South Arcot, Tanjore, the West Coast districts and the Nilgiris. Fodder is scanty, except in Vizagapatam, Kurnool, Anantapur, Tinnevely, Malabar, South Canara and the Nilgiris. The condition of cattle is generally good. The general improvement in prospects continues. The price of rice is stationary in twelve districts; has fallen in eight; and has very slightly risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in four districts; has fallen in fourteen; and has slightly risen in three. *Cholam* has fallen in ten districts, and has slightly risen in four. *Cumbu* is stationary in five districts; has fallen in seven; and has slightly risen in three. The numbers of workers on the last day of week on test works were as follows.—at Melmadalambedu, Ponneri taluk, to be shortly closed, *nil*; Nayar, same taluk, 63; Neveli, Tiruvallur taluk, 51; at Nagalapuram, same taluk, 2; total, 116. The numbers relieved at poor houses were as follows.—Madavaram, Saidapet taluk, 248; Ponneri Ponneri taluk, 336; Utukkottai, Tiruvallur taluk, 359; all in the Chingleput district, total, 943.

Bombay.—There was good rain during the week in parts of Thana, Colaba, Kanara, Baroda, Mahi Kantha and Savantwadi; moderate in parts of Ahmedabad, Kara, Surat, Ratnagiri, Khandesh and Kathiawar; slight in parts of Broach, Nasik, Ahmednagar, Sholapur, Satara, Belgaum and Rewa Kantha; and very slight in parts of the Panch Mahals, Poona, Bijapur and Dharwar. More rain is generally needed. Transplantation of rice continues in parts of Thana and Nasik. Sowing of cotton continues in parts of the Karnatak. The standing autumn crops have been slightly damaged by crabs, rats, tortoises and high winds in parts of Karachi; by a disease in parts of the Upper Sindh Frontier; by locusts in parts of Thar and Pokhar; and are suffering from insufficient rain in parts of Broach, Ratnagiri, Poona, Satara, the Karnatak, Kanara, Kathiawar, Baroda and Cutch. Lands are being prepared for spring cultivation in parts of Sindh, Broach, Nasik, Ahmednagar, Sholapur and Satara. The fodder-supply is sufficient, except in parts of Karachi, Hyderabad, Satara, Belgaum, Dharwar and Baroda. Agricultural stock is sufficient. Cattle are in good condition, except in parts of Satara. The water-supply is adequate, except in parts of Hyderabad and Surat. Prices have risen in eight districts; fallen in two districts; and are stationary elsewhere. The daily average numbers on gratuitous relief during the week ending 2nd instant were as follows:—Poona, 403; Bijapur, 747; total, 1,250.

Bengal.—The rainfall during the week was general, though for the most part light. Orissa received a moderate quantity, but more rain is still wanted there. Transplantation of winter rice is nearly over and the harvesting of jute and early rice is nearing completion. Prospects are generally favourable. Drinking-water is plentiful. Fodder is sufficient, except in parts of Pabna, Mymensingh, Darbhanga and the Sonthal Parganas. The price of common rice has risen in eleven and fallen in six districts.

United Provinces.—During the week rain fell in all districts of the Provinces, save in Agra, and has been of special benefit in Mampur, Etawah, Cawnpore and Jalaun. Since the close of the week good rain has fallen which has improved prospects, especially in the Meerut and Agra Divisions. More rain is needed for the standing crops in some districts, where in unirrigated tracts they are suffering. Elsewhere crops are in good condition and in places excellent. Harvesting is in progress and the preparation of fields for spring crops continues. On the test work in Jalaun there were 261 people. The condition of cattle is bad in Farrukhabad and Jalaun. Fodder is still scarce in the districts of the Agra Division, Meerut, Aligarh and Jalaun. Markets are well supplied, but prices remain high and have risen in seventeen districts, though in some of them they have fallen since week closed.

Punjab.—Of thirteen districts reporting Mianwali and Multan received no rain; elsewhere rain was copious to sufficient. Prices now show a tendency to fall. Wheat is rising in Multan and other food-grains in Sialkot. Ploughings for the next spring crops continue in Jullundur, Ferozepore, Sialkot, Shahpur and Multan and have commenced in Hissar and Amritsar. The recent rain has greatly benefited the standing crops. The crops on unirrigated areas are now expected to recover from effects of drought. Cotton in Ferozepore and Lahore and maize and other crops in Shahpur have been damaged by insects. Cattle are generally in good condition, except in Mianwali and in parts of Shahpur. Fodder is, for the moment scarce in Delhi and Amritsar, but improvement is expected; Shahpur and Mianwali report shortage. There are no complaints regarding the water-supply. The river is subsiding in Mianwali.

North-West Frontier Province.—There was heavy rain in Hazara and slight rain elsewhere during the week. The rain has done much good to the standing crops, but more is badly wanted for crops on unirrigated lands. Sowings are average on irrigated lands and below average on unirrigated lands. The condition of the crops on irrigated lands is good and on unirrigated lands poor. The water-supply is deficient in Bannu and in parts of Peshawar. Fodder is sufficient. Prices are rising, except in the Mardan tahsil of the Peshawar district, where they are falling.

Burma.—The rainfall of the week was general; it was heavy in Tavoy and Mergui and mostly sufficient elsewhere. In Lower Burma ploughing is almost completed, and transplanting is completed in two more districts. The standing crops in parts of Thâton have been destroyed by floods. In Upper Burma reaping of early wet-weather paddy is completed in Mandalay and is approaching completion in the Southern Shan States. Transplanting of wet-weather paddy has commenced in Lower Chindwin. Sowing of late sesamum in Kyaukse and resowing of *juar* in the Yinnabin subdivision of Lower Chindwin have commenced. Reaping of early sesamum is delayed by heavy rains in Sagaing, where also floods; owing to the rise of the Irrawaddy, have caused much damage to paddy nurseries. The standing crops are generally in good condition. The price of paddy has risen considerably in Maubin; the changes elsewhere are unimportant. The price of rice is 25 per cent. higher in Leiktho than in other townships of the Toungoo district, owing to slight scarcity.

Central Provinces.—Excellent general rain has fallen throughout the Provinces and the falls in some districts were heavy; Wardha received 15½ inches, Bhandara 11½, Betul 10½, Hoshangabad 10, Chanda 7½, Nagpur 7½, Buldana 6½, Narsinghpur and Raipur 6½, Yeotmal 5½, Amraoti 5½, Bilaspur 5; elsewhere the falls range between 4½ inches in Jubbulpore and Chhindwara to ½ inch in Damoh. Transplantation of rice has approached completion in Seoni; has been completed in Bhandara, Sambalpur and Balighat, except in parts of the Baihar tahsil; and has been resumed everywhere in Chanda where the recent rainfall has been very beneficial to the rice crops. Thinning and weeding operations continue in Raipur and are now going on vigorously in Bilaspur, where the week's rain which is reported to be general all over the district will materially improve the prospects. In Sambalpur thinning operations are completed and weeding is in progress. More rain is needed in Damoh, where the rainfall up to date is still far below the average, though the standing crops are in good condition. A break in the rains is wanted in Hoshangabad. Sowing of *til* is retarded in Chanda, owing to heavy rain; from the same cause slight damage to crops is reported from parts of the Melghat taluk in the Amraoti district. Damage by caterpillars has much diminished in Seoni, and the heavy rain is reported to have destroyed them in Jubbulpore and Mandla and also insects in Bhandara. The standing crops are everywhere in good condition. In Narsinghpur cotton, *juar* and *til* are expected to yield a full crop (120) and rice a normal crop (100). Early millets are being harvested in Saugor. Scarcity of fodder continues in Damoh and in parts of Buldana. A flight of locusts passed over from Saugor to Narsinghpur travelling south-east. Prices are steady or fluctuate slightly.

Assam.—The weather is seasonable. Rain fell in all districts during the week. Plucking and manufacture of tea continue and prospects are good in Nowgong and fair elsewhere. Transplanting of late rice continues. Reaping of early rice is nearly finished, the outturn being poor in Kamrup and fair in other places. Cutting of jute is in progress; prospects of jute and sugarcane are generally fair. Fodder is insufficient in parts of Sylhet, Goalpara, Kamrup and Darrang. Prices of common rice:—Silchar, 15; Sylhet, 13; Tezpur, 12; Sibsagar and Dibrugarh, 11; and Dhubri, Gauhati and Nowgong, 10—seers per rupee.

Mysore.—The rainfall of the week was good in Kadur and Shimoga and fair in other parts. Prices are generally steady. The crops are generally in good condition. The season prospects are fair, but more rain is needed in parts of Hassan, Kadur and Shimoga. Cattle are healthy. Water is available. Fodder is scanty in Kolar and in parts of Tumkur, Hassan and Shimoga.

Coorg.—Rainfall—5 inches 35 cents. The prices of food-grains are stationary. Water and fodder are sufficient.

Hyderabad.—Rainfall—1 inch 57 cents. There was good rain, during the week in two districts; fair in five; and light in the remaining eight. More rain is required in parts of five districts. The autumn crops are withering in two taluks and early rice in one. Insects are damaging castor-seed in four taluks. The standing autumn and early rice crops are being weeded. Early rice sowings continue in parts. Spring crops are being sown and more lands being prepared. Sowings have however been suspended in parts for want of rain. Fodder scarcity exists in three taluks. Water is generally available, except in two taluks. The price of *juar* has risen from one to five seers per rupee in four taluks, and has fallen from one to four and-a-half seers in sixteen taluks. Prices—wheat, 12; coarse rice, 8½; *juar*, 20½ seers per rupee.

Rajputana.—The rainfall of the week was as follows:—Kotah 1.54 cents; Jhalrapatan 22; Bundi 1.39; Deoli 1.19; Kishangarh 99; one district of Jodhpur 75; none or practically none elsewhere. No reports have been received from Dungarpur and Banswara. Agricultural operations are fair in Sirohi, South Mewar, Partabgarh, Kotah and Jhalawar; in the last two States land is being prepared for spring sowings, elsewhere irrigated crops are being watered and weeded. Unirrigated crops are generally withering except in Sirohi, the southern parts of Mewar, Partabgarh, Kotah, Jhalawar, and parts of Bundi; and have been lost in other States except Dholpur and Alwar. Cattle are losing condition in Jaisalmer, the northern parts of Mewar, Alwar, Bharatpur, and Ajmer-Merwara. Pasturage and fodder are generally insufficient, except in South Rajputana. Pasturage is improving in Kotah, Jhalawar and in parts of Bundi. Cattle emigration continues from Jaisalmer, Marwar, Bikanir, Kishangarh and Ajmer-Merwara. There has been a great rush of Marwar immigrants with and without cattle into Jaipur and Kishangarh on the way to Agra and Central India. Half the cattle in Ajmer have already left and large numbers are reported moving down through Mewar towards the south. Prices are steady in Sirohi, Mewar, Tonk, Bundi, Kotah and Jhalawar; are falling in Partabgarh, Kishangarh and Karauli; and are rising somewhat rapidly and approaching famine prices in other States and in Ajmer-Merwara. The numbers on test works were as follows:—Ajmer 1,335; Marwar 1,500; Tonk 155; Shahpura 445; Bharatpur 2,196; also in Marwar on gratuitous relief 1,423; and in Merwara on famine relief 12,997; total on all kinds of relief 20,051. Useful rain has fallen since the 9th instant which it is hoped has considerably eased situation throughout Rajputana.

The detailed report on the position in Merwara in the week ending 9th instant is as follows—Distress increasing, classes mostly affected being agricultural people who are resorting freely to relief works. There is no wandering or emaciation and persons on relief are generally in good condition. Relief measures are adequate and liberal suspensions of land revenue are being granted. The public health is good. There is no deficiency of clothing or need of medical comforts, etcetera, apparent. Prices are rising 12½ seers per rupee. The numbers on relief works on the last day of the week were 11,830; on gratuitous relief 1,167; total 12,997. Large numbers of cattle have already left and fodder depôts are being established towards Central India to help them on the way. There is no need for private charitable relief at present. Since the close of the week good rain has fallen and an improvement in the situation may be anticipated.

Central India.—The rainfall of the week was partial and insufficient in parts of Gwalior and Indore and in Bundelkhand, and general and sufficient elsewhere. Agricultural operations are suspended in Towargarh, Bhind and Dhodhar in Gwalior and are in progress in the rest of the Agency. The probable outturn of the crops will be normal in Narwar and Esagarh; good in parts of Gwalior, Indore, Bhopal and Bhopawar; average in Bundelkhand and Baghelkhand, and below average in Malwa. Crops have been damaged for want of rain in Gwalior and Bundelkhand. The condition of agricultural stock and pasturage is bad in parts of Gwalior, Indore and Bundelkhand, and good elsewhere. Prices are rising in Bundelkhand and in parts of Gwalior and Malwa; continue high in Bhopal and Baghelkhand; and are steady elsewhere.

Baroda.—The numbers on relief works in the week ending 2nd instant in Baroda territory were 5,251; on gratuitous relief 467; total 5,718. Distress prevails only in Okhamandal and Amreli Mahals.

Kashmir.—There was heavy rain for four days during the week. Floods have caused damage to small bridges, etc. Prices are stationary.

Jammu.—There was heavy rain during the week. Prices are stationary. Wheat sells from 14 to 24 and maize 18 to 40 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. The recent rain has been beneficial to the standing crops.

J. WILSON,

Secretary to the Government of India.

E

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, SEPTEMBER 23. 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

Rates of subscription.

	Per annum.
Subscription for Gazette and Supplement	Rs. 15 0 0

A. F. COX,
Comptroller General.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 21st September 1905.

NOTIFICATIONS.

No. 3637 P.—APPLICATIONS in respect of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 16th September 1905:—

No. 419 of 1905.—Vincent Richard Carbery, marine engineer, and John Joseph Beahan, master mariner, both in the care of H. V. Williams & Co., patent agents and engineers, of 14 Hare street, Calcutta. *An improved slip-shackle.*

No. 420 of 1905.—Frederick William Brittan and Louis Hepburn Cross, merchants, both of 2 Pancras lane, Queen street, Cheapside, in the city and county of London, England. *Improvements in devices for securing or locking nuts.*

No. 421 of 1905.—Philip Magnus, collector, of 103 Union street, Northcote, and Timothy Joseph Davis, artist and photographer, of 8 Grant street, North Fitzroy, both in the state of Victoria, Commonwealth of Australia. *Process of preparing leather.*

No. 422 of 1905.—Albert De Dion and Georges Bouton, both directors of De Dion Bouton et Cie, 20 Quai National, Pateaux, Seine, in the Republic of France. *Improvements in or relating to friction clutches.*

No. 423 of 1905.—William Ellis Storey, builder, at present residing at the Great Eastern Hotel, Calcutta, British India. *An improved type of refuse destructor or incinerator.*

No. 424 of 1905.—Archibald Davidson Long, commercial assistant, care of H. V. Williams & Co., patent agents and engineers, 14 Hare street, Calcutta. *A combined shade and stop-cock for railway carriage gas lamps and the like.*

No. 425 of 1905.—Frank Cotton, engineer, of Hornsby, in the state of New South Wales, in the Commonwealth of Australia. *Process and apparatus for generating a combustible gas from carbonaceous liquids.*

No. 426 of 1905.—Henry Schneider Crofton, gentleman, of 128 Belgrave square, London, England. *A military bivouac cape.*

No. 427 of 1905.—E. M. deSouza & Co., chemists and druggists, of 271 Dalhousie street, Rangoon, Burma. *"Durmoc" drying material.*

No. 3638 P.—THE undermentioned design has been registered, under the provisions of the Inventions and Designs Act, 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma. This and other designs are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West), Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 24 of 1905.—Priya N. Sen, joint proprietor of Messrs. P. Sen & Brothers, of Gandaria House, Dacca. *A brass lamp devised to burn coconut, mustard, or any such heavy oil.*

No. 3639 P.—SPECIFICATIONS of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M. at the Secretary's office (Imperial Secretariat, Government Place,

West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 18 of 1905.—Charles Joshua Greengrass, civil engineer, residing at Puttur, North Arcot district, Madras Presidency. *A water-tap designed to prevent the waste of water at public stand pipes, to be called the "Economist" water tap.* (Specification filed 17 August 1905.)

No. 44 of 1905.—John Francis Ohmer, manufacturer, of 26 East First street, Dayton, Ohio, in the United States of America. *Improvements in ticket-issuing and recording machines.* (Specification filed 2 September 1905.)

No. 69 of 1905.—William Jackson, engineer, of Thorn Grove, Mannofield, Aberdeen, North Britain. *Improvements in apparatus for drying tea leaf, or other like produce.* (Specification filed 8 September 1905.)

No. 161 of 1905.—Aime Terris, late notary public, residing in the city of Cannes (France), Square Merimée 9. *Refrigerating coil for rotative ice-making machines.* (Specification filed 1 September 1905.)

No. 218 of 1905.—William Alban Richards contractor, and Charles Benjamin Redrup, motor mechanic, both of 27 Chancery lane, London, England, *Improvements relating to gas oil and like engines.* (Specification filed 11 September 1905.)

No. 357 of 1905.—Henry Madison Sciple, engineer, of Victoria Hotel, London, England, and Monroe Lee Ross, engineer, of 21 Rue Galilee, Paris, in the French Republic. *Improvements in and relating to cores or moulds for casting.* (Specification filed 8 September 1905.)

No. 3640 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 45 of 1898.—G. F. Horbury. *An improved latrine for natives.* (From 23 September 1905 to 23 September 1907.)

No. 198 of 1898.—C. M. Roy. *Improved chimneys for the trench and underground kilns for brick burning.* (From 21 September 1905 to 21 September 1906.)

No. 55 of 1899.—James Henry Apjohn. *Improvements in apparatus for bulking, blending or mixing, and re-distributing for packing tea or the like.* (From 18 September 1905 to 18 September 1906.)

No. 43 of 1900.—The Linotype Company, Limited. *Improved matrices for linotype machines.* (From 11 September 1905 to 11 September 1906.)

No. 44 of 1900.—The Linotype Company, Limited. *Improvements in electric heating and melting, specially applicable to the metal pots of linotype machines and the like.* (From 11 September 1905 to 11 September 1906.)

No. 45 of 1900.—The Linotype Company, Limited. *Improvements in and connected with linotype machines.* (From 11 September 1905 to 11 September 1906.)

No. 46 of 1900.—The Linotype Company, Limited. *Improvements in and connected with the matrices of linotype machines.* (From 11 September 1905 to 11 September 1906.)

No. 47 of 1900.—The Linotype Company, Limited. *Improvements in the matrices of linotype machines.* (From 11 September 1905 to 11 September 1906.)

No. 48 of 1900.—The Linotype Company, Limited. *Improvements in the self-feeding mechanism of the metal pots of linotype machines.* (From 11 September 1905 to 11 September 1906.)

No. 49 of 1900.—The Linotype Company, Limited. *Improvements in the moulds of linotype machines.* (From 11 September 1905 to 11 September 1906.)

No. 175 of 1900.—Charles Alfred Carles de Caudenberg. *A new composition for paving roads, footways, lining terraces, cellars, yards, stables, and the like which consists of a preparation of bituminous matter and rubber or caoutchouc.* (From 20 December 1905 to 20 December 1906.)

No. 317 of 1900.—Juggin Nath Pershad. *A burglar catching machine or trap.* (From 16 October 1905 to 16 October 1906.)

- No. 353 of 1900.—Frank Wing Weeks. *Improvements in machines for manufacturing carbon-coated paper.* (From 28 December 1905 to 28 December 1906.)
- No. 416 of 1900.—Frank Wing Weeks. *Improvements in machines for coating paper with carbon or similar transfer material.* (From 29 December 1905 to 29 December 1906.)
- No. 73 of 1901.—Thomas Alva Edison. *Improvements in storage batteries.* (From 30 September 1905 to 30 September 1906.)

No. 3641 P.—Whereas the inventors of the undermentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888 the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do has ceased :—

- No. 427 of 1900.—John Quinn, John Henry Turland and William George Archer. *Improvements in and relating to stripping and harvesting machines.* (Specification filed 10 June 1901.)
- No. 451 of 1900.—James Aitken. *An improved rotary pump for air, water, or other fluids.* (Specification filed 13 June 1901.)
- No. 117 of 1901.—Arthur Hoare. *Starting gears for mechanical punkahs.* (Specification filed 11 June 1901.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

- No. 388 of 1898.—William Emmet Anderson and Frank Lewis Dyer. *Improvements in cotton bale, machine and methods of making the same.* Specification filed 9 June 1899.)
- No. 392 of 1898.—Charles Edward Scarse. *Improvements in covering casing or binding books.* (Specification filed 9 June 1899.)
- No. 394 of 1898.—Lewis Abraham Tallerman. *Improved apparatus for the internal and external local application of heated atmospheric air, gases, and the like to human subjects or to animals.* (Specification filed 9 June 1899.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs 50 for each of the above inventions.

NOTICES.

“All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta.”

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not “designs” within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo volumes, paper cover, 13 annas or 1s. 1d. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, Government Place, West, Calcutta.

H. G. GRAVES,
Secretary under the Inventions
and Designs Act, V of 1888.

**OFFICE OF REVENUE AND FINANCIAL SECRETARY TO THE CHIEF
COMMISSIONER, NORTH-WEST FRONTIER PROVINCE.**

NOTIFICATIONS.

Nathiagali, the 12th September 1905.

No. 282-II.—The Chief Commissioner having accepted the application of Nawab Allahdad Khan, Saddozai, son of Nawab Sarfaraz Khan, Saddozai, of the Dera Ismail

Khan District; that his property may be placed under the superintendence of the Court of Wards, the said Nawab Allahdad Khan being a landholder within the meaning and for the purposes of the Punjab Court of Wards Act, II of 1903, and the Chief Commissioner having made an order to this effect under section 5 (1) of the said Punjab Act, II of 1903, it is hereby notified under section 9 of the said Act that the Court of Wards assumes the superintendence of the property of the said person in accordance with section 7 (1) of the said Act with effect from the date of this notification.

2. The said Court further specifies the Dera Ismail Khan District as the district the Deputy Commissioner of which is put in charge on behalf of the said Court.

No. 285-H.—Under section 146 (1) of Act XX of 1891, the Chief Commissioner is hereby pleased to confirm the Resolutions noted below and passed at special meetings of the Municipal Committees of the North-West Frontier Province, by which the Municipal Account Code published in Notification No. 166-H., dated the 8th August 1905, has been adopted as a bye-law by each Municipality:—

Abbottabad Municipal Committee's Resolution No. 1, dated the 31st August 1905.

Haripur Municipal Committee's Resolution No. 1, dated the 30th August 1905.

Nawanshahr Municipal Committee's Resolution No. 1, dated the 2nd September 1905.

Baffa Municipal Committee's Resolution No. 1, dated the 7th September 1905.

Peshawar Municipal Committee's Resolution No. 46, dated the 22nd August 1905.

Kohat Municipal Committee's Resolution No. 4, dated the 31st August 1905.

Bannu Municipal Committee's Resolution No. 1, dated the 18th August 1905.

Lakki Municipal Committee's Resolution No. , dated the 18th August 1905.

Dera Ismail Khan Municipal Committee's Resolution No. 1, dated the 18th August 1905.

• Kulachi Municipal Committee's Resolution No. 1, dated the 18th August 1905.

2. The Chief Commissioner is further pleased to declare that in the case of class B Municipalities noted below the operation of Rule 74 of the Code shall be suspended for a period of six months from the date the Code comes into force:—

Baffa Municipality	} Hazara District.
Nawanshahr Municipality	
Kohat	"	.	.	.	Kohat "
Lakki	"	.	.	.	Bannu "
Kulachi	"	.	.	.	Dera Ismail Khan District.

Dated Peshawar, the 18th September 1905.

No. 4653.—In continuation of Punjab Government Notification No. 970, dated 30th October 1891, the following Bye-law framed by the Municipal Committee of Kohat under section 143, sub-section (1), clause (f), of the Punjab Municipal Act, XX of 1891, having been confirmed by the Chief Commissioner, North-West Frontier Province, is hereby published for general information and will come into force six weeks from the date of publication of this notification:—

Bye-law.

The Octroi limits of the Municipality of Kohat shall be fixed as follows:—

From Cantonment pillar No. 1 past Cantonment pillars Nos. 50, 49, and 48 to Cantonment pillar No. 47; thence along the city wall in a westerly direction to the Mir Kheweli Octroi post on the city Railway station (Mir Kheweli) road.

Thence along the city wall northwards to the culvert over the Mir Kheweli Road at its bend; thence east towards the Tahsil from this culvert in a straight line to the Hangu Chowki on the road from the police lines to the Tahsil.

Thence the road going past the police lines at right angles to the Hangu road, until the Hangu road is reached. Thence along the Hangu road to the south-east corner of the Municipal garden. From this point the road leading between the Kutcheries and the centre Infantry lines to the Peshawar road and up to the Peshawar Chowki near Cantonment pillar No. 15.

Thence from pillar No. 15 in an easterly direction past Cantonment pillars No. 14-13 to Cantonment pillar No. 12-1; thence in a southerly direction past Cantonment pillars Nos. 11-2, 11-1, 11, 10-2, 10-1 to Cantonment pillar No. 10; thence including an area of 18,406 acres lately acquired for the Transport Mule Corps lines a line to Cantonment pillar No. 9-1 and past Cantonment pillars Nos. 9, 8, and 7 to Cantonment pillar No. 6; thence northwards along the Khushalgarh-Kohat road to a point opposite the Dak Bungalow; thence in a westerly direction along southern boundary of compound of the Bungalow now in course of construction for the Deputy Assistant Adjutant General, Kohat, to the "Tappi-Mirozai" Irrigation Channel; thence the line follows this irrigation channel to the south-east corner of the compound pertaining to Bungalow No. 27; thence in an easterly direction along the Rakh Katta irrigation channel to the point where it crosses the Bannu-Kohat road; thence along that road to Cantonment pillar No. 1.

C. B. RAWLINSON, Major,
Revenue and Financial Secy. to Chief Commissioner,
N.-W. F. Province.

SUPPLEMENT TO
The Gazette of India.

No. 38} SIMLA, SATURDAY, SEPTEMBER 23, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the GAZETTE OF INDIA, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 21st September 1905, based on the India Daily Weather Reports of the period.

The change to drier and less disturbed conditions, which set in over a large part of India at the close of last week with the breaking up of the storm which had traversed India between the 8th and the 13th of September, has been maintained during the week under review.

The Arabian Sea monsoon current has been extraordinarily feeble throughout the week and except on the 15th when some showers fell over the Central Provinces and parts of the Peninsula, and on the 19th when light local rain was received in the extreme south, the whole of the field of this branch of the current, including the Peninsula and central and north-west India, has been almost rainless.

On the opposite side of India rainfall conditions have been less unfavourable. A shallow storm lay over west Bengal between the 15th and the 17th, and during those three days fairly heavy rain was received over north-east India and Burma. The reports of the 18th showed that the storm had disappeared, and, with its disappearance, rain fell off both in amount and extent and from the 18th to the close of the period under review only light local rain was reported from Burma and north-east India.

At the close of the week a fresh depression was shown over the head of the Bay, the winds had assumed a cyclonic circulation and the barometer was falling slowly, but at 8 A.M. on the 21st the storm was still of little importance.

The rainfall table shows that the total rainfall of the period under review was heavier than usual over Upper Burma, Assam, Bengal and Bihar and was lighter than usual in all other parts of the Indian land area. Within the area of deficient fall the rain received was generally very light, and, in the case of the North-west dry division and the Lahore, Raipur, Rajkot, Bellary and Bijapur subdivisions was actually or practically nil.

RAINFALL DIVISION WITH REPRESENTATIVE STATION.	Rainfall sub-division named after representative station.	RAINFALL DATA FOR WEEK ENDING ON 21ST SEPTEMBER 1905			RAINFALL DATA FROM 28TH APRIL 1905 TO 21ST SEPTEMBER 1905.			SEASONAL PERCENTAGE DEPARTURE FROM NORMAL.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
16th September 1905.

Madras.—Rainfall *nil* in Kurnool and Bellary; heavy in the Vizagapatam Agency and Godavari; good in South Canara, Kistna, Malabar, the Nilgiris, Ganjam, South Arcot, and Trichinopoly; and light to fair elsewhere. Irrigation supplies are insufficient in parts throughout the Presidency, except in the Circars, Kurnool, Cuddapah, North Arcot, Tinnevely, the West Coast districts and the Nilgiris. Ploughing, sowing and transplanting are in progress. The standing crops are generally fair, but some in Kurnool, Salem, Coimbatore, Madura and Tinnevely require more rain. There are no harvests yet in Guntur and South Canara, but they continue in parts elsewhere with fair to normal outturn. Pasture is rapidly improving, but is still insufficient, except in parts of the Circars and the Deccan, Chingleput, South Arcot, North Arcot, Tanjore, the West Coast districts and the Nilgiris. Fodder is scanty, except in Vizagapatam, Anantapur, Tinnevely, Malabar, South Canara and the Nilgiris. The condition of cattle is generally good. General improvement in prospects continues. The price of rice is stationary in ten districts; has fallen in twelve; and has very slightly risen in one. The prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts, has fallen in eleven; and has slightly risen in five. *Cholam* is stationary in four districts, has fallen in seven; and has very slightly risen in three. *Cumbu* is stationary in six districts; has fallen in seven; and has slightly risen in two. The testwork at Melmadalambedu, Ponneri taluk, has been closed for want of workers. The numbers of workers on the last day of the week on other test works were as follows.—Nayar, Ponneri taluk, 54; Neiveli, Tiruvallur taluk, 7; total, 61; Nagalapuram, which will shortly be closed, same taluk, *nil*; Santhavelur and Ponanjneri, same taluk, both opened on 15th instant, *nil*. The numbers relieved at poor houses were as follows:—Madavaram, Saidapet taluk, 269; Ponneri, Ponneri taluk, 336; Uttukkottai, Tiruvallur taluk, 309; all in Chingleput district; total, 914.

Bombay.—There was heavy rain during the week in parts of the Panch Mahals, Ratnagiri, Savantwadi and Mahi Kantha; good in parts of Ahmedabad, Surat, Thana, Colaba, Khandesh, Nasik, Kanara and Kathiawar; moderate in parts of Thar and Parkar, Ahmednagar and Kolhapur; slight in parts of Karachi, Hyderabad, Kaira, Broach, Satara, Belgaum and Palampur; and very slight in parts of the Upper Sind Frontier, Poona, Sholapur, Bijapur, Dharwar, Baroda and Cutch. More rain is generally needed. The standing autumn crops have been slightly damaged by crabs, rats, tortoises or winds in parts of Karachi, by a disease or winds in parts of the Upper Sind Frontier; by locusts in parts of Karachi, Hyderabad and Thar and Parkar; and are suffering from want of sufficient rain in parts of Ratnagiri, Ahmednagar, Poona, Satara, the Karnatak, Baroda, Kathiawar, Cutch and Kolhapur. Lands are being prepared for spring cultivation in parts of Sindh, Broach, Nasik, Ahmednagar and Satara. Sowing of spring crops continues in parts of Ahmedabad, Kaira, Broach and Baroda, but is retarded in parts of Ahmednagar, Sholapur, Bijapur and Kolhapur. Sowing of cotton continues in parts of Belgaum and Palampur, but is retarded in parts of Bijapur and Dharwar. The fodder-supply is sufficient, except in parts of Karachi, Larkana, Hyderabad, Satara, Belgaum, Dharwar, Baroda and Cutch. Agricultural stock is sufficient and cattle are in good condition, except in parts of Satara. The water-supply is adequate, except in parts of Surat, Bijapur and Kolhapur. Prices have risen in four districts; fallen in five districts; and are stationary elsewhere. The daily average numbers on gratuitous relief for the week ending the 9th instant were as follows:—Ahmednagar, 619; Poona, 797; Belgaum 829; Bijapur, 1,177; total, 3,362.

Bengal.—Rain was general all over the Province during the week, the fall being very heavy in North and East Bengal and in portions of Bihar, but moderate in Orissa, where more rain is still wanted. The heavy fall caused floods in some districts of East Bengal and Bihar doing some damage to the young paddy. Transplantation of winter paddy is almost over and harvesting of jute and early rice is still going on in places. Prospects are generally fair. Water is abundant. Fodder is sufficient, except in parts of the 2½-Parganas, Pabna, Mymensingh, Tippera and Darbhanga. The price of common rice is rising rapidly, especially in the districts of East Bengal, owing to heavy rains and consequent floods.

United Provinces.—Good rain throughout the Provinces during the week has greatly benefited the standing crops in the affected districts of the Meerut and Agra Divisions and Bundelkhand, and has much improved prospects generally, though more rain is still required

for spring sowings and in some districts for rice. Harvesting has begun. Ploughing for the spring crops is in progress and sowing has commenced in a few districts. There were 1,823 workers on the two test works in Jalaun. Damage is reported to the standing crops from hot winds in Bulandshahr, from insects in Jaunpur and Ballia; and from excessive rainfall and floods in parts of Ballia and Ghazipur. In Jalaun the condition of agricultural stock is poor. Fodder continues scarce in parts of the Agra division and in Jalaun. Supplies are adequate and prices, though still high, have fallen in eleven districts and tend to fall elsewhere.

Punjab—The rainfall of the week was general and well distributed. Prices of food-grains generally show a tendency to fall; wheat however is rising in Hissar, Delhi, Jullundur and Mianwali. Ploughing for the next spring crop has commenced in Delhi and Mianwali. Sowings of gram, *toria* (*brassica campestris*) and other crops have commenced in Ambala, Amritsar and Sialkot. The recent rain has benefited the standing irrigated crops, but crops dependent on rain were for the most part in hopeless case when rain came. The outturn will probably be much below average. Floods are responsible for some damage in Amritsar, Lahore and Shahpur. Cattle are in good condition. Fodder is scarce in Delhi. There are no complaints regarding the water-supply.

North-West Frontier Province—Slight showers have fallen in all districts and have much benefited the standing crops, but more rain is badly needed for crops on unirrigated lands. Land is being prepared for spring sowings in Dera Ismail Khan. The water-supply is sufficient, and fodder is procurable. The condition of cattle is good, except in the Daman tract, where there is scarcity of fodder. Prices show a tendency to fall.

Burma.—Rainfall general. Transplanting of wet-weather paddy is completed in Hanthawaddy, Pyapon and Tavoy and is progressing in most other districts. Reaping of dry-weather paddy is completed in Pakokku and of early sesamum in Sagaing, where also paddy is being rapidly planted. Reaping of miscellaneous crops is completed in some parts of Thayetmyo and has commenced in the uplands of Mandalay. Sowing of late sesamum has commenced in the Monya subdivision of Lower Chindwin. The state of the standing crops is generally good. Crop prospects have much improved in Shwabo by timely rain, but floods have caused damage to paddy crops in low-lying parts of Toungoo and to sesamum crops in Yamethin. The price of paddy has slightly risen in Toungoo, Pegu and Thayetmyo and has fallen in Pakokku; otherwise it is unchanged.

Central Provinces—There was good rain during the week in all districts, varying between 1½ inches in Akola to 5 inches in Balaghat, except in Raipur, where only 89 cents were recorded. The recent rains have caused slight damage to cotton in a limited area in the Nagpur district, and crops are reported to be turning yellow in the Melghat tahsil of the Amraoti district, owing to continuous rain. An opportune break occurred in all districts during the latter part of the week. Transplantation of rice has been completed in the Seoni tahsil and in the Pailhat tahsil of the Balaghat district, and is nearly completed in the Warora and Garchnoli tahsils of the Chanda district and is in full swing in the Chanda and Brahmapuri tahsils. Thinning operations have nearly been completed in Raipur and Bilaspur, while weeding continues vigorously in the Bilaspur, Jangir and Mungeli tahsils of the Bilaspur district. In parts of the Akola, Amraoti and Buldana districts weeding is suspended, owing to heavy rain. More rain is wanted in Damoh for the water-supply. Sowings of *U* in Chanda and of minor crops in the Melghat tahsil are retarded, owing to excessive rain. Harvesting of early millets continues in Saugor and has commenced in Mandla, Hoshangabad, Nimar and Chhindwara. The standing crops are in excellent condition at present. A bumper crop is expected in Jabulpore, except rice on high lands which is estimated to yield only three-quarters of a normal crop. The estimated outturns in the other districts are—Narsinghpur—*juar*, millets, cotton and *til* 120; Wardha—cotton 120 to 180, *juar* 120 to 150, Amraoti—cotton 90 to 120. Scarcity of fodder continues in parts of Buldana. Flights of locusts have appeared in Saugor and Jabulpore, but caused very little damage. Prices show a tendency to rise in Chhindwara, grain has risen by 2 seers in the rupee and *juar* has fallen by 2 seers in Nimar, elsewhere they are steady or fluctuate slightly.

Assam.—The weather is seasonable. Rain fell in all districts during the week. Plucking and manufacture of tea continue; prospects are good in Nowgong and fair elsewhere. Transplanting of late rice continues. Cutting of jute is in progress; the prospects of jute and sugarcane are generally fair. Fodder is insufficient in parts of Sylhet, Goalpara, Kamrup and Darrang. Prices of common rice:—Silchar, 14; Tezpur, 12; Sib-sagar and Dibrugarh, 11; Daburi, Gaumat and Nowgong, 10; and Sylhet, 9 seers per rupee.

Mysore.—There was slight rain throughout the Province during the week. Prices are generally steady. The crops are in fair condition, but more rain is needed everywhere. Season prospects are generally fair. Cattle are healthy. Water is available, but fodder is scanty in parts of the Tumkur, Mysore, Hassan, Kadur and Shimoga districts.

Coorg—Rainfall—14 cents. Prices of food-grains are stationary. Water and fodder are sufficient.

Hyderabad.—Rainfall—3 inches. There was heavy rain during the week in five districts; good in three; light to fair in four; and very little in the remaining three. More rain is required in parts of three districts. Prospects are generally good. Autumn crops are withering in one taluk and insects are damaging castor-seed in two taluks; elsewhere the autumn and early rice crops are in good condition and are being weeded. Lands for spring crops are under preparation and sowings are progressing in parts. Early rice is being sown.* Fodder scarcity exists in two taluks. Water is available in sufficient quantity, except in one taluk. The price of *juar* has risen from $\frac{1}{2}$ to 4 seers per rupee in four taluks and has fallen from 1 to 5 seers in eighteen taluks. Prices—wheat, 12; coarse rice, 8 $\frac{1}{2}$; and *juar*, 20 $\frac{1}{2}$ seers per rupee.

Rajputana.—Rain is reported from all States and Ajmer-Merwara as follows:—Bikanir, head-quarters 46 cents and very heavy falls in other parts of State, reaching 700 cents in places; Marwar head-quarters 92, heavy rain in south varying from 448 to 1,100, but lighter in centre, north and north-east; Jaisalmer 268 at head-quarters, lighter in most other parts; Sirohi 484; Mewar 443 at head-quarters, Hill tracts 379; Dungarpur 178; Banswara 178; Partabgarh 268; Tonk 204; Bundi 287; Shahpura 151; Kotah, head-quarters 91, in other parts from 100 to 400; Jhalawar, head-quarters 417, other parts 151 to 1,080; Jaipur 196; Kishangarh 171; Alwar 224; Karauli 197; Bharatpur 207; Dholpur 107; Ajmer 183; Merwara 497. Agricultural operations continue in Sirohi, South Mewar, Dungarpur, Banswara, Partabgarh, Bundi, Kotah and Jhalawar; while late autumn crops are now being sown in Bikanir, Marwar, Jaisalmer, Kishangarh and in parts of Ajmer-Merwara, and land has been prepared for spring sowing wherever sufficient rain has fallen. In Jaisalmer difficulty is felt owing to scarcity of plough bullocks. *The standing crops on dry land had been lost before rain fell, except Sirohi, South Marwar, Mewar, Partabgarh, Kotah, Jhalawar, parts of Bundi, Dholpur and Alwar, where they have benefited greatly by rain. Those on irrigated lands are generally doing well. The condition of cattle is poor in Jaisalmer, the northern parts of Mewar, Alwar and Bharatpur. Pasturage and fodder are generally insufficient, except in South Rajputana, but considerable improvement is expected from cultivation of quickly growing fodder crops, though grass cannot now grow to any great height. Cattle emigration has been checked for the moment, but will probably be resumed later when the short grass produced by recent rains is finished. Prices are above normal, but are stationary in Sirohi, the Hill tracts, Mewar, Dungarpur, Kotah and Kishangarh; have risen slightly in Shahpura, fallen by 6 seers per rupee in Bundi, by 4 seers in Banswara, by 3 $\frac{1}{2}$ seers in Partabgarh, and less rapidly elsewhere. Spring crop prospects may now be regarded as assured in Bikanir, South Marwar, Jhalawar, Sirohi, the greater part of Mewar, Dungarpur, Partabgarh, Banswara and the Hill tracts and are almost assured in Bundi and Merwara. Elsewhere, though situation has improved, more rain is needed. Rain has averted danger of water famine which existed in many States. The numbers on test relief works on the last day of the week were as follows:—Ajmer district 2,097, increase of 762; Marwar 2,759, increase of 1,259; Tonk 276, increase of 221; Shahpura 1,571, increase of 1,230; Bharatpur 1,510, decrease of 686 due to more stringent enforcement of test. On gratuitous relief:—Marwar 1,746, increase of 323; on famine relief in Merwara district 11,432, decrease of 1,565, total on all kinds of relief 21,495, increase of 1,444.

Central India.—The rainfall of the week was general and sufficient in Bilisa; partial and insufficient in remainder of Gwalior, general in Indore, but insufficient in outlying parganas, and general and sufficient elsewhere. Agricultural operations are suspended in parts of Gwalior and are in progress elsewhere. The standing crops are generally good or fair, except in parts of Gwalior. The probable outturn will be *nil* in parts of Gwalior; poor in the Alampur pargana of Indore, average to good elsewhere. Agricultural stock and pasturage are fair to good, except in parts of Gwalior and Bundelkhand. Prices are rising in parts of Gwalior and Bundelkhand; continue high in Bhopal and Baghelkhand; are falling in Ratlam, Piploda and Bhopawar; and are steady elsewhere.

Baroda—In the week ending 9th instant, the numbers on relief in Baroda territory were as follows:—on relief works, 4,433; on gratuitous relief, 428; total, 4,861. The decrease is owing to the recent rainfall. Distress is confined to the Okhamandal and Amreli Mahal districts.

Kashmir.—The weather is bright, but the atmosphere is rather damp. The crops have been injured by floods. Prices are almost stationary.

Jammu.—Rainfall *nil*. Prices are stationary. Wheat sells from 14 to 24 and maize 18 to 35 seers per rupee. The condition of the standing crops is good. Fodder is sufficient. Land is being prepared for spring crops in certain tahsils.

I. WILSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

H. H. RISLEY,
Secretary to the Government of India.

Printed and published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, SEPTEMBER 30, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 29th March 1905.

From the 8th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 1st April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press, not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

Applications for the supply of the *Gazette* on the public service should be addressed to the Home Department.

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the date on which it is due.

W. ROSS,
Publisher, *Gazette of India*.

GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 29th September 1905.

NOTIFICATIONS.

No. 3663 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 23rd September 1905:—

- No. 428 of 1905.—The Ozonized Oxygen Company, Limited, manufacturers, of 20 Mount street, Manchester, in the county of Lancaster, England.
An improved process for bleaching and sterilising and apparatus therefor.
- No. 429 of 1905.—John Christopher Stead, technical chemist, of 42 Grove Green road, Leytonstone, London. *Improvements in and relating to the manufacture of carbon dioxide.*
- No. 430 of 1905.—Societe Anonyme Matthey and Company, manufacturers, of Vallorbe, Canton de Vaud, in the Republic of Switzerland. *Improvements in and relating to the manufacture of electrical-insulating and non-heat conducting compositions.*
- No. 431 of 1905.—Berliner Ausstellungsgallerien G. m. b. H., merchants, of Berlin, Scharrenstr 20. *Improvements relating to advertising devices.*
- No. 432 of 1905.—Sir W. G. Armstrong, Whitworth and Company, Limited, manufacturing engineers, of Elswick Works, Newcastle-upon-Tyne, England. *Improvements in and relating to traversers for quay and like rails and connections.*
- No. 433 of 1905.—Charles Joseph Rhodes, director, of Grove Iron Works, Wakefield, in the county of York, England. *Improvements in double seaming machines for square or oblong cans having solid corners for holding petroleum, petrol, kerosene and the like.*
- No. 434 of 1905.—Arthur Thomas Collier, engineer, of "Gonvena," Blenheim road, St. Albans, Hertford, England. *Improvements in and relating to elastic tyres for vehicles.*
- No. 435 of 1905.—Bertram Parrott Gray, Solicitor, of 122 Colmore row, in the city of Birmingham, England. *Improvements in and connected with hoof-pads for horse-shoes.*
- No. 436 of 1905.—Edward Lennon Cantwell, consulting engineer and patent agent, of 14 Lindsay street, Calcutta. *An improved registering turnstile gate.*
- No. 437 of 1905.—Sorabji Shavaksha, executive engineer, in the Public Works Department of the United Provinces of Agra and Oudh, at present employed as executive engineer in charge of the Cawnpore Division, Lower Ganges Canal. *A lock-nut which will not work loose when subjected to vibratory or jarring effects.*
- No. 438 of 1905.—Joseph Wellington Ferguson and George Welsh Ferguson, brick-makers, both of Sydney road, Wangaratta, in the state of Victoria, Commonwealth of Australia. *An improved brick-making machine.*
- No. 439 of 1905.—Charles W. Merrill, metallurgical engineer, of Leed, South Dakota, in the United States of America. *Improvements in process of and apparatus for the treatment of ores or other valuable material.*
- No. 440 of 1905.—International Cigar Machinery Company, a corporation duly organized, incorporated and existing under the laws of the State of New Jersey, United States of America, and having their principal office at No. 111 Fifth Avenue, city, county and state of New York, United States of America. *Improvements in cigar machinery.*

No. 441 of 1905.—William George Wheatley, of the firm or company of Saxby and Farmer, Limited, Railway Signalling Engineers, 6 Waterloo street, Calcutta. *Improvements in lever locking frames for railway signalling.*

No. 3664 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 135 of 1905.—Veribhai Waghjibhai Patel, mechanical engineer, Purshotam Spinning and Manufacturing Company, Ahmedabad. *An improved roller for cotton gins.* (Specification filed 18 September 1905.)

No. 156 of 1905.—Daniel Duncan, Frederic Bedmead Stratton and Henry Harwood, engineers, 9 Marine street, Bombay. *A machine for turning, roughening and grooving the rollers, and trueing, sharpening and levelling the knives of cotton gin machines.* (Specification filed 15 August 1905.)

No. 184 of 1905.—Samuel Cleland Davidson, merchant, of Sirocco Engineering Works, Belfast, Ireland. *Improvements in or relating to centrifugal fans or pumps.* (Specification filed 18 September 1905.)

No. 185 of 1905.—Samuel Cleland Davidson, merchant, of Sirocco Engineering Works, Belfast, Ireland. *Improvements in centrifugal fans or pumps.* (Specification filed 18 September 1905.)

No. 188 of 1905.—Alfred Benjamin Duggan, foreman, G. I. P. Railway Workshop, Parel, Bombay. *An improved lubricator for journals of railway vehicles and locomotives.* (Specification filed 1 August 1905.)

No. 372 of 1905.—James Baird Thorneycroft, ironmaster, Netherplace, Mauchline, Ayrshire, Scotland, Moubray Gore Farquhar, gentleman, Drumnagesk, Aboyne, Aberdeenshire, Scotland, and Arthur Henry Hill, gun maker, 6 Cornwall road, Handsworth Wood, Birmingham, Warwickshire, England. *Improvements in breech-loading small arms.* (Specification filed 19 September 1905.)

No. 3665 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 272 of 1898.—Roland H. Gahagan. *An improved water tap to prevent waste.* (From 30 September 1905 to 30 September 1906.)

No. 18 of 1899.—Gustav Graf von Geldern-Edmond. *Improvements in the manufacture of explosives.* (From 10 May 1906 to 10 May 1907.)

No. 117 of 1899.—James Major and Thomas James Wood. *Improvements in dyeing, bleaching, or otherwise treating with liquids cops of yarn, and in apparatus therefor.* (From 25 September 1905 to 25 September 1906.)

No. 127 of 1899.—William John Brewer and John Edward Cooper. *Improvements in auto motor carriages or vehicles.* (From 25 September 1905 to 25 September 1906.)

No. 346 of 1899.—Joseph Vogt. *Improvements in apparatus for deep boring.* (From 9 February 1906 to 9 February 1907.)

No. 180 of 1900.—Tracy Barbour Hatch. *Electric propelling mechanism for boats, etc.* (From 28 June 1905 to 28 June 1906.)

No. 228 of 1900.—Walter Frederic Perman. *An improved tea-leaf rolling machine to be known as "Perman's Express Tea Roller."* (From 24 September 1905 to 24 September 1906.)

No. 338 of 1900.—Rasmus Bugge. *Improvements in apparatus for drying rice and other grain.* (From 9 November 1905 to 9 November 1906.)

No. 335 of 1901.—The Talbot Continuous Steel Process, Limited. *Improvements in the art of manufacturing iron and steel.* (From 22 November 1905 to 22 November 1906.)

No. 3666 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased—

No. 426 of 1900.—Gilbert William Sutton. *Improvements in tea drying or withering apparatus and for drying similar materials.* (Specification filed 19 June 1901.)

No. 432 of 1900.—Hermann Eschwege. *Improvements in the manufacture of infusions of coffee and in apparatus therefor.* (Specification filed 18 June 1901.)

No. 87 of 1901.—Max Margowski. *An improvement in umbrella and parasol notches and runners.* (Specification filed 21 June 1901.)

No. 110 of 1901.—The Empire Cash Register, Limited. *Improvements in cash registering machines.* (Specification filed 22 June 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of Rs 50 for each of the above inventions

No. 411 of 1898.—Charles Havelock Taylor. *Improvements in hydraulic air compressing apparatus* (Specification filed 16 June 1899.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs 50 for the above invention.

No. 47 of 1892.—Charles Edward Livesay. *Means for completely regulating the supply of water into a canal to be called "Livesay's Patent Regulator."* (Specification filed 20 June 1892)

Fee in respect of the continuance of an exclusive privilege—

4 (j) After the expiration of the twelfth year and before the expiration of the thirteenth year from the date of the filing of the specification—

The sum of Rs 100 for the above invention

NOTICES.

"All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, Imperial Secretariat Buildings, Calcutta."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted, if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

**Rate for Demand Loans 5 per cent.
Percentage 40.53.**

* Agents for sale of the Legislative Department publications

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agents of the particular Government under whose orders they were originally issued.

The amounts within parentheses are for packing and postage

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, SEPTEMBER 30, 1905.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Lost.

Government Promissory Notes Nos. B025256 and B025258 of the $3\frac{1}{2}$ per cent. Loan of 1865 for Rupees one thousand each, originally standing in the name of The Bank of Bombay and last endorsed to Meherwanji Shapoorji Mulla-Firoze, the proprietor, by whom they were never endorsed to any other person, having been lost, notice is hereby given that payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, and that application is about to be made for the issue of duplicates in favour of the proprietor. The public are cautioned against purchasing or otherwise dealing with the above mentioned securities.

Name of Advertiser —PEEROZEBAI MEHERWANJI MULLA-FIROZE,

Widow and Executrix of the late

MEHERWANJI SHAPOORJI MULLA-FIROZE.

Residence—Sion, Bombay.

SUIT NO. 390 OF 1905.

IN THE COURT OF THE MUNSIF AT FATEHABAD, DISTRICT AGRA.

Chakrapan, son of Jawahar Lal, Brahman of Pura Chakrapan
Mazra Bamroli Kaithan,

Plaintiff,

versus

Seel Chand and others,

Defendants.

To Bankey Lal and Madan Mohan, sons of Hardeobox, dwelling at Bamroli, P. Bah,
District Agra.

Whereas the plaintiff has instituted a suit in this Court against you for redemption of mortgage depositing Rs 15-0-0 you are hereby summoned to appear in this Court in person or by a duly authorized Pleader of the Court duly instructed and able to answer all material questions relating to the suit or who shall be accompanied by some other person able to answer all such questions, on 30th day of September 1905 at 11 o'clock in the forenoon, to answer the above-named plaintiff; and you are hereby required to take notice that, in default of your appearance on the day before-mentioned, the issues will be settled in your absence; and you will bring with you or send by your Pleader any document on which you intend to rely in support of your defence.

Given under my hand and the seal of the Court, this 9th day of September 1905.

JOTINDRA MOHAN BOSE,

Munsif.

• SUPPLEMENT TO
The Gazette of India.

No. 39.} CALCUTTA, SATURDAY, SEPTEMBER 30, 1905.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

TELEGRAPHS.

Simla, the 15th September, 1905.

No. 5052—47-3.—In exercise of the powers conferred by section 7 of the Indian Telegraph Act, 1885 (XIII of 1885), the Governor General in Council is pleased to direct that, with effect from the 1st October 1905, the following rules shall be substituted for the rules bearing the same numbers, published with the notification of the Government of India in the Public Works Department No. 298 (Telegraphs), dated the 22nd September 1904, namely :

" 146. (1) Every application for refund, and every complaint respecting telegrams, shall be addressed to the Superintendent, Check Office, Government Telegraph Department, Calcutta, within two months from the date of the telegram :

Provided that applications for refunds on account of Paid Service Advices (Rule 46) may be made to the Telegraph Departmental Offices from which such advices were booked within three days from the date of the telegram.

(2) Every such application and complaint shall be accompanied by documentary evidence, namely :

- (a) in case of non-delivery or of delay, by a written statement from the office of destination, or from the addressee ;
- (b) in case of alteration or omission, by the copy of the telegram delivered to the addressee ;
- (c) in case of an unused reply-prepaid pass (Rule 96), by the pass delivered to the addressee ;
- (d) in case of Paid Service Advices (Rule 46), by the receipt for the repetition message and the correction memorandum granted in connection therewith by the Telegraph Office of delivery ; and
- (e) in case of telegrams stamped in excess by the sender (Rule 72), or stamped and cancelled before transmission has begun (Rule 75), by the receipt (Rule 67) granted for the telegram.

346. (1) Every application for refund, and every complaint respecting telegrams, should be made by the sender to the Telegraph Administration under which the telegrams originated. Provided (i) that such application or complaint may also be presented by the addressee to the Administration of destination, which will then decide whether it will deal with it, or whether it should be forwarded to the Administration of origin ;

(ii) that in India all such applications and complaints should be addressed, except in the case mentioned in proviso (iii) below, to the Superintendent, Check Office, Calcutta ;

(iii) that claims for refunds on Paid Service Advices [Rule 339 (j)] may, if made within three days from the date of the telegram, be presented at the Telegraph Departmental Offices from which such advices were booked.

(2) Every such application and complaint shall be accompanied by documentary evidence, namely :

- (a) in case of non-delivery, or of delay, by a written statement from the office of destination, or from the addressee ;
- (b) in case of alteration or omission, by the copy of the telegram delivered to the addressee ;
- (c) in case of an unused reply-prepaid pass (Rule 273), by the pass delivered to the addressee ;
- (d) in case of telegrams sent from India, by the receipt (Rule 231) ;
- (e) in case of Paid Service Advices (Rule 202), by the correction memorandum granted in connection therewith by the Telegraph Office of delivery."

CUSTOMS.

The 28th September, 1905.

No. 5361-C.—In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to prohibit the bringing

or taking by sea or by land into or out of Burma of cocaine by persons other than persons who are permitted to possess such cocaine under and in accordance with the terms of a general exemption under the provisions of section 18 of the Excise Act, 1896 (XII of 1896), or a license granted by an officer appointed under that section.

No. 5364-C.—In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), and in supersession of Financial Department Notification No. 5533-S.R., of the 10th September 1874, the Governor General in Council is pleased to prohibit the bringing or taking by sea or by land into or out of Burma of ganja, bhang, charas and every preparation or admixture of the same.

POST OFFICE.

The 28th September, 1905.

No. 5367-P.O.—In exercise of the powers conferred by section 25 of the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to empower the Postmaster, the Deputy Postmaster and the Assistant Postmaster at Rangoon and the Postmaster at Akyab to search, or cause search to be made, for any cocaine the bringing or taking of which by sea or land into or out of Burma is prohibited by Notification No. 5361-C. of this date, in course of transmission by post to any place in Burma, and to direct that the said officers shall deliver all such cocaine found to the officer for the time being in charge of the Excise Administration of the Rangoon Town or the Akyab district, as the case may be; and that such cocaine shall be disposed of in accordance with the rules for the time being in force relating to cocaine confiscated under the provisions of the Excise Act, 1896 (XII of 1896).

No. 5370-P.O.—In exercise of the powers conferred by section 25 of the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to empower the Postmaster, the Deputy Postmaster and the Assistant Postmaster at Rangoon and the Postmaster at Akyab to search, or cause search to be made, for any ganja, bhang, charas and every preparation and admixture of the same the bringing or taking of which by sea or land into or out of Burma is prohibited by Notification No. 5364-C. of this date, in course of transmission by post to any place in Burma, and to direct that the said officers shall deliver all such ganja, bhang, charas and every preparation and admixture of the same found to the officer for the time being in charge of the Excise Administration of the Rangoon Town or the Akyab district, as the case may be; and that such ganja, bhang, charas and every preparation and admixture of the same shall be disposed of in accordance with the rules for the time being in force relating to ganja, bhang, charas and every preparation or admixture of the same, confiscated under the provisions of the Excise Act, 1896 (XII of 1896).

EXPLOSIVES.

The 29th September, 1905.

No. 5405-P. & T.—In accordance with the provisions of section 18, sub-section (1), of the Indian Explosives Act, 1884 (IV of 1884), and in pursuance of the directions contained in the Notification of the Government of India in the Home Department No. 1964, dated the 2nd September 1887, the Governor General in Council is pleased to publish for general information the following draft of a rule which it is proposed to add to rule 5 of the rules regulating the transport and importation of explosives, published in the Notification of the Government of India in the Home Department No. 5528, dated the 11th October 1901. The draft will be taken into consideration on the expiry of two months from the date of this notification.

Draft Rule.

"III. No explosive belonging to class 1 (gunpowder class), class 2 (nitrate-mixture class), class 3 (nitro-compound class), class 4 (chlorate-mixture class) or class 5 (fulminate class), shall be carried, otherwise than by rail, across any railway bridge over which reasonable facilities for the conveyance thereof by rail are afforded by the Railway Administration."

"Provided that this prohibition shall not apply in respect of quantities of explosives of class 1 (gunpowder class) or class 3 (nitro-compound class) not exceeding 5 lbs. in weight."

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 29th September, 1905, and is hereby promulgated for general information.

ACT NO. VI OF 1905.

An Act further to amend the Court-fees Act, 1870.

WHEREAS it is expedient further to amend the Court-fees Act, 1870; It is hereby enacted VII of 1870. as follows:

1. This Act may be called the Court-fees (Amendment) Act, 1905.
Short title.
2. In section 7, sub-head xi, of the Court-fees Amendment of section 7, Act, 1870,—
Act VII, 1870. VII of 1870
- (1) after clause (c), the following clause shall be inserted, namely:
“(cc) for the recovery of immoveable property from a tenant, including a tenant holding over after the determination of a tenancy,” and
- (2) for the word “land”, in both places in which it occurs, the words “immoveable property” shall be substituted.

H. W. C. CARNDUFF,

Offr. Secretary to the Government of India.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 29th September, 1905, and is hereby promulgated for general information.

ACT NO. VII OF 1905.

An Act to make certain provisions regarding the application of the law in force in the Province of Eastern Bengal and Assam and in certain territory transferred from the Central Provinces to Bengal.

WHEREAS by Proclamation No. 2832, dated the 1st September, 1905, the Governor General, with the sanction of His Majesty, has been pleased to constitute the Province of Assam, being the territories mentioned in Schedule A, to be, for the purposes of the Indian Councils Act, 1861 a Province to which the provisions of that Act touching the making of laws and regulations for the peace and good order of the Presidencies of Fort St. George and Bombay shall be applicable, and to direct that the said Province shall be called the Province of Eastern Bengal and Assam, and further to appoint a Lieutenant-Governor of that Province ;

And whereas by the said Proclamation the Governor General in Council, with the like sanction, has been pleased to declare and appoint that, upon the constitution of the said Province of Eastern Bengal and Assam, the districts mentioned in Schedule B shall cease to be subject to or included within the limits of the Bengal Division of the Presidency of Fort William and shall be subject to and included within the limits of the Lieutenant-Governorship of the Province of Eastern Bengal and Assam ;

And whereas, by Proclamation No. 2833, dated the 1st September 1905, the Governor General in Council has been pleased to declare and appoint that the territory mentioned in Schedule C shall cease to form part of the Central Provinces and shall be subject to and included within the limits of the Bengal Division of the Presidency of Fort William ;

And whereas it is expedient to make certain provisions regarding the application of the law in force in the territories affected by the said Proclamations,

It is hereby enacted as follows :

1. (1) This Act may be called the Bengal and Assam Laws Act, 1905 ;
Short title and com- and
mencement.

(2) It shall come into force on the sixteenth day of October, 1905.

2. The Proclamations referred to in the pre-
Saving of territorial ample shall not be deemed
application of enact- to have effected any change
ments in the territorial applica-
tion of any enactment, notwithstanding that
such enactment may be expressed to apply or
extend to the territories for the time being
under a particular administration.

3. All enactments, and all notifications, orders,
schemes, rules, forms and
by-laws issued, made or
prescribed under enact-
ments, which, immediately
before the commencement
of this Act, were in force in, or prescribed for,
any of the territory mentioned in Schedule
A, B or C, shall, in their application to that
territory, be construed as if references therein
to the authorities, territories or Gazettes
mentioned in column 1 of Schedule D were
references to the authorities, territories or Gaz-
ettes, respectively mentioned opposite thereto
in column 2 of that Schedule.

4. (1) There shall be a Board of Revenue for the Province of Eastern Bengal and Assam, to which the provisions of the Bengal Board of Revenue Regulation, 1822, and the Bengal Board of Revenue Act, 1850, shall, so far as may be, apply.

III of 1822. Regulation, 1822, and the Bengal Board of Revenue Act, 1850, shall, so far as may be, apply.

(2) The said Board of Revenue shall discharge in respect of the territory mentioned in Schedule B all the functions which, immediately before the commencement of this Act, were vested in or exercisable by the Board of Revenue for the Lower Provinces of the Presidency of Fort William in Bengal, and in respect of the whole or any portion of the territory mentioned in Schedule A such of the functions which at the same date were vested in or exercisable by the Chief Commissioner of Assam as the Local Government may, with the previous sanction of the Governor General in Council, delegate to it.

5. For the purpose of facilitating the application to any of the territory mentioned in Schedule A, B or C of any enactment passed before the commencement of this Act, or of any notification, order, scheme, rule, form or by-law made under any such enactment,—

(a) any Court may, subject to the other provisions of this Act, construe the enactment, notification, order, scheme, rule, form or by-law with such alterations, not affecting the substance, as may be necessary or proper to adapt it to the matter before the Court, and

(b) the Local Government may, by notification in the local official Gazette, direct by what officer any authority or power shall be exercisable, and any such notification shall have effect as if enacted in this Act.

6. Nothing in this Act shall affect any proceeding which, at the commencement thereof, is pending in or in respect of any of the territory mentioned in Schedule A, B or C, and every such proceeding shall be continued as if this Act had not been passed.

7. The enactments specified in Schedule I are hereby repealed to the extent mentioned in the fourth column thereof.

SCHEDULE A.

THE PROVINCE OF ASSAM.

The Districts of Goalpara, Kamrup, Darrang, Nowgong, Sibagar, Lakhimpur, Sylhet, Cachar, Garo Hills, Khasia and Jaintia Hills, Naga Hills, and Lushai Hills.

SCHEDULE B.

TERRITORY TRANSFERRED FROM BENGAL TO THE PROVINCE OF EASTERN BENGAL AND ASSAM.

The Districts of Dacca, Mymensingh, Faridpur, Backergunge, Tippera, Noakhali Chittagong, the Chittagong Hill Tracts, Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Bogra, Pabna and Malda.

SCHEDULE C.

TERRITORY TRANSFERRED FROM THE CENTRAL PROVINCES TO BENGAL.

The Sambalpur District (except the Chandarpur Padampur Estate and the Phuljhar Zamindari).

SCHEDULE D.

(See section 3.)

PART I.

Construction of enactments, etc., in force in territories mentioned in Schedules A and B.

1	2
I.—The Local Government of Bengal II.—The Local Government of Assam.	The Local Government of the Province of Eastern Bengal and Assam.
III.—The Board of Revenue of Bengal IV.—The Chief Controlling Revenue-authority or the Chief Revenue-authority.	(a) The Local Government of the Province of Eastern Bengal and Assam in the territories mentioned in Schedule A, and (b) the Board of Revenue of the Province of Eastern Bengal and Assam in the territories mentioned in Schedule B.
V.—All officers and official bodies not mentioned in the foregoing clauses I to IV (except the Treasurer of Charitable Endowments) whose authority extended, immediately before the commencement of this Act, over the Province of Bengal generally, inclusive of the territory mentioned in Schedule B.	(a) The respective officers who, immediately before the commencement of this Act, exercised similar functions in the Province of Assam, or (b) such other officers, respectively, as the Local Government of the Province of Eastern Bengal and Assam may, by notification in the local official Gazette, appoint in this behalf.
VI.—The Chief Commissionership of Assam.	The territory mentioned in Schedule A.
VII.—The local official Gazettes (English or Vernacular, as the case may be) of the Government of Bengal.	The local official Gazettes (English or Vernacular, as the case may be) of the Government of the Province of Eastern Bengal and Assam.
VIII.—The local official Gazettes (English or Vernacular, as the case may be) of the Government of Assam.	

PART II.

Construction of enactments, etc., in force in the territory mentioned in Schedule C.

1	2
I.—The Local Government of the Central Provinces.	The Local Government of Bengal
II.—The Court of Wards of the Central Provinces.	
III.—The Superintendent of Government Wards in the Central Provinces.	The Board of Revenue of Bengal.
IV.—The Chief Controlling Revenue-authority, or the Chief Revenue-authority, of the Central Provinces.	
V.—The Judicial Commissioner of the Central Provinces.	The High Court of Judicature at Fort William in Bengal.
VI.—All officers and official bodies not mentioned in the foregoing clauses I to V (except the Treasurer of Charitable Endowments) whose authority extended, immediately before the commencement of this Act, over the Central Provinces generally, inclusive of the territory mentioned in Schedule C.	(a) The respective officers who, immediately before the commencement of this Act, exercised similar functions in the Province of Bengal, or (b) such other officers, respectively, as the Local Government of Bengal may, by notification in the local official Gazette, appoint in this behalf.
VII.—The local official Gazettes (English or Vernacular, as the case may be) of the Government of the Central Provinces.	The local official Gazettes (English or Vernacular, as the case may be) of the Government of Bengal

SCHEDULE E.

ENACTMENTS REPEALED.

(See section 7.)

1	2	3	4
Year.	No.	Subject or short title.	Extent of repeal.
1874	VIII	The Assam Chief Commissionership Act, 1874.	The whole Act.
1874	XII	The Sylhet Act, 1874.	The whole Act.
1875	XX	The Central Provinces Laws Act, 1875.	The second sentence of section 3 and column 4 of Schedule A, in so far as they apply to the territory mentioned in Schedule C.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 29th September, 1905.

NO. 10 OF 1905.

A Bill further to amend the Indian Factories Act, 1881.

WHEREAS it is expedient further to amend the Indian Factories Act, 1881; It is hereby enacted as follows:

1. This Act may be called the Indian Factories (Amendment) Act, 1905.

2. The words "for not less than four months in the whole in any one year," in the definition of "factory" in section 2 of the Indian Factories Act, 1881, are hereby repealed.

3. For section 10 of the Indian Factories Act, 1881, as amended by the Indian Factories Act, 1891 (hereinafter called "the said Act"), the following shall be substituted, namely:

"10. A woman or child shall not be deemed to be actually employed, within the meaning of section 6 or section 7, during any interval allowed under either of those sections."

4. After section 11 of the said Act the following shall be inserted, namely:

"Notices of stoppages of work and intervals of rest."

"11A. The occupier shall set up and maintain, in some conspicuous place in the factory, a printed or written notice, in English and the languages of the district in which the factory is situated, showing the times at which—

(a) the stoppage of work required by section 5A, sub-section (1), and

(b) the intervals required by section 6, sub-section (3), and section 7, sub-section (4), to be allowed to women and children, respectively,

shall be allowed, and, in the case of intervals, showing the length of each interval."

5. For section 12 of the said Act the following shall be substituted, namely:

"12. (1) (a) Every fly-wheel directly connected with a steam-engine, water-wheel or other mechanical power in any part of a factory, every part of a steam-engine or water-wheel, and every other part of the machinery or mill-gearing of a factory which may, in the opinion of the local Inspector, be dangerous if left unfenced, shall, while the same is in motion, and

(b) every hoist or teagle, and every hoist-well, trap-door or other similar opening near which any person is liable to pass or be employed, shall at all times,

be kept by the occupier of such factory securely fenced to the satisfaction of, and in

accordance with any orders given by, the local Inspector.

(2) Any order under sub-section (1) may be set aside, on appeal or otherwise, by the Local Government or such authority as it may appoint in this behalf."

6. The words "or, in his absence, his principal agent in the management of such factory," in section 13 of the said Act are hereby repealed.

7. In section 14 of the said Act, for the words "the local Inspector" the words "such officer as the Local Government may appoint in this behalf" shall be substituted.

8. In section 15, sub-section (1), of the said Act, the following amendments shall be made, namely:

(i) in clause (d), for the words and figures "the notice required by section 10, sub-section (1)," the words and figures "any notice prescribed by section 11A" shall be substituted;

(ii) in clause (e), for the words "or mill-gearing" the words "mill-gearing, hoist, teagle or opening" shall be substituted;

(iii) for clause (g), the following shall be substituted, namely:

(g) neglects to ventilate or light any factory or to provide privy accommodation at any factory, or, by lime-washing, painting, varnishing or washing, to keep any factory in a cleanly state and free from effluvia arising from any drain, privy or other nuisance;

(iv) after clause (i) the following shall be inserted, namely:
"or

"(j) allows smoking or the use of naked lights in the immediate vicinity of any inflammable material in any factory;

"(k) neglects to provide sufficient means of exit to ensure escape from any factory in case of fire;

"(l) (being an occupier of a factory) neglects to appoint an approved person to be his principal agent in the

management of the factory during his absence; or

"(m) does or omits to do any other act prohibited or prescribed by this Act or any order or rule made thereunder."

9. Before section 18 of the said Act the following shall be inserted, namely:

"17A. Every occupier of a factory shall appoint a person, to be approved by the District Magistrate, to be his principal agent in the management of the factory; and during the absence of such occupier the person so appointed, or, in default of such appointment, the person who is acting as the principal agent of the occupier in the management of the factory, shall be deemed to be the occupier of the factory for all the purposes of this Act and of any orders or rules made thereunder:

"Provided that nothing in this section shall relieve the occupier of any liability imposed on him as such by or under this Act."

10. (1) In section 18, sub-section (1), clause (d), of the said Act, for the words "and mill-gearing" the words "mill-gearing, hoists and teagles, and hoist-wells, trap-doors and other similar openings" shall be substituted.

(2) In clause (e) of the same sub-section, after the word "ventilation" the words "and lighting" and after the word "factories" the words "the provision of privy accommodation therein" shall be inserted.

(3) After clause (d) of the same sub-section the following shall be inserted, namely:

"(e) the prohibition of smoking and the use of naked lights in the immediate vicinity of any inflammable material;

"(f) the provision of sufficient means of exit to ensure escape in case of fire;" and the existing clauses (e), (f) and (g) shall be re-lettered as clauses (g), (h), and (i) respectively.

(4) In sub-section (1) of the same section, for the words and letter "or clause (d)" the words and letters "clause (d) or clause (f)" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is further to amend the Indian Factories Act, 1881 (XV of 1881), so as to secure additional protection for the health and safety of operatives in factories. An explanation of the several amendments which it is proposed to make is given in the subjoined *Notes on Clauses*.

The 27th September, 1905.

J. P. HEWETT.

Notes on Clauses.

Clause 2.—The effect of this clause will be to bring within the purview of the Act certain small factories in the Bombay Presidency and elsewhere which work for a very short time only and are often the scene of many serious abuses.

Clauses 3 and 4.—Clause 3 is purely formal, and is introduced in order to admit of section 10 (1) of the Act being re-enacted, by clause 4, with amendments and under a suitable heading.

The amendments introduced by clause 4 direct that the midday stoppage of work required by section 5A for all operatives shall be notified in the factory in the same way as the intervals of rest required by sections 6 and 7 for women and children. Section 5A (1) has been infringed in some cases; and it is difficult to secure a conviction for such infringements without direct evidence, which it is almost impossible to procure when no notice of the time of the stoppage has been posted up.

Clause 5 reproduces section 12 of the Act, with amendments requiring hoists or teagles, and hoist-wells, trap-doors and other similar openings near which people are liable to pass or be employed, to be kept at all times fenced, the fencing to be to the satisfaction of, and in accordance with any orders given by, the local Inspector.* Experience has shown that hoists are more dangerous when at rest than while in motion, as there is then nothing to draw attention to the well; and it is necessary, for the prevention of accidents, that all hoists, teagles, wells, trap-doors and similar openings should be kept properly fenced. An amendment has also been included to admit of any order made by an Inspector under this section being set aside by higher authority.

Clause 6.—The words which it is proposed to repeal are rendered superfluous by the proposed new section 17A.

Clause 7.—The object of this amendment is to require notices of the opening of factories to be sent to an officer appointed by the Local Government to receive them, instead of to the local Inspector. In many places more than one Inspector has authority, and it is desirable that these notices should in each area be sent to one officer only.

Clause 8.—The amendments proposed in section 15 by this clause are largely consequential upon other amendments proposed in the Bill. A new clause (n) has, however, been added with the object of bringing within the scope of the penalty imposed by the section all acts or omissions which are contrary to the provisions of the Act or of the orders and rules issued under it and which are not covered by the preceding clauses. This provision is necessary in order to make it possible to punish such offences.

Clause 9.—The necessity has been proved of compelling an occupier of a factory, when absent, to leave in charge an approved and responsible agent to see that the provisions of the Act and the orders and rules made under it are carried out. Clause 9 introduces a section (17A) containing the necessary provision.

Clause 10 (1).—This amendment will bring section 18 (a) into line with the proposed new section 12.

Clause 10 (2).—The proper lighting of a factory is almost as important for the permanent health of the operatives as is its ventilation, while the provision of sufficient privy accommodation is a very important sanitary measure; and the effect of clause 10 (2) will be to make it clear that Local Governments have power to make rules on these subjects.

Clause 10 (3).—It is necessary, in order to secure the safety of the operatives, that Local Governments have power to forbid smoking and the use of naked lights in certain portions of a factory, and to insist on the provision of sufficient means of exit in case of fire; and clause 10 (3) proposes to give them these powers.

Clause 10 (4).—The effect of this clause is to require the previous publication, in draft form, of rules as to means of exit in case of fire.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA,
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA,
ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS
UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67,
AND 55 & 56 VICT., CAP. 14).

The Council met at the Viceregal Lodge, Simla, on Friday, the 29th September, 1905.

PRESENT :

His Excellency Baron Curzon, P.C., G.M.S.I., C.M.I.E., Viceroy and Governor General of India, *presiding*.

His Honour Sir Denzil Ibbetson, K.C.S.I., Lieutenant-Governor of the Punjab.

The Hon'ble Major-General Sir E. R. Elles, K.C.B., K.C.I.E.

The Hon'ble Sir A.T. Arundel, K.C.S.I.

The Hon'ble Mr. H. Erle Richards, K.C.

The Hon'ble Mr. J. P. Hewett, C.S.I., C.I.E.

The Hon'ble Mr. E. N. Baker, C.S.I.

The Hon'ble Sir C. L. Tupper, K.C.I.E., C.S.I.

The Hon'ble Mr. T. Gordon Walker, C.S.I.

COURT-FEES (AMENDMENT) BILL.

The Hon'ble SIR ARUNDEL ARUNDEL moved that the Report of the Select Committee on the Bill further to amend the Court-fees Act, 1870, be taken into consideration.

The motion was put and agreed to.

The Hon'ble SIR ARUNDEL ARUNDEL moved that the Bill, as amended, be passed.

The motion was put and agreed to.

BENGAL AND ASSAM LAWS BILL.

The Hon'ble MR. RICHARDS moved that the Bill to make certain provisions regarding the application of the law in force in the Province of Eastern Bengal and Assam and in certain territory transferred from the Central Provinces to Bengal be taken into consideration. He said :—" My Lord, I have on a former occasion explained to the Council the object of the Bill which is now before the Council. I pointed out then that the scope of the Bill was confined to the application of the existing law as distinct from the amendment or alteration of it, and that it was merely ancillary to the proclamation by which the new Province of Eastern Bengal and Assam has been created. The Bill has been published in the usual way in the Gazette of India, the Calcutta Gazette, the Central Provinces Gazette and the Assam Gazette in accordance with the resolution of this Council. No objections have been taken to it and no amendments have been proposed. It is unnecessary therefore for me to do more than formally to move that the Bill be now taken into consideration."

The motion was put and agreed to.

The Hon'ble MR. RICHARDS moved that the Bill be passed.

The motion was put and agreed to.

INDIAN FACTORIES (AMENDMENT) BILL.

The Hon'ble MR. HEWETT moved for leave to introduce a Bill further to amend the Indian Factories Act, 1881. He said :—" The Bill is designed to secure additional protection for the health and safety of operatives in factories. The opportunity has been taken to bring within its scope certain small factories which are at present excluded from the operation of the Act, on account of the fact that they are open for short periods only in each year; partly on account of this peculiarity, and partly owing to the fact that such factories are usually owned by small proprietors, they are not infrequently the scenes of serious abuses, and it has been considered desirable to take powers which will enable our officers to supervise such places efficiently in future.

" The amendments contained in the Bill are noticed in detail in the *Notes on Clauses*, and it is only necessary for me to refer to two or three of the proposed changes. Clause 4 requires that a notice regarding the midday stoppage of work, which is provided for by section 5A of the Act, shall be posted up in each factory. This addition has been made with the object of facilitating convictions for breach of the rule, as it has been found that, unless such a notice is posted, direct and satisfactory evidence of a breach of the provisions of section 5A of the Act is seldom obtainable.

" A clause has also been introduced with the object of bringing within the scope of the penalty imposed by section 15 of the Act all acts or omissions which are contrary to the provisions of the Act, or of the orders and rules issued thereunder and which are not covered by specific clauses in the existing measure.

" Clause 9 has been framed with the object of securing that there shall always be some responsible person who can be at once proceeded against in respect of breaches of the Act, and experience has shown that a provision of this nature is absolutely essential.

" The occurrence of fires in factories, which resulted in a lamentable loss of life among the operatives, has demonstrated the necessity that power should be taken to prevent smoking, and the use of naked lights in certain circumstances, and to insist on the provision of sufficient means of exit in case of fire. Clause 16 (3) of the Bill provides for these matters.

" With these remarks, my Lord, I beg for leave to introduce the Bill."

The motion was put and agreed to.

The Hon'ble MR. HEWETT introduced the Bill.

The Hon'ble MR. HEWETT moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

The Council adjourned *sine die*.

RESULTS OF THE MEASURES ADOPTED FOR THE EXTERMINATION OF WILD ANIMALS AND VENOMOUS SNAKES DURING THE YEAR 1904.

• • Simla, the 23rd September, 1905.

R E S O L U T I O N .

The total mortality amongst human beings reported to have been caused by wild animals in 1904 was 2,157 against 2,749 in 1903. The most noticeable decrease in the mortality occurred in Madras and the United Provinces, namely, from 438 and 404 in 1903 to 237 and 193 in 1904, respectively. So far as the Madras Presidency is concerned it is, however, explained that the registration in 1903 was incorrect in two districts and that the number reported for 1904 is normal. In the Central Provinces (including Berar) also there was an appreciable decrease from 470 to 351. The mortality due to leopards fell from 513 in 1903 to 399 during 1904, the most noticeable decrease being in the Central Provinces where the number of deaths reported fell from 188 in 1903 to 93 in 1904. The number of deaths caused by elephants rose from 38 to 52, of which 20 occurred in Bengal, and 18 in Assam; while those caused by bears fell from 117 to 102 and by "other animals" from 711 to 548. The number of deaths reported from snake-bite rose from 21,827 in 1903 to 21,880 in 1904.

2. The destruction of human life by tigers in 1904 was smaller than in the previous year, the number being 786 against 866. The number of deaths from this cause fell in Madras from 129 to 110, in Bombay from 28 to 5, in Bengal from 359 to 342, in the United Provinces from 45 to 11, in the Central Provinces from 196 to 180 and in Assam from 55 to 50; while in Burma the number rose from 53 to 87. As usual the greatest mortality occurred in Bengal. It is reported that in Gaya, where two man-eating tigers were destroyed, the mortality fell from 35 to 7. In the Santhal Parganas, where 21 deaths occurred in 1903, none were reported in 1904. Two man-eating tigers were reported to be in Hazaribagh in 1904, and a reward was offered for their destruction, but without result. From this district as also from Angul, Cuttack and Khulna an increased mortality is reported, and a slight rise is noticeable in the returns from Backergunge, consequently, it is reported, on the opening up of the Sundarbans. In the United Provinces the satisfactory decrease is due to the destruction of three notorious man-eaters in the Mirzapur district. In the Central Provinces the majority of deaths occurred as usual in Chanda, Balaghat, Mandla and in the districts of the Chhattisgarh Division, the most serious mortality being reported from the Sambalpur district which returns 55 deaths. The majority of these are attributable to the ravages of three man-eating tigers which infest the Ambábhana jungles, and which have hitherto evaded all attempts to destroy them. In the Katha district in Burma, where 21 persons were killed, the mortality is attributed to the depredations of three man-eating tigers, two of which were killed, while endeavours were made to destroy the third without success. Of the 15 persons killed in the Upper Chindwin district, a single man-eater caused the death of no less than eight and was eventually destroyed by poison.

A

3. The year's returns disclose a very marked decline in the number of deaths caused by wolves, from 463 in 1903 to 241 in 1904, the decrease occurring principally in the United Provinces, where the mortality from this cause fell from 278 to 90. The three districts which of recent years have suffered most from these animals are Budaun, Cawnpore and Fatehpur; all three contribute to the decrease, which the local Government ascribes to the active measures that have been taken for the extermination of these animals in recent years. It is pointed out that the number of wolves destroyed in the United Provinces has fallen from over 1,200 in each of the years 1902 and 1903, to 650 in 1904; and the belief is expressed that this points to a genuine decrease in their numbers. The reward offered for their destruction has been raised to Rs. 10 throughout the provinces, and it is hoped that the enhanced reward and the employment of special shikaris will result in the eventual extermination of these pests. The Governor General in Council trusts that these expectations may prove to be correct, but would observe, first, that it is curious that the effect of the measures referred to should become apparent in a single year, and, secondly, that the rise in the number of cattle destroyed by wolves seems hardly consistent, making due allowance for inaccuracy in the returns, with the inference that their numbers have been materially reduced. In Bengal out of a total mortality of 111 from this cause, 77 occurred in the Hazaribagh district. In the Central Provinces there was a satisfactory decrease in the number of deaths from 51 to 37. The deaths occurred principally in Raipur (23) and Bilaspur (11). Deaths from panthers in the Central Provinces have decreased by 50 per cent., nearly the whole decrease occurring in the Raipur district where only 37 persons were killed against 110 in the previous year.

4. The mortality from snake-bite rose from 21,827 in 1903 to 21,880 in 1904. The number of deaths in 1904 reported from Bengal, the United Provinces and the Central Provinces was 10,052, 5,152 and 1,550 respectively, representing a proportion of '13, '10 and '12, respectively, per 1,000 of the population. The corresponding proportion for Madras, Bombay, Punjab, Burma and Assam was '05, '06, '05, '08 and '03 per mille respectively. It is reported that in the Seoni district of the Central Provinces anti-venene was used with success in two cases, and the question of introducing more generally the treatment of snake-bite by permanganate of potassium is under the consideration of the local Government.

5. The number of cattle destroyed by wild animals rose from 86,232 in 1903 to 88,406 in 1904, and the number killed by snakes from 9,994 to 10,376. Of the former total the number destroyed by tigers amounted to 28,093; by leopards to 42,812; by wolves to 9,984; by hyenas to 2,580; and by other animals to 3,409. The most marked increases occurred in Madras, Bombay, Bengal and the United Provinces, while decreases are noticeable in the Punjab, the North-West Frontier Province, Burma, the Central Provinces, Assam and Coorg. The increase in Madras is reported to be probably due to expansion of cultivation in jungle tracts and possibly also to more accurate registration of cattle mortality by village officers. The increase in Bombay appears to be due to the recent adoption of the revised definition of "cattle" and the larger number destroyed by wolves in a particular district. In Bengal, where the destruction was greatest (23,506), the highest mortality occurred in Palamau, Hazaribagh, Backergunge and Dinajpur. So far as the United Provinces are concerned, the figures are stated to be unreliable.

6. The number of wild animals destroyed during the year 1904 was 16,122 against 16,318 in 1903. The number of tigers, leopards, bears, wolves and hyenas destroyed was 1,335, 4,374, 2,127, 1,822 and 497 respectively. The rewards paid for the destruction of wild animals amounted to Rs. 1,07,033. The total number of snakes killed in 1904 was 65,378 against 62,745 in 1903, and the rewards paid for their destruction amounted to Rs. 2,727 against Rs. 2,827 in 1903.

7. The number of licenses (in Form XI) issued free of cost under the Indian Arms Act, 1878, for the destruction of wild animals or the protection of crops during 1904, was 8,489 against 7,953 in 1903, and the total number of licenses of this nature in force in 1904,

including such as were valid from previous years, amounted to 37,720 as compared with 37,680 in 1903. The rise in the number of licenses issued in Berar from 970 to 1,584 is said to be mainly due to the necessity of issuing many licenses in the Buldana district for the destruction of pigs, which have become very numerous and destructive to the crops. The matter is however under inquiry by the Chief Commissioner.

ORDER.—Ordered, that a copy of this Resolution be forwarded to local Governments and Administrations,* and that it be published in the Supplement to the *Gazette of India* for general information; also that a copy be forwarded to the Director General of Commercial Intel-

* Including the Hon'ble the Chief Commissioners of the North-West Frontier Province and Ajmer-Merwara and the Hon'ble the Resident in Mysore.

ligence.

H. H. RISLEY,
Secretary to the Government of India.

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs., on Thursday, the 28th September 1905, based on the India Daily Weather Reports of the period.

The barometric depression which was shown over the centre of the north of the Bay on the morning of the 21st concentrated and advanced westward during the 22nd and 23rd. During these two days rain was received from the Bay monsoon current as it circled around the depression passing over Burma and Bengal and thence into Orissa and the east of the Central Provinces. The rainfall was not however heavy, the largest falls having been 2.04" at Narayanganj on the 22nd and 3.20" at Sibsagar on the 23rd. In the early morning of the 24th the storm crossed the Madras coast between Gopalpur and Waltair. Rain continued over Burma, Assam, Bengal, and had extended to the Circars coast, the largest amount reported having been 2.17" at Gopalpur. After crossing the coast the storm moved slowly in a north-westerly direction and filled up over the Central Provinces during the 27th. The storm occasioned moderate to heavy rain over the central parts of the country, Raipur reporting 5.85" on the 25th; Pachmarhi 7.15", Nagpur 6.10" and Seoni 5.20" on the 26th; and Jhansi 2.07" on the 27th. In the meantime a fresh depression appeared over central Burma on the 26th and thence passed north-westward to the neighbourhood of Akyab on the 27th and of Calcutta on the 28th. This storm gave general rain to Burma on the 27th and 28th and to Bengal on the 28th, the largest amounts having been 3.10" at Moulmein and 2.11" at Rangoon on the 27th and 3.11" at Saugor Island, 2.59" at Chittagong and 2.36" at Barisal on the 28th.

Practically all the rainfall of the week has been connected with these two storms and over the south, centre and west of the Peninsula and north-western India only light local rain has been received. In consequence the rainfall table shows that, while the total fall of the week has been normal or slightly excessive over Burma, Lower Bengal, the north division of the East Coast, the Satpuras and part of Central India, it has been more or less in defect over Assam, north Bengal, Bihar, the Gangetic plain, north-west India and the Peninsula. In the North-west dry division and the Bahraich, Ludhiana, Lahore, Bombay and Ahmedabad subdivisions there was actually or practically no rain throughout the week.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 28th September 1905.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
23rd September 1905.

Madras.—Report not received.

Bombay.—There was moderate rain during the week in parts of Kathiawar; slight in parts of Colaba, Ratnagiri, Khandesh, Satara, Cutch and Mahi Kantha; and very slight in parts of Thar and Parkar, Gujarat, Thana, Nasik, Ahmedabad, Poona, Sholapur, the Karnatak, Kanara and Rewa Kantha. More rain is generally needed. The standing autumn crops have been slightly damaged by crabs, rats, tortoises or winds in parts of Karachi; by insects in parts of the Upper Sind Frontier; by locusts in parts of Hyderabad and Thar and Parkar; and are suffering from want of sufficient rain in parts of Broach, Surat, Nasik, Ahmednagar, Poona, Satara, the Karnatak, Baroda, Kathiawar, Cutch and Savantwadi. Harvesting of autumn crops has commenced in parts of Sind, Kaira, Ratnagiri and Khandesh. Lands are being prepared for spring cultivation in parts of Sind, Nasik, Ahmednagar, Satara and Rewa Kantha. Sowing of spring crops continues in parts of Larkana, the Upper Sind Frontier, Broach and Palanpur, but is retarded in parts of Ahmednagar, Sholapur, Bijapur and Dharwar. The fodder-supply is sufficient, except in parts of Karachi, Larkana, Hyderabad, Satara, Belgaum, Dharwar, Baroda and Cutch. Agricultural stock is sufficient and cattle are in good condition, except in parts of Satara. The water-supply is adequate, except in parts of Surat, Bijapur and Baroda. Prices have fallen in four districts; risen in five districts; and are stationary elsewhere. The daily average numbers on gratuitous relief for the week ending 16th instant were as follows:—Ahmednagar, 567; Poona, 425; Belgaum, 633; Bijapur, 1,166; total, 2,791.

Bengal.—Some rain fell all over the Province during the week; the fall was generally light, but was heavy in Bhagalpur and also in Purnea. Transplantation of winter rice is over. Harvesting of early rice and steeping and washing of jute are still going on in places. Some damage by excessive rain and floods is reported from Mymensingh, Tippera, Shahabad and Darbhanga; prospects are otherwise generally fair. Fodder is reported scarce in parts of the districts recently visited by floods. The price of common rice is ruling somewhat high in the districts of North and East Bengal, especially in Mymensingh and in parts of Dinajpur, Rangpur and Tippera.

United Provinces.—All but fifteen districts have received some rain during the week, but the falls were scanty and more rain is required, especially in Bundelkhand, the Rohilkhand, Meerut and Agra Divisions and in the districts of Unao and Cawnpore, where the standing crops are suffering and agricultural operations are retarded. Harvesting is in progress and sowings continue where possible. The number of workers on the two test works in Jalaun has risen to 1,686 from 1,023 in the preceding week. Slight damage to the standing crops is reported from locusts in Bara Banki, Rae Bareilly and Jaunpur and from floods in Ghazipur. The condition of agricultural stock continues poor in Jalaun. Fodder continues scarce in the Agra Division, and in Meerut, Aligarh, Jalaun and Jhansi; while the water-supply is deficient in Banda. Markets are sufficiently stocked. Prices are still high and show a tendency to rise in nine districts.

Punjab.—There was slight rainfall during the week at Rawalpindi. The prices of food-grains are easier. Sowings of gram, rapeseed (*Toria*), turnips, radish and peas are in progress. Ploughings for wheat and barley continue. Cotton pickings are in progress in Amritsar. The condition and prospects of the standing irrigated crops are generally good to average; in Delhi below average. Cattle are in good condition. Fodder is scarce in Delhi and in parts of Lahore, Shahpur and Mianwali. There are no complaints regarding the water-supply.

North-West Frontier Province.—Slight rain has fallen in all districts, except in Bannu, where it is badly wanted for crops on unirrigated lands. Preparation of land for spring sowings has commenced in Dera Ismail Khan and Bannu. The state of the standing crops on irrigated lands is good in Peshawar and Bannu and average in Dera Ismail Khan and on unirrigated lands average, except in parts of Peshawar and Dera Ismail Khan, where it is poor. The water-supply is satisfactory. Fodder is procurable, but is insufficient in parts of Peshawar and Dera Ismail Khan. Prices are stationary. Prices:—wheat, 14 to 18; maize, 19 to 23; barley, 17 to 25; and gram, 15 to 22 seers per rupee.

Burma.—The rainfall of the week was general; it was plentiful in Lower Burma and moderate in Upper Burma. Transplanting of wet-weather paddy is completed in three more districts of Lower Burma and is progressing in most districts of Upper Burma. Reaping of early hill-side paddy has commenced in the Northern Shan States and that of early sesamum is completed in the Myingun township of Magwe and is approaching

completion in Yamethin and Myingyan. Sowing of *juar* is in progress in several districts and of late sesamum in some places. The standing crops have been slightly destroyed by floods in some parts of Bassein and in the Pagan township of Thaton. Floods have also destroyed the early wet-weather paddy crop on an area yielding about 1,500 baskets of paddy in the Yenaingyaung township of Magwe. The state of the standing crops is generally good and prospects are favourable. The price of paddy has risen slightly in Akyab and Mandalay and fallen slightly in Rangoon, Maubin and Upper Chindwin.

Central Provinces.—After a useful break heavy rain fell at the close of the week in almost all parts of the Provinces; the only districts receiving none being Nimar, Akola and Buldana. The principal falls were Chindwara, Nagpur and Raipur 6 inches; Seoni 5½; Bhandara 4½; Jubbulpore 3½; Sambalpur 3½; and Betul 3; elsewhere the falls range between 2½ inches in Saugor, Narsinghpur and Balaghat to 1 inch in Damoh, Hoshangabad and Bilaspur. The rain has caused slight damage to *juar* and *til* in the Chanda tahsil and to crops in general in a limited area in the Melghat taluk of the Amraoti district. More rain is still required for rice in Bilaspur and in the Basim taluk of the Akola district. Transplantation of rice still continues in the Brahmapuri tahsil. Thinning operations have been completed in Raipur. Weeding continues in the Raipur and Bilaspur districts and is approaching completion in Sambalpur. The harvesting of early millets continues in Mandla, Chhindwara, Balaghat, in parts of Seoni and Amraoti and in the Harsud tahsil; is almost completed in the Khandwa tahsil and has commenced in the Burhanpur tahsil of the Nimar district. Sowings of late *til* have commenced in Nagpur and of *til* and *multha* are in progress in Sambalpur, and those of minor crops continue in the Melghat tahsil of the Amraoti district. Light rice is in ear in Chanda and its outturn is estimated to be only 15 per cent. of a normal crop, while that of heavy rice already transplanted ranges between 45 to 60. *Juar* is reported to be attacked by a disease called "Mahua" in Narsinghpur; some damage by insects to cotton and *juar* is reported from the Mangrul taluk of the Akola district. Scarcity of fodder still continues in parts of Buldana. Flights of locusts appeared in Damoh and Narsinghpur, but passed through without causing any damage. Prices are steady or fluctuate slightly.

Assam.—The weather is seasonable. Rain fell in all districts during the week. Plucking and manufacture of tea continue and prospects are good in Nowgong and fair elsewhere. Transplanting of late rice is finished in three districts. Ploughing for and sowing of pulses have commenced in places. Cutting of jute is in progress; prospects of jute and sugarcane are generally fair. Fodder is insufficient in parts of Sylhet, Goalpara, Kamrup and Darrang. Prices of common rice:—Silchar, 14; Tezpur, 12; Sibsagar and Dibrugarh, 11; Dhubri, Gauhati and Nowgong, 10; and Sylhet, 9 seers per rupee.

Mysore.—There was slight rain in Bangalore, Kolar, Mysore, Hassan and parts of Tumkur and Shimoga during the week. Prices are generally steady. The crops require more rain and prospects are not so favourable, owing to cessation of the rains. Cattle are healthy. Water is available. Fodder is scanty in parts of Tumkur, Mysore, Hassan, Kadur, Shimoga and Chitaldroog.

Coorg.—Rainfall—14 cents. Prices of food-grains are stationary. Water and fodder are sufficient.

Hyderabad.—Rainfall—40 cents. Prospects continue fair. More rain is generally required, specially in five districts. The autumn crops are withering in four taluks; early rice in one; insects are damaging castor-seed in two taluks; elsewhere the standing autumn crops are in good condition. The harvest has begun in ten taluks. Early rice is being weeded. Spring crops are being sown, and more lands are being prepared for them. Fodder and water are adequate. The price of *juar* has risen from ½ to 2 seers per rupee in five taluks and has fallen from 1 to 4 seers in eleven. Prices—wheat, 12½; coarse rice, 8½; *juar*, 20½ seers per rupee.

Rajputana.—The rainfall of the week in cents was as follows:—In four districts of Marwar varying from 10 to 155, in fifteen districts of Kotah from 25 to 338; Kishangarh 37; Ajmer 52, but not well distributed and tanks have not filled; good rain is reported from Shekhawati in Jaipur; none or practically none elsewhere. Reports from Dungarpur and Banswara have not been received. Agricultural operations are in progress in Sirohi, South Mewar, Partabgarh, Bundi, Kotah, Jhalawar and Dholpur. Late autumn sowings continue in Bikanir, Marwar, Jaisalmer and in parts of Ajmer-Merwara. In these tracts and in Kishangarh, Alwar and Bharatpur land is being prepared for spring sowings as far as recent rains permit. The standing crops on dry lands have benefited by recent rains in Sirohi, South Mewar, Partabgarh, Kotah, Jhalawar, parts of Bundi, Dholpur and Alwar; elsewhere they had been practically lost. The autumn crop in Karauli is estimated at between two and four annas in the rupee. Irrigated crops are generally doing well. The condition of cattle is poor in Jaisalmer, the northern parts of Mewar, Alwar and Bharatpur. Pasturage and fodder are generally insufficient, except in South Rajputana, but some improvement has taken place owing to recent rains. Cattle emigration continues in Marwar, Jaisalmer and Ajmer and has begun in Bharatpur and Karauli. A few are reported to have returned to Marwar. Prices are much above normal; they are stationary in Tonk, Shahpura, Kotah
